Deuteronomy 4:19–20 And do this so that you do not lift your eyes *toward* heaven and observe the sun and the moon and the stars, all the host of the heaven, and be led astray and bow down to them and serve them, things that Yahweh your God has allotted to all *of* the peoples under all *of* the heaven. 20 But Yahweh has taken you and brought you out from the furnace of iron, from Egypt, to be a people of inheritance to him, as it is this day.

1 Kings 22:13–23 Then the messenger who had gone to summon Micaiah said to him, "Please now, the words of the prophets are unanimously favorable to the king. Please let your words be as one word with them, and speak favorably." 14 Then Micaiah said, "As Yahweh lives, surely only as Yahweh speaks to me, that will I speak." 15 When he came to the king, the king asked him, "Micaiah, shall we go to Ramoth-Gilead to the battle, or shall we refrain?" He said to him, "Go up and triumph, and Yahweh will give *it* into the hand of the king." 16 Then the king said to him, "How many times must I make you swear that you shall not tell me *anything* but truth in the name of Yahweh?" 17 So he said, "I saw all of Israel scattering to the mountains, like the sheep without a shepherd. Yahweh also said, 'There are no masters for these, let them return in peace, each to his house.' " 18 Then the king of Israel said to Jehoshaphat, "Did I not say to you that he would not prophesy good concerning me, but disaster?"

19 And he said, "Therefore, hear the word of Yahweh. I saw Yahweh sitting on his throne with all the hosts of heaven standing beside him from his right hand and from his left *hand*. 20 And Yahweh said, 'Who will entice

Ahab so that he will go up and fall at Ramoth-Gilead?’ Then this one was saying one thing and the other one was saying another. 21 Then a spirit came out and stood before Yahweh and said, ‘I will entice him,’ and Yahweh said to him, ‘How?’ 22 He said, ‘I will go out and I will be a false spirit in the mouth of all his prophets.’ And he said, ‘You shall entice and succeed, go out and do so.’ 23 So then, see that Yahweh has placed a false spirit in the mouth of all of these your prophets, and Yahweh has spoken disaster concerning you.”

Deuteronomy 17:2–5 If *there* is found in one of your towns that Yahweh your God *is* giving to you a man or a woman that does evil in the eyes of Yahweh your God to transgress his covenant 3 and by going and serving other gods and *so* he bows down to them and to the sun or to the moon or to any *of* the host of heaven which I have forbidden, 4 and it is reported to you or you hear *about it* and you enquire *about it* thoroughly and, indeed, *the* trustworthiness of the deed *has* been established, it has occurred, this detestable thing, in Israel, 5 then you shall bring out that man or that woman who has done this evil thing to your gates; that is, the man or the woman, and you shall stone them with stones to death.

Deuteronomy 29:25 And they will say, ‘*It is* because they abandoned the covenant of Yahweh, the God of their ancestors, which he made with them when he brought them out from the land of Egypt.

Joshua 5:13–15 And it happened, when Joshua was by Jericho, he looked up, and he saw a man standing opposite him *with* his sword drawn in his hand. And Joshua went to him and said, “Are you with us, or with our adversaries?” 14 And he said, “Neither. I have come now *as* the commander of Yahweh’s army.” And Joshua fell on his face to the earth, and he bowed down and said to him, “What *is* my lord commanding his servant?” 15 The commander of Yahweh’s army said to Joshua, “Take off your sandals from your feet, for the place where you *are* standing *is* holy.” And Joshua did so.

Genesis 4:1 Now Adam knew Eve his wife, and she conceived and bore Cain. And she said, “I have given birth to a man with *the help of* Yahweh.”

Genesis 18:9–14 And they said to him, “Where *is* Sarah your wife?” And he said, “Here, in the tent.” [10] And he said, “I will certainly return to you in the spring, and look, Sarah your wife *will have* a son.” Now Sarah *was* listening at the doorway of the tent, and which *was* behind him. [11] Now Abraham and Sarah *were* old, advanced in age; the way of women had ceased to be for Sarah. [12] So Sarah laughed to herself saying, “After I am worn out and my husband is old, shall *this* pleasure be to me?” [13] Then Yahweh said to Abraham, “What *is* this *that* Sarah laughed, saying, ‘Is it indeed true *that* I will bear a child, now *that* I have grown old?’ [14] Is anything too difficult for Yahweh? At the appointed time I will return to you in the spring and Sarah *shall have* a son.”

Genesis 21:1–2 And Yahweh visited Sarah as he had said. And Yahweh did to Sarah as he had promised. [2] And she conceived, and Sarah bore to Abraham a son in his old age at the appointed time that God had told him.

Genesis 25:21 And Isaac prayed to Yahweh on behalf of his wife, for she *was* barren. And Yahweh responded to his prayer, and Rebekah his wife conceived.

Genesis 29:32–35 Then Leah conceived and gave birth to a son, and she called his name Reuben, for she said, “Because Yahweh has noticed my misery. Surely now my husband will love me.” [33] And she conceived again and gave birth to a son. And she said, “*It is* because Yahweh has heard that I *am* unloved that he gave me this *son* also.” And she called his name

Simeon. [34] And she conceived again and gave birth to a son. Then she said, “Now this time my husband will be joined to me, for I have borne him three sons.” Therefore, she called his name Levi. [35] And she conceived again and gave birth to a son. And she said, “This time I will praise Yahweh.” Therefore she called his name Judah. And she ceased bearing children.

Genesis 30:16–24 When Jacob came in from the field in the evening, Leah went out to meet him. And she said, “Come in to me, for I have hired you with my son’s mandrakes.” And he slept with her that night. [17] And God listened to Leah and she conceived and gave birth to a fifth son for Jacob. [18] Then Leah said, “God has given *me* my wage since I gave my slave girl to my husband.” And she called his name Issachar. [19] And Leah conceived again and gave birth to a sixth son for Jacob. [20] And Leah said, “God has endowed me with a good gift. This time my husband will acknowledge me, because I bore him six sons.” And she called his name Zebulun. [21] And afterward she gave birth to a daughter. And she called her name Dinah. [22] Then God remembered Rachel and listened to her, and God opened her womb. [23] And she conceived and gave birth to a son. And she said, “God has taken away my disgrace.” [24] And she called his name Joseph, saying, “Yahweh has added to me another son.”

1 Samuel 1:19–20 Then they rose early in the morning and worshiped before Yahweh and returned to their house at Ramah. Then Elkanah had sexual relations with Hannah his wife, and Yahweh remembered her. [20] In due time, Hannah conceived and gave birth to a son. She called his name Samuel, for *she said*, “I requested him from Yahweh.”

Psalm 17:14 from men by your hand, O Yahweh, from men of *this* world.

Their share *is* in this life, and you fill their stomach *with* your treasure.

They are satisfied *with* children.

They bequeath their excess to their children.

Psalm 127:3 Look, children *are* the heritage of Yahweh; the fruit of the womb *is* a reward.

Isaiah 44:2 Thus says Yahweh, who made you, and who formed you in *the* womb and will help you: you must not fear, my servant Jacob,

and Jeshurun whom I have chosen.

Isaiah 44:24 Thus says Yahweh, your redeemer, and he who formed you in *the* womb: "I *am* Yahweh, who made everything, who stretched out *the* heavens alone, who spread out the earth—who *was* with me?—

James 2:19 You believe that God is one; you do well. Even the demons believe, and shudder!

Genesis 11:1–9 Now the whole earth *had* one language and the same words.
2 And as people migrated from the east they found a plain in the land of Shinar and settled there. 3 And they said to each other, "Come, let us make bricks and burn them thoroughly." And they had brick for stone and they had tar for mortar. 4 And they said, "Come, let us build ourselves a city and a tower whose top *reaches to* the heavens. And let us make a name for ourselves, lest we be scattered over the face of the whole earth."

5 Then Yahweh came down to see the city and the tower that humankind was building. 6 And Yahweh said, "Behold, they are one people with one language, and this is only the beginning of what they will do. So now nothing that they intend to do will be impossible for them. 7 Come, let us go down and confuse their language there, so that they will not understand each other's language." 8 So Yahweh scattered them from there over the face of the whole earth, and they stopped building the city. 9 Therefore its name was called Babel, for there Yahweh confused the language of the whole earth, and there Yahweh scattered them over the face of the whole earth.

Deuteronomy 32:8–9 When the Most High apportioned *the* nations, at his dividing *up* of the sons of humankind, he fixed the boundaries of *the* peoples, according to the number of the children of Israel.

2 Esdras 5:1–13 Nevertheless as concerning the tokens, behold, the days shall come, that they which dwell upon earth shall be taken in a great number, and the way of truth shall be hidden, and the land shall be barren of faith. [2] But iniquity shall be increased above that which now thou seest, or that thou hast heard long ago. [3] And the land, that thou seest now to have root, shalt thou see wasted suddenly. [4] But if the most High grant thee to live, thou shalt see after the third trumpet that the sun shall suddenly shine again in the night, and the moon thrice in the day: [5] And blood shall drop out of wood, and the stone shall give his voice, and the people shall be troubled: [6] And even he shall rule, whom they look not for that dwell upon the earth, and the fowls shall take their flight away together: [7] And the Sodomitish sea shall cast out fish, and make a noise in the night, which many have not known: but they shall all hear the voice thereof. [8] There shall be a confusion also in many places, and the fire shall be oft sent out again, and the wild beasts shall change their places, and menstruous women shall bring forth monsters: [9] And salt waters shall be found in the sweet, and all friends shall destroy one another; then shall wit hide itself, and understanding withdraw itself into his secret chamber, [10] And shall be sought of many, and yet not be found: then shall unrighteousness and incontinency be multiplied upon earth. [11] One land also shall ask another, and say, Is righteousness that maketh a man righteous gone through thee? And it shall say, No. [12] At the same time shall men hope, but nothing obtain: they shall labour, but their ways shall not prosper. [13] To shew thee such tokens I have leave; and if thou wilt pray again, and weep as now, and fast seven days, thou shalt hear yet greater things.

2 Esdras 12:29–33 And whereas thou sawest two feathers under the wings
passing over the head that is on the right side; 30 It signifieth that these are
they, whom the Highest hath kept unto their end: this is the small kingdom
and full of trouble, as thou sawest.
31 And the lion, whom thou sawest rising up out of the wood, and
roaring, and speaking to the eagle, and rebuking her for her unrighteousness
with all the words which thou hast heard; 32 This is the anointed, which the
Highest hath kept for them and for their wickedness unto the end: he shall
reprove them, and shall upbraid them with their cruelty. 33 For he shall set
them before him alive in judgment, and shall rebuke them, and correct
them.

2 Esdras 13:25–38 This is the meaning of the vision: Whereas thou sawest a
man coming up from the midst of the sea: 26 The same is he whom God the
Highest hath kept a great season, which by his own self shall deliver his
creature: and he shall order them that are left behind. 27 And whereas thou
sawest, that out of his mouth there came as a blast of wind, and fire, and
storm; 28 And that he held neither sword, nor any instrument of war, but that
the rushing in of him destroyed the whole multitude that came to subdue
him; this is the interpretation: 29 Behold, the days come, when the most
High will begin to deliver them that are upon the earth. 30 And he shall
come to the astonishment of them that dwell on the earth. 31 And one shall
undertake to fight against another, one city against another, one place
against another, one people against another, and one realm against another.
32 And the time shall be when these things shall come to pass, and the signs
shall happen which I shewed thee before, and then shall my Son be
declared, whom thou sawest as a man ascending. 33 And when all the people
hear his voice, every man shall in their own land leave the battle they have
one against another. 34 And an innumerable multitude shall be gathered
together, as thou sawest them, willing to come, and to overcome him by
fighting. 35 But he shall stand upon the top of the mount Sion. 36 And Sion
shall come, and shall be shewed to all men, being prepared and builded, like
as thou sawest the hill graven without hands. 37 And this my Son shall
rebuke the wicked inventions of those nations, which for their wicked life

are fallen into the tempest; [38] And shall lay before them their evil thoughts, and the torments wherewith they shall begin to be tormented, which are like unto a flame: and he shall destroy them without labour by the law which is like unto fire.

Genesis 19:27–32 And Abraham arose early in the morning *and went* to the place where he had stood before Yahweh. [28] And he looked down upon the surface of Sodom and Gomorrah, and upon the whole surface of the land, the plain. And he saw that, behold, the smoke of the land went up like the smoke of a smelting furnace. [29] So it was, when God destroyed the cities of the plain that God remembered Abraham and sent Lot out from the midst of the overthrow, when he overthrew the cities in which Lot lived.

[30] And Lot went out from Zoar and settled in the hill country with his two daughters, for he was afraid to stay in Zoar. So he lived in a cave, he and his two daughters. [31] And the firstborn *daughter* said to the younger one, “Our father is old, and there is no man in the land to come in to us according to the manner of all the land. [32] Come, let us give our father wine to drink and let us lie with him that we may secure descendants through our father.”

Revelation 12:1–9 And a great sign appeared in heaven: a woman clothed with the sun and *with* the moon under her feet, and on her head a crown of twelve stars, [2] and who was pregnant and was crying out *because she* was having birth pains, and was in torment to give birth. [3] And another sign appeared in heaven, and behold, a great fiery red dragon, having seven heads and ten horns, and on his heads *were* seven royal headbands. [4] And his tail swept away a third of the stars from heaven and threw them to the earth. And the dragon stood before the woman who was about to give birth, in order that whenever she gave birth to her child he could devour *it*. [5] And she gave birth to a son, a male *child*, who is going to shepherd all the nations with an iron rod, and her child was snatched away to God and to his throne. [6] And the woman fled into the wilderness, where she had a place prepared there by God, so that they could feed her there *for one* thousand two hundred sixty days.

[7] And there was war in heaven; Michael and his angels fought against the dragon, and the dragon and his angels fought back. [8] And they did not prevail, nor was a place found for them *any* longer in heaven. [9] And the great dragon was thrown down, the ancient serpent, who is called the devil and Satan, who deceives the whole world. He was thrown down to the earth, and his angels were thrown down with him.

2 Samuel 15:24–25 Suddenly Zadok *was* there, and all of the Levites with him, carrying the ark of the covenant of God. They set the ark of God down, and Abiathar offered sacrifices until all the people passed out of the city. [25] The king said to Zadok, “Let the ark of God return to the city. If I find favor in the eyes of Yawheh, he will let me return and let me see him in his dwelling place.

Hebrews 5:9 and being perfected, he became the source of eternal salvation to all those who obey him,

Genesis 6:1–4 And it happened *that,* when humankind began to multiply on the face of the ground, daughters were born to them. [2] Then the sons of God saw the daughters of humankind, that they *were* beautiful. And they took for themselves wives from all that they chose. [3] And Yahweh said, “My Spirit shall not abide with humankind forever in that he *is* also flesh. And his days *shall be* one hundred and twenty years.” [4] The Nephilim *were* upon the earth in those days, and also afterward, when the sons of God went into the daughters of humankind, and they bore children to them. These *were* the mighty warriors that *were* from ancient times, men of renown.

Daniel 7:20–28 and concerning the horns that *were* on its head, and *concerning the* other *horn* that came up and before which three horns fell, and this horn had eyes and *a* mouth speaking boastfully, and its appearance *was* larger than its companions. 21 I continued watching, and this horn made war with *the* holy ones and it prevailed over them, 22 until the Ancient of Days came and gave judgment to *the* holy ones of *the* Most High; and the time arrived and *the* holy ones took possession of the kingdom.

23 "And he said, 'The fourth beast *is* the fourth kingdom *that* will be on the earth that will be different from all the *other* kingdoms, and it will devour the whole earth and it will trample it and it will crush it. 24 And *as for* the ten horns *coming* from it, *from* this kingdom ten kings will arise, and another will arise after them. And he will be different from the earlier *ones*, and he will subdue three kings. 25 And he will speak words against the Most High, and he will wear out *the* holy ones of the Most High, and he will attempt to change times and law, and they will be given into his hand for a time and two times and half a time. 26 Then the court will sit, and his dominion will be removed, to be eradicated and to be destroyed totally. 27 And the kingdom and the dominion and the greatness of the kingdoms under the whole heaven will be given to *the* nation of *the* holy ones of the Most High; his kingdom is an everlasting kingdom, and all the dominions will serve and obey him.'

28 This is the end of the account. As for me, Daniel—my thoughts terrified me greatly and my face changed over me, but I kept the matter in my heart."

Zechariah 14:1–5 Look! A day *is* coming for Yahweh, when your plunder will be divided in your midst. 2 I will gather all the nations against Jerusalem to battle, and the city will be captured, and they will loot the houses, and the women will be raped; half of the city will go into exile, but the remainder of the people will not be cut off from the city. 3 Then Yahweh will go forth and fight against those nations, like when he fights on a day of battle. 4 On that day his feet will stand on the Mount of Olives, which faces Jerusalem on *the* east; and the Mount of Olives will be split in half, from east to west, *by* a very great valley; and half of the mountain will withdraw

toward the north, and the other half toward the south. [5] And you will flee *by* the valley of my mountains, because the valley of *the* mountains will reach to Azal, and you will flee like you fled from the earthquake in the days of King Uzziah of Judah. And Yahweh my God will come, *and* all *the* holy ones with him.

Isaiah 24:21–23 And this shall happen on that day: Yahweh will punish the host of heaven in heaven,

and the kings of the earth on the earth.

[22] And they will be gathered *in* a gathering, *like* a prisoner in a pit.

And they will be shut in a prison and be punished after many days.

[23] And the full moon will be ashamed and the sun will be ashamed,

for Yahweh of hosts will rule on Mount Zion and in Jerusalem, and before his elders *in* glory.

1 Chronicles 3:19 And the sons of Pedaiah: Zerubbabel and Shimei. And the sons of Zerubbabel: Meshullam and Hananiah, and Shelomith their sister,

Deuteronomy 25:5f “When brothers dwell together and one of them dies and has no son, the wife of the deceased shall not become the wife of a man of another family; her brother-in-law shall have sex with her, and he shall take her to himself as *a* wife, and he shall perform his duty as *a* brother-in-law *with respect to* her. [6] And then the firstborn that she bears shall represent his dead brother, so that his name is not blotted out from Israel.

Ruth 4:10 And also Ruth the Moabite, the wife of Mahlon, I have acquired as a wife, to raise up the name of the dead over his inheritance, so that the name of the dead may not be cut off from his relatives and from the gate of his *birth* place. You *are* witnesses today.”

Zechariah 4:6–9 And he answered and said to me, “This *is* the word of Yahweh to Zerubbabel, saying, ‘Not by strength and not by power, but *only* by my Spirit,’ says Yahweh of hosts. 7 ‘Who *are* you O great mountain? Before Zerubbabel *you will become* level ground, and he will bring out the top stone amid the shouts of “Grace, grace to it!” ’ ” 8 And the word of Yahweh came to me, saying, 9 “The hands of Zerubbabel have founded this house, and his hands will finish it. And you will know that Yahweh of hosts has sent me to you.

Zechariah 3:1–10 And he showed me Joshua the high priest standing before the angel of Yahweh; and Satan was standing on his right to accuse him. 2 But Yahweh said to Satan, “Yahweh rebukes you, O Satan! Yahweh who has chosen Jerusalem rebukes you! *Is* this not a stick snatched from the fire?” 3 And Joshua was clothed *in* filthy garments and was standing before the angel. 4 And he answered and said to the ones standing before him, saying, “Remove the filthy garments from him.” And he said to him, “See, I have taken away your guilt from you, and will clothe you *with* rich garments.” 5 And I said, “Let them put a clean headband on his head.” And they put a clean headband on his head, and they clothed him *with* garments. And the angel of Yahweh *was* standing *by*.

6 And the angel of Yahweh assured Joshua, saying, 7 “Thus says Yahweh of hosts: ‘If you will walk in my ways, and if you will keep my requirements, then you will judge my house, and you will also guard my courtyards, and I will give to you passageways among these that are standing here. 8 Listen, please, O Joshua the high priest, you and your companions that are sitting before you. For *the* men *are* a sign that, look, I *am* going to bring my servant *the* Branch. 9 For consider, the stone that I set before Joshua, on one stone *are* seven eyes. Look, I am going to engrave an inscription on it,’ declares Yahweh of hosts, ‘and I will remove the guilt of that land in a single day. 10 On that day,’ declares Yahweh of hosts, ‘you will invite one another under *the* vine and under *the* fig tree.’ ”

Zechariah 6:9–15 And the word of Yahweh came to me, saying, 10 “Collect from the exiles—from Heldai, Tobijah, and from Jedaiah, *all of* whom came from Babylon—and go on that day, go *to the* house of Josiah son of

Zephaniah. [11] Take *the* silver and gold and make a crown, and set *it* on the head of Joshua son of Jehozadak, the high priest. [12] And say to him, ‘Thus says Yahweh of hosts: “Look, *here is* a man whose name *is* Branch, and from his place he will sprout, and he will build the temple of Yahweh. [13] And he will build the temple of Yahweh, and he will bear majesty and will sit and rule on his throne. And he shall be a priest on his throne, and the counsel of peace will be between the two of them.” ’ [14] And the crown will be for Helem, for Tobijah, for Jedaiah, and for Hen son of Zephaniah, as a memorial in the temple of Yahweh. [15] And those who are far off will come and build the temple of Yahweh, and you will know that Yahweh of hosts has sent me to you. And it will happen if you will listen diligently to the voice of Yahweh your God.”

Hosea 11:1 When Israel was a child, I loved him, and out of Egypt I called my son.

Genesis 46:1–4 So Israel journeyed with all that he had, and he came to Beersheba and offered sacrifices to the God of his father, Isaac. [2] And God spoke to Israel in visions of the night and said, “Jacob, Jacob.” And he said, “Here I *am*.” [3] Then he said, “I *am* God, the God of your father. Do not be afraid to go down to Egypt, for I will make you a great nation there. [4] I myself will go down with you to Egypt, and I myself will also bring you up. And Joseph will place his hand over your eyes.”

Jeremiah 31:31–33 Look, *the* days *are* coming,” declares Yahweh, “and I will make a new covenant with the house of Israel and with the house of Judah, [32] not like the covenant that I made with their ancestors on the day of my grasping *them* by their hand, bringing them out from the land of Egypt, my covenant that they themselves broke, though I myself was a master over them,” declares Yahweh. [33] “But this *is* the covenant that I will make with the house of Israel after those days,” declares Yahweh: “I will put my law in their inward parts and on their hearts I will write it, and I will be to them God, and they themselves will be to me people.

Exodus 33:7–11 And Moses took the tent and pitched it outside the camp far from the camp, and he called it the tent of assembly, and all seeking

Yahweh would go out to the tent of assembly, which *was* outside the camp. [8] And at the going out of Moses to the tent, all the people would rise and stand, each at the opening of his tent, and gaze after Moses until his entering the tent. [9] And at the entering of Moses *into* the tent the column of cloud would descend and stand *at* the opening of the tent, and he would speak with Moses. [10] And all the people would see the column of cloud standing *at* the opening of the tent, and all the people would rise and bow in worship, each *at* the opening of his tent. [11] And Yahweh would speak to Moses face to face, as a man speaks to his neighbor. And he would return to the camp, and his assistant Joshua the son of Nun, a young man, did not leave the middle of the tent.

Exodus 27:21 In the tent of assembly outside the curtain that *is* before the testimony, Aaron and his sons will arrange it, from evening until morning, before Yahweh *as* a lasting statute throughout their generations from the Israelites.

Exodus 28:43 And they will be on Aaron and on his sons when they come to the tent of assembly or when they approach the altar to serve in the sanctuary, so that they will not bear guilt and die. *It is* a lasting statute for him and for his offspring after him.

Exodus 30:26 And you will anoint with it the tent of assembly and the ark of the testimony,

Exodus 33:7–11 And Moses took the tent and pitched it outside the camp far from the camp, and he called it the tent of assembly, and all seeking Yahweh would go out to the tent of assembly, which *was* outside the camp. the camp, and his assistant Joshua the son of Nun, a young man, did not leave the middle of the tent.

1 Samuel 2:22 Now Eli was very old, and he heard all that his sons were doing to all Israel and that they *were* having sexual relations with the women who *were* serving *at* the entrance of *the* tent of assembly.

2 Chronicles 1:3 And Solomon and the whole assembly with him went to the high place that *was* at Gibeon, for the tent of assembly of God that Moses the servant of Yahweh had made in the desert was there.

1 Kings 8:4 So they brought up the ark of Yahweh and the tent of assembly and all of the holy vessels that *were* in the tent; the priests and the Levites brought them up.

2 Samuel 15:24–25 Suddenly Zadok *was* there, and all of the Levites with him, carrying the ark of the covenant of God. They set the ark of God down, and Abiathar offered sacrifices until all the people passed out of the city. [25] The king said to Zadok, “Let the ark of God return to the city. If I find favor in the eyes of Yawheh, he will let me return and let me see him in his dwelling place.

1 Kings 3:4 So the king went to Gibeon to sacrifice, for the great high place *was* there. Solomon used to offer a thousand burnt offerings on that altar.

2 Chronicles 1:3 And Solomon and the whole assembly with him went to the high place that *was* at Gibeon, for the tent of assembly of God that Moses the servant of Yahweh had made in the desert was there.

Deuteronomy 32:17 They sacrificed to the demons, not God, *to* gods whom they had not known, new *gods who* came from recent times; their ancestors had not known them.

1 Corinthians 10:20 *No*, but that *the things* which they sacrifice, they sacrifice to demons and not to God, and I do not want you to become sharers with demons.

Deuteronomy 32:17 They sacrificed to the demons, not God, *to* gods whom they had not known, new *gods who* came from recent times; their ancestors

had not known them.

1 Corinthians 10:20 *No*, but that *the things* which they sacrifice, they sacrifice to demons and not to God, and I do not want you to become sharers with demons.

Deuteronomy 32:8–9 When the Most High apportioned *the* nations, at his dividing *up* of the sons of humankind, he fixed the boundaries of *the* peoples, according to the number of the children of Israel.

9 For Yahweh's portion *was* his people, Jacob the share of his inheritance.

Deuteronomy 32:8 When the Most High apportioned *the* nations, at his dividing *up* of the sons of humankind, he fixed the boundaries of *the* peoples, according to the number of the children of Israel.

Deuteronomy 4:19–20 And do this so that you do not lift your eyes *toward* heaven and observe the sun and the moon and the stars, all the host of the heaven, and be led astray and bow down to them and serve them, things that Yahweh your God has allotted to all *of* the peoples under all *of* the heaven. 20 But Yahweh has taken you and brought you out from the furnace of iron, from Egypt, to be a people of inheritance to him, as it is this day.

1 Kings 22:13–23 Then the messenger who had gone to summon Micaiah said to him, "Please now, the words of the prophets are unanimously favorable to the king. Please let your words be as one word with them, and speak favorably." 14 Then Micaiah said, "As Yahweh lives, surely only as Yahweh speaks to me, that will I speak." 15 When he came to the king, the king asked him, "Micaiah, shall we go to Ramoth-Gilead to the battle, or shall we refrain?" He said to him, "Go up and triumph, and Yahweh will give *it* into the hand of the king." 16 Then the king said to him, "How many times must I make you swear that you shall not tell me *anything* but truth in the name of Yahweh?" 17 So he said, "I saw all of Israel scattering to the mountains, like the sheep without a shepherd. Yahweh also said, 'There are no masters for these, let them return in peace, each to his house.' " 18 Then the king of Israel said to Jehoshaphat, "Did I not say to you that he would not prophesy good concerning me, but disaster?"

19 And he said, “Therefore, hear the word of Yahweh. I saw Yahweh
sitting on his throne with all the hosts of heaven standing beside him from
his right hand and from his left *hand*. 20 And Yahweh said, ‘Who will entice
Ahab so that he will go up and fall at Ramoth-Gilead?’ Then this one was
saying one thing and the other one was saying another. 21 Then a spirit came
out and stood before Yahweh and said, ‘I will entice him,’ and Yahweh said
to him, ‘How?’ 22 He said, ‘I will go out and I will be a false spirit in the
mouth of all his prophets.’ And he said, ‘You shall entice and succeed, go
out and do so.’ 23 So then, see that Yahweh has placed a false spirit in the
mouth of all of these your prophets, and Yahweh has spoken disaster
concerning you.”

Deuteronomy 17:2–5 If *there* is found in one of your towns that Yahweh
your God *is* giving to you a man or a woman that does evil in the eyes of
Yahweh your God to transgress his covenant 3 and by going and serving
other gods and *so* he bows down to them and to the sun or to the moon or to
any *of* the host of heaven which I have forbidden, 4 and it is reported to you
or you hear *about it* and you enquire *about it* thoroughly and, indeed, *the*
trustworthiness of the deed *has* been established, it has occurred, this
detestable thing, in Israel, 5 then you shall bring out that man or that woman
who has done this evil thing to your gates; that is, the man or the woman,
and you shall stone them with stones to death.

Deuteronomy 29:25 And they will say, ‘*It is* because they abandoned the
covenant of Yahweh, the God of their ancestors, which he made with them
when he brought them out from the land of Egypt.

they had not known, new *gods who* came from recent times; their ancestors
had not known them.

Deuteronomy 32:8–9 When the Most High apportioned *the* nations, at his
dividing *up* of the sons of humankind, he fixed the boundaries of *the*
peoples, according to the number of the children of Israel.

9 For Yahweh’s portion *was* his people, Jacob the share of his
inheritance.

Genesis 12:1–3 And Yahweh said to Abram, “Go out from your land and
from your relatives, and from the house of your father, to the land that I will
show you. 2 And I will make you a great nation, and I will bless you, and I
will make your name great. And you will be a blessing. 3 And I will bless
those who bless you, and those who curse you I will curse. And all families
of the earth will be blessed in you.”

Genesis 49:10 The scepter shall not depart from Judah, nor the ruler’s staff
between his feet,

until Shiloh comes.

And to him shall be the obedience of nations.

Numbers 13:32–33 And they presented the report of the land that they
explored to the Israelites, saying, “The land that we went through to explore
is a land that eats its inhabitants, and all the people whom we saw in its
midst *are* men of great size. 33 There we saw the Nephilim (the descendants
of Anak *came* from the Nephilim), and we were like grasshoppers in our
own sight, and so we were in their eyes.”

Numbers 21:31–35 Thus Israel lived in the land of the Amorites. 32 Moses
sent to explore Jaazer; they captured its environs and dispossessed the
Amorites who *were* there.

33 Then they turned and went up *by* the way of the Bashan, and Og king of
the Bashan and all his people went out to meet them for battle *at* Edrei. 34
And Yahweh said to Moses, “Do not fear him because I will give him and
all his people and all his land into your hand. You will do to him just as you
did to Sihon king of the Amorites, who was living in Heshbon.” 35 And so
they destroyed him and his sons, and all his people until they had not spared
a survivor; and they took possession of his land.

Joshua 11:21–22 At that time Joshua came and exterminated the Anakites
from the hill country, from Hebron, Debir, Anab, and from all the hill
country of Judah, and from all the hill country of Israel; Joshua utterly
destroyed them with their cities. 22 None of the Anakites were left in the
land of the Israelites; some remained only in Gaza, Gath, and Ashdod.

Joshua 14:12–15 So now give me this hill country that Yahweh spoke *of* on that day, for you heard on that day that the Anakites *were* there, with great and fortified cities. Perhaps Yahweh *is* with me, and I will drive them out just as Yahweh promised.”

13 And Joshua blessed him and gave Hebron to Caleb son of Jephunneh as an inheritance. 14 Thus Hebron became the inheritance of Caleb son of Jephunneh the Kenizzite to this day, because he remained true to Yahweh the God of Israel. 15 And the name of Hebron formerly *was* Kiriath Arba; *Arba was* the greatest person among the Anakites. And the land rested from war.

James 2:19 You believe that God is one; you do well. Even the demons believe, and shudder!

Genesis 11:1–9 Now the whole earth *had* one language and the same words. 2 And as people migrated from the east they found a plain in the land of Shinar and settled there. 3 And they said to each other, “Come, let us make bricks and burn them thoroughly.” And they had brick for stone and they had tar for mortar. 4 And they said, “Come, let us build ourselves a city and a tower whose top *reaches to* the heavens. And let us make a name for ourselves, lest we be scattered over the face of the whole earth.”

5 Then Yahweh came down to see the city and the tower that humankind was building. 6 And Yahweh said, “Behold, they are one people with one language, and this is only the beginning of what they will do. So now nothing that they intend to do will be impossible for them. 7 Come, let us go down and confuse their language there, so that they will not understand each other’s language.” 8 So Yahweh scattered them from there over the face of the whole earth, and they stopped building the city. 9 Therefore its name was called Babel, for there Yahweh confused the language of the whole earth, and there Yahweh scattered them over the face of the whole earth.

2 Esdras 5:1–13 Nevertheless as concerning the tokens, behold, the days shall come, that they which dwell upon earth shall be taken in a great number, and the way of truth shall be hidden, and the land shall be barren of faith. [2] But iniquity shall be increased above that which now thou seest, or that thou hast heard long ago. [3] And the land, that thou seest now to have root, shalt thou see wasted suddenly. [4] But if the most High grant thee to live, thou shalt see after the third trumpet that the sun shall suddenly shine again in the night, and the moon thrice in the day: [5] And blood shall drop out of wood, and the stone shall give his voice, and the people shall be troubled: [6] And even he shall rule, whom they look not for that dwell upon the earth, and the fowls shall take their flight away together: [7] And the Sodomitish sea shall cast out fish, and make a noise in the night, which many have not known: but they shall all hear the voice thereof. [8] There shall be a confusion also in many places, and the fire shall be oft sent out again, and the wild beasts shall change their places, and menstruous women shall bring forth monsters: [9] And salt waters shall be found in the sweet, and all friends shall destroy one another; then shall wit hide itself, and understanding withdraw itself into his secret chamber, [10] And shall be sought of many, and yet not be found: then shall unrighteousness and incontinency be multiplied upon earth. [11] One land also shall ask another, and say, Is righteousness that maketh a man righteous gone through thee? And it shall say, No. [12] At the same time shall men hope, but nothing obtain: they shall labour, but their ways shall not prosper. [13] To shew thee such tokens I have leave; and if thou wilt pray again, and weep as now, and fast seven days, thou shalt hear yet greater things.

2 Esdras 12:29–33 And whereas thou sawest two feathers under the wings passing over the head that is on the right side; [30] It signifieth that these are they, whom the Highest hath kept unto their end: this is the small kingdom and full of trouble, as thou sawest.

Look, I am going to engrave an inscription on it,' declares Yahweh of hosts, 'and I will remove the guilt of that land in a single day. [10] On that day,' declares Yahweh of hosts, 'you will invite one another under *the* vine and under *the* fig tree.' "

Zechariah 6:9–15 And the word of Yahweh came to me, saying, [10] "Collect from the exiles—from Heldai, Tobijah, and from Jedaiah, *all of* whom came from Babylon—and go on that day, go *to the* house of Josiah son of Zephaniah. [11] Take *the* silver and gold and make a crown, and set *it* on the head of Joshua son of Jehozadak, the high priest. [12] And say to him, 'Thus says Yahweh of hosts: "Look, *here is* a man whose name *is* Branch, and from his place he will sprout, and he will build the temple of Yahweh. [13] And he will build the temple of Yahweh, and he will bear majesty and will sit and rule on his throne. And he shall be a priest on his throne, and the counsel of peace will be between the two of them." ' [14] And the crown will be for Helem, for Tobijah, for Jedaiah, and for Hen son of Zephaniah, as a memorial in the temple of Yahweh. [15] And those who are far off will come and build the temple of Yahweh, and you will know that Yahweh of hosts has sent me to you. And it will happen if you will listen diligently to the voice of Yahweh your God."

Hosea 11:1 When Israel was a child, I loved him, and out of Egypt I called my son.

Genesis 46:1–4 So Israel journeyed with all that he had, and he came to Beersheba and offered sacrifices to the God of his father, Isaac. [2] And God spoke to Israel in visions of the night and said, "Jacob, Jacob." And he said, "Here I *am*." [3] Then he said, "I *am* God, the God of your father. Do not be afraid to go down to Egypt, for I will make you a great nation there. [4] I myself will go down with you to Egypt, and I myself will also bring you up. And Joseph will place his hand over your eyes."

Jeremiah 31:31–33 Look, *the* days *are* coming," declares Yahweh, "and I will make a new covenant with the house of Israel and with the house of Judah, [32] not like the covenant that I made with their ancestors on the day of my grasping *them* by their hand, bringing them out from the land of Egypt, my covenant that they themselves broke, though I myself was a master over them," declares Yahweh. [33] "But this *is* the covenant that I will make with the house of Israel after those days," declares Yahweh: "I will put my law in their inward parts and on their hearts I will write it, and I will be to them God, and they themselves will be to me people.

Isaiah 14:13–14 And you yourself said in your heart, 'I will ascend *to* heaven; I will raise up my throne above the stars of God;

and I will sit on *the* mountain of assembly on the summit of Zaphon;

[14] I will ascend to *the* high places of *the* clouds, I will make myself like the Most High.'

Psalm 147:4 *He* counts *the* number of the stars; he gives names to all of them.

Genesis 1:16 And God made two great lights, the greater light to rule the day and the smaller light to rule the night, and the stars.

Judges 5:20 The stars fought from heaven; from their courses they fought against Sisera.

Isaiah 40:25–26 "And to whom you will compare me, and am I equal?" says *the* holy one.

[26] Lift your eyes up *on* high, and see! Who created these?

The one who brings out their host by number.

He calls all them by name.

Because *he is* great of power and mighty of power, not one is missing.

Daniel 8:10 And it grew up to the host of heaven, and it threw down to the ground some of the host and some of the stars and trampled them.

Revelation 12:1–9 And a great sign appeared in heaven: a woman clothed
with the sun and *with* the moon under her feet, and on her head a crown of
twelve stars, 2 and who was pregnant and was crying out *because she* was
having birth pains, and was in torment to give birth. 3 And another sign
appeared in heaven, and behold, a great fiery red dragon, having seven
heads and ten horns, and on his heads *were* seven royal headbands. 4 And
his tail swept away a third of the stars from heaven and threw them to the
earth. And the dragon stood before the woman who was about to give birth,
in order that whenever she gave birth to her child he could devour *it*. 5 And
she gave birth to a son, a male *child*, who is going to shepherd all the
nations with an iron rod, and her child was snatched away to God and to his
throne. 6 And the woman fled into the wilderness, where she had a place
prepared there by God, so that they could feed her there *for one* thousand
two hundred sixty days.

7 And there was war in heaven; Michael and his angels fought against the
dragon, and the dragon and his angels fought back. 8 And they did not
prevail, nor was a place found for them *any* longer in heaven. 9 And the
great dragon was thrown down, the ancient serpent, who is called the devil
and Satan, who deceives the whole world. He was thrown down to the
earth, and his angels were thrown down with him.

Luke 11:49–51 For this *reason* also the wisdom of God said, ‘I will send to
them prophets and apostles, and *some* of them they will kill and persecute,’
50 so that the blood of all the prophets that has been shed from the
foundation of the world may be required of this generation, 51 from the
blood of Abel to the blood of Zechariah, who perished between the altar and
the temple building. Yes, I tell you, it will be required of this generation!

Genesis 1:26 And God said, “Let us make humankind in our image and
according to our likeness, and let them rule over the fish of the sea, and
over the birds of heaven, and over the cattle, and over all the earth, and over
every moving thing that moves upon the earth.”

Genesis 1:26–27 And God said, “Let us make humankind in our image and
according to our likeness, and let them rule over the fish of the sea, and

over the birds of heaven, and over the cattle, and over all the earth, and over every moving thing that moves upon the earth." [27] So God created humankind in his image, in the likeness of God he created him, male and female he created them.

Joshua 11:14 And all the spoil and livestock of these cities the Israelites took as booty; they struck the people with the edge of the sword, until they had destroyed them—they left behind no one who breathed.

Deuteronomy 2:10 (The Emim previously lived in it, a people large, numerous, and tall, like the Anakites.

Deuteronomy 2:20 (It is also considered the land of Rephaim; Rephaim lived in it previously, and the Ammonites called them Zamzummim,

Deuteronomy 3:1–3 "Then we turned, and we went up the road to Bashan, and Og the king of Bashan came out to meet us, he and all *of* his army for the battle *at* Edrei. [2] And Yahweh said to me, 'You should not fear him, for I have given him and all *of* his army and his land into your hand. And *so* you will do to him as you did to Sihon the king of the Amorites, who *was* reigning in Heshbon.' [3] And *so* Yahweh our God also gave Og the king of Bashan, and all of his army into our hand, and we struck him down until not a survivor remained to him.

Deuteronomy 9:2 a great and tall people, the sons of *the* Anakites, whom you know and *of whom you* have heard *it said*, 'Who could stand before the sons of Anak?'

Genesis 6:1–4 And it happened *that*, when humankind began to multiply on the face of the ground, daughters were born to them. [2] Then the sons of God saw the daughters of humankind, that they *were* beautiful. And they took for themselves wives from all that they chose. [3] And Yahweh said, "My Spirit shall not abide with humankind forever in that he *is* also flesh. And his days *shall be* one hundred and twenty years." [4] The Nephilim *were* upon the earth in those days, and also afterward, when the sons of God went into the daughters of humankind, and they bore children to them. These *were* the mighty warriors that *were* from ancient times, men of renown.

Numbers 13:33 There we saw the Nephilim (the descendants of Anak *came* from the Nephilim), and we were like grasshoppers in our own sight, and so we were in their eyes."

Genesis 6:1–4 And it happened *that*, when humankind began to multiply on the face of the ground, daughters were born to them. 2 Then the sons of God saw the daughters of humankind, that they *were* beautiful. And they took for themselves wives from all that they chose. 3 And Yahweh said, "My Spirit shall not abide with humankind forever in that he *is* also flesh. And his days *shall be* one hundred and twenty years." 4 The Nephilim *were* upon the earth in those days, and also afterward, when the sons of God went into the daughters of humankind, and they bore children to them. These *were* the mighty warriors that *were* from ancient times, men of renown.

Genesis 3:14 Then Yahweh God said to the serpent, "Because you have done this,

you *will be* cursed

more than any domesticated animal
and more than any wild animal.
On your belly you shall go

and dust you shall eat

all the days of your life.

Genesis 3:17 And to Adam he said, “Because you listened to the voice of your wife and you ate from the tree from which I forbade you to eat, the ground *shall be* cursed on your account.

In pain you shall eat *from* it all the days of your life.

Genesis 3:14 Then Yahweh God said to the serpent, “Because you have done this,

you *will be* cursed

more than any domesticated animal
and more than any wild animal.
On your belly you shall go

and dust you shall eat
all the days of your life.

Genesis 3:17 And to Adam he said, “Because you listened to the voice of your wife and you ate from the tree from which I forbade you to eat, the ground *shall be* cursed on your account.

In pain you shall eat *from* it all the days of your life.

Genesis 3:24 So he drove the man out, and placed cherubim east of the garden of Eden, and a flaming, turning sword to guard the way to the tree of life.

Isaiah 6:2 Seraphs *were* standing above him. Each had six wings: with two he covered his face, and with two he covered his feet, and with two he flew.

Isaiah 6:6 Then one of the seraphs flew to me, and in his hand *was* a hot coal he had taken from the altar with tongs.

Genesis 4:1 Now Adam knew Eve his wife, and she conceived and bore Cain. And she said, “I have given birth to a man with *the help of* Yahweh.”

Genesis 4:1 Now Adam knew Eve his wife, and she conceived and bore Cain. And she said, “I have given birth to a man with *the help of* Yahweh.”

Genesis 4:1 Now Adam knew Eve his wife, and she conceived and bore Cain. And she said, “I have given birth to a man with *the help of* Yahweh.”

Genesis 18:9–14 And they said to him, “Where *is* Sarah your wife?” And he said, “Here, in the tent.” 10 And he said, “I will certainly return to you in the spring, and look, Sarah your wife *will have* a son.” Now Sarah *was* listening at the doorway of the tent, and which *was* behind him. 11 Now Abraham and Sarah *were* old, advanced in age; the way of women had ceased to be for Sarah. 12 So Sarah laughed to herself saying, “After I am worn out and my husband is old, shall *this* pleasure be to me?” 13 Then Yahweh said to Abraham, “What *is* this *that* Sarah laughed, saying, ‘Is it indeed true *that* I will bear a child, now *that* I have grown old?’ 14 Is anything too difficult for Yahweh? At the appointed time I will return to you in the spring and Sarah *shall have* a son.”

Genesis 21:1–2 And Yahweh visited Sarah as he had said. And Yahweh did to Sarah as he had promised. [2] And she conceived, and Sarah bore to Abraham a son in his old age at the appointed time that God had told him.

Genesis 25:21 And Isaac prayed to Yahweh on behalf of his wife, for she *was* barren. And Yahweh responded to his prayer, and Rebekah his wife conceived.

Genesis 29:32–35 Then Leah conceived and gave birth to a son, and she called his name Reuben, for she said, “Because Yahweh has noticed my misery. Surely now my husband will love me.” [33] And she conceived again and gave birth to a son. And she said, “*It is* because Yahweh has heard that I *am* unloved that he gave me this *son* also.” And she called his name Simeon. [34] And she conceived again and gave birth to a son. Then she said, “Now this time my husband will be joined to me, for I have borne him three sons.” Therefore, she called his name Levi. [35] And she conceived again and gave birth to a son. And she said, “This time I will praise Yahweh.” Therefore she called his name Judah. And she ceased bearing children.

Genesis 30:16–24 When Jacob came in from the field in the evening, Leah went out to meet him. And she said, “Come in to me, for I have hired you with my son’s mandrakes.” And he slept with her that night. [17] And God listened to Leah and she conceived and gave birth to a fifth son for Jacob. [18] Then Leah said, “God has given *me* my wage since I gave my slave girl to my husband.” And she called his name Issachar. [19] And Leah conceived again and gave birth to a sixth son for Jacob. [20] And Leah said, “God has endowed me with a good gift. This time my husband will acknowledge me, because I bore him six sons.” And she called his name Zebulun. [21] And afterward she gave birth to a daughter. And she called her name Dinah. [22] Then God remembered Rachel and listened to her, and God opened her womb. [23] And she conceived and gave birth to a son. And she said, “God has taken away my disgrace.” [24] And she called his name Joseph, saying, “Yahweh has added to me another son.”

1 Samuel 1:19–20 Then they rose early in the morning and worshiped before Yahweh and returned to their house at Ramah. Then Elkanah had

sexual relations with Hannah his wife, and Yahweh remembered her. [20] In due time, Hannah conceived and gave birth to a son. She called his name Samuel, for *she said*, “I requested him from Yahweh.”

Psalm 17:14 from men by your hand, O Yahweh, from men of *this* world.

Their share *is* in this life, and you fill their stomach *with* your treasure.

They are satisfied *with* children.

They bequeath their excess to their children.

Psalm 127:3 Look, children *are* the heritage of Yahweh; the fruit of the womb *is* a reward.

Isaiah 44:2 Thus says Yahweh, who made you, and who formed you in *the* womb and will help you: you must not fear, my servant Jacob,

and Jeshurun whom I have chosen.

Isaiah 44:24 Thus says Yahweh, your redeemer, and he who formed you in *the* womb: “I *am* Yahweh, who made everything, who stretched out *the* heavens alone, who spread out the earth—who *was* with me?—

Isaiah 14:9 Sheol below is getting excited over you, to meet you when you come;

it arouses *the* dead spirits for you, all of *the* leaders of *the* earth.

It raises all of *the* kings of *the* nations from their thrones.

Ezekiel 32:27 And they do not lie with warriors fallen from long ago, who went down *to* Sheol with their weapons of war, and they placed their sword under their heads, and their shields were on their bones, for *the* terror of *the* warriors *was* in *the* land of the living.

Psalm 88:10–12 Do you work wonders for the dead?

Or do *the* departed spirits rise up *to* praise you? *Selah* [11] Is your loyal love told in the grave, *or* your faithfulness in the underworld?

[12] Are your wonders known in the darkness, *or* your righteousness in *the* land of forgetfulness?

Psalm 88:11–13 Do you work wonders for the dead?

Or do *the* departed spirits rise up *to* praise you? *Selah* [11] Is your loyal love told in the grave, *or* your faithfulness in the underworld?

[12] Are your wonders known in the darkness, *or* your righteousness in *the* land of forgetfulness?

Job 26:1–6 Then Job answered and said, [2] “How you have helped one who has no power!

How you have assisted *the* arm that has no strength!

[3] How you have advised one who has no wisdom!

And *what* sound wisdom you have made known in abundance!

[4] With whose help have you uttered words, and whose breath has come forth from you?

Genesis 23:6 “Hear us, my lord, you *are* a mighty prince in our midst. Bury your dead in the choicest of our burial sites. None of us will withhold his burial site from you *for* burying your dead.”

Genesis 24:18 And she said, “Drink, my lord.” And she quickly lowered her jar in her hand and gave him a drink.

Genesis 32:4 And he instructed them, saying, “Thus you must say to my lord, to Esau, ‘Thus says your servant Jacob, I have dwelled as an alien with Laban, and I have remained *there* until now.

Genesis 33:8 And he said, “What do you mean by all this company that I have met?” Then he said, “To find favor in the eyes of my lord.”

Genesis 33:13 But he said to him, “My lord knows that the children *are* frail, and the flocks and the cattle *which are* nursing *are a concern* to me. Now *if* they drove them hard for a day all the flocks would die.

Genesis 18:25 Far be it from you to do such a thing as this, to kill *the* righteous with *the* wicked, that the righteous would be as the wicked! Far be it from you! Will not the Judge of all the earth do justice?”

Genesis 15:17 And after the sun had gone down and it *was* dusk, behold, a smoking firepot and a flaming torch passed between those half pieces.

Genesis 19:3 But he urged them strongly, and they turned aside with him and came into his house. And he made a meal for them and baked unleavened bread, and they ate.

Genesis 19:27–32 And Abraham arose early in the morning *and went* to the place where he had stood before Yahweh. [28] And he looked down upon the surface of Sodom and Gomorrah, and upon the whole surface of the land, the plain. And he saw that, behold, the smoke of the land went up like the smoke of a smelting furnace. [29] So it was, when God destroyed the cities of the plain that God remembered Abraham and sent Lot out from the midst of the overthrow, when he overthrew the cities in which Lot lived.

[30] And Lot went out from Zoar and settled in the hill country with his two daughters, for he was afraid to stay in Zoar. So he lived in a cave, he and his two daughters. [31] And the firstborn *daughter* said to the younger one, “Our father is old, and there is no man in the land to come in to us according to the manner of all the land. [32] Come, let us give our father wine to drink and let us lie with him that we may secure descendants through our father.”

Genesis 15:2 Then Abram said, “O Yahweh, my Lord, what will you give me? I continue to be childless, and my heir is Eliezer of Damascus.”

Genesis 15:8 And he said, “O Yahweh God, how shall I know *that* I will possess it?”

Genesis 16:2 And Sarai said to Abram, “Look, please, Yahweh has prevented me from bearing children. Please go in to my servant; perhaps I will have children by her.” And Abram listened to the voice of Sarai.

Genesis 16:5 And Sarai said to Abram, “may my harm *be* upon you. I had my slave sleep with you, and *when* she saw that she had conceived, she no longer respected me. May Yahweh judge between me and you!”

And he slept with her that night. 17 And God listened to Leah and she conceived and gave birth to a fifth son for Jacob. 18 Then Leah said, "God has given *me* my wage since I gave my slave girl to my husband." And she called his name Issachar. 19 And Leah conceived again and gave birth to a sixth son for Jacob. 20 And Leah said, "God has endowed me with a good gift. This time my husband will acknowledge me, because I bore him six sons." And she called his name Zebulun. 21 And afterward she gave birth to a daughter. And she called her name Dinah. 22 Then God remembered Rachel and listened to her, and God opened her womb. 23 And she conceived and gave birth to a son. And she said, "God has taken away my disgrace." 24 And she called his name Joseph, saying, "Yahweh has added to me another son."

1 Samuel 1:19–20 Then they rose early in the morning and worshiped before Yahweh and returned to their house at Ramah. Then Elkanah had sexual relations with Hannah his wife, and Yahweh remembered her. [20] In due time, Hannah conceived and gave birth to a son. She called his name Samuel, for *she said*, "I requested him from Yahweh."

Psalm 17:14 from men by your hand, O Yahweh, from men of *this* world.

Their share *is* in this life, and you fill their stomach *with* your treasure.

They are satisfied *with* children.

They bequeath their excess to their children.

Psalm 127:3 Look, children *are* the heritage of Yahweh; the fruit of the womb *is* a reward.

Isaiah 44:2 Thus says Yahweh, who made you, and who formed you in *the* womb and will help you: you must not fear, my servant Jacob,

and Jeshurun whom I have chosen.

Isaiah 44:24 Thus says Yahweh, your redeemer, and he who formed you in *the* womb: "I *am* Yahweh, who made everything, who stretched out *the* heavens alone, who spread out the earth—who *was* with me?—

James 2:19 You believe that God is one; you do well. Even the demons believe, and shudder!

Genesis 11:1–9 Now the whole earth *had* one language and the same words. [2] And as people migrated from the east they found a plain in the land of Shinar and settled there. [3] And they said to each other, "Come, let us make bricks and burn them thoroughly." And they had brick for stone and they had tar for mortar. [4] And they said, "Come, let us build ourselves a city and a tower whose top *reaches to* the heavens. And let us make a name for ourselves, lest we be scattered over the face of the whole earth."

[5] Then Yahweh came down to see the city and the tower that humankind was building. [6] And Yahweh said, "Behold, they are one people with one

language, and this is only the beginning of what they will do. So now nothing that they intend to do will be impossible for them. 7 Come, let us go down and confuse their language there, so that they will not understand each other's language." 8 So Yahweh scattered them from there over the face of the whole earth, and they stopped building the city. 9 Therefore its name was called Babel, for there Yahweh confused the language of the whole earth, and there Yahweh scattered them over the face of the whole earth.

Deuteronomy 32:8–9 When the Most High apportioned *the* nations, at his dividing *up* of the sons of humankind, he fixed the boundaries of *the* peoples, according to the number of the children of Israel.

James 1:1–3 James, a slave of God and of the Lord Jesus Christ, to the twelve tribes in the dispersion. Greetings!

[2] Consider *it* all joy, my brothers, whenever you encounter various trials, [3] *because you* know that the testing of your faith produces endurance.

Galatians 3:26–29 For you are all sons of God through faith in Christ Jesus, [27] for as many *of you* as were baptized into Christ have put on Christ. [28] There is neither Jew nor Greek, there is neither slave nor free, there is neither male and female, for you are all one in Christ Jesus. [29] And if you

are Christ's, then you are descendants of Abraham, heirs according to the promise.

Psalm 82:6–7 I have said, "You *are* gods, and sons of the Most High, all of you.

And gold *was* the craftsmanship of your settings and your mountings in you;

on the day when you were created they were prepared.

14 You were *an* anointed guardian cherub, and I placed you on God's holy mountain;

you walked in the midst of stones of fire.

15 You *were* blameless in your ways from the day when you were created,

until wickedness was found in you.

16 In the abundance of your trading, they filled the midst of you *with* violence, and you sinned; and I cast you as a profane thing from the mountain of God,

and I expelled you, *the* guardian cherub,

from the midst of *the* stones of fire.

17 Your heart was proud because of your beauty; you ruined your wisdom because of your splendor.

I threw you on the ground before kings;

I have exposed you for viewing.

18 From the abundance of your iniquities in the dishonesty of your trading,

I profaned your sanctuaries
and I brought fire from your midst;
it consumed you, and I have turned you to ashes on the earth
before the eyes of everyone who sees you.
19 All who know you among the peoples are appalled over you;
you have become *as* horrors,

give the inhabitants of the land into your hand, and you will drive them out from before you.

Exodus 33:2 And I will send an angel before you, and I will drive out the Canaanites, the Amorites, and the Hittites and the Perizzites, the Hivites, and the Jebusites,

Deuteronomy 33:27 The God of ancient time *is* a hiding place, and underneath *are the* arms of eternity, and he drove out from before you your enemy,

and he said, 'Destroy *them*!'

Joshua 24:12 I sent before you *the* hornet and they drove out before you two kings of the Amorites; *but* not by your sword or bow.

Joshua 24:18 And Yahweh drove out all the people before us, the Amorites who live *in* the land. We will serve Yahweh, for he *is* our God."

Exodus 34:24 because I will evict nations before you, and I will enlarge your territory, and no one will covet your land when you go up to appear before Yahweh your God three times in the year.

Numbers 21:32 Moses sent to explore Jaazer; they captured its environs and dispossessed the Amorites who *were* there.

Numbers 33:52 you will drive out the inhabitants of the land from your presence, and you will destroy all their idols and all the images of their molten idols, and you will demolish all their high places;

Numbers 33:53 you will dispossess the land and live in it because I have given the land to you to possess it.

Numbers 33:55 But if you do not drive out the inhabitants of the land from your presence, then it will happen that whomever you let remain of them will be like irritants in your eyes and like thorns in your sides; they will be your enemies in the land in which you live.

Joshua 3:10 Joshua said, "By this you will know that *the* living God *is* in your midst, and he will certainly drive out the Canaanites from before you,

and the Hittites, Hivites, the Perizzites, the Girgashites, the Amorites, and the Jebusites.

Joshua 12:1 These *are* the kings of the land whom the Israelites defeated, and of whose land they took possession beyond the Jordan to the east, from the wadi of Arnon up to Mount Hermon, and all the Arabah to the east:

Joshua 13:6 all the inhabitants of the hill country, from the Lebanon up to Misrephoth Maim, and all *the* Sidonians. I will drive them out from before the Israelites; only allocate it to Israel as an inheritance just as I have commanded you.

Joshua 17:12 But the descendants of Manasseh were not able to take possession of these towns; the Canaanites were determined to live in this land.

Joshua 17:13 And it happened, when the Israelites grew strong, they put the Canaanites to forced labor but never drove them out completely.

Joshua 23:5 And Yahweh your God will push them back before you and drive them out of your sight, and you will possess their land, just as Yahweh your God promised to you.

Joshua 23:9 Yahweh has driven out before you great and strong nations; and as for you, nobody has withstood you to this day.

Exodus 33:7–11 And Moses took the tent and pitched it outside the camp far from the camp, and he called it the tent of assembly, and all seeking Yahweh would go out to the tent of assembly, which *was* outside the camp. 8 And at the going out of Moses to the tent, all the people would rise and stand, each at the opening of his tent, and gaze after Moses until his entering the tent. 9 And at the entering of Moses *into* the tent the column of cloud would descend and stand *at* the opening of the tent, and he would speak with Moses. 10 And all the people would see the column of cloud standing *at* the opening of the tent, and all the people would rise and bow in worship, each *at* the opening of his tent. 11 And Yahweh would speak to Moses face to face, as a man speaks to his neighbor. And he would return to

the camp, and his assistant Joshua the son of Nun, a young man, did not leave the middle of the tent.

Exodus 27:21 In the tent of assembly outside the curtain that *is* before the testimony, Aaron and his sons will arrange it, from evening until morning, before Yahweh *as* a lasting statute throughout their generations from the Israelites.

Exodus 28:43 And they will be on Aaron and on his sons when they come to the tent of assembly or when they approach the altar to serve in the sanctuary, so that they will not bear guilt and die. *It is* a lasting statute for him and for his offspring after him.

Exodus 30:26 And you will anoint with it the tent of assembly and the ark of the testimony,

Exodus 33:7–11 And Moses took the tent and pitched it outside the camp far from the camp, and he called it the tent of assembly, and all seeking Yahweh would go out to the tent of assembly, which *was* outside the camp. 8 And at the going out of Moses to the tent, all the people would rise and stand, each at the opening of his tent, and gaze after Moses until his entering the tent. 9 And at the entering of Moses *into* the tent the column of cloud would descend and stand *at* the opening of the tent, and he would speak with Moses. 10 And all the people would see the column of cloud standing *at* the opening of the tent, and all the people would rise and bow in worship, each *at* the opening of his tent. 11 And Yahweh would speak to Moses face to face, as a man speaks to his neighbor. And he would return to the camp, and his assistant Joshua the son of Nun, a young man, did not leave the middle of the tent.

1 Samuel 2:22 Now Eli was very old, and he heard all that his sons were doing to all Israel and that they *were* having sexual relations with the women who *were* serving *at* the entrance of *the* tent of assembly.

2 Chronicles 1:3 And Solomon and the whole assembly with him went to the high place that *was* at Gibeon, for the tent of assembly of God that Moses the servant of Yahweh had made in the desert was there.

1 Kings 8:4 So they brought up the ark of Yahweh and the tent of assembly and all of the holy vessels that *were* in the tent; the priests and the Levites brought them up.

1 Kings 6:2 Now the house that King Solomon built for Yahweh *was* sixty cubits *in* its length and twenty cubits *in* its width and thirty cubits *in* its height.

Leviticus 11:24–25 And by these you shall become unclean—anyone who touches their dead body shall become unclean until the evening, [25] and anyone who carries their dead body must wash his garments, and he shall be unclean until the evening.

Leviticus 11:39 " 'And when one of the animals dies that is for you to eat, the one who touches its dead body shall become unclean until the evening.

Leviticus 21:16–24 Then Yahweh spoke to Moses, saying, [17] "Speak to Aaron, saying, 'A man from your offspring throughout their generations, in whom is a physical defect, shall not come near to present your God's food. [18] Indeed, any man in whom is a physical defect shall not come near: a blind man or lame or disfigured or deformed, [19] or a man in whom is a broken foot or a broken hand, [20] or a hunchback or a dwarf, or a spot in his eye or a skin disorder or a skin eruption or a crushed testicle. [21] Any man from Aaron the priest's offspring in whom is a physical defect shall not come near to present offerings made by fire to Yahweh; a physical defect *is* in him; he shall not come near to present his God's food. [22] He may eat his God's food, from the most holy things and from the holy things. [23] But he must not enter the curtain, and he must not come near to the altar, because a physical defect *is* in him, and he must not profane my sanctuary, because I *am* Yahweh, who consecrates them.' "

[24] Thus Moses spoke to Aaron and to his sons and to all the Israelites.

Numbers 19:11 " 'The one who touches a corpse of any person will be unclean for seven days.

Numbers 19:16 Anyone in the open field who touches one who has been slain, or a corpse, or a bone of a person, or a burial site, he will be unclean

for seven days.

Numbers 19:19 The clean *person* will spatter the unclean on the third day and on the seventh day; and on the seventh day he will purify him, and he will wash his garments; he will bathe in the waters, and in the evening he will be clean.

Numbers 31:19 And you, camp outside the camp seven days; all who killed a person and all who touched the slain purify yourselves on the third day and on the seventh day, you and your captives.

Numbers 31:24 And you will wash your garments on the seventh day and be clean, and afterward you will come into the camp."

Leviticus 11:24–25 And by these you shall become unclean—anyone who touches their dead body shall become unclean until the evening, [25] and anyone who carries their dead body must wash his garments, and he shall be unclean until the evening.

Leviticus 11:39 " 'And when one of the animals dies that is for you to eat, the one who touches its dead body shall become unclean until the evening.

Leviticus 21:16–24 Then Yahweh spoke to Moses, saying, [17] "Speak to Aaron, saying, 'A man from your offspring throughout their generations, in whom is a physical defect, shall not come near to present your God's food. [23] But he must not enter the curtain, and he must not come near to the altar, because a physical defect *is* in him, and he must not profane my sanctuary, because I *am* Yahweh, who consecrates them.' "

[24] Thus Moses spoke to Aaron and to his sons and to all the Israelites.

Numbers 19:11 “ ‘The one who touches a corpse of any person will be unclean for seven days.

Numbers 19:16 Anyone in the open field who touches one who has been slain, or a corpse, or a bone of a person, or a burial site, he will be unclean for seven days.

Numbers 19:19 The clean *person* will spatter the unclean on the third day and on the seventh day; and on the seventh day he will purify him, and he will wash his garments; he will bathe in the waters, and in the evening he will be clean.

Numbers 31:19 And you, camp outside the camp seven days; all who killed a person and all who touched the slain purify yourselves on the third day and on the seventh day, you and your captives.

Numbers 31:24 And you will wash your garments on the seventh day and be clean, and afterward you will come into the camp.”

Leviticus 11:44–45 because I *am* Yahweh your God, and you must keep yourselves sanctified, so that you shall be holy, because I *am* holy. And you must not make yourselves unclean with any swarmer that moves along on the land, [45] because I *am* Yahweh, who brought you up from the land of Egypt to be for you as God. Thus you shall be holy, because I *am* holy.

Leviticus 19:2 “Speak to all the community of the Israelites, and say to them, ‘You must be holy, because I, Yahweh your God, *am* holy.

Leviticus 20:7 “ ‘And you shall consecrate yourselves, and you shall be holy, because I *am* Yahweh your God.

Leviticus 20:26 And you shall be holy for me, because I, Yahweh, *am* holy, and I have singled you out from the nations to be mine.

Leviticus 21:6 They shall be holy to their God, and they shall not profane the name of their God, because they are bringing near the offerings made by fire to Yahweh—their God’s food—and they shall be holy.

Psalm 16:3 With regard to *the* saints who *are* in the land, they *are the* noble ones in *whom is* all my desire.

Psalm 34:9 Fear Yahweh, *you* his saints, for there is no lack for *those who* fear him.

Psalm 16:3 With regard to *the* saints who *are* in the land, they *are the* noble ones in *whom is* all my desire.

Leviticus 15:1–15 Then Yahweh spoke to Moses and to Aaron, saying, [2] “Speak to the Israelites, and you shall say to them, ‘Any man when a fluid discharge occurs from his body, his fluid discharge *is* unclean. [3] And this becomes his uncleanness in his fluid discharge: *whether* his body secretes his fluid discharge or his body blocks his fluid discharge, it *is* his uncleanness. [4] Any bed upon which the person who discharges lies down becomes unclean, and any object upon which he sits becomes unclean. [5] And anyone who touches his bed must wash his garments and shall wash *himself* with water, and he shall be unclean until evening. [6] And the person who sits on the object upon which the person who discharges has sat must wash his garments, and he shall wash *himself* with water, and he shall be unclean until the evening. [7] And the person who touches the body of the person who discharges must wash his garments, and he shall wash *himself* with water, and he shall be unclean until the evening. [8] And if the person who discharges spits on *one who is* clean, then that one shall wash is garments, and he shall wash *himself* with water, and he shall be unclean until the evening. [9] And any saddle upon which the person who discharges rides becomes unclean. [10] And any person who touches anything that happened to be under him becomes unclean until the evening, and the person who carries them must wash his garments, and he shall wash *himself* with water, and he shall be unclean until the evening. [11] And anyone whom the person who discharges might touch without rinsing off his hands with water shall wash his garments, and he shall wash *himself* with water, and he shall be unclean until the evening. [12] But a clay vessel that the person who discharges touches must be broken, and any wood object must be rinsed with water.

13 “ ‘And when the person who discharges becomes clean from his body
fluid discharge, he shall count for himself seven days for his cleansing; then
he shall wash his garments, and he shall wash his body with fresh water,
and he shall be clean. 14 Then on the eighth day he shall take for himself
two turtledoves or two young doves, and he shall come before Yahweh at
the tent of assembly’s entrance, and he shall give them to the priest. 15 And
the priest shall sacrifice one *as* a sin offering and the other *as* a burnt
offering, and so the priest shall make atonement for him before Yahweh
from his body fluid discharge.

Leviticus 18:19 “ ‘And you must not have sex with a woman to expose her
nakedness during her menstrual uncleanness.

Leviticus 20:18 As for a man who lies with a menstruating woman, he
exposes her nakedness—her source he exposes and she herself reveals her
blood’s source—both of them shall be cut off from the midst of their
people.

Leviticus 22:4–6 “ ‘Anyone from Aaron’s offspring, if he *is* afflicted with a
skin disease or a fluid discharge, shall not eat in the sanctuary until he is
clean; and the one who touches any unclean person or a man from whom an
emission of semen goes out, 5 or a man who touches any swarmer that is
unclean for him or *who touches* a person who is unclean for him due to
whatever his uncleanness, 6 a person who touches such a thing shall be
unclean until the evening, and he shall not eat from the votive offerings,
except *when* he washes his body with water

Deuteronomy 23:10–15 “If *there* is among you a man that is not clean
because of a seminal emission during the night, he shall go outside the
camp; he shall not come within the camp. 11 And then toward the coming of
the evening, he shall bathe with water, and at the going down of the sun, he
may come to the midst of the camp.

12 “And there shall be for you a designated place outside the camp; and
you shall go there to relieve yourself, 13 and a digging tool shall *be included*
in addition to your *other* utensils for yourself; and then when you relieve
yourself outside *the camp* you shall dig with it, and *then* you shall turn, and

you shall cover your excrement. 14 For Yahweh your God *is* walking about
in the midst of your camp to deliver you and to hand your enemies over to
you before you, and so let your camp be holy, so that he shall not see in it
anything indecent, and he shall turn away from going with you.

15 “And you shall not hand over a slave to his master who has escaped
and fled to you from his master.

Leviticus 15:1–15 Then Yahweh spoke to Moses and to Aaron, saying, 2

These *were* the mighty warriors that *were* from ancient times, men of renown.

Leviticus 11:24–25 And by these you shall become unclean—anyone who touches their dead body shall become unclean until the evening, [25] and anyone who carries their dead body must wash his garments, and he shall be unclean until the evening.

Leviticus 11:39 “ ‘And when one of the animals dies that is for you to eat, the one who touches its dead body shall become unclean until the evening.

Leviticus 21:16–24 Then Yahweh spoke to Moses, saying, [17] “Speak to Aaron, saying, ‘A man from your offspring throughout their generations, in whom is a physical defect, shall not come near to present your God’s food. [18] Indeed, any man in whom is a physical defect shall not come near: a blind man or lame or disfigured or deformed, [19] or a man in whom is a broken foot or a broken hand, [20] or a hunchback or a dwarf, or a spot in his eye or a skin disorder or a skin eruption or a crushed testicle. [21] Any man from Aaron the priest’s offspring in whom is a physical defect shall not come near to present offerings made by fire to Yahweh; a physical defect *is* in him; he shall not come near to present his God’s food. [22] He may eat his God’s food, from the most holy things and from the holy things. [23] But he must not enter the curtain, and he must not come near to the altar, because a physical defect *is* in him, and he must not profane my sanctuary, because I *am* Yahweh, who consecrates them.’ ”

[24] Thus Moses spoke to Aaron and to his sons and to all the Israelites.

Numbers 19:11 “ ‘The one who touches a corpse of any person will be unclean for seven days.

Numbers 19:16 Anyone in the open field who touches one who has been slain, or a corpse, or a bone of a person, or a burial site, he will be unclean for seven days.

Numbers 19:19 The clean *person* will spatter the unclean on the third day and on the seventh day; and on the seventh day he will purify him, and he will wash his garments; he will bathe in the waters, and in the evening he will be clean.

Numbers 31:19 And you, camp outside the camp seven days; all who killed a person and all who touched the slain purify yourselves on the third day and on the seventh day, you and your captives.

Numbers 31:24 And you will wash your garments on the seventh day and be clean, and afterward you will come into the camp."

Leviticus 15:1–15 Then Yahweh spoke to Moses and to Aaron, saying, [2] "Speak to the Israelites, and you shall say to them, 'Any man when a fluid discharge occurs from his body, his fluid discharge *is* unclean. [3] And this becomes his uncleanness in his fluid discharge: *whether* his body secretes his fluid discharge or his body blocks his fluid discharge, it *is* his uncleanness. [4] Any bed upon which the person who discharges lies down becomes unclean, and any object upon which he sits becomes unclean. [5] And anyone who touches his bed must wash his garments and shall wash *himself* with water, and he shall be unclean until evening. [6] And the person who sits on the object upon which the person who discharges has sat must wash his garments, and he shall wash *himself* with water, and he shall be unclean until the evening. [7] And the person who touches the body of the person who discharges must wash his garments, and he shall wash *himself* with water, and he shall be unclean until the evening. [8] And if the person who discharges spits on *one who is* clean, then that one shall wash is garments, and he shall wash *himself* with water, and he shall be unclean until the evening. [9] And any saddle upon which the person who discharges rides becomes unclean. [10] And any person who touches anything that happened to be under him becomes unclean until the evening, and the person who carries them must wash his garments, and he shall wash *himself* with water, and he shall be unclean until the evening. [11] And anyone whom the person who discharges might touch without rinsing off his hands with water shall wash his garments, and he shall wash *himself* with water, and he shall be unclean until the evening. [12] But a clay vessel that the person who discharges touches must be broken, and any wood object must be rinsed with water.

[13] " 'And when the person who discharges becomes clean from his body fluid discharge, he shall count for himself seven days for his cleansing; then

he shall wash his garments, and he shall wash his body with fresh water, and he shall be clean. [14] Then on the eighth day he shall take for himself two turtledoves or two young doves, and he shall come before Yahweh at *the* tent of assembly's entrance, and he shall give them to the priest. [15] And the priest shall sacrifice one *as* a sin offering and the other *as* a burnt offering, and so the priest shall make atonement for him before Yahweh from his body fluid discharge.

Leviticus 18:19 " 'And you must not have sex with a woman to expose her nakedness during her menstrual uncleanness.

Leviticus 20:18 As for a man who lies with a menstruating woman, he exposes her nakedness—her source he exposes and she herself reveals her blood's source—both of them shall be cut off from the midst of their people.

Leviticus 22:4–6 " 'Anyone from Aaron's offspring, if he *is* afflicted with a skin disease or a fluid discharge, shall not eat in the sanctuary until he is clean; and the one who touches any unclean person or a man from whom an emission of semen goes out, [5] or a man who touches any swarmer that is unclean for him or *who touches* a person who is unclean for him due to whatever his uncleanness, [6] a person who touches such a thing shall be unclean until the evening, and he shall not eat from the votive offerings, except *when* he washes his body with water

Deuteronomy 23:10–15 "If *there* is among you a man that is not clean because of a seminal emission during the night, he shall go outside the camp; he shall not come within the camp. [11] And then toward the coming of the evening, he shall bathe with water, and at the going down of the sun, he may come to the midst of the camp.

[12] "And there shall be for you a designated place outside the camp; and you shall go there to relieve yourself, [13] and a digging tool shall *be included* in addition to your *other* utensils for yourself; and then when you relieve yourself outside *the camp* you shall dig with it, and *then* you shall turn, and you shall cover your excrement. [14] For Yahweh your God *is* walking about in the midst of your camp to deliver you and to hand your enemies over to

you before you, and so let your camp be holy, so that he shall not see in it anything indecent, and he shall turn away from going with you.

15 “And you shall not hand over a slave to his master who has escaped *and fled* to you from his master.

Deuteronomy 4:25–27 "When you have had children and grandchildren and you have grown old in the land and you act corruptly and you make a divine image *of* the form of anything and you do evil in the eyes of Yahweh your God, *thus* provoking him to anger, 26 I call to witness against you today the heaven and the earth, that you will perish soon and completely from the land that you *are* crossing the Jordan into it to take possession of it; you will not live long on it, but you will be completely destroyed. 27 And Yahweh will scatter you among the peoples, and you will be left few in number among the nations to where Yahweh will lead you.

Deuteronomy 4:39–40 So you shall acknowledge today, and you must call to mind that Yahweh *is* God in heaven above and on the earth beneath. There is no other *God*. 40 And you shall keep his rules and his commandments that I am commanding you today, *so* that it may go well for

you and for your children after you, and so that you may remain a long time on the land that Yahweh your God *is* giving to you *during* all *of* those days."

Deuteronomy 11:18–24 "And you shall put these, my words, on your heart and on your inner self, and you shall bind them as a sign on your hand and let them be as an emblem between your eyes. [19] And you shall teach them to your children by talking about them when you sit in your house and when you travel on the road and when you lie down and when you get up. [20] And you shall write them on the doorframes of your house and on your gates, [21] so that *they* may multiply your days and the days of your children on the land that Yahweh swore to your ancestors to give *it* to them as long as heaven endures over the earth. [22] Yes, if you diligently keep all this commandment that I *am* commanding you to observe it, by loving Yahweh your God by walking in all his ways and by holding fast to him, [23] then Yahweh will drive out all *of* these nations before you, and you will dispossess nations larger and more numerous than you. [24] Every place on which the sole of your foot treads, it shall be yours; your boundary shall be from the desert and Lebanon from the river, the river Euphrates, on up to the western sea.

Leviticus 26:14–28 " 'But if you do not listen to me and you do not carry out all these commands, [15] and if you reject my statutes and if your inner self abhors my regulations, to not carry out all my commands *by* your breaking my covenant, [16] I in turn will do this to you: then I will summon onto you horror, the wasting disease, and the fever that wastes eyes and that drains away life; and you shall sow your seed in vain, and your enemies shall eat it. [17] And I will set my face against you, and you shall be defeated before your enemies; and your haters shall rule over you, and you shall flee away, but there shall not be anybody who is pursuing you.

[18] " 'And if in spite of these *things* you do not listen to me, then I will continue to discipline you seven times for your sins. [19] And I will break the pride of your strength; and I will make your heaven like iron and your land like copper. [20] And your strength shall be consumed in vain; and your land shall not give its produce, and the land's trees shall not give their fruit.

21 “ ‘And if you go against me *in* hostility and you are not willing to
listen to me, then I will add a plague onto you seven times according to
your sins. 22 And I will send wild animals out among you, and they shall
make you childless, and they shall cut down your domestic animals, and
they shall make you fewer; and your roads shall be desolate.

23 “ ‘And if you do not accept correction from me through these *things*,
but you go against me *in* hostility, 24 then I myself will also go against you
in hostility, and I myself also will strike you seven times for your sins. 25
And I will bring upon you a sword that seeks vengeance *for the* covenant,
and you shall be gathered to your cities; and I will send a plague in your
midst, and you shall be given into *the* hand of an enemy. 26 At my breaking
the supply of bread for you, then ten women shall bake your bread in one
oven, and they shall return your bread by weight; and you shall eat *it*, and
you shall not be satisfied.

27 “ ‘And if through this you do not listen to me and you go against me
in hostility, 28 then I will go against you in hostile anger, and also I myself
will discipline you seven times for your sins.

Deuteronomy 28:43–52 The alien that *is* in your midst shall ascend over
you, higher *and* higher, but you shall go down lower *and* lower. 44 He shall
lend to you, but you shall not lend to him; he shall be *the* head, but you
shall be *the* tail.

45 “And all of these curses shall come over you, and they shall pursue
you, and they shall overtake you until you are destroyed, because you did
not listen to the voice of Yahweh your God, by observing his
commandments and his statutes that he commanded you. 46 And they shall
be among you as a sign and as a wonder and among your offspring forever.

47 “Because *of the fact* that you did not serve Yahweh your God with joy
and with gladness of heart for the abundance of everything, 48 then you
shall serve your enemies, whom Yahweh will send against you *under
conditions of* famine, in thirst, in nakedness, and in *a* lack of everything;
and he shall place a yoke of iron on your neck until he has destroyed you. 49
Yahweh will raise *up* against you a nation from far *off*, from the end of the
earth, *attacking* as the eagle swoops *down*, a nation whose language you

will not understand, [50] a grim-faced nation who does not show respect to *the* old and *the* young *and* does not show pity. [51] And it shall consume the fruit of your livestock and the fruit of your ground until you are destroyed, *and* who will not leave for you *any* grain, wine, and olive oil, calves of your herds, and lambs of your flock until it has destroyed you. [52] And it shall besiege you in all your towns until your high and fortified walls fall, which you *are* trusting in throughout your land; and it shall besiege you in all of your towns in all of your land that Yahweh your God has given to you.

Deuteronomy 28:64–67 And Yahweh shall scatter you among all the nations from *one* end of the earth up to the *other* end of the earth, and there you shall serve other gods that you have not known nor your ancestors, *gods of* wood and stone. [65] And among these nations you shall not find rest, and *there* shall not be a resting place for the sole of your foot, and Yahweh shall give you there an anxious heart and a weakening of eyes and a languishing of *your* inner self. [66] And your life shall hang in doubt before you, and you shall be startled night and day, and you shall not be confident of your life. [67] In the morning you shall say, 'If only it was evening!' and in the evening you shall say 'If only it was morning!' because of the dread of your heart that you shall feel, and because of the sight of your eyes that you shall see.

Deuteronomy 29:22–28 "And the next generation, *that is*, your children who will rise *up* after you, and the foreigner who will come from a distant land, when they will see the plagues of that land and its diseases that Yahweh has inflicted upon it, will say, [23] 'All its land is brimstone and salt left by fire, none of its land will be sown, and it will not make plants sprout out and it will not grow any vegetation; *it is* as the destruction of Sodom and Gomorrah, Adman and Zeboiim, which Yahweh overturned in his anger and in his wrath.' [24] And all the nations will say, 'Why has Yahweh done such a thing to this land? What *caused* the fierceness of this great anger?' [25] And they will say, '*It is* because they abandoned the covenant of Yahweh, the God of their ancestors, which he made with them when he brought them out from the land of Egypt. [26] And they went and served other gods and bowed down to them, gods whom they did not know them and he had not allotted to them. [27] So the anger of Yahweh was kindled against that land to

bring upon it all the curses written in this scroll, [28] and Yahweh uprooted them from their land in anger and in wrath and in great fury, and he cast them into another land, just as it is today.’

Deuteronomy 31:14–28 Then Yahweh said to Moses, “Look, you are about to die; call Joshua and present yourselves in *the* tent of assembly, so that I may instruct him.” So Moses and Joshua went and presented themselves in *the* tent of assembly. [15] And Yahweh appeared in the tent in a column of cloud, and the column of the cloud stood at the entrance of the tent. [16] And Yahweh said to Moses, “Look, you *are* about to lie *down* with your ancestors, and this people will arise and they will play the prostitute after the foreign gods of the land to which they are going. [17] And my anger shall flare up against them on that day, and I will forsake them, and I will hide my face from them, and they shall become as prey, and disasters and troubles shall find them, and they shall say on that day, ‘*Is it* not because our God is not in our midst *that* these disasters have found us?’ [18] But I will certainly hide my face on that day, because *of* all of the evil that they did because they turned to other gods.

[19] “And so then write this song for yourselves and teach it to the Israelites; put it in their mouth, so that this song may be for me as a witness against the Israelites. [20] For when I bring them into the land that I swore to their ancestors, a land flowing with milk and honey, they will eat their fill, and they will become fat, and *then* they will turn to other gods, and they will serve them, and they will spurn me, and they will break my covenant. [21] And then many disasters and troubles will come upon them, and this song will give evidence before them as a witness, because it will not be forgotten from *out of* the mouth of their descendants, for I know their inclination that they *are* having today before I have brought them into the land that I swore.” [22] And Moses wrote this song on that day and taught it *to* the Israelites.

[23] Then he told Joshua the son of Nun, and said *to him*, “Be strong and be courageous, for you shall bring the Israelites into the land that I swore to them, and I will be with you.”

[24] And then when Moses finished writing the words of this law on the scroll until they were complete, [25] then Moses commanded the Levites

carrying the ark of the covenant of Yahweh, saying, [26] “Take the scroll of this law and put it at the side of the ark of the covenant of Yahweh your God, and it will be there as a witness against you. [27] For I know your rebellion and your stiff neck *even now* while I *am* still alive with you today, rebelling against Yahweh, and how much more after my death. [28] Assemble to me all the elders of your tribes and your officials, so that I may speak in their ears these words, and *that* I may call as witness against them heaven and earth.

Leviticus 26:12 And I will walk about in your midst, and I shall be your God, and you shall be my people.

Deuteronomy 23:14 For Yahweh your God *is* walking about in the midst of your camp to deliver you and to hand your enemies over to you before you, and so let your camp be holy, so that he shall not see in it anything indecent, and he shall turn away from going with you.

Deuteronomy 23:15 For Yahweh your God *is* walking about in the midst of your camp to deliver you and to hand your enemies over to you before you, and so let your camp be holy, so that he shall not see in it anything indecent, and he shall turn away from going with you.

2 Samuel 7:6–7 For I have not dwelt in a house from the day I brought up the Israelites from Egypt until this day; *rather,* I *was* going about in a tent and in a tabernacle. [7] In all of my going about among all the Israelites, did I speak a word with one of the tribes of Israel whom I commanded to shepherd my people Israel, saying, 'Why did you not build me a cedar house?' " '

Deuteronomy 4:25–27 "When you have had children and grandchildren and you have grown old in the land and you act corruptly and you make a divine image *of* the form of anything and you do evil in the eyes of Yahweh your God, *thus* provoking him to anger, [26] I call to witness against you today the heaven and the earth, that you will perish soon and completely from the land that you *are* crossing the Jordan into it to take possession of it; you will not live long on it, but you will be completely destroyed. Deuteronomy 29:22–28 "And the next generation, *that is*, your children who will rise *up* after you, and the foreigner who will come from a distant land, when they will see the plagues of that land and its diseases that Yahweh has inflicted upon it, will say, 23 'All its land is brimstone and salt left by fire, none of its land will be sown, and it will not make plants sprout out and it will not grow any vegetation; *it is* as the destruction of Sodom and Gomorrah, Adman and Zeboiim, which Yahweh overturned in his anger and in his wrath.' 24 And all the nations will say, 'Why has Yahweh done such a thing to this land? What *caused* the fierceness of this great anger?' 25 And they will say, '*It is* because they abandoned the covenant of Yahweh, the God of their ancestors, which he made with them when he brought them out from the land of Egypt. 26 And they went and served other gods and bowed down to them, gods whom they did not know them and he had not allotted to them. 27 So the anger of Yahweh was kindled against that land to bring upon it all the curses written in this scroll, 28 and Yahweh uprooted them from their land in anger and in wrath and in great fury, and he cast them into another land, just as it is today.'

Deuteronomy 31:14–28 Then Yahweh said to Moses, “Look, you are about to die; call Joshua and present yourselves in *the* tent of assembly, so that I may instruct him.” So Moses and Joshua went and presented themselves in *the* tent of assembly. 15 And Yahweh appeared in the tent in a column of cloud, and the column of the cloud stood at the entrance of the tent. 16 And Yahweh said to Moses, “Look, you *are* about to lie *down* with your ancestors, and this people will arise and they will play the prostitute after the foreign gods of the land to which they are going. 17 And my anger shall flare up against them on that day, and I will forsake them, and I will hide my face from them, and they shall become as prey, and disasters and troubles shall find them, and they shall say on that day, ‘*Is it* not because our God is not in our midst *that* these disasters have found us?’ 18 But I will certainly hide my face on that day, because *of* all of the evil that they did because they turned to other gods.

19 “And so then write this song for yourselves and teach it to the Israelites; put it in their mouth, so that this song may be for me as a witness against the Israelites. 20 For when I bring them into the land that I swore to their ancestors, a land flowing with milk and honey, they will eat their fill, and they will become fat, and *then* they will turn to other gods, and they will serve them, and they will spurn me, and they will break my covenant. 21 And then many disasters and troubles will come upon them, and this song will give evidence before them as a witness, because it will not be forgotten from *out of* the mouth of their descendants, for I know their inclination that they *are* having today before I have brought them into the land that I swore.” 22 And Moses wrote this song on that day and taught it *to* the Israelites.

23 Then he told Joshua the son of Nun, and said *to him*, “Be strong and be courageous, for you shall bring the Israelites into the land that I swore to them, and I will be with you.”

24 And then when Moses finished writing the words of this law on the scroll until they were complete, 25 then Moses commanded the Levites carrying the ark of the covenant of Yahweh, saying, 26 “Take the scroll of this law and put it at the side of the ark of the covenant of Yahweh your God, and it will be there as a witness against you. 27 For I know your

rebellion and your stiff neck *even now* while I *am* still alive with you today, rebelling against Yahweh, and how much more after my death. [28] Assemble to me all the elders of your tribes and your officials, so that I may speak in their ears these words, and *that* I may call as witness against them heaven and earth.

Numbers 11:28–29 And Joshua son of Nun, the assistant of Moses from time of his youth, answered, “Moses, my lord, stop them.” [29] But Moses said to him, “Are you jealous for my sake? Would that he give all Yahweh’s people prophets, that Yahweh put his spirit on them!”

9 For Yahweh’s portion *was* his people, Jacob the share of his
inheritance.

Genesis 12:1–3 And Yahweh said to Abram, “Go out from your land and
from your relatives, and from the house of your father, to the land that I will
show you. 2 And I will make you a great nation, and I will bless you, and I
will make your name great. And you will be a blessing. 3 And I will bless
those who bless you, and those who curse you I will curse. And all families
of the earth will be blessed in you.”

Genesis 49:10 The scepter shall not depart from Judah, nor the ruler’s staff
between his feet,

until Shiloh comes.

And to him shall be the obedience of nations.

Numbers 13:32–33 And they presented the report of the land that they
explored to the Israelites, saying, “The land that we went through to explore
is a land that eats its inhabitants, and all the people whom we saw in its
midst *are* men of great size. 33 There we saw the Nephilim (the descendants
of Anak *came* from the Nephilim), and we were like grasshoppers in our
own sight, and so we were in their eyes.”

Numbers 21:31–35 Thus Israel lived in the land of the Amorites. 32 Moses
sent to explore Jaazer; they captured its environs and dispossessed the

Amorites who *were* there.

33 Then they turned and went up *by* the way of the Bashan, and Og king of
the Bashan and all his people went out to meet them for battle *at* Edrei. 34
And Yahweh said to Moses, “Do not fear him because I will give him and
all his people and all his land into your hand. You will do to him just as you
did to Sihon king of the Amorites, who was living in Heshbon.” 35 And so
they destroyed him and his sons, and all his people until they had not spared
a survivor; and they took possession of his land.

Joshua 14:12–15 So now give me this hill country that Yahweh spoke *of* on
that day, for you heard on that day that the Anakites *were* there, with great
and fortified cities. Perhaps Yahweh *is* with me, and I will drive them out
just as Yahweh promised.”

13 And Joshua blessed him and gave Hebron to Caleb son of Jephunneh
as an inheritance. 14 Thus Hebron became the inheritance of Caleb son of
Jephunneh the Kenizzite to this day, because he remained true to Yahweh
the God of Israel. 15 And the name of Hebron formerly *was* Kiriath Arba;
Arba was the greatest person among the Anakites. And the land rested from
war.

Genesis 1:26–27 And God said, “Let us make humankind in our image and
according to our likeness, and let them rule over the fish of the sea, and
over the birds of heaven, and over the cattle, and over all the earth, and over
every moving thing that moves upon the earth.” 27 So God created
humankind in his image, in the likeness of God he created him, male and
female he created them.

Joshua 11:14 And all the spoil and livestock of these cities the Israelites
took as booty; they struck the people with the edge of the sword, until they
had destroyed them—they left behind no one who breathed.

[18] Indeed, any man in whom is a physical defect shall not come near: a blind man or lame or disfigured or deformed, [19] or a man in whom is a broken foot or a broken hand, [20] or a hunchback or a dwarf, or a spot in his eye or a skin disorder or a skin eruption or a crushed testicle. [21] Any man from Aaron the priest's offspring in whom is a physical defect shall not come near to present offerings made by fire to Yahweh; a physical defect *is* in him; he shall not come near to present his God's food. [22] He may eat his God's food, from the most holy things and from the holy things. [23] But he must not enter the curtain, and he must not come near to the altar, because a physical defect *is* in him, and he must not profane my sanctuary, because I *am* Yahweh, who consecrates them.' "

[24] Thus Moses spoke to Aaron and to his sons and to all the Israelites.

Numbers 19:11 " 'The one who touches a corpse of any person will be unclean for seven days.

Numbers 19:16 Anyone in the open field who touches one who has been slain, or a corpse, or a bone of a person, or a burial site, he will be unclean for seven days.

Numbers 19:19 The clean *person* will spatter the unclean on the third day and on the seventh day; and on the seventh day he will purify him, and he will wash his garments; he will bathe in the waters, and in the evening he will be clean.

Numbers 31:19 And you, camp outside the camp seven days; all who killed a person and all who touched the slain purify yourselves on the third day and on the seventh day, you and your captives.

Numbers 31:24 And you will wash your garments on the seventh day and be clean, and afterward you will come into the camp."

Numbers 21:2–3 Israel made a vow to Yahweh, and they said, "If you will surely give this people into our hand, then we will destroy their cities." [3] Yahweh heard the voice of Israel; he gave *to them* the Canaanites, and they destroyed them and their cities. They called the name of the place Hormah.

Deuteronomy 32:8–9 When the Most High apportioned *the* nations, at his dividing *up* of the sons of humankind,

he fixed the boundaries of *the* peoples,

according to the number of the children of Israel.

[9] For Yahweh's portion *was* his people, Jacob the share of his inheritance.

Genesis 12:1–3 And Yahweh said to Abram, "Go out from your land and from your relatives, and from the house of your father, to the land that I will show you. [2] And I will make you a great nation, and I will bless you, and I will make your name great. And you will be a blessing. [3] And I will bless those who bless you, and those who curse you I will curse. And all families of the earth will be blessed in you."

Genesis 49:10 The scepter shall not depart from Judah, nor the ruler's staff between his feet,

until Shiloh comes.

And to him shall be the obedience of nations.

Numbers 13:32–33 And they presented the report of the land that they explored to the Israelites, saying, “The land that we went through to explore *is* a land that eats its inhabitants, and all the people whom we saw in its midst *are* men of great size. 33 There we saw the Nephilim (the descendants of Anak *came* from the Nephilim), and we were like grasshoppers in our own sight, and so we were in their eyes.”

Numbers 21:31–35 Thus Israel lived in the land of the Amorites. 32 Moses sent to explore Jaazer; they captured its environs and dispossessed the Amorites who *were* there.

33 Then they turned and went up *by* the way of the Bashan, and Og king of the Bashan and all his people went out to meet them for battle *at* Edrei. 34 And Yahweh said to Moses, “Do not fear him because I will give him and all his people and all his land into your hand. You will do to him just as you did to Sihon king of the Amorites, who was living in Heshbon.” 35 And so they destroyed him and his sons, and all his people until they had not spared a survivor; and they took possession of his land.

Joshua 11:21–22 At that time Joshua came and exterminated the Anakites from the hill country, from Hebron, Debir, Anab, and from all the hill country of Judah, and from all the hill country of Israel; Joshua utterly destroyed them with their cities. 22 None of the Anakites were left in the land of the Israelites; some remained only in Gaza, Gath, and Ashdod.

Joshua 14:12–15 So now give me this hill country that Yahweh spoke *of* on that day, for you heard on that day that the Anakites *were* there, with great and fortified cities. Perhaps Yahweh *is* with me, and I will drive them out just as Yahweh promised.”

13 And Joshua blessed him and gave Hebron to Caleb son of Jephunneh as an inheritance. 14 Thus Hebron became the inheritance of Caleb son of Jephunneh the Kenizzite to this day, because he remained true to Yahweh the God of Israel. 15 And the name of Hebron formerly *was* Kiriath Arba; *Arba was* the greatest person among the Anakites. And the land rested from war.

Exodus 23:28 And I will send the hornet before you, and it will drive out the Hivites, the Canaanites, and the Hittites from before you.

Exodus 23:29 I will not drive them out from before you in one year, lest the land become a desolation and the wild animals multiply against you.

Exodus 23:30 Little by little I will drive them out from before you until you are fruitful and take possession of the land.

Exodus 23:31 " 'And I will set your boundary from the Red Sea and up to the sea of the Philistines and from *the* desert up to the river, because I will give the inhabitants of the land into your hand, and you will drive them out from before you.

Exodus 33:2 And I will send an angel before you, and I will drive out the Canaanites, the Amorites, and the Hittites and the Perizzites, the Hivites, and the Jebusites,

Deuteronomy 33:27 The God of ancient time *is* a hiding place, and underneath *are the* arms of eternity, and he drove out from before you your enemy,

and he said, 'Destroy *them*!'

Joshua 24:12 I sent before you *the* hornet and they drove out before you two kings of the Amorites; *but* not by your sword or bow.

Joshua 24:18 And Yahweh drove out all the people before us, the Amorites who live *in* the land. We will serve Yahweh, for he *is* our God."

Exodus 34:24 because I will evict nations before you, and I will enlarge your territory, and no one will covet your land when you go up to appear before Yahweh your God three times in the year.

Numbers 21:32 Moses sent to explore Jaazer; they captured its environs and dispossessed the Amorites who *were* there.

Numbers 33:52 you will drive out the inhabitants of the land from your presence, and you will destroy all their idols and all the images of their molten idols, and you will demolish all their high places;

Numbers 33:53 you will dispossess the land and live in it because I have given the land to you to possess it.

Numbers 33:55 But if you do not drive out the inhabitants of the land from your presence, then it will happen that whomever you let remain of them will be like irritants in your eyes and like thorns in your sides; they will be your enemies in the land in which you live.

Joshua 3:10 Joshua said, “By this you will know that *the* living God *is* in your midst, and he will certainly drive out the Canaanites from before you, and the Hittites, Hivites, the Perizzites, the Girgashites, the Amorites, and the Jebusites.

Joshua 12:1 These *are* the kings of the land whom the Israelites defeated, and of whose land they took possession beyond the Jordan to the east, from the wadi of Arnon up to Mount Hermon, and all the Arabah to the east:

Joshua 13:6 all the inhabitants of the hill country, from the Lebanon up to Misrephoth Maim, and all *the* Sidonians. I will drive them out from before the Israelites; only allocate it to Israel as an inheritance just as I have commanded you.

Joshua 17:12 But the descendants of Manasseh were not able to take possession of these towns; the Canaanites were determined to live in this land.

Joshua 17:13 And it happened, when the Israelites grew strong, they put the Canaanites to forced labor but never drove them out completely.

Joshua 23:5 And Yahweh your God will push them back before you and drive them out of your sight, and you will possess their land, just as Yahweh your God promised to you.

Joshua 23:9 Yahweh has driven out before you great and strong nations; and as for you, nobody has withstood you to this day.

Numbers 27:18–23 Then Yahweh said to Moses, “Take Joshua son of Nun, a man in whom is *the* spirit, and place your hand on him. [19] Have him stand before Eleazar the priest and before the entire community, and commission

him in their sight. [20] You will give to him from your authority so that the entire community of Israel will obey him. [21] He will stand before Eleazar the priest, who will ask for him by the decision of the Urim before Yahweh. On his command they will go out, and at his command they will come in, *both* he and all of the Israelites with him, the entire community." [22] Moses did just as Yahweh commanded him, and he took Joshua and set him before Eleazar the priest and before the entire community. [23] And he placed his hands on him and commissioned him just as Yahweh spoke by the hand of Moses.

Leviticus 11:24–25 And by these you shall become unclean—anyone who touches their dead body shall become unclean until the evening, [25] and anyone who carries their dead body must wash his garments, and he shall be unclean until the evening.

Leviticus 11:39 " 'And when one of the animals dies that is for you to eat, the one who touches its dead body shall become unclean until the evening.

Leviticus 21:16–24 Then Yahweh spoke to Moses, saying, [17] "Speak to Aaron, saying, 'A man from your offspring throughout their generations, in whom is a physical defect, shall not come near to present your God's food. [18] Indeed, any man in whom is a physical defect shall not come near: a blind man or lame or disfigured or deformed, [19] or a man in whom is a broken foot or a broken hand, [20] or a hunchback or a dwarf, or a spot in his eye or a skin disorder or a skin eruption or a crushed testicle. Exodus 24:12 And Yahweh said to Moses, “Come up to me *on* the mountain, and be there, and I will give you the tablets of stone and the law and the commandments that I have written to instruct them.”

Exodus 31:18 And when he finished speaking with him on Mount Sinai, he gave to Moses the two tablets of the testimony, stone tablets, written with the finger of God.

Exodus 32:15–16 And Moses turned and went down from the mountain, and the two tablets of the testimony *were* in his hand, tablets written on their two sides; on the front and on the back they were written. 16 And the tablets, they *were* the work of God; and the writing, it *was* the writing of God engraved on the tablets.

Deuteronomy 4:13 And he declared to you his covenant, the Ten Commandments, which he charged you to observe, and he wrote them on *the* two tablets of stone.

Deuteronomy 5:22 “These words Yahweh spoke to your whole assembly at the mountain from the midst of the fire and the very thick cloud *with* a loud voice, and he did not add anything, and *then* he wrote them on two tablets of stone and gave them to me.

Exodus 3:1–3 And Moses was a shepherd with the flock of Jethro, his father-in-law, the priest of Midian, and he led the flock to the west *of* the desert, and he came to the mountain of God, to Horeb. 2 And the angel of Yahweh appeared to him in a flame of fire from the midst of a bush, and he looked, and there was the bush burning with fire, but the bush was not being consumed. 3 And Moses said, “Let me turn aside and see this great sight. Why does the bush not burn up?”

James 2:19 You believe that God is one; you do well. Even the demons believe, and shudder!

Genesis 11:1–9 Now the whole earth *had* one language and the same words.
2 And as people migrated from the east they found a plain in the land of
Shinar and settled there. 3 And they said to each other, “Come, let us make
bricks and burn them thoroughly.” And they had brick for stone and they
had tar for mortar. 4 And they said, “Come, let us build ourselves a city and
a tower whose top *reaches to* the heavens. And let us make a name for
ourselves, lest we be scattered over the face of the whole earth.”

5 Then Yahweh came down to see the city and the tower that humankind
was building. 6 And Yahweh said, “Behold, they are one people with one
language, and this is only the beginning of what they will do. So now
nothing that they intend to do will be impossible for them. 7 Come, let us go
down and confuse their language there, so that they will not understand
each other’s language.” 8 So Yahweh scattered them from there over the
face of the whole earth, and they stopped building the city. 9 Therefore its
name was called Babel, for there Yahweh confused the language of the
whole earth, and there Yahweh scattered them over the face of the whole
earth.

James 2:19 You believe that God is one; you do well. Even the demons believe, and shudder!

James 1:1–3 James, a slave of God and of the Lord Jesus Christ, to the twelve tribes in the dispersion. Greetings!

2 Consider *it* all joy, my brothers, whenever you encounter various trials, 3 *because you* know that the testing of your faith produces endurance.

Galatians 3:26–29 For you are all sons of God through faith in Christ Jesus, 27 for as many *of you* as were baptized into Christ have put on Christ. 28 There is neither Jew nor Greek, there is neither slave nor free, there is neither male and female, for you are all one in Christ Jesus. 29 And if you *are* Christ's, then you are descendants of Abraham, heirs according to the promise.

Psalm 82:6–7 I have said, "You *are* gods, and sons of the Most High, all of you.

7 However, you will die like men, and you will fall like one of the princes."

Deuteronomy 4:25–27 "When you have had children and grandchildren and you have grown old in the land and you act corruptly and you make a divine image *of* the form of anything and you do evil in the eyes of Yahweh your God, *thus* provoking him to anger, 26 I call to witness against you today the heaven and the earth, that you will perish soon and completely from the land that you *are* crossing the Jordan into it to take possession of it; you will not live long on it, but you will be completely destroyed. 27 And Yahweh will scatter you among the peoples, and you will be left few in number among the nations to where Yahweh will lead you.

Deuteronomy 4:39–40 So you shall acknowledge today, and you must call to mind that Yahweh *is* God in heaven above and on the earth beneath. There is no other *God*. 40 And you shall keep his rules and his commandments that I am commanding you today, *so* that it may go well for you and for your children after you, and so that you may remain a long time on the land that Yahweh your God *is* giving to you *during* all *of* those days."

Deuteronomy 11:18–24 “And you shall put these, my words, on your heart and on your inner self, and you shall bind them as a sign on your hand and let them be as an emblem between your eyes. [19] And you shall teach them to your children by talking about them when you sit in your house and when you travel on the road and when you lie down and when you get up. [20] And you shall write them on the doorframes of your house and on your gates, [21] so that *they* may multiply your days and the days of your children on the land that Yahweh swore to your ancestors to give *it* to them as long as heaven endures over the earth. [22] Yes, if you diligently keep all this commandment that I *am* commanding you to observe it, by loving Yahweh your God by walking in all his ways and by holding fast to him, [23] then Yahweh will drive out all *of* these nations before you, and you will dispossess nations larger and more numerous than you. [24] Every place on which the sole of your foot treads, it shall be yours; your boundary shall be from the desert and Lebanon from the river, the river Euphrates, on up to the western sea.

Leviticus 26:14–28 “ ‘But if you do not listen to me and you do not carry out all these commands, [15] and if you reject my statutes and if your inner self abhors my regulations, to not carry out all my commands *by* your breaking my covenant, [16] I in turn will do this to you: then I will summon onto you horror, the wasting disease, and the fever that wastes eyes and that drains away life; and you shall sow your seed in vain, and your enemies shall eat it. [17] And I will set my face against you, and you shall be defeated before your enemies; and your haters shall rule over you, and you shall flee away, but there shall not be anybody who is pursuing you.

[18] “ ‘And if in spite of these *things* you do not listen to me, then I will continue to discipline you seven times for your sins. [19] And I will break the pride of your strength; and I will make your heaven like iron and your land like copper. [20] And your strength shall be consumed in vain; and your land shall not give its produce, and the land’s trees shall not give their fruit.

[21] “ ‘And if you go against me *in* hostility and you are not willing to listen to me, then I will add a plague onto you seven times according to your sins. [22] And I will send wild animals out among you, and they shall

make you childless, and they shall cut down your domestic animals, and they shall make you fewer; and your roads shall be desolate.

23 “ ‘And if you do not accept correction from me through these *things*, but you go against me *in* hostility, 24 then I myself will also go against you in hostility, and I myself also will strike you seven times for your sins. 25 And I will bring upon you a sword that seeks vengeance *for the* covenant, and you shall be gathered to your cities; and I will send a plague in your midst, and you shall be given into *the* hand of an enemy. 26 At my breaking *the* supply of bread for you, then ten women shall bake your bread in one oven, and they shall return your bread by weight; and you shall eat *it*, and you shall not be satisfied.

27 “ ‘And if through this you do not listen to me and you go against me in hostility, 28 then I will go against you in hostile anger, and also I myself will discipline you seven times for your sins.

Deuteronomy 28:43–52 The alien that *is* in your midst shall ascend over you, higher *and* higher, but you shall go down lower *and* lower. 44 He shall lend to you, but you shall not lend to him; he shall be *the* head, but you shall be *the* tail.

45 “And all of these curses shall come over you, and they shall pursue you, and they shall overtake you until you are destroyed, because you did not listen to the voice of Yahweh your God, by observing his commandments and his statutes that he commanded you. 46 And they shall be among you as a sign and as a wonder and among your offspring forever.

47 “Because *of the fact* that you did not serve Yahweh your God with joy and with gladness of heart for the abundance of everything, 48 then you shall serve your enemies, whom Yahweh will send against you *under conditions of* famine, in thirst, in nakedness, and in *a* lack of everything; and he shall place a yoke of iron on your neck until he has destroyed you. 49 Yahweh will raise *up* against you a nation from far *off*, from the end of the earth, *attacking* as the eagle swoops *down*, a nation whose language you will not understand, 50 a grim-faced nation who does not show respect to *the* old and *the* young *and* does not show pity. 51 And it shall consume the fruit of your livestock and the fruit of your ground until you are destroyed, *and*

who will not leave for you *any* grain, wine, and olive oil, calves of your herds, and lambs of your flock until it has destroyed you. 52 And it shall besiege you in all your towns until your high and fortified walls fall, which you *are* trusting in throughout your land; and it shall besiege you in all of your towns in all of your land that Yahweh your God has given to you.

Deuteronomy 28:64–67 And Yahweh shall scatter you among all the nations from *one* end of the earth up to the *other* end of the earth, and there you shall serve other gods that you have not known nor your ancestors, *gods of* wood and stone. 65 And among these nations you shall not find rest, and *there* shall not be a resting place for the sole of your foot, and Yahweh shall give you there an anxious heart and a weakening of eyes and a languishing of *your* inner self. 66 And your life shall hang in doubt before you, and you shall be startled night and day, and you shall not be confident of your life. 67 In the morning you shall say, 'If only it was evening!' and in the evening you shall say 'If only it was morning!' because of the dread of your heart that you shall feel, and because of the sight of your eyes that you shall see.

Deuteronomy 29:22–28 "And the next generation, *that is*, your children who will rise *up* after you, and the foreigner who will come from a distant land, when they will see the plagues of that land and its diseases that Yahweh has inflicted upon it, will say, 23 'All its land is brimstone and salt left by fire, none of its land will be sown, and it will not make plants sprout out and it will not grow any vegetation; *it is* as the destruction of Sodom and Gomorrah, Adman and Zeboiim, which Yahweh overturned in his anger and in his wrath.' 24 And all the nations will say, 'Why has Yahweh done such a thing to this land? What *caused* the fierceness of this great anger?' 25 And they will say, '*It is* because they abandoned the covenant of Yahweh, the God of their ancestors, which he made with them when he brought them out from the land of Egypt. 26 And they went and served other gods and bowed down to them, gods whom they did not know them and he had not allotted to them. 27 So the anger of Yahweh was kindled against that land to bring upon it all the curses written in this scroll, 28 and Yahweh uprooted them from their land in anger and in wrath and in great fury, and he cast them into another land, just as it is today.'

Deuteronomy 31:14–28 Then Yahweh said to Moses, “Look, you are about to die; call Joshua and present yourselves in *the* tent of assembly, so that I may instruct him.” So Moses and Joshua went and presented themselves in *the* tent of assembly. 15 And Yahweh appeared in the tent in a column of cloud, and the column of the cloud stood at the entrance of the tent. 16 And Yahweh said to Moses, “Look, you *are* about to lie *down* with your ancestors, and this people will arise and they will play the prostitute after the foreign gods of the land to which they are going. 17 And my anger shall flare up against them on that day, and I will forsake them, and I will hide my face from them, and they shall become as prey, and disasters and troubles shall find them, and they shall say on that day, ‘*Is it* not because our God is not in our midst *that* these disasters have found us?’ 18 But I will certainly hide my face on that day, because *of* all of the evil that they did because they turned to other gods.

19 “And so then write this song for yourselves and teach it to the Israelites; put it in their mouth, so that this song may be for me as a witness against the Israelites. 20 For when I bring them into the land that I swore to their ancestors, a land flowing with milk and honey, they will eat their fill, and they will become fat, and *then* they will turn to other gods, and they will serve them, and they will spurn me, and they will break my covenant. 21 And then many disasters and troubles will come upon them, and this song will give evidence before them as a witness, because it will not be forgotten from *out of* the mouth of their descendants, for I know their inclination that they *are* having today before I have brought them into the land that I swore.” 22 And Moses wrote this song on that day and taught it *to* the Israelites.

23 Then he told Joshua the son of Nun, and said *to him*, “Be strong and be courageous, for you shall bring the Israelites into the land that I swore to them, and I will be with you.”

24 And then when Moses finished writing the words of this law on the scroll until they were complete, 25 then Moses commanded the Levites carrying the ark of the covenant of Yahweh, saying, 26 “Take the scroll of this law and put it at the side of the ark of the covenant of Yahweh your God, and it will be there as a witness against you. 27 For I know your

rebellion and your stiff neck *even now* while I *am* still alive with you today, rebelling against Yahweh, and how much more after my death. [28] Assemble to me all the elders of your tribes and your officials, so that I may speak in their ears these words, and *that* I may call as witness against them heaven and earth.

Deuteronomy 4:25–27 “When you have had children and grandchildren and you have grown old in the land and you act corruptly and you make a divine image *of* the form of anything and you do evil in the eyes of Yahweh your God, *thus* provoking him to anger, [26] I call to witness against you today the heaven and the earth, that you will perish soon and completely from the land that you *are* crossing the Jordan into it to take possession of it; you will not live long on it, but you will be completely destroyed. [27] And Yahweh will scatter you among the peoples, and you will be left few in number among the nations to where Yahweh will lead you.

Deuteronomy 4:39–40 So you shall acknowledge today, and you must call to mind that Yahweh *is* God in heaven above and on the earth beneath. There is no other *God*. [40] And you shall keep his rules and his commandments that I am commanding you today, *so* that it may go well for you and for your children after you, and so that you may remain a long time on the land that Yahweh your God *is* giving to you *during* all *of* those days.”

Deuteronomy 11:18–24 “And you shall put these, my words, on your heart and on your inner self, and you shall bind them as a sign on your hand and let them be as an emblem between your eyes. [19] And you shall teach them to your children by talking about them when you sit in your house and when you travel on the road and when you lie down and when you get up. [20] And you shall write them on the doorframes of your house and on your gates, [21] so that *they* may multiply your days and the days of your children on the land that Yahweh swore to your ancestors to give *it* to them as long as heaven endures over the earth. [22] Yes, if you diligently keep all this commandment that I *am* commanding you to observe it, by loving Yahweh your God by walking in all his ways and by holding fast to him, [23] then Yahweh will drive out all *of* these nations before you, and you will dispossess nations larger and more numerous than you. [24] Every place on

which the sole of your foot treads, it shall be yours; your boundary shall be from the desert and Lebanon from the river, the river Euphrates, on up to the western sea.

Leviticus 26:14–28 “ ‘But if you do not listen to me and you do not carry out all these commands, 15 and if you reject my statutes and if your inner self abhors my regulations, to not carry out all my commands *by* your breaking my covenant, 16 I in turn will do this to you: then I will summon onto you horror, the wasting disease, and the fever that wastes eyes and that drains away life; and you shall sow your seed in vain, and your enemies shall eat it. 17 And I will set my face against you, and you shall be defeated before your enemies; and your haters shall rule over you, and you shall flee away, but there shall not be anybody who is pursuing you.

18 “ ‘And if in spite of these *things* you do not listen to me, then I will continue to discipline you seven times for your sins. 19 And I will break the pride of your strength; and I will make your heaven like iron and your land like copper. 20 And your strength shall be consumed in vain; and your land shall not give its produce, and the land’s trees shall not give their fruit.

21 “ ‘And if you go against me *in* hostility and you are not willing to listen to me, then I will add a plague onto you seven times according to your sins. 22 And I will send wild animals out among you, and they shall make you childless, and they shall cut down your domestic animals, and they shall make you fewer; and your roads shall be desolate.

23 “ ‘And if you do not accept correction from me through these *things*, but you go against me *in* hostility, 24 then I myself will also go against you in hostility, and I myself also will strike you seven times for your sins. 25 And I will bring upon you a sword that seeks vengeance *for the* covenant, and you shall be gathered to your cities; and I will send a plague in your midst, and you shall be given into *the* hand of an enemy. 26 At my breaking *the* supply of bread for you, then ten women shall bake your bread in one oven, and they shall return your bread by weight; and you shall eat *it*, and you shall not be satisfied.

27 “ ‘And if through this you do not listen to me and you go against me in hostility, 28 then I will go against you in hostile anger, and also I myself

will discipline you seven times for your sins.

Deuteronomy 28:43–52 The alien that *is* in your midst shall ascend over you, higher *and* higher, but you shall go down lower *and* lower. 44 He shall lend to you, but you shall not lend to him; he shall be *the* head, but you shall be *the* tail.

45 “And all of these curses shall come over you, and they shall pursue you, and they shall overtake you until you are destroyed, because you did not listen to the voice of Yahweh your God, by observing his commandments and his statutes that he commanded you. 46 And they shall be among you as a sign and as a wonder and among your offspring forever.

47 “Because *of the fact* that you did not serve Yahweh your God with joy and with gladness of heart for the abundance of everything, 48 then you shall serve your enemies, whom Yahweh will send against you *under conditions of* famine, in thirst, in nakedness, and in *a* lack of everything; and he shall place a yoke of iron on your neck until he has destroyed you. 49 Yahweh will raise *up* against you a nation from far *off*, from the end of the earth, *attacking* as the eagle swoops *down*, a nation whose language you will not understand, 50 a grim-faced nation who does not show respect to *the* old and *the* young *and* does not show pity. 51 And it shall consume the fruit of your livestock and the fruit of your ground until you are destroyed, *and* who will not leave for you *any* grain, wine, and olive oil, calves of your herds, and lambs of your flock until it has destroyed you. 52 And it shall besiege you in all your towns until your high and fortified walls fall, which you *are* trusting in throughout your land; and it shall besiege you in all of your towns in all of your land that Yahweh your God has given to you.

Deuteronomy 28:64–67 And Yahweh shall scatter you among all the nations from *one* end of the earth up to the *other* end of the earth, and there you shall serve other gods that you have not known nor your ancestors, *gods of* wood and stone. 65 And among these nations you shall not find rest, and *there* shall not be a resting place for the sole of your foot, and Yahweh shall give you there an anxious heart and a weakening of eyes and a languishing of *your* inner self. 66 And your life shall hang in doubt before you, and you shall be startled night and day, and you shall not be confident of your life. 67

In the morning you shall say, ‘If only it was evening!’ and in the evening you shall say ‘If only it was morning!’ because of the dread of your heart that you shall feel, and because of the sight of your eyes that you shall see.

Deuteronomy 29:22–28 “And the next generation, *that is*, your children who will rise *up* after you, and the foreigner who will come from a distant land, when they will see the plagues of that land and its diseases that Yahweh has inflicted upon it, will say, 23 ‘All its land is brimstone and salt left by fire, none of its land will be sown, and it will not make plants sprout out and it will not grow any vegetation; *it is* as the destruction of Sodom and Gomorrah, Adman and Zeboiim, which Yahweh overturned in his anger and in his wrath.’ 24 And all the nations will say, ‘Why has Yahweh done such a thing to this land? Deuteronomy 31:14–28 Then Yahweh said to Moses, “Look, you are about to die; call Joshua and present yourselves in *the* tent of assembly, so that I may instruct him.” So Moses and Joshua went and presented themselves in *the* tent of assembly. 15 And Yahweh appeared in the tent in a column of cloud, and the column of the cloud stood at the entrance of the tent. 16 And Yahweh said to Moses, “Look, you *are* about to lie *down* with your ancestors, and this people will arise and they will play the prostitute after the foreign gods of the land to which they are going. 17 And my anger shall flare up against them on that day, and I will forsake them, and I will hide my face from them, and they shall become as prey, and disasters and troubles shall find them, and they shall say on that day, ‘*Is it* not because our God is not in our midst *that* these disasters have found us?’ 18 But I will certainly hide my face on that day, because *of* all of the evil that they did because they turned to other gods.

19 “And so then write this song for yourselves and teach it to the Israelites; put it in their mouth, so that this song may be for me as a witness against the Israelites. 20 For when I bring them into the land that I swore to their ancestors, a land flowing with milk and honey, they will eat their fill, and they will become fat, and *then* they will turn to other gods, and they will serve them, and they will spurn me, and they will break my covenant. 21 And then many disasters and troubles will come upon them, and this song will give evidence before them as a witness, because it will not be forgotten from *out of* the mouth of their descendants, for I know their inclination that they *are* having today before I have brought them into the land that I swore.” 22 And Moses wrote this song on that day and taught it *to* the Israelites.

23 Then he told Joshua the son of Nun, and said *to him*, “Be strong and be courageous, for you shall bring the Israelites into the land that I swore to them, and I will be with you.”

24 And then when Moses finished writing the words of this law on the scroll until they were complete, 25 then Moses commanded the Levites carrying the ark of the covenant of Yahweh, saying, 26 “Take the scroll of this law and put it at the side of the ark of the covenant of Yahweh your

[28] Assemble to me all the elders of your tribes and your officials, so that I may speak in their ears these words, and *that* I may call as witness against them heaven and earth.

Exodus 3:1–3 And Moses was a shepherd with the flock of Jethro, his father-in-law, the priest of Midian, and he led the flock to the west *of* the desert, and he came to the mountain of God, to Horeb. [2] And the angel of Yahweh appeared to him in a flame of fire from the midst of a bush, and he looked, and there was the bush burning with fire, but the bush was not being consumed. [3] And Moses said, “Let me turn aside and see this great sight. Why does the bush not burn up?”

Deuteronomy 4:15 “So you must be very careful for yourselves, because you did not see any form on the day Yahweh spoke to you at Horeb from the midst of the fire,

Deuteronomy 5:2 Yahweh our God made a covenant with us at Horeb.

1 Kings 8:9 There was not *anything* in the ark except the two tablets of stone which Moses had placed there at Horeb, where Yahweh made *a covenant* with the Israelites after they went out from the land of Egypt.

Exodus 24:12 And Yahweh said to Moses, “Come up to me *on* the mountain, and be there, and I will give you the tablets of stone and the law and the commandments that I have written to instruct them.”

Exodus 31:18 And when he finished speaking with him on Mount Sinai, he gave to Moses the two tablets of the testimony, stone tablets, written with the finger of God.

Exodus 32:15–16 And Moses turned and went down from the mountain, and the two tablets of the testimony *were* in his hand, tablets written on their two sides; on the front and on the back they were written. [16] And the tablets, they *were* the work of God; and the writing, it *was* the writing of God engraved on the tablets.

Deuteronomy 4:13 And he declared to you his covenant, the Ten Commandments, which he charged you to observe, and he wrote them on *the* two tablets of stone.

Deuteronomy 5:22 “These words Yahweh spoke to your whole assembly at the mountain from the midst of the fire and the very thick cloud *with* a loud voice, and he did not add anything, and *then* he wrote them on two tablets of stone and gave them to me.

And his days *shall be* one hundred and twenty years.” [4] The Nephilim *were* upon the earth in those days, and also afterward, when the sons of God went into the daughters of humankind, and they bore children to them. These *were* the mighty warriors that *were* from ancient times, men of renown.

Deuteronomy 4:25–27 “When you have had children and grandchildren and you have grown old in the land and you act corruptly and you make a divine image *of* the form of anything and you do evil in the eyes of Yahweh your God, *thus* provoking him to anger, [26] I call to witness against you today the heaven and the earth, that you will perish soon and completely from the land that you *are* crossing the Jordan into it to take possession of it; you will not live long on it, but you will be completely destroyed. [27] And Yahweh will scatter you among the peoples, and you will be left few in number among the nations to where Yahweh will lead you.

Deuteronomy 4:39–40 So you shall acknowledge today, and you must call to mind that Yahweh *is* God in heaven above and on the earth beneath.

There is no other *God*. [40] And you shall keep his rules and his commandments that I am commanding you today, *so* that it may go well for you and for your children after you, and so that you may remain a long time on the land that Yahweh your God *is* giving to you *during* all *of* those days."

Deuteronomy 11:18–24 "And you shall put these, my words, on your heart and on your inner self, and you shall bind them as a sign on your hand and let them be as an emblem between your eyes. [19] And you shall teach them to your children by talking about them when you sit in your house and when you travel on the road and when you lie down and when you get up. [20] And you shall write them on the doorframes of your house and on your gates, [21] so that *they* may multiply your days and the days of your children on the land that Yahweh swore to your ancestors to give *it* to them as long as heaven endures over the earth. [22] Yes, if you diligently keep all this commandment that I *am* commanding you to observe it, by loving Yahweh your God by walking in all his ways and by holding fast to him, [23] then Yahweh will drive out all *of* these nations before you, and you will dispossess nations larger and more numerous than you. [24] Every place on which the sole of your foot treads, it shall be yours; your boundary shall be from the desert and Lebanon from the river, the river Euphrates, on up to the western sea.

Leviticus 26:14–28 " 'But if you do not listen to me and you do not carry out all these commands, [15] and if you reject my statutes and if your inner self abhors my regulations, to not carry out all my commands *by* your breaking my covenant, [16] I in turn will do this to you: then I will summon onto you horror, the wasting disease, and the fever that wastes eyes and that drains away life; and you shall sow your seed in vain, and your enemies shall eat it. [17] And I will set my face against you, and you shall be defeated before your enemies; and your haters shall rule over you, and you shall flee away, but there shall not be anybody who is pursuing you.

[18] " 'And if in spite of these *things* you do not listen to me, then I will continue to discipline you seven times for your sins. [19] And I will break the pride of your strength; and I will make your heaven like iron and your land

like copper. 20 And your strength shall be consumed in vain; and your land
shall not give its produce, and the land's trees shall not give their fruit.

21 " 'And if you go against me *in* hostility and you are not willing to
listen to me, then I will add a plague onto you seven times according to
your sins. 22 And I will send wild animals out among you, and they shall
make you childless, and they shall cut down your domestic animals, and
they shall make you fewer; and your roads shall be desolate.

23 " 'And if you do not accept correction from me through these *things*,
but you go against me *in* hostility, 24 then I myself will also go against you
in hostility, and I myself also will strike you seven times for your sins. 25
And I will bring upon you a sword that seeks vengeance *for the* covenant,
and you shall be gathered to your cities; and I will send a plague in your
midst, and you shall be given into *the* hand of an enemy. 26 At my breaking
the supply of bread for you, then ten women shall bake your bread in one
oven, and they shall return your bread by weight; and you shall eat *it*, and
you shall not be satisfied.

27 " 'And if through this you do not listen to me and you go against me
in hostility, 28 then I will go against you in hostile anger, and also I myself
will discipline you seven times for your sins.

Deuteronomy 28:43–52 The alien that *is* in your midst shall ascend over
you, higher *and* higher, but you shall go down lower *and* lower. 44 He shall
lend to you, but you shall not lend to him; he shall be *the* head, but you
shall be *the* tail.

45 "And all of these curses shall come over you, and they shall pursue
you, and they shall overtake you until you are destroyed, because you did
not listen to the voice of Yahweh your God, by observing his
commandments and his statutes that he commanded you. 46 And they shall
be among you as a sign and as a wonder and among your offspring forever.

47 "Because *of the fact* that you did not serve Yahweh your God with joy
and with gladness of heart for the abundance of everything, 48 then you
shall serve your enemies, whom Yahweh will send against you *under
conditions of* famine, in thirst, in nakedness, and in *a* lack of everything;
and he shall place a yoke of iron on your neck until he has destroyed you. 49

Yahweh will raise *up* against you a nation from far *off*, from the end of the earth, *attacking* as the eagle swoops *down*, a nation whose language you will not understand, [50] a grim-faced nation who does not show respect to *the* old and *the* young *and* does not show pity. [51] And it shall consume the fruit of your livestock and the fruit of your ground until you are destroyed, *and* who will not leave for you *any* grain, wine, and olive oil, calves of your herds, and lambs of your flock until it has destroyed you. [52] And it shall besiege you in all your towns until your high and fortified walls fall, which you *are* trusting in throughout your land; and it shall besiege you in all of your towns in all of your land that Yahweh your God has given to you.

Deuteronomy 28:64–67 And Yahweh shall scatter you among all the nations from *one* end of the earth up to the *other* end of the earth, and there you shall serve other gods that you have not known nor your ancestors, *gods of* wood and stone. [65] And among these nations you shall not find rest, and *there* shall not be a resting place for the sole of your foot, and Yahweh shall give you there an anxious heart and a weakening of eyes and a languishing of *your* inner self. [66] And your life shall hang in doubt before you, and you shall be startled night and day, and you shall not be confident of your life. [67] In the morning you shall say, 'If only it was evening!' and in the evening you shall say 'If only it was morning!' because of the dread of your heart that you shall feel, and because of the sight of your eyes that you shall see.

Deuteronomy 29:22–28 "And the next generation, *that is*, your children who will rise *up* after you, and the foreigner who will come from a distant land, when they will see the plagues of that land and its diseases that Yahweh has inflicted upon it, will say, [23] 'All its land is brimstone and salt left by fire, none of its land will be sown, and it will not make plants sprout out and it will not grow any vegetation; *it is* as the destruction of Sodom and Gomorrah, Adman and Zeboiim, which Yahweh overturned in his anger and in his wrath.' [24] And all the nations will say, 'Why has Yahweh done such a thing to this land? What *caused* the fierceness of this great anger?' [25] And they will say, '*It is* because they abandoned the covenant of Yahweh, the God of their ancestors, which he made with them when he brought them out from the land of Egypt. [26] And they went and served other gods and

bowed down to them, gods whom they did not know them and he had not allotted to them. [27] So the anger of Yahweh was kindled against that land to bring upon it all the curses written in this scroll, [28] and Yahweh uprooted them from their land in anger and in wrath and in great fury, and he cast them into another land, just as it is today.’

Deuteronomy 31:14–28 Then Yahweh said to Moses, “Look, you are about to die; call Joshua and present yourselves in *the* tent of assembly, so that I may instruct him.” So Moses and Joshua went and presented themselves in *the* tent of assembly. [15] And Yahweh appeared in the tent in a column of cloud, and the column of the cloud stood at the entrance of the tent. [16] And Yahweh said to Moses, “Look, you *are* about to lie *down* with your ancestors, and this people will arise and they will play the prostitute after the foreign gods of the land to which they are going. [17] And my anger shall flare up against them on that day, and I will forsake them, and I will hide my face from them, and they shall become as prey, and disasters and troubles shall find them, and they shall say on that day, ‘*Is it* not because our God is not in our midst *that* these disasters have found us?’ [18] But I will certainly hide my face on that day, because *of* all of the evil that they did because they turned to other gods.

[19] “And so then write this song for yourselves and teach it to the Israelites; put it in their mouth, so that this song may be for me as a witness against the Israelites. [20] For when I bring them into the land that I swore to their ancestors, a land flowing with milk and honey, they will eat their fill, and they will become fat, and *then* they will turn to other gods, and they will serve them, and they will spurn me, and they will break my covenant. [21] And then many disasters and troubles will come upon them, and this song will give evidence before them as a witness, because it will not be forgotten from *out of* the mouth of their descendants, for I know their inclination that they *are* having today before I have brought them into the land that I swore.” [22] And Moses wrote this song on that day and taught it *to* the Israelites.

[23] Then he told Joshua the son of Nun, and said *to him*, “Be strong and be courageous, for you shall bring the Israelites into the land that I swore to them, and I will be with you.”

[24] And then when Moses finished writing the words of this law on the scroll until they were complete, [25] then Moses commanded the Levites carrying the ark of the covenant of Yahweh, saying, [26] “Take the scroll of this law and put it at the side of the ark of the covenant of Yahweh your God, and it will be there as a witness against you. [27] For I know your rebellion and your stiff neck *even now* while I *am* still alive with you today, rebelling against Yahweh, and how much more after my death. [28] Assemble to me all the elders of your tribes and your officials, so that I may speak in their ears these words, and *that* I may call as witness against them heaven and earth.

Deuteronomy 13:12–18 “If you hear in one of your towns which Yahweh your God *is* giving to you to live in, *someone* saying that [13] worthless men have gone out from your midst and have seduced the inhabitants of their town, saying, ‘Let us go and serve other gods!’ whom you have not known, [14] then you shall inquire and examine and interrogate thoroughly, and, look! *It is* true; the thing has actually been done, this detestable thing in your midst, [15] *then* you shall certainly strike down the inhabitants of that town with the edge of *the* sword; you shall destroy it and everything in it, its domestic animals with *the* edge of *the* sword. [16] And *then* you shall gather all of its booty into the middle of its public square, and you shall burn the town and all *of* its war-booty totally for Yahweh your God, and it shall be a pile of rubble forever; it shall not be built again. [17] And let not something cling to your hand from the things devoted to destruction, so that Yahweh may turn back from his burning anger, and he may show compassion to you and he may *continue* to show compassion and *so* multiply you just as he swore to your ancestors, [18] if you listen to the voice of Yahweh your God, to keep all *of* his commandments that I *am* commanding *to* you today *so as* to do the right *thing* in the eyes of Yahweh your God.”

Deuteronomy 20:10–18 “When you approach a city to fight against it, you must offer it peace. [11] And then if they accept your terms of peace and they surrender to you, and then all the people inhabiting it shall be forced labor for you, and they shall serve you. [12] But if they do not accept your terms of peace and they want to make war with you, then you shall lay siege against

it. [13] And Yahweh your God will give it into your hand, and you shall kill all its males with the edge of *the* sword. [14] Only the women and the little children and the domestic animals and all that shall be in the city, all of its spoil you may loot for yourselves, and you may enjoy the spoil of your enemies that Yahweh you God has given to you. [15] Thus you shall do to all the far cities from you, which *are* not from the cities of these nations located nearby.

[16] But from the cities of these peoples that Yahweh your God *is* giving to you as an inheritance, you shall not let anything live that breathes. [17] Rather, you shall utterly destroy them, the Hittites and the Amorites, the Canaanites and the Perizzites, the Hivites, and the Jebusites, *just* as Yahweh your God has commanded you, [18] so that they may not teach you to do like all their detestable things that they do for their gods and *thereby* you sin against Yahweh your God.

Deuteronomy 32:17 They sacrificed to the demons, not God, *to* gods whom they had not known, new *gods who* came from recent times; their ancestors had not known them.

1 Corinthians 10:20 *No*, but that *the things* which they sacrifice, they sacrifice to demons and not to God, and I do not want you to become sharers with demons.

Deuteronomy 32:8–9 When the Most High apportioned *the* nations, at his dividing *up* of the sons of humankind, he fixed the boundaries of *the* peoples, according to the number of the children of Israel.

[9] For Yahweh's portion *was* his people, Jacob the share of his inheritance.

Deuteronomy 4:19–20 And do this so that you do not lift your eyes *toward* heaven and observe the sun and the moon and the stars, all the host of the heaven, and be led astray and bow down to them and serve them, things that Yahweh your God has allotted to all *of* the peoples under all *of* the heaven. 20 But Yahweh has taken you and brought you out from the furnace of iron, from Egypt, to be a people of inheritance to him, as it is this day.

1 Kings 22:13–23 Then the messenger who had gone to summon Micaiah said to him, “Please now, the words of the prophets are unanimously favorable to the king. Please let your words be as one word with them, and speak favorably.” 14 Then Micaiah said, “As Yahweh lives, surely only as Yahweh speaks to me, that will I speak.” 15 When he came to the king, the king asked him, “Micaiah, shall we go to Ramoth-Gilead to the battle, or shall we refrain?” He said to him, “Go up and triumph, and Yahweh will give *it* into the hand of the king.” 16 Then the king said to him, “How many times must I make you swear that you shall not tell me *anything* but truth in the name of Yahweh?” 17 So he said, “I saw all of Israel scattering to the mountains, like the sheep without a shepherd. Yahweh also said, ‘There are no masters for these, let them return in peace, each to his house.’ ” 18 Then the king of Israel said to Jehoshaphat, “Did I not say to you that he would not prophesy good concerning me, but disaster?”

19 And he said, “Therefore, hear the word of Yahweh. I saw Yahweh sitting on his throne with all the hosts of heaven standing beside him from his right hand and from his left *hand*. 20 And Yahweh said, ‘Who will entice Ahab so that he will go up and fall at Ramoth-Gilead?’ Then this one was saying one thing and the other one was saying another. 21 Then a spirit came out and stood before Yahweh and said, ‘I will entice him,’ and Yahweh said to him, ‘How?’ 22 He said, ‘I will go out and I will be a false spirit in the mouth of all his prophets.’ And he said, ‘You shall entice and succeed, go out and do so.’ 23 So then, see that Yahweh has placed a false spirit in the

mouth of all of these your prophets, and Yahweh has spoken disaster concerning you.”

Deuteronomy 17:2–5 If *there* is found in one of your towns that Yahweh your God *is* giving to you a man or a woman that does evil in the eyes of Yahweh your God to transgress his covenant [3] and by going and serving other gods and *so* he bows down to them and to the sun or to the moon or to any *of* the host of heaven which I have forbidden, [4] and it is reported to you or you hear *about it* and you enquire *about it* thoroughly and, indeed, *the* trustworthiness of the deed *has* been established, it has occurred, this detestable thing, in Israel, [5] then you shall bring out that man or that woman who has done this evil thing to your gates; that is, the man or the woman, and you shall stone them with stones to death.

Genesis 11:1–9 Now the whole earth *had* one language and the same words.
2 And as people migrated from the east they found a plain in the land of
Shinar and settled there. 3 And they said to each other, “Come, let us make
bricks and burn them thoroughly.” And they had brick for stone and they
had tar for mortar. 4 And they said, “Come, let us build ourselves a city and
a tower whose top *reaches to* the heavens. And let us make a name for
ourselves, lest we be scattered over the face of the whole earth.”

5 Then Yahweh came down to see the city and the tower that humankind
was building. 6 And Yahweh said, “Behold, they are one people with one
language, and this is only the beginning of what they will do. So now
nothing that they intend to do will be impossible for them. 7 Come, let us go
down and confuse their language there, so that they will not understand
each other’s language.” 8 So Yahweh scattered them from there over the
face of the whole earth, and they stopped building the city. 9 Therefore its
name was called Babel, for there Yahweh confused the language of the
whole earth, and there Yahweh scattered them over the face of the whole
earth.

[4] Any bed upon which the person who discharges lies down becomes unclean, and any object upon which he sits becomes unclean. [5] And anyone who touches his bed must wash his garments and shall wash *himself* with water, and he shall be unclean until evening. [6] And the person who sits on the object upon which the person who discharges has sat must

wash his garments, and he shall wash *himself* with water, and he shall be unclean until the evening. [7] And the person who touches the body of the person who discharges must wash his garments, and he shall wash *himself* with water, and he shall be unclean until the evening. [8] And if the person who discharges spits on *one who is* clean, then that one shall wash is garments, and he shall wash *himself* with water, and he shall be unclean until the evening. [9] And any saddle upon which the person who discharges rides becomes unclean. [10] And any person who touches anything that happened to be under him becomes unclean until the evening, and the person who carries them must wash his garments, and he shall wash *himself* with water, and he shall be unclean until the evening. [11] And anyone whom the person who discharges might touch without rinsing off his hands with water shall wash his garments, and he shall wash *himself* with water, and he shall be unclean until the evening. [12] But a clay vessel that the person who discharges touches must be broken, and any wood object must be rinsed with water.

[13] “ ‘And when the person who discharges becomes clean from his body fluid discharge, he shall count for himself seven days for his cleansing; then he shall wash his garments, and he shall wash his body with fresh water, and he shall be clean. [14] Then on the eighth day he shall take for himself two turtledoves or two young doves, and he shall come before Yahweh at *the* tent of assembly’s entrance, and he shall give them to the priest. [15] And the priest shall sacrifice one *as* a sin offering and the other *as* a burnt offering, and so the priest shall make atonement for him before Yahweh from his body fluid discharge.

Leviticus 18:19 “ ‘And you must not have sex with a woman to expose her nakedness during her menstrual uncleanness.

Leviticus 20:18 As for a man who lies with a menstruating woman, he exposes her nakedness—her source he exposes and she herself reveals her blood’s source—both of them shall be cut off from the midst of their people.

Leviticus 22:4–6 “ ‘Anyone from Aaron’s offspring, if he *is* afflicted with a skin disease or a fluid discharge, shall not eat in the sanctuary until he is

clean; and the one who touches any unclean person or a man from whom an emission of semen goes out, [5] or a man who touches any swarmer that is unclean for him or *who touches* a person who is unclean for him due to whatever his uncleanness, [6] a person who touches such a thing shall be unclean until the evening, and he shall not eat from the votive offerings, except *when* he washes his body with water

Deuteronomy 23:10–15 “If *there* is among you a man that is not clean because of a seminal emission during the night, he shall go outside the camp; he shall not come within the camp. [11] And then toward the coming of the evening, he shall bathe with water, and at the going down of the sun, he may come to the midst of the camp.

[12] “And there shall be for you a designated place outside the camp; and you shall go there to relieve yourself, [13] and a digging tool shall *be included* in addition to your *other* utensils for yourself; and then when you relieve yourself outside *the camp* you shall dig with it, and *then* you shall turn, and you shall cover your excrement. [14] For Yahweh your God *is* walking about in the midst of your camp to deliver you and to hand your enemies over to you before you, and so let your camp be holy, so that he shall not see in it anything indecent, and he shall turn away from going with you.

[15] “And you shall not hand over a slave to his master who has escaped *and fled* to you from his master.

Leviticus 26:12 And I will walk about in your midst, and I shall be your God, and you shall be my people.

Deuteronomy 23:14 For Yahweh your God *is* walking about in the midst of your camp to deliver you and to hand your enemies over to you before you, and so let your camp be holy, so that he shall not see in it anything indecent, and he shall turn away from going with you.

Deuteronomy 23:15 For Yahweh your God *is* walking about in the midst of your camp to deliver you and to hand your enemies over to you before you, and so let your camp be holy, so that he shall not see in it anything indecent, and he shall turn away from going with you.

2 Samuel 7:6–7 For I have not dwelt in a house from the day I brought up the Israelites from Egypt until this day; *rather,* I *was* going about in a tent and in a tabernacle. 7 In all of my going about among all the Israelites, did I speak a word with one of the tribes of Israel whom I commanded to shepherd my people Israel, saying, 'Why did you not build me a cedar house?' " '

1 Chronicles 3:19 And the sons of Pedaiah: Zerubbabel and Shimei. And the sons of Zerubbabel: Meshullam and Hananiah, and Shelomith their sister,

Deuteronomy 25:5f "When brothers dwell together and one of them dies and has no son, the wife of the deceased shall not become the wife of a man of another family; her brother-in-law shall have sex with her, and he shall take her to himself as *a* wife, and he shall perform his duty as *a* brother-in-law *with respect to* her. 6 And then the firstborn that she bears shall represent his dead brother, so that his name is not blotted out from Israel.

Ruth 4:10 And also Ruth the Moabite, the wife of Mahlon, I have acquired as a wife, to raise up the name of the dead over his inheritance, so that the name of the dead may not be cut off from his relatives and from the gate of his *birth* place. You *are* witnesses today."

Zechariah 4:6–9 And he answered and said to me, "This *is* the word of Yahweh to Zerubbabel, saying, 'Not by strength and not by power, but *only* by my Spirit,' says Yahweh of hosts. 7 'Who *are* you O great mountain? Before Zerubbabel *you will become* level ground, and he will bring out the top stone amid the shouts of "Grace, grace to it!" ' " 8 And the word of

Yahweh came to me, saying, [9] “The hands of Zerubbabel have founded this house, and his hands will finish it. And you will know that Yahweh of hosts has sent me to you.

Zechariah 3:1–10 And he showed me Joshua the high priest standing before the angel of Yahweh; and Satan was standing on his right to accuse him. [2] But Yahweh said to Satan, “Yahweh rebukes you, O Satan! Yahweh who has chosen Jerusalem rebukes you! *Is* this not a stick snatched from the fire?” [3] And Joshua was clothed *in* filthy garments and was standing before the angel. [4] And he answered and said to the ones standing before him, saying, “Remove the filthy garments from him.” And he said to him, “See, I have taken away your guilt from you, and will clothe you *with* rich garments.” [5] And I said, “Let them put a clean headband on his head.” And they put a clean headband on his head, and they clothed him *with* garments. And the angel of Yahweh *was* standing *by*.

[6] And the angel of Yahweh assured Joshua, saying, [7] “Thus says Yahweh of hosts: ‘If you will walk in my ways, and if you will keep my requirements, then you will judge my house, and you will also guard my courtyards, and I will give to you passageways among these that are standing here. [8] Listen, please, O Joshua the high priest, you and your companions that are sitting before you. For *the* men *are* a sign that, look, I *am* going to bring my servant *the* Branch. [9] For consider, the stone that I set before Joshua, on one stone *are* seven eyes. Look, I am going to engrave an inscription on it,’ declares Yahweh of hosts, ‘and I will remove the guilt of that land in a single day. [10] On that day,’ declares Yahweh of hosts, ‘you will invite one another under *the* vine and under *the* fig tree.’ ”

Zechariah 6:9–15 And the word of Yahweh came to me, saying, [10] “Collect from the exiles—from Heldai, Tobijah, and from Jedaiah, *all of* whom came from Babylon—and go on that day, go *to the* house of Josiah son of Zephaniah. [11] Take *the* silver and gold and make a crown, and set *it* on the head of Joshua son of Jehozadak, the high priest. [12] And say to him, ‘Thus says Yahweh of hosts: “Look, *here is* a man whose name *is* Branch, and from his place he will sprout, and he will build the temple of Yahweh. [13] And he will build the temple of Yahweh, and he will bear majesty and will

sit and rule on his throne. And he shall be a priest on his throne, and the counsel of peace will be between the two of them.” ’ 14 And the crown will be for Helem, for Tobijah, for Jedaiah, and for Hen son of Zephaniah, as a memorial in the temple of Yahweh. 15 And those who are far off will come and build the temple of Yahweh, and you will know that Yahweh of hosts has sent me to you. And it will happen if you will listen diligently to the voice of Yahweh your God.”

Hosea 11:1 When Israel was a child, I loved him, and out of Egypt I called my son.

Genesis 46:1–4 So Israel journeyed with all that he had, and he came to Beersheba and offered sacrifices to the God of his father, Isaac. 2 And God spoke to Israel in visions of the night and said, “Jacob, Jacob.” And he said, “Here I *am*.” 3 Then he said, “I *am* God, the God of your father. Do not be afraid to go down to Egypt, for I will make you a great nation there. 4 I myself will go down with you to Egypt, and I myself will also bring you up. And Joseph will place his hand over your eyes.”

Jeremiah 31:31–33 Look, *the* days *are* coming,” declares Yahweh, “and I will make a new covenant with the house of Israel and with the house of Judah, 32 not like the covenant that I made with their ancestors on the day of my grasping *them* by their hand, bringing them out from the land of Egypt, my covenant that they themselves broke, though I myself was a master over them,” declares Yahweh. 33 “But this *is* the covenant that I will make with the house of Israel after those days,” declares Yahweh: “I will put my law in their inward parts and on their hearts I will write it, and I will be to them God, and they themselves will be to me people.

Genesis 20:12 Besides, she *is* my sister, the daughter of my father, but not the daughter of my mother. And she became my wife.

Leviticus 18:9 *As for* your sister’s nakedness, *whether* your father’s daughter or your mother’s daughter, *whether* born at home or born abroad, you must not expose their nakedness.

Leviticus 18:11 *As for* the nakedness of the daughter of your father's wife, she *is* your sister, a relative of your father; you must not expose her nakedness.

Leviticus 20:17 " 'As for a man who takes his sister, his father's daughter or his mother's daughter, and he sees her nakedness and she herself sees his nakedness, it *is* a disgrace, and they shall be cut off before the eyes of their people; he has exposed his sister's nakedness—he must bear his guilt.

Deuteronomy 27:22 'Cursed be the one who lies with his sister, the daughter of his father or the daughter of his mother.' And all the people shall say, 'Amen.'

Genesis 6:1–4 And it happened *that*, when humankind began to multiply on the face of the ground, daughters were born to them. [2] Then the sons of God saw the daughters of humankind, that they *were* beautiful. And they took for themselves wives from all that they chose. [3] And Yahweh said, "My Spirit shall not abide with humankind forever in that he *is* also flesh. And his days *shall be* one hundred and twenty years." [4] The Nephilim *were* upon the earth in those days, and also afterward, when the sons of God went into the daughters of humankind, and they bore children to them. These *were* the mighty warriors that *were* from ancient times, men of renown.

Deuteronomy 4:25–27 "When you have had children and grandchildren and you have grown old in the land and you act corruptly and you make a divine image *of* the form of anything and you do evil in the eyes of Yahweh your God, *thus* provoking him to anger, [26] I call to witness against you today the heaven and the earth, that you will perish soon and completely from the land that you *are* crossing the Jordan into it to take possession of it; you will not live long on it, but you will be completely destroyed. [27] And Yahweh will scatter you among the peoples, and you will be left few in number among the nations to where Yahweh will lead you.

Deuteronomy 4:39–40 So you shall acknowledge today, and you must call to mind that Yahweh *is* God in heaven above and on the earth beneath. There is no other *God*. [40] And you shall keep his rules and his commandments that I am commanding you today, *so* that it may go well for

you and for your children after you, and so that you may remain a long time on the land that Yahweh your God *is* giving to you *during* all *of* those days."

Deuteronomy 11:18–24 "And you shall put these, my words, on your heart and on your inner self, and you shall bind them as a sign on your hand and let them be as an emblem between your eyes. [19] And you shall teach them to your children by talking about them when you sit in your house and when you travel on the road and when you lie down and when you get up. [20] And you shall write them on the doorframes of your house and on your gates, [21] so that *they* may multiply your days and the days of your children on the land that Yahweh swore to your ancestors to give *it* to them as long as heaven endures over the earth. [22] Yes, if you diligently keep all this commandment that I *am* commanding you to observe it, by loving Yahweh your God by walking in all his ways and by holding fast to him, [23] then Yahweh will drive out all *of* these nations before you, and you will dispossess nations larger and more numerous than you. [24] Every place on which the sole of your foot treads, it shall be yours; your boundary shall be from the desert and Lebanon from the river, the river Euphrates, on up to the western sea.

Leviticus 26:14–28 " 'But if you do not listen to me and you do not carry out all these commands, [15] and if you reject my statutes and if your inner self abhors my regulations, to not carry out all my commands *by* your breaking my covenant, [16] I in turn will do this to you: then I will summon onto you horror, the wasting disease, and the fever that wastes eyes and that drains away life; and you shall sow your seed in vain, and your enemies shall eat it. [17] And I will set my face against you, and you shall be defeated before your enemies; and your haters shall rule over you, and you shall flee away, but there shall not be anybody who is pursuing you.

[18] " 'And if in spite of these *things* you do not listen to me, then I will continue to discipline you seven times for your sins. [19] And I will break the pride of your strength; and I will make your heaven like iron and your land like copper. [20] And your strength shall be consumed in vain; and your land shall not give its produce, and the land's trees shall not give their fruit.

21 “ ‘And if you go against me *in* hostility and you are not willing to
listen to me, then I will add a plague onto you seven times according to
your sins. 22 And I will send wild animals out among you, and they shall
make you childless, and they shall cut down your domestic animals, and
they shall make you fewer; and your roads shall be desolate.

23 “ ‘And if you do not accept correction from me through these *things*,
but you go against me *in* hostility, 24 then I myself will also go against you
in hostility, and I myself also will strike you seven times for your sins. 25
And I will bring upon you a sword that seeks vengeance *for the* covenant,
and you shall be gathered to your cities; and I will send a plague in your
midst, and you shall be given into *the* hand of an enemy. 26 At my breaking
the supply of bread for you, then ten women shall bake your bread in one
oven, and they shall return your bread by weight; and you shall eat *it*, and
you shall not be satisfied.

27 “ ‘And if through this you do not listen to me and you go against me
in hostility, 28 then I will go against you in hostile anger, and also I myself
will discipline you seven times for your sins.

Deuteronomy 28:43–52 The alien that *is* in your midst shall ascend over
you, higher *and* higher, but you shall go down lower *and* lower. 44 He shall
lend to you, but you shall not lend to him; he shall be *the* head, but you
shall be *the* tail.

45 “And all of these curses shall come over you, and they shall pursue
you, and they shall overtake you until you are destroyed, because you did
not listen to the voice of Yahweh your God, by observing his
commandments and his statutes that he commanded you. 46 And they shall
be among you as a sign and as a wonder and among your offspring forever.

47 “Because *of the fact* that you did not serve Yahweh your God with joy
and with gladness of heart for the abundance of everything, 48 then you
shall serve your enemies, whom Yahweh will send against you *under
conditions of* famine, in thirst, in nakedness, and in *a* lack of everything;
and he shall place a yoke of iron on your neck until he has destroyed you. 49
Yahweh will raise *up* against you a nation from far *off*, from the end of the
earth, *attacking* as the eagle swoops *down*, a nation whose language you

will not understand, [50] a grim-faced nation who does not show respect to *the* old and *the* young *and* does not show pity. [51] And it shall consume the fruit of your livestock and the fruit of your ground until you are destroyed, *and* who will not leave for you *any* grain, wine, and olive oil, calves of your herds, and lambs of your flock until it has destroyed you. [52] And it shall besiege you in all your towns until your high and fortified walls fall, which you *are* trusting in throughout your land; and it shall besiege you in all of your towns in all of your land that Yahweh your God has given to you.

Deuteronomy 28:64–67 And Yahweh shall scatter you among all the nations from *one* end of the earth up to the *other* end of the earth, and there you shall serve other gods that you have not known nor your ancestors, *gods of* wood and stone. [65] And among these nations you shall not find rest, and *there* shall not be a resting place for the sole of your foot, and Yahweh shall give you there an anxious heart and a weakening of eyes and a languishing of *your* inner self. [66] And your life shall hang in doubt before you, and you shall be startled night and day, and you shall not be confident of your life. [67] In the morning you shall say, 'If only it was evening!' and in the evening you shall say 'If only it was morning!' because of the dread of your heart that you shall feel, and because of the sight of your eyes that you shall see.

Deuteronomy 29:22–28 "And the next generation, *that is*, your children who will rise *up* after you, and the foreigner who will come from a distant land, when they will see the plagues of that land and its diseases that Yahweh has inflicted upon it, will say, [23] 'All its land is brimstone and salt left by fire, none of its land will be sown, and it will not make plants sprout out and it will not grow any vegetation; *it is* as the destruction of Sodom and Gomorrah, Adman and Zeboiim, which Yahweh overturned in his anger and in his wrath.' [24] And all the nations will say, 'Why has Yahweh done such a thing to this land? What *caused* the fierceness of this great anger?' [25] And they will say, '*It is* because they abandoned the covenant of Yahweh, the God of their ancestors, which he made with them when he brought them out from the land of Egypt. [26] And they went and served other gods and bowed down to them, gods whom they did not know them and he had not allotted to them. [27] So the anger of Yahweh was kindled against that land to

bring upon it all the curses written in this scroll, [28] and Yahweh uprooted them from their land in anger and in wrath and in great fury, and he cast them into another land, just as it is today.’

Deuteronomy 31:14–28 Then Yahweh said to Moses, “Look, you are about to die; call Joshua and present yourselves in *the* tent of assembly, so that I may instruct him.” So Moses and Joshua went and presented themselves in *the* tent of assembly. [15] And Yahweh appeared in the tent in a column of cloud, and the column of the cloud stood at the entrance of the tent. [16] And Yahweh said to Moses, “Look, you *are* about to lie *down* with your ancestors, and this people will arise and they will play the prostitute after the foreign gods of the land to which they are going. [17] And my anger shall flare up against them on that day, and I will forsake them, and I will hide my face from them, and they shall become as prey, and disasters and troubles shall find them, and they shall say on that day, ‘*Is it* not because our God is not in our midst *that* these disasters have found us?’ [18] But I will certainly hide my face on that day, because *of* all of the evil that they did because they turned to other gods.

[19] “And so then write this song for yourselves and teach it to the Israelites; put it in their mouth, so that this song may be for me as a witness against the Israelites. [20] For when I bring them into the land that I swore to their ancestors, a land flowing with milk and honey, they will eat their fill, and they will become fat, and *then* they will turn to other gods, and they will serve them, and they will spurn me, and they will break my covenant. [21] And then many disasters and troubles will come upon them, and this song will give evidence before them as a witness, because it will not be forgotten from *out of* the mouth of their descendants, for I know their inclination that they *are* having today before I have brought them into the land that I swore.” [22] And Moses wrote this song on that day and taught it *to* the Israelites.

[23] Then he told Joshua the son of Nun, and said *to him*, “Be strong and be courageous, for you shall bring the Israelites into the land that I swore to them, and I will be with you.”

[24] And then when Moses finished writing the words of this law on the scroll until they were complete, [25] then Moses commanded the Levites

carrying the ark of the covenant of Yahweh, saying, [26] “Take the scroll of this law and put it at the side of the ark of the covenant of Yahweh your God, and it will be there as a witness against you. [27] For I know your rebellion and your stiff neck *even now* while I *am* still alive with you today, rebelling against Yahweh, and how much more after my death. [28] Assemble to me all the elders of your tribes and your officials, so that I may speak in their ears these words, and *that* I may call as witness against them heaven and earth.

Deuteronomy 4:25–27 “When you have had children and grandchildren and you have grown old in the land and you act corruptly and you make a divine image *of* the form of anything and you do evil in the eyes of Yahweh your God, *thus* provoking him to anger, [26] I call to witness against you today the heaven and the earth, that you will perish soon and completely from the land that you *are* crossing the Jordan into it to take possession of it; you will not live long on it, but you will be completely destroyed. Deuteronomy 29:22–28 “And the next generation, *that is*, your children who will rise *up* after you, and the foreigner who will come from a distant land, when they will see the plagues of that land and its diseases that Yahweh has inflicted upon it, will say, 23 ‘All its land is brimstone and salt left by fire, none of its land will be sown, and it will not make plants sprout out and it will not grow any vegetation; *it is* as the destruction of Sodom and Gomorrah, Adman and Zeboiim, which Yahweh overturned in his anger and in his wrath.’ 24 And all the nations will say, ‘Why has Yahweh done such a thing to this land? What *caused* the fierceness of this great anger?’ 25 And they will say, ‘*It is* because they abandoned the covenant of Yahweh, the God of their ancestors, which he made with them when he brought them out from the land of Egypt. 26 And they went and served other gods and bowed down to them, gods whom they did not know them and he had not allotted to them. 27 So the anger of Yahweh was kindled against that land to bring upon it all the curses written in this scroll, 28 and Yahweh uprooted them from their land in anger and in wrath and in great fury, and he cast them into another land, just as it is today.’

Deuteronomy 31:14–28 Then Yahweh said to Moses, “Look, you are about to die; call Joshua and present yourselves in *the* tent of assembly, so that I may instruct him.” So Moses and Joshua went and presented themselves in *the* tent of assembly. 15 And Yahweh appeared in the tent in a column of cloud, and the column of the cloud stood at the entrance of the tent. 16 And Yahweh said to Moses, “Look, you *are* about to lie *down* with your ancestors, and this people will arise and they will play the prostitute after the foreign gods of the land to which they are going. 17 And my anger shall flare up against them on that day, and I will forsake them, and I will hide

my face from them, and they shall become as prey, and disasters and troubles shall find them, and they shall say on that day, ‘*Is it* not because our God is not in our midst *that* these disasters have found us?’ 18 But I will certainly hide my face on that day, because *of* all of the evil that they did because they turned to other gods.

19 “And so then write this song for yourselves and teach it to the Israelites; put it in their mouth, so that this song may be for me as a witness against the Israelites. 20 For when I bring them into the land that I swore to their ancestors, a land flowing with milk and honey, they will eat their fill, and they will become fat, and *then* they will turn to other gods, and they will serve them, and they will spurn me, and they will break my covenant. 21 And then many disasters and troubles will come upon them, and this song will give evidence before them as a witness, because it will not be forgotten from *out of* the mouth of their descendants, for I know their inclination that they *are* having today before I have brought them into the land that I swore.” 22 And Moses wrote this song on that day and taught it *to* the Israelites.

23 Then he told Joshua the son of Nun, and said *to him*, “Be strong and be courageous, for you shall bring the Israelites into the land that I swore to them, and I will be with you.”

24 And then when Moses finished writing the words of this law on the scroll until they were complete, 25 then Moses commanded the Levites carrying the ark of the covenant of Yahweh, saying, 26 “Take the scroll of this law and put it at the side of the ark of the covenant of Yahweh your God, and it will be there as a witness against you. 27 For I know your rebellion and your stiff neck *even now* while I *am* still alive with you today, rebelling against Yahweh, and how much more after my death. 28 Assemble to me all the elders of your tribes and your officials, so that I may speak in their ears these words, and *that* I may call as witness against them heaven and earth.

Deuteronomy 4:25–27 “When you have had children and grandchildren and you have grown old in the land and you act corruptly and you make a divine image *of* the form of anything and you do evil in the eyes of Yahweh your God, *thus* provoking him to anger, 26 I call to witness against you today the

heaven and the earth, that you will perish soon and completely from the land that you *are* crossing the Jordan into it to take possession of it; you will not live long on it, but you will be completely destroyed. [27] And Yahweh will scatter you among the peoples, and you will be left few in number among the nations to where Yahweh will lead you.

Deuteronomy 4:39–40 So you shall acknowledge today, and you must call to mind that Yahweh *is* God in heaven above and on the earth beneath. There is no other *God*. [40] And you shall keep his rules and his commandments that I am commanding you today, *so* that it may go well for you and for your children after you, and so that you may remain a long time on the land that Yahweh your God *is* giving to you *during* all *of* those days."

Deuteronomy 11:18–24 "And you shall put these, my words, on your heart and on your inner self, and you shall bind them as a sign on your hand and let them be as an emblem between your eyes. [19] And you shall teach them to your children by talking about them when you sit in your house and when you travel on the road and when you lie down and when you get up. [20] And you shall write them on the doorframes of your house and on your gates, [21] so that *they* may multiply your days and the days of your children on the land that Yahweh swore to your ancestors to give *it* to them as long as heaven endures over the earth. [22] Yes, if you diligently keep all this commandment that I *am* commanding you to observe it, by loving Yahweh your God by walking in all his ways and by holding fast to him, [23] then Yahweh will drive out all *of* these nations before you, and you will dispossess nations larger and more numerous than you. [24] Every place on which the sole of your foot treads, it shall be yours; your boundary shall be from the desert and Lebanon from the river, the river Euphrates, on up to the western sea.

Leviticus 26:14–28 " 'But if you do not listen to me and you do not carry out all these commands, [15] and if you reject my statutes and if your inner self abhors my regulations, to not carry out all my commands *by* your breaking my covenant, [16] I in turn will do this to you: then I will summon onto you horror, the wasting disease, and the fever that wastes eyes and that drains away life; and you shall sow your seed in vain, and your enemies

shall eat it. [17] And I will set my face against you, and you shall be defeated before your enemies; and your haters shall rule over you, and you shall flee away, but there shall not be anybody who is pursuing you.

[18] “ ‘And if in spite of these *things* you do not listen to me, then I will continue to discipline you seven times for your sins. [19] And I will break the pride of your strength; and I will make your heaven like iron and your land like copper. [20] And your strength shall be consumed in vain; and your land shall not give its produce, and the land’s trees shall not give their fruit.

[21] “ ‘And if you go against me *in* hostility and you are not willing to listen to me, then I will add a plague onto you seven times according to your sins. [22] And I will send wild animals out among you, and they shall make you childless, and they shall cut down your domestic animals, and they shall make you fewer; and your roads shall be desolate.

[23] “ ‘And if you do not accept correction from me through these *things*, but you go against me *in* hostility, [24] then I myself will also go against you in hostility, and I myself also will strike you seven times for your sins. [25] And I will bring upon you a sword that seeks vengeance *for the* covenant, and you shall be gathered to your cities; and I will send a plague in your midst, and you shall be given into *the* hand of an enemy. [26] At my breaking *the* supply of bread for you, then ten women shall bake your bread in one oven, and they shall return your bread by weight; and you shall eat *it*, and you shall not be satisfied.

[27] “ ‘And if through this you do not listen to me and you go against me in hostility, [28] then I will go against you in hostile anger, and also I myself will discipline you seven times for your sins.

Deuteronomy 28:43–52 The alien that *is* in your midst shall ascend over you, higher *and* higher, but you shall go down lower *and* lower. [44] He shall lend to you, but you shall not lend to him; he shall be *the* head, but you shall be *the* tail.

[45] “And all of these curses shall come over you, and they shall pursue you, and they shall overtake you until you are destroyed, because you did not listen to the voice of Yahweh your God, by observing his

commandments and his statutes that he commanded you. 46 And they shall be among you as a sign and as a wonder and among your offspring forever.

47 “Because *of the fact* that you did not serve Yahweh your God with joy and with gladness of heart for the abundance of everything, 48 then you shall serve your enemies, whom Yahweh will send against you *under conditions of* famine, in thirst, in nakedness, and in *a* lack of everything; and he shall place a yoke of iron on your neck until he has destroyed you. 49 Yahweh will raise *up* against you a nation from far *off*, from the end of the earth, *attacking* as the eagle swoops *down*, a nation whose language you will not understand, 50 a grim-faced nation who does not show respect to *the* old and *the* young *and* does not show pity. 51 And it shall consume the fruit of your livestock and the fruit of your ground until you are destroyed, *and* who will not leave for you *any* grain, wine, and olive oil, calves of your herds, and lambs of your flock until it has destroyed you. 52 And it shall besiege you in all your towns until your high and fortified walls fall, which you *are* trusting in throughout your land; and it shall besiege you in all of your towns in all of your land that Yahweh your God has given to you.

Deuteronomy 28:64–67 And Yahweh shall scatter you among all the nations from *one* end of the earth up to the *other* end of the earth, and there you shall serve other gods that you have not known nor your ancestors, *gods of* wood and stone. 65 And among these nations you shall not find rest, and *there* shall not be a resting place for the sole of your foot, and Yahweh shall give you there an anxious heart and a weakening of eyes and a languishing of *your* inner self. 66 And your life shall hang in doubt before you, and you shall be startled night and day, and you shall not be confident of your life. 67 In the morning you shall say, ‘If only it was evening!’ and in the evening you shall say ‘If only it was morning!’ because of the dread of your heart that you shall feel, and because of the sight of your eyes that you shall see.

Deuteronomy 29:22–28 “And the next generation, *that is*, your children who will rise *up* after you, and the foreigner who will come from a distant land, when they will see the plagues of that land and its diseases that Yahweh has inflicted upon it, will say, 23 ‘All its land is brimstone and salt left by fire, none of its land will be sown, and it will not make plants sprout

[23] Then he told Joshua the son of Nun, and said *to him*, "Be strong and be courageous, for you shall bring the Israelites into the land that I swore to them, and I will be with you."

[24] And then when Moses finished writing the words of this law on the scroll until they were complete, [25] then Moses commanded the Levites carrying the ark of the covenant of Yahweh, saying, [26] "Take the scroll of this law and put it at the side of the ark of the covenant of Yahweh your God, and it will be there as a witness against you. James 2:19 You believe that God is one; you do well. Even the demons believe, and shudder!

Genesis 11:1–9 Now the whole earth *had* one language and the same words. [2] And as people migrated from the east they found a plain in the land of Shinar and settled there. [3] And they said to each other, "Come, let us make bricks and burn them thoroughly." And they had brick for stone and they had tar for mortar. [4] And they said, "Come, let us build ourselves a city and a tower whose top *reaches to* the heavens. And let us make a name for ourselves, lest we be scattered over the face of the whole earth."

[5] Then Yahweh came down to see the city and the tower that humankind was building. [6] And Yahweh said, "Behold, they are one people with one language, and this is only the beginning of what they will do. So now nothing that they intend to do will be impossible for them. [7] Come, let us go down and confuse their language there, so that they will not understand each other's language." [8] So Yahweh scattered them from there over the face of the whole earth, and they stopped building the city. [9] Therefore its

name was called Babel, for there Yahweh confused the language of the whole earth, and there Yahweh scattered them over the face of the whole earth.

1 Kings 22:13–23 Then the messenger who had gone to summon Micaiah said to him, “Please now, the words of the prophets are unanimously

favorable to the king. Please let your words be as one word with them, and speak favorably.” 14 Then Micaiah said, “As Yahweh lives, surely only as Yahweh speaks to me, that will I speak.” 15 When he came to the king, the king asked him, “Micaiah, shall we go to Ramoth-Gilead to the battle, or shall we refrain?” He said to him, “Go up and triumph, and Yahweh will give *it* into the hand of the king.” 16 Then the king said to him, “How many times must I make you swear that you shall not tell me *anything* but truth in the name of Yahweh?” 17 So he said, “I saw all of Israel scattering to the mountains, like the sheep without a shepherd. Yahweh also said, ‘There are no masters for these, let them return in peace, each to his house.’ ” 18 Then the king of Israel said to Jehoshaphat, “Did I not say to you that he would not prophesy good concerning me, but disaster?”

19 And he said, “Therefore, hear the word of Yahweh. I saw Yahweh sitting on his throne with all the hosts of heaven standing beside him from his right hand and from his left *hand*. 20 And Yahweh said, ‘Who will entice Ahab so that he will go up and fall at Ramoth-Gilead?’ Then this one was saying one thing and the other one was saying another. 21 Then a spirit came out and stood before Yahweh and said, ‘I will entice him,’ and Yahweh said to him, ‘How?’ 22 He said, ‘I will go out and I will be a false spirit in the mouth of all his prophets.’ And he said, ‘You shall entice and succeed, go out and do so.’ 23 So then, see that Yahweh has placed a false spirit in the mouth of all of these your prophets, and Yahweh has spoken disaster concerning you.”

Deuteronomy 28:43–52 The alien that *is* in your midst shall ascend over you, higher *and* higher, but you shall go down lower *and* lower. 44 He shall lend to you, but you shall not lend to him; he shall be *the* head, but you shall be *the* tail.

45 "And all of these curses shall come over you, and they shall pursue you, and they shall overtake you until you are destroyed, because you did not listen to the voice of Yahweh your God, by observing his commandments and his statutes that he commanded you. 46 And they shall be among you as a sign and as a wonder and among your offspring forever.

47 "Because *of the fact* that you did not serve Yahweh your God with joy and with gladness of heart for the abundance of everything, 48 then you shall serve your enemies, whom Yahweh will send against you *under conditions of* famine, in thirst, in nakedness, and in *a* lack of everything;

and he shall place a yoke of iron on your neck until he has destroyed you. [49] Yahweh will raise *up* against you a nation from far *off*, from the end of the earth, *attacking* as the eagle swoops *down*, a nation whose language you will not understand, [50] a grim-faced nation who does not show respect to *the* old and *the* young *and* does not show pity. [51] And it shall consume the fruit of your livestock and the fruit of your ground until you are destroyed, *and* who will not leave for you *any* grain, wine, and olive oil, calves of your herds, and lambs of your flock until it has destroyed you. [52] And it shall besiege you in all your towns until your high and fortified walls fall, which you *are* trusting in throughout your land; and it shall besiege you in all of your towns in all of your land that Yahweh your God has given to you.

Deuteronomy 28:64–67 And Yahweh shall scatter you among all the nations from *one* end of the earth up to the *other* end of the earth, and there you shall serve other gods that you have not known nor your ancestors, *gods of* wood and stone. [65] And among these nations you shall not find rest, and *there* shall not be a resting place for the sole of your foot, and Yahweh shall give you there an anxious heart and a weakening of eyes and a languishing of *your* inner self. [66] And your life shall hang in doubt before you, and you shall be startled night and day, and you shall not be confident of your life. [67] In the morning you shall say, 'If only it was evening!' and in the evening you shall say 'If only it was morning!' because of the dread of your heart that you shall feel, and because of the sight of your eyes that you shall see.

Deuteronomy 29:22–28 "And the next generation, *that is*, your children who will rise *up* after you, and the foreigner who will come from a distant land, when they will see the plagues of that land and its diseases that Yahweh has inflicted upon it, will say, [23] 'All its land is brimstone and salt left by fire, none of its land will be sown, and it will not make plants sprout out and it will not grow any vegetation; *it is* as the destruction of Sodom and Gomorrah, Adman and Zeboiim, which Yahweh overturned in his anger and in his wrath.' [24] And all the nations will say, 'Why has Yahweh done such a thing to this land? What *caused* the fierceness of this great anger?' [25] And they will say, '*It is* because they abandoned the covenant of Yahweh, the God of their ancestors, which he made with them when he brought them

out from the land of Egypt. [26] And they went and served other gods and bowed down to them, gods whom they did not know them and he had not allotted to them. [27] So the anger of Yahweh was kindled against that land to bring upon it all the curses written in this scroll, [28] and Yahweh uprooted them from their land in anger and in wrath and in great fury, and he cast them into another land, just as it is today.'

Deuteronomy 31:14–28 Then Yahweh said to Moses, "Look, you are about to die; call Joshua and present yourselves in *the* tent of assembly, so that I may instruct him." So Moses and Joshua went and presented themselves in *the* tent of assembly. [15] And Yahweh appeared in the tent in a column of cloud, and the column of the cloud stood at the entrance of the tent. [16] And Yahweh said to Moses, "Look, you *are* about to lie *down* with your ancestors, and this people will arise and they will play the prostitute after the foreign gods of the land to which they are going. [17] And my anger shall flare up against them on that day, and I will forsake them, and I will hide my face from them, and they shall become as prey, and disasters and troubles shall find them, and they shall say on that day, '*Is it* not because our God is not in our midst *that* these disasters have found us?' [18] But I will certainly hide my face on that day, because *of* all of the evil that they did because they turned to other gods.

[19] "And so then write this song for yourselves and teach it to the Israelites; put it in their mouth, so that this song may be for me as a witness against the Israelites. [20] For when I bring them into the land that I swore to their ancestors, a land flowing with milk and honey, they will eat their fill, and they will become fat, and *then* they will turn to other gods, and they will serve them, and they will spurn me, and they will break my covenant. [21] And then many disasters and troubles will come upon them, and this song will give evidence before them as a witness, because it will not be forgotten from *out of* the mouth of their descendants, for I know their inclination that they *are* having today before I have brought them into the land that I swore." [22] And Moses wrote this song on that day and taught it *to* the Israelites.

[23] Then he told Joshua the son of Nun, and said *to him*, "Be strong and be courageous, for you shall bring the Israelites into the land that I swore to

them, and I will be with you.”

24 And then when Moses finished writing the words of this law on the
scroll until they were complete, 25 then Moses commanded the Levites
carrying the ark of the covenant of Yahweh, saying, 26 “Take the scroll of
this law and put it at the side of the ark of the covenant of Yahweh your
God, and it will be there as a witness against you. 27 For I know your
rebellion and your stiff neck *even now* while I *am* still alive with you today,
rebelling against Yahweh, and how much more after my death. 28 Assemble
to me all the elders of your tribes and your officials, so that I may speak in
their ears these words, and *that* I may call as witness against them heaven
and earth.

Deuteronomy 32:17 They sacrificed to the demons, not God, *to* gods whom
they had not known, new *gods who* came from recent times; their ancestors
had not known them.

1 Corinthians 10:20 *No*, but that *the things* which they sacrifice, they
sacrifice to demons and not to God, and I do not want you to become
sharers with demons.

Deuteronomy 32:17 They sacrificed to the demons, not God, *to* gods whom
they had not known, new *gods who* came from recent times; their ancestors

1 Corinthians 10:20 *No*, but that *the things* which they sacrifice, they
sacrifice to demons and not to God, and I do not want you to become
sharers with demons.

Deuteronomy 32:8–9 When the Most High apportioned *the* nations, at his
dividing *up* of the sons of humankind, he fixed the boundaries of *the*
peoples, according to the number of the children of Israel.

9 For Yahweh’s portion *was* his people, Jacob the share of his
inheritance.

Deuteronomy 32:8 When the Most High apportioned *the* nations, at his
dividing *up* of the sons of humankind, he fixed the boundaries of *the*
peoples, according to the number of the children of Israel.

Deuteronomy 4:19–20 And do this so that you do not lift your eyes *toward* heaven and observe the sun and the moon and the stars, all the host of the heaven, and be led astray and bow down to them and serve them, things that Yahweh your God has allotted to all *of* the peoples under all *of* the heaven. 20 But Yahweh has taken you and brought you out from the furnace of iron, from Egypt, to be a people of inheritance to him, as it is this day.

1 Kings 22:13–23 Then the messenger who had gone to summon Micaiah said to him, “Please now, the words of the prophets are unanimously favorable to the king. Please let your words be as one word with them, and speak favorably.” 14 Then Micaiah said, “As Yahweh lives, surely only as Yahweh speaks to me, that will I speak.” 15 When he came to the king, the king asked him, “Micaiah, shall we go to Ramoth-Gilead to the battle, or shall we refrain?” He said to him, “Go up and triumph, and Yahweh will give *it* into the hand of the king.” 16 Then the king said to him, “How many times must I make you swear that you shall not tell me *anything* but truth in the name of Yahweh?” 17 So he said, “I saw all of Israel scattering to the mountains, like the sheep without a shepherd. Yahweh also said, ‘There are no masters for these, let them return in peace, each to his house.’ ” 18 Then the king of Israel said to Jehoshaphat, “Did I not say to you that he would not prophesy good concerning me, but disaster?”

19 And he said, “Therefore, hear the word of Yahweh. I saw Yahweh sitting on his throne with all the hosts of heaven standing beside him from his right hand and from his left *hand*. 20 And Yahweh said, ‘Who will entice Ahab so that he will go up and fall at Ramoth-Gilead?’ Then this one was saying one thing and the other one was saying another. 21 Then a spirit came out and stood before Yahweh and said, ‘I will entice him,’ and Yahweh said to him, ‘How?’ 22 He said, ‘I will go out and I will be a false spirit in the mouth of all his prophets.’ And he said, ‘You shall entice and succeed, go out and do so.’ 23 So then, see that Yahweh has placed a false spirit in the mouth of all of these your prophets, and Yahweh has spoken disaster concerning you.”

Deuteronomy 17:2–5 If *there* is found in one of your towns that Yahweh your God *is* giving to you a man or a woman that does evil in the eyes of

Yahweh your God to transgress his covenant [3] and by going and serving other gods and *so* he bows down to them and to the sun or to the moon or to any *of* the host of heaven which I have forbidden, [4] and it is reported to you or you hear *about it* and you enquire *about it* thoroughly and, indeed, *the* trustworthiness of the deed *has* been established, it has occurred, this detestable thing, in Israel, [5] then you shall bring out that man or that woman who has done this evil thing to your gates; that is, the man or the woman, and you shall stone them with stones to death.

Deuteronomy 29:25 And they will say, '*It is* because they abandoned the covenant of Yahweh, the God of their ancestors, which he made with them when he brought them out from the land of Egypt.

Deuteronomy 32:8–9 When the Most High apportioned *the* nations, at his dividing *up* of the sons of humankind, he fixed the boundaries of *the* peoples, according to the number of the children of Israel.

9 For Yahweh's portion *was* his people, Jacob the share of his inheritance.

Hosea 1:10 The number of the children of Israel will be like the sand of the sea

that cannot be measured or counted;

and in the place where it is said to them,

"You are not my people,"

it will be said to them,

"Children of *the* living God."

Genesis 6:1–4 And it happened *that*, when humankind began to multiply on the face of the ground, daughters were born to them. 2 Then the sons of God saw the daughters of humankind, that they *were* beautiful. And they took for themselves wives from all that they chose. 3 And Yahweh said, "My Spirit shall not abide with humankind forever in that he *is* also flesh. And his days *shall be* one hundred and twenty years." 4 The Nephilim *were* upon the earth in those days, and also afterward, when the sons of God went into the daughters of humankind, and they bore children to them. These *were* the mighty warriors that *were* from ancient times, men of renown.

Hosea 1:10 The number of the children of Israel will be like the sand of the sea

that cannot be measured or counted;

and in the place where it is said to them,

"You are not my people,"

it will be said to them,

"Children of *the* living God."

peoples, according to the number of the children of Israel.

9 For Yahweh's portion *was* his people, Jacob the share of his
inheritance.

Genesis 12:1–3 And Yahweh said to Abram, "Go out from your land and from your relatives, and from the house of your father, to the land that I will show you. 2 And I will make you a great nation, and I will bless you, and I will make your name great. And you will be a blessing. 3 And I will bless those who bless you, and those who curse you I will curse. And all families of the earth will be blessed in you."

Genesis 49:10 The scepter shall not depart from Judah, nor the ruler's staff between his feet,

until Shiloh comes.

And to him shall be the obedience of nations.

Numbers 13:32–33 And they presented the report of the land that they explored to the Israelites, saying, "The land that we went through to explore *is* a land that eats its inhabitants, and all the people whom we saw in its midst *are* men of great size. 33 There we saw the Nephilim (the descendants of Anak *came* from the Nephilim), and we were like grasshoppers in our own sight, and so we were in their eyes."

Numbers 21:31–35 Thus Israel lived in the land of the Amorites. 32 Moses sent to explore Jaazer; they captured its environs and dispossessed the Amorites who *were* there.

33 Then they turned and went up *by* the way of the Bashan, and Og king of the Bashan and all his people went out to meet them for battle *at* Edrei. 34 And Yahweh said to Moses, "Do not fear him because I will give him and all his people and all his land into your hand. You will do to him just as you did to Sihon king of the Amorites, who was living in Heshbon." 35 And so they destroyed him and his sons, and all his people until they had not spared a survivor; and they took possession of his land.

Joshua 11:21–22 At that time Joshua came and exterminated the Anakites from the hill country, from Hebron, Debir, Anab, and from all the hill

country of Judah, and from all the hill country of Israel; Joshua utterly destroyed them with their cities. [22] None of the Anakites were left in the land of the Israelites; some remained only in Gaza, Gath, and Ashdod.

Joshua 14:12–15 So now give me this hill country that Yahweh spoke *of* on that day, for you heard on that day that the Anakites *were* there, with great and fortified cities. Perhaps Yahweh *is* with me, and I will drive them out just as Yahweh promised."

[13] And Joshua blessed him and gave Hebron to Caleb son of Jephunneh as an inheritance. [14] Thus Hebron became the inheritance of Caleb son of Jephunneh the Kenizzite to this day, because he remained true to Yahweh the God of Israel. [15] And the name of Hebron formerly *was* Kiriath Arba; *Arba was* the greatest person among the Anakites. And the land rested from war.

Deuteronomy 32:8–9 When the Most High apportioned *the* nations, at his dividing *up* of the sons of humankind, he fixed the boundaries of *the* peoples, according to the number of the children of Israel.

[9] For Yahweh's portion *was* his people, Jacob the share of his inheritance.

James 2:19 You believe that God is one; you do well. Even the demons believe, and shudder!

Genesis 11:1–9 Now the whole earth *had* one language and the same words. [2] And as people migrated from the east they found a plain in the land of

Shinar and settled there. [3] And they said to each other, “Come, let us make
bricks and burn them thoroughly.” And they had brick for stone and they
had tar for mortar. [4] And they said, “Come, let us build ourselves a city and
a tower whose top *reaches to* the heavens. And let us make a name for
ourselves, lest we be scattered over the face of the whole earth.”

[5] Then Yahweh came down to see the city and the tower that humankind
was building. [6] And Yahweh said, “Behold, they are one people with one
language, and this is only the beginning of what they will do. So now
nothing that they intend to do will be impossible for them. [7] Come, let us go
down and confuse their language there, so that they will not understand
each other’s language.” [8] So Yahweh scattered them from there over the
face of the whole earth, and they stopped building the city. [9] Therefore its
name was called Babel, for there Yahweh confused the language of the
whole earth, and there Yahweh scattered them over the face of the whole
earth.

Deuteronomy 33:1–2 Now this *is* the blessing *with* which Moses, the man
of God, blessed the Israelites before his death.
[2] Then he said, "Yahweh came from Sinai,
and he dawned upon them from Seir;
he shone forth from Mount Paran,
and he came with myriads of holy ones,
at his right hand a fiery law for them.

Acts 7:52–53 Which of the prophets did your fathers not persecute? And they killed those who announced beforehand about the coming of the Righteous One, whose betrayers and murderers you have now become, [53] *you* who received the law by directions of angels and have not observed *it*!”

Galatians 3:19 Why then the law? It was added on account of transgressions, until the descendant should come to whom it had been promised, having been ordered through angels by the hand of a mediator.

Jude 9 But Michael the archangel, when he argued with the devil, disputing concerning the body of Moses, did not dare to pronounce a blasphemous judgment, but said, “The Lord rebuke you!”

1 Thessalonians 4:16 For the Lord himself will descend from heaven with a shout of command, with the voice of the archangel and with the trumpet of

God, and the dead in Christ will rise first.

Daniel 10:21 However, I will tell you what is inscribed in *the* book of truth, and there is not one *who* contends with me against these *beings* except Michael, your prince."

Daniel 12:1 "Now at that time, Michael, the great prince, will arise, the protector over the sons of your people, and it will be a time of distress that has not been since *your people* have been a nation until that time. And at that time your people will escape, everyone who is found written in the scroll.

Daniel 10:13 But *the* prince of *the* kingdom of Persia stood before me *for* twenty-one days. And look, Michael, one of the chief princes, came to assist me, and I left *him* there beside *the* king of *the* Persians.

Daniel 8:11 Even against the prince of the hosts it acted arrogantly and took away from him the regular burnt offering, and the place of his sanctuary was overthrown.

Daniel 8:11 Even against the prince of the hosts it acted arrogantly and took away from him the regular burnt offering, and the place of his sanctuary was overthrown.

Daniel 8:25 And by his planning he will make a success of deceit by his hand, and in his mind he will boast, and in *their* ease he will destroy many, and *even* against *the* prince of princes he will rise up, and he will be broken, *but* not by human hands.

Daniel 11:36 "Then the king will do as he pleases, and he will exalt himself and will consider himself above any god, and he will speak horrendous things against *the* God of gods, yet he will succeed until *the period* of anger is finished, for *what* is determined will be done.

Daniel 11:36 "Then the king will do as he pleases, and he will exalt himself and will consider himself above any god, and he will speak horrendous things against *the* God of gods, yet he will succeed until *the period* of anger is finished, for *what* is determined will be done.

Joshua 5:13–15 And it happened, when Joshua was by Jericho, he looked up, and he saw a man standing opposite him *with* his sword drawn in his hand. And Joshua went to him and said, “Are you with us, or with our adversaries?” [14] And he said, “Neither. I have come now *as* the commander of Yahweh’s army.” And Joshua fell on his face to the earth, and he bowed down and said to him, “What *is* my lord commanding his servant?” [15] The commander of Yahweh’s army said to Joshua, “Take off your sandals from your feet, for the place where you *are* standing *is* holy.” And Joshua did so.

Daniel 10:13 But *the* prince of *the* kingdom of Persia stood before me *for* twenty-one days. And look, Michael, one of the chief princes, came to assist me, and I left *him* there beside *the* king of *the* Persians.

Daniel 7:13 “I continued watching in the visions of the night, and look, with the clouds of heaven *one* like a son of man was coming, and he came to the Ancient of Days, and was presented before him.

Genesis 1:26–27 And God said, “Let us make humankind in our image and according to our likeness, and let them rule over the fish of the sea, and over the birds of heaven, and over the cattle, and over all the earth, and over every moving thing that moves upon the earth.” [27] So God created humankind in his image, in the likeness of God he created him, male and female he created them.

Joshua 11:14 And all the spoil and livestock of these cities the Israelites took as booty; they struck the people with the edge of the sword, until they had destroyed them—they left behind no one who breathed.

Deuteronomy 2:10 (The Emim previously lived in it, a people large, numerous, and tall, like the Anakites.

Deuteronomy 2:20 (It is also considered the land of Rephaim; Rephaim lived in it previously, and the Ammonites called them Zamzummim,

Deuteronomy 3:1–3 “Then we turned, and we went up the road to Bashan, and Og the king of Bashan came out to meet us, he and all *of* his army for the battle *at* Edrei. 2 And Yahweh said to me, ‘You should not fear him, for I have given him and all *of* his army and his land into your hand. And *so* you will do to him as you did to Sihon the king of the Amorites, who *was* reigning in Heshbon.’ 3 And *so* Yahweh our God also gave Og the king of Bashan, and all of his army into our hand, and we struck him down until not a survivor remained to him.

Deuteronomy 9:2 a great and tall people, the sons of *the* Anakites, whom you know and *of whom you* have heard *it said*, ‘Who could stand before the sons of Anak?’

Genesis 6:1–4 And it happened *that*, when humankind began to multiply on the face of the ground, daughters were born to them. 2 Then the sons of God saw the daughters of humankind, that they *were* beautiful. And they took for themselves wives from all that they chose. 3 And Yahweh said, “My Spirit shall not abide with humankind forever in that he *is* also flesh. And his days *shall be* one hundred and twenty years.” 4 The Nephilim *were* upon the earth in those days, and also afterward, when the sons of God went into the daughters of humankind, and they bore children to them. These *were* the mighty warriors that *were* from ancient times, men of renown.

Numbers 13:33 There we saw the Nephilim (the descendants of Anak *came* from the Nephilim), and we were like grasshoppers in our own sight, and so we were in their eyes.”

Genesis 6:1–4 And it happened *that*, when humankind began to multiply on the face of the ground, daughters were born to them. 2 Then the sons of God saw the daughters of humankind, that they *were* beautiful. And they took for themselves wives from all that they chose. 3 And Yahweh said, “My Spirit

shall not abide with humankind forever in that he *is* also flesh. And his days *shall be* one hundred and twenty years.” [4] The Nephilim *were* upon the earth in those days, and also afterward, when the sons of God went into the daughters of humankind, and they bore children to them. These *were* the mighty warriors that *were* from ancient times, men of renown.

Deuteronomy 32:8–9 When the Most High apportioned *the* nations, at his dividing *up* of the sons of humankind, he fixed the boundaries of *the* peoples, according to the number of the children of Israel.

[9] For Yahweh’s portion *was* his people, Jacob the share of his inheritance.

Genesis 12:1–3 And Yahweh said to Abram, “Go out from your land and from your relatives, and from the house of your father, to the land that I will show you. [2] And I will make you a great nation, and I will bless you, and I will make your name great. And you will be a blessing. [3] And I will bless those who bless you, and those who curse you I will curse. And all families of the earth will be blessed in you.”

Genesis 49:10 The scepter shall not depart from Judah, nor the ruler’s staff between his feet,

until Shiloh comes.

And to him shall be the obedience of nations.

Numbers 13:32–33 And they presented the report of the land that they explored to the Israelites, saying, “The land that we went through to explore *is* a land that eats its inhabitants, and all the people whom we saw in its midst *are* men of great size. [33] There we saw the Nephilim (the descendants of Anak *came* from the Nephilim), and we were like grasshoppers in our own sight, and so we were in their eyes.”

Numbers 21:31–35 Thus Israel lived in the land of the Amorites. [32] Moses sent to explore Jaazer; they captured its environs and dispossessed the Amorites who *were* there.

[33] Then they turned and went up *by* the way of the Bashan, and Og king of the Bashan and all his people went out to meet them for battle *at* Edrei. [34]

And Yahweh said to Moses, “Do not fear him because I will give him and all his people and all his land into your hand. You will do to him just as you did to Sihon king of the Amorites, who was living in Heshbon.” [35] And so they destroyed him and his sons, and all his people until they had not spared a survivor; and they took possession of his land.

Joshua 11:21–22 At that time Joshua came and exterminated the Anakites from the hill country, from Hebron, Debir, Anab, and from all the hill country of Judah, and from all the hill country of Israel; Joshua utterly destroyed them with their cities. [22] None of the Anakites were left in the land of the Israelites; some remained only in Gaza, Gath, and Ashdod.

Joshua 14:12–15 So now give me this hill country that Yahweh spoke *of* on that day, for you heard on that day that the Anakites *were* there, with great and fortified cities. Perhaps Yahweh *is* with me, and I will drive them out just as Yahweh promised.”

[13] And Joshua blessed him and gave Hebron to Caleb son of Jephunneh as an inheritance. [14] Thus Hebron became the inheritance of Caleb son of Jephunneh the Kenizzite to this day, because he remained true to Yahweh the God of Israel. [15] And the name of Hebron formerly *was* Kiriath Arba; *Arba was* the greatest person among the Anakites. And the land rested from war.

Numbers 13:6 from the tribe of Judah, Caleb son of Jephunneh;

Numbers 13:30 And Caleb silenced the people before Moses and said, “Surely, let us go up and let us take possession of it because surely we will be able to prevail over it.”

Numbers 14:30 You *yourselves* will not come into the land that I swore by oath to make you to dwell in it, but Caleb son of Jephunneh and Joshua son of Nun.

Numbers 13:22 They went up through the Negev and came to Hebron, where Ahiman, Sheshai, and Talmai the descendants of the Anakites *were*. (Hebron was built seven years before Zoan *in* Egypt.)

Joshua 15:14 Caleb drove out from there three of Anak’s sons, Sheshai, Ahiman, and Talmai, the descendants of Anak.

Judges 1:10 And Judah went against the Canaanites living in Hebron (the former name of Hebron *was* Kiriath Arba). And they defeated Sheshai, Ahiman, and Talmai.

Joshua 15:14 Caleb drove out from there three of Anak’s sons, Sheshai, Ahiman, and Talmai, the descendants of Anak.

Deuteronomy 9:1–2 “Hear, Israel, you *are* about to cross the Jordan today to go to dispossess nations larger and more numerous than you, great cities fortified with high walls, 2 a great and tall people, the sons of *the* Anakites, whom you know and *of whom you* have heard *it said*, ‘Who could stand before the sons of Anak?’

Joshua 11:21–22 At that time Joshua came and exterminated the Anakites from the hill country, from Hebron, Debir, Anab, and from all the hill country of Judah, and from all the hill country of Israel; Joshua utterly destroyed them with their cities. 22 None of the Anakites were left in the land of the Israelites; some remained only in Gaza, Gath, and Ashdod.

Deuteronomy 9:1–2 “Hear, Israel, you *are* about to cross the Jordan today to go to dispossess nations larger and more numerous than you, great cities fortified with high walls, 2 a great and tall people, the sons of *the* Anakites, whom you know and *of whom you* have heard *it said*, ‘Who could stand before the sons of Anak?’

Joshua 17:13 And it happened, when the Israelites grew strong, they put the Canaanites to forced labor but never drove them out completely.

Joshua 23:5 And Yahweh your God will push them back before you and drive them out of your sight, and you will possess their land, just as Yahweh your God promised to you.

Joshua 23:9 Yahweh has driven out before you great and strong nations; and as for you, nobody has withstood you to this day.

Exodus 3:8 And I have come down to deliver them from the hand of *the* Egyptians and to bring them up from this land to a good and wide land, to a land flowing with milk and honey, to the place of the Canaanites and the Hittites and the Amorites and the Perizzites and the Hivites and the Jebusites.

Exodus 23:23 When my angel goes before you and brings you to the Amorites and the Hittites and the Perizzites and the Canaanites and the Hivites and the Jebusites, I will wipe them out.

Deuteronomy 7:1 “When Yahweh your God brings you into the land that you *are* about to enter into it to take possession of it, and he drives out many nations before you, the Hittites and the Girgashites and the Amorites and the Canaanites and the Hivites and the Jebusites, seven nations mightier and more numerous than you,

Deuteronomy 20:17 Rather, you shall utterly destroy them, the Hittites and the Amorites, the Canaanites and the Perizzites, the Hivites, and the Jebusites, *just* as Yahweh your God has commanded you,

Joshua 12:8 in the hill country, the Shephelah, the Arabah, on the slopes, in the wilderness, and in the Negev; the Hittites, the Amorites, the Canaanites, the Perizzites, the Hivites, and the Jebusites:

Joshua 13:2–3 This *is* the remaining land: all the regions of the Philistines, and all *of* the Geshurites, [3] from the Shihor, which *is* east of Egypt, up to the border of Ekron to *the* north, which is reckoned as Canaanite; *there are* five Philistine rulers: the Gazites, Ashdodites, Ashkelonites, Gittites, Ekronites, and the Avvim.

1 Samuel 17:4 Then a champion went out from the camps of *the* Philistines, whose name was Goliath from Gath. His height was six cubits and a span.

1 Samuel 17:23 While he *was* speaking to them, the champion, whose name was Goliath the Philistine from Gath, *was* coming up from the caves of *the* Philistines. He spoke just as he had previously, and David heard *his words*.

2 Samuel 21:15–22 There *was* war again for *the* Philistines with Israel, and David and his servants with him went down, and they fought *the* Philistines,

and David grew weary. [16] Now Yishbi in Nob, who *was* among the descendents of Raphah (now the weight of his spearhead *was* three hundredweight of bronze, and he *was* newly armed), said that he would kill David. [17] But Abishai the son of Zeruiah helped him, and he attacked the Philistine and killed him. Then the men of David swore to him, saying, "You shall not go out with us any longer to the battle, so that you do not quench the lamp of Israel."

[18] It happened afterward that there *was* again battle at Gob with *the* Philistines. Then Sibbecai the Hushathite killed Saph who *was* among the descendants of the Raphah.

[19] There *was* again a battle with *the* Philistines at Gob. And Elhanan the son of Jaare-Oregim, the Bethlehemite, killed Goliath the Gittite, the shaft of whose spear *was* like the beam of a weaver.

[20] Once again there *was* battle at Gath, and there *was* a man of great size. The fingers of his hand and the toes of his feet *were* six and six, twenty-four in number. He *was* also born to the Raphah. [21] He taunted Israel but Jonathan the son of Shimei, the brother of David, killed him. [22] These four *were* born for the Raphah in Gath, and they fell by the hand of David and by the hand of his servants.

1 Chronicles 20:4–8 And after this there arose a war in Gezer with the Philistines. Then Sibbecai the Hushathite struck down Sippai, one of the descendants of the Rephaim. And they were subdued. [5] And again there was war with the Philistines. And Elhanan son of Jair struck down Lahmi, the brother of Goliath the Gittite, the shaft of whose spear *was* like a weaver's beam. [6] And again there was war in Gath. And there was a very tall man *there,* and he had six fingers on each hand and six toes on each foot, twenty-four in all. He himself *was* also a descendant of the Rephaim. [7] And he taunted Israel, but Jehonathan son of Shimea, brother of David, struck him down. [8] These were born to the giants in Gath, and they fell by the hand of David and by the hand of his servants.

Jeremiah 47:4 Because of the day that is coming to destroy all *the* Philistines,

to cut off from Tyre and from Sidon

every survivor *who could* help,

for Yahweh *is* destroying *the* Philistines, the remnant of the coastland of Caphtor.

Amos 9:7 “Are you not like the Cushites to me, O people of Israel?” declares Yahweh. “Did I not bring up Israel from the land of Egypt and *the* Philistines from Caphtor and the Arameans from Kir?

Deuteronomy 2:20–23 (It is also considered the land of Rephaim; Rephaim lived in it previously, and the Ammonites called them Zamzummim, [21] a people great and numerous and as tall as the Anakites; Yahweh destroyed them from before them, and they dispossessed them and settled in place of them, [22] just as he did for the descendants of Esau, who live in Seir, when he destroyed the Horites from before them and dispossessed them, and *then* they settled in their place up to this day. [23] And *also* the Avvites, who lived in villages as far as Gaza, *and the* Caphtorim, who came out from Caphtor, destroyed them and *then* settled in their place.

Numbers 21:32 Moses sent to explore Jaazer; they captured its environs and dispossessed the Amorites who *were* there.

Numbers 33:52 you will drive out the inhabitants of the land from your presence, and you will destroy all their idols and all the images of their molten idols, and you will demolish all their high places;

Numbers 33:53 you will dispossess the land and live in it because I have given the land to you to possess it.

Numbers 33:55 But if you do not drive out the inhabitants of the land from your presence, then it will happen that whomever you let remain of them will be like irritants in your eyes and like thorns in your sides; they will be your enemies in the land in which you live.

Joshua 3:10 Joshua said, "By this you will know that *the* living God *is* in your midst, and he will certainly drive out the Canaanites from before you, and the Hittites, Hivites, the Perizzites, the Girgashites, the Amorites, and the Jebusites.

Joshua 12:1 These *are* the kings of the land whom the Israelites defeated, and of whose land they took possession beyond the Jordan to the east, from the wadi of Arnon up to Mount Hermon, and all the Arabah to the east:

Joshua 13:6 all the inhabitants of the hill country, from the Lebanon up to Misrephoth Maim, and all *the* Sidonians. I will drive them out from before the Israelites; only allocate it to Israel as an inheritance just as I have commanded you.

Joshua 17:12 But the descendants of Manasseh were not able to take possession of these towns; the Canaanites were determined to live in this land.

Joshua 17:13 And it happened, when the Israelites grew strong, they put the Canaanites to forced labor but never drove them out completely.

Joshua 23:5 And Yahweh your God will push them back before you and drive them out of your sight, and you will possess their land, just as Yahweh your God promised to you.

Joshua 23:9 Yahweh has driven out before you great and strong nations; and as for you, nobody has withstood you to this day.

Joshua 13:11–12 and Gilead, and the border of the Geshurite and the Maacathites, all of Mount Hermon, and Bashan up to Salecah; [12] all the kingdom of Og in Bashan, who reigned in Ashtaroth and Edrei—he was left over from the survivors of the Rephaim; these Moses had defeated and driven out.

Joshua 13:30–31 Their territory was from Mahanaim, all Bashan, all the kingdom of Og king of Bashan, and all the settlements of Jair, which *are* in Bashan, sixty cities, [31] and half of Gilead, with Ashtaroth, Edrei, and the cities of the kingdom of Og in Bashan; *these were allotted* to the children of Makir son of Manasseh, for half of the children of Makir according to their families.

Makir son of Manasseh, for half of the children of Makir according to their families.

Deuteronomy 32:8–9 When the Most High apportioned *the* nations, at his dividing *up* of the sons of humankind, he fixed the boundaries of *the* peoples, according to the number of the children of Israel.

9 For Yahweh's portion *was* his people, Jacob the share of his inheritance.

Genesis 12:1–3 And Yahweh said to Abram, "Go out from your land and from your relatives, and from the house of your father, to the land that I will show you. 2 And I will make you a great nation, and I will bless you, and I will make your name great. And you will be a blessing. 3 And I will bless those who bless you, and those who curse you I will curse. And all families of the earth will be blessed in you."

Genesis 49:10 The scepter shall not depart from Judah, nor the ruler's staff between his feet,

until Shiloh comes.

And to him shall be the obedience of nations.

Numbers 13:32–33 And they presented the report of the land that they explored to the Israelites, saying, "The land that we went through to explore *is* a land that eats its inhabitants, and all the people whom we saw in its midst *are* men of great size. 33 There we saw the Nephilim (the descendants of Anak *came* from the Nephilim), and we were like grasshoppers in our own sight, and so we were in their eyes."

Numbers 21:31–35 Thus Israel lived in the land of the Amorites. 32 Moses sent to explore Jaazer; they captured its environs and dispossessed the Amorites who *were* there.

33 Then they turned and went up *by* the way of the Bashan, and Og king of the Bashan and all his people went out to meet them for battle *at* Edrei. 34 And Yahweh said to Moses, "Do not fear him because I will give him and all his people and all his land into your hand. You will do to him just as you did to Sihon king of the Amorites, who was living in Heshbon." 35 And so

they destroyed him and his sons, and all his people until they had not spared a survivor; and they took possession of his land.

Joshua 11:21–22 At that time Joshua came and exterminated the Anakites from the hill country, from Hebron, Debir, Anab, and from all the hill country of Judah, and from all the hill country of Israel; Joshua utterly destroyed them with their cities. 22 None of the Anakites were left in the land of the Israelites; some remained only in Gaza, Gath, and Ashdod.

Joshua 14:12–15 So now give me this hill country that Yahweh spoke *of* on that day, for you heard on that day that the Anakites *were* there, with great and fortified cities. Perhaps Yahweh *is* with me, and I will drive them out just as Yahweh promised."

13 And Joshua blessed him and gave Hebron to Caleb son of Jephunneh as an inheritance. 14 Thus Hebron became the inheritance of Caleb son of Jephunneh the Kenizzite to this day, because he remained true to Yahweh the God of Israel. 15 And the name of Hebron formerly *was* Kiriath Arba; *Arba was* the greatest person among the Anakites. And the land rested from war.

Numbers 13:6 from the tribe of Judah, Caleb son of Jephunneh;

Numbers 13:30 And Caleb silenced the people before Moses and said, "Surely, let us go up and let us take possession of it because surely we will be able to prevail over it."

Numbers 14:30 You *yourselves* will not come into the land that I swore by oath to make you to dwell in it, but Caleb son of Jephunneh and Joshua son of Nun.

Numbers 13:22 They went up through the Negev and came to Hebron, where Ahiman, Sheshai, and Talmai the descendants of the Anakites *were*. (Hebron was built seven years before Zoan *in* Egypt.)

Joshua 15:14 Caleb drove out from there three of Anak's sons, Sheshai, Ahiman, and Talmai, the descendants of Anak.

Judges 1:10 And Judah went against the Canaanites living in Hebron (the former name of Hebron *was* Kiriath Arba). And they defeated Sheshai, Ahiman, and Talmai.

Joshua 15:14 Caleb drove out from there three of Anak's sons, Sheshai, Ahiman, and Talmai, the descendants of Anak.

Deuteronomy 9:1–2 "Hear, Israel, you *are* about to cross the Jordan today to go to dispossess nations larger and more numerous than you, great cities fortified with high walls, 2 a great and tall people, the sons of *the* Anakites, whom you know and *of whom you* have heard *it said*, 'Who could stand before the sons of Anak?'

Zechariah 4:6–9 And he answered and said to me, “This *is* the word of Yahweh to Zerubbabel, saying, ‘Not by strength and not by power, but *only* by my Spirit,’ says Yahweh of hosts. 7 ‘Who *are* you O great mountain? Before Zerubbabel *you will become* level ground, and he will bring out the top stone amid the shouts of “Grace, grace to it!” ’ ” 8 And the word of Yahweh came to me, saying, 9 “The hands of Zerubbabel have founded this house, and his hands will finish it. And you will know that Yahweh of hosts has sent me to you.

Zechariah 3:1–10 And he showed me Joshua the high priest standing before the angel of Yahweh; and Satan was standing on his right to accuse him. 2 But Yahweh said to Satan, “Yahweh rebukes you, O Satan! Yahweh who has chosen Jerusalem rebukes you! *Is* this not a stick snatched from the fire?” 3 And Joshua was clothed *in* filthy garments and was standing before the angel. 4 And he answered and said to the ones standing before him, saying, “Remove the filthy garments from him.” And he said to him, “See, I have taken away your guilt from you, and will clothe you *with* rich garments.” 5 And I said, “Let them put a clean headband on his head.” And they put a clean headband on his head, and they clothed him *with* garments. And the angel of Yahweh *was* standing *by*.

6 And the angel of Yahweh assured Joshua, saying, 7 “Thus says Yahweh
of hosts: ‘If you will walk in my ways, and if you will keep my
requirements, then you will judge my house, and you will also guard my
courtyards, and I will give to you passageways among these that are
standing here. 8 Listen, please, O Joshua the high priest, you and your
companions that are sitting before you. For *the* men *are* a sign that, look, I
am going to bring my servant *the* Branch. 9 For consider, the stone that I set
before Joshua, on one stone *are* seven eyes. Look, I am going to engrave an
inscription on it,’ declares Yahweh of hosts, ‘and I will remove the guilt of
that land in a single day. 10 On that day,’ declares Yahweh of hosts, ‘you will
invite one another under *the* vine and under *the* fig tree.’ ”

Zechariah 6:9–15 And the word of Yahweh came to me, saying, 10 “Collect
from the exiles—from Heldai, Tobijah, and from Jedaiah, *all of* whom came
from Babylon—and go on that day, go *to the* house of Josiah son of
Zephaniah. 11 Take *the* silver and gold and make a crown, and set *it* on the
head of Joshua son of Jehozadak, the high priest. 12 And say to him, ‘Thus
says Yahweh of hosts: “Look, *here is* a man whose name *is* Branch, and
from his place he will sprout, and he will build the temple of Yahweh. 13
And he will build the temple of Yahweh, and he will bear majesty and will
sit and rule on his throne. And he shall be a priest on his throne, and the
counsel of peace will be between the two of them.” ’ 14 And the crown will
be for Helem, for Tobijah, for Jedaiah, and for Hen son of Zephaniah, as a
memorial in the temple of Yahweh. 15 And those who are far off will come
and build the temple of Yahweh, and you will know that Yahweh of hosts
has sent me to you. And it will happen if you will listen diligently to the
voice of Yahweh your God.”

And she said, “*It is* because Yahweh has heard that I *am* unloved that he gave me this *son* also.” And she called his name Simeon. 34 And she conceived again and gave birth to a son. Then she said, “Now this time my husband will be joined to me, for I have borne him three sons.” Therefore, she called his name Levi. 35 And she conceived again and gave birth to a son. And she said, “This time I will praise Yahweh.” Therefore she called his name Judah. And she ceased bearing children.

Genesis 30:16–24 When Jacob came in from the field in the evening, Leah went out to meet him. And she said, “Come in to me, for I have hired you with my son’s mandrakes.” And he slept with her that night. 17 And God listened to Leah and she conceived and gave birth to a fifth son for Jacob. 18 Then Leah said, “God has given *me* my wage since I gave my slave girl to my husband.” And she called his name Issachar. 19 And Leah conceived again and gave birth to a sixth son for Jacob. 20 And Leah said, “God has endowed me with a good gift. This time my husband will acknowledge me, because I bore him six sons.” And she called his name Zebulun. 21 And afterward she gave birth to a daughter. And she called her name Dinah. 22 Then God remembered Rachel and listened to her, and God opened her womb. 23 And she conceived and gave birth to a son. And she said, “God has taken away my disgrace.” 24 And she called his name Joseph, saying, “Yahweh has added to me another son.”

1 Samuel 1:19–20 Then they rose early in the morning and worshiped before Yahweh and returned to their house at Ramah. Then Elkanah had sexual relations with Hannah his wife, and Yahweh remembered her. 20 In

due time, Hannah conceived and gave birth to a son. She called his name Samuel, for *she said*, “I requested him from Yahweh.”

1 Samuel 26:17–19 Then Saul recognized David's voice and said, "*Is* this your voice, my son David?" And David said, "*It is* my voice, my lord the king." [18] Then he said, "Why *is* my lord pursuing after his servant? For what have I done? And what evil *is* in my hand? [19] And so then, please let

my lord the king listen to the words of his servant: If Yahweh has incited you against me, may he delight in an offering; but if it is mortals, *may* they be accursed before Yahweh, for they have driven me away today from sharing in the inheritance of Yahweh, saying, ‘Go, serve other gods!’

2 Kings 5:15–19 When he returned to the man of God, he and all of his army, he came and stood before him and said, “Please now, I know that there is no God in all of the world except in Israel. So then, please take a gift from your servant.” 16 And he said, “As Yahweh lives, before whom I stand, I surely will not take *it*.” *Still* he urged him to take *it*, but he refused. 17 Then Naaman said, “If not, then please let a load of soil on a pair of mules be given to your servants, for your servant will never again bring a burnt offering and sacrifice to other gods, *but* only to Yahweh. 18 As far as this matter, may Yahweh pardon your servant when my master goes *into* the house of Rimmon to worship there, and he *is* leaning himself on my arm, that I also bow down *in* the house of Rimmon: when I bow down *in* the house of Rimmon, may Yahweh please pardon your servant in this matter.” 19 He said to him, “Go in peace,” so he went from him a short distance.

2 Samuel 23:13 Then three of the thirty leaders went down and came to David at the time of the harvest to the cave of Adullam, while a group of *the* Philistines *were* camping in the valley of *the* Rephaim.

2 Samuel 5:18 Now *the* Philistines had come, and they spread out in the Valley of Rephaim.

1 Chronicles 14:9 Now the Philistines came and carried out a raid in the Valley of Rephaim.

2 Samuel 23:13–17 Then three of the thirty leaders went down and came to David at the time of the harvest to the cave of Adullam, while a group of *the* Philistines *were* camping in the valley of *the* Rephaim. 14 Now at that time, David *was* in the stronghold, and a garrison of *the* Philistines *was* in

Bethlehem at that *same* time. 15 David said longingly, “Oh that someone would bring me a drink of water from the well of Bethlehem that *is* at the gate.” 16 So three of the mighty warriors broke into the camp of *the* Philistines, and they drew water from the well of Bethlehem that *was* at the gate, and they carried *it* and brought *it* to David. But he *was* not willing to drink it, but poured it out to Yahweh. 17 He said, “Far be it from me before Yahweh that I should do this. *Is this not* the blood of the men who went at the risk of their lives?” So he *was* not willing to drink it. These things the three mighty warriors did.

1 Chronicles 11:15–19 And three of the thirty chiefs went down toward the rock to David at the cave of Adullam when the army of the Philistines was encamped in the valley of Rephaim. 16 And David *was* then in the stronghold, and the garrison of the Philistines *was* then in Bethlehem. 17 And David had a craving, and he said, “Who could give me a drink of water from the well of Bethlehem that *is* by the gate!” 18 Then the three broke through into the camp of the Philistines and drew water from the well of Bethlehem that *was* by the gate and brought *it* and came to David. But David would not drink it and poured it out before Yahweh. 19 And he said, “Far be it from me *that* I would do this before my God. Shall I drink the lifeblood of these men? For at the risk of their lives they brought it.” And he was not willing to drink it. These things the three mighty men did.

2 Samuel 5:17–25 When *the* Philistines heard that they had anointed David as king over Israel, all *the* Philistines went up to seek David, but David heard and went down to the stronghold. 18 Now *the* Philistines had come, and they spread out in the Valley of Rephaim. 19 And David inquired of Yahweh, saying, “Shall I go up to the Philistines? Will you give them into my hands?” Yahweh said to David, “Go up, for I will certainly give *the* Philistines into your hand.” 20 So David came to Baal Perazim and defeated them there; and David said, “Yahweh has burst through my enemies before me like the bursting of water.” Therefore he called the name of that place Baal Perazim. 21 They had left their idols there, so David and his men carried them away.

22 Once again *the* Philistines came up and spread out in the Valley of
Rephaim. 23 So David inquired of Yahweh, but he said, “You shall not go
up. *Rather,* go around to their rear and come to them from opposite the
balsam trees. 24 And it shall be that when you hear the sound of marching in
the tops of the balsam trees, then pay attention, for then Yahweh has gone
out before you to strike down the army of *the* Philistines.” 25 So David did
thus, just as Yahweh had commanded him, and he struck down *the*
Philistines from Geba all the way to Gezer.

1 Chronicles 14:8–17 When the Philistines heard that David had been
anointed as king over all Israel, all the Philistines went up to search for
David. But David heard and went out from before them. 9 Now the
Philistines came and carried out a raid in the Valley of Rephaim. 10 Then
David inquired of God, saying, “Shall I go up against the Philistines? Will
you put them into my hand?” And Yahweh said to him, “Go up. I will put
them into your hand.” 11 And he went up to Baal-Perazim, and David struck
them there. And David said, “God has burst out against my enemies by my
hand like waters burst out.” Therefore they will call the name of this place
Baal-Perazim. 12 And they abandoned their gods there. And David
commanded, and they were burnt with fire. 13 Then the Philistines carried
out another raid in the valley. 14 Then David inquired again of God. And
God said to him, “You shall not go up after them. Go around from before
them and come against them the opposite *way* of the balsam trees. 15 And it
shall be *that* when you hear the sound of marching in the tops of the balsam
trees, then go out into battle, for God goes out before you to strike the camp
of the Philistines.” 16 And David did as God commanded him, and they
struck the camp of the Philistines from Gibeon to Gezer. 17 And the fame of
David went out through all the lands. And Yahweh put the fear of him upon
all the nations.

2 Samuel 6:1–2 David again gathered all the chosen men in Israel, thirty

Deuteronomy 23:15 For Yahweh your God *is* walking about in the midst of your camp to deliver you and to hand your enemies over to you before you, and so let your camp be holy, so that he shall not see in it anything indecent, and he shall turn away from going with you.

2 Samuel 7:6–7 For I have not dwelt in a house from the day I brought up the Israelites from Egypt until this day; *rather,* I *was* going about in a tent and in a tabernacle. [7] In all of my going about among all the Israelites, did I speak a word with one of the tribes of Israel whom I commanded to shepherd my people Israel, saying, 'Why did you not build me a cedar house?' " '

2 Samuel 23:13 Then three of the thirty leaders went down and came to David at the time of the harvest to the cave of Adullam, while a group of *the* Philistines *were* camping in the valley of *the* Rephaim.

2 Samuel 5:18 Now *the* Philistines had come, and they spread out in the Valley of Rephaim.

1 Chronicles 11:15 And three of the thirty chiefs went down toward the rock to David at the cave of Adullam when the army of the Philistines was encamped in the valley of Rephaim.

1 Chronicles 14:9 Now the Philistines came and carried out a raid in the Valley of Rephaim.

2 Samuel 23:13–17 Then three of the thirty leaders went down and came to David at the time of the harvest to the cave of Adullam, while a group of *the* Philistines *were* camping in the valley of *the* Rephaim. [14] Now at that time, David *was* in the stronghold, and a garrison of *the* Philistines *was* in Bethlehem at that *same* time. [15] David said longingly, "Oh that someone would bring me a drink of water from the well of Bethlehem that *is* at the gate." [16] So three of the mighty warriors broke into the camp of *the* Philistines, and they drew water from the well of Bethlehem that *was* at the gate, and they carried *it* and brought *it* to David. But he *was* not willing to drink it, but poured it out to Yahweh. [17] He said, "Far be it from me before Yahweh that I should do this. *Is this not* the blood of the men who went at

the risk of their lives?” So he *was* not willing to drink it. These things the three mighty warriors did.

1 Chronicles 11:15–19 And three of the thirty chiefs went down toward the rock to David at the cave of Adullam when the army of the Philistines was encamped in the valley of Rephaim. 16 And David *was* then in the stronghold, and the garrison of the Philistines *was* then in Bethlehem. 17 And David had a craving, and he said, “Who could give me a drink of water from the well of Bethlehem that *is* by the gate!” 18 Then the three broke through into the camp of the Philistines and drew water from the well of Bethlehem that *was* by the gate and brought *it* and came to David. But David would not drink it and poured it out before Yahweh. 19 And he said, “Far be it from me *that* I would do this before my God. Shall I drink the lifeblood of these men? For at the risk of their lives they brought it.” And he was not willing to drink it. These things the three mighty men did.

2 Samuel 5:17–25 When *the* Philistines heard that they had anointed David as king over Israel, all *the* Philistines went up to seek David, but David heard and went down to the stronghold. 18 Now *the* Philistines had come, and they spread out in the Valley of Rephaim. 19 And David inquired of Yahweh, saying, “Shall I go up to the Philistines? Will you give them into my hands?” Yahweh said to David, “Go up, for I will certainly give *the* Philistines into your hand.” 20 So David came to Baal Perazim and defeated them there; and David said, “Yahweh has burst through my enemies before me like the bursting of water.” Therefore he called the name of that place Baal Perazim. 21 They had left their idols there, so David and his men carried them away.

22 Once again *the* Philistines came up and spread out in the Valley of Rephaim. 23 So David inquired of Yahweh, but he said, “You shall not go up. *Rather,* go around to their rear and come to them from opposite the balsam trees. 24 And it shall be that when you hear the sound of marching in the tops of the balsam trees, then pay attention, for then Yahweh has gone out before you to strike down the army of *the* Philistines.” 25 So David did thus, just as Yahweh had commanded him, and he struck down *the* Philistines from Geba all the way to Gezer.

1 Chronicles 14:8–17 When the Philistines heard that David had been anointed as king over all Israel, all the Philistines went up to search for David. But David heard and went out from before them. [9] Now the Philistines came and carried out a raid in the Valley of Rephaim. [10] Then David inquired of God, saying, “Shall I go up against the Philistines? Will you put them into my hand?” And Yahweh said to him, “Go up. I will put them into your hand.” [11] And he went up to Baal-Perazim, and David struck them there. And David said, “God has burst out against my enemies by my hand like waters burst out.” Therefore they will call the name of this place Baal-Perazim. [12] And they abandoned their gods there. And David commanded, and they were burnt with fire. [13] Then the Philistines carried out another raid in the valley. [14] Then David inquired again of God. And God said to him, “You shall not go up after them. Go around from before them and come against them the opposite *way* of the balsam trees. [15] And it shall be *that* when you hear the sound of marching in the tops of the balsam trees, then go out into battle, for God goes out before you to strike the camp of the Philistines.” [16] And David did as God commanded him, and they struck the camp of the Philistines from Gibeon to Gezer. [17] And the fame of David went out through all the lands. And Yahweh put the fear of him upon all the nations.

2 Samuel 15:24–25 Suddenly Zadok *was* there, and all of the Levites with him, carrying the ark of the covenant of God. They set the ark of God down, and Abiathar offered sacrifices until all the people passed out of the city. [25] The king said to Zadok, “Let the ark of God return to the city. If I find favor in the eyes of Yawheh, he will let me return and let me see him in his dwelling place.

1 Kings 3:4 So the king went to Gibeon to sacrifice, for the great high place *was* there. Solomon used to offer a thousand burnt offerings on that altar.

2 Chronicles 1:3 And Solomon and the whole assembly with him went to the high place that *was* at Gibeon, for the tent of assembly of God that Moses the servant of Yahweh had made in the desert was there.

Joshua 13:2–3 This *is* the remaining land: all the regions of the Philistines,
and all *of* the Geshurites, 3 from the Shihor, which *is* east of Egypt, up to the
border of Ekron to *the* north, which is reckoned as Canaanite; *there are* five
Philistine rulers: the Gazites, Ashdodites, Ashkelonites, Gittites, Ekronites,
and the Avvim.

1 Samuel 17:4 Then a champion went out from the camps of *the* Philistines,
whose name was Goliath from Gath. His height was six cubits and a span.

1 Samuel 17:23 While he *was* speaking to them, the champion, whose name
was Goliath the Philistine from Gath, *was* coming up from the caves of *the*
Philistines. He spoke just as he had previously, and David heard *his words*.

2 Samuel 21:15–22 There *was* war again for *the* Philistines with Israel, and
David and his servants with him went down, and they fought *the* Philistines,
and David grew weary. 16 Now Yishbi in Nob, who *was* among the
descendents of Raphah (now the weight of his spearhead *was* three
hundredweight of bronze, and he *was* newly armed), said that he would kill
David. 17 But Abishai the son of Zeruiah helped him, and he attacked the
Philistine and killed him. Then the men of David swore to him, saying,
“You shall not go out with us any longer to the battle, so that you do not
quench the lamp of Israel.”

18 It happened afterward that there *was* again battle at Gob with *the*
Philistines. Then Sibbecai the Hushathite killed Saph who *was* among the
descendants of the Raphah.

19 There *was* again a battle with *the* Philistines at Gob. And Elhanan the
son of Jaare-Oregim, the Bethlehemite, killed Goliath the Gittite, the shaft
of whose spear *was* like the beam of a weaver.

20 Once again there *was* battle at Gath, and there *was* a man of great
size. The fingers of his hand and the toes of his feet *were* six and six,
twenty-four in number. He *was* also born to the Raphah. 21 He taunted Israel
but Jonathan the son of Shimei, the brother of David, killed him. 22 These
four *were* born for the Raphah in Gath, and they fell by the hand of David
and by the hand of his servants.

1 Chronicles 20:4–8 And after this there arose a war in Gezer with the Philistines. Then Sibbecai the Hushathite struck down Sippai, one of the descendants of the Rephaim. And they were subdued. [5] And again there was war with the Philistines. And Elhanan son of Jair struck down Lahmi, the brother of Goliath the Gittite, the shaft of whose spear *was* like a weaver's beam. [6] And again there was war in Gath. And there was a very tall man *there*, and he had six fingers on each hand and six toes on each foot, twenty-four in all. He himself *was* also a descendant of the Rephaim. [7] And he taunted Israel, but Jehonathan son of Shimea, brother of David, struck him down. [8] These were born to the giants in Gath, and they fell by the hand of David and by the hand of his servants.

1 Chronicles 20:6 And again there was war in Gath. And there was a very tall man *there*, and he had six fingers on each hand and six toes on each foot, twenty-four in all. He himself *was* also a descendant of the Rephaim.

1 Chronicles 20:8 These were born to the giants in Gath, and they fell by the hand of David and by the hand of his servants.

Judges 3:3 the five rulers of the Philistines, all the Canaanites, the Sidonians, and the Hivites living on Mount Lebanon, from Mount Baal Hermon up to Lebo-Hamath.

Judges 16:5 And the rulers of *the* Philistines came up to her and said, “Entice him and find out what makes his strength so great, and how we can overpower him, so that we may bind him up in order to subdue him; each of us will give you eleven hundred pieces of silver.

Joshua 13:2–3 This *is* the remaining land: all the regions of the Philistines,
and all *of* the Geshurites, 3 from the Shihor, which *is* east of Egypt, up to the
border of Ekron to *the* north, which is reckoned as Canaanite; *there are* five
Philistine rulers: the Gazites, Ashdodites, Ashkelonites, Gittites, Ekronites,
and the Avvim.

1 Samuel 17:4 Then a champion went out from the camps of *the* Philistines,
whose name was Goliath from Gath. His height was six cubits and a span.

1 Samuel 17:23 While he *was* speaking to them, the champion, whose name
was Goliath the Philistine from Gath, *was* coming up from the caves of *the*
Philistines. He spoke just as he had previously, and David heard *his words*.

2 Samuel 21:15–22 There *was* war again for *the* Philistines with Israel, and
David and his servants with him went down, and they fought *the* Philistines,
and David grew weary. 16 Now Yishbi in Nob, who *was* among the
descendents of Raphah (now the weight of his spearhead *was* three
hundredweight of bronze, and he *was* newly armed), said that he would kill
David. 17 But Abishai the son of Zeruiah helped him, and he attacked the
Philistine and killed him. Then the men of David swore to him, saying,
“You shall not go out with us any longer to the battle, so that you do not
quench the lamp of Israel.”

18 It happened afterward that there *was* again battle at Gob with *the*
Philistines. Then Sibbecai the Hushathite killed Saph who *was* among the
descendants of the Raphah.

19 There *was* again a battle with *the* Philistines at Gob. And Elhanan the
son of Jaare-Oregim, the Bethlehemite, killed Goliath the Gittite, the shaft
of whose spear *was* like the beam of a weaver.

20 Once again there *was* battle at Gath, and there *was* a man of great
size. The fingers of his hand and the toes of his feet *were* six and six,
twenty-four in number. He *was* also born to the Raphah. 21 He taunted Israel
but Jonathan the son of Shimei, the brother of David, killed him. 22 These
four *were* born for the Raphah in Gath, and they fell by the hand of David
and by the hand of his servants.

1 Chronicles 20:4–8 And after this there arose a war in Gezer with the Philistines. Then Sibbecai the Hushathite struck down Sippai, one of the descendants of the Rephaim. And they were subdued. 5 And again there was war with the Philistines. And Elhanan son of Jair struck down Lahmi, the brother of Goliath the Gittite, the shaft of whose spear *was* like a weaver's beam. 6 And again there was war in Gath. And there was a very tall man *there*, and he had six fingers on each hand and six toes on each foot, twenty-four in all. He himself *was* also a descendant of the Rephaim. 7 And he taunted Israel, but Jehonathan son of Shimea, brother of David, struck him down. 8 These were born to the giants in Gath, and they fell by the hand of David and by the hand of his servants.

Jeremiah 47:4 Because of the day that is coming to destroy all *the* Philistines, to cut off from Tyre and from Sidon

> every survivor *who could* help, for Yahweh *is* destroying *the* Philistines, the remnant of the coastland of Caphtor.

Amos 9:7 “Are you not like the Cushites to me, O people of Israel?” declares Yahweh. “Did I not bring up Israel from the land of Egypt and *the* Philistines from Caphtor and the Arameans from Kir?

Deuteronomy 2:20–23 (It is also considered the land of Rephaim; Rephaim lived in it previously, and the Ammonites called them Zamzummim, [21] a people great and numerous and as tall as the Anakites; Yahweh destroyed them from before them, and they dispossessed them and settled in place of them, [22] just as he did for the descendants of Esau, who live in Seir, when he destroyed the Horites from before them and dispossessed them, and *then* they settled in their place up to this day. [23] And *also* the Avvites, who lived in villages as far as Gaza, *and the* Caphtorim, who came out from Caphtor, destroyed them and *then* settled in their place.

2 Samuel 21:16 Now Yishbi in Nob, who *was* among the descendents of Raphah (now the weight of his spearhead *was* three hundredweight of bronze, and he *was* newly armed), said that he would kill David.

2 Samuel 21:18 It happened afterward that there *was* again battle at Gob with *the* Philistines. Then Sibbecai the Hushathite killed Saph who *was* among the descendants of the Raphah.

2 Samuel 21:20 Once again there *was* battle at Gath, and there *was* a man of great size. The fingers of his hand and the toes of his feet *were* six and six, twenty-four in number. He *was* also born to the Raphah.

2 Samuel 21:22 These four *were* born for the Raphah in Gath, and they fell by the hand of David and by the hand of his servants.

1 Chronicles 20:4 And after this there arose a war in Gezer with the Philistines. Then Sibbecai the Hushathite struck down Sippai, one of the descendants of the Rephaim. And they were subdued.

1 Chronicles 20:6 And again there was war in Gath. And there was a very tall man *there*, and he had six fingers on each hand and six toes on each foot, twenty-four in all. He himself *was* also a descendant of the Rephaim.

1 Chronicles 20:8 These were born to the giants in Gath, and they fell by the hand of David and by the hand of his servants.

Judges 16:5 And the rulers of *the* Philistines came up to her and said, “Entice him and find out what makes his strength so great, and how we can overpower him, so that we may bind him up in order to subdue him; each of us will give you eleven hundred pieces of silver.

2 Samuel 22:9–13 Smoke went up from his nostrils and fire from his mouth.
Burning coals devoured, they burned from him.
10 He bowed the heavens and came down; a very thick cloud *was* under his feet.
11 He rode upon a cherub and flew; he was seen on the wings of the wind.
12 He put darkness *as* a canopy all around him, a collection of thick rain clouds.
13 From the brightness before him flamed burning coals of fire.

2 Samuel 23:13 Then three of the thirty leaders went down and came to David at the time of the harvest to the cave of Adullam, while a group of *the* Philistines *were* camping in the valley of *the* Rephaim.

2 Samuel 5:18 Now *the* Philistines had come, and they spread out in the Valley of Rephaim.

1 Chronicles 11:15 And three of the thirty chiefs went down toward the rock to David at the cave of Adullam when the army of the Philistines was encamped in the valley of Rephaim.

1 Chronicles 14:9 Now the Philistines came and carried out a raid in the Valley of Rephaim.

2 Samuel 23:13–17 Then three of the thirty leaders went down and came to
David at the time of the harvest to the cave of Adullam, while a group of *the*
Philistines *were* camping in the valley of *the* Rephaim. [14] Now at that time,
David *was* in the stronghold, and a garrison of *the* Philistines *was* in
Bethlehem at that *same* time. [15] David said longingly, “Oh that someone
would bring me a drink of water from the well of Bethlehem that *is* at the
gate.” [16] So three of the mighty warriors broke into the camp of *the*
Philistines, and they drew water from the well of Bethlehem that *was* at the
gate, and they carried *it* and brought *it* to David. But he *was* not willing to
drink it, but poured it out to Yahweh. [17] He said, “Far be it from me before
Yahweh that I should do this. *Is this not* the blood of the men who went at
the risk of their lives?” So he *was* not willing to drink it. These things the
three mighty warriors did.

1 Chronicles 11:15–19 And three of the thirty chiefs went down toward the
rock to David at the cave of Adullam when the army of the Philistines was
encamped in the valley of Rephaim. [16] And David *was* then in the
stronghold, and the garrison of the Philistines *was* then in Bethlehem. [17]
And David had a craving, and he said, “Who could give me a drink of water
from the well of Bethlehem that *is* by the gate!” [18] Then the three broke
through into the camp of the Philistines and drew water from the well of
Bethlehem that *was* by the gate and brought *it* and came to David. But
David would not drink it and poured it out before Yahweh. [19] And he said,
“Far be it from me *that* I would do this before my God. Shall I drink the
lifeblood of these men? For at the risk of their lives they brought it.” And he
was not willing to drink it. These things the three mighty men did.

2 Samuel 5:17–25 When *the* Philistines heard that they had anointed David
as king over Israel, all *the* Philistines went up to seek David, but David
heard and went down to the stronghold. [18] Now *the* Philistines had come,
and they spread out in the Valley of Rephaim. [19] And David inquired of
Yahweh, saying, “Shall I go up to the Philistines? Will you give them into
my hands?” Yahweh said to David, “Go up, for I will certainly give *the*
Philistines into your hand.” [20] So David came to Baal Perazim and defeated
them there; and David said, “Yahweh has burst through my enemies before

me like the bursting of water.” Therefore he called the name of that place Baal Perazim. [21] They had left their idols there, so David and his men carried them away.

[22] Once again *the* Philistines came up and spread out in the Valley of Rephaim. [23] So David inquired of Yahweh, but he said, “You shall not go up. *Rather,* go around to their rear and come to them from opposite the balsam trees. [24] And it shall be that when you hear the sound of marching in the tops of the balsam trees, then pay attention, for then Yahweh has gone out before you to strike down the army of *the* Philistines.” [25] So David did thus, just as Yahweh had commanded him, and he struck down *the* Philistines from Geba all the way to Gezer.

1 Chronicles 14:8–17 When the Philistines heard that David had been anointed as king over all Israel, all the Philistines went up to search for David. But David heard and went out from before them. [9] Now the Philistines came and carried out a raid in the Valley of Rephaim. [10] Then David inquired of God, saying, “Shall I go up against the Philistines? Will you put them into my hand?” And Yahweh said to him, “Go up. I will put them into your hand.” [11] And he went up to Baal-Perazim, and David struck them there. And David said, “God has burst out against my enemies by my hand like waters burst out.” Therefore they will call the name of this place Baal-Perazim. [12] And they abandoned their gods there. And David commanded, and they were burnt with fire. [13] Then the Philistines carried out another raid in the valley. [14] Then David inquired again of God. And God said to him, “You shall not go up after them. Go around from before them and come against them the opposite *way* of the balsam trees. [15] And it shall be *that* when you hear the sound of marching in the tops of the balsam trees, then go out into battle, for God goes out before you to strike the camp of the Philistines.” [16] And David did as God commanded him, and they struck the camp of the Philistines from Gibeon to Gezer. [17] And the fame of David went out through all the lands. And Yahweh put the fear of him upon all the nations.

Psalm 104:9 You set a boundary that they may not cross over, *so that* they would not return to cover the earth.

2 Samuel 15:24–25 Suddenly Zadok *was* there, and all of the Levites with him, carrying the ark of the covenant of God. They set the ark of God down, and Abiathar offered sacrifices until all the people passed out of the city. 25 The king said to Zadok, “Let the ark of God return to the city. If I find favor in the eyes of Yawheh, he will let me return and let me see him in his dwelling place.

1 Kings 3:4 So the king went to Gibeon to sacrifice, for the great high place *was* there. Solomon used to offer a thousand burnt offerings on that altar.

2 Chronicles 1:3 And Solomon and the whole assembly with him went to the high place that *was* at Gibeon, for the tent of assembly of God that Moses the servant of Yahweh had made in the desert was there.

1 Kings 6:2 Now the house that King Solomon built for Yahweh *was* sixty cubits *in* its length and twenty cubits *in* its width and thirty cubits *in* its height.

Exodus 33:7–11 And Moses took the tent and pitched it outside the camp far from the camp, and he called it the tent of assembly, and all seeking Yahweh would go out to the tent of assembly, which *was* outside the camp. 8 And at the going out of Moses to the tent, all the people would rise and stand, each at the opening of his tent, and gaze after Moses until his entering the tent. 9 And at the entering of Moses *into* the tent the column of cloud would descend and stand *at* the opening of the tent, and he would speak with Moses. 10 And all the people would see the column of cloud standing *at* the opening of the tent, and all the people would rise and bow in worship, each *at* the opening of his tent. 11 And Yahweh would speak to Moses face to face, as a man speaks to his neighbor. And he would return to the camp, and his assistant Joshua the son of Nun, a young man, did not leave the middle of the tent.

Exodus 27:21 In the tent of assembly outside the curtain that *is* before the testimony, Aaron and his sons will arrange it, from evening until morning, before Yahweh *as* a lasting statute throughout their generations from the Israelites.

Exodus 28:43 And they will be on Aaron and on his sons when they come to the tent of assembly or when they approach the altar to serve in the sanctuary, so that they will not bear guilt and die. *It is* a lasting statute for him and for his offspring after him.

Exodus 30:26 And you will anoint with it the tent of assembly and the ark of the testimony,

Exodus 33:7–11 And Moses took the tent and pitched it outside the camp far from the camp, and he called it the tent of assembly, and all seeking Yahweh would go out to the tent of assembly, which *was* outside the camp. [8] And at the going out of Moses to the tent, all the people would rise and stand, each at the opening of his tent, and gaze after Moses until his entering the tent. [9] And at the entering of Moses *into* the tent the column of cloud would descend and stand *at* the opening of the tent, and he would speak with Moses. [10] And all the people would see the column of cloud standing *at* the opening of the tent, and all the people would rise and bow in worship, each *at* the opening of his tent. [11] And Yahweh would speak to Moses face to face, as a man speaks to his neighbor. And he would return to the camp, and his assistant Joshua the son of Nun, a young man, did not leave the middle of the tent.

1 Samuel 2:22 Now Eli was very old, and he heard all that his sons were doing to all Israel and that they *were* having sexual relations with the women who *were* serving *at* the entrance of *the* tent of assembly.

2 Chronicles 1:3 And Solomon and the whole assembly with him went to the high place that *was* at Gibeon, for the tent of assembly of God that Moses the servant of Yahweh had made in the desert was there.

1 Kings 8:4 So they brought up the ark of Yahweh and the tent of assembly and all of the holy vessels that *were* in the tent; the priests and the Levites brought them up.

1 Kings 8:4–8 So they brought up the ark of Yahweh and the tent of assembly and all of the holy vessels that *were* in the tent; the priests and the Levites brought them up. [5] King Solomon and all the assembly of Israel who were assembling with him in the presence of the ark *were* sacrificing sheep and oxen that could not be counted nor numbered because of abundance. [6] The priests brought the ark of the covenant of Yahweh to its place in the inner sanctuary of the house, to the most holy place, under the wings of the cherubim, [7] for the cherubim *were* spreading their wings over the place of the ark. The cherubim overshadowed the ark and its poles from above. [8] The poles *were* long, and the ends of the poles could be seen from the holy place in front of the inner sanctuary, but they could not be seen *from* the outside, and they are there until this day.

2 Chronicles 24:6 So the king called Jehoiada the chief, and he said to him, “Why have you not required the Levites to bring from Judah and Jerusalem the tax of Moses, the servant of Yahweh, and *of* the assembly of Israel for the tent of the testimony?”

2 Chronicles 29:3–7 In the first year of his kingship, in the first month, he opened the doors of the house of Yahweh and strengthened them. [4] And he brought in the priests and the Levites, and he gathered them into the eastern square. [5] And he said to them, “Hear me, O Levites! Sanctify yourselves now, and sanctify the house of Yahweh, the God of your ancestors, and bring out the defilement from the sanctuary. [6] For our ancestors acted unfaithfully and did evil in the sight of Yahweh our God, and have forsaken him and turned away their faces from the dwelling place of Yahweh. They have turned their backs *on it*. [7] They also shut the doors of the portico and extinguished the lamps. And they did not burn incense or offer burnt offerings in the sanctuary to the God of Israel.

Exodus 3:1–3 And Moses was a shepherd with the flock of Jethro, his father-in-law, the priest of Midian, and he led the flock to the west *of* the desert, and he came to the mountain of God, to Horeb. [2] And the angel of Yahweh appeared to him in a flame of fire from the midst of a bush, and he looked, and there was the bush burning with fire, but the bush was not being

consumed. [3] And Moses said, “Let me turn aside and see this great sight. Why does the bush not burn up?”

Deuteronomy 4:15 “So you must be very careful for yourselves, because you did not see any form on the day Yahweh spoke to you at Horeb from the midst of the fire,

Deuteronomy 5:2 Yahweh our God made a covenant with us at Horeb.

1 Kings 8:9 There was not *anything* in the ark except the two tablets of stone which Moses had placed there at Horeb, where Yahweh made *a covenant* with the Israelites after they went out from the land of Egypt.

Deuteronomy 32:17 They sacrificed to the demons, not God, *to* gods whom they had not known, new *gods who* came from recent times; their ancestors had not known them.

1 Corinthians 10:20 *No*, but that *the things* which they sacrifice, they sacrifice to demons and not to God, and I do not want you to become sharers with demons.

Deuteronomy 32:17 They sacrificed to the demons, not God, *to* gods whom they had not known, new *gods who* came from recent times; their ancestors had not known them.

1 Corinthians 10:20 *No*, but that *the things* which they sacrifice, they sacrifice to demons and not to God, and I do not want you to become sharers with demons.

Deuteronomy 32:8–9 When the Most High apportioned *the* nations, at his dividing *up* of the sons of humankind, he fixed the boundaries of *the* peoples, according to the number of the children of Israel.

> [9] For Yahweh’s portion *was* his people, Jacob the share of his inheritance.

Deuteronomy 32:8 When the Most High apportioned *the* nations, at his dividing *up* of the sons of humankind, he fixed the boundaries of *the* peoples, according to the number of the children of Israel.

Deuteronomy 4:19–20 And do this so that you do not lift your eyes *toward* heaven and observe the sun and the moon and the stars, all the host of the heaven, and be led astray and bow down to them and serve them, things that Yahweh your God has allotted to all *of* the peoples under all *of* the heaven. 20 But Yahweh has taken you and brought you out from the furnace of iron, from Egypt, to be a people of inheritance to him, as it is this day.

1 Kings 22:13–23 Then the messenger who had gone to summon Micaiah said to him, “Please now, the words of the prophets are unanimously favorable to the king. Please let your words be as one word with them, and speak favorably.” 14 Then Micaiah said, “As Yahweh lives, surely only as Yahweh speaks to me, that will I speak.” 15 When he came to the king, the king asked him, “Micaiah, shall we go to Ramoth-Gilead to the battle, or shall we refrain?” He said to him, “Go up and triumph, and Yahweh will give *it* into the hand of the king.” 16 Then the king said to him, “How many times must I make you swear that you shall not tell me *anything* but truth in the name of Yahweh?” 17 So he said, “I saw all of Israel scattering to the mountains, like the sheep without a shepherd. Yahweh also said, ‘There are no masters for these, let them return in peace, each to his house.’ ” 18 Then the king of Israel said to Jehoshaphat, “Did I not say to you that he would not prophesy good concerning me, but disaster?”

19 And he said, “Therefore, hear the word of Yahweh. I saw Yahweh sitting on his throne with all the hosts of heaven standing beside him from his right hand and from his left *hand*. 20 And Yahweh said, ‘Who will entice Ahab so that he will go up and fall at Ramoth-Gilead?’ Then this one was saying one thing and the other one was saying another. 21 Then a spirit came out and stood before Yahweh and said, ‘I will entice him,’ and Yahweh said to him, ‘How?’ 22 He said, ‘I will go out and I will be a false spirit in the mouth of all his prophets.’ And he said, ‘You shall entice and succeed, go out and do so.’ 23 So then, see that Yahweh has placed a false spirit in the mouth of all of these your prophets, and Yahweh has spoken disaster concerning you.”

Deuteronomy 17:2–5 If *there* is found in one of your towns that Yahweh your God *is* giving to you a man or a woman that does evil in the eyes of

Yahweh your God to transgress his covenant [3] and by going and serving other gods and *so* he bows down to them and to the sun or to the moon or to any *of* the host of heaven which I have forbidden, [4] and it is reported to you or you hear *about it* and you enquire *about it* thoroughly and, indeed, *the* trustworthiness of the deed *has* been established, it has occurred, this detestable thing, in Israel, [5] then you shall bring out that man or that woman who has done this evil thing to your gates; that is, the man or the woman, and you shall stone them with stones to death.

Deuteronomy 29:25 And they will say, '*It is* because they abandoned the covenant of Yahweh, the God of their ancestors, which he made with them when he brought them out from the land of Egypt.

Deuteronomy 32:17 They sacrificed to the demons, not God, *to* gods whom they had not known, new *gods who* came from recent times; their ancestors had not known them.

1 Kings 22:19 And he said, "Therefore, hear the word of Yahweh. I saw Yahweh sitting on his throne with all the hosts of heaven standing beside him from his right hand and from his left *hand*.

2 Kings 17:16 They abandoned all the commands of Yahweh their God and made for themselves two molten calf-shaped idols; they made a pole of Asherah worship and bowed down to the army of the heavens and served Baal.

Deuteronomy 4:19 And do this so that you do not lift your eyes *toward* heaven and observe the sun and the moon and the stars, all the host of the heaven, and be led astray and bow down to them and serve them, things that Yahweh your God has allotted to all *of* the peoples under all *of* the heaven.

Deuteronomy 17:3 and by going and serving other gods and *so* he bows down to them and to the sun or to the moon or to any *of* the host of heaven which I have forbidden,

1 Samuel 26:17–19 Then Saul recognized David's voice and said, "*Is* this your voice, my son David?" And David said, "*It is* my voice, my lord the king." [18] Then he said, "Why *is* my lord pursuing after his servant? For what have I done? And what evil *is* in my hand? [19] And so then, please let my lord the king listen to the words of his servant: If Yahweh has incited you against me, may he delight in an offering; but if it is mortals, *may* they be accursed before Yahweh, for they have driven me away today from sharing in the inheritance of Yahweh, saying, 'Go, serve other gods!'

2 Kings 5:15–19 When he returned to the man of God, he and all of his army, he came and stood before him and said, "Please now, I know that there is no God in all of the world except in Israel. So then, please take a gift from your servant." [16] And he said, "As Yahweh lives, before whom I stand, I surely will not take *it*." *Still* he urged him to take *it*, but he refused. [17] Then Naaman said, "If not, then please let a load of soil on a pair of mules be given to your servants, for your servant will never again bring a burnt offering and sacrifice to other gods, *but* only to Yahweh. [18] As far as this matter, may Yahweh pardon your servant when my master goes *into* the house of Rimmon to worship there, and he *is* leaning himself on my arm, that I also bow down *in* the house of Rimmon: when I bow down *in* the house of Rimmon, may Yahweh please pardon your servant in this matter." [19] He said to him, "Go in peace," so he went from him a short distance.

1 Kings 22:19 And he said, "Therefore, hear the word of Yahweh. I saw Yahweh sitting on his throne with all the hosts of heaven standing beside him from his right hand and from his left *hand*.

2 Kings 17:16 They abandoned all the commands of Yahweh their God and made for themselves two molten calf-shaped idols; they made a pole of Asherah worship and bowed down to the army of the heavens and served Baal.

Deuteronomy 4:19 And do this so that you do not lift your eyes *toward* heaven and observe the sun and the moon and the stars, all the host of the heaven, and be led astray and bow down to them and serve them, things that Yahweh your God has allotted to all *of* the peoples under all *of* the heaven.

Deuteronomy 17:3 and by going and serving other gods and *so* he bows down to them and to the sun or to the moon or to any *of* the host of heaven which I have forbidden,

1 Chronicles 1:17 The sons of Shem: Elam, Asshur, Arphaxad, Lud, Aram, Uz, Hul, Gether, and Meshech.

1 Chronicles 10:12 every strong man arose and took the dead body of Saul and the dead bodies of his sons and brought them to Jabesh. And they buried their bones under the oak in Jabesh and fasted seven days.

Genesis 35:8 And Deborah, the nurse of Rebekah, died. And she was buried below Bethel, under the oak. And its name was called Allon-Bacuth.

2 Samuel 23:13 Then three of the thirty leaders went down and came to David at the time of the harvest to the cave of Adullam, while a group of *the* Philistines *were* camping in the valley of *the* Rephaim.

2 Samuel 5:18 Now *the* Philistines had come, and they spread out in the Valley of Rephaim.

1 Chronicles 11:15 And three of the thirty chiefs went down toward the rock to David at the cave of Adullam when the army of the Philistines was encamped in the valley of Rephaim.

1 Chronicles 14:9 Now the Philistines came and carried out a raid in the Valley of Rephaim.

2 Samuel 23:13–17 Then three of the thirty leaders went down and came to David at the time of the harvest to the cave of Adullam, while a group of *the* Philistines *were* camping in the valley of *the* Rephaim. [14] Now at that time, David *was* in the stronghold, and a garrison of *the* Philistines *was* in

Bethlehem at that *same* time. 15 David said longingly, “Oh that someone would bring me a drink of water from the well of Bethlehem that *is* at the gate.” 16 So three of the mighty warriors broke into the camp of *the* Philistines, and they drew water from the well of Bethlehem that *was* at the gate, and they carried *it* and brought *it* to David. But he *was* not willing to drink it, but poured it out to Yahweh. 17 He said, “Far be it from me before Yahweh that I should do this. *Is this not* the blood of the men who went at the risk of their lives?” So he *was* not willing to drink it. These things the three mighty warriors did.

1 Chronicles 11:15–19 And three of the thirty chiefs went down toward the rock to David at the cave of Adullam when the army of the Philistines was encamped in the valley of Rephaim. 16 And David *was* then in the stronghold, and the garrison of the Philistines *was* then in Bethlehem. 17 And David had a craving, and he said, “Who could give me a drink of water from the well of Bethlehem that *is* by the gate!” 18 Then the three broke through into the camp of the Philistines and drew water from the well of Bethlehem that *was* by the gate and brought *it* and came to David. But David would not drink it and poured it out before Yahweh. 19 And he said, “Far be it from me *that* I would do this before my God. Shall I drink the lifeblood of these men? For at the risk of their lives they brought it.” And he was not willing to drink it. These things the three mighty men did.

2 Samuel 5:17–25 When *the* Philistines heard that they had anointed David as king over Israel, all *the* Philistines went up to seek David, but David heard and went down to the stronghold. 18 Now *the* Philistines had come, and they spread out in the Valley of Rephaim. 19 And David inquired of Yahweh, saying, “Shall I go up to the Philistines? Will you give them into my hands?” Yahweh said to David, “Go up, for I will certainly give *the* Philistines into your hand.” 20 So David came to Baal Perazim and defeated them there; and David said, “Yahweh has burst through my enemies before me like the bursting of water.” Therefore he called the name of that place Baal Perazim. 21 They had left their idols there, so David and his men carried them away.

22 Once again *the* Philistines came up and spread out in the Valley of
Rephaim. 23 So David inquired of Yahweh, but he said, “You shall not go
up. *Rather,* go around to their rear and come to them from opposite the
balsam trees. 24 And it shall be that when you hear the sound of marching in
the tops of the balsam trees, then pay attention, for then Yahweh has gone
out before you to strike down the army of *the* Philistines.” 25 So David did
thus, just as Yahweh had commanded him, and he struck down *the*
Philistines from Geba all the way to Gezer.

1 Chronicles 14:8–17 When the Philistines heard that David had been
anointed as king over all Israel, all the Philistines went up to search for
David. But David heard and went out from before them. 9 Now the
Philistines came and carried out a raid in the Valley of Rephaim. 10 Then
David inquired of God, saying, “Shall I go up against the Philistines? Will
you put them into my hand?” And Yahweh said to him, “Go up. I will put
them into your hand.” 11 And he went up to Baal-Perazim, and David struck
them there. And David said, “God has burst out against my enemies by my
hand like waters burst out.” Therefore they will call the name of this place
Baal-Perazim. 12 And they abandoned their gods there. And David
commanded, and they were burnt with fire. 13 Then the Philistines carried
out another raid in the valley. 14 Then David inquired again of God. And
God said to him, “You shall not go up after them. Go around from before
them and come against them the opposite *way* of the balsam trees. 15 And it
shall be *that* when you hear the sound of marching in the tops of the balsam
trees, then go out into battle, for God goes out before you to strike the camp
of the Philistines.” 16 And David did as God commanded him, and they
struck the camp of the Philistines from Gibeon to Gezer. 17 And the fame of
David went out through all the lands. And Yahweh put the fear of him upon
all the nations.

1 Kings 8:4–8 So they brought up the ark of Yahweh and the tent of assembly and all of the holy vessels that *were* in the tent; the priests and the Levites brought them up. [5] King Solomon and all the assembly of Israel who were assembling with him in the presence of the ark *were* sacrificing sheep and oxen that could not be counted nor numbered because of abundance. [6] The priests brought the ark of the covenant of Yahweh to its place in the inner sanctuary of the house, to the most holy place, under the wings of the cherubim, [7] for the cherubim *were* spreading their wings over the place of the ark. The cherubim overshadowed the ark and its poles from above. [8] The poles *were* long, and the ends of the poles could be seen from the holy place in front of the inner sanctuary, but they could not be seen *from* the outside, and they are there until this day.

2 Chronicles 24:6 So the king called Jehoiada the chief, and he said to him, “Why have you not required the Levites to bring from Judah and Jerusalem the tax of Moses, the servant of Yahweh, and *of* the assembly of Israel for the tent of the testimony?”

2 Chronicles 29:3–7 In the first year of his kingship, in the first month, he opened the doors of the house of Yahweh and strengthened them. 4 And he brought in the priests and the Levites, and he gathered them into the eastern square. 5 And he said to them, “Hear me, O Levites! Sanctify yourselves now, and sanctify the house of Yahweh, the God of your ancestors, and bring out the defilement from the sanctuary. 6 For our ancestors acted unfaithfully and did evil in the sight of Yahweh our God, and have forsaken him and turned away their faces from the dwelling place of Yahweh. They have turned their backs *on it*. 7 They also shut the doors of the portico and extinguished the lamps. 2 Chronicles 35:20–25 After all of this that Josiah had prepared *for* the temple, Neco the king of Egypt went up to make war at Carchemish on the Euphrates, and Josiah went up to meet him. [21] And he sent messengers to him, saying, “What is there between us, O king of Judah? *I am* not against you yourself this day, but against the house making war against me. And God has commanded me to make haste. Stop *opposing* God, who *is* with me that he will not destroy you.” [22] But Josiah did not turn his face from him, but he disguised himself to fight with him. He did not listen to the words of Neco from the mouth of God, and he went out to fight in the plain of Megiddo. [23] And the archers shot King Josiah, and the king said to his servants, “Take me away, for I am badly wounded.” [24] So his servants took him out of the chariot and transported him in his second chariot and brought him to Jerusalem. And he died and was buried in the burial sites of his ancestors. And all Judah and Jerusalem mourned over Josiah. [25] And Jeremiah uttered a lament for Josiah, and all the male and female singers have spoken in their laments about Josiah to this day. And they made them a requirement in Israel, and behold, they are written in the laments.

John 10:34 Jesus answered them, “Is it not written in your law, ‘I said, “You are gods” ’?

John 10:34–35 Jesus answered them, “Is it not written in your law, ‘I said, “You are gods” ’? 35 If he called them ‘gods’ to whom the word of God came—and the scripture cannot be broken—

Psalm 82:6 I have said, “You *are* gods, and sons of the Most High, all of you.

Psalm 82:6 I have said, “You *are* gods, and sons of the Most High, all of you.

John 10:30 The Father and I are one.”

John 10:38 But if I am doing *them*, even if you do not believe me, believe the deeds, so that you may know and understand that the Father *is* in me and I *am* in the Father.”

Psalm 82:6 I have said, “You *are* gods, and sons of the Most High, all of you.

Psalm 82:6 I have said, “You *are* gods, and sons of the Most High, all of you.

Psalm 82:6 I have said, “You *are* gods, and sons of the Most High, all of you.

John 10:34 Jesus answered them, “Is it not written in your law, ‘I said, “You are gods” ’?

James 2:19 You believe that God is one; you do well. Even the demons believe, and shudder!

Genesis 11:1–9 Now the whole earth *had* one language and the same words. 2 And as people migrated from the east they found a plain in the land of Shinar and settled there. 3 And they said to each other, “Come, let us make

bricks and burn them thoroughly.” And they had brick for stone and they had tar for mortar. 4 And they said, “Come, let us build ourselves a city and a tower whose top *reaches to* the heavens. And let us make a name for ourselves, lest we be scattered over the face of the whole earth.”

5 Then Yahweh came down to see the city and the tower that humankind was building. 6 And Yahweh said, “Behold, they are one people with one language, and this is only the beginning of what they will do. So now nothing that they intend to do will be impossible for them. 7 Come, let us go down and confuse their language there, so that they will not understand each other’s language.” 8 So Yahweh scattered them from there over the face of the whole earth, and they stopped building the city. 9 Therefore its name was called Babel, for there Yahweh confused the language of the whole earth, and there Yahweh scattered them over the face of the whole earth.

Deuteronomy 32:8–9 When the Most High apportioned *the* nations, at his dividing *up* of the sons of humankind, he fixed the boundaries of *the* peoples, according to the number of the children of Israel.

9 For Yahweh’s portion *was* his people, Jacob the share of his inheritance.

Genesis 12:1–3 And Yahweh said to Abram, “Go out from your land and from your relatives, and from the house of your father, to the land that I will show you. 2 And I will make you a great nation, and I will bless you, and I will make your name great. And you will be a blessing. 3 And I will bless those who bless you, and those who curse you I will curse. And all families of the earth will be blessed in you.”

Deuteronomy 4:19–20 And do this so that you do not lift your eyes *toward* heaven and observe the sun and the moon and the stars, all the host of the heaven, and be led astray and bow down to them and serve them, things that Yahweh your God has allotted to all *of* the peoples under all *of* the heaven. 20 But Yahweh has taken you and brought you out from the furnace of iron, from Egypt, to be a people of inheritance to him, as it is this day.

Deuteronomy 17:3 and by going and serving other gods and *so* he bows down to them and to the sun or to the moon or to any *of* the host of heaven which I have forbidden,

Deuteronomy 29:24–26 And all the nations will say, ‘Why has Yahweh done such a thing to this land? What *caused* the fierceness of this great anger?’ 25 And they will say, ‘*It is* because they abandoned the covenant of Yahweh, the God of their ancestors, which he made with them when he brought them out from the land of Egypt. 26 And they went and served other gods and bowed down to them, gods whom they did not know them and he had not allotted to them.

Deuteronomy 32:17 They sacrificed to the demons, not God, *to* gods whom they had not known, new *gods who* came from recent times; their ancestors had not known them.

Psalm 82:6 I have said, “You *are* gods, and sons of the Most High, all of you.

Deuteronomy 29:24–26 And all the nations will say, ‘Why has Yahweh done such a thing to this land? James 2:19 You believe that God is one; you do well. Even the demons believe, and shudder!

James 1:1–3 James, a slave of God and of the Lord Jesus Christ, to the twelve tribes in the dispersion. Greetings!

2 Consider *it* all joy, my brothers, whenever you encounter various trials, 3 *because you* know that the testing of your faith produces endurance.

Galatians 3:26–29 For you are all sons of God through faith in Christ Jesus,
27 for as many *of you* as were baptized into Christ have put on Christ.
28 There is neither Jew nor Greek, there is neither slave nor free, there is
neither male and female, for you are all one in Christ Jesus.
29 And if you
are Christ's, then you are descendants of Abraham, heirs according to the
promise.

Psalm 82:6–7 I have said, "You *are* gods, and sons of the Most High, all of
you.

7 However, you will die like men, and you will fall like one of the
princes."

Matthew 16:18 And I also say to you that you are Peter, and on this rock I
will build my church, and the gates of Hades will not overpower it!

Isaiah 14:9 Sheol below is getting excited over you, to meet you when you
come;

it arouses *the* dead spirits for you, all of *the* leaders of *the* earth.

It raises all of *the* kings of *the* nations from their thrones.

Ezekiel 32:27 And they do not lie with warriors fallen from long ago, who
went down *to* Sheol with their weapons of war, and they placed their sword
under their heads, and their shields were on their bones, for *the* terror of *the*
warriors *was* in *the* land of the living.

Psalm 88:10–12 Do you work wonders for the dead?

Or do *the* departed spirits rise up *to* praise you? *Selah*
11 Is your loyal
love told in the grave, *or* your faithfulness in the underworld?

12 Are your wonders known in the darkness, *or* your righteousness in *the*
land of forgetfulness?

Psalm 88:11–13 Do you work wonders for the dead?

Or do *the* departed spirits rise up *to* praise you? *Selah*
11 Is your loyal
love told in the grave, *or* your faithfulness in the underworld?

12 Are your wonders known in the darkness, *or* your righteousness in *the*
land of forgetfulness?

Job 26:1–6 Then Job answered and said, [2] “How you have helped one who has no power!

How you have assisted *the* arm that has no strength!

[3] How you have advised one who has no wisdom!

And *what* sound wisdom you have made known in abundance!

[4] With whose help have you uttered words, and whose breath has come forth from you?

[5] “The spirits of the dead tremble below *the* waters and their inhabitants.

[6] Sheol *is* naked before him, and there is no covering for Abaddon.

Genesis 6:1–4 And it happened *that*, when humankind began to multiply on the face of the ground, daughters were born to them. [2] Then the sons of God saw the daughters of humankind, that they *were* beautiful. And they took for themselves wives from all that they chose. [3] And Yahweh said, “My Spirit shall not abide with humankind forever in that he *is* also flesh. And his days *shall be* one hundred and twenty years.” [4] The Nephilim *were* upon the earth in those days, and also afterward, when the sons of God went into the daughters of humankind, and they bore children to them. These *were* the mighty warriors that *were* from ancient times, men of renown.

Job 1:6 And it happened one day that the sons of God came to present themselves before Yahweh, and Satan also came into their midst.

Job 2:1 And then one day the sons of God came to present themselves before Yahweh, and Satan also came into their midst to present himself before Yahweh.

Genesis 4:1 Now Adam knew Eve his wife, and she conceived and bore Cain. And she said, “I have given birth to a man with *the help of* Yahweh.”

Genesis 4:1 Now Adam knew Eve his wife, and she conceived and bore Cain. And she said, “I have given birth to a man with *the help of* Yahweh.”

Genesis 4:1 Now Adam knew Eve his wife, and she conceived and bore Cain. And she said, “I have given birth to a man with *the help of* Yahweh.”

Genesis 18:9–14 And they said to him, “Where *is* Sarah your wife?” And he said, “Here, in the tent.” 10 And he said, “I will certainly return to you in the spring, and look, Sarah your wife *will have* a son.” Now Sarah *was* listening at the doorway of the tent, and which *was* behind him. 11 Now Abraham and Sarah *were* old, advanced in age; the way of women had ceased to be for Sarah. 12 So Sarah laughed to herself saying, “After I am worn out and my husband is old, shall *this* pleasure be to me?” 13 Then Yahweh said to Abraham, “What *is* this *that* Sarah laughed, saying, ‘Is it indeed true *that* I will bear a child, now *that* I have grown old?’ 14 Is anything too difficult for Yahweh? At the appointed time I will return to you in the spring and Sarah *shall have* a son.”

Genesis 21:1–2 And Yahweh visited Sarah as he had said. And Yahweh did to Sarah as he had promised. 2 And she conceived, and Sarah bore to Abraham a son in his old age at the appointed time that God had told him.

Genesis 25:21 And Isaac prayed to Yahweh on behalf of his wife, for she *was* barren. And Yahweh responded to his prayer, and Rebekah his wife conceived.

Genesis 29:32–35 Then Leah conceived and gave birth to a son, and she called his name Reuben, for she said, “Because Yahweh has noticed my misery. Surely now my husband will love me.” 33 And she conceived again and gave birth to a son. And she said, “*It is* because Yahweh has heard that I

am unloved that he gave me this *son* also." And she called his name Simeon. [34] And she conceived again and gave birth to a son. Then she said, "Now this time my husband will be joined to me, for I have borne him three sons." Therefore, she called his name Levi. [35] And she conceived again and gave birth to a son. And she said, "This time I will praise Yahweh." Therefore she called his name Judah. And she ceased bearing children.

Genesis 30:16–24 When Jacob came in from the field in the evening, Leah went out to meet him. And she said, "Come in to me, for I have hired you with my son's mandrakes." And he slept with her that night. [17] And God listened to Leah and she conceived and gave birth to a fifth son for Jacob. [18] Then Leah said, "God has given *me* my wage since I gave my slave girl to my husband." And she called his name Issachar. [19] And Leah conceived again and gave birth to a sixth son for Jacob. [20] And Leah said, "God has endowed me with a good gift. This time my husband will acknowledge me, because I bore him six sons." And she called his name Zebulun. [21] And afterward she gave birth to a daughter. And she called her name Dinah. [22] Then God remembered Rachel and listened to her, and God opened her womb. [23] And she conceived and gave birth to a son. And she said, "God has taken away my disgrace." [24] And she called his name Joseph, saying, "Yahweh has added to me another son."

1 Samuel 1:19–20 Then they rose early in the morning and worshiped before Yahweh and returned to their house at Ramah. Then Elkanah had sexual relations with Hannah his wife, and Yahweh remembered her. [20] In due time, Hannah conceived and gave birth to a son. She called his name Samuel, for *she said*, "I requested him from Yahweh."

Daniel 8:10 And it grew up to the host of heaven, and it threw down to the ground some of the host and some of the stars and trampled them.

Revelation 12:1–9 And a great sign appeared in heaven: a woman clothed
with the sun and *with* the moon under her feet, and on her head a crown of
twelve stars, [2] and who was pregnant and was crying out *because she* was
having birth pains, and was in torment to give birth. [3] And another sign
appeared in heaven, and behold, a great fiery red dragon, having seven
heads and ten horns, and on his heads *were* seven royal headbands. [4] And
his tail swept away a third of the stars from heaven and threw them to the
earth. And the dragon stood before the woman who was about to give birth,
in order that whenever she gave birth to her child he could devour *it*. [5] And
she gave birth to a son, a male *child*, who is going to shepherd all the
nations with an iron rod, and her child was snatched away to God and to his
throne. [6] And the woman fled into the wilderness, where she had a place
prepared there by God, so that they could feed her there *for one* thousand
two hundred sixty days.

[7] And there was war in heaven; Michael and his angels fought against the
dragon, and the dragon and his angels fought back. [8] And they did not
prevail, nor was a place found for them *any* longer in heaven. [9] And the
great dragon was thrown down, the ancient serpent, who is called the devil
and Satan, who deceives the whole world. He was thrown down to the
earth, and his angels were thrown down with him.

2 Peter 2:9 *then* the Lord knows how to rescue the godly from trials and to reserve the unrighteous to be punished at the day of judgment,

2 Peter 2:10f and especially those who go after the flesh in defiling lust and who despise authority.

Bold *and* arrogant, they do not tremble in awe *as they* blaspheme majestic beings, [11] whereas angels, who are greater in strength and power, do not bring against them a demeaning judgment.

Exodus 15:11 Who is like you among the gods, Yahweh?

> Who is like you—glorious in holiness, awesome *in* praiseworthy actions, doing wonders?

Exodus 24:16f And the glory of Yahweh settled on Mount Sinai, and the cloud covered it *for* six days, and he called to Moses on the seventh day from the midst of the cloud. 17 And the appearance of the glory of Yahweh *was* like a consuming fire on the top of the mountain to the eyes of the Israelites.

Exodus 33:18–23 And he said, “Please show me your glory.”

19 And he said, “I myself will cause all my goodness to pass over before you, and I will proclaim the name of Yahweh before you, and I will be gracious *to* whom I will be gracious, and I will show compassion *to* whom I will show compassion.” 20 But he said, “You are not able to see my face, because *a* human will not see me and live.” 21 And Yahweh said, “There is a place with me, and you will stand on the rock. 22 And when my glory passes over, I will put you in the rock’s crevice, and I will cover you *with* my hand until I pass over. 23 And I will remove my hand, and you will see my back, but my face will not be visible.”

Psalm 19:1 The heavens *are* telling the glory of God, and the firmament proclaims the work of his hands.

Genesis 3:24 So he drove the man out, and placed cherubim east of the garden of Eden, and a flaming, turning sword to guard the way to the tree of life.

Isaiah 6:2 Seraphs *were* standing above him. Each had six wings: with two he covered his face, and with two he covered his feet, and with two he flew.

Isaiah 6:6 Then one of the seraphs flew to me, and in his hand *was* a hot coal he had taken from the altar with tongs.

Isaiah 14:29 You must not rejoice, all you Philistines, that the rod that struck you is broken, for a viper will come forth from *the* root of *the* snake, and its fruit *will be* a flying serpent.

Isaiah 11:10 And this shall happen on that day: *the* nations shall inquire of the root of Jesse, which shall be standing as a signal to *the* peoples, and his resting place shall be glorious.

Isaiah 11:1 And a shoot will come out from the stump of Jesse, and a branch from its roots will bear fruit.

Hosea 9:16 Ephraim is stricken, their root is dried up,

they shall not bear fruit.

Even if they give birth,

I will kill the cherished offspring of their womb.

Isaiah 14:29 You must not rejoice, all you Philistines, that the rod that struck you is broken, for a viper will come forth from *the* root of *the* snake, and its fruit *will be* a flying serpent.

Isaiah 11:10 And this shall happen on that day: *the* nations shall inquire of the root of Jesse, which shall be standing as a signal to *the* peoples, and his resting place shall be glorious.

Isaiah 11:1 And a shoot will come out from the stump of Jesse, and a branch from its roots will bear fruit.

Hosea 9:16 Ephraim is stricken, their root is dried up,

they shall not bear fruit.

Even if they give birth,

I will kill the cherished offspring of their womb.

Psalm 106:37 They even sacrificed their sons and daughters to the demons,

Isaiah 13:21 But wild animals will lie down there, and their houses will be full *of* howling creatures, and the daughters of ostriches will live there, and goats will dance there.

Isaiah 34:14 And desert creatures shall meet with hyenas, and a goat-demon shall call to his neighbor; surely there Lilith shall repose,

and she shall find a resting place for herself.

Leviticus 17:7 And they may no longer sacrifice their sacrifices to the goat-idols after which they were prostituting. This is a lasting statute for them throughout their generations.” ’

Isaiah 14:4–18 that you will take this taunt against the king of Babylon, and you will say:

“How *the* oppressor has ceased!

his insolence has ceased.

5 Yahweh has broken *the* staff of *the* wicked, *the* scepter of rulers, 6 that struck *the* peoples in wrath, a blow without ceasing, that ruled *the* nations in anger with unrestrained persecution.

7 All of the earth rests *and* is quiet; they break forth *into* singing.

8 Even *the* cypresses rejoice over you, the cedars of Lebanon:

‘Since you were laid down,

no *wood* cutter comes up against us.’

9 Sheol below is getting excited over you, to meet you when you come;

it arouses *the* dead spirits for you, all of *the* leaders of *the* earth.

It raises all of *the* kings of *the* nations from their thrones.

10 All of them will respond and say to you, ‘You yourself also were made weak like us!

You have become the same as us!’

11 Your pride is brought down *to* Sheol, *and* the sound of your harps; maggots are spread out beneath you like a bed, and your covering is worms.

12 How you have fallen from heaven, morning star, son of dawn!

You are cut down to the ground, conqueror of nations!

13 And you yourself said in your heart, ‘I will ascend *to* heaven; I will raise up my throne above the stars of God; and I will sit on *the* mountain of assembly on the summit of Zaphon;

14 I will ascend to *the* high places of *the* clouds, I will make myself like the Most High.’

15 But you are brought down to Sheol, to *the* depths of *the* pit.

16 Those who see you will stare at you, they will look closely at you:

‘*Is* this the man who made the earth tremble, who caused kingdoms to shake,

17 who made *the* world like the desert and destroyed its cities,

who would not let his prisoners go home?’

18 All *the* kings of *the* nations, all of them, lie in glory, each one in his house.

Matthew 16:18 And I also say to you that you are Peter, and on this rock I will build my church, and the gates of Hades will not overpower it!

Isaiah 14:9 Sheol below is getting excited over you, to meet you when you come;

it arouses *the* dead spirits for you, all of *the* leaders of *the* earth.

It raises all of *the* kings of *the* nations from their thrones.

Ezekiel 32:27 And they do not lie with warriors fallen from long ago, who went down *to* Sheol with their weapons of war, and they placed their sword under their heads, and their shields were on their bones, for *the* terror of *the* warriors *was* in *the* land of the living.

Psalm 88:10–12 Do you work wonders for the dead?

Or do *the* departed spirits rise up *to* praise you? *Selah* 11 Is your loyal love told in the grave, *or* your faithfulness in the underworld?

12 Are your wonders known in the darkness, *or* your righteousness in *the* land of forgetfulness?

Psalm 88:11–13 Do you work wonders for the dead?

Or do *the* departed spirits rise up *to* praise you? *Selah* 11 Is your loyal love told in the grave, *or* your faithfulness in the underworld?

12 Are your wonders known in the darkness, *or* your righteousness in *the* land of forgetfulness?

Job 26:1–6 Then Job answered and said, 2 “How you have helped one who has no power!

How you have assisted *the* arm that has no strength!

3 How you have advised one who has no wisdom!

And *what* sound wisdom you have made known in abundance!

4 With whose help have you uttered words, and whose breath has come forth from you?

5 “The spirits of the dead tremble below *the* waters and their inhabitants.

6 Sheol *is* naked before him, and there is no covering for Abaddon.

Genesis 6:1–4 And it happened *that*, when humankind began to multiply on the face of the ground, daughters were born to them. [2] Then the sons of God saw the daughters of humankind, that they *were* beautiful. And they took for themselves wives from all that they chose. [3] And Yahweh said, “My Spirit shall not abide with humankind forever in that he *is* also flesh. And his days *shall be* one hundred and twenty years.” [4] The Nephilim *were* upon the earth in those days, and also afterward, when the sons of God went into the daughters of humankind, and they bore children to them. These *were* the mighty warriors that *were* from ancient times, men of renown.

Isaiah 14:13–14 And you yourself said in your heart, ‘I will ascend *to* heaven; I will raise up my throne above the stars of God; and I will sit on *the* mountain of assembly on the summit of Zaphon;

[14] I will ascend to *the* high places of *the* clouds, I will make myself like the Most High.’

Psalm 147:4 *He* counts *the* number of the stars; he gives names to all of them.

Genesis 1:16 And God made two great lights, the greater light to rule the day and the smaller light to rule the night, and the stars.

Judges 5:20 The stars fought from heaven; from their courses they fought against Sisera.

Isaiah 40:25–26 “And to whom you will compare me, and am I equal?” says *the* holy one.

[26] Lift your eyes up *on* high, and see! Who created these?

The one who brings out their host by number.

He calls all them by name.

Because *he is* great of power and mighty of power, not one is missing.

Daniel 8:10 And it grew up to the host of heaven, and it threw down to the ground some of the host and some of the stars and trampled them.

Revelation 12:1–9 And a great sign appeared in heaven: a woman clothed
with the sun and *with* the moon under her feet, and on her head a crown of
twelve stars, 2 and who was pregnant and was crying out *because she* was
having birth pains, and was in torment to give birth. 3 And another sign
appeared in heaven, and behold, a great fiery red dragon, having seven
heads and ten horns, and on his heads *were* seven royal headbands. 4 And
his tail swept away a third of the stars from heaven and threw them to the
earth. And the dragon stood before the woman who was about to give birth,
in order that whenever she gave birth to her child he could devour *it*. 5 And
she gave birth to a son, a male *child*, who is going to shepherd all the
nations with an iron rod, and her child was snatched away to God and to his
throne. 6 And the woman fled into the wilderness, where she had a place
prepared there by God, so that they could feed her there *for one* thousand
two hundred sixty days.

7 And there was war in heaven; Michael and his angels fought against the
dragon, and the dragon and his angels fought back. 8 And they did not
prevail, nor was a place found for them *any* longer in heaven. 9 And the
great dragon was thrown down, the ancient serpent, who is called the devil
and Satan, who deceives the whole world. He was thrown down to the
earth, and his angels were thrown down with him.

Isaiah 14:29 You must not rejoice, all you Philistines, that the rod that

Hosea 9:16 Ephraim is stricken, their root is dried up,
they shall not bear fruit.
Even if they give birth,

I will kill the cherished offspring of their womb.

2 Chronicles 7:20 then I will uproot them from upon my land that I have given to them, and this house that I have consecrated for my name I will send away from before my face, and I will make it a proverb and a taunt among all the nations.

Isaiah 19:25 whom Yahweh of hosts blessed, saying, “May Egypt my people be blessed, and Assyria, the work of my hands, and my inheritance, Israel.”

Jeremiah 2:7 And I brought you to the land of the orchard, to eat its fruit, and its good things.

But you entered and defiled my land, and my inheritance you made a detestable thing.

Jeremiah 16:18 And I will first doubly repay their iniquity and their sin because of their profaning my land with the dead bodies of their abhorrences, and *with* their abominations they have filled up my inheritance.’ ”

Ezekiel 38:16 and you will advance against my people Israel like a cloud covering the land; it will be in the last days, and I will bring you against my land, so that the nations know me, when I show myself holy through you before their eyes, O Gog!” ’

Joel 1:6 Because a nation has invaded my land, strong and beyond counting.

Its teeth *are* the teeth of a lion, and its fangs *are those* of a lioness.

Joel 3:2 I will gather all the nations, and I will bring them down to the valley of Jehoshaphat, and I will argue a case against them there concerning my people and my inheritance Israel whom they have scattered among the nations, and my land *that* they have divided.

Hebrews 9:5 And above it *were* the cherubim of glory overshadowing the mercy seat, about which it is not now *possible* to speak in detail.

Isaiah 3:5 And the people will be oppressed by each other and a man by his neighbor.

The boy will act arrogantly toward the elder, and the dishonorable
toward the honorable.

Isaiah 23:8 Who has planned this against Tyre, the bestower of crowns, whose merchants *were* princes, her traders *the* honored ones of *the* earth?

Nahum 3:10 Yet she went into captivity as an exile; her children were dashed to pieces at the head of all *the* streets.

They cast lots for her nobles;

all of her dignitaries were bound with chains.

Psalm 149:8 to bind their kings with chains and their nobles with fetters of iron,

2 Peter 2:10a and especially those who go after the flesh in defiling lust and who despise authority.

Bold *and* arrogant, they do not tremble in awe *as they* blaspheme majestic beings,

because *a* human will not see me and live.” 21 And Yahweh said, “There is a
place with me, and you will stand on the rock. 22 And when my glory passes
over, I will put you in the rock’s crevice, and I will cover you *with* my hand
until I pass over. 23 And I will remove my hand, and you will see my back,
but my face will not be visible.”

Psalm 19:1 The heavens *are* telling the glory of God, and the firmament
proclaims the work of his hands.

Daniel 7:20–28 and concerning the horns that *were* on its head, and
concerning the other *horn* that came up and before which three horns fell,
and this horn had eyes and *a* mouth speaking boastfully, and its appearance
was larger than its companions. 21 I continued watching, and this horn made
war with *the* holy ones and it prevailed over them, 22 until the Ancient of
Days came and gave judgment to *the* holy ones of *the* Most High; and the
time arrived and *the* holy ones took possession of the kingdom.

23 “And he said, ‘The fourth beast *is* the fourth kingdom *that* will be on
the earth that will be different from all the *other* kingdoms, and it will
devour the whole earth and it will trample it and it will crush it. 24 And *as*
for the ten horns *coming* from it, *from* this kingdom ten kings will arise, and
another will arise after them. And he will be different from the earlier *ones*,
and he will subdue three kings. 25 And he will speak words against the Most
High, and he will wear out *the* holy ones of the Most High, and he will
attempt to change times and law, and they will be given into his hand for a
time and two times and half a time. 26 Then the court will sit, and his
dominion will be removed, to be eradicated and to be destroyed totally. 27
And the kingdom and the dominion and the greatness of the kingdoms
under the whole heaven will be given to *the* nation of *the* holy ones of the
Most High; his kingdom is an everlasting kingdom, and all the dominions
will serve and obey him.’

28 This is the end of the account. As for me, Daniel—my thoughts terrified me greatly and my face changed over me, but I kept the matter in my heart.”

Zechariah 14:1–5 Look! A day *is* coming for Yahweh, when your plunder will be divided in your midst. 2 I will gather all the nations against Jerusalem to battle, and the city will be captured, and they will loot the houses, and the women will be raped; half of the city will go into exile, but the remainder of the people will not be cut off from the city. 3 Then Yahweh will go forth and fight against those nations, like when he fights on a day of battle. 4 On that day his feet will stand on the Mount of Olives, which faces Jerusalem on *the* east; and the Mount of Olives will be split in half, from east to west, *by* a very great valley; and half of the mountain will withdraw toward the north, and the other half toward the south. 5 And you will flee *by* the valley of my mountains, because the valley of *the* mountains will reach to Azal, and you will flee like you fled from the earthquake in the days of King Uzziah of Judah. And Yahweh my God will come, *and* all *the* holy ones with him.

Isaiah 24:21–23 And this shall happen on that day: Yahweh will punish the host of heaven in heaven, and the kings of the earth on the earth.

22 And they will be gathered *in* a gathering, *like* a prisoner in a pit.
And they will be shut in a prison and be punished after many days.

23 And the full moon will be ashamed and the sun will be ashamed,
for Yahweh of hosts will rule on Mount Zion and in Jerusalem, and before his elders *in* glory.

[20] And Leah said, “God has endowed me with a good gift. This time my husband will acknowledge me, because I bore him six sons.” And she called his name Zebulun. [21] And afterward she gave birth to a daughter. And she called her name Dinah. [22] Then God remembered Rachel and listened to her, and God opened her

womb. [23] And she conceived and gave birth to a son. And she said, “God has taken away my disgrace.” [24] And she called his name Joseph, saying, “Yahweh has added to me another son.”

1 Samuel 1:19–20 Then they rose early in the morning and worshiped before Yahweh and returned to their house at Ramah. Then Elkanah had sexual relations with Hannah his wife, and Yahweh remembered her. [20] In due time, Hannah conceived and gave birth to a son. She called his name Samuel, for *she said*, “I requested him from Yahweh.”

Psalm 17:14 from men by your hand, O Yahweh, from men of *this* world.

Their share *is* in this life, and you fill their stomach *with* your treasure.

They are satisfied *with* children.

They bequeath their excess to their children.

Psalm 127:3 Look, children *are* the heritage of Yahweh; the fruit of the womb *is* a reward.

Isaiah 44:2 Thus says Yahweh, who made you, and who formed you in *the* womb and will help you: you must not fear, my servant Jacob, and Jeshurun whom I have chosen.

Isaiah 44:24 Thus says Yahweh, your redeemer, and he who formed you in *the* womb: “I *am* Yahweh, who made everything, who stretched out *the* heavens alone, who spread out the earth—who *was* with me?—

Genesis 4:1 Now Adam knew Eve his wife, and she conceived and bore Cain. And she said, “I have given birth to a man with *the help of* Yahweh.”

Psalm 2:2 *The* kings of *the* earth establish themselves, and the rulers conspire together

against Yahweh and his anointed:

Daniel 9:25–26 And you must know and you must understand *that* from *the* time of the going out of *the* word to restore and build Jerusalem until *an* anointed *one—a* leader—*will be* seven weeks and sixty-two weeks; it will be restored and will be built *with* streets and *a* moat, but in a time of oppression.

[26] “And after the sixty and two weeks an anointed one shall be cut off, and he shall have nothing, and *the* people of the coming leader will destroy the city and the sanctuary, and its end *will be* with the flood and *on* to *the* end *there shall be* war; *these* desolations are determined.

Isaiah 45:1 Thus says Yahweh to his anointed one, to Cyrus, whose right hand I have grasped to subjugate nations before him,

and I uncover *the* loins of kings to open doors before him,

and *the* gates shall not be shut:

Jeremiah 23:3 “Then I myself will gather together the remnant of my flock from all the lands where I have driven them, and I will bring them back to their grazing place, and they will be fruitful, and they will become numerous.

Jeremiah 29:14 And I will let myself be found by you,’ declares Yahweh, ‘and I will restore your fortunes, and I will gather you from all the nations and from all the places to which I have driven you,’ declares Yahweh, ‘and I will bring you back to the place from which I deported you.’

Ezekiel 36:22–36 “Therefore thus say to the house of Israel, ‘Thus says the Lord Yahweh: “Not for your sake *am* I about to act, house of Israel, but for my holy name, which you defiled among the nations to which you went. [23] And I will consecrate my great name, which *was* profaned among the nations *and* which you have profaned in the midst of them, and the nations will know that I *am* Yahweh!” *’ a* declaration of the Lord Yahweh, when I show myself holy before their eyes.

[24] “ ‘And I will take you from the nations, and I will gather you from all of the lands, and I will bring you to your land. [25] And I will sprinkle on you pure water, and you will be clean from all of your uncleanness, and I will cleanse you from all of your idols. [26] And I will give a new heart to you, and a new spirit I will give into your inner parts, and I will remove the heart of stone from your flesh, and I will give to you a heart of flesh. [27] And I will give my spirit into your inner parts, and I will make *it so* that you will go in my rules, and my regulations you will remember, and you will do *them*. [28] And you will dwell in the land that I gave to your ancestors, and you will be

to me *as* a people, and I will be to you as God. [29] And I will save you from all of your uncleanness, and I will call to the grain, and I will cause it to increase, and I will not bring famine upon you. [30] And I will cause the fruit of the tree and the crop of the field to increase, so that you will not suffer again *the* disgrace of famine among the nations. [31] And you will remember your evil ways and your deeds that *were* not good, and you will loathe yourself over your iniquities and over your detestable things. [32] *But* not for your sake *am* I acting," declares the Lord Yahweh. "Let it be known to you, be ashamed, and be put to shame because of your ways, house of Israel.

[33] "Thus says the Lord Yahweh: 'On the day when I cleanse you from all of your iniquities, I will cause the cities to be inhabited, and the ruins will be rebuilt. [34] And the land that was desolate will be cultivated in the very place that it was desolate before *the* eyes of all of *the persons* crossing over. [35] And they will say, "This desolate land has become like the garden of Eden, and the wasted and desolate and destroyed cities, *now* being refortified, are inhabited." [36] And the nations who are left all around, you will know that I, Yahweh, I built that which was destroyed; I planted the desolate *land*; I, Yahweh, I have spoken, and I will act.'

Isaiah 49:6 And he says, "It is trivial for you to be a servant for me, to raise up the tribes of Jacob

and to bring back the preserved of Israel.

I will give you as a light *to the* nations, to be my salvation to the end of the earth."

Ezekiel 37:19 *Then* speak to them, 'Thus says the Lord Yahweh: "Look! I *am* taking *the piece of* wood for Joseph that *is* in the hand of Ephraim and the tribes of Israel its associates, and I will put them on it, *the piece of* wood of Judah, and I will make them into one *piece of* wood, so that they be one in my hand.' "

Ezekiel 47:13 Thus says the Lord Yahweh: "This *is* the boundary *by* which you shall distribute the land for the twelve tribes of Israel: Two shares *shall be for* Joseph.

Ezekiel 47:21–22 You shall divide this land for yourselves according to the tribes of Israel. 22 And then you shall allocate it as an inheritance for yourselves and for the aliens dwelling as aliens in the midst of you who have children in the midst of you, and *so* they shall be to you *just* like full citizens among the Israelites. With you they shall be allotted with an inheritance in the midst of the tribes of Israel.

Ezekiel 48:1–15 And these *are* the names of the tribes: *At* the end of the north, along the way to Hethlon from Lebo-hamath *to* Hazar Enan *on* the boundary of Damascus beside Hamath northward, *there* will be one *portion* for Dan from the eastern border to the west. 2 And next to the territory of Dan, from the eastern border up to the western border, one *portion for* Asher. 3 And next to the territory of Asher, from the eastern border and up to the western border, one *portion for* Naphtali. 4 And next to the territory of Naphtali, from the eastern border up to the western border, one *portion for* Manasseh. 5 And next to the territory of Manasseh, from the eastern border up to the western border, one *portion for* Ephraim. 6 And next to the territory of Ephraim, from the eastern border and up to the western border, one *portion for* Reuben. 7 And next to the territory of Reuben, from the eastern border up to the western border, one *portion for* Judah.

8 And next to the territory of Judah, from the eastern border up to the western border, shall be *located* the contribution that you set apart, twenty-five thousand *cubits in* width, and its length *just* like one of the portions from the eastern border up to the western border, and the sanctuary shall be in the midst of it. 9 The contribution that you shall set apart for Yahweh, its length *shall be* twenty-five thousand *cubits,* and its width ten thousand *cubits*. 10 And to these shall be the holy district: to the priests northwards twenty-five thousand *cubits,* and westwards *its* width ten thousand *cubits,* and eastwards *its* width ten thousand *cubits,* and southwards its length twenty-five thousand *cubits,* and the sanctuary of Yahweh shall be in the midst of it. 11 To the priests, the *ones* being consecrated from the descendants of Zadok, who took care of my service *and* who did not go astray when the Israelites went astray, just as the Levites went astray. 12 And it will be for them a special gift from the contribution of the land as a most

holy object next to the territory of the Levites. [13] And the Levites alongside the territory of the priests *shall have* twenty-five thousand *cubits in* length and in width ten thousand *cubits*, its full length, twenty-five thousand *cubits* and its *full width*, ten thousand *cubits*. [14] And they shall not sell *any part* from it, and shall not exchange, and shall not transfer the best of the land, for *it is* holy to Yahweh.

[15] And the remaining part of five thousand *cubits* in the width by twenty-five thousand *cubits*, *is* unholy; it is for the city as dwelling and as pastureland; and the city will be *located* in the middle of it.

Ezekiel 28:12–19 “Son of man, raise a lament over the king of Tyre, and you must say to him, ‘thus says the Lord Yahweh: “You were a perfect model of an example, full of wisdom and perfect of beauty.

[13] You were in Eden, the garden of God, and every precious stone *was*
your adornment: carnelian, topaz and moonstone,
turquoise, onyx and jasper,
sapphire, malachite and emerald.
And gold *was* the craftsmanship of your settings and your
mountings in you;
on the day when you were created they were prepared.

[14] You were *an* anointed guardian cherub, and I placed you on God’s
holy mountain; you walked in the midst of stones of fire.

[15] You *were* blameless in your ways from the day when you were
created,
until wickedness was found in you.

[16] In the abundance of your trading, they filled the midst of you *with*
violence, and you sinned; and I cast you as a profane thing from
the mountain of God, and I expelled you, *the* guardian cherub,
from the midst of *the* stones of fire.

[17] Your heart was proud because of your beauty; you ruined your
wisdom because of your splendor.
I threw you on the ground before kings; I have exposed you for viewing.

18 From the abundance of your iniquities in the dishonesty of your
trading,

I profaned your sanctuaries
and I brought fire from your midst;
it consumed you, and I have turned you to ashes on the earth before the eyes of everyone who sees you.
19 All who know you among the peoples are appalled over you;
you have become *as* horrors, and you shall cease to exist forever.” ’ ”

Ezekiel 28:13 You were in Eden, the garden of God, and every precious stone *was* your adornment: carnelian, topaz and moonstone,

turquoise, onyx and jasper,

sapphire, malachite and emerald.

And gold *was* the craftsmanship of your settings and your mountings in you;

on the day when you were created they were prepared.

Ezekiel 10:9 And I saw, and look, four wheels beside the cherubim, one wheel beside each cherub, and the appearance of the wheels *was* like *the* outward appearance of turquoise stone.

Isaiah 54:11 "O afflicted *one*, driven away, *who* is not consoled.

Look! I *am* about to set your stones in hard mortar, and I will lay your foundation with sapphires.

Ezekiel 28:13 You were in Eden, the garden of God, and every precious stone *was* your adornment: carnelian, topaz and moonstone,

turquoise, onyx and jasper,

And gold *was* the craftsmanship of your settings and your mountings in you;

on the day when you were created they were prepared.

Exodus 28:20 and the fourth row *is* a turquoise and an onyx and a jasper. Their settings will be woven *with* gold.

Revelation 21:19 The foundations of the wall of the city are adorned with every kind of precious stone: the first foundation jasper, the second sapphire, the third chalcedony, the fourth emerald,

Exodus 28:17 And you will fill it *with* stone mounting, four rows *of* stone, a row of carnelian, topaz, and emerald *is* the first row;

Isaiah 63:7–11 I will mention the loyal love of Yahweh, the praises of Yahweh, according to all that Yahweh has done for us, and *the* greatness of

goodness to the house of Israel that he has done to them according to his mercy and the abundance of his loyal love.

8 And he said, “Surely my people *are* children; they will not break faith.”
And he became a Savior to them.

9 In all their distress, there was no distress, and the messenger of his
presence saved them, in his love and compassion he himself
redeemed them, and he lifted them up,

and he supported them all *the* days of old.

10 But they were the ones who rebelled, and they grieved his Holy
Spirit,

so he became an enemy to them;

he himself fought against them.

11 Then his people remembered the days of old, *of* Moses.

Where *is* the one who led up them from *the* sea with the shepherds
of his flock?

Where *is* the one who puts his Holy Spirit inside him,

Isaiah 63:7 I will mention the loyal love of Yahweh, the praises of Yahweh, according to all that Yahweh has done for us, and *the* greatness of goodness to the house of Israel that he has done to them according to his mercy and the abundance of his loyal love.

33 "Thus says the Lord Yahweh: 'On the day when I cleanse you from all of your iniquities, I will cause the cities to be inhabited, and the ruins will be rebuilt. 34 And the land that was desolate will be cultivated in the very place that it was desolate before *the* eyes of all of *the persons* crossing over. 35 And they will say, "This desolate land has become like the garden of Eden, and the wasted and desolate and destroyed cities, *now* being refortified, are inhabited." 36 And the nations who are left all around, you will know that I, Yahweh, I built that which was destroyed; I planted the desolate *land*; I, Yahweh, I have spoken, and I will act.'

Isaiah 49:6 And he says, “It is trivial for you to be a servant for me, to raise up the tribes of Jacob

and to bring back the preserved of Israel.

I will give you as a light *to the* nations, to be my salvation to the end of the earth.”

Ezekiel 37:19 *Then* speak to them, ‘Thus says the Lord Yahweh: “Look! I *am* taking *the piece of* wood for Joseph that *is* in the hand of Ephraim and the tribes of Israel its associates, and I will put them on it, *the piece of* wood of Judah, and I will make them into one *piece of* wood, so that they be one in my hand.’ ”

Ezekiel 47:13 Thus says the Lord Yahweh: “This *is* the boundary *by* which you shall distribute the land for the twelve tribes of Israel: Two shares *shall be for* Joseph.

Ezekiel 47:21–22 You shall divide this land for yourselves according to the tribes of Israel. 22 And then you shall allocate it as an inheritance for yourselves and for the aliens dwelling as aliens in the midst of you who have children in the midst of you, and *so* they shall be to you *just* like full citizens among the Israelites. With you they shall be allotted with an inheritance in the midst of the tribes of Israel.

Ezekiel 48:1–15 And these *are* the names of the tribes: *At* the end of the north, along the way to Hethlon from Lebo-hamath *to* Hazar Enan *on* the boundary of Damascus beside Hamath northward, *there* will be one *portion* for Dan from the eastern border to the west. 2 And next to the territory of Dan, from the eastern border up to the western border, one *portion for* Asher. 3 And next to the territory of Asher, from the eastern border and up to the western border, one *portion for* Naphtali. 4 And next to the territory of Naphtali, from the eastern border up to the western border, one *portion for* Manasseh. 5 And next to the territory of Manasseh, from the eastern border up to the western border, one *portion for* Ephraim. 6 And next to the territory of Ephraim, from the eastern border and up to the western border, one *portion for* Reuben. 7 And next to the territory of Reuben, from the eastern border up to the western border, one *portion for* Judah.

[8] And next to the territory of Judah, from the eastern border up to the western border, shall be *located* the contribution that you set apart, twenty-five thousand *cubits in* width, and its length *just* like one of the portions from the eastern border up to the western border, and the sanctuary shall be in the midst of it. [9] The contribution that you shall set apart for Yahweh, its length *shall be* twenty-five thousand *cubits*, and its width ten thousand *cubits*. [10] And to these shall be the holy district: to the priests northwards twenty-five thousand *cubits*, and westwards *its* width ten thousand *cubits*, and eastwards *its* width ten thousand *cubits*, and southwards its length twenty-five thousand *cubits*, and the sanctuary of Yahweh shall be in the midst of it. [11] To the priests, the *ones* being consecrated from the descendants of Zadok, who took care of my service *and* who did not go astray when the Israelites went astray, just as the Levites went astray. [12] And it will be for them a special gift from the contribution of the land as a most holy object next to the territory of the Levites. [13] And the Levites alongside the territory of the priests *shall have* twenty-five thousand *cubits in* length and in width ten thousand *cubits*, its full length, twenty-five thousand *cubits* and its *full width*, ten thousand *cubits*. [14] And they shall not sell *any part* from it, and shall not exchange, and shall not transfer the best of the land, for *it is* holy to Yahweh.

[15] And the remaining part of five thousand *cubits* in the width by twenty-five thousand *cubits*, *is* unholy; it is for the city as dwelling and as pastureland; and the city will be *located* in the middle of it.

1 Chronicles 3:19 And the sons of Pedaiah: Zerubbabel and Shimei. And the sons of Zerubbabel: Meshullam and Hananiah, and Shelomith their sister,

Deuteronomy 25:5f “When brothers dwell together and one of them dies and has no son, the wife of the deceased shall not become the wife of a man of another family; her brother-in-law shall have sex with her, and he shall take her to himself as *a* wife, and he shall perform his duty as *a* brother-in-law *with respect to* her. [6] And then the firstborn that she bears shall represent his dead brother, so that his name is not blotted out from Israel.

Ruth 4:10 And also Ruth the Moabite, the wife of Mahlon, I have acquired as a wife, to raise up the name of the dead over his inheritance, so that the

name of the dead may not be cut off from his relatives and from the gate of his *birth* place. You *are* witnesses today."

Zechariah 4:6–9 And he answered and said to me, "This *is* the word of Yahweh to Zerubbabel, saying, 'Not by strength and not by power, but *only* by my Spirit,' says Yahweh of hosts. [7] 'Who *are* you O great mountain? Before Zerubbabel *you will become* level ground, and he will bring out the top stone amid the shouts of "Grace, grace to it!" ' " [8] And the word of Yahweh came to me, saying, [9] "The hands of Zerubbabel have founded this house, and his hands will finish it. And you will know that Yahweh of hosts has sent me to you.

Zechariah 3:1–10 And he showed me Joshua the high priest standing before the angel of Yahweh; and Satan was standing on his right to accuse him. [2] But Yahweh said to Satan, "Yahweh rebukes you, O Satan! Yahweh who has chosen Jerusalem rebukes you! *Is* this not a stick snatched from the fire?" [3] And Joshua was clothed *in* filthy garments and was standing before the angel. [4] And he answered and said to the ones standing before him, saying, "Remove the filthy garments from him." And he said to him, "See, I have taken away your guilt from you, and will clothe you *with* rich garments." [5] And I said, "Let them put a clean headband on his head." And they put a clean headband on his head, and they clothed him *with* garments. And the angel of Yahweh *was* standing *by*.

[6] And the angel of Yahweh assured Joshua, saying, [7] "Thus says Yahweh of hosts: 'If you will walk in my ways, and if you will keep my requirements, then you will judge my house, and you will also guard my courtyards, and I will give to you passageways among these that are standing here. [8] Listen, please, O Joshua the high priest, you and your companions that are sitting before you. For *the* men *are* a sign that, look, I *am* going to bring my servant *the* Branch. [9] For consider, the stone that I set before Joshua, on one stone *are* seven eyes. Look, I am going to engrave an inscription on it,' declares Yahweh of hosts, 'and I will remove the guilt of that land in a single day. [10] On that day,' declares Yahweh of hosts, 'you will invite one another under *the* vine and under *the* fig tree.' "

Zechariah 6:9–15 And the word of Yahweh came to me, saying, [10] “Collect from the exiles—from Heldai, Tobijah, and from Jedaiah, *all of* whom came from Babylon—and go on that day, go *to the* house of Josiah son of Zephaniah. [11] Take *the* silver and gold and make a crown, and set *it* on the head of Joshua son of Jehozadak, the high priest. [12] And say to him, ‘Thus says Yahweh of hosts: “Look, *here is* a man whose name *is* Branch, and from his place he will sprout, and he will build the temple of Yahweh. [13] And he will build the temple of Yahweh, and he will bear majesty and will sit and rule on his throne. And he shall be a priest on his throne, and the counsel of peace will be between the two of them.” ’ [14] And the crown will be for Helem, for Tobijah, for Jedaiah, and for Hen son of Zephaniah, as a memorial in the temple of Yahweh. [15] And those who are far off will come and build the temple of Yahweh, and you will know that Yahweh of hosts has sent me to you. And it will happen if you will listen diligently to the voice of Yahweh your God.”

Genesis 46:1–4 So Israel journeyed with all that he had, and he came to Beersheba and offered sacrifices to the God of his father, Isaac. [2] And God spoke to Israel in visions of the night and said, “Jacob, Jacob.” And he said, “Here I *am*.” [3] Then he said, “I *am* God, the God of your father. Do not be afraid to go down to Egypt, for I will make you a great nation there. [4] I myself will go down with you to Egypt, and I myself will also bring you up. And Joseph will place his hand over your eyes.”

Jeremiah 31:31–33 Look, *the* days *are* coming,” declares Yahweh, “and I will make a new covenant with the house of Israel and with the house of Judah, [32] not like the covenant that I made with their ancestors on the day of my grasping *them* by their hand, bringing them out from the land of Egypt, my covenant that they themselves broke, though I myself was a master over them,” declares Yahweh. [33] “But this *is* the covenant that I will make with the house of Israel after those days,” declares Yahweh: “I will put my law in their inward parts and on their hearts I will write it, and I will be to them God, and they themselves will be to me people.

16 In the abundance of your trading, they filled the midst of you *with* violence, and you sinned; and I cast you as a profane thing from the mountain of God, and I expelled you, *the* guardian cherub, from the midst of *the* stones of fire.

17 Your heart was proud because of your beauty; you ruined your wisdom because of your splendor.

I threw you on the ground before kings;

I have exposed you for viewing.

18 From the abundance of your iniquities in the dishonesty of your trading,

I profaned your sanctuaries
and I brought fire from your midst;
it consumed you, and I have turned you to ashes on the earth before the eyes of everyone who sees you.
19 All who know you among the peoples are appalled over you;
you have become *as* horrors,

[5] And next to the territory of Manasseh, from the eastern border up to the western border, one *portion for* Ephraim. [6] And next to the territory of Ephraim, from the eastern border and up to the western border, one *portion for* Reuben. [7] And next to the territory of Reuben, from the eastern border up to the western border, one *portion for* Judah.

[8] And next to the territory of Judah, from the eastern border up to the western border, shall be *located* the contribution that you set apart, twenty-five thousand *cubits in* width, and its length *just* like one of the portions from the eastern border up to the western border, and the sanctuary shall be in the midst of it. [9] The contribution that you shall set apart for Yahweh, its length *shall be* twenty-five thousand *cubits*, and its width ten thousand *cubits*. [10] And to these shall be the holy district: to the priests northwards twenty-five thousand *cubits*, and westwards *its* width ten thousand *cubits*, and eastwards *its* width ten thousand *cubits*, and southwards its length twenty-five thousand *cubits*, and the sanctuary of Yahweh shall be in the midst of it. [11] To the priests, the *ones* being consecrated from the descendants of Zadok, who took care of my service *and* who did not go astray when the Israelites went astray, just as the Levites went astray. [12] And it will be for them a special gift from the contribution of the land as a most holy object next to the territory of the Levites. [13] And the Levites alongside the territory of the priests *shall have* twenty-five thousand *cubits in* length and in width ten thousand *cubits*, its full length, twenty-five thousand *cubits* and its *full width*, ten thousand *cubits*. [14] And they shall not sell *any part* from it, and shall not exchange, and shall not transfer the best of the land, for *it is* holy to Yahweh.

[15] And the remaining part of five thousand *cubits* in the width by twenty-five thousand *cubits*, *is* unholy; it is for the city as dwelling and as pastureland; and the city will be *located* in the middle of it.

With you they shall be allotted with an inheritance in the midst of the tribes of Israel.

Ezekiel 48:1–15 And these *are* the names of the tribes: *At* the end of the north, along the way to Hethlon from Lebo-hamath *to* Hazar Enan *on* the boundary of Damascus beside Hamath northward, *there* will be one *portion*

for Dan from the eastern border to the west. [2] And next to the territory of Dan, from the eastern border up to the western border, one *portion for* Asher. [3] And next to the territory of Asher, from the eastern border and up to the western border, one *portion for* Naphtali. [4] And next to the territory of Naphtali, from the eastern border up to the western border, one *portion for* Manasseh. [5] And next to the territory of Manasseh, from the eastern border up to the western border, one *portion for* Ephraim. [6] And next to the territory of Ephraim, from the eastern border and up to the western border, one *portion for* Reuben. [7] And next to the territory of Reuben, from the eastern border up to the western border, one *portion for* Judah.

[8] And next to the territory of Judah, from the eastern border up to the western border, shall be *located* the contribution that you set apart, twenty-five thousand *cubits in* width, and its length *just* like one of the portions from the eastern border up to the western border, and the sanctuary shall be in the midst of it. [9] The contribution that you shall set apart for Yahweh, its length *shall be* twenty-five thousand *cubits*, and its width ten thousand *cubits*. [10] And to these shall be the holy district: to the priests northwards twenty-five thousand *cubits*, and westwards *its* width ten thousand *cubits*, and eastwards *its* width ten thousand *cubits*, and southwards its length twenty-five thousand *cubits*, and the sanctuary of Yahweh shall be in the midst of it. [11] To the priests, the *ones* being consecrated from the descendants of Zadok, who took care of my service *and* who did not go astray when the Israelites went astray, just as the Levites went astray. [12] And it will be for them a special gift from the contribution of the land as a most holy object next to the territory of the Levites. [13] And the Levites alongside the territory of the priests *shall have* twenty-five thousand *cubits in* length and in width ten thousand *cubits*, its full length, twenty-five thousand *cubits* and its *full width*, ten thousand *cubits*. [14] And they shall not sell *any part* from it, and shall not exchange, and shall not transfer the best of the land, for *it is* holy to Yahweh.

[15] And the remaining part of five thousand *cubits* in the width by twenty-five thousand *cubits*, *is* unholy; it is for the city as dwelling and as pastureland; and the city will be *located* in the middle of it.

2 Chronicles 7:20 then I will uproot them from upon my land that I have given to them, and this house that I have consecrated for my name I will send away from before my face, and I will make it a proverb and a taunt among all the nations.

Isaiah 19:25 whom Yahweh of hosts blessed, saying, “May Egypt my people be blessed, and Assyria, the work of my hands, and my inheritance, Israel.”

Jeremiah 2:7 And I brought you to the land of the orchard, to eat its fruit, and its good things.

But you entered and defiled my land, and my inheritance you made a detestable thing.

Jeremiah 16:18 And I will first doubly repay their iniquity and their sin because of their profaning my land with the dead bodies of their abhorrences, and *with* their abominations they have filled up my inheritance.’ ”

Ezekiel 38:16 and you will advance against my people Israel like a cloud covering the land; it will be in the last days, and I will bring you against my land, so that the nations know me, when I show myself holy through you before their eyes, O Gog!” ’

Joel 1:6 Because a nation has invaded my land, strong and beyond counting.

Its teeth *are* the teeth of a lion, and its fangs *are those* of a lioness.

Joel 3:2 I will gather all the nations, and I will bring them down to the valley of Jehoshaphat, and I will argue a case against them there concerning my people and my inheritance Israel whom they have scattered among the nations, and my land *that* they have divided.

Jeremiah 23:3 “Then I myself will gather together the remnant of my flock from all the lands where I have driven them, and I will bring them back to their grazing place, and they will be fruitful, and they will become numerous.

Jeremiah 29:14 And I will let myself be found by you,’ declares Yahweh, ‘and I will restore your fortunes, and I will gather you from all the nations and from all the places to which I have driven you,’ declares Yahweh, ‘and I will bring you back to the place from which I deported you.’

Ezekiel 36:22–36 “Therefore thus say to the house of Israel, ‘Thus says the Lord Yahweh: “Not for your sake *am* I about to act, house of Israel, but for my holy name, which you defiled among the nations to which you went. 23 And I will consecrate my great name, which *was* profaned among the nations *and* which you have profaned in the midst of them, and the nations will know that I *am* Yahweh!” ’ *a* declaration of the Lord Yahweh, when I show myself holy before their eyes.

24 “ ‘And I will take you from the nations, and I will gather you from all of the lands, and I will bring you to your land. 25 And I will sprinkle on you pure water, and you will be clean from all of your uncleanness, and I will cleanse you from all of your idols. 26 And I will give a new heart to you, and a new spirit I will give into your inner parts, and I will remove the heart of stone from your flesh, and I will give to you a heart of flesh. 27 And I will give my spirit into your inner parts, and I will make *it so* that you will go in my rules, and my regulations you will remember, and you will do *them*. 28 And you will dwell in the land that I gave to your ancestors, and you will be to me *as* a people, and I will be to you as God. 29 And I will save you from all of your uncleanness, and I will call to the grain, and I will cause it to increase, and I will not bring famine upon you. 30 And I will cause the fruit of the tree and the crop of the field to increase, so that you will not suffer again *the* disgrace of famine among the nations. 31 And you will remember your evil ways and your deeds that *were* not good, and you will loathe yourself over your iniquities and over your detestable things. 32 *But* not for your sake *am* I acting,” declares the Lord Yahweh. “Let it be known to you, be ashamed, and be put to shame because of your ways, house of Israel.

33 “Thus says the Lord Yahweh: ‘On the day when I cleanse you from all of your iniquities, I will cause the cities to be inhabited, and the ruins will be rebuilt. 34 And the land that was desolate will be cultivated in the very place that it was desolate before *the* eyes of all of *the persons* crossing

over. 35 And they will say, “This desolate land has become like the garden of Eden, and the wasted and desolate and destroyed cities, *now* being refortified, are inhabited.” 36 And the nations who are left all around, you will know that I, Yahweh, I built that which was destroyed; I planted the desolate *land*; I, Yahweh, I have spoken, and I will act.’

Isaiah 49:6 And he says, “It is trivial for you to be a servant for me, to raise up the tribes of Jacob

and to bring back the preserved of Israel.

I will give you as a light *to the* nations, to be my salvation to the end of the earth.”

Ezekiel 37:19 *Then* speak to them, ‘Thus says the Lord Yahweh: “Look! Daniel 7:13 “I continued watching in the visions of the night, and look, with the clouds of heaven *one* like a son of man was coming, and he came to the Ancient of Days, and was presented before him.

Daniel 7:22 until the Ancient of Days came and gave judgment to *the* holy ones of *the* Most High; and the time arrived and *the* holy ones took possession of the kingdom.

Daniel 7:20–28 and concerning the horns that *were* on its head, and *concerning the* other *horn* that came up and before which three horns fell, and this horn had eyes and *a* mouth speaking boastfully, and its appearance *was* larger than its companions. [21] I continued watching, and this horn made war with *the* holy ones and it prevailed over them, [22] until the Ancient of

Days came and gave judgment to *the* holy ones of *the* Most High; and the time arrived and *the* holy ones took possession of the kingdom.

23 “And he said, ‘The fourth beast *is* the fourth kingdom *that* will be on the earth that will be different from all the *other* kingdoms, and it will devour the whole earth and it will trample it and it will crush it. 24 And *as for* the ten horns *coming* from it, *from* this kingdom ten kings will arise, and another will arise after them. And he will be different from the earlier *ones*, and he will subdue three kings. 25 And he will speak words against the Most High, and he will wear out *the* holy ones of the Most High, and he will attempt to change times and law, and they will be given into his hand for a time and two times and half a time. 26 Then the court will sit, and his dominion will be removed, to be eradicated and to be destroyed totally. 27 And the kingdom and the dominion and the greatness of the kingdoms under the whole heaven will be given to *the* nation of *the* holy ones of the Most High; his kingdom is an everlasting kingdom, and all the dominions will serve and obey him.’

28 This is the end of the account. As for me, Daniel—my thoughts terrified me greatly and my face changed over me, but I kept the matter in my heart.”

Zechariah 14:1–5 Look! A day *is* coming for Yahweh, when your plunder will be divided in your midst. 2 I will gather all the nations against Jerusalem to battle, and the city will be captured, and they will loot the houses, and the women will be raped; half of the city will go into exile, but the remainder of the people will not be cut off from the city. 3 Then Yahweh will go forth and fight against those nations, like when he fights on a day of battle. 4 On that day his feet will stand on the Mount of Olives, which faces Jerusalem on *the* east; and the Mount of Olives will be split in half, from east to west, *by* a very great valley; and half of the mountain will withdraw toward the north, and the other half toward the south. 5 And you will flee *by* the valley of my mountains, because the valley of *the* mountains will reach to Azal, and you will flee like you fled from the earthquake in the days of King Uzziah of Judah. And Yahweh my God will come, *and* all *the* holy ones with him.

Isaiah 24:21–23 And this shall happen on that day: Yahweh will punish the host of heaven in heaven, and the kings of the earth on the earth.

[22] And they will be gathered *in* a gathering, *like* a prisoner in a pit.

And they will be shut in a prison and be punished after many days.

[23] And the full moon will be ashamed and the sun will be ashamed,

for Yahweh of hosts will rule on Mount Zion and in Jerusalem, and before his elders *in* glory.

Daniel 7:27 And the kingdom and the dominion and the greatness of the kingdoms under the whole heaven will be given to *the* nation of *the* holy ones of the Most High; his kingdom is an everlasting kingdom, and all the dominions will serve and obey him.'

Isaiah 14:13–14 And you yourself said in your heart, 'I will ascend *to* heaven; I will raise up my throne above the stars of God; and I will sit on *the* mountain of assembly on the summit of Zaphon;

Revelation 12:1–9 And a great sign appeared in heaven: a woman clothed with the sun and *with* the moon under her feet, and on her head a crown of twelve stars, 2 and who was pregnant and was crying out *because she* was having birth pains, and was in torment to give birth. 3 And another sign appeared in heaven, and behold, a great fiery red dragon, having seven heads and ten horns, and on his heads *were* seven royal headbands. 4 And his tail swept away a third of the stars from heaven and threw them to the earth. And the dragon stood before the woman who was about to give birth, in order that whenever she gave birth to her child he could devour *it*. 5 And she gave birth to a son, a male *child*, who is going to shepherd all the nations with an iron rod, and her child was snatched away to God and to his throne. 6 And the woman fled into the wilderness, where she had a place prepared there by God, so that they could feed her there *for one* thousand two hundred sixty days.

7 And there was war in heaven; Michael and his angels fought against the dragon, and the dragon and his angels fought back. 8 And they did not prevail, nor was a place found for them *any* longer in heaven. 9 And the great dragon was thrown down, the ancient serpent, who is called the devil and Satan, who deceives the whole world. He was thrown down to the earth, and his angels were thrown down with him.

Daniel 10:13 But *the* prince of *the* kingdom of Persia stood before me *for* twenty-one days. And look, Michael, one of the chief princes, came to assist me, and I left *him* there beside *the* king of *the* Persians.

Daniel 10:20–21 Then he asked, “Do you know why I have come to you? And now I return to fight against the prince of Persia and I *myself am* going, and look, *the* prince of Javan will come. [21] However, I will tell you what is inscribed in *the* book of truth, and there is not one *who* contends with me against these *beings* except Michael, your prince.”

Daniel 12:1 “Now at that time, Michael, the great prince, will arise, the protector over the sons of your people, and it will be a time of distress that has not been since *your people* have been a nation until that time. And at that time your people will escape, everyone who is found written in the scroll.

2 Esdras 5:1–13 Nevertheless as concerning the tokens, behold, the days shall come, that they which dwell upon earth shall be taken in a great number, and the way of truth shall be hidden, and the land shall be barren of faith. [2] But iniquity shall be increased above that which now thou seest, or that thou hast heard long ago. [3] And the land, that thou seest now to have root, shalt thou see wasted suddenly. [4] But if the most High grant thee to live, thou shalt see after the third trumpet that the sun shall suddenly shine again in the night, and the moon thrice in the day: [5] And blood shall drop out of wood, and the stone shall give his voice, and the people shall be troubled: [6] And even he shall rule, whom they look not for that dwell upon the earth, and the fowls shall take their flight away together: [7] And the Sodomitish sea shall cast out fish, and make a noise in the night, which

many have not known: but they shall all hear the voice thereof. [8] There shall be a confusion also in many places, and the fire shall be oft sent out again, and the wild beasts shall change their places, and menstruous women shall bring forth monsters: [9] And salt waters shall be found in the sweet, and all friends shall destroy one another; then shall wit hide itself, and understanding withdraw itself into his secret chamber, [10] And shall be sought of many, and yet not be found: then shall unrighteousness and incontinency be multiplied upon earth. [11] One land also shall ask another, and say, Is righteousness that maketh a man righteous gone through thee? And it shall say, No. [12] At the same time shall men hope, but nothing obtain: they shall labour, but their ways shall not prosper. [13] To shew thee such tokens I have leave; and if thou wilt pray again, and weep as now, and fast seven days, thou shalt hear yet greater things.

2 Esdras 12:29–33 And whereas thou sawest two feathers under the wings passing over the head that is on the right side; [30] It signifieth that these are they, whom the Highest hath kept unto their end: this is the small kingdom and full of trouble, as thou sawest.

[31] And the lion, whom thou sawest rising up out of the wood, and roaring, and speaking to the eagle, and rebuking her for her unrighteousness with all the words which thou hast heard; [32] This is the anointed, which the Highest hath kept for them and for their wickedness unto the end: he shall reprove them, and shall upbraid them with their cruelty. [33] For he shall set them before him alive in judgment, and shall rebuke them, and correct them.

2 Esdras 13:25–38 This is the meaning of the vision: Whereas thou sawest a man coming up from the midst of the sea: [26] The same is he whom God the Highest hath kept a great season, which by his own self shall deliver his creature: and he shall order them that are left behind. [27] And whereas thou sawest, that out of his mouth there came as a blast of wind, and fire, and storm; [28] And that he held neither sword, nor any instrument of war, but that the rushing in of him destroyed the whole multitude that came to subdue him; this is the interpretation: [29] Behold, the days come, when the most High will begin to deliver them that are upon the earth. [30] And he shall

come to the astonishment of them that dwell on the earth. [31] And one shall undertake to fight against another, one city against another, one place against another, one people against another, and one realm against another. [32] And the time shall be when these things shall come to pass, and the signs shall happen which I shewed thee before, and then shall my Son be declared, whom thou sawest as a man ascending. [33] And when all the people hear his voice, every man shall in their own land leave the battle they have one against another. [34] And an innumerable multitude shall be gathered together, as thou sawest them, willing to come, and to overcome him by fighting. [35] But he shall stand upon the top of the mount Sion. [36] And Sion shall come, and shall be shewed to all men, being prepared and builded, like as thou sawest the hill graven without hands. [37] And this my Son shall rebuke the wicked inventions of those nations, which for their wicked life are fallen into the tempest; [38] And shall lay before them their evil thoughts, and the torments wherewith they shall begin to be tormented, which are like unto a flame: and he shall destroy them without labour by the law which is like unto fire.

28 This is the end of the account. As for me, Daniel—my thoughts terrified me greatly and my face changed over me, but I kept the matter in my heart.”

Zechariah 14:1–5 Look! A day *is* coming for Yahweh, when your plunder
will be divided in your midst. [2] I will gather all the nations against
Jerusalem to battle, and the city will be captured, and they will loot the
houses, and the women will be raped; half of the city will go into exile, but
the remainder of the people will not be cut off from the city. [3] Then Yahweh
will go forth and fight against those nations, like when he fights on a day of
battle. [4] On that day his feet will stand on the Mount of Olives, which faces
Jerusalem on *the* east; and the Mount of Olives will be split in half, from
east to west, *by* a very great valley; and half of the mountain will withdraw
toward the north, and the other half toward the south. [5] And you will flee *by*
the valley of my mountains, because the valley of *the* mountains will reach
to Azal, and you will flee like you fled from the earthquake in the days of

John 17:5 And now, Father, you glorify me at your side with the glory that I had at your side before the world existed.

John 1:1–14 In the beginning was the Word, and the Word was with God, and the Word was God. [2] This one was in the beginning with God. [3] All *things* came into being through him, and apart from him not one *thing* came into being that has come into being. [4] In him was life, and the life was the light of humanity. [5] And the light shines in the darkness, and the darkness did not overcome it.

[6] A man came, sent from God, whose name was John. [7] This one came for a witness, in order that he could testify about the light, so that all would believe through him. [8] That one was not the light, but *came* in order that he could testify about the light. [9] The true light, who gives light to every person, was coming into the world. [10] He was in the world, and the world came into being through him, and the world did not recognize him. [11] He came to his own *things*, and his own *people* did not receive him. [12] But as many as received him—to those who believe in his name—he gave to them authority to become children of God, [13] who were born not of blood, nor of the will of the flesh, nor of the will of a husband, but of God.

[14] And the Word became flesh and took up residence among us, and we saw his glory, glory as of the one and only from the Father, full of grace and truth.

Romans 14:17 For the kingdom of God is not eating and drinking, but righteousness and peace and joy in the Holy Spirit.

Colossians 1:13 who has rescued us from the domain of darkness and transferred *us* to the kingdom of the Son he loves,

1 Corinthians 15:24 then the end, when he hands over the kingdom to the God and Father, when he has abolished all rule and all authority and power.

1 Corinthians 15:50 But I say this, brothers, that flesh and blood is not able to inherit the kingdom of God, nor can corruption inherit incorruptibility.

2 Timothy 4:1 I solemnly charge *you* before God and Christ Jesus, who is going to judge the living and the dead, and by his appearing and his kingdom,

2 Timothy 4:18 The Lord will rescue me from every evil deed, and will save *me* for his heavenly kingdom, to whom *be* the glory forever and ever. Amen.

Matthew 25:41 Then he will also say to those on *his* left, ‘Depart from me, *you* accursed ones, into the eternal fire that has been prepared for the devil and his angels!

1 Corinthians 6:3 Do you not know that we will judge angels, not to mention ordinary matters?

1 Corinthians 11:10 Because of this, the woman ought to have *a symbol of* authority on her head, on account of the angels.

2 Corinthians 11:14 And no wonder, for Satan himself disguises himself as an angel of light.

2 Peter 2:4 For if God did not spare the angels who sinned, but held *them* captive in Tartarus with chains of darkness *and* handed *them* over to be kept

for judgment,

Revelation 9:11 They have *as* king over them the angel of the abyss, whose name in Hebrew *is* Abaddon, and in Greek he has the name Apollyon.

Genesis 6:1–4 And it happened *that*, when humankind began to multiply on the face of the ground, daughters were born to them. [2] Then the sons of God saw the daughters of humankind, that they *were* beautiful. And they took for themselves wives from all that they chose. [3] And Yahweh said, “My Spirit shall not abide with humankind forever in that he *is* also flesh. And his days *shall be* one hundred and twenty years.” [4] The Nephilim *were* upon the earth in those days, and also afterward, when the sons of God went into the daughters of humankind, and they bore children to them. These *were* the mighty warriors that *were* from ancient times, men of renown.

Galatians 3:7–9 then understand that the ones who have faith, these are sons of Abraham. [8] And the scripture, foreseeing that God would justify the Gentiles by faith, proclaimed the good news in advance to Abraham: “In you all the nations will be blessed.” [9] So then, the ones *who have* faith are blessed together with Abraham who believed.

Galatians 3:28–29 There is neither Jew nor Greek, there is neither slave nor free, there is neither male and female, for you are all one in Christ Jesus. [29] And if you *are* Christ’s, then you are descendants of Abraham, heirs according to the promise.

Galatians 3:7 then understand that the ones who have faith, these are sons of Abraham.

Galatians 3:8 And the scripture, foreseeing that God would justify the Gentiles by faith, proclaimed the good news in advance to Abraham: “In you all the nations will be blessed.”

Galatians 3:9 So then, the ones *who have* faith are blessed together with Abraham who believed.

Galatians 3:28 There is neither Jew nor Greek, there is neither slave nor free, there is neither male and female, for you are all one in Christ Jesus.

Galatians 3:29 And if you *are* Christ's, then you are descendants of Abraham, heirs according to the promise.

Deuteronomy 33:1–2 Now this *is* the blessing *with* which Moses, the man of God, blessed the Israelites before his death.

[2] Then he said, "Yahweh came from Sinai,
and he dawned upon them from Seir;
he shone forth from Mount Paran,
and he came with myriads of holy ones,
at his right hand a fiery law for them.

Acts 7:52–53 Which of the prophets did your fathers not persecute? And they killed those who announced beforehand about the coming of the Righteous One, whose betrayers and murderers you have now become, [53] *you* who received the law by directions of angels and have not observed *it*!"

Galatians 3:19 Why then the law? It was added on account of transgressions, until the descendant should come to whom it had been promised, having been ordered through angels by the hand of a mediator.

Hebrews 2:2 For if the word spoken through angels was binding and every transgression and act of disobedience received a just penalty,

Sirach 44:21 Therefore he assured him by an oath, that he would bless the nations in his seed, and that he would multiply him as the dust of the earth, and exalt his seed as the stars, and cause them to inherit from sea to sea, and from the river unto the utmost part of the land.

Galatians 3:26–29 For you are all sons of God through faith in Christ Jesus, [27] for as many *of you* as were baptized into Christ have put on Christ. [28] There is neither Jew nor Greek, there is neither slave nor free, there is neither male and female, for you are all one in Christ Jesus. [29] And if you *are* Christ's, then you are descendants of Abraham, heirs according to the promise.

James 2:19 You believe that God is one; you do well. Even the demons believe, and shudder!

Genesis 11:1–9 Now the whole earth *had* one language and the same words.
2 And as people migrated from the east they found a plain in the land of
Shinar and settled there. 3 And they said to each other, “Come, let us make
bricks and burn them thoroughly.” And they had brick for stone and they
had tar for mortar. 4 And they said, “Come, let us build ourselves a city and
a tower whose top *reaches to* the heavens. And let us make a name for
ourselves, lest we be scattered over the face of the whole earth.”

5 Then Yahweh came down to see the city and the tower that humankind
was building. 6 And Yahweh said, “Behold, they are one people with one
language, and this is only the beginning of what they will do. So now
nothing that they intend to do will be impossible for them. 7 Come, let us go
down and confuse their language there, so that they will not understand
each other’s language.” 8 So Yahweh scattered them from there over the
face of the whole earth, and they stopped building the city. 9 Therefore its
name was called Babel, for there Yahweh confused the language of the
whole earth, and there Yahweh scattered them over the face of the whole
earth.

Deuteronomy 32:8–9 When the Most High apportioned *the* nations, at his
dividing *up* of the sons of humankind, he fixed the boundaries of *the*
peoples, according to the number of the children of Israel.

9 For Yahweh’s portion *was* his people, Jacob the share of his
inheritance.

Genesis 12:1–3 And Yahweh said to Abram, “Go out from your land and
from your relatives, and from the house of your father, to the land that I will
show you. 2 And I will make you a great nation, and I will bless you, and I
will make your name great. And you will be a blessing. 3 And I will bless
those who bless you, and those who curse you I will curse. And all families
of the earth will be blessed in you.”

Deuteronomy 4:19–20 And do this so that you do not lift your eyes *toward*
heaven and observe the sun and the moon and the stars, all the host of the
heaven, and be led astray and bow down to them and serve them, things that
Yahweh your God has allotted to all *of* the peoples under all *of* the heaven.

[20] But Yahweh has taken you and brought you out from the furnace of iron, from Egypt, to be a people of inheritance to him, as it is this day.

Deuteronomy 17:3 and by going and serving other gods and *so* he bows down to them and to the sun or to the moon or to any *of* the host of heaven which I have forbidden,

Deuteronomy 29:24–26 And all the nations will say, ‘Why has Yahweh done such a thing to this land? What *caused* the fierceness of this great anger?’ [25] And they will say, ‘*It is* because they abandoned the covenant of Yahweh, the God of their ancestors, which he made with them when he brought them out from the land of Egypt. [26] And they went and served other gods and bowed down to them, gods whom they did not know them and he had not allotted to them.

Deuteronomy 32:17 They sacrificed to the demons, not God, *to* gods whom they had not known, new *gods who* came from recent times; their ancestors had not known them.

Psalm 82:6 I have said, “You *are* gods, and sons of the Most High, all of you.

Deuteronomy 29:24–26 And all the nations will say, ‘Why has Yahweh done such a thing to this land? What *caused* the fierceness of this great anger?’ [25] And they will say, ‘*It is* because they abandoned the covenant of Yahweh, the God of their ancestors, which he made with them when he brought them out from the land of Egypt. [26] And they went and served other gods and bowed down to them, gods whom they did not know them and he had not allotted to them.

Deuteronomy 32:17 They sacrificed to the demons, not God, *to* gods whom they had not known, new *gods who* came from recent times; their ancestors had not known them.

James 2:19 You believe that God is one; you do well. Even the demons believe, and shudder!

James 1:1–3 James, a slave of God and of the Lord Jesus Christ, to the twelve tribes in the dispersion. Greetings!

2 Consider *it* all joy, my brothers, whenever you encounter various trials, 3 *because you* know that the testing of your faith produces endurance.

Galatians 3:26–29 For you are all sons of God through faith in Christ Jesus, 27 for as many *of you* as were baptized into Christ have put on Christ. 28 There is neither Jew nor Greek, there is neither slave nor free, there is neither male and female, for you are all one in Christ Jesus. 29 And if you *are* Christ's, then you are descendants of Abraham, heirs according to the promise.

Psalm 82:6–7 I have said, "You *are* gods, and sons of the Most High, all of you.

7 However, you will die like men, and you will fall like one of the princes."

Galatians 3:7–9 then understand that the ones who have faith, these are sons of Abraham. 8 And the scripture, foreseeing that God would justify the Gentiles by faith, proclaimed the good news in advance to Abraham: "In you all the nations will be blessed." 9 So then, the ones *who have* faith are blessed together with Abraham who believed.

Galatians 3:28–29 There is neither Jew nor Greek, there is neither slave nor free, there is neither male and female, for you are all one in Christ Jesus. 29 And if you *are* Christ's, then you are descendants of Abraham, heirs according to the promise.

Galatians 3:7 then understand that the ones who have faith, these are sons of Abraham.

Galatians 3:8 And the scripture, foreseeing that God would justify the Gentiles by faith, proclaimed the good news in advance to Abraham: "In you all the nations will be blessed."

Galatians 3:9 So then, the ones *who have* faith are blessed together with Abraham who believed.

Galatians 3:28 There is neither Jew nor Greek, there is neither slave nor free, there is neither male and female, for you are all one in Christ Jesus.

Galatians 3:29 And if you *are* Christ's, then you are descendants of Abraham, heirs according to the promise.

Hebrews 5:12 For indeed, *although you* ought to be teachers by this time, you have need of someone to teach you again the beginning elements of the oracles of God, and you have need of milk, not solid food.

2 Peter 3:10 But the day of the Lord will come like a thief, in which the heavens will disappear with a rushing noise, and the celestial bodies will be destroyed *by* being burned up, and the earth and the deeds *done* on it will be disclosed.

2 Peter 3:12 *while* waiting for and hastening the coming of the day of God, because of which the heavens will be destroyed *by* being burned up and the celestial bodies will melt *as they* are consumed by heat!

Galatians 4:3 So also we, when we were children, we were enslaved under the elemental spirits of the world.

Galatians 4:9 But now, *because you* have come to know God, or rather have come to be known by God, how can you turn back again to the weak and miserable elemental spirits? Do you want to be enslaved to them all over again?

Colossians 2:8 Beware lest anyone take you captive through philosophy and empty deceit, according to human tradition, according to the elemental spirits of the world and not according to Christ,

Colossians 2:20 If you have died with Christ to the elemental spirits of the world, why do you submit *to them* as *if* living in the world?

Galatians 4:3 So also we, when we were children, we were enslaved under the elemental spirits of the world.

Galatians 4:9 But now, *because you* have come to know God, or rather have come to be known by God, how can you turn back again to the weak and

miserable elemental spirits? Do you want to be enslaved to them all over again?

Colossians 2:8 Beware lest anyone take you captive through philosophy and empty deceit, according to human tradition, according to the elemental spirits of the world and not according to Christ,

Colossians 2:20 If you have died with Christ to the elemental spirits of the world, why do you submit *to them* as *if* living in the world?

Galatians 4:3 So also we, when we were children, we were enslaved under the elemental spirits of the world.

Galatians 4:1–7 Now I say, for as long a time *as* the heir is a child, *he is* no different from a slave, *although he* is master of everything, [2] but he is under guardians and managers until the time set by *his* father. [3] So also we, when we were children, we were enslaved under the elemental spirits of the world. [4] But when the fullness of time came, God sent out his Son, born of a woman, born under the law, [5] in order that he might redeem those under the law, in order that we might receive the adoption. [6] And because you are sons, God sent out the Spirit of his Son into our hearts, crying out, “Abba! (Father!),” [7] so that you are no longer a slave but a son, and if a son, also an heir through God.

Galatians 4:8–11 But at that time *when you* did not know God, you were enslaved to the things which by nature are not gods. [9] But now, *because you* have come to know God, or rather have come to be known by God, how can you turn back again to the weak and miserable elemental spirits? Do you want to be enslaved to them all over again? [10] You carefully observe days and months and seasons and years. [11] I am afraid *for* you, lest perhaps I have labored for you in vain!

Galatians 4:9 But now, *because you* have come to know God, or rather have come to be known by God, how can you turn back again to the weak and miserable elemental spirits? Do you want to be enslaved to them all over again?

Galatians 4:8 But at that time *when you* did not know God, you were enslaved to the things which by nature are not gods.

Galatians 4:10 You carefully observe days and months and seasons and years.

1 Corinthians 8:4–6 Therefore, concerning the eating of food sacrificed to idols, we know that "an idol *is* nothing in the world" and that "*there is* no God except one." [5] For even if after all *there* are so-called gods, whether in heaven or on earth, just as *there* are many gods and many lords, [6] yet to us *there is* one God, the Father, from whom *are* all *things*, and we *are* for him, and *there is* one Lord, Jesus Christ, through whom *are* all *things*, and we *are* through him.

1 Corinthians 10:20–21 *No*, but that *the things* which they sacrifice, they sacrifice to demons and not to God, and I do not want you to become sharers with demons. [21] You are not able to drink the cup of the Lord and the cup of demons. You are not able to share the table of the Lord and the table of demons.

Colossians 2:8 Beware lest anyone take you captive through philosophy and empty deceit, according to human tradition, according to the elemental spirits of the world and not according to Christ,

Colossians 2:20 If you have died with Christ to the elemental spirits of the world, why do you submit *to them* as *if* living in the world?

Ephesians 4:8 Therefore it says, "Ascending on high he led captivity captive;

he gave gifts to men."

Matthew 12:28 But if I expel demons by the Spirit of God, then the kingdom of God has come upon you!

Mark 1:15 and saying, "The time is fulfilled and the kingdom of God has come near. Repent and believe in the gospel!"

Luke 8:1 And it happened that afterward also he was going about from *one* town and village *to another* preaching and proclaiming the good news

concerning the kingdom of God, and the twelve *were* with him,

Luke 8:10 And he said, “To you it has been given to know the mysteries of the kingdom of God, but to the rest *they are* in parables, so that ‘Seeing they may not see,

and hearing they may not understand.’

Luke 16:16 “The law and the prophets *were* until John; from that time *on* the kingdom of God has been proclaimed, and everyone is urgently pressed into it.

Colossians 2:20 If you have died with Christ to the elemental spirits of the world, why do you submit *to them* as *if* living in the world?

Galatians 4:3 So also we, when we were children, we were enslaved under the elemental spirits of the world.

Galatians 4:1–7 Now I say, for as long a time *as* the heir is a child, *he is* no different from a slave, *although he* is master of everything, [2] but he is under guardians and managers until the time set by *his* father. [3] So also we, when we were children, we were enslaved under the elemental spirits of the world. [4] But when the fullness of time came, God sent out his Son, born of a woman, born under the law, [5] in order that he might redeem those under the law, in order that we might receive the adoption. [6] And because you are sons, God sent out the Spirit of his Son into our hearts, crying out, “Abba! (Father!),” [7] so that you are no longer a slave but a son, and if a son, also an heir through God.

Galatians 4:8–11 But at that time *when you* did not know God, you were enslaved to the things which by nature are not gods. [9] But now, *because you* have come to know God, or rather have come to be known by God, how can you turn back again to the weak and miserable elemental spirits? Do you want to be enslaved to them all over again? [10] You carefully observe days and months and seasons and years. [11] I am afraid *for* you, lest perhaps I have labored for you in vain!

Galatians 4:9 But now, *because you* have come to know God, or rather have come to be known by God, how can you turn back again to the weak and miserable elemental spirits? Do you want to be enslaved to them all over again?

Galatians 4:8 But at that time *when you* did not know God, you were enslaved to the things which by nature are not gods.

Galatians 4:10 You carefully observe days and months and seasons and years.

1 Corinthians 8:4–6 Therefore, concerning the eating of food sacrificed to idols, we know that “an idol *is* nothing in the world” and that “*there is* no God except one.” [5] For even if after all *there* are so-called gods, whether in heaven or on earth, just as *there* are many gods and many lords, [6] yet to us *there is* one God, the Father, from whom *are* all *things*, and we *are* for him, and *there is* one Lord, Jesus Christ,

through whom *are* all *things*, and we *are* through him.

1 Corinthians 10:20–21 *No*, but that *the things* which they sacrifice, they sacrifice to demons and not to God, and I do not want you to become sharers with demons. [21] You are not able to drink the cup of the Lord and the cup of demons. You are not able to share the table of the Lord and the table of demons.

Colossians 2:8 Beware lest anyone take you captive through philosophy and empty deceit, according to human tradition, according to the elemental spirits of the world and not according to Christ,

Colossians 2:20 If you have died with Christ to the elemental spirits of the world, why do you submit *to them* as *if* living in the world?

Jude 9 But Michael the archangel, when he argued with the devil, disputing concerning the body of Moses, did not dare to pronounce a blasphemous judgment, but said, “The Lord rebuke you!”

1 Thessalonians 4:16 For the Lord himself will descend from heaven with a shout of command, with the voice of the archangel and with the trumpet of God, and the dead in Christ will rise first.

Daniel 10:21 However, I will tell you what is inscribed in *the* book of truth, and there is not one *who* contends with me against these *beings* except Michael, your prince.”

Daniel 12:1 “Now at that time, Michael, the great prince, will arise, the protector over the sons of your people, and it will be a time of distress that has not been since *your people* have been a nation until that time. And at that time your people will escape, everyone who is found written in the scroll.

Daniel 10:13 But *the* prince of *the* kingdom of Persia stood before me *for* twenty-one days. And look, Michael, one of the chief princes, came to assist me, and I left *him* there beside *the* king of *the* Persians.

Daniel 8:11 Even against the prince of the hosts it acted arrogantly and took away from him the regular burnt offering, and the place of his sanctuary was overthrown.

Daniel 8:11 Even against the prince of the hosts it acted arrogantly and took away from him the regular burnt offering, and the place of his sanctuary was overthrown.

Daniel 8:25 And by his planning he will make a success of deceit by his hand, and in his mind he will boast, and in *their* ease he will destroy many, and *even* against *the* prince of princes he will rise up, and he will be broken, *but* not by human hands.

Daniel 11:36 “Then the king will do as he pleases, and he will exalt himself and will consider himself above any god, and he will speak horrendous things against *the* God of gods, yet he will succeed until *the period* of anger is finished, for *what* is determined will be done.

Daniel 11:36 “Then the king will do as he pleases, and he will exalt himself and will consider himself above any god, and he will speak horrendous things against *the* God of gods, yet he will succeed until *the period* of anger is finished, for *what* is determined will be done.

Joshua 5:13–15 And it happened, when Joshua was by Jericho, he looked up, and he saw a man standing opposite him *with* his sword drawn in his hand. And Joshua went to him and said, “Are you with us, or with our adversaries?” 14 And he said, “Neither. I have come now *as* the commander of Yahweh’s army.” And Joshua fell on his face to the earth, and he bowed down and said to him, “What *is* my lord commanding his servant?” 15 The commander of Yahweh’s army said to Joshua, “Take off your sandals from your feet, for the place where you *are* standing *is* holy.” And Joshua did so.

Daniel 10:13 But *the* prince of *the* kingdom of Persia stood before me *for* twenty-one days. And look, Michael, one of the chief princes, came to assist

Matthew 22:37 And he said to him, “ ‘You shall love the Lord your God with all your heart and with all your soul and with all your mind.’

Mark 12:29–30 Jesus answered, “The most important is, ‘Listen, Israel! The Lord our God, the Lord is one. 30 And you shall love the Lord your God from your whole heart and from your whole soul and from your whole mind and from your whole strength.’

Hebrews 4:12 For the word of God *is* living and active and sharper than any double-edged sword, and piercing as far as the division of soul and spirit, both joints and marrow, and able to judge the reflections and thoughts of the heart.

2 Esdras 5:1–13 Nevertheless as concerning the tokens, behold, the days shall come, that they which dwell upon earth shall be taken in a great number, and the way of truth shall be hidden, and the land shall be barren of faith. 2 But iniquity shall be increased above that which now thou seest, or that thou hast heard long ago. 3 And the land, that thou seest now to have

root, shalt thou see wasted suddenly. [4] But if the most High grant thee to live, thou shalt see after the third trumpet that the sun shall suddenly shine again in the night, and the moon thrice in the day: [5] And blood shall drop out of wood, and the stone shall give his voice, and the people shall be troubled: [6] And even he shall rule, whom they look not for that dwell upon the earth, and the fowls shall take their flight away together: [7] And the Sodomitish sea shall cast out fish, and make a noise in the night, which many have not known: but they shall all hear the voice thereof. [8] There shall be a confusion also in many places, and the fire shall be oft sent out again, and the wild beasts shall change their places, and menstruous women shall bring forth monsters: [9] And salt waters shall be found in the sweet, and all friends shall destroy one another; then shall wit hide itself, and understanding withdraw itself into his secret chamber, [10] And shall be sought of many, and yet not be found: then shall unrighteousness and incontinency be multiplied upon earth. [11] One land also shall ask another, and say, Is righteousness that maketh a man righteous gone through thee? And it shall say, No. [12] At the same time shall men hope, but nothing obtain: they shall labour, but their ways shall not prosper. [13] To shew thee such tokens I have leave; and if thou wilt pray again, and weep as now, and fast seven days, thou shalt hear yet greater things.

2 Esdras 12:29–33 And whereas thou sawest two feathers under the wings passing over the head that is on the right side; [30] It signifieth that these are they, whom the Highest hath kept unto their end: this is the small kingdom and full of trouble, as thou sawest.

[31] And the lion, whom thou sawest rising up out of the wood, and roaring, and speaking to the eagle, and rebuking her for her unrighteousness with all the words which thou hast heard; [32] This is the anointed, which the Highest hath kept for them and for their wickedness unto the end: he shall reprove them, and shall upbraid them with their cruelty. [33] For he shall set them before him alive in judgment, and shall rebuke them, and correct them.

2 Esdras 13:25–38 This is the meaning of the vision: Whereas thou sawest a man coming up from the midst of the sea: [26] The same is he whom God the

Highest hath kept a great season, which by his own self shall deliver his creature: and he shall order them that are left behind. [27] And whereas thou sawest, that out of his mouth there came as a blast of wind, and fire, and storm; [28] And that he held neither sword, nor any instrument of war, but that the rushing in of him destroyed the whole multitude that came to subdue him; this is the interpretation: [29] Behold, the days come, when the most High will begin to deliver them that are upon the earth. [30] And he shall come to the astonishment of them that dwell on the earth. [31] And one shall undertake to fight against another, one city against another, one place against another, one people against another, and one realm against another. [32] And the time shall be when these things shall come to pass, and the signs shall happen which I shewed thee before, and then shall my Son be declared, whom thou sawest as a man ascending. [33] And when all the people hear his voice, every man shall in their own land leave the battle they have one against another. [34] And an innumerable multitude shall be gathered together, as thou sawest them, willing to come, and to overcome him by fighting. [35] But he shall stand upon the top of the mount Sion. [36] And Sion shall come, and shall be shewed to all men, being prepared and builded, like as thou sawest the hill graven without hands. [37] And this my Son shall rebuke the wicked inventions of those nations, which for their wicked life are fallen into the tempest; [38] And shall lay before them their evil thoughts, and the torments wherewith they shall begin to be tormented, which are like unto a flame: and he shall destroy them without labour by the law which is like unto fire.

The one who brings out their host by number.

He calls all them by name.

Because *he is* great of power and mighty of power, not one is missing.

Daniel 8:10 And it grew up to the host of heaven, and it threw down to the ground some of the host and some of the stars and trampled them.

Revelation 12:1–9 And a great sign appeared in heaven: a woman clothed with the sun and *with* the moon under her feet, and on her head a crown of twelve stars, 2 and who was pregnant and was crying out *because she* was having birth pains, and was in torment to give birth. 3 And another sign appeared in heaven, and behold, a great fiery red dragon, having seven heads and ten horns, and on his heads *were* seven royal headbands. 4 And his tail swept away a third of the stars from heaven and threw them to the earth. And the dragon stood before the woman who was about to give birth, in order that whenever she gave birth to her child he could devour *it*. 5 And she gave birth to a son, a male *child*, who is going to shepherd all the nations with an iron rod, and her child was snatched away to God and to his throne. 6 And the woman fled into the wilderness, where she had a place prepared there by God, so that they could feed her there *for one* thousand two hundred sixty days.

7 And there was war in heaven; Michael and his angels fought against the dragon, and the dragon and his angels fought back. 8 And they did not prevail, nor was a place found for them *any* longer in heaven. 9 And the great dragon was thrown down, the ancient serpent, who is called the devil

and Satan, who deceives the whole world. He was thrown down to the earth, and his angels were thrown down with him.

the ancient serpent, who is the devil and Satan—and bound him *for* a
thousand years, 3 and threw him into the abyss, and shut *it* and sealed *it*
above him, in order that he could not deceive the nations again until the
thousand years are completed. After these *things* it is necessary *for* him to
be released *for* a short time.

4 And I saw thrones, and they sat down on them, and authority to judge
was granted to them. And *I saw* the souls of those who had been beheaded
because of the testimony about Jesus and because of the word of God, and
who had not worshiped the beast or his image, and did not receive the mark
on their forehead and on their hand, and they came to life and reigned with
Christ *for* a thousand years. 5 (The rest of the dead did not come to life until
the thousand years were completed.) This *is* the first resurrection. 6 Blessed
and holy *is* the one who has a part in the first resurrection. Over this person
the second death has no authority, but they will be priests of God and of
Christ, and they will reign with him a thousand years.

it will be said to them,
“Children of *the* living God.”

2 Esdras 5:1–13 Nevertheless as concerning the tokens, behold, the days shall come, that they which dwell upon earth shall be taken in a great number, and the way of truth shall be hidden, and the land shall be barren of faith. 2 But iniquity shall be increased above that which now thou seest, or that thou hast heard long ago. 3 And the land, that thou seest now to have root, shalt thou see wasted suddenly. 4 But if the most High grant thee to live, thou shalt see after the third trumpet that the sun shall suddenly shine again in the night, and the moon thrice in the day: 5 And blood shall drop out of wood, and the stone shall give his voice, and the people shall be troubled: 6 And even he shall rule, whom they look not for that dwell upon

the earth, and the fowls shall take their flight away together: [7] And the Sodomitish sea shall cast out fish, and make a noise in the night, which many have not known: but they shall all hear the voice thereof. [8] There shall be a confusion also in many places, and the fire shall be oft sent out again, and the wild beasts shall change their places, and menstruous women shall bring forth monsters: [9] And salt waters shall be found in the sweet, and all friends shall destroy one another; then shall wit hide itself, and understanding withdraw itself into his secret chamber, [10] And shall be sought of many, and yet not be found: then shall unrighteousness and incontinency be multiplied upon earth. [11] One land also shall ask another, and say, Is righteousness that maketh a man righteous gone through thee? And it shall say, No. [12] At the same time shall men hope, but nothing obtain: they shall labour, but their ways shall not prosper. [13] To shew thee such tokens I have leave; and if thou wilt pray again, and weep as now, and fast seven days, thou shalt hear yet greater things.

2 Esdras 12:29–33 And whereas thou sawest two feathers under the wings passing over the head that is on the right side; [30] It signifieth that these are they, whom the Highest hath kept unto their end: this is the small kingdom and full of trouble, as thou sawest.

[31] And the lion, whom thou sawest rising up out of the wood, and roaring, and speaking to the eagle, and rebuking her for her unrighteousness with all the words which thou hast heard; [32] This is the anointed, which the Highest hath kept for them and for their wickedness unto the end: he shall reprove them, and shall upbraid them with their cruelty. [33] For he shall set them before him alive in judgment, and shall rebuke them, and correct them.

2 Esdras 13:25–38 This is the meaning of the vision: Whereas thou sawest a man coming up from the midst of the sea: [26] The same is he whom God the Highest hath kept a great season, which by his own self shall deliver his creature: and he shall order them that are left behind. [27] And whereas thou sawest, that out of his mouth there came as a blast of wind, and fire, and storm; [28] And that he held neither sword, nor any instrument of war, but that the rushing in of him destroyed the whole multitude that came to subdue

him; this is the interpretation: [29] Behold, the days come, when the most High will begin to deliver them that are upon the earth. [30] And he shall come to the astonishment of them that dwell on the earth. [31] And one shall undertake to fight against another, one city against another, one place against another, one people against another, and one realm against another. [32] And the time shall be when these things shall come to pass, and the signs shall happen which I shewed thee before, and then shall my Son be declared, whom thou sawest as a man ascending. [33] And when all the people hear his voice, every man shall in their own land leave the battle they have one against another. [34] And an innumerable multitude shall be gathered together, as thou sawest them, willing to come, and to overcome him by fighting. [35] But he shall stand upon the top of the mount Sion. [36] And Sion shall come, and shall be shewed to all men, being prepared and builded, like as thou sawest the hill graven without hands. [37] And this my Son shall rebuke the wicked inventions of those nations, which for their wicked life are fallen into the tempest; [38] And shall lay before them their evil thoughts, and the torments wherewith they shall begin to be tormented, which are like unto a flame: and he shall destroy them without labour by the law which is like unto fire.

These *were* the mighty warriors that *were* from ancient times, men of renown.

Ezekiel 28:12–19 “Son of man, raise a lament over the king of Tyre, and you must say to him, ‘thus says the Lord Yahweh: “You were a perfect model of an example,

full of wisdom and perfect of beauty.

[13] You were in Eden, the garden of God, and every precious stone *was* your adornment: carnelian, topaz and moonstone,

turquoise, onyx and jasper,

sapphire, malachite and emerald.

And gold *was* the craftsmanship of your settings and your mountings in you;

on the day when you were created they were prepared.

[14] You were *an* anointed guardian cherub, and I placed you on God’s holy mountain;

you walked in the midst of stones of fire.

15 You *were* blameless in your ways from the day when you were created,

until wickedness was found in you.

16 In the abundance of your trading, they filled the midst of you *with* violence, and you sinned; and I cast you as a profane thing from the mountain of God, and I expelled you, *the* guardian cherub, from the midst of *the* stones of fire.

17 Your heart was proud because of your beauty; you ruined your wisdom because of your splendor.

I threw you on the ground before kings;

I have exposed you for viewing.

18 From the abundance of your iniquities in the dishonesty of your trading,

I profaned your sanctuaries
and I brought fire from your midst;
it consumed you, and I have turned you to ashes on the earth before the eyes of everyone who sees you.
19 All who know you among the peoples are appalled over you;
you have become *as* horrors, and you shall cease to exist forever.” ’ ”

Ezekiel 28:13 You were in Eden, the garden of God, and every precious stone *was* your adornment: carnelian, topaz and moonstone,
turquoise, onyx and jasper,
sapphire, malachite and emerald.

on the day when you were created they were prepared.

Ezekiel 10:9 And I saw, and look, four wheels beside the cherubim, one wheel beside each cherub, and the appearance of the wheels *was* like *the* outward appearance of turquoise stone.

Isaiah 54:11 “O afflicted *one*, driven away, *who* is not consoled.
Look! I *am* about to set your stones in hard mortar, and I will lay your foundation with sapphires.

Ezekiel 28:13 You were in Eden, the garden of God, and every precious stone *was* your adornment: carnelian, topaz and moonstone,
turquoise, onyx and jasper,
sapphire, malachite and emerald.
And gold *was* the craftsmanship of your settings and your mountings in you;
on the day when you were created they were prepared.

Exodus 28:20 and the fourth row *is* a turquoise and an onyx and a jasper. Their settings will be woven *with* gold.

Revelation 21:19 The foundations of the wall of the city are adorned with every kind of precious stone: the first foundation jasper, the second sapphire, the third chalcedony, the fourth emerald,

Exodus 28:17 And you will fill it *with* stone mounting, four rows *of* stone, a row of carnelian, topaz, and emerald *is* the first row;

ACKNOWLEDGEMENTS

> Again we see that the cooperation of successive students is necessary, and that no one man can hope to solve most of the difficulties with which Ugaritic mythological poems swarm.

These words were penned by William Foxwell Albright (1943:40) over six decades ago, and they could hardly be truer today (apart from the gender language). This commentary on the Baal Cycle draws on the work of successive generations of Ugaritic scholarship. There have been many triumphs of well-founded scholarship as well as numerous detours and mistakes. To cite what Marvin Pope used to call "Ginsberg's dictum," "the only people who have never made mistakes in Ugaritic philology are those who have never engaged in it" (Ginsberg 1950:156). It is worth noting as well Ginsberg's lesser known comment about the field expressed in 1948:139: "Each of these texts by itself is a happy hunting-ground for philological sportsmen, abounding as it does in lacunae and obscurities, while the intricate and tantalizing problem of the mutual relations of the texts among themselves can afford even more ambitious nimrods of research scope for weeks and weeks of congenial activity." Because of the efforts of so many, we begin our acknowledgements by expressing gratitude for the labors of our predecessors in this field. The indebtedness of this volume to the work of other scholars will be evident to anyone who uses this commentary.

This volume is the result of collaboration between the two of us. It began when Smith, having worked intermittently on this volume for over a decade, invited Pitard to do the textual edition for the book. But as we began working together, it became clear that two heads were better than one (and, for the textual edition, four eyes were better than two), and so the project became a full-scale collaboration across all aspects of the book. The results, we believe, are considerably superior to anything that either of us might have produced individually.

Each of us has a number of people to acknowledge, so in this section we will take our turns:

Mark Smith:

A great deal of work on this commentary was conducted in tandem with the first volume of this commentary, published in 1994 under the title, *The Ugaritic Baal Cycle. Volume 1*. As a result, all the thanks expressed in that volume applies equally to this one. Moreover, many persons and organizations have supported this work since 1994. Marvin Pope, as usual, stood at the forefront of the list until his death in 1997. He constantly offered encouragement. Moreover, he provided a copy of his unpublished translation and notes to 1.4 I–VIII, and I am grateful for his permission to use that material (notes cited as MHP). Similarly, Dennis Pardee permitted me to use his epigraphic notes to CAT 1.3, based on his collation of this tablet mentioned in Pardee 1988b:1 n. 4 (these are cited as DP). He has since published a translation and notes to the Baal Cycle (Pardee 1997a), and readers may gain better insight into his own views by perusing that work of his. I am grateful for his generous permission to cite his readings and notes.

I spent part of the summer of 1995 at the Ecole Biblique in Jerusalem working on this volume. I am grateful to Simon Parker for having inviting me to contribute the text, translation and notes to the Baal Cycle and some smaller Ugaritic texts for a volume entitled *Ugaritic Narrative Poetry* (cited as *UNP*). This work provided an opportunity to put to paper a basic complete translation and text and to think about the process and details of translation. The text there was informed by photographic materials produced by the West Semitic Research Project under the care, good will and generosity of Bruce Zuckerman and Wayne Pitard. The project subsequently produced the photographic material for this volume. My debt to Professors Zuckerman and Pitard for this material is immense, for while many of the translation options and discussions in this volume can be found among the myriad of articles and books, the photographs cannot; they are gems, and I am very fortunate to have them inform and accompany my work. I am grateful also to the Director of the French mission to Ras Shamra and to the Syrian Directorate of Antiquities for permission to publish the photographs in this volume.

From 1993 to 2000, Saint Joseph's University was unfailing in its support of my research. In 1995 the university provided me with a grant that took me to Jerusalem to conduct research on this book. The academic community at Saint Joseph's University also took an active interest in the research. A contribution to this commentary was provided by my former departmental colleague, David Carpenter. From Professor

Carpenter, I learned a great deal (though hardly enough) about Hinduism, from auditing his course on this subject in the fall of 1999. I pursued this topic not only because of the comparison of Anat in 1.3 II and Kali presented by Marvin Pope. Equally important, I thought it necessary to take a look at an ancient yet continuing religious tradition of temples and temple myths in order to deepen my consideration of the presentation of Baal's palace in 1.3–1.4. Most Americans do not experience a living, dynamic temple tradition, with real sacrifices of real animals offered by a practicing priesthood in different temples devoted to a pantheon of deities. To try to grasp the reality of such a situation, I turned to Hinduism; and for any advance on this front, I have Professor Carpenter to thank. My extensive limitations in this as well as other areas of research, of course, remain my own.

In 1995 I went to the École Biblique, the Albright Institute and the Hebrew University to conduct research. Long supportive of my work, I wish to thank these institutions and their staffs for access not only to their libraries, but also to their beautiful gardens that give rest to the mind. The librarians of the École were very helpful. For the hospitality I am especially grateful to the guest-master at the time, Tony Axe, O. P. Sarah Suleiman and my friend Bella Greenfield always helped me in the library of the Albright Institute. I also derived a good deal of helpful information from many people conducting research at these institutions.

In May–July 1997, I was a Lady Davis Visiting Professor at the Hebrew University. My time at the university made it possible to advance the great labor involved in producing the basic text of the commentary. To the Department of Bible and especially its most hospitable chair at that time, Professor Shalom Paul, I wish to express my deepest thanks. I am also very grateful to Professor Avi Hurvitz for sponsoring my application. I benefitted from the different libraries at the university. The professorship also enabled me to return to the stacks of the Ecole Biblique and the William Foxwell Albright Institute. In short, my time in Jerusalem helped my brain fall in love again with this wonderful text. Thanks also to a well-spent year as a fellow at the Center for Judaic Studies of the University of Pennsylvania in 1997–98, I have expanded much of this material, which forms the backbone to the final sections of the Introduction. To all these institutions and their staffs I am deeply indebted.

I owe a great deal to New York University and in particular the Department of Hebrew and Judaic Studies, my academic home since

September of 2000. Under the capable leadership of its chairs Lawrence Schiffman and David Engel, the department has provided me with all the benefits in teaching and research a faculty member could desire. In the fall of 2000, Andrés Piquer Otero came to New York University to work with me on the Baal Cycle. His M.A. thesis on the verbal syntax in CAT 1.1–1.2, completed in spring 2000, offers a text linguistic analysis of the verbal syntax of the first two tablets of the Baal Cycle (Piquer Otero 2000); his recently completed doctoral research follows this line of research on all of the Baal Cycle (Piquer Otero 2003). During his visit to New York University, we worked through CAT 1.3. Piquer Otero has also generously granted me permission to present this work in the context of this commentary, and I have acknowledged his contributions in citing his 2003 thesis. (A basic presentation of Piquer Otero's work may be found in the Introduction.) I wish to acknowledge further my debt and thanks to Piquer Otero and the faculty at the Universidad Complutense de Madrid for inviting me to serve on his doctoral tribunal (dissertation defense committee). As a result of this process, I was provided with an English version of this doctoral thesis, which facilitated not only the defense process, but also my citation of his work in this volume. Unfortunately, Piquer Otero 2007 appeared too late for us to include.

Beginning in the spring term of 2001 and the fall of 2002, I was able to read parts of the Baal Cycle with graduate students, which was an impetus for rethinking and rewriting. Their questions and suggestions were very helpful, and I thank them: Deena Grant, Tony Badran, Alan Yuter, Hugh White, Hwan Yi, Diego Bayreera and Stephen Russell. My departmental colleagues as well as my colleagues in the Department of Classics have spurred me to further consideration of many issues. In particular, I am deeply grateful to my departmental "better half" in Bible and Ancient Near East studies, Professor Daniel Fleming. His books and articles as well as his personal communications to me have been a constant help in my efforts to bring the texts from Emar and Mari to bear on the Baal Cycle. As a pioneer in the field of Emar, the site closest to ancient Ugarit in many respects, Professor Fleming's experience with the Emar corpus, not to mention the texts of Middle and Late Bronze Age Syria more generally, has been an important aid to my research.

My spring 2004 term on leave as Catholic Biblical Association Visiting Professor at the Pontifical Biblical Institute helped to bring this volume to a conclusion. I am grateful to the Institute and its personnel

for all of its help. I am grateful to New York University for providing me with sabbatical time and to the Pontifical Biblical institute and the Catholic Biblical Association for their support of my time in Rome. I save my final word of thanks for Wayne Pitard whose hard work on all aspects of this volume has vastly improved it. In the process of co-authoring this volume, I have especially enjoyed his learning, insight and good humor.

Wayne Pitard:

First of all I must thank Mark for inviting me to join him on this project. This collaboration has been one of the most enjoyable and fruitful experiences in my professional career, and I cannot imagine a better working partner than Mark. And secondly, I wish to thank Dr. Bruce Zuckerman, an old friend and delightful colleague who took me under his wing in 1989 and taught me how to photograph clay tablets using large-format cameras. This led to a number of photographic expeditions to Syria and Paris, during which I (with the help of Theodore Lewis, Andrew Vaughn, and Brian Schmidt in various years) photographed most of the literary texts from Ugarit. Some of the fruits of this work will be seen here.

The photos published in this volume were taken in the Aleppo National Museum in Syria and were made with the generous cooperation of the Syrian Directorate of Antiquities. I am grateful to Drs. Ali Abu-Assaf and Sultan Muhesen, successive Directors of Antiquities for their support and cooperation. In Aleppo I was greatly helped by Wahed Khayata, Director of Antiquities for the Aleppo Region, and the staff of the Aleppo National Museum, who supported me at every turn. I must also thank the members of the Mission de Ras Shamra for their help in years past.

Financial support for the photographic work came from several sources. The University of Illinois has always been enormously supportive of my work in Ugaritic, providing me with funding for the expeditions to Syria and Paris, along with computer support at home. Bruce Zuckerman, Marilyn Lundberg and Ken Zuckerman, all part of West Semitic Research, have been the *sine qua non* of the photographic project. Not only were they my instructors, but they also provided the equipment for the expeditions and care for the original negatives in the WSR collection. A National Endowment for the Humanities Summer Stipend in 1991 allowed me to begin work on the methodologies that are used here for the drawings of the tablets. In addition, some of the

NEH funding for the translation project, *Ugaritic Narrative Poetry*, was provided to support the 1995 expedition; I wish to thank the NEH and Simon B. Parker for that critical help. I also received a William and Flora Hewlett International Research Grant in 1995, which helped support my stay in Syria. I am also grateful to the Fulbright-Hays Program for a Fellowship that took me to Syria in 1999.

Finally, I wish to thank my colleagues in the Program for the Study of Religion at the University of Illinois, particularly Gary G. Porton and Richard Layton, off of whom I have bounced a number of ideas that emerge in this volume. And I want to express my appreciation and love for my family—wife Angie and daughters Sarah and Samantha—who suffered patiently through many a month of my enthusiastic explanations of obscure Ugaritic terms with remarkable tolerance.

Finally, we wish to thank Rachel E. Smith for help with the authors' index, and Mattie Kuiper, Birgitta Poelmans and the staff at Brill for their hard work on this complex volume.

This volume of the commentary is dedicated to our teachers, Frank M. Cross, Thomas O. Lambdin, William L. Moran (in memoriam), and Michael D. Coogan. We count ourselves most fortunate to have studied with this team of scholars, who have enriched the field of ancient Near Eastern languages and literatures with many magisterial works (for profiles, see Smith 2001b:154–58). In the different areas of research addressed in this volume, the published works and classroom instruction of these four scholars have served as inspiring models. We offer this work to them as a small token of our thanks.

PREFACE

The Format of This Volume

This volume represents the continuation of *The Ugaritic Baal Cycle. Volume 1* (henceforth *UBC* 1). The first volume provided a general introduction to the cycle, plus detailed commentary on its first two tablets (CAT 1.1–1.2). This second volume contains a detailed commentary on the next two tablets (CAT 1.3–1.4). While the introduction in the first volume covered most of the major interpretive issues involved in the cycle, subjects specific to CAT 1.3–1.4 are treated in the Introduction here. In addition, further research on the cycle has prompted us to make some additional comments about the cycle as a whole. The main features of this volume generally follow the conventions described in *UBC* 1:xxviii–xxxvi, although we have added a few new features. Here is the general arrangement for this volume:

I. *The Introduction*

Addressed in this section are general matters supplementing and occasionally revising the Introduction to the first volume: research on the Baal Cycle since 1994; textual and literary issues; verbal syntax in the Baal Cycle; the structure of the building narrative in 1.3–1.4 and the role played by royal/family etiquette and protocol in the story; the role of both divine geography and Ugaritic family structure in the presentation of the narrative; the relationship between El and Baal's enemies; and a discussion of the identification between the divine palace and the earthly temple.

II. *Translation of the text of 1.3 and 1.4*

Here we provide our translation of the text in order to give the reader a sense of the entire flow of the narrative.

III. *The Commentary Proper*

1. *Physical description of the Tablet*
For each of the two tablets, we provide a physical description, a discussion of the find spots of its fragments and an analysis of its individual characteristics.

2. *Bibliography*
The study of each column of text begins with a bibliography of editions, translations and studies.

3. *Text and Textual Notes for Each Column*
This section constitutes a new edition of these tablets, based fundamentally on Pitard's collations of the texts in the Aleppo National Museum in 1995 and 1999, supplemented by both authors' study of the photographs taken during those trips to Syria. Most of the photographs of 1.3 and 1.4 I–III used here were taken by Pitard and Theodore Lewis in 1995, while Pitard took the photos of 1.4 IV–VIII in 1999. The transcriptions of the text and the textual notes are intended to be used alongside the images found on the accompanying DVD. It has become clear to the authors that digital images provide a greatly superior access to the photographic data than traditional published photos. A wider range of photos can be provided, and more sophisticated analysis can be used on digital images. The DVD not only allows the interested scholar to examine the images in detail, but also provides a complete set of drawings of the text that can be superimposed upon the image. These allow the reader to see exactly what we believe are the preserved traces of the letters on the tablets. In addition to our own examinations, the authors also have had access to Dennis Pardee's 1981 collation of 1.3, for which we are grateful. The textual notes in our commentary will often be in dialogue with the readings of *CTA, CAT*, Pardee and occasionally others.

Four levels of certainty are indicated in the transcription of the text. (1) Letters that are clearly preserved, for which there is no question of their identity, appear without modification. (2) Letters that are badly damaged, but which retain enough evidence for the editors to be certain of their reading, have been marked with a solid dot, /˙/, above them. (3) Badly damaged letters that cannot be certainly identified epigraphically, but which can be identified with a great deal of probability

through context and parallel passages, are marked with a circle, /˚/. (4) Extremely fragmentary letters for which certainty of identity cannot be reached are marked by *x*. The textual notes often discuss the possible readings for these letters.

4. *Text Restored and Put in Poetic Form*

This section provides our first interpretation of the text. Here we propose our understanding of the poetic structure of the narrative. We arrange the words according to our interpretation of the poetic lines or cola, and then group them together according to the related sets of lines, usually bicola or tricola, but occasionally a larger unit. Rather than inserting the line numbers into the transcription, as is often done, we have chosen to follow the style used in *UNP* of providing the line numbers of complete poetic units in the left margin, while placing a slash between lines in the transcription (except where the end of a poetic unit coincides with the end of a line—this is not marked).

Reconstructions of broken passages have been kept to a minimum and are based on clear parallels. We are aware that even in formulaic passages the poet can vary the wording, and thus that some reconstructions can only be considered approximate. Emendations are discussed either in footnotes or in the commentary.

5. *Translation and Vocalized Text*

We have attempted a fairly literal translation that we hope is not too wooden. We have also retained the poetic structure of the original, following the poetic lines, emphasizing the parallelism and terseness of the units (cf. Pardee 1988b). Only rarely is it necessary to move a word in one colon of the Ugaritic into a different colon of the English translation (something done only when English syntax requires it). Furthermore, an attempt has been made to capture some of the original's paronomasia. Finally, since the language of the Baal Cycle probably sounded somewhat archaic to its original audience, we have tried to retain a touch of archaism in the translation (see *UBC* 1:29–58).

As an aid to our readers, we have added explanatory headings before major sections of the narrative to indicate the plot. These headings have been set in bold print to distinguish them from the translations.

A vocalized text, prepared by Smith, has been provided next to the translation of each column. The *Ugaritica V* polyglot lists, Ugaritic loanwords into Akkadian texts from Ras Shamra and the three Ugaritic

forms of ʾ (ʾaleph in Hebrew)[1] provide information about the vocalization of many Ugaritic words. Because of these sources, it is possible to do more than simply compare the vocalizations of cognate words in other Semitic languages. But still, as noted by numerous scholars,[2] there are many uncertainties in the attempt to vocalize Ugaritic. On this score, we would cite the well-placed evaluation of the situation offered by Ullendorff (1994:359):

> I remain, however, profoundly convinced that our knowledge of the vowel system of Ugaritic and of its operational and functional aspects is much too limited to believe that we could reconstruct a mode of pronunciation that possesses any semblance of credibility. A small measure of progress in this field is, however feasible once we have transferred all of the recognitions derived from the patterns connected with the tripartite *ʾalef* into such features of the system as may be amenable to such transference—with all the *caveats*, contingent allowances, and regard for the intricacies of a linguistic organism that has been transmitted in a form that is far from perfect.

A plausible vocalization is not always possible, both for individual words and for some obscure passages. Because of this, some of the text has been left without vowels. In several places a lower case "v" is used to indicate the likelihood of a vowel in a word when the identity of the vowel is unknown. "Anceps" vowels (i.e., vowels that may be long or short) are unmarked.

Despite these obvious problems facing the vocalization of Ugaritic texts, there are three reasons we believe it is appropriate to provide such a rendering. First, for those knowledgeable in Ugaritic, a vocalized text makes explicit the grammatical analysis underlying the translation. Secondly, we believe that it thus makes the commentary easier to follow. The vocalized text and the translation can be read together as the reader peruses the commentary. Third, it helps to indicate to an imperfect degree some of the assonance that occurs in the poetry. While the assonance represented in a vocalized text must remain largely theoretical, it still gives the reader a sense of this device that would be much more difficult to envision when looking at the unvocalized text.

Indeed, we would encourage the reader to speak the lines aloud a few times to gain a feeling for its sonant quality.

6. *Commentary*

The commentary for each column begins with a poetic analysis, primarily the work of Smith, consisting of the vocalization of each colon, followed first by a scanning of semantic parallelism (indicated by lower case letters) and then by word and syllable counts. The scanning of semantic parallelism renders construct phrases as a single unit, but where construct phrases in a second or third line correspond to a single word in the previous line within a colon, the siglum "x + y" is given in parentheses, following the practice of Pardee (1988b:9, 77–78). In a number of instances, this practice has been extended by indicating apposition within clusters, especially for divine names with epithets, with the comma in "x, y." While the sigla for parallelism include both grammatical and semantic parallelism (cf. Pardee 1988b:9–10 n. 15), some of the more distinctive features of grammatical parallelism are discussed in the remarks that follow the presentation of the cola. The word and syllable counts indicate the length of lines within a poetic unit. At times, a word count may be misleading by suggesting an imbalance in the length of the lines, while the syllable count in the same unit not infrequently corrects this misimpression. The word count remains of some help, however, since the syllable count naturally depends on our vocalization and is therefore somewhat theoretical.

An analysis of each poetic unit follows. It provides remarks bearing on various sorts of parallelism—syntactical, morphological and sonant (among many works on the subject, see Hrushovski 1971:1201–2; Berlin 1985; Greenstein 1986–87). The syntactical parallelism is not treated according to any specific system, but an attempt is made to indicate how these sorts of parallelism may bind and contrast lines of cola, especially in the absence of apparent semantic parallelism. Berlin's treatment of sound pairs has advanced the understanding of sonant parallelism, and her definition of a sound pair (Berlin 1985:104; Berlin's italics) is followed in this volume: "*the repetition in parallel words or lines of the same or similar consonants in any order within close proximity*." Observations regarding various links between cola in this commentary are based more specifically on three criteria used by Berlin to delimit sonant parallelism (Berlin 1985:105): (i) "at least two sets of consonants must be involved"; (ii) "the sets must be in close proximity, within a word or adjacent words in both lines"; and (iii) " 'same or

similar consonant' means the identical phoneme, an allophone…, or two phonemes which are articulated similarly…". Berlin's observations are a helpful beginning point. Morphology also combines with root letters to generate sonant parallelism. For the sake of discussion, we have also entertained some cases of anacrusis, although it is difficult to know how operative a feature this truly was.[3] Furthermore, it is occasionally possible to suggest how formal features may affect the understanding of the content. They may shape the perspective given to the content or suggest further meaning. In these instances, one may sense the performative character of the poetic medium. Indeed, the poetry of the Baal Cycle is sometimes so passionate and imaginative that even modern minds molded by sensibilities so distant from ancient Ugarit may be profoundly moved. Clearly, we have not exhausted the observations that might be made about poetic features on the colonic and super-colonic levels in the meticulous manner presented by Pardee (1988b). Without denying the value of Pardee's approach, we have attempted instead to identify distinctive features especially within cola (see Berlin 1985:130–40; Parker 1990:504). We have not ventured a strophic analysis of the texts, largely because we find it more useful to discern the units according to type-scenes and other aspects of content in combination with syntax (such as different uses and positions of verbal forms, discussed below). We both have found it impossible to discern strophes as such in the narrative poetry (for comparable skepticism on this issue, see Pardee 1993:156–57).

The poetic analysis is followed by a brief introduction to the literary context of the column and sometimes to the primary interpretational issues raised by the text. The commentary then presents detailed exegesis. The smallest unit of interpretation is the word followed in complexity by the syntax of a phrase; the clause; the sentence (often equivalent to a line); the colon (of which there are three general types, the monocolon, the bicolon and the tricolon); multi-cola units; and the larger setting of narrative or direct speech. Within these various units of length are other indicators of meaning: formulas varying in intricacy,

[3] For other proposed cases, see Ginsberg 1936:171; Watson 1986a:110–11. For anacrusis, we have operated with two implicit assumptions, following Ginsberg: (i) with the opening term set off from the rest of the colon, the basic poetic parallelism of the rest of the colon is simpler; and (ii) the line-lengths of the remaining lines (without the term in anacrusis) appear more proximate with line-lengths generally found in Ugaritic narrative poetry. For interesting cases of line-length, see the discussions of 1.3 II 5–7 (*whln*); 1.3 V 35–36//1.4 I 4–6//1.4 IV 47–48 (*'any*); and 1.4 I 20–22 (*šskn m*ʿ).

form-critical elements, type-scenes, and intertextual relationships with other passages.[4] Each of the units of length and other features provide insights, as well as checks and balances, on interpretation. In short, there is no philology without literary analysis; in turn, literary analysis has no foundation without sound philology. Literary structures and form-critical elements are noted in the section-by-section commentary, which correspond to the divisions made in the translation.

Detailed philological notes for some words appear in the commentary proper. Otherwise, they have been relegated to footnotes to the translation when philological discussions are judged not to be central to the commentary. Readers will find further available philological options not discussed in this volume provided either in the notes of Caquot, Sznycer and Herdner (*TO 1*), Cassuto (*GA*), de Moor (1987), Pardee (1997a), the glossaries of *UT* and del Olmo Lete (*MLC*), the monographs of de Moor (*SPUMB*) and van Zijl (*Baal*), the list of Pardee (1987c; cf. 1980), the dictionary of del Olmo Lete and Sanmartín (*DLU*, now in an important, expanded edition, *DUL*), or the many other studies provided in the bibliography for each column. It seems unnecessary in most cases to duplicate the philological information given in all of these works. Indeed, it appears misguided to list every proposed etymology, although some philological controversies have been deemed significant enough to warrant fairly detailed discussion. For the most part, we would characterize our philological analyses as tending toward the scholarly consensus and avoiding highly irregular interpretations, although we have not avoided making new suggestions when the evidence points in such a direction. The context of a word, whether it involves the syntax of the line, the parallelism within a colon, or a fixed expression or *topos* or even a word's usage elsewhere within Ugaritic, represents the final determinant for suggested etymologies. While it is not always possible to offer a solution that meets all the criteria suggested by the various levels of unit (line, colon, etc.), this standard remains the goal.

In this commentary we have tried to avoid including extraneous material. But occasionally a brief side trip into a peripheral area seemed worthwhile. The larger of these have been placed into excurses, which we hope may provide some wider background to specific passages. These are delimited from the rest of the commentary, so readers wishing to

[4] Ginsberg 1948:139; Parker 1989b:7–59; Fisher, *RSP III* 253, 260 n. 16; Whitaker, *RSP III* 209–11.

avoid this extra material may skip over these sections. In the body of the commentary, we have also frequently quoted a text and/or translation of various passages not in 1.3 or 1.4 in order to illustrate their pertinence, instead of assuming that by mere citation of their text number, readers would understand the point of comparison. The commentary is fairly inclusive and representative of scholarly views, without the massive encumbrance to reading that a full citation of scholarly views would entail.[5] We apologize in advance to any scholars who judge that their work has been overlooked or slighted by omission. Finally, we felt it worthwhile at times to duplicate some material in order to reduce the already great amount (albeit necessary) of cross-referencing in this volume and back to the first volume of the commentary.

A few other additional features distinguish this volume of the commentary from its predecessor volume, *UBC* I. The first involves an effort to offer more remarks bearing on verbal syntax, and in particular, the position of the verb. In his Memoria de Licenciatura, Andrés Piquer Otero (2000) applied the approach of text linguistics (as found in the work of Niccacci 1990 and others) to the first two tablets of the Baal Cycle. He has since applied the same strategy to the cycle as a whole (Piquer Otero 2003). The approach holds three theoretical advantages over most discussions of the verb in narrative poetry, including *UBC* 1:39–57. First, it systematically distinguishes usage in direct discourse from usage in narrative. Second, it further refines usage within both direct discourse and narrative based on word order. As a result, the approach yields a systematic examination of the usages of the verb. Third, establishing the standard types of verbal syntax provides a baseline for recognizing further rhetorical departures and elaborations (for a good example, see the commentary on 1.3 II 3–16). Piquer Otero's approach, which is laid out in the Introduction, offers a further means to clarify the verbal system beyond the remarks offered in *UBC* 1:39–58.

A second additional feature of this volume involves the range of material consulted. This volume pays more attention to the material culture of the Late Bronze Age Levant. The last decade has seen an ever-increasing recognition of the need to bring into dialogue all sorts

[5] A detailed bibliographical listing for the two tablets treated in this volume can be found in AOAT 20/6:404–30. For further bibliography more generally, see AOAT 20/1–6 for works up to 1988. For works during the 1970s, see also the *Newsletter for Ugaritic Studies*.

of evidence, including different genres of texts, iconography in various media, and all kinds of the realia afforded by archaeological excavations. Such an approach issues in this volume's regular reference to cultural artifacts, which we hope will help readers visualize the realia alluded to by the texts. We would note that such a synthetic approach may skew textual interpretation in favor of those social segments that produced and patronized such realia. In the case of ancient Ugarit, this would be the monarchy, the priesthood and related elites. However, this may not be as great a difficulty as it may first appear, since the Baal Cycle itself is a product of such social settings; the colophon of the text (1.6 VI) indicates that it was created in the context of the monarchy and transmitted within royal-priestly circles. Indeed, the Baal Cycle, a text putatively concerned with Baal's divine kingship, is a basic resource for understanding the conceptual world of kingship at Ugarit in the Late Bronze Age. From comparison with various texts, iconography and material culture, it is possible to understand just how deeply the Baal Cycle has drawn from the world of ancient Ugarit, and, consequently, just how vividly the text has presented an order and vision of an ideal world for Ugarit.

Occasionally we range beyond the comparative material from the Near East, generally in areas where previous scholars have already noted parallels from distant cultures. For example, earlier comparative studies of Anat and Kali have required us to consider how the Hindu deity might illuminate the understanding of the Ugaritic goddess. In so doing we have also found that insight into other aspects of the poem may be gained through the examination of the living temple traditions of India. At the same time we remain acutely aware of the vast cultural difference between such distant cultures and try to avoid any simplistic or superficial parallels in our analysis.

We have also attempted to make use of studies in anthropology, sociology, psychology, evolutionary biology and psychobiology to look at more broadly human aspects of the narrative, particularly with regard to social structure, emotions, and perceptions concerning parts of the body. We make no claim to expertise in these fields, but attempt to engage them in the search to understand some features of the Baal Cycle. Some of the more extended discussions based on these fields are confined to the excurses so that they can be clearly demarcated from ancient evidence as such.

One final point. We have tried to minimize outright speculation in this commentary. But with the vast uncertainties that plague the

interpretation of these tablets, we have found it worthwhile sometimes to indulge ourselves. We have tried to signal clearly when we propose ideas that are less grounded in the evidence than we might wish. As long as readers can recognize the difference between what the data support reasonably well and what represents more speculative territory, then we think it is appropriate to present both sorts of discussions. It is evident that the text evoked for its ancient audience considerably more than we can guess, even in our more speculative explorations. All we can do is examine the limits of what we know, offer our best scholarly guesses, and lay out for readers both the evidence and interpretive proposals in the hope that in the future students of these texts will be able to correct and extend the understanding of them.

7. *Bibliography*

The bibliography at the end of the commentary provides documentation for the secondary sources cited in the volume. The bibliography for the Baal Cycle is extensive. The "social science" format is used for citing secondary literature, thereby reducing the number of footnotes. In most cases, we have updated references to the most recent editions of works (e.g., *DLU* to *DUL*; and *KTU* to *CAT*). In a handful of cases, we have retained citations of an older work, in order to credit the earlier stage of research (e.g., Schloen 1995). The bibliography runs up into 2005 (with the most recent number of *UF* available being volume 35). A few more recent items have been dealt with during final revisions.

8. *Images of the Tablets and Overlaid Facsimiles*

A DVD-ROM accompanies this volume. It provides a selection of images of 1.3, 1.4 and 1.8 (along with a pair of shots of 1.13) taken by Pitard in 1985, 1995 (with Theodore Lewis) and 1999 in the Aleppo National Museum. Besides general shots of the obverse and reverse of each tablet, the images include more detailed shots that cover usually between ten and fifteen lines of text. Each of these images is supplemented with a superimposable drawing produced by Pitard, whose function is to illustrate what we as editors actually read on the tablet. The drawings may be clicked on and off to allow the viewer to evaluate the drawings by comparing the image directly below them. The images may also be enlarged for better inspection.

The images are numbered consecutively from 1 to 92. Each number is followed by a longer tag that tells the viewer the tablet, column and lines that are the focus of the image. Thus 35–T4C1L17–30 is Image

35, Tablet 1.4, Column 1, Lines 17–30. The line numbers indicate the lines that have an accompanying superimposable drawing. There are many cases where lines appear in more than one image, but they are drawn only once. Tablet 1.3 is covered in Images 1–26; Tablet 1.4 in Images 27–87. Images 88–90 show *CAT* 1.8, which is now identified as the top of 1.3 VI, while Images 91–92 show part of *CAT* 1.13, discussed on pp. 178–80. The latter two images do not have accompanying drawings.

Most of the images are in color and come from the 1995 and 1999 projects. Unfortunately, a political indiscretion by Pitard led to an abrupt termination of the 1999 project before new and better photographs of the edges of the tablets could be taken. Thus for the edges, we have been forced to use Pitard's early black and white photographs from 1985, before he had been trained in photographic technique by Bruce Zuckerman. Most of these provide serviceable images of the signs. The only problematic spot among these images is #12, which shows 1.3 III 45–47 on the lower edge of the tablet. This photo is somewhat out of focus, and particularly the right sides of the lines are difficult to read. There is also one set of lines for which we have no photo—the three broken lines on the obverse of the small fragment of 1.3, RS 2.[014] = III 1–3. However, the original photograph from the Mission de Ras Shamra's archive is available, as are Pitard's images, on the important epigraphic website, InscriptiFact, at http://www.inscriptifact.com, an undertaking of the West Semitic Research Project, directed by Bruce Zuckerman.

In the abridged 1999 season, measurement indicators were included in the images (Images 27–33, 43–49, 56–63, 68–86, 88, 91–92). On the general shots of the obverse and reverse of 1.4, the measurement intervals are one centimeter. In the detail shots, the intervals represent five millimeters.

The drawings make use of different colors to indicate aspects of the tablets. The *turquoise* lines show where the edges of the wedges are preserved. *Dark blue* areas indicate the deep interiors of wedges whose edges have not survived. *Red* lines indicate uncertain hints of wedges. *Purple hatching* indicates places where the surface of the tablet is broken away, *green dots* indicate where encrustations have filled in wedges and *yellow* wedges mark wedges that the scribe mistakenly made, but did not cover before continuing his work.

We wish to thank Joshua Tomaszewski of ATLAS Digital Media at the University of Illinois, and Paul Bengt Riismandel, also of ATLAS,

for taking on the project of developing the DVD-ROM. The Flash application is designed to be run on a web-browser (which does not need to be connected to the internet for this). On most PCs, the disc should begin automatically. For Apple and Linux, open the disc icon and click on the "ClickToStart.html" icon. The opening page allows one to enter the Tablet Viewer application or to look over the Instructions. After clicking to start the Viewer, one will find the image menu screen. On the right are forward and backward buttons for scrolling up and down the thumbnails of the images. To look at an image, you click on the thumbnail. The number of the image will appear in the small tab at the top of the screen. Then you click the left button at the bottom, and you will be taken to the Main Screen for that image. (Most web browsers will also allow you to simply double-click the thumbnail to bring up the full image). The buttons along the bottom are fairly self-explanatory. From left to right they are as follows:

Button with C: re-center the image
Button with left-pointing arrow: move image toward left
Button with right-pointing arrow: move image toward right
Button with up-pointing arrow: move image up
Button with down-pointing arrow: move image down
Button with overlying rectangles: toggle switch to overlay the facsimile drawing, or return to the original photo
Button with plus: Zoom in
Button with minus: Zoom out
Button with X: Reset to original size
Button with four small squares: Return to image menu

The Tablet Viewer may be run directly from the DVD, or it may be downloaded onto your computer's hard drive and run from there. The images, including the overlays, are JPEGs and may be opened separately from the viewing program using any imaging application, such as Adobe Photoshop.

INTRODUCTION

The commentary to the first two tablets of the Ugaritic Baal Cycle (KTU/CAT 1.1 and 1.2), which dealt with Baal's battle against Sea, appeared in print in 1994, under the title, *The Ugaritic Baal Cycle: Volume I. Introduction with Text, Translation and Commentary of KTU 1.1–1.2* (henceforth *UBC* 1; for corrections, see Smith 1994b; see also the reviews of Loretz 1995b; del Olmo Lete 1996 and Pardee 1998c; note also Pardee ip 2 on the epigraphy of CAT 1.1, and Piquer Otero 2000 and 2003:67–72, 80–197 on the verbal syntax of CAT 1.1–1.2). This second volume of commentary treats the middle two tablets of the cycle, 1.3 and 1.4, which recount the story of how Baal got his great palace on Mount Sapan. These two tablets are the best-preserved texts of the Baal Cycle, although they are far from complete. Tablet 1.3 has lost approximately the upper third of the obverse, and the corresponding lower third of the reverse. Approximately 75% of 1.4 is preserved, with at least portions of some 396 out the tablet's original 540–550 lines surviving. Although a few scholars have expressed doubts that these two tablets belong together as a single narrative (see the discussion in *UBC* 1.7–11), a fully plausible, coherent and consecutive storyline across the tablets can, in fact, be easily discerned.

Our analysis of the general plot is as follows. 1.3 begins with Baal hosting a feast on Mount Sapan, although the identities of the attendees and the purpose of the banquet are lost in the lacuna at the beginning of column I. If we are correct in seeing 1.3 as a continuation of the story from 1.2, then we may suggest that the feast is a celebration of Baal's victory over Yamm. The scene is broken off prematurely by a long lacuna of some 37–40 lines at the end of column I and at the beginning of column II. When the text reappears in column II, we find ourselves in a very different scene, whose relationship to column I is quite unclear. In this section Anat is at the center of the story, as she marches out to battle against a human army. The reason for this conflict is not preserved, but Anat slaughters the enemy forces in a strikingly brutal fashion. After wiping out even her prisoners, the goddess cleanses and beautifies herself. In column III we find the beginning of the storyline that constitutes the primary theme of the two tablets: Baal's need for a palace appropriate for his new position as leader of

the divine council and as provider of the rain for the earth. When the text becomes extant, the scene has shifted back to Baal, who is giving his messengers Gapn and Ugar a message for Anat. As they approach Anat, the goddess' first reaction is that they must be bringing bad news of another attack against Baal. Gapn and Ugar assure her that that is not the case and deliver their message, a request that she come to Mount Sapan to confer with Baal (column IV). She immediately departs, and upon her arrival, hears Baal's lament over his lack of a palace. It is clear that Baal must have El's permission before he can build one. Anat agrees to take Baal's lament to El to get the old patriarch to give his okay to the project. If he does not, Anat threatens, she will beat him up until he gives in. She journeys to El's abode, but finds herself unable even to get a proper audience with the god. Speaking from an outer room, she belligerently presents Baal's case (column V). In the lacuna at the end of column V, it appears that El turns down her request, apparently unintimidated by her threats. Anat returns to Mount Sapan (also in the lacuna), where Baal proceeds with a second plan, i.e., to enlist the aid of Athirat, the mother of the gods and the wife of El, to convince the latter about Baal's need for a palace (column VI + *CAT* 1.8). He now sends his messengers Gapn and Ugar to the craftsman god, Kothar-wa-Hasis, to ask him to make elaborate gifts for Athirat (1.4 I). Kothar immediately enters his smith shop and forms spectacular gifts of gold and silver, primarily pieces of furniture fit for the Mother of the gods. After a lacuna of some sixteen lines at the beginning of column II, we find Athirat going about her domestic duties by the seashore. As Baal and Anat approach, the goddess at first is afraid that they are about to attack her and her family. But seeing that they are bearing gifts, she realizes that they are coming with peaceful intentions. She prepares a feast for her guests, and after a lacuna at the beginning of column III, we find Baal recounting an event in which he had been treated very badly at an assembly of the gods. The significance of this passage within the larger context is not clear. But following this speech, Baal and Anat arrive at the banquet, give Athirat the gifts and secure Athirat's cooperation. In column IV Athirat travels to El's abode, where she is greeted with great warmth by El. She presents Baal's situation to her husband, and El grants his permission. In her reaction to this (column V), Athirat articulates the critical function of this new palace, stating that with the building of the palace, Baal will be able to send forth his rains upon the earth.

Athirat then calls upon Anat (who had accompanied her to El's tent) to take the news to Baal. Baal rejoices and begins to gather the materials for the palace. He also sends for Kothar-wa-Hasis to supervise the construction. When Kothar arrives, he proposes putting a window in the palace, but Baal rejects the idea. In column VI the palace is built, and Baal invites the seventy children of Athirat to a grand banquet in celebration. The gods come and eat and implicitly accept Baal's position as ruler of the gods. After the banquet, Baal comes to the earth, and in traveling across it, he accepts the submission of all its cities. The god then returns to his palace and tells Kothar that he has changed his mind; he will allow a window in the palace. The window is built and through it (it is portrayed as a rift in the clouds), Baal sends forth his mighty voice. The earth trembles and his enemies flee to the mountains. With a cedar spear in his hand, he sits enthroned as ruler of heaven and earth. But Mot, the god of the netherworld, has not recognized Baal's authority. Baal calls his messengers Gapn and Ugar and instructs them on how to take a message to Mot (column VIII). The tablet breaks off as Baal begins to recite his message.

The story of the building of Baal's palace, which takes up the bulk of 1.3 and 1.4, is the central story of the Baal Cycle physically, as it is flanked on each side by the accounts of the conflicts with Yamm and Mot. Theologically this middle section is also central: the climactic image of the episode in 1.4 VII of Baal enthroned, lord of heaven and earth, mighty warrior whose voice is the thunder and who sends forth the rains to water the earth, is certainly the primary image of the god for his worshippers in Ugarit. No matter how many difficulties the story places before Baal in reaching this point, he does arrive at his epiphany with full power and no rivals. The previous episode concerning Yamm shows his ability to overcome great challenges. The following episode depicting his challenge of Mot points out something that everyone knew: even the god of life must share the universe with death. But on earth, life remains the more powerful and more durable. At the end of each of these episodes, Baal's rulership is proclaimed (1.2 IV 32–37; 1.4 VI 38–VII 42; 1.6 VI 33–35). But the truly defining image of his kingship is the one in 1.4.

Research on the Baal Cycle Since 1994

In the decade since the first volume *UBC* 1 was published, a number of new works on the Baal Cycle have appeared, both translations (Dietrich and Loretz 1997; Pardee 1997a; Wyatt 1998; Smith in *UNP*) and studies on specific aspects of the poem (Greenstein 2006; Herr 1995; Korpel 1998; Kruger 1995; Page 1998; Piquer Otero 2000, 2003; Wiggins 2000; Wyatt 2002; see also Wyatt 1996). Smith 2001a deals with a number of aspects concerning the nature of the Ugaritic understanding of the gods that may be considered a supplement to the discussions in both *UBC* 1 and this introduction. The field has also benefitted from some new archaeological discoveries, especially the recovery of a substantial archive of tablets in the house of Urtenu, a high official in the court of Niqmaddu IV (formerly III—see Arnaud 1999) at the end of the thirteenth century. Texts found there from the 1986 to 1992 seasons have been published (Yon and Arnaud, *Etudes* 235–407; cf. also Pardee 2002), while a large number of tablets found during the 1994 season and a few subsequent finds are in preparation. Of signal importance for the history of the city of Ugarit are four new king-lists, one found in 1988 and three in 1994, which have dramatically increased our knowledge of the succession of Ugaritic monarchs from the eighteenth to the early twelfth centuries (Arnaud 1999; Lackenbacher 2002:23 n. 12, 210, 253, 357, and the bibliography cited therein; Pardee 2002:195–210).

Perhaps the most significant discovery specifically concerning the Baal Cycle came to our attention just as we were completing the final revisions of this commentary in March, 2008. Dennis Pardee informed us of his startling discovery that CAT 1.8, a small fragment that has traditionally been thought of as a school text made of up a series of random quotes from the Baal Cycle, is actually the missing beginning of column VI of tablet 1.3. Pardee has kindly provided us with his unpublished manuscript concerning this discovery, and we find his discussion compelling (Pardee i.p.). We have thus revised our discussion of 1.3 VI in light of this, and also 1.4 VII, where a close parallel to several lines of 1.8 is found.

The study of the Ugaritic texts has advanced in other areas. New editions of many of the alphabetic tablets by Pardee (1998b, 2000, 2002) and by Pitard (1998) have dramatically improved and stabilized the readings of the texts. The improved readings are reflected in a number of the recent translations, including Pardee (1997a), Wyatt (1998) and *UNP*. New dictionaries of Ugaritic, *DLU* (now in a second

edition in English, *DUL*), and grammars of the language by Sivan (1997), Tropper *UG*; Tropper 2002a; and Bordreuil and Pardee 2004; see also Pardee 2005, an exhaustive review of Tropper) have provided comprehensive aids to the study of Ugaritic texts. A new translation, with extensive notes, of many of the Akkadian texts from Ugarit has appeared in the LAPO series (Lackenbacher 2002). Recent studies of Ugaritic and other West Semitic iconography (e.g., Cornelius 1994) and archaeological remains (e.g., Callot 1994; Yon, Sznycer and Bordreuil 1995; Bounni and Lagarce 1998; *Etudes* 9–190) have contributed important background for the realia mentioned in the texts. Important articles (see *UF*), dissertations (Dalix 1997; Burns 2002) and books (e.g., Clemens 2001b; Zamora 2000) that focus on a wide range of aspects concerning the culture of Ugarit continue to appear as well.

Of comparable importance, the study of the broader landscape of northern Syria during the Middle and Late Bronze Ages has developed considerably since 1994 when *UBC* 1 appeared. New religious texts from Mari have been published (Durand 2002). More Emar texts have appeared (Beckman 1996; Westenholz 2000), and the texts from Emar published in the late 1980s and early 1990s have benefitted from further research and studies (e.g., Fleming 2000a, 2000b). Ebla continues to provide further backdrop (e.g., Fronzaroli 1997; Pomponio and Xella 1997; Viganò 2000). Important new works in the wider area of the West Semitic languages have also appeared (e.g., Hoch 1994; Mankowski 2000; Pentiuc 2001). A significant study of Emarite glyptic has also appeared (Beyer 2001). New studies on ancient Syrian culture and religion have likewise added considerably to our knowledge (e.g., Schwemer 2001; Feliu 2003; see also *DDD*). The advances afforded by these works have been considerable. Readers of this second volume will note several instances in which this material plays a role in our reconstructions. As we will indicate, the literary presentation of the Baal cycle was certainly informed by the real-life cultural phenomena that are illustrated in other types of texts from Ugarit, Emar and Mari. Literature, of course, emerges out of cultural experience, and this is very true of religious literature.

We have also found that the cultures of Mesopotamia, Egypt and Anatolia have added to the general fund of valuable information pertinent to the study of the Baal Cycle. The new large-scale compilation of Near Eastern texts in English translation, *The Context of Scripture* (1997–2002) has made available a vast array of compositions in an easily accessible format. In addition, the publication of Mesopotamian texts

in two monumental series has been a boon to historians: The Royal Inscriptions of Mesopotamia series (produced by the team at the University of Toronto led by Douglas Frayne), and the State Archives of Assyria series (headed by Simo Parpola at the University of Helsinki). Study of later periods throughout the ancient Near East likewise continues to transform the scholarly understanding of the entire region.

All of these areas have added considerably to our knowledge of the cultural and linguistic phenomena in the Baal Cycle, and we believe that this commentary makes its own contribution to the ongoing study of the text. However, standing at the end of our labor on CAT 1.3–1.4, we find it quite evident that this text continues to hold many impenetrable secrets. Scholars of Ugaritic labor under the massive constraint described by Qohelet 7:24 (in a somewhat free translation):

rāḥôq mâ-šŝĕhāyâ	Distant is the past,
wĕʿāmōq ʿāmôq	Deep, so deep:
mî yimṣāʾennû	Who can discover it?

Even if the tablets of the cycle had not suffered from their many material lacunas, the gaps in our cultural knowledge suggest that for all that may be achieved by way of an overarching understanding of the text's plot and its political and cultural importance, much of its depth remains beyond the plumbing by its modern students. This commentary can therefore offer only a partial reading of this text. Nonetheless, from what has survived, we believe that readers may gain a sense of its power, its beauty, its glory. Of necessity then, this volume of the commentary like its predecessor volume *UBC* 1 constitutes a step along the journey.

Before launching into the commentary proper, this Introduction addresses several issues: (1) textual matters, additional to the material presented in *UBC* 1; (2) verbal syntax in the Baal Cycle; (3) a discussion of the literary character of the building narrative in 1.3–1.4; (4) reflections on the presentation of the divine geography and family relationships in the Baal Cycle and (5) some consideration of the connection between the heavenly realm described in the cycle and its earthly reflection in the temple of Baal at Ugarit.

Textual Matters

Authorship and Date of the Tablets (cf. UBC *1.1–2)*

The inscribing of the extant tablets of the Baal Cycle is attributed to Ilimalku (or Ilimilku),[1] whose name is preserved in the colophon at the end of 1.6 VI. The clear consistency of the scribal hand of this tablet with the other tablets and fragments assigned to the cycle indicates that he produced the entire series. Ilimalku has been dated traditionally to the middle of the fourteenth century. However, in recent years, several scholars (particularly those connected to the Mission de Ras Shamra) have suggested that he may have flourished instead during the late thirteenth century (Dalix 1996; Pardee 1997a:241 n. 3). The issue has arisen because of the discovery in 1992 of a fragmentary mythological text (RS 92.2016) in the house of Urtenu that contains a colophon that probably belongs to Ilimalku (Caquot and Dalix 2001). Since Urtenu's library belongs essentially to the end of the thirteenth century, when he was an official in the court of Niqmaddu IV, one can plausibly propose that Ilimalku was contemporary with Urtenu. Pardee has pointed out that the "House of the High Priest" where the Baal Cycle was recovered, also survived until the end of the Late Bronze city, ca. 1185 BCE (1997a:241 n. 3). Assuming that the tablets were part of the library at the end of the house's existence,[2] there is no reason to reject the possibility that they were written in the thirteenth century.[3]

---

[1] The vocalization for this name standard in Ugaritic studies has been *'ilimilku*. However, van Soldt has argued for *'ilimalku*. For this view, see van Soldt 1991:21 n. 182, 27–29; *UBC* 1.3 n. 6; Lackenbacher 2002:237 n. 808. The evidence for ***malku* based on the vocabularies is admittedly not definitive for a proper name. See the more extensive discussion below, pp. 727–28.

[2] Schaeffer argued in the original report for the third season (1931) that some of the tablets had been incorporated into the mortar for the walls of the house, suggesting that part of the texts belonged to an earlier period of the site; see Schaeffer 1932:22. But the original inventory only lists three fragments, RS 3.321, 339 and 346, as being found in mortar (Cunchillos 1989:60–61) and, as Cunchillos 1989:87 notes, the mortar more likely adhered to the tablets only during the fire that destroyed the house.

[3] Pardee has noted that there is no certainty that the Ugaritic script was in existence during the reign of Niqmaddu III. Only one tablet besides the Ilimalku texts (CAT 3.1) has been attributed to the reign of this king, but Pardee (2003a) has made a plausible case for attributing it to the reign of Niqmaddu IV in the thirteenth century.

The primary evidence for dating the tablets to the fourteenth century and the reign of the Niqmaddu of that period (i.e. now III instead of II) is the appearance of a scribe Ilimalku on two Akkadian legal tablets (RS 17.61 and 17.67) found in the house of Rašapabu (*Ugaritica* V 13–15). RS 17.61 contains the names of two other persons, Irib-ilu, the governor (*rābiṣu*) of Raqdu (lines 3 and 21) and ʿAbdu the son of ʿAbdi-rašap (line 17), who also appear on other tablets that can be clearly dated to the mid-fourteenth century (see van Soldt 1991:27–28). The first name, Irib-ilu, is also found in RS 16.190 (*PRU* III 64), in which Niqmaddu the son of Ammištamru gives him a field. Irib-ilu is referred to in the text as "his governor (*rābiṣišu*)." ʿAbdu son of ʿAbdi-rašap is well-known from five tablets found in the royal palace (RS 15.254D, 16.239; 16.143; 16.157; and 16.250; *PRU* III 78–86); he flourished during the reign of Arḥalba, the son of Niqmaddu III, in the fourteenth century (cf. the chronological list in Arnaud 1999:163). Thus it seems clear that a scribe Ilimalku lived and worked in Ugarit during the mid-fourteenth century. However, there is no real reason to insist that this Ilimalku is the same one who wrote the Ugaritic tablets, since neither the Akkadian nor the Ugaritic texts provide us with a patronymic for the scribe, and Ilimalku appears to have been a relatively common name (cf. *PTU* 326). One should note, however, that Dalix (1996:87–88), while attributing the two Akkadian texts with Ilimalku's name to the thirteenth century (she does not deal with the issue of the other names just discussed, cf. 83–84; however, we have not had access to her dissertation), argues that the handwriting style of the Akkadian and the Ugaritic texts shows a great deal of similarity. But Huehnergard (2003:296) has pointed out the difficulty of identifying the handwriting of a single scribe on tablets written in two different scripts.

Thus we have plausible arguments for both of the proposed dates. On the one hand, if the scribe Ilimalku of the Akkadian texts is the same person as the Ilimalku of the Ugaritic tablets, then the evidence would support a fourteenth century date. But there is not solid evidence that they are the same person, and the discovery of the new Ilimalku Ugaritic text in the early twelfth century destruction layer of the house of Urtenu may point to a later date for the scribe. Until further evidence arises, it seems that this issue will remain unresolved.

*The Order of the Tablets and their Narrative and Thematic Continuity (*UBC *1.2–19)*

UBC 1 argues that the Baal Cycle consists of three major episodes: (1) the conflict between Baal and Yamm, which can be viewed as ending with Baal's victory banquet in CAT 1.3 I, or perhaps the cessation of hostilities in 1.3 II; (2) the quest for Baal's palace (1.3 III–1.4 VII); and (3) the conflict between Baal and Mot (1.4 VIII–1.6 VI). As can be seen, these three parts do not correspond exactly to the beginnings or endings of the tablets. This situation is strong support for understanding the tablets as an organic unity, and indicates that it is misleading to refer to the three parts as 1.1–1.2, 1.3–1.4 and 1.5–1.6, as is conventionally done. The case for arranging 1.3 and 1.4 as a continuous story has been substantially strengthened by the placement of CAT 1.8 at the beginning of 1.3 VI (Pardee i.p.). 1.8 begins with a specific reference to the making of gifts for Athirat in order that she might support Baal's argument for a new palace. That removes any doubt that the events of 1.4 I immediately follow the events of 1.3 VI.

UBC 1:2–19 argued for the unity of the cycle, but it also noted that this issue is not fully resolved. The greatest uncertainty pertains to the first two tablets. There is no doubt that 1.5 and 1.6 constitute a continuous narrative, and, as will be seen in this commentary 1.3–1.6 show very strong congruence. The question of the relationship between 1.1 and 1.2 with the rest of the cycle was discussed in *UBC* 1.12–19. In response to arguments offered by Meier (1986, 1989; cf. Pardee 1997a:245 n. 34), *UBC* 1.12 discussed the possibility that the extant tablets and fragments may represent more than one version of the Baal-Yamm story. Pardee (1997a:242 n. 4; see also Pardee 1998c:47–48) disputed that proposal by arguing that it is highly unlikely that there were multiple copies of the Baal Cycle in the House of the High Priest:

> An element often omitted in the discussion of whether these six tablets constitute a literary unity is the indisputable fact that, up to the present, no single instance of a duplicate mythological text is known: there are six clear instances of brief "quotations" from known texts . . . and there are clear instances of formulaic repetition in different texts. But it nonetheless appears beyond the realm of plausibility that the six tablets known today of the Ba'lu cycle would come from "two versions of the Baal Cycle" (Smith 1994:12) and yet show no overlapping text.

This argument is worthy of serious consideration, in spite of the fact that it is an argument from silence. But one should note that it is

possible that some overlap can be observed between 1.1 III and 1.2 III (*UBC* 1.22). If this is the case (the damaged nature of both columns precludes certainty in this matter), and particularly if 1.2 III, which does not have an actual join with 1.2 I–IV, belongs to an independent and otherwise unattested tablet (cf. *UBC* 1.22–25), then the two tablets might in fact be duplicates (on this particular issue Pardee does not comment directly). Thus we must still leave open the possibility that either 1.1 or 1.2 III does not belong to the copy of the cycle represented by 1.3–1.6. In spite of this uncertainty, however, there seems little reason to doubt that the story of the conflict between Baal and Yamm, particularly as discernable in 1.2 I and IV, was a major part of the Baal Cycle (for criticism of Meier 1986 and 1989:154–55 who argued against the relationship of 1.2 to the rest of the cycle, see *UBC* 1.12–14 and Korpel 1998:90, n. 16).[4] Our proposal suggesting that 1.3 I (and perhaps II) constitute the conclusion of the Yamm episode, if accepted, would further support a close relationship between 1.2 and the rest of the cycle.

Literary History and Social Setting

The last decade has seen considerable discussion of the role of Ilimalku in producing the major Ugaritic literary texts, including the Baal Cycle.

---

[4] The concern expressed in *UBC* I (p. 14) about the distance between the find spots of 1.1, 1.2 III and the other tablets of the cycle was misplaced. 1.1 was discovered just outside the southern doorway of the house (p.t. 345), while 1.2 III and fragments of 1.4 were found either in the doorway, or just inside the entry room (p.t. 338, 343, 341). The main fragment of 1.3 was located in the northeastern quadrant of the entry room. Also in the doorway were 1.19, 1.15 and a fragment of 1.14. The exact findspot of 1.2 I–II–IV is uncertain. Bordreuil and Pardee identify the fragment as RS 3.367, and list its point topographique as 203, which is not noted on the published plans of the House of the High Priest. If this identification is correct, the information provided by Bordreuil and Pardee 1989:29, 32 suggests that it was found in the eastern rooms of the house, no great distance from the rest (cf. also the map in Cunchillos 1989:94). Cunchillos 1989:70–72, however, argues that 1.2 I–II–IV is to be identified with RS 3.347, which was found in the same vicinity as 1.2 III (RS 3.346), at p.t. 338, 343, 341. See the discussion on 1.4 below on pp. 381–85. For the issue at hand, the uncertainty is largely irrelevant, since both potential locations for 1.2 I–II–IV are within the house. The location of the tablet fragments of the Baal Cycle fits well into the probable conditions of the destruction of the house, in which the house was ransacked before being burned. The issue of the discovery of a fragment of 1.6 (RS 5.155) at a location some thirty meters from the House of the High Priest will be discussed in *UBC* 3.

In his review of *UBC* 1, Pardee (1998c:47–48) offers his thoughts on the subject:

> The fact that the scribe 'Ilīmilku inscribed most of the major mythological texts (Baal, Kirta, Aqhat) perhaps near the end of the thirteenth century, leads me to believe—until contrary evidence appears—that 'Ilimilku himself was the instigator and executor of these "hard" copies of age-old traditions, that he only wrote them down once, that no one else wrote down the same versions, and that the similar texts written by other scribes represent essentially different myths.

Pardee thus sees the extant tablets as the original and unique written version of the stories of Baal, Kirta and Aqhat. He does not take a stand as to whether the version of the story can be attributed directly to Ilimalku, or whether it came from a separate source, such as dictation from his teacher Attenu, as has often been suggested. However, Korpel (1998) and Wyatt (2002) assign to Ilimalku a central creative role in the production of the Baal Cycle. Both scholars try to discern a specific historical event that led the scribe to create a new and unique version of the Baal myth that we find in the tablets. Korpel (1998:106–10) argues that Ilimalku wrote the Cycle shortly before the destruction of Ugarit during a period when, she suspects, "the Ugaritic dynasty was in danger of collapsing" (107). She sees the primary theme of the Cycle (and the other poems of Ilimalku) to be that male kingship is ineffective, and that "the real power is in the hands of women" (106). She argues this from the fact that several of the female characters, Anat, Athirat and Shapshu, play significant roles in helping Baal, whom she sees as weak and timid. She suggests that Ilimalku was attempting to prepare the people of Ugarit for a possible female ruler, should the male line fail. In addition, she analyzes the texts to identify elements that show Ilimalku's individual writing style, arguing that some phrases that appear only in the Ilimalku corpus are his own original contributions, rather than traditional formulas (96–105).

Wyatt on the other hand, sees Ilimalku as the author who originally removed the Baal-Yamm story from its cosmological context, and added the stories of the building of Baal's palace and the conflict with Mot, as well as the Athtar subplots in 1.2 III and 1.6 I (2002:849–50). He also suggests that CAT 1.10 is an account of Baal's wedding, which originally ended the Cycle. For Wyatt, this is the key to understanding Ilimalku's composition—it is a mythological rendering of the royal wedding between Niqmaddu IV and a Hittite princess, as well as a

mythic counterpart to the sovereign-vassal treaty between Hatti and Ugarit (852–54).

Neither of these proposals is convincing, and neither scholar is able to marshal any clear evidence to support the reconstructions (cf. discussions of earlier attempts at placing the formation of the cycle in a specific historical context in *UBC* 1.87–96). Korpel's proposal founders on several problematic presuppositions. First, there is no evidence of her suggested crisis of succession. Secondly, her reading of the text seems to miss two important points. Although Baal does indeed need help in the stories of his conflicts, he still ends up at the conclusion of each of the three primary episodes as the undisputed ruler of the gods (1.2 IV 31–37; 1.4 VI 36–VII 42; and 1.6 VI 31–35). This is particularly emphasized in 1.4 VI–VII, where gods and humans recognize his rule, and he sends forth his mighty voice (and the rains that attend it) across the earth. Thus Anat, Athirat and Shapshu remain quite subordinate politically throughout the cycle. Thirdly, Korpel does not take into consideration the fact that stories of strong female characters are quite common in Near Eastern literature in contexts that have nothing to do with the kind of succession crisis she envisions here. One need only to look at the stories of Eve, Sarah, Rebekah and Rachel in Genesis, Deborah and Jael in Judges, and Jezebel and Athaliah in Kings, as well as the myths of Ishtar's Descent to the Netherworld and Gilgamesh Tablet VI (Ishtar and the Bull of Heaven) to see that such stories appear in texts for numerous reasons. Fourthly, her attempts to find specific duplicated passages that can be considered Ilimalku's personal compositions relies on the idea that because these passages are only found in tablets attributed to Ilimalku, they must be his own work. But such conclusions are impossible to draw, given that the only substantial literary works preserved at Ugarit are the tablets of Ilimalku. Thus there is not enough additional material with which to make such an argument. All of her examples can plausibly be viewed as traditional formulas, and her supposition that variations in the repetitions of formulas are evidence against oral tradition as the background for these phrases (1998:102) simply ignores what is known of the way oral tradition works (see Lord 1965:124–28; cf. *CMHE* 51–52, 112–117). Variations in oral formulas are quite common, particularly in the written text of a dictated oral poem.

In Wyatt's case, his arguments presuppose a specific historical event as the catalyst for the composition of the cycle, while no evidence can be produced to support the connection. It also relies heavily on his proposal

that 1.10 belongs to the cycle, something that is quite problematic (as he is aware, 2002:853), since the latter tablet gives no real indications of such a relationship, and it was written by a different scribe. Both the views of Korpel and Wyatt (also Pardee 1998c:47–48) presuppose that the tablets we have were the first time this version of the Baal story was committed to writing. But this cannot be demonstrated. In fact, there seems to be some plausible evidence that Ilimalku inscribed these tablets using a previous, written source. A number of errors found in the texts have the appearance of copying errors, rather than mistakes committed while a person freely composes (see especially Segert 1958 and note particularly his discussion of 1.17 II 17 on p. 200, which appears to be a fairly obvious case of homoeoarchton; and 1.4 II 13 on p. 202, where the mistake appears much more like a copyist's error than anything else. See also the less convincing but interesting work by Horwitz 1977, 1979). Also suggestive is the startlingly unprofessional look of the obverse of 1.4 (see the discussion in the introduction to this tablet, pp. 386–89), which seems to indicate that Ilimalku was very inexperienced when he began writing this tablet, inexperience that does not appear on any of the other tablets written by Ilimalku. This may suggest that 1.4 was the first multi-columned tablet Ilimalku attempted to inscribe. If so, then it would be unlikely that he was either composing the poem or inscribing it from dictation, since the tablet starts in the middle of the story. If one is copying from other tablets, one need not do so in order.

Pardee's emphasis on the idea that only one copy of the texts was written (since no duplicates are known), also seems to presuppose that Ilimalku wrote the tablets in the house where they were found and that any copies that might have been made from these tablets would have been stored in the same house, and thus found by the excavators. Of course, neither of these presuppositions is confirmable. There is no evidence beyond the presence of the tablets that specifically links Ilimalku's scribal activities directly to the House of the High Priest. The appearance of another Ilimalku tablet across town at the house of Urtenu shows that the mere presence of tablets attributed to a specific person does not indicate where they were produced. Nor is there clear evidence that the House of the High Priest served as a scribal school, where additional copies of the myth might have been copied (cf. van Soldt 1991:747–53 cf. Pitard i.p.). The house may rather have simply contained a real library, stocked with tablets inscribed elsewhere. A single copy of the literary works may have been all that the owner of

the library (i.e., the high priest?) needed in his house. Other copies may have existed elsewhere in the city, but there seems little reason to expect additional copies of these tablets in one house unless the house was a scribal school. In sum, the issue of Ilimalku's relationship to the poems he wrote on the tablets remains obscure.

Very little new work attempting to reconstruct the prehistory of the cycle has been done since the publication of *UBC* 1 (see pp. 29–35). Herr (1995) has attempted the most detailed recent reconstruction of the poem's development, proposing a six-layered growth but, as always, such reconstructions must rely on unprovable, though often plausible, assumptions. It seems better to pursue a more modest and general goal of illuminating the social setting and purpose of the Baal Cycle, supported by the evidence at hand (cf. the earlier discussion in *UBC* 1.105–12). The material provided by the colophon in 1.6 VI 54–58 gives us a fair amount of information about the social context in which the Cycle circulated. Ilimalku was a scribe (*spr*) who was a student or apprentice (*lmd*) under Attenu, the chief priest. If the series of epithets in lines 55b–57a belongs to Attenu, as seems likely (see the discussion in the commentary, pp. 725–28), the latter was also a highly placed member of the royal court. Although the colophons contain no specific reference to royal patronage in the production of the tablets[5] (and there may have been no specific necessity for there to be such a patronage), it seems likely that the Cycle as we have it was particularly of interest to the elite within the priestly and royal circles of Ugarit. The central theme of the cycle is the kingship of Baal. Since Baal was the patron deity of Ugarit, there seems little doubt that a text dealing with the status of Baal among the gods would have a great deal to say about the status of Ugarit and its king. At the same time, the cycle's intense focus on the divine realm probably indicates that the poem also wishes to emphasize the importance of the priestly element of society, who are involved particularly with that realm.

The focus on concerns of royalty can be observed in the way the story is told, and most significantly in the way the story of the relationship between Baal's palace and his functioning as giver of rain upon the earth

[5] Some scholars have interpreted the word *t̲ỷ* in 1.6 VI 57 as a verb meaning "to donate, present," and have thus understood this line as a reference to royal patronage for the production of these tablets. But, as discussed in the Commentary below, pp. 728–29, we do not believe that this interpretation of the word is likely. We understand it as a noun, the title of an office.

is described in 1.4 V–VII. The central importance of Baal's provision of rain is quite clear throughout the corpus of Ugaritic texts (and beyond into the Hebrew Bible; e.g., 1 Kings 17–18). It is the subject of one of the loveliest passages in the Ugaritic literary texts, 1.16 III 4–11 (on this passage, see *ANET* 148; Lipiński 1967:284–87; de Moor 1979:645–46; Parker 1989a; Greenstein, *UNP* 35; Wyatt 1997:783–84):

> Look to the earth for the rain of Baal,
> And to the field for the rain of the Most High.
> Sweet (*nʿm*) to the earth is the rain of Baal,
> And to the field, the rain of the Most High,
> Sweet for the wheat in the furrow,
> In the ploughed land for the grain,
> On the tilth like a crown.

The curse from Aqhat 1.19 I 42–46 likewise illustrates the importance attributed to Baal's precipitation (see *ANET* 153; Held 1974:108 n. 8):

> For seven years may Baal curse you,
> Eight the Cloudrider:
> No dew, no rain,
> No upsurging of the double-deeps,
> No sweetness of Baal's voice.

The importance of Baal's rain is also described in 1.4 V, when Athirat reacts to El's granting his permission for Baal to build his palace by saying:

> So now may Baal make his rain abundant,
> May he make the water greatly abundant in a downpour,
> And may he give his voice in the clouds,
> May he flash to the earth lightning.

There are two very striking things about the Baal Cycle's description of the god's function as provider of rain. The first is that his ability to send the rains is closely linked to the building of his palace. Until the palace is constructed, Baal does not bring the rain. The second is that when the story reaches its climax, and the palace has been built with the window through which Baal will send the rain, the poet describes the inaugural theophany of the god by talking of his sending forth of his voice, the thunder, without any direct mention of the rains (1.4 VII 25–42)! The emphasis on Baal's thunder appears to focus the audience's attention on Baal's power in a political sense, connecting his meteorological manifestation with his role as king and with the presence of his great palace. It seems probable that this shift in focus was intended to

re-contextualize the popular meteorological notion of Baal by dramatizing that it was through Baal's kingship—and implicitly the kingship of the human king whom Baal patronized—that the fertility of the rains would be ensured. Thus this central episode of the Baal Cycle in particular may have been intended to situate the king of Ugarit, as representative of Baal, at the center of the maintenance of fertility within the realm. Some caution is appropriate, however, in this interpretation, since the cycle never explicitly connects the story of Baal to Ugarit or its king. This is in striking contrast to the Enuma Elish in Mesopotamia, which specifically narrates the founding of Marduk's temple in Babylon as a climactic event in the story and attributes its construction directly to the gods, as an important part of its clear intention to use Marduk's story to explain Babylon's political dominance. For whatever reasons, the Baal Cycle is considerably subtler in drawing connections like these. Baal's palace/temple is not built in Ugarit, but rather on Mount Sapan, which is both a mythic and a geographic location that is far from the city itself. When he makes his triumphal tour of the cities of the world 1.4 VII 7–14, the poem makes no attempt to elevate Ugarit as a place where Baal has a special presence on earth. These facts should give us some grounds for caution in our attempts at reconstructing the purposes the poet had in composing the text.

UBC 1.96–114 discussed the issue of the apparent limited nature of Baal's kingship, noting both his subordination to El and the fact that unlike Marduk in the Enuma Elish, he finds himself regularly in need of support from other deities to establish himself. Baal's relative weakness as a divine hero is an important aspect of the narrative and will be dealt with in the course of the commentary. We have found it worthwhile in examining this problem to pay attention to some additional issues beyond those analyzed in the first volume. By noting the similarities and differences between parallel narratives about the rise of gods and humans to kingship in both Mesopotamian and Israelite literature, one may attempt to place the Baal Cycle into a wider, comparative context. An important aspect of this centers upon recognizing the contrasting literary topoi that underlie the portrayal of the ruler's rise to power in a narrative like the Enuma Elish and the portrayal of Baal's rise in the Cycle. In fact, the two narratives make use of very different models for royal succession in telling their stories. In the Enuma Elish, Marduk rises to kingship in a power vacuum. None of the other gods is effective as a leader against Tiamat, and Marduk steps in as the savior. He does not actually replace a previous king of the younger gods, but is essentially

the first occupant of the position. With regard to his defeat of Tiamat and Qingu, the image is that of a revolution in which the old regime is overthrown and destroyed (note the royal language for Qingu in I 148–56). In the Baal Cycle, on the other hand, the imagery used to describe the situation is that of regular royal succession, in which the old patriarch/king, toward the end of his reign, appoints his successor, who then takes on both the title of king and the duties delegated to him by the patriarch. The older ruler continues to retain his title, so that both are called "king," and, while he may hand over a great deal of power to his successor, he holds on to the primary authority of his office and must be consulted with regard to major policy issues. In the Baal narrative (as often in real life), more than one potential successor surfaces, and a struggle ensues. A parallel to the succession theme in the Baal Cycle may be seen in the story of Solomon's succession to the throne in 1 Kings 1. Here also the old king is expected to appoint his successor before he dies, and two candidates, Adonijah and Solomon, surface for the position. When Adonijah presumptuously announces that he is taking on the role of king without consulting David, Solomon's mother, Bathsheba, and the prophet Nathan intercede on Solomon's behalf before the old ruler, who then proclaims Solomon his successor. At this point both David and Solomon hold the title of king, as do El and Baal in the Cycle. The primary difference between the human setting of 1 Kings and the divine context of the Baal Cycle is that in the former, the appointing of the successor will be followed by the death of the old king and the subsequent assumption of complete power by the son, while in the mythological world, time is frozen—El will not die and will thus retain aspects of power that will keep Baal from exercising the complete authority of a Marduk. The combined reign of El and Baal is a co-regency. This makes Baal's kingship essentially different from those depicted for Marduk and Yahweh.

Baal's relatively weak position and his need for allies also fit into the motif of the young candidate for the succession whose claim to the throne is not as strong as that of his rival. In the case of the Cycle, Yamm is El's first choice, and he apparently enjoys the support of most of the divine council. Baal, on the other hand, is overlooked by El, but in the view of the narrator, he is the superior candidate who must work hard to make his superiority clear to the old king. There are similarities here to the situation of Solomon in 1 Kings 1. Adonijah appears to have been the eldest living son of David, the obvious successor, and was supported by the primary members of David's old guard. Solomon's

candidacy relies on the support of younger, but influential members of the court, who use their influence to get the king to move toward the less obvious candidate.

The reason that Baal would be portrayed as a god of somewhat limited power, who must struggle to reach his goal and who must rely heavily upon the help of his allies, is not clear. As indicated in *UBC* 1, scholars have proposed that the position of Baal in the divine realm may have been intended to parallel Ugarit's limited and often precarious position in the larger political landscape of the Late Bronze Age, in which it played the role of vassal to powers much stronger than itself. This continues to seem plausible. At the same time, it is possible to see this portrayal as dealing with a religio-political situation within Ugarit itself. The narrative may reflect the rising popularity of the storm god in Ugaritic culture, while indicating at the same time a strong reluctance to drop El as head of the pantheon. The Cycle may be intended in part to address this situation by portraying Baal in much more tentative terms than we find in the Enuma Elish. The latter poem is clearly intended to show Marduk as unquestioned ruler of the universe, reflecting Babylon's status as the dominant city in Mesopotamia.

Actually, the depiction of the ruling god as somewhat limited in his power is not unique to the Baal Cycle, but appears to be characteristic of several Mesopotamian myths that predate the Enuma Elish. For example, in the Old Babylonian Atrahasis Epic, Enlil, who in many ways is portrayed as being in a status similar to that of Baal in the Cycle,[6] finds himself under siege by the Igigi gods, who have gathered around his temple and threaten to burn it down. He is protected and aided by Enki, who actually resolves the volatile situation, and by his vizier Nusku. In an older Sumerian poem, Enlil is banished from Nippur, the city from which he rules, for having committed an offense. The story does not provide an account of his eventual return, but it is apparent that he did (Jacobsen 1987:167–80). What is important in these stories is that the ruling god is not an absolute monarch. He can find the divine council standing opposed to his policies, he can be threatened with harm by other gods, and he must rely on other deities to help him out. The multiple attestations of this motif in the

[6] Like Baal, he is the ruler of the earth, while officially still subordinate to Anu, the king. See Atrahasis (Old Babylonian version) I 7–10 (Lambert and Millard 1969:42–43).

literature, compared with the rarity of parallels to Marduk's absolute control over the universe, may suggest that the Enuma Elish, instead of the Baal Cycle, is the unusual myth.

Parallels also exist for the idea that Baal's power does not extend to the netherworld, the subject of the final episode of the cycle. It is clear from many Mesopotamian, Israelite and Egyptian texts that the realm of death was generally believed to lie outside the control of the gods of heaven and earth. In "Inanna's Descent to the Netherworld," the gods Enlil and Nanna indicate that they have no power in the netherworld, and Inanna is saved from the infernal regions by Enki only through the use of trickery, not by a threat of power (Jacobsen 1987:216–22, lines 178–272). The Middle Assyrian text of the "Story of Nergal and Ereshkigal" emphasizes this fact by noting that the gods of heaven and earth are not able to descend to the netherworld, nor can the netherworld gods ascend to heaven (Foster 2005:509, lines 1–5). In some parts of the Hebrew Bible, Yahweh's presence also does not extend to the netherworld (cf. Pss 6:6; 30:10; 88:11–13). It is a simple fact that death exists and that it cannot be fully controlled by the forces of life. But the story of Baal and Mot insists that while life must tolerate the intrusion of death, life still has the edge and is ultimately the stronger of the two (1.6 VI 33–35).

Although this motif appears to illustrate a universal limitation on the gods of heaven and earth, its inclusion into the Baal Cycle, a narrative which otherwise deals with Baal's rise to kingship, is unique, in that it appears after the episode in which Baal reaches the height of his power and thus concludes the cycle with a story that emphasizes the god's limitation (certainly a stark contrast to the Enuma Elish and other texts featuring a divine hero). The reasons for this placement of the episode are again unclear. One might suggest that the poet has attempted in the cycle to provide a comprehensive theology of the universe, in which he first settles the issue of who rules heaven and earth before dealing with the netherworld. In this case, its placement may not have been intended to emphasize Baal's weakness, but simply to complete the exposition of the divine geography of the universe.

In spite of all these parallels and considerations, however, it remains a fact that no other god seems to reach his position of power with so little evidence of physical prowess as does Baal in the Cycle. He needs significant help from his divine allies against Yamm and Mot, his two rivals, in order to triumph. Thus Kothar in 1.2 IV provides Baal with the weapons to use against Yamm, and the weapons themselves leap

from Baal's hand to batter the sea god. In 1.6 Anat rescues Baal following his defeat by Mot, by seizing and killing the latter herself.[7] Such a portrayal may indeed reflect the relative helplessness the rulers of Ugarit may have felt at times when the larger political events of the region spun out of control. An affirmation of the necessity for establishing alliances in a world of enemies may be an underlying reason for this aspect of the Cycle.

On the other hand, one cannot ignore the fact that at the climax of each episode of the Cycle, the limited nature of Baal's kingship is submerged in a proclamation of his power (1.2 IV 31–37; 1.4 VI 38–VII 42; 1.6 VI 30–35). This is most emphatically narrated in 1.4 VI–VII. With the construction of his palace, the members of the divine council come for a banquet that is clearly intended to show finally that the gods recognize Baal's sovereignty (VI 38–59). This is followed by his victory tour of the earth in which all the population also submits to him (VII 7–14). Finally, with his grand theophany in VII 25–42, there can be no question of his complete control of heaven and earth. So in spite of his weaknesses, Baal sits enthroned on Mt. Sapan as king. As patron deity of Ugarit, this image of Baal was certainly the primary way in which he was envisioned. Whatever the vicissitudes the city underwent in the political turmoil of the times, in moments of danger, they could call upon Mightiest Baal as a protector (1.119.26'–31a'; 34b'–36'):

> When a strong one attacks your gates,
> A warrior your walls,
> You shall lift your eyes to Baal:
> "O Baal, if you will drive the strong one from our gates,
> The warrior from our walls,
> A bull, O Baal, we will offer,
> A vow, O Baal, we will fulfill."
> …
> And Baal will hear your prayer.
> He will drive the strong one from your gates,
> The warrior from your walls.

It is this image of Mightiest Baal and his close relationship to the city of Ugarit and its king that also appears to be illustrated in the famous

[7] We would no longer emphasize Baal's sending of intermediaries to El concerning his palace as an example of weakness, since we argue below that this action probably represents the proper protocol for approaching the elder king with requests of a delicate nature, and thus does not belong in this discussion.

"Baal with Thunderbolt" stela found near the Temple of Baal in 1932 (AO 15.775 = RS 4.427; for a picture, see Schaeffer 1949:pl. XXII; *UBC* 1.107). The primary figure on the stela is clearly Baal, with a war club in his raised right hand and a javelin (lightning bolt) in his left. Below his feet appear to be representations of the sea and the mountains. Between the lower part of his body and the javelin, we find a considerably smaller figure that almost certainly represents the king of Ugarit. The striking difference in the size of the figures must be an attempt to strike the right balance between the glory of the god and the relative weakness of the king, while indicating that the king has a clear and close relationship to the god. The stela almost certainly was located originally in the courtyard of the Temple of Baal, and thus provided an eloquent illustration for both elite and commoner of the subtext of the version of the Baal Cycle that Ilimalku inscribed.

This leads us to the question of the audience for this version of the Baal story and the purpose of Ilimalku's written copy. The fairly obvious relationship between the tablets and the royal/priestly classes indicates that the latter represent the primary audience for the cycle. This does not mean that the royal version was not also readily known among the ordinary people of Ugarit. In fact, the importance of assuring a general sense of the power of the patron deity and the centrality of kingship and proper succession to the throne for the divine and human community would suggest that this form of the myth was widely disseminated. The purpose of Ilimalku's copy of the story was certainly not to set it away in a library where only a few might read it. An important feature of tablets 1.3 and 1.4 shows that the written version was intended to be a guide for an oral and presumably public presentation of the poem, not a "canonical and final written exemplar" to be used primarily for reading. The feature is the use of double horizontal lines at particular points in the narrative to indicate that a portion of the story has been left out and that it should be replaced by the oral narrator of the poem when that point of the narrative is reached. This technique of abridgement appears in 1.3 III after line 31; 1.4 V after line 41; 1.4 VIII after line 47, and possibly in 1 4 I after line 43. In each of these cases, Ilimalku (or the scribe who produced tablet that Ilimalku copied) has chosen not to write down the standard accounts of messengers' journeys from the home of the sender to the home of the recipient. But it is quite clear from the instructional note given after the lines in 1.4 V—"And return to the recitation about when the lads are sent—" that the scribe expected an oral storyteller to be able to

produce this largely formulaic section without a written exemplar. This clearly indicates that the written version was not an end in itself, but was intended to help in the performance of the cycle. Unfortunately, the poem itself gives no real hints as to the specific occasions upon which it might have been performed (on the suggestions about this, see *UBC* 1.58–114, esp. 60–75; Petersen 1998).

In whatever way the cycle was used, one can assume that it functioned to support the elite culture as it existed in the city of Ugarit. Clifford Geertz speaks of ritual, including the recitation of myth, as expressing "the world as lived and the world as imagined, fused under the agency of a single set of symbolic forms" (1968:28). Such symbolic forms also express a model of the way things are and a model for the way they should be (Geertz 1968:8–9). Literary texts such as the Baal Cycle offer a model of and for reality. The cycle would have provided the royal household and its supporting figures and groups with ideological support and expression to support their privileged life: the life of Baal the patron-god of the Ugaritic dynasty and of the divine figures subservient to him parallels and provides a vision of life for the human king, his household and his servants.

The power of the Baal Cycle to make a political statement has actually reemerged in the years since its rediscovery. *The Jerusalem Report* (September 19, 1986, p. 32) describes how on August 15th of that year, the Palestinian Ministry of Culture sponsored in Sebastia (ancient Samaria) a dramatic enactment of the Baal Cycle as a political polemic (against Zionism). The report situates this use of the Baal text within the larger issue of Israelis and Palestinians drawing on the past for present political justification. Thus in more recent times as in antiquity, politics has informed the understanding of the Baal Cycle.

Verbal Syntax in the Baal Cycle

Verbal syntax in the Ugaritic narrative poetry has received some important treatments, but little exegetical significance has been attached to it, and it remains something of a mystery.[8] Fortunately for Ugaritic studies,

[8] In a letter addressed to Pammachius (Letter 57, discussed in Brock 1979:69–70, reference courtesy of Dr. James Robinson), Jerome refers to "the Holy Scriptures, where even the word order is a mystery" ("scripturis sanctis, ubi et verborum ordo mysterium est").

the situation has improved, thanks to the Masters thesis of A. Piquer Otero (2000) on verbal syntax in CAT 1.1–1.2 and his recent dissertation on the entire cycle (Piquet Otero 2003), as well as a new treatment by Greenstein (2006), which unfortunately arrived too late to be fully incorporated into this discussion. The textual-linguistic approach, especially of Piquer Otero, provides some significant findings for following the narrative in the Baal Cycle. In Piquer Otero's study, three fundamental levels are evident in narrative syntax: (i) sequences that initiate the main narrative line (particle + **yqtl*, and **qtl*); (ii) sequences that continue a narrative line (*w-* + **yqtl*) or subdivide a narrative line (*w-* + **qtl*); and (iii) sequences that develop the narrative line, either by backgrounding, foregrounding (e.g., clauses fronted by presentative particles) or circumstantial description (e.g., nominal clauses; particle [+ subject] + **qtl*). The following summary represents the main-clause structures as identified in Piquer Otero's research (see his summary in Piquer Otero 2003:442–591). Grammatical items given in square brackets represent optional elements in verbal sequences. Narrative **yqtl* and **qtl* clause-types as well as nominal-clause structures are presented first, then direct discourse **yqtl* and **qtl*, as well as nominal clauses and clauses with imperatives.

Narrative

I. **yqtl*

1. *Particle (optional)* + **yqtl* + *[subject]*

At the main narrative level, this sequence may initiate or continue a narrative sequence. The subject may be implicit when it has appeared in a preceding sentence. Examples for the initiation of a section with a particle: 1.1 II 13 (and its parallels, 1.2 III 4; cf. 1.2 I 19–20, etc.): *'idk lytn pnm*, "then they indeed set out"; 1.2 I 30: *'aḫr tmġyn ml'ak ym*, "then Yamm's messengers arrived." Examples for continuing a sequence without a particle include: 1.2 I 23: *tgly 'ilm r'išthm*, "the gods lowered their heads"; 1.2 I 29: *tš'u 'ilm r'ašthm*, "the gods raised their heads." See also the long sequences of this sort in 1.2 IV 24, 25–26, 27; 1.3 I 9–10, 18–19, 20–25 (see below II, #1 for further discussion of the verbs in this passage); and 1.3 II 5–8.

One difficulty with the main claim here involves whether a particle necessarily or optionally *initiates* such a sequence. For Piquer Otero, the

particle is optional. However, the examples do not bear out this claim. His main example for a sequence of this type without the particle is the complex case of 1.2 I 19–20 cited above. The opening word may be understood not as **yqtl* but **qtl*. If the latter is correct, it may be that either **qtl* or particle + **yqtl* can begin a sequence. For further discussion, see below under II, #1. Furthermore, in the vast number of clear cases, **yqtl* does not initiate a sequence, but continues it (cf. BH particle + **yqtl* for narrative, e.g., Exod 15:1; cf. BH *wayhî* at the beginning of a sequence?). In sum, **yqtl* in opening position seems to signal continuation of narrative sequence, while the addition of the opening particle apparently marks a further nuance in relating parts of a long narrative, in particular shifts in scene.

2. *W-* + **yqtl*

i. This sequence of the conjunction *w-* plus **yqtl* follows or continues the main level of narrative. The construction develops the narrative sequence by articulating related contents. Examples: 1.1 IV 13: *wyʿn lṯ<p>n ʾil d[pʾid]*, "and Beneficent El the Beni[gn] spoke"; 1.1 III 17: *wyʿn kṯr wḫss*, "and Kothar wa-Hasis answered" (also 1.2 III 18); 1.2 IV 11, 18: *wypʿr šmthm*, "and he proclaimed their names"; 1.2 IV 26: *wydlp tmnh*, "and his form collapsed"; 1.2 IV 23: *wyrtqṣ ṣmd bd bʿl*, "and the weapon leapt from the hand of Baal." For this last example, Piquer Otero suggests that *w* + **yqtl* also articulates a paragraph, which includes a change of subject (compared to the preceding quotation). The difference between this sequence and [particle] + **yqtl* + [subject] is not maintained, for example in 1.2 IV 15 (**yqtl* without *w-*)//1.2 IV 23 (**yqtl* with *w-*). Evidently, stylistic and discourse factors affect usage.

ii. According to Piquer Otero, "*w-* of apodosis which may appear in sentences belonging to the main narrative line after an anticipated subordinating commentary could be considered similar to the introducing *w-* just mentioned… Its few attestations do not permit a firmer hypothesis." Example: 1.2 IV 6–7: *wttn gh* is the logical apodosis. A more complex case is involved in 1.3 II 3–5: *klʾat tgrt bht ʿnt/wtqry ǵlmm bšt ǵr*, "The double-gates of the house of Anat closed, she met youths at the foot of the mountain." For Piquer Otero, *wtqry* initiates the narrative sequence (contrary to the usual rule described above in 2i). This difference is attributed to the preceding clause, which is logically subordinate. Accordingly, Piquer Otero suggests rendering: "Once the gates of Anat's house are closed, she meets youths at the foot of the mountain." For him, *wtqry* then begins the narrative sequence in this context.

3. *X* + **yqtl*

In the context of the main narrative line, the appearance of a sentence element before the verb conforms to precise syntactical conditions, involving style and rhetoric. One sort involves a complement (in agreement with the subject), for example 1.2 I 31: *qmm 'a[mr] 'amr*, "standing, they spoke a speech." A second sort is constituted basically by chiasm, for example in 1.2 I 40 (assuming the correctness of the reconstruction), with the object fronted for emphasis: *[ymnh ʿn]t t'uḫd// šm'alh t'uḫd ʿṯtrt*, "[His right hand An]at seized//his left hand Athtart seized." A third sort, involving an initial prepositional phrase, is more difficult to classify: either textual reasons may be involved (the introduction of a new agent or point of view), or style may be significant, for example in the "reverential" emphasis placed on a character as in 1.6 I 36–37: *lpʿn 'il thbr wtql*, "at El's feet she bowed down and fell" (and its parallel in 1.1 II 14–17; cf. its thematic reversal in 1.2 I 30: *lpʿn 'il ltpl*, "at El's feet they did not fall"); or fronting for emphasis in some cases, e.g., 1.2 I 24: *bhm ygʿr bʿl*; "them Baal rebuked," and 1.2 IV 28: *bšm tgʿrm ʿṯtrt*, "by name Athtart rebuked (him)." (In both of these cases, it may be of some significance that they open a verbal rebuke.) This category also includes a case such as 1.2 I 32–33, *'išt 'ištm y'itmr*, "a flame, two flames they appeared." Here we have a description of the figures discussed in the preceding three bicola. Piquer Otero also suggests 1.3 II 13–15 as an example: *brkm tġl[l] bdm ḏmr/ḥlqm bmm[ʿ] mhrm*, "knee-deep she glea[n]ed in warrior-blood, neck-deep in the gor[e] of soldiers." This **yqtl* clause does not discontinue the narrative line, but the verb's position following the initial adverbial accusative focuses the description on the goddess and her action. It is to be noted further that the prepositional phrases, with the nouns *ḏmr//mhrm*, suggest that this bicolon elaborates the preceding mention of *mhr* introduced initially in 1.3 II 11 (just as the nouns in 1.3 II 11–13, *r'išt//kpt* signal an elaboration of the nouns *r'i[š]//kp*, introduced in lines 9–10).

4. **yqtl in final position appears in two patterns:*

i. *Particle* + *subject* + **yqtl*

1.2 I 21–22: *hlm 'ilm tphhm*, "look! the gods perceive them." The presentative particle plus the subject preceding the verb continues the action of the narrative chain, but with a particular dramatic effect given to the gods and their reaction. The presentative particle serves to foreground the action (cf. the English expression, "Look here!"), and

in these cases one might use the present tense for the verbs in order to highlight the particular foregrounding expressed by these particles. Such foregrounding appears in the initial line in the four-line unit in 1.3 III 32–34: *hlm ʿnt tph ʾilm*, "Look! Anat perceives the gods." Related is the case of 1.3 II 5–6, *whln ʿnt tmtḫṣ bʿmq*, "and look! Anat fights in the valley." Compared to the preceding examples, the syntax of the initial lexeme in this case is more complex: the presentative clause fronted by *hln* is linked by *w-* to the preceding sentence. In these cases the narrative line continues with these clauses, but with an added foregrounding marked by the presentative particle. An even more complex case with the presentative particle appears in 1.3 II 17: *whln ʿnt lbth tmġyn*, rendered literally, "and look! Anat to her house goes." Given the unusually high number of instances of this clause-type in 1.3 II, it may be recognized that it plays a key rhetorical role in this particular narrative. Piquer Otero regards this construction as a "complex nominalized sentence" with **yqtl*. For him, these are not variations of nominal clauses in the traditional sense. Instead, in text-linguistics such verbal clauses involve extended presentations of the subject and its actions. For Piquer Otero, such clauses may be distinguished formally by their departure from the standard clauses-types discussed above.

ii. *Subject* + *object* + **yqtl*
1.2 IV 11, 18: *kṯr ṣmdm ynḥṭ*, "Kothar fashioned the weapons" (note the chiasm with second line: *wṗʿr šmthm*).

II. **qtl*

1. *[Particle]* + **qtl* + *[subject]*
For Piquer Otero, this sequence provides initial circumstantial information immediately prior to the beginning of a narrative sequence, and it can function as a transition between such a narrative sequence and the preceding unit. Example: 1.3 II 3: *kl'at tġrt bht ʿnt*, "the double-gates of the house of Anat being closed" (followed by *w-* + **yqtl*, *wtqry ġlmm bšt ġr*, "she met youths at the foot of the mountain," discussed above in I, #2, ii). Analogous is the case of 1.2 IV 6–7 in #3 below.

This sequence can also be inserted in the narrative chain to provide a circumstantial comment. In these cases the subject coincides with the subject of the preceding sentence and may therefore remain implicit. Examples: 1.1 IV 9, 28–30; 1.2 I 33, 38; 1.2 IV 7 (?); 1.3 II 11–13. As Piquer Otero (2003:208) discusses, the cases of **qtl* in 1.3 II 11–13

are particularly complex insofar as the actions of these verbs are not distinguished in time-frame from the preceding nominal clauses in 1.3 II 9–11 and perhaps from the following bicola in 1.3 II 13–15 or 15–16 (both with the syntax of X + **yqtl*). Given this apparent simultaneity, the bicola would seem to be regarded as belonging to the same time frame (or at least overlapping), with an alternation of a variety of clause-types (nominal, then **qtl* + X, then X + **yqtl*; cf. parallelism of **yqtl* with **qtl* within cola, with examples presented in *UBC* 1.49, #7). For further discussion, see the commentary to 1.3 II. The **qtl* verbs in 1.3 I 4, 8, and 18 reflect stylistic purposes. Each one opens a set of actions in Baal's feast, continued by a series of **yqtl* forms. These verbs may not be circumstantial (or subordinate, so Blake, discussed in *UBC* 1.48); rather, such verbal forms might initiate the series of actions involved (see the Commentary to this column; and *UBC* 1.55–56), which are continued with **yqtl* forms along the lines suggested by Piquer Otero described above in I, #1.

2. *W- + *qtl*

Within units providing comment longer than a single sentence, *w-* may be used as a subdivider of the text. This usage is analogous to *w* + **yqtl* on the narrative main level (see I, #1 above). Examples: 1.1 IV 15: *wp῾r šm ym*, "and he pronounced the name Yamm"; and 1.1 III 4–5: *wrgm lk[ṯr wḫss]*, "and they spoke to Ko[thar wa-Hasis]."

3. *[Particle] + X + *qtl*

Complex nominalized sentences with **qtl* (cf. above I, 4, 1), these sequences introduce a background comment or an explicative parenthesis inserted into the main narrative sequence. Piquer Otero cites 1.2 I 20: *'ap 'ilm lḥ[m] yṯb*, "meanwhile the gods sat down to fea[st]" (the verb might be viewed as **yqtl*, but Dobrusin 1981 has shown the plural prefix for the third masc. pl. of **yqtl* to be *t-*, not *y-*). The particle *'ap* suggests that this scene is parallel to the preceding in time-frame (hence "meanwhile" or the like). Another example appears in 1.4 III 23–26: *'aḫr mġy 'al'iyn b῾l*, "then (or, just as) Mightiest Baal arrived…" This usage with the particle *'aḫr* + **qtl* as circumstantial appears prior in time frame (or "pluperfect"; see *UBC* 1.47) relative to the same construction of *'aḫr* + **yqtl*, noted above in I, #1. Comparable, but with fronting for emphasis, is the clause in 1.2 IV 6–7, *[b]ph rgm lyṣ'a… wttn gḥ*, "The word had not yet left his mouth,… then she raised her voice."

III. *Simple nominal sentences*
This structure can be inserted as an explicative parenthesis into the narrative chain. Word order may be either subject + predicate or predicate + subject. The analysis of the corpus thus far has not revealed any kind of opposition between these two options. Examples: 1.1 III 1 = 1.3 VI 14–16: *kptr ks'u ṯbth//ḥkpt 'arṣ nḥlth*, "Kaptor, the throne where he sits, Memphis, the land of his heritage"; and the similar clauses, 1.4 VIII 12–14: *mk ks'u ṯbth//ḫḫ 'arṣ nḥlth*; 1.2 I 32–33: *ḥrb lṭšt [lš]nhm*, "a sharp sword (is) their [ton]gue (?)" (*UBC* 1.307). For three further examples (in parallelism), see 1.3 II 9–11. For a sustained set of examples, see the list of furniture described in 1.4 I 30–43.

Two questions about Piquer Otero's description involve whether initial **yqtl* without particle begins a main narrative line and the corresponding issue of whether an initial **qtl* does not sometimes initiate a main narrative line as well. For Piquer Otero, initial **qtl* constructions represent a comment, such as, for example, a circumstantial description.[9] It does indeed seem plausible that initial **qtl* may involve a comment in some cases, but in other instances it seems to begin a sequence. Fenton long ago (1969:35) argued that **qtl* can begin a narrative section, and Watson (1994b:249) has supported the same interpretation (see also *UBC* 1.53–56). Indeed, to claim that all initial **qtl* forms are to be understood as background or circumstantial requires an unlikely reading of the forms in several contexts. A number of **qtl* forms, especially verbs of motion, can be read more easily as beginning a narrative chain (e.g., **ʿly* in 1.4 I 23; and **tbʿ* in 1.2 I 19, 1.5 I 9, II 8, 13; see *UBC* 1:54 for further examples and discussion). In short, **qtl* continued by *yqtl* may open a narrative (as Lambdin 1971:164–65 argues for BH syntax). Similarly, **qtl* may close a section (Lambdin 1971:164–65; Smith 1991:69; Heller 2004:435–39; for an example in Ugaritic, see *tbʿ* in 1.17 V 31) or highlight a climactic point in the narrative (e.g., **sbb* in 1.4 VI 34–35; see the Commentary there).

[9] Regarding initial **qtl* forms, Greenstein (1998:412–13) comments in terms somewhat similar to Piquer Otero's view: "The *qatala* forms serve mainly to convey background…and to produce rhetorical functions and patterns such as those observed by Held…, Fenton…and Smith." However, **qtl* is sometimes used to begin or close as well as to highlight a narrative sequence. See Greenstein 2006:96–98.

Direct Discourse

I. **yqtl*

1. *[Particle] + *yqtl + [subject]*

i. This type occurs on the main level of discourse when it is part of a sequence of anticipated action ("future narrative speech"). This sequence corresponds to the standard sequence in narrative: 1.3 IV 24//29, *'ask šlm lkbd 'arṣ*, "I will pour peace amid the earth."

ii. The particle *'al + *yqtl* belongs to a main line of discourse of commands as the negation of the imperative. Example: 1.2 I 15, *'al tštḫwy pḫr [m'd]*, "do not prostrate yourselves before the [Assembled] Council." In this case, the clause is preceded by a further clause with a fronted prepositional phrase in line 14 (see below), with chiasm resulting. This construction (*'al + *yqtl*) may also be combined with a preceding imperative (1.2 I 13, reconstructed). See also 1.4 VIII 15–16.

iii. In some very specific circumstances (after imperatives and after substantives), **yqtl* can appear in an asyndetic relative clause. Examples: 1.2 I 18, *tn 'ilm dtqh*, "give up, O Gods, the one you obey"; 1.3 III 27//IV 15 (the second line of a tricolon), *rgm ltd' nšm*, "the word people do not know."

iv. Some particles (*d-, k-, kd-, hm*) mark the subordination of **yqtl* to a preceding main verb. Examples: 1.2 I 18, *dtqyn hmlt*, "the one you obey, O Multitude"; 1.3 III 26, *'abn brq dl td' šmm*, "I understand the lightning that the Heavens do not know." See also 1.3 V 3; and the two cases in 1.4 VII 49–52, that are dependent on a preceding nominal clause; 1.6 I 52. Some particles (*k-*) may mark the subordination of **yqtl* to a following main verb. Example: 1.5 I 1–4//27–31, *ktmḫṣ ltn…, ttkḫ…šmm*, "when you smote Litan…, the heavens became hot."

2. *w- + *yqtl*

i. Instead of linking sentences on the same textual level (as this syntactical structure does in narrative), this structure in direct discourse introduces a comment subordinate to the clause that precedes it. Example: 1.3 III 20–21//1.3 IV 13–14, *dm rgm 'it ly w'argmk*, "for a message I have and I will tell (it) to you."

ii. *w- + *yqtl* volitive to link to prior **yqtl* volitive. Example: 1.2 IV 22b–23a, *yprsḥ ym wyql l'arṣ*, "may Yamm sink and fall to the earth" (see #3 below for further discussion).

3. *X* + **yqtl*

i. With commands, this structure functions as an alternative to the imperative, sometimes in isolation (1.2 IV 6–7, 10, 13, 20b–21a), or in more complex imperative structures according to the rule furnished by Fenton (1969), what might be called "Fenton's law": command given in the imperative is executed in the narrative with **qtl*, while commands given in **yqtl* volitives are implemented in the narrative with **yqtl* indicative forms (1.4 IV 4–12, 1.14 II 13–27 with III 55–IV 9, 49–50; for discussion see *UBC* 1.51). The two **yqtl* volitives in 1.2 IV 22–23 follow the imperative in line 21 in order to express change of subject: the direct objects following the imperative in line 21 are the parts of Yamm's body that the weapon is to strike, while Yamm himself is the subject of the following jussives in lines 22–23.

ii. In the discourse of narrative anticipation, topicalization by personal pronoun subject seems to be designed to emphasize the subject or actant. Examples: 1.2 I 37, *hw ybl 'argmnk*, "he himself will bring tribute to you"; 1.3 IV 22, *[']a[n 'aqry*…, "I myself will offer…". In some cases, it marks a shift in actant: 1.6 II 15, *'an 'itlk*, "I myself was going about…".

iii. Subject + **yqtl* constitutes a further possibility of what Piquer Otero calls the "complex nominalized sentence" (discussed above). Example: 1.3 V 33–34//1.4 IV 45–46, *klnyn qšh nbln/klnyn nbl ksh*, "all of us will bring him a chalice, all of us will bring him a cup." See also 1.2 IV 8–9.

iv. Object + **yqtl* to front the former: 1.5 VI 24–25, *'aṯr b'l 'ard b'arṣ*, "after Baal I will descend to the underworld" (paralleled in 1.6 I 7–8).

4. *W-* + *X* + **yqtl*

i. This construction in discourse contexts of commands (after imperatives) gives a nuance of what Piquer Otero calls subordinate comment finality (traditionally labeled purpose or result clauses). Example: 1.3 III 28–31//IV 18–19, *'atm w'ank 'ibġyh*, "come that I myself may reveal it." Note also the asyndetic variation (without *w-*) in 1.2 I 18–19, 35: *bn dgn 'aṯtm pḏh*, "the Son of Dagan that I may possess his gold" (cf. 1.3 III 46–47; 1.4 VII 47–48). For the comparable syntax for subordinate comment finality, but expressed with the negative, *'al* + **yqtl*, see 1.3 V 22, *'al 'aḫdm by[mn]y*, "lest I seize it with my [right han]d"; cf. 1.4 VI 10–11; 1.4 VIII 17–18 may be read in this manner; 1.6 I 45–46; 1.6 V 19–20.

5. *Particle + X + *yqtl*
i. Fronting for emphasis: 1.2 I 25, *ʾaḥd ʾilm tʿny*, "together will the gods answer…?" Or, 1.2 IV 9 (second line of a tricolon), *ht ʾibk tmḫṣ*, "now you will smash your enemy."

On a higher level of discourse, a particle may function as part of the means for connecting two speeches: *ʾap mṯn rgmm ʾargmn/k*, "also on a second subject I would speak (with you)" (1.3 IV 31–32, 1.4 I 19–20).

II. **qtl*

1. *[Particle] + *qtl + [subject/object]*
1. As in narrative sequences, this structure in direct discourse may introduce circumstantial comments inserted into the main level of the speech. Example: 1.2 IV 7–8, *lrgmt lk lzbl bʿl// ṯnt lrkb ʿrpt*, "indeed, I tell you, Prince Baal// I reiterate, O Cloudrider." See also the lengthy series in 1.5 VI 3–10.

2. After an initial background frame or recapitulation coda, a series of structures with initial **qtl* may extend the comment into several clauses, constituting a series without temporal sequence. See the discussion of 1.3 III 38–46 in the Commentary.

3. With the appropriate initial particles, the structure appears in interrogative sentences, which may work as parentheses, initial frames or recapitulation. Example: 1.2 I 24–25, *lm gltm ʾilm rʾištkm*, "why have you lowered, O Gods, your heads?" See also 1.2 I 40–41 (if correctly reconstructed; and 1.3 III 36.

2. *W- + *qtl*
A rare structure in direct discourse, it works as a comment. The usage of *w-* derives from the principle of internal subdivision within a paragraph (see above II, 2 under narrative).

3. *[Particle] + X + *qtl*
i. Through topicalization with a subject pronoun, it can mark a change of subject or actant in a comment. Example: 1.2 I 45, *ʾan rgmt lym bʿlkm*, "I myself say to Yamm, your lord." See also 1.2 I 28 (unless the verb is an infinitive absolute).

ii. This structure may function as a general background frame or recapitulation coda (complex nominalized sentence). See 1.3 III 36–38 and 1.3 IV 4; 1.4 VI 36–38.

4. *W- + X + *qtl*
This structure works as a copula subdivision between comments.

III. *Imperative*

1. *Imperative + X.*
This structure functions on the main level in texts of commands. Examples: 1.2 I 16, *tn̲y d'tkm*, "recite your instructions." See also 1.2 I 27; 1.2 IV 12, 14, 19b–20a, 21b; 1.4 I 20–21; 1.4 VIII 7–9; 1.5 V 13–14. For an imperative within larger imperative structure, see the imperative *tn* used twice in 1.2 I 18 and repeated in 1.2 I 35. For this structure with a preceding vocative noun, see 1.2 IV 12, 19.

2. *W- + Imperative + X*
w- acts as a subdivider structuring a chain of imperatives into sections. Example: 1.2 I 16, *wrgm lt̲r 'aby*, "and say to Bull [my] fa[ther"; 1.3 VI 21–22, *wrgm lkt̲r wḥss*, "and say to Kothar wa-Hasis." See also 1.4 V 18//33–34; 1.4 VIII 7–8 and 14; 1.5 V 14–15.

3. *Vocative + imperative*
This structure focuses on the addressee of the following imperative. Example: 1.6 II 12, *'at mt tn 'aḫy*, "You, O Mot, give up my brother."

IV. *Nominal sentence*
1. It can constitute an initial background frame before the start of the main narrative line. Example: 1.2 I 36–37, *'bdk b'l yymm*, "your slave is Baal, O Yamm." See also 1.2 IV 11–12, 19 for background nominal clause prior to imperative structures, *šmk 'at ygrš/'aymr*, "your name, yours, is *ygrš/'aymr*." See also 1.4 IV 59–62.

2. It can be inserted as an explicative or background parenthesis inside a speech. Example: 1.2 IV 29–30, *kšbyn zb[l ym]//[k(?)]šbyn t̲pṭ nhr*, "for our captive is Prin[ce Yamm], [for (?)] our captive is Judge River." See also 1.1 III 13–14//1.3 III 22–25 (see 1.3 IV 14–15); 1.2 I 17; 1.3 IV 48–53//1.3 V 39–44//1.4 I 12–17; the second line of the tricolon in 1.3 V 30–31 (cf. stative **qtl*-form used instead in parallel in 1.4 IV 41–42); 1.3 V 32–33//1.4 IV 43–44; 1.5 II 12//20; 1.5 III 19–20; 1.6 VI 48–50.

In conclusion, Piquer Otero's text-linguistic research clarifies the uses of verbal syntax in Ugaritic narrative poetry, and as such it marks a significant advance in the study of Ugaritic verbal syntax.

In addition to what Piquer Otero has discussed, some further observations can be made about progression from colon to colon. As Piquer Otero's research nicely demonstrates, Ugaritic poetry can mark continuation of the narrative line with **yqtl* in initial position. However, in sections where the narrative line is not being advanced by **yqtl* in initial position, movement from one colon to another within a description or a speech may unfold by combining the verbal syntax with a repetition of nouns or verbal roots in a variety of ways. The following provides a number of illustrations:

1. Sometimes this occurs simply in the single repetition of a word or root from one colon to the next (e.g., *tn* in 1.2 I 34–35; **'ḫd* in 1.2 I 39, 40; *bʿl* in 1.2 IV 7–8, 8–9; **mḫṣ* in 1.3 II 5–7, 7–8).

2. As a corollary, a description may use multiple terms from the same word-field in addition to simple repetition (e.g., terms for cup in 1.3 I 8–17, which includes the repetition of *ks//krpn*; terms for precipitation in 1.3 IV 42–44, including *ṭl šmm* repeated; cf. the terms for precipitation in 1.4 V 6–9).

3. In other instances, a root may repeat from one unit to a second, and another root introduced in the first or second colon is repeated in the third, etc. The effect in this sort of progression is one of cascading down from one unit to the next (e.g., *yṣq* in 1.4 I 25–29 plus *ksp//ḫrṣ* in 1.4 I 25–28, 30–32 and in 1.4 V 15–19, 31–35), or further development or repetition of the initial term (e.g., *rgm* across 1.3 III 20–28, with *šmm* and *'arṣ* introduced in 22–25 and repeated in 26–28). A more complex situation obtains in 1.2 III 7–10 and 1.4 V 50–57, where various sets of phrases, with some shift in morphology, are operative over three cola.

4. In some cases, a word may repeat many times, lending a list-like quality to the unit (e.g., **mḫšt* in 1.3 III 38–47; *'il* in 1.4 I 12, 30–43, and *mṯb* in 1.3 IV 48–53//1.3 V 39–44//1.4 I 12–18//1.4 IV 52–57). Within a description, at a higher order of complexity, an entire colon with minor variations can be repeated several times (e.g., the seven-day fire burning in Baal's palace in 1.4 VI 22–33, or the fêting of the deities in 1.4 VI 47–54).

5. The repetition of terms binds different figures together in dialogue (e.g., **mgn//*ǵẓy* used four times in 1.4 III 25–26, 28–30, 30–32, 33–36).

6. Sometimes a repeated root can run through a description or dialogue or both (e.g., *rbt/rb/rbbt/rbtm/rbbt*, in 1.4 I 13, 17, 21, 28, 30, 43). Or, a word-pair can be similarly repeated (**mḫṣ//*ḫṣb* in 1.3 II 5–7, 19–20, 23–24, 29–30).

7. At a higher order of complexity, an entire colon repeated may frame either a section of a speech (e.g., 1.3 IV 22–24//27–29 and 24–25//29–31) or a whole speech (e.g., 1.3 III 37–38//1.3 IV 4). Or, a repeated colon may link (e.g., 1.4 VI 36–38 and 1.4 VIII 35–37).

8. Repetition of word-pairs can create parallelism of scenes (e.g., see the many repetitions in 1.3 II 3–16//17–30), which combine description with some movement forward.

1.3 and 1.4 show multiple strategies at work within a single column. Some of these poetic features, such as repetition of a word (#1, 3, 4; cf. #2), word-pairs (#5, 8) or of roots (#6), also indicate that many of the same phenomena found within cola serve further to bind cola or whole sections. Stated differently, the strategies utilized at the micro-level of the colon are paralleled at the macro-level, that is, across cola. The same point applies to Biblical Hebrew poetry (Smith 2001b:217–20). The collection and classification of such features at the macro-level remain a major desideratum for the study of West Semitic poetry.

At a higher level of complexity, many of these features operate to generate parallelism of entire scenes in different passages across columns. For example, the repetition of Baal's lament in 1.3 IV 47–53//1.3 V 35–44//1.4 I 4–18//1.4 IV 47–57 serves to highlight what is crucially at stake throughout the middle section of the Baal Cycle in 1.3–1.4. Similarly, the repetition of terms binding the different figures together in dialogue within a column (e.g., **mgn//*ǵzy* used four times in 1.4 III 25–26, 28–30, 30–32, 33–36) exists at a higher order of complexity across columns. For example, the repeating cola about the window in the palace thread through three columns (1.4 V 61–62, 64–65, 1.4 VI 5–6, 8–9; 1.4 VIII 17–19, 25–27). As with Baal's lament, this repetition highlights the importance of the theme within the larger building story.

1.3 III–1.4 VII: The Building Narrative and the Role of Etiquette in Its Structure

As mentioned above, the story of the building of Baal's palace is best understood as the central episode of the Baal Cycle. The image of Baal at the climax of this episode is the primary image of the god as king and as provider of the fertile rains. The significance of the palace for the cycle is reinforced in the first episode as well, where the attempt to build a palace for Yamm is clearly intended as a sign of that god's claim to sovereignty (1.1 III and 1.2 III). In that way, the discussion of Yamm's palace acts as an anticipation for the urgency that is clearly emphasized about building the palace for Baal. This theme, then, binds the two episodes together in an important way.

As also described above, the story of the construction of Baal's palace does not appear to begin in 1.3 I, which rather seems to be the conclusion of the story of Baal and Yamm. It is not clear whether column II should be seen as the opening of the new storyline or the end of the previous one. But there is no doubt that the palace story has begun by column III, where Baal is instructing his messengers on what they are to say to Anat. The palace story is startlingly long and complicated, and from a modern perspective appears rather bloated, since it takes eleven columns of text to get to the completion of the task. The majority of the story is taken up with getting permission from El to build the palace. This is done in two major steps: an initial attempt by Anat to secure the permission (1.3 III–V), which fails; and a second attempt by Athirat, which is a success (1.3 VI–1.4 V). The account of the actual building of the palace is relatively short and schematic (1.4 V 35–VI 38). The whole story climaxes with the inauguration of the palace at a feast for the children of Athirat, i.e., the pantheon (1.4 VI 38–VII 6), followed by a triumphal tour of the earth (VII 7–14), and the grand theophany of the newly established king of the gods (VII 25–42).

Hurowitz 1992 has significantly illuminated the fact that this episode can be identified as an example of the literary genre of the temple or palace building narrative, well attested in both Mesopotamian and West Semitic literature. His work shows that the poet has used traditional motifs in arranging the story and that the narrative units about getting permission to build the palace can be related to the general characteristics of this genre (47–48; 100–05, 139–40). Hurowitz' list of the major traditional elements of the building narrative can be related to the Baal narrative as follows:

1. The divine decision to build (= 1.3 III–1.4 V, in two stages—Anat's attempt, then Athirat's attempt)
2. The announcement relayed to the builder (= 1.4 V 2–35, in two stages—Athirat tells Anat, who tells Baal)
3. The acquisition of construction materials (= V 35–40, VI 18–21)
4. The commissioning of a chief artisan (= V 41–VI 15; this is characteristic only of West Semitic building narratives, cf. Hurowitz 1992: 102–03)
5. The building of the palace/temple (= VI 22–38)
6. The dedication/inauguration of the palace/temple (= VI 38–VII 6 and the theophany VII 25–42)

Hurowitz' careful analysis of the various building narratives from Mesopotamia and the Levant makes it possible to determine the elements that have been given particular emphasis in the Baal Cycle, as well as those that are unique to it. To begin with, the extraordinary length of the account of securing El's permission to build the palace is quite unusual and requires some discussion. This part of the narrative clearly emphasizes the status of El as the head of the pantheon and patriarch of the family (see the discussion of the divine family below, pp. 46–52). Although he is not actively involved in the administration of the universe any longer, he is clearly still the deity of highest status, and divine etiquette and protocol absolutely require his permission for beginning a project that is critical to the status of the new ruler of the divine council. A recognition of the importance of royal/divine protocol in this part of the story is critical for understanding several of the events that occur in 1.3 III–1.4 V. The failure to do so has often led to what we consider to be substantial misinterpretations of the narrative. It is also clear that the poet is very concerned to show the value and efficacy of proper etiquette in this section, recounting both breaches of etiquette and the resulting failure (Anat's visit with El) and exemplary performance of correct procedures (Baal and Anat's carefully orchestrated visit to Athirat, which gains her support, and Athirat's successful request of El). Stories that deal with this kind of proper conduct (and sometimes its opposite) are well attested throughout Near Eastern literature. One might note, for example, the emphasis on the appropriate etiquette of hospitality that plays the fundamental role in the story of Sodom and Gomorrah in Genesis 18–19. Abraham acts as a model of hospitality in chapter 18, and is blessed because of it, while the men of Sodom show the ultimate breach of hospitality in 19 and are severely punished. Breach of etiquette plays an important role

in the story of Gilgamesh, particularly in the Bull of Heaven episode, where Gilgamesh roughly rejects Ishtar's advances, which leads to her sending the Bull of Heaven against Uruk. Upon killing the bull, Enkidu again breaches appropriate protocol by throwing the bull's leg at Ishtar, an act of hubris that leads to his death.

Once we begin to look at 1.3 III–1.4 V with an eye toward the importance of etiquette, we can better understand several aspects of the story. Since protocol plays such a central role, we may suggest that the fact that Baal does not appear personally before El to plead his case is an appropriate step on Baal's part. The fact that he sends an envoy should probably be understood as the correct protocol in a situation where a high official needs a somewhat personal favor from another high official. A similar situation is attested in 1 Kings 1, where Solomon's mother Bathsheba goes to David to request that the king appoint her son as successor. Solomon plays no direct role in the negotiations. By sending an envoy, the petitioner avoids the potential embarrassment of being turned down in person, which might also be an unpleasantness to the one petitioned. So, while interpreters in the past have sometimes criticized Baal's behavior here, it seems more likely that this was in fact the expected way such a request should be put forward to El.

Anat's fiery personality shows itself to be a negative example of how to get things done within the divine court. After being called to Baal's mountain and commissioned to go to El with Baal's request, Anat is described (perhaps humorously) as ready to beat El up if he is not forthcoming. Interpreters have often noted the similarity between this scene (1.3 IV 53–V 44) and the scene between El and Anat in the Aqhat Epic (1.17 VI 48–1.18 I 20), in which she asks permission to kill Aqhat because of his breach of etiquette and also threatens El with bodily harm if he refuses. In that case El gives her his permission. Several scholars (e.g., *MLD* 9–11; Pardee 1997a:255 n. 116) assume that a similar scenario occurs in the lacuna at the end of 1.3 V, and that El is probably bullied into giving his permission (although this creates the problem of explaining why Baal subsequently has to go through the entire effort of recruiting Athirat to get the same permission again!) But this is a case of over-reliance on a parallel scene, which has led people to ignore the major differences in the two episodes. It is a mistake to assume that a similar motif is used identically in all contexts. In our narrative, Anat's behavior becomes the centerpiece of the account. When she arrives at El's abode (V 7–9) her actions are in stark contrast to those in the Aqhat Epic (1.17 VI 48–51). In the latter, she arrives, comes into the presence of El and bows at his feet, according to proper

protocol. In our passage, she arrives in great agitation and shouts angrily as she enters his abode (lines 8–9). She breaches protocol and because of that she is not even allowed into El's presence (lines 10–12). El communicates with her rather brusquely from his inner room, while she is kept at the entrance to his tent. Although the end of the episode is not preserved, it is clear that permission has not been granted. The story is used here to indicate the futility of a belligerence that ignores appropriate etiquette.

Recognizing the importance of protocol and etiquette in the poet's presentation of the story also allows a better understanding of the Athirat episode (1.4 II–III). Interpreters have often characterized Baal's decision to take gifts to Athirat as an attempt to bribe her to support his cause (e.g., Wyatt 1998:92 n. 95; Pardee 1997a:256 n. 121). This idea is to be rejected in the light of what we now understand about the use of gifts between rulers in Late Bronze Age Syria-Palestine (Liverani 1978:21–26; 1990:211–23; see the discussion in the Commentary on 1.4 I, pp. 407–09). There is no doubt that the story assumes some hostility between Baal and the family of El and Athirat. El's support for Yamm in the first episode of the cycle is a clear indication of that, as is the list of Baal's enemies that Anat says she fought in 1.3 III 38–47—apparently all of them (see the commentary on this passage) having been closely related to El. Similar rivalries were common also between the various states of the Levant during the second millennium BCE. Liverani has studied the use of gifts in the political context of the era and has shown how they were used both for indicating a wish for good political relations, but also for promoting one's own status as a ruler of great generosity. The gifts Baal takes to Athirat are not portrayed as a bribe, but rather as a peace offering to secure long-term close relations. When Athirat first spies the approaching Baal and Anat, her initial reaction is fear that they are coming to attack her family. But when she sees the gifts, she realizes that they have come to make peace with her, and that they are thus not a threat. Her subsequent happiness has nothing to do with greed, but everything to do with politics and status. Baal's gifts recognize her status, and they honor Baal too in showing both his intention to honor Athirat and his generosity in bringing such magnificent confirmation of his peaceful intentions.

The account in 1.4 III 23–44 of the banquet Athirat gives for Baal and Anat also focuses on protocol. It is, of course, Athirat's duty to provide a meal for her guests. They present the gifts to her, but she does not immediately accept them. One issue is made explicit by her speech in lines 28–32: "Have you brought gifts to Bull El the Beneficent,

or honored the Creator of Creatures?" She shows concern about a potential breach of protocol in which accepting these gifts might seem to place her at a higher priority than El. Anat's response (lines 33–36) seems to allay her concerns. But the larger issue about the gifts is not spoken. If Athirat accepts the gifts, then they put her under obligation to reciprocate. This is a very important aspect of the etiquette of political gift-giving (Liverani 1978:21–26). So if she accepts the gifts, she will be expected to help Baal. It seems clear that in the lacuna at the end of the column she does accept them, since she takes on the role of envoy for Baal in the next column.

Athirat's visit with El (1.4 IV–V) is a model of appropriate behavior. She arrives and bows before the god. El in return gives her a warm welcome, as befitting his wife, offering her a meal and perhaps a little sex. Her response, sometimes characterized by interpreters as a brusque rejection of his offer (e.g., de Moor 1987:53 n. 235; *EUT* 37), is not that at all, but rather a fully appropriate attending to business. She is indicating that she has come, not primarily as a guest, but as a messenger, and that her first priority must be to deliver the message. There is time for more intimate relations with her husband after her business is concluded. Her message is identical to that of Anat, but the response is exactly the opposite. El gives his permission for the palace. Athirat responds with an appropriate word of praise for El's wisdom in his decision.

By taking into consideration the importance to the storyteller of royal and family protocol and etiquette, the flow of the story can be understood in a very plausible way. It can also at least partially explain the damaged discussion in 1.4 III 10–22 that Baal has before he and Anat arrive at Athirat's banquet, for here Baal complains specifically about a terrible breach of protocol that took place in the assembly of the gods. The exact context of the discussion remains obscure because of the broken nature of the preceding lines, but it is clear that the subject matter of the speech is intimately related to the theme of the larger context.

Another element of the narrative in 1.3 III–1.4 VII that deviates from the standard tradition of building narratives is the debate between Kothar and Baal over the installation of a window in Baal's palace (1.4 V 58–VI 15, VII 14–29). There is no full-scale parallel to this scene in any other preserved building narrative (see below, pp. 580–81, for a discussion of the Akkadian text RS 94.2953, which describes the building of an "opening," *aptu*, in a temple, but without any debate). The uniqueness of the episode indicates both its singularity and importance

within the story. The function of the window is very clear—it represents the means by which Baal produces the rains for the earth. Because the granting of rain is one of Baal's most central functions on the earth, this indicates just how important the story of its construction is within the context of the Baal Cycle. But it is not at all clear why Baal at first refuses to allow Kothar to build it. Baal's own explanation of his reluctance to allow a window in the palace is found in 1.4 VI 7–13, but the passage is badly damaged. However, it makes a reference to Yamm and to Baal's daughters, which suggests that perhaps he is concerned about an attack against the latter by the former. But even if we are correct about this interpretation, Baal's explanation does not give a clear sense of the poet's intent for this story device. Some scholars have interpreted it as another indication of Baal's relative weakness (see the commentary for 1.4 VI, pp. 602–10). But as we have noted already, it does not seem that the storyteller is using the palace story to emphasize weakness on Baal's part. The entire story of the cycle is filled with obstacles placed before Baal along the road to his exaltation, some requiring combat (Yamm and Mot), others requiring diplomatic skills and patience (gaining permission from El). But the overcoming of obstacles along the way to exaltation need not be thought of as always suggesting weakness. Rather some of the episodes may have been intended to show the determined nature of the god's character. Over and over again, it appears that his goal of rulership over the universe will not succeed. But with the help of allies among the gods, Baal is able to overcome the difficulties. West Semitic storytelling is filled with narratives in which an obstacle appears to derail the goal of the hero, but in the end the problems are resolved and the hero reaches his goal. For example, the opening scenes of the Aqhat Epic present the elderly Dan'il without a male heir and with little hope of getting one. But first Baal, then El intervene, and Dan'il is granted a child, Aqhat. Similarly, Kirta, whose family is wiped out at the beginning of his epic, now alone and without hope, is eventually granted a new family. In both of these stories, further disaster strikes—Aqhat is killed, and Kirta is nearly killed by disease, and then he is challenged by a son who rebels against him. Although we do not have the conclusions of either tale, it seems likely that both stories were resolved with the family line being restored and (especially for Kirta) the proper succession to the throne being assured. Similar storytelling techniques are found in the narrative of Abraham and Sarah in Genesis 12–25. Yahweh promises them an heir, but obstacle after obstacle is placed in the way, so that it often

appears that the promise will not be fulfilled. A significant reason for the popularity of this narrative motif has to do with the joy of telling and hearing a story in which there is an unexpected and happy reversal of fortune at the climax. In the story of Baal's palace, we cannot ignore this aspect of the storyteller's art. The audience is certainly aware of the conclusion toward which the story is heading. i.e., that the palace will be built, Baal will send forth the rains. It seems possible that the controversy over the window is intended to provide one last piece of suspense before Baal reaches his final goal. Because of uncertainty about the continuing threat of Yamm, Baal is reluctant to put in the window, in spite of the fact that the window is necessary for him to be able to send forth his voice and rains. Without the window, Baal cannot perform his divine function—thus we have a suspenseful moment. Baal summons all the gods to his new palace, and, unfortunately in the broken passage at the end of column VI and the beginning of column VII, the problem with Yamm is resolved (Yamm's name arises again in the broken line VII 3–4), though we do not know how. After this, Baal is willing to put the window in, and the climactic theophany provides the successful conclusion to the story. It seems plausible then to recognize in Baal's delay of putting in the window a narrative element that emphasizes that Baal is the one who determines when and how he fulfils the divine function. He chooses to manifest his power at the time he determines.

Divine Geography and Family Relations in the Baal Cycle

The purpose of this section within the Introduction is to present a sketch or "map" of divine reality in the Baal Cycle, in part to explain some of the dynamics involved in the divine family leading up to the construction of Baal's palace. In particular, the Baal Cycle presents a number of important relationships, which can be difficult to understand without some background. These include Baal's conflict not only with the cosmic enemies, Sea (Yamm) in 1.1–1.2 and Death (Mot) in 1.5–1.6, but also his strained relations with El and Athirat as well as El's apparently amicable relations to Sea and Death. In addition, expressions of Baal as a relative outsider to the divine family require background explanation. Some of the numerous gaps in our information about these relationships can be partially filled in by comparisons with other Ugaritic texts, and occasionally also with Mesopotamian and West

Semitic material (including the Bible). The following sketch begins with an examination the geography of the gods and their abodes. This will be followed by analyses of the Ugaritic concepts of the divine family and its inner workings.

The Abodes of the Gods

The action of 1.3 and 1.4 takes place in numerous locales, but primarily at the abodes of the various deities who play the major roles in the story. Tablet 1.3 opens at Baal's home on Mount Sapan, shifts in column II to Anat's abode on her mountain, ʾUġar/ʾInbub. Anat then travels to Sapan and consults with Baal before going to El's home at his mountain at the confluence of the double deeps. Returning from that trip, the action shifts to messengers who are sent from Sapan to Kaptor/Memphis, the home of Kothar-wa-Hasis. The latter makes the gifts for Athirat. Then Baal and Anat take the gifts to the latter goddess' home and gain her support for the palace. In turn, Athirat and Anat travel to El's abode again, where Athirat gets El to give his permission for the palace. Anat returns to Sapan with the news. The palace is built there, the gods come to celebrate and give their allegiance to Baal, Baal makes a victory tour of the earth, and then has the window built, from which he sends forth his thunder. Once he is established in the palace, he calls his messengers to send them to Mot's abode in the netherworld with a message. The locales involved here are largely mountains upon which the gods live. In some cases, such as those of El and Mot, it does not appear that the abode is on the summit of the mountain. El's home (1.4 IV 20–24) may be at the foot of the mountain where the waters emerge from below, and Mot's mountain (1.4 VIII 1–6) is actually at the boundary of the netherworld, and not the specific location of his residence. Baal and Anat both appear to live at the summits of their respective mountains, while Athirat's home is not fully described, but appears to be located by the seashore. This does not mean that it was not on a mountain, since mountains in the region of Ugarit descend very close to the Mediterranean shore. Kothar-wa-Hasis appears to be the only one who might have been understood to live in a human city, Kaptor/Memphis, but even this is not clear. Kaptor is a country name, and *ḥkpt*, Memphis, is referred to in the text as a land, not a city, (1.3 VI 15–16). Thus it is not certain how the poet envisions Kothar's home.

There are several key points to be made about these locales. First of all, each of these abodes is isolated from the other. The gods are not envisioned in Ugaritic mythology as living together in "heaven," but rather at different locales around the earth, primarily on the mountains. The gods must make substantial journeys to get from one divine abode to another. Regular communication between them is portrayed as relatively rare and primarily through messengers.

Secondly, it is important to note that in the mythological texts the gods have virtually no contact with cities on earth. No relationship is explicitly made in the literary texts between the abode of the gods and the temples of these gods in the towns of the kingdom of Ugarit, even those in the capital. This is quite striking and is in substantial contrast to the divine geography of Mesopotamia. There the gods are intimately tied to their cities both by cult and by mythology. While the Mesopotamian gods are often portrayed as spending time in heaven, the mythological texts depict them regularly as spending much of their time in their temples in the cities of which they are patrons. Thus, Marduk lives in the Esagila in Babylon and the temple is portrayed as the actual location of the divine council itself (Enuma Elish VI 39–92). Enlil spends his time at the Ekur in Nippur and the town is described as a dwelling place of gods before it was a dwelling place for humans ("The Story of Enlil and Ninlil," Jacobsen 1987:167–80, esp. 171, lines 10–12). When Inanna decides to journey to the netherworld, she is described as leaving from each of her major temples in the cities of Sumer (Jacobsen 1987:206–7). This blending of local sanctuaries into the mythic patterns in Mesopotamia is quite significant in showing the close relationship between the temple personnel and the stories. It indicates the importance of myth in the political sphere of Mesopotamian life.

The fact that the Baal Cycle draws no explicit connection between Baal and Ugarit is thus quite striking. Even in the Hebrew Bible, where mythology is largely replaced with the "historiographic" account of Israel's story, the relationship between Yahweh and his people is placed on a quasi-mythological ground in the account of the building of Yahweh's tabernacle in Exodus 25–31 and 35–40, which culminates with Yahweh's divine presence, in the form of a cloud, entering the shrine. The account of the building of the temple in Jerusalem in 1 Kings 5–8, has a similar climax. Ps 48:2–3 clearly links the Jerusalem temple to a divine palace on Mt. Saphon (= Sapan). There can be

little doubt that the connections between the mythic sphere and the local temple and palace were on the minds of those involved in the production of the Baal Cycle, but why the connections are so much less evident here is a puzzle to which we have not found a solution. Perhaps the poet assumes that the audience is sophisticated enough to draw the relationships themselves. Perhaps there was a sense in which the poet felt that it was inappropriate to draw an explicit connection between the gigantic mythological palace ("a thousand fields, a myriad hectares") with the relatively modest temple at Ugarit.[10] If so, it may hint at the possibility that at Ugarit the religious leadership had already developed a form of the idea that is articulated in 1 Kgs 8:27: "But will God really dwell on earth? Even the heavens to their utmost reaches cannot contain you, how much less this house that I have built!"

Within the construction of the cycle, the isolation of each of the gods' abodes is emphasized by the relative lack of detail in the depictions of the various scenes of the cycle, an aspect of the narrative most noticeable in 1.3 and 1.4. The poet makes very little attempt to provide a visual background to the events described in the poem—only rarely is there a reference to a servant or an element of furniture, and no attempt is made to indicate the liveliness of a banquet or the drama of a journey by indicating the large number of people involved, either as attendees to the banquet or servants bustling about at their duties. The narrative focuses almost exclusively on the primary characters.

Divine Time

Besides divine geography and its role within the cycle, it is also important to examine the role of time here. The temporal setting of the story of Baal provides some interesting insight into the way the poet intends for the audience to understand the action of the epic. F. A. M. Wiggerman (1996) has examined the role of temporal setting in the mythological texts of Mesopotamia and has argued that the stories of cosmic conflict, in which anthropomorphic gods battle enemies that are portrayed as dragons and monsters, and which often have to do with creation and the establishment of order in the cosmos, are more clearly depicted as occurring in the ancient past. Stories that do not

[10] We thank Prof. Gary Porton of the University of Illinois for this suggestion.

deal with monstrous enemies and creation of the world are generally set in a vague present.

While the Baal Cycle presents episodes of cosmic conflict (the battles with Yamm and Mot), one of the most noteworthy aspects of these stories is that they do not culminate in creation. It is thus not too surprising that there is no indication that these stories are set in a distant past. Rather the cycle seems to be set in the vague near present. Thus, in 1.3 II, Anat goes forth to fight against human armies, which clearly indicates that the story is not being portrayed as a series of events that preceded the creation of humanity. The only aspect of the story that clearly suggests a time in the distant past (but still after creation) is the use of the construction of the palace to provide an aetiology for Baal's function as sender of the rain. From a modern point of view, the long-term presence of humanity on earth suggested by Anat's battle conflicts with the idea that it was only after Baal built his palace that he sent forth his rains. How could the world have existed so long without the rain? But such chronological lapses are not of significance in most mythological storytelling.

The apparent return of Yamm and Mot after their defeat also indicates in a clear way something that is less obvious, but also present, in the Enuma Elish, that the death of these antagonists is never considered final, that the threat that they represent (chaos, death) never fully subsides and that thus these battles in a certain way remain or perhaps repeat themselves eternally. This concept informs Enuma Elish, VII 132–34 (Foster 2005:483), in which the poet explains one of Marduk's fifty names by stating, "He shall keep Tiamat subdued, he shall keep her life cut short." This is stated after Marduk has killed her and created the world with her body. And yet, she must still be subdued. Thus even in a tale that is ostensibly set in the distant past, there is a significant undercurrent of meaning that connects those primordial events to the present. In the Baal Cycle that undercurrent is considerably more obvious than in the Enuma Elish, as Yamm continues to play a role in the story of the building of the palace in 1.4 VI 12, VII 3–4, and Mot, after dying in 1.6 II 30–37, returns after seven years in 1.6 V 8ff to fight Baal again. Recognizing the eternal nature of the struggles in the poem helps in understanding how Baal can eternally be the king of the gods, while at the same time he can also be defeated by Mot and killed. All of this occurs together in an eternal present. One simply focuses on the aspect of Baal that is of importance to the moment.

A further aspect of time in the mythological universe concerns the "frozen" nature of the divine family's lives, discussed briefly above (p. 17) in relationship to Baal's appointment as successor to El. As mentioned there, the portrayal of Baal's rise to power is based on the notion of the elderly king designating his successor before he dies. But while the human king will eventually pass from the scene, the divine family is frozen in time, so that there is no anticipation that El will die and leave the full powers of kingship to Baal. Rather, Baal will eternally act as the ruler of the council, and El will eternally remain at the head of the pantheon. This does not mean that Baal's status is somehow compromised and weakened. It is simply the way that the theologians at Ugarit understood the composition of the divine family to be. The temples, the rituals and the offerings to the gods never take into consideration that time might force changes on the gods, leading to the death of the old king and the crowning of a new one. In the mythology, whatever successions there may be, have taken place in the past or take place during the telling of the story. From that point on, mythologically, nothing will change, and it is the priesthood's function to emphasize the eternality of the way things are now. It is only in major cultural shifts that mythology allows for significant changes to take place in the relationships between the gods. The rise of Babylon as the great political power brought about the exaltation of Marduk at the expense of Anu, Enlil and Ea. But such events are rare. Thus in Ugarit, the rise of Baal as depicted in the cycle may reflect the rise of Baal's popularity in the city, perhaps due to a change in dynasty, where perhaps El had at one time been more popular. But if so, (and such a reading of the cycle is by no means certain), the rise of Baal did not affect the central characteristics of El, but rather incorporated Baal into the tier of younger and more active gods, without attempting to provide him with creator-god characteristics.

The Divine Family

Smith (1984b; 2001a:45–58) analyzed the composition of the divine council at Ugarit and argued that it is best understood as having been composed of four distinct tiers of status (cf. also Handy 1994:65–167). He also argued that the structure of the divine council was intimately related to the structure of the family in ancient Ugarit. Beginning with insights on the patrimonial household at Ugarit published by Schloen (1993, 1995, 2001:349–57), Smith also argued that the household of the

gods at Ugarit divides into a similar four-tiered structure. As the basic unit of society, the family household could include the patriarch and his wife, their sons and families, along with other relations, as well as workers and slaves.[11] Given the royal language for the deities, it is evident that the four-tiered household more specifically reflects the model of the monarchic household. A look at the deities of the cycle and how they fit into the royal household structure should be profitable.

At the top tier is El, accompanied by his wife Athirat. He is the creator god and ruler of the universe, but he is also the patriarch of a large family that includes sons who are rivals for the power that he, as head of the family, can bestow upon them. The patriarch functions to mediate internal, domestic conflict, as well as to protect against external threat. The goal of the patriarch is to preserve the family line, its prosperity, land and honor (reputation). It is El's patriarchal position that explains much of his role within the Baal Cycle.

El and Athirat are the divine royal parents of the pantheon, the gods who compose the second tier of the family hierarchy. This level includes Shapshu, Yariḫ, Athtar, Athtart, Anat, Shahar, Shalim and Rašap, among others. It appears that Baal is an outsider, as he is called *bn dgn* "son of Dagan" (1.2 I 19, 35, 37, 1.5 VI 24, 1.6 I 6, 52, 1.10 III 12, 14, 1.12 I 39; cf. 1.4 II 25) and *ḥtk*[12] *dgn* (1.10 III 34). At this point it is unclear what Dagan's relationship to the family of El, and thus Baal's own relationship, was. The ambiguity is compounded by the fact that Baal does claim some sort of familial relation to El. Like the other deities (1.3 IV 54; 1.92.15), Baal can refer to "Bull El" as his father (1.3 V 35; 1.4 IV 47; cf. 1.4 I 5). It is possible that El and Dagan were essentially merged together at Ugarit (cf. Feliu 2003:264–66).

Yamm and Mot also probably belong to the second generation of gods, since both are given titles that suggest a close relationship to El, and both are portrayed as holding substantial power. Yamm is briefly raised to kingship over the divine council, while Mot has dominion over the netherworld. At the same time, the destructive nature of these two figures and the occasional portrayal of Yamm as a monstrous dragon suggest that they may stand outside of this household despite the clear indication of their relationship to El. (This question is discussed in

[11] See Schloen 1995: esp. 41, 73. In the general approach and areas of data pertaining to this subject, Schloen follows Stager 1985. For an older appreciation of the family as the basic unit of society, see Mendelsohn 1948:24–40.

detail below.) In any case, it is worth noting that the conflicts described in the Baal Cycle all involve the gods of this level. No deity ever disputes the status of El or Athirat.

Although we have the names of several members of this tier, we know that there were many more. The gods of this rank were collectively called, "the seventy, the children of Athirat" (1.4 VI 46). "Seventy" is well known as a conventional number for a large and clearly defined group (see Judg 9:5; 2 Kgs 10:1; cf. Exod 1:5; KAI 215:3; Montgomery 1933:120; Fensham 1977), usually under the authority of a patriarchal figure, often a king.[13] In the narrative of Elkunirša, a West Semitic myth written in Hittite, Ashertu's children number 77//88 (Hoffner 1998:91), the same number of Baal's divine rivals in 1.12 II 48–49. Also at Emar the traditional number of the gods in the pantheon appears to have been seventy (Emar 373.37–38; Fleming 1992:73, 242; 2000b:57–59, 238–39). This tradition perhaps survives in the later Jewish notion of the seventy angels who deal with the seventy nations (1 Enoch 89:59, 90:22–25; Targum Pseudo-Jonathan to Deut 32:8; bT. Shabbat 88b; Sukkah 55b; see *TO* 1.214 n. k; J. Day 1994:184; 2000:23–24). It is to be noted that in some of these cases, specifically Judg 9:5 and KAI 215:3, the groups of seventy family members play roles in dynastic conflicts. The number expresses the entirety of a family line that may be threatened with extinction, precisely the issue raised in the Baal Cycle. When Athirat first sees Baal and Anat coming to her in 1.4 II 21–26, her reaction is one of fear that they have come to attack her children. In fact such a conflict appears to occur when Baal returns from the dead in 1.6 V 1–4. The notion that the key gods of the cosmos belong to the familial group, the children of Athirat, explains the importance of Baal's feast for this group when his palace is completed (1.4 VI 38–59). The presence of the children of Athirat at the inauguration of the palace and their taking part in the grand banquet indicates the acknowledgment of Baal's position by the entire pantheon (Mot, of course, excluded), and thus assures the audience of the established nature of Baal's kingship.

Besides Baal, the other primary deity from the second tier who plays an important role in 1.3–1.4 is Anat. She is Baal's sister, but at the same time appears to be a daughter of El (cf. 1.3 V 25; 1.18 I 16).

---

[13] For more examples and further discussion of this "seventy," see the Commentary to 1.4 VI 46 on p. 629.

Her relationship to Athirat, however, does not suggest that she is one of her offspring. Her character is unique among the deities in Ugaritic myth, closely related to that of Inanna/Ishtar in the Mesopotamian texts. She is portrayed as a young woman who is legally unattached to any male, and therefore her place in the pantheon remains fluid (Walls 1992; P. L. Day 1991). She sometimes expresses a startling contempt for authority and is willing to threaten even El to get her way (1.3 V 19–25 and 1.18 I 11–14). She also occasionally breaks out into unrestrained anger and violence. Her shockingly brutal attack on her enemies in 1.3 II, her killing and dismemberment of Mot in 1.6 II 30–35 and her harsh murder of Aqhat because of his stubbornness in refusing to give her his bow (1.18 IV 16–39) all illustrate what Frymer-Kensky (1992:65) calls her "sheer force, rage, and might, with a physical power, that exists in a somewhat uneasy relationship to the orderly world of the hierarchical pantheon." But the key characteristic of Anat is her intense love for and loyalty to Baal. She is his strongest ally and will do anything in her power to help him. In 1.3 III 35–47 she refers to her own mighty battles with Baal's enemies. She is the first one Baal enlists in trying to gain El's permission for the palace (1.3 III–V), and although her threatening demeanor appears to derail her attempt, the passion released against El is grounded in her devotion to Baal. She continues to support him in his meeting with Athirat (1.4 III 23–44), and she is the happy messenger who brings Baal the good news of El's permission (1.4 V 20–35). She will go on to play a key part in the story of Baal and Mot.

Another element of the second tier would presumably be the offspring of the children of El and Athirat, i.e., the gods of the third generation. Very little is preserved about this generation of gods at Ugarit, unlike in Mesopotamia, where several generations of gods were constructed, with major deities coming from different genealogical levels. At Ugarit the only children of the third generation who make an appearance are Baal's daughters, Pidray, Tallay and Arṣay (cf. 1.3 I 22–25; III 5–8; 1.4 I 14–18 and parallels; VI 10–11; 1.5 V 10–11). The vagueness with which these three women are described in the cycle makes it difficult to be certain that they are literally Baal's daughters. It is also possible they are his wives instead (see particularly 1.3 III 5–8), and that the term, "daughter" is not being used literally in this context. On the other hand, Pidray is explicitly portrayed as Baal's daughter in CAT 1.24.26–27, when Ḫarḫab, king of summer, suggests that Yariḫ marry Pidray rather than Nikkal, saying, "I will introduce you to her father Baal." But with

these exceptions (if correctly interpreted), the divine family appears to end essentially with the second generation of gods.

The third level of the pantheon is made of gods of relatively high rank, who primarily serve the gods of the upper two tiers. Only one deity of this rank appears in the Ugaritic texts—Kothar-wa-Hasis, the craftsman god. He plays an important supporting role in 1.3–1.4, as he does in 1.1–1.2, both in the account of his providing the gifts that Baal takes to Athirat (1.4 I) and as the artisan in charge of building Baal's palace (1.4 V–VII). It is not entirely clear that a distinction in rank ought to be made in Kothar's case. He is portrayed as wise and clever. The weapons he makes for Baal soundly defeat Yamm. When he arrives to be commissioned to build the palace, Baal himself serves him his food, and he is given a throne at the right hand of Baal (1.4 V 44–48).[14] And yet his entire function within the cycle is to serve the other gods. Of additional interest is the fact that his home is located neither in the mountains to the north of Ugarit, nor in the vague mythological lands at the borders of the earth (like El's abode), but rather in Egypt/Kaptor (Crete), a region very much a part of the real world, although well beyond the borders of the Levant. This also suggests a separateness and foreignness about Kothar within the divine household.

The fourth level of the pantheon consists of deities who serve other deities as "support staff." The most commonly mentioned members of this tier are the messenger-gods. El, Yamm, Baal and Athirat are all described as sending messengers to other deities. Baal's pair of messengers, Gapn and Ugar (1.3 III–IV, esp. III 36; and 1.4 VII 52–1.5 II, esp. 1.5 I 12), plays an important role in the sending of communications between Baal and other gods. In 1.3–1.4, they take Baal's message to Anat at the beginning of the story of Baal's palace, and they take the storm-god's message to Mot at the beginning of the Baal-Mot episode. They are explicitly called *ʾilm*, "gods," several times in the narrative (1.3 III 32; IV 34; 1.5 I 9, II 13), as well as *ʿnn ʾilm*, "divine servants" (1.3 IV 32; 1.4 VIII 15), *ʾilnym*, "godly ones/deities" (1.3 IV 35), and *ǵlmm*, "youths" in 1.3 IV 5. It is quite likely that these two deities were not limited in their functions to the delivery of messages. A similar servant deity, Qudš-wa-ʾAmrar (who appears to be a single character with a compound name), plays the role of personal attendant to Athirat, as

[14] On this god, see M. S. Smith 1985, and Pardee, *DDD* 913–14.

well as messenger. He is assigned by Athirat to prepare the welcome for Baal and Anat when they come to visit the goddess in 1.4 II, and he is put in charge of travel arrangements when Athirat goes to visit El in 1.4 IV. In addition, he is given the epithet, *dgy ʾaṯrt*, "fisher of Athirat," which suggests an additional job that he is not shown doing in the preserved texts. The Kirta Epic mentions one other named member of Baal's staff, Ilish, who is the herald (*ngr*) of Baal's house (1.16 IV 3–12).

Other members of this tier are often only inferred in the text: servants who attend to the banquets that so often occur in the narrative, musicians who entertain, attendants in the retinue of the gods (cf. 1.5 V 6–9; 1.47.26//1.118.25//1.148.8; 1.84.8; 1.109.21–22). A specific servant of this type is described in 1.3 I 2–22, as he places food and drink before Baal and then appears to sing for the god. But most of the time these servants stay totally in the background. The genealogical relationship of these minor deities to El and Athirat is unclear, so that it is impossible to say for certain to what degree this tier was thought to be related genealogically to the rest of the pantheon.

Baal appears to exist outside the boundaries of El's family. Smith (2001a:61–66) pointed out that the family of El seems to be strongly related to the astral aspects of the cosmos. Numerous of El's children (e.g., Shapshu, Yarih, Athtar, Shahar and Shalim) are explicitly related to the heavenly realm. Baal on the other hand is a storm god, and this may be part of the background to the tension between him and the family of El (for a different approach to this question, see Wyatt 2002). As mentioned above, Baal's outsider status is expressed in the epithets *bn dgn*, "son of Dagan"[15] and *ḥtk dgn*.[16] Dagan's status at Ugarit is very

[15] The name of Dagan has been derived from Arabic **dajana*, "to be cloudy, rainy" (cf. Wehr 272: "to be dusky, murky, glomy (of day)"). Renfroe (1992:91–94) and Healey (1993:507) are critical of this etymology, given the distance in time and space (see also *UBC* 1.91 n. 174; Feliu 2003:278–87). Dagan was a major god of the middle Euphrates from Hadidi/Azu upstream to Terqa downstream, and at points in between, such as Tuttul and Emar. For Dagan at Emar, see Fleming 1992:169–71, 203–8, 240–56, 282–83; Fleming 1993; Beckman 1996:27–28, text 15, line 32, where along with the warrior-god Ninurta he is invoked to destroy anyone who would contest the words of the testament. For Dagan in Ur III texts, see Sharlach 2001:95–96. For a recent survey of the god, see Feliu 2003.

[16] Another indication of Baal's outsider status is found in CAT 1.24.25–26, where the moon-god Yarih is called the "brother-in-law of Baal." For the situation that Dagan and Adad appear to share a wife in Babylonia ca. 1900, see Lambert 1980:137; Feliu 2003:290.

vague. He plays no role in the preserved mythological texts, but he received regular offerings in the cult at Ugarit (1.46.3; 1.48.5; 1.119.21; 1.162.9; 1.173.4). At Emar Dagan appears to have played the role of creator and father of the gods that El plays at Ugarit (Feliu 2003:301, 304–5). Dagan and Haddu are associated with one another at Mari, in the Zimri-Lim epic (cited in Schwemer 2001:224; see also p. 285), and perhaps also at Emar (see the largely reconstructed line 6 of the verso of AEM I/1 108, cited in Schwemer 2001:280). But at Ugarit it seems that Dagan was eclipsed by El, while Haddu/Baal thrived. The Baal Cycle seems to retain the connection between Baal and Dagan, but at the same time make an attempt to relate him at some level to El. This ambiguous status certainly is an important element in the tension between Baal and the family of El and in the slowness of El within the story to recognize Baal as the ruler of the council.[17]

El's Relationship to Baal's Enemies

Looking at the divine family as a patrimonial household (Smith 2001a: 54–61) also gives us insight into the interpretation of the fact that El has a close relationship to all of the enemies of Baal in the cycle. This has been discussed already also in *UBC* 1.93–94, particularly in relationship to the conflict between Baal and Yamm. The latter deity is referred to several times as *mdd 'il*, "the Beloved of El" (1.3 III 38–39; 1.4 II 34, VI 12; VII 3–4) and is apparently supported by El for the kingship of the gods in 1.2 I 36–38, III 7–11). But Yamm is not the only enemy that shows a connection with El. Mot, the key figure of the cycle's third episode, is also called "Beloved of El" (usually *ydd 'il*, 1.4 VII 46–47, VIII 31–32; 1.5 I 8, II 9, etc.). In this episode, however, it seems clear that the title is more related to his previous appointment as ruler of the netherworld than to any plan to extend his dominion over the earth or heaven. In spite of the epithet, El does not support Mot in his struggle with Baal. In fact, the opposite seems to be the case. Besides Yamm and Mot, there is also a brief reference in a speech of Anat (1.3 III 38–46) to a number of other enemies of Baal who show a

[17] Texts from outside Ugarit provide other versions of the conflict between Baal and the family of El and Athirat, as well as indications of his irregular birth. See particularly the story of Elkunirsha (a Hittite version of a West Semitic myth) and Philo of Byblos (see Smith 2001a:63–65). An anthropological perspective to such inner-familial conflicts can be found in Hrdy 1999: esp. 33, 179–85, 236.

close relationship to El. In this passage the goddess describes a number of Baal's foes that she has defeated in the past:

> Surely I struck down Yamm, the Beloved of El (*mdd 'il*),
> Surely I finished off River, the Great God (*'il rbm*),
> Surely I bound Tunnanu and destroyed (?) him,
> I struck down the Twisty Serpent,
> The Powerful One with Seven Heads.
> I struck down Desi[re] (*'ar[š]*), the Beloved of El (*mdd ilm*),
> I destroyed Rebel (*'tk*), the Calf of El (*'gl 'il*).
> I struck down Fire (*'išt*), the Dog of El (*klbt 'ilm*),
> I annihilated Flame (*ḏbb*), the Daughter of El (*bt 'il*)
> That I might fight for silver, inherit gold."

Five of the nine names and epithets are accompanied by additional epithets relating the deity in some way to El. In the commentary below (see pp. 246–58) we present arguments that suggest that the other four names and epithets, those found in lines 39–42, could refer to Yamm, so that all of the enemies listed by Anat are portrayed in the speech as having an intimate relationship to El. Who are these gods, and what does their relationship mean within the context of the narrative?

Smith (2001a:27–35) looked at these enemies from an anthropological perspective, viewing them as beings that were related to the "other," to the "periphery" and to the "foreign." He placed them (along with Yamm and Mot) in this series of categories that contrasted them to the "center," the "home" and the "benevolent." This analysis was based on Wiggerman's similar study of Mesopotamian views of cosmic monsters (1992:158–59; 1996:207–15). While this perspective provides a number of insights, it is important to recognize that Ugaritic mythology has numerous differences from the Mesopotamian tradition. Here we examine the cosmic enemies from an additional perspective.

Rather than looking at the enemies of Baal only as foreign and distant, we propose here that the Baal Cycle in particular emphasizes the nearness and close relationship of his enemies to the family of the gods. Yamm/Nahar is not portrayed simply in the cycle as some distant being, unrelated (or distantly related) to the gods involved in the story. He may be regarded as a member of the second tier of gods, with a close relationship to El, who has gained his support to become head of the pantheon. Indeed, in 1.2 I 16, 33, 36 El is explicitly referred to as Yamm's father. This is quite different from the portrayal of Tiamat in the Enuma Elish, where she fully represents chaos and a dire threat not just to order, but to the assembly of the gods itself. She is also of

the divine family but belonging to a far distant generation. Compared to Tiamat, Yamm is no longer cosmic in scope, i.e., he never threatens the entire pantheon or universe with destruction. Mot, likewise, has been granted rulership over a major aspect of the cosmos and is also consistently described as "beloved of El," not an epithet of a foreign, peripheral deity. Mot is also characterized as one of the *bn ʾilm*, like the other deities of the divine family (1.4 VIII 16, 30). Accordingly, he too is best understood as part of the second tier of deities.

But what about the other enemies of Baal described by Anat in 1.3 III? Here we find deities portrayed as dragons (Tunnan, Litan in 1.5 I 1, the Twisty Serpent, the Powerful One with Seven Heads). In the commentary below, we point out that the epithets, "Twisty Serpent" and "Powerful One with Seven Heads" arguably describe Tunnan in 1.3 III 40–42 and Litan in 1.5 I 1–3. Thus in each case only one dragon is referred to. In addition, the use of the identical epithets for Tunnan and Litan suggests that these two names may very well refer to a single being. We also argue that the structure of 1.3 III 38–42 suggests the possibility that Tunnan is to be identified with Yamm/Nahar, as an alternative image of the deity who is portrayed anthropomorphically in 1.2 IV. If this is correct, then the image of the dragon in the Baal Cycle is not an image of an unrelated deity divorced from the divine council. It would follow that this image has been modified to fit into the story of a family quarrel over power within the patrimonial household, although presumably the image holds negative connotations. It seems likely that compared to what we see in Mesopotamia (as in the view expressed in Smith 2001a), the Ugaritic mythographers have removed the combat myth from the context of cosmology, and have thereby domesticated the old cosmic enemies and have brought them into the family, or at least into proximity to it.

The same can be said for the other four enemies listed by Anat. The insistence in the text on their close relationship to El domesticates them too. We argue in the Commentary to 1.3 III that the four names may refer to only two deities, each provided with an epithet showing a familial relationship to El and another using the name of a domesticated animal in relationship to El. But whether the list refers to two or four beings, Arshu, "the beloved of El," and Dabibu, "the Daughter of El," are clearly to be reckoned with the divine family. The other two epithets, "calf of El," and "dog of El," also indicate the location of the deities within the household, since both animals mentioned are

domesticated, rather than wild. We cannot, however, fully determine their position within the household, since no other information is preserved about them.

If we recognize that even Baal's enemies have been incorporated into, or related to, the family structure of the divine household of El, then we can see that most of the events described in the Baal Cycle fit within the sphere of what might be expected to occur in the extended family. The conflicts between Baal, Yamm and Mot, then, fit into the theme of inner-generational struggles for power. El's support of Yamm in the first episode and his slowness to respond to Baal's request in the second may be seen as a reluctance to acknowledge a member of the council who is somewhat outside the biological family. The necessity of getting the permission and support of the patriarch of the family for building the palace that is the symbol of Baal's kingship clearly makes sense in the context of the patrimonial/royal household. El's granting of permission for the palace only after Athirat, the chief wife, whose own child should have been the one to take the kingship, shows her acceptance of Baal, also fits into the etiquette and protocol of the royal family. And Baal's attempt to force Mot, the only other god who refuses to recognize his dominion, fits the pattern for securing one's position within the extended family.

Divine Reality in the City of Ugarit

Perhaps more than any other document from the city of Ugarit, the Baal Cycle gives us a window into the understanding of religious reality in the context of the northern Levant (what many scholars would view as "Canaan" or perhaps "northern Canaan," although technically Ugarit lies north of the political "Land of Canaan"). By imagining their deities as constituting a complex, but essentially unified household, the theologians of Ugarit argued for a strong cohesion and unity in their universal outlook that was not shared by their culturally superior neighbors to the east. In the concepts of the divine assembly and family, which largely became one and the same, Ugaritic polytheism offered its adherents a more integrated vision of reality than is generally realized. The Baal Cycle downplays the dangers of outside chaos by making even the classic conflict between the storm-god and the sea a matter of family dispute, rather than cosmic danger. And even the fact that life (Baal) cannot completely overcome death (Mot) is viewed as a

necessary accommodation to the way things are in a divine household. Mot remains a beloved of the patriarch, not an implacable enemy that threatens to bring an end to the cosmos. He remains in his place, briefly ascendant during the summer or a drought, but returned to his proper position regularly by the true king, Baal.

While the stories play out very much as human dramas within the divine family, and very much on an anthropomorphic level, it is also clear that the theologians of Ugarit knew that the ways of the divine were greater, deeper and more mysterious than they could describe. The sense of the transcendent does not often appear in the Ugaritic material, but it does show up in the beautiful message that Baal sends to his sister at the beginning of the story of his palace (1 3 III 14–31):

> For a message I have, and I will tell you,
> A word, and I will recount to you,
> Word of tree and whisper of stone,
> The word people do not know,
> And earth's masses do not understand,
> Converse of Heaven with Earth,
> Of Deeps with Stars.

While the cycle makes strong use of the imagery of the patrimonial household and of court etiquette, the poem was also very much influenced by the religious context in which it was composed and written down. We will see in the commentary that a number of genres related to temple liturgy clearly influenced the way the poem was written (cf. *UBC* 1.58–114 for an earlier discussion). Thus, for example, we will see echoes of sacrificial offerings and processes in the descriptions of Baal's feasts in 1.3 I and 1.4 VII. We will also note a close connection between the concept of *ḥrm*-warfare and the description of Anat's battle with her enemies in 1.3 II. But beyond these connections to the ritual and liturgical life of Ugarit, the poet is able to make use of other genres effectively to bring the story to life. The cycle provides elements that show relationships with the language of royal land grants, lamentations, curses, diplomatic correspondence, hymns, magical incantations, legal terminology, and numerical sayings, and certainly other genres that are lost to modern readers. As noted above, the story of 1.3–1.4 is dominated by the building of Baal's palace, which reflects a known pattern of temple and palace-building stories with all of their various religious elements; some components in these stories derived ultimately from rituals for the dedication of temples in the ancient Middle East.

Recognizing these elements helps to flesh out the overall intent of the poet and brings the reader to a grander sense of what the epic may have meant to its ancient audience.

The centrality of rain for the agricultural economy of Ugarit plays a foundational role in the portrayal of Baal in the cycle. *UBC* 1.97–99 argued that each of the three primary episodes of the cycle appears to come to a climax with the arrival of Baal's rains. This can be interpreted as each episode focusing in on the beginning of the rainy season in the autumn. Thus the weapons used by Baal against Yamm in 1.2 IV can easily be seen as representing Baal's lightning, the harbinger of the rains. In the second episode, Baal's grand theophany from his palace climaxes and concludes the story of his palace, and there is no doubt that it refers to the fall inauguration of the rainy season. Again, in the story of Baal and Mot, Baal's return to life is explicitly connected to the return of the rains after a long period of dryness (1.6 III 4–7), thus again using the imagery of the autumn return of rain. The threefold use of the image of the arrival of the rains emphasizes the importance of this theme within the poem. It also suggests that each separate episode was intended to climax with the image of triumphant Baal sending the rains. As mentioned above, this is clearly the image of Baal with which the poet intended to leave the audience, not with a sense of Baal as a relatively weak king (as has often been assumed). Baal works his way through numerous obstacles in each of the episodes, but ends as the undisputed ruler of the cosmos. This is exactly the way we would expect the god whose function it is to mediate the blessings of the natural universe to human society to be portrayed. Baal is exactly as powerful as he needs to be to perform his cosmic function, in balance with Sea and Death. He is not described as an absolute ruler such as Marduk is in the Enuma Elish because he is envisioned by the poet as being part of a divine household, while the poet of the Enuma Elish envisions Marduk as an absolute monarch, according to the political imagery that developed in Mesopotamia—something quite divorced for the portrayal of the patrimonial household. Thus the expectations concerning the type of power attributed to the two gods are quite different. But to his subjects at Ugarit Baal is king and triumphant warrior. Under El's tutelage, he is the most powerful of the gods, bringer of rains and fertility.

Like Deities, like Temples (Like People): Baal's Palace and Its Reflection on Earth

We have already noted above that in the Near East there often appears to have been a strong relationship between the mythic presentation of the divine world and the human world on earth. This seems true of the connection between Baal's palace and his temple at Ugarit, even though the latter is never explicitly connected to the former in the text. The palace on Mount Sapan is the central issue of the episode that dominates 1.3 and 1.4, and it seems that in many ways the palace and the mountain play a key part in defining the character of Baal himself. The poet's focus upon the palace in the narrative in turn almost certainly amplified for the audience in Ugarit Baal's critical role for the people of the city, and also strongly hinted at the function of Baal's temple (and the cult undertaken within it) in the city. In this section we will look into some aspects of the function of the mythological motifs in merging the depiction of the divine world with the realities in the mundane context of Ugarit.

In the ancient Near East there was no closer relationship between the divine and the human than that expressed in the temple of the god and the cultic activities that were performed there. The priesthood made significant attempts through ritual and through narrative to identify the heavenly sanctuary on the holy mountain with the temple in the city, itself also often (but not always) located on a hill. The goal was to make the god accessible to the city, to encourage him to bless the city, and to join the population to the god. We will examine some of the ways in which the two worlds of the divine and human came together at Ugarit and how this is sometimes reflected within the Baal Cycle. Four aspects of this relationship will be examined in this final section of the Introduction (see also Smith 2005): (1) the intersection of deity and humanity at the temple; (2) the deity's story and its relationship to the temple; (3) the close relationship between the divine and earthly palace or temple and the character of the deity; and (4) how the features of the temple were used to actually create an image of the god himself.

Intersection: Ownership, Presence, Fertility and Revelation

Perhaps the most obvious intersection between the divine world and the human realm is found in the temple. Within the temple the divine presence (theophany) confronts the human (led by the priesthood) in

a most intimate way. At the core of this intersection is ritual, which provides the context for the presence and blessing from the divine side and for the presence and offerings of the priests and (on the periphery) the people from the human side. The temple and its court are holy and sanctified both by the presence of the deity and by the fact that the site is in fact the property of the god. The deity is not the visitor in the temple; rather the human devotees are. The god's ownership of the temple allows it to be linked firmly to the mythic palace/temple of the narratives. In the Enuma Elish, the heavenly and earthly temples are actually merged when the gods themselves build the Esagila in Babylon for Marduk. More commonly, as will be examined in the commentary, the earthly temple is provided with a construction myth of its own, in which the god commissions the building of his temple on earth (see above pp. 35–6, and below 549–53).

The concept of theophany is, of course, not limited to a god's perceived appearance at the temple. Baal's theophany is the rainstorm, and the greatest of his divine appearances was in the return of the rain in the fall. It is this theophany that is described in 1.4 V 6–9 and VII 25–42. But in the narrative the sending forth of Baal's voice in the latter passage takes place within the god's palace, through the window that is identified with the break in the clouds from which the rains pour (lines 25–29). Thus in the Baal Cycle, the palace/temple (presumably both divine and earthly) is the focal point from which even the greatest theophany emerges. The theological identity of the two temples is obvious and is further expressed by the vocabulary they share: the terms house (*bt*) and palace (*hkl*) apply to both the cosmic palace and the terrestrial temple. The god is present simultaneously in both, and the priests make their offerings simultaneously in both (cf. Isa 6:1–4 for a description which shows this kind of identity).

Divine Narrative and Divine Abode

A second dimension of intersection between the divine palace and earthly temple can be seen in their relationship to the divine narrative itself. Religious storytelling such as the Baal Cycle ties itself very closely to the temple in such a way that the story of the temple becomes a central element of the divine story itself. In 1.3 III 20–31, Baal summons Anat to hear a revelation of enormous importance. That revelation is his plan for the palace, his holy temple. The vital connection between temple and narrative is seen over and over again in Near Eastern literature, but nowhere more clearly than in the Enuma Elish, where

the building of Marduk's temple represents the climax of the story (VI:45–67), and in the book of Exodus, where Yahweh gives Moses the detailed plans for his shrine as the first item of business following the making of the covenant (Exodus 25–31; 35–40). Thus the temple itself is divine revelation. In Israel the temple also becomes the center for ongoing divine instruction (cf. Isa 2:3, where all people will come to the temple to learn God's ways; and Psalm 50, where God speaks forth from the temple to his people).

Evidence from the neighboring cultures has suggested that the link between the temple and divine narrative went beyond just the description of the structures themselves. There are indications that much of the decoration of the earthly temple was intended to call forth elements of divine narratives in a way that identified the earthly with the heavenly. For example, Bloch-Smith (1994) has cogently suggested that the cultic accoutrements of the Jerusalem temple (1 Kings 5–8) might have conveyed the narrative of Yahweh's victory over the sea, his acceptance of the people's offerings and his accession (or re-accession) to the divine throne within the temple. Thus the strikingly large "molten sea" located in the courtyard may have represented Yamm in his defeat by Yahweh, standing just outside the temple in which Yahweh triumphantly sat enthroned. The image of Yahweh in his temple, protecting his people seems to be reflected in the names of the two pillars that flanked the temple's entrance, *yākîn* and *bō'az* (1 Kgs 7:21). When read together as a formula, **yākîn bō'az* (or, **bĕ'ōz*), "May he [Yahweh] establish [the temple/king/people] in strength," such a relationship is suggested.

It has often been noted that some of the décor of the Jerusalem temple can be related to the imagery of the divine garden/Garden of Eden, as known from the literary texts. As Bloch-Smith (1994:27) observes, the Jerusalem Temple evokes not only a statement of power, but also one of Edenic beauty: "Solomon's choice of palmette and cherubim motifs to adorn the walls and doors conveyed to Temple visitors that the Temple proper recreated or incorporated the garden of Eden, Yahweh's terrestrial residence."[18] The garden image is sometimes

[18] In addition to these explicit markers of garden imagery in the Temple, Bloch-Smith (1994:27) observes: "the molten sea perhaps symbolized secondarily the primordial waters issuing forth from Eden (Gen 3:10), and the twin pillars modeled the trees (of life and knowledge) planted in the garden." Bloch-Smith's observations about the Jerusalem temple as the divine garden known also from Genesis 2–3 stand in a long line of scholarship (for references and discussion, see Wallace 1985:70–89; Stordalen 2000:409–37).

explicitly connected to the motifs of the mountain of the god as the god's home (e.g., Ezek 28:13–16), and also to the image of the garden as the source of the waters of the earth and thus of fertility. For the latter, note that the Garden of Eden is located at the source of the great rivers of the world (Gen 2:10–14), which links the garden clearly to fertility and abundance (the word *ʿēden*, probably means "abundance"). See also Ezek 47:1–12, in which the prophet describes a river that flows directly out of the Jerusalem temple to water the earth. There also seems to be an additional theme that portrays the garden as a place where precious stones abound as well (Ezek 28:13).

The tradition of the garden of the gods and its relationship to the mountain home of the god, as well as its strong connection with fertility appear to go back at least into the late third millennium. In a study, McCarter (ip) has suggested that these themes were early associated with mountain sanctuaries in the Lebanon and Anti-Lebanon ranges (see also Lipiński 1971). One might consider the common motif (found in Mesopotamian, Ugaritic, Israelite and Egyptian texts) of bringing cedar wood from this area to use in building a temple as a reflection of the idea of the sanctity/fertility of the Lebanon/Anti-Lebanon, which may be transferred elsewhere by the importation of the wood.

Unlike the Israelite literature, the Baal Cycle does not provide substantial descriptive passages of Baal's abode that would allow us to see this type of identification between the narrative and his earthly temple at Ugarit. And unfortunately, the excavations of the temple of Baal on the acropolis have provided very little indication of the decorative motifs that were used. Thus we are limited in what we can say about the relationship between the cycle as narrative and the temple as its reflection. However, the description in the cycle of the importation of cedars from Lebanon for the construction of the palace (1.4 VI 18–21), as well as precious metals and stones (1.4 V 15–19), as brief as it is, still suggests that such identification was made. On the other hand, the "garden of God" motif seems more likely to have been related to El and his temple than to Baal. El's home, rather than Baal's, is the one that is related to the subterranean waters, the important motif related to the garden in Gen 2 and Ezek 47 (cf. Wallace 1985:76–78).

Participation: The Character of the Deity as Reflected in the Temple

Where the medieval metaphysical concept of ontological participation involves "Being" and "beings," ancient Near Eastern texts express participation in terms of power. Like the king, the sanctuary-site participates

in the power of the deity. Baal's mountain is the site of "victory" (*tl'iyt*), according to CAT 1.3 III 31 and 1.10 III 31. Similarly, Yahweh's power is manifest terrestrially in the tradition of Jerusalem's strength (Psalm 46). Its titles include terms of power and security, "refuge and stronghold" (*maḥăseh wā'ōz*; Ps 46:2) and "haven" (*miśgāb*; Pss 46:8, 48:4). Great size is also an element of this discourse of strength (discussed below). Given the widespread nature of the discourse of power in West Semitic texts, power may be regarded as one of the dominant shared predications made between deities and their temples or mountains. Just as the deity guarantees the security of their temple/palace, the latter remains the terrestrial manifestation of the deity's power.

A further expression of participation and identification between god and temple involves holiness. Smith (2001a:93–97) has discussed this element at length, so we will merely summarize here. Both gods and temples/mountains are referred to as "holy" in the Ugaritic texts. A common epithet of the gods is *bn qdš*, "sons of holiness," or possibly, "sons of the Holy One" (CAT 1.2 I 20–21, 38; 1.17 I 3, 8, 10–11, 13, 22; cf. the Phoenician inscription KAI 4:4–5 referring to the deities in general as the "holy ones," *qdšm*; cf. *UBC* 1. 294–95; Merlo 1997:50). Baal's voice is called holy in the account of his great storm theophany in 1.4 VII 29. At the same time the mountain where Baal lives, Mount Sapan, is called *qdš*, "holy." In the Aqhat Epic, the word is used specifically as a synonym for "temple" (1.17 I 26 and parallels). The use of this term for deity, temple and sacred mountain is also found in the Hebrew Bible. Thus the temple mount in Jerusalem is called "his holy mountain" (*har qodšô*; Ps 48:2) and "the holy dwelling-place of the Most High" (*qĕdôš miškĕnê 'elyôn*; Ps 46:5). Israelite texts also mention the Holy Ones collectively as a divine body or assembly led by Yahweh, their king (Ps 89:6b–7a). It is the god's presence, of course, that imparts holiness to the location, and thus the temple gains its status through its participation with the god.

Holiness within a cult site plays a central role in the development and maintenance of political and religious power and status (cf. Guthrie 1996:133–35). Those in charge of maintaining the holiness within the sacred area themselves become influential and powerful. Thus we find at Ugarit that the king (and sometimes his family—1.112.6–7) plays a key role in the ritual of the major temples in the city (cf. 1.46.10; 1.105.19–20; 1.109.2; 1.112.1–17; 1.119.1–24'; etc.). The holiness then comes from the god to the temple to the king, who becomes the conduit for bringing its blessings to the state and its people.

Analogy (and/or Homology):[19] *Temple and Deity*

There are some ways in which the temple itself can be used to provide a sense of the physical character of the god who inhabits it. We will look particularly at how the size of the temple is used to depict the god as vastly larger than mere humans, and we will see how terms of physical appearance were used to describe the beauty of both god and temple.

In previous studies Smith (1988, 2001a:83–86) examined the literary evidence from Ugarit that depicted the gods as being of superhuman size. They stride across the earth with enormous steps ("a thousand fields, a myriad of hectare," 1.4 V 22–24). Similarly, their eyesight is greater than that of mortals ("From a thousand fields, a myriad of hectares/The advance of his sister Baal eyes," 1.3 IV 38–39). Finally, messengers bow down before the gods at similar distances to show their deference (e.g., 1.1 III 1–3, II 13–17; 1.3 VI 17–20; 1.4 VIII 24–29). It should not be surprising then that the palace that Baal builds for himself covers "a thousand fields, ten thousand hectares" (1.4 V 56–57). While the god himself is never explicitly referred to as being of enormous size, the fact that his throne is so large that even Athtar, another divine warrior, finds himself too small for his feet to reach the footstool and his head to reach the headrest (1.6 I 59–61) clearly indicates that he was envisioned as gigantic. His voice causes the earth to shake (1.4 VII 30–35).

The superhuman size of the deity is reflected in the building of a temple that is larger than the size of an ordinary house. Of course, the earthly temple cannot be on the scale attributed to the heavenly palace, but this does not appear to keep anyone from identifying the former with the latter. The building is large enough for the giant god to enter and dwell there. That worshippers took the idea that the gods were giants seriously can be seen from the remains of the great early Iron Age temple at ʿAin Dara in Syria (Abou Assaf 1990:13–16; Bloch-Smith 1994:21–25; Lewis 1998:40). At the threshold of the entrance, the designers carved a pair of giant footprints, ca. one meter long, facing toward the interior of the temple. On the next flagstone in, a second left footprint was carved, indicating that the god was walking

[19] See Levenson 1988:82–88.

into the temple. Finally at the threshold to the cella, a right footprint was carved, indicating both the giant stride of the god who needed only two steps to reach the interior of the temple, but also indicating (since there are no footprints pointing out of the rooms) that the deity was now in residence.

Israel also understood its deity and the cultic appurtenances devoted to him in terms of superhuman size (Greenfield 1985; Smith 1988; Bloch-Smith 1994). The large size of certain of the structures in the Solomonic Temple courtyard would suggest that they were not intended for human use, but belonged to the realm of the divine. Accordingly, a sort of homology between the size of the deity and temple is assumed. Such a homology between the divinity and the temple functions to increase the identification of the two, to use the temple to house not just the deity, but also the deity's story and to use the deity to express the social and political importance of the house.

A second area where the physical aspects of the temple merge with the appearance of the deity is in its perceived beauty and pleasantness. In the texts we find that both the gods and their abodes are described occasionally with identical terms of beauty. Thus deities are called "lovely, pleasant" (*n'm*) and "beautiful, attractive" (**wsm*). In CAT 1.14 III 41–42 (paralleled in 1.14 VI 26–28), Kirta's prospective bride is compared in her beauty to both the goddess Anat, who is described with the word *n'm*, "loveliness" and the goddess Athtart is said to possess *tsm* (< **wsm*), "beauty" (followed by a description of eyes like lapis and alabaster—in short "blue eyes"). The newborn gods of 1.23 are called both *'ilm n'mm* (1.23.23, 60, 67 and probably in the damaged lines 1 and 58) and *ysmm* (< **wsm*; 1.23.2), "handsome ones". In general, *n'm* and words from the root **wsm* both refer to aspects of a "good" physical appearance (see Pardee 1997b:276 n. 5).

Baal's mountain also has *n'm*. In 1.3 III 30–31 and in 1.10 III 31, Mount Sapan is described as "the lovely mountain/hill of victory." The attribute of beauty given to the god's abode is elaborated upon in the brief description of the palace he builds in 1.4 V–VII. While no details of the décor are given, the poet refers several times to the use of gold, silver and lapis lazuli as primary components of the temple structure. The Israelite temple is described in greater detail, with a clear emphasis on the beauty and splendor of its appearance (1 Kings 6–7; cf. the description of the heavenly palace of Yahweh in Exod 24:10, with its sapphire pavement). The attractiveness of the temple is apparently intended to evoke the attractiveness of the deity worshiped there.

One Ugaritic text, CAT 1.101 describes Baal enthroned on his mountain, Sapan[20] in such a way so as to evoke an explicit aesthetic analogue between Baal and the peak/palace:

Baal sits (enthroned) like the sitting of a mountain,	*bʿl ẏṯb kṯbt ǵr*
Haddu…like the (cosmic) ocean,	*hd r[ ] kmdb*
In the midst of his mountain, divine Sapan,	*btk ǵrh ʾil ṣpn*
In [the midst of?] the mount of victory,	*b[tk] ǵr tlʾiyt*
(With) seven lightning-flashes,	*šbʿt brqm*
Eight store-houses of thunder (?).	*ṯmnt ʾiṣr rʿt*
A tree-bolt of lightning.[..]	*ʿṣ brq y[ ]*
His head is adorned (?),	*rʾišh tply*
With dew between his eyes	*ṭly bn ʿnh*
…at his base,	*ʾuzʿrt tmll ʾišdh*
…the horn[s]…on him (?),	*qrn[m] b(?)t ʿlh*
His head with a downpour from the heavens	*rʾišh bglṯ bšm[m]*
…is watering,	*[ ] tr ʾiṯ*
His mouth like two clouds (?)…	*ph kṯt ǵbt[…]*
Like wine is the love of his heart…	*kyn ddm lbh*

This passage identifies several features of Baal with those of his mountain, resulting in a vivid evocation of the god's enormous power (cf. Pope and Tigay 1971:122; Irwin 1983:54–57). This is most obvious in the first part of the poem, where the homology between the god and his temple-mountain conveys the power of both his kingship and his meteorological weaponry. The second part continues with images of precipitation, ending in a personal envisioning of the god's mouth in a way that is perhaps[21] suggestive of lovemaking (implying the image of his lips kissing). In this text we find combined the two major themes we have been discussing in this section—the god's size and strength,

[20] For text, translation and notes, see Pardee 1988a:119–52. See also Pope and Tigay 1971; Irwin 1983:54–57; Xella 1996:396–98; and Wyatt 1998:388–90. Pardee sees *ṭly* as a reference to the goddess Dewy associated with Baal, which is possible. Pardee rightly compares *glṯ* and *ṯr* in this text with *glṯ* in the Baal Cycle (1.4 V 6–9) cited above. The word *ṯkt* in the latter context is accordingly to be emended to *ṯrt*. See the Commentary to 1.4 V 6–9 for further details.

[21] Pardee (1988a:124, 125) reconstructs "lips" before the simile *kyn ddm*, hence "lips like wine-jars," and he takes *lbh* with what follows in the lacuna. This approach is philologically possible, since *ddm* may be either "jar" (e.g., *dd šmn gdlt*) or "love" (*//'ahbt//yd* in CAT 1.3 III 2; cf. Akkadian *dadu*). This approach is, however, less likely syntactically. With Pardee's rendering, one would expect instead **kdd yn*. Or, perhaps assuming "lips" is to be reconstructed, perhaps *kyn ddm lbh* is an extended simile, "like the wine of the love of his heart" (this translation assumes enclitic *mem* on *ddm*).

alongside his beauty, both connected thematically and analogically to the mountain/palace/temple of Baal.

This kind of language, so central to the legitimation of the local temple and its royal and priestly sponsors, is found elsewhere in the Near East in the genres of the temple hymn and temple narrative, neither specifically preserved at Ugarit. But from the evidence provided above, there can be little doubt of its importance in the city as a discourse of the elite. The use of the themes of overwhelming size and power, along with incomparable beauty establishes a sense of order, symmetry and identity, at least for the priestly and royal echelons of Levantine societies.

Human Need and Divine Help

The intimate relationship between the mythic portrayal of the divine sphere and the earthly temple at which human concerns met the divine explains the importance of the temple as the focus for supplications for divine aid. The temple is where humans access the power of the god on their behalf. Smith (2001a:83–103) discussed several characteristics of deities emphasized in ancient Near Eastern texts that could be contrasted with human traits, but that made it possible for the gods to come to the aid of their servants. Some have been discussed above, and some have not. They include the following: strength and size; fertility and beauty; holiness; immortality and knowledge. In contrast, humans generally lack these qualities, but long for them anyway. Temples offer a context in which humans can call upon the gods to help them solve the problems that come from their weakness. The divine characteristics that contrast with human weaknesses and contradictions may be correlated in an augmented form of a chart (developed first in Smith 2001a:102–3, and extended in 2005:21):

human problems	*human contradictions*	*divinity*	*temple*
powerlessness	limited human power, but experience of suffering and evil people	strength, size	strength, size
lack of prosperity/ blessing/ infertility	experience of divine presence and divine absence	sexuality/ love/beauty	channel of beauty
unholiness	knowledge and experience of self as both wrong (sinning) and whole (holy)	holiness	intersection/ transition

mortality	limited time, but intuiting eternity	eternity	duration
ignorance	some knowledge of the world/God, but experience of disorder and unintelligibility	wisdom and knowledge	source revelation

In sum, the temple is the primary locus for creating a bond between the human and the divine. It is intended to define the god for the people—who the god is, where he or she is, and how he or she affects the world and the people. Whether in cultic activity or in literary form (such as the Baal Cycle), temples focus attention on a variety of relationships between deities and people, by serving as a meeting-site for them. Accordingly, the crucial term in the title of this section is the word "like," which expresses both similarity and difference, connection and disjunction between deities and their temples, or specifically in the case under consideration here, Baal and his palace. The key word "like" conveys the fundamental point that the mostly visible yet inert buildings marked as temples and the mostly imperceptible yet animate deities are deeply analogous. They also have little life apart from one another on the extra-familial levels of social and political organization (cf. Wright 2001:47). The ancient people of Ugarit offered their devotion, their lives to Baal and other deities in their temples, and the meanings of this devotion were expressed in cultic and literary forms. The mediating power of sacred places both captured and expressed the basic connection between themselves and their deities. The human worshippers experienced ritually what they perceived as beyond them, but expressed these experiences in modes that they likened to themselves and to the world around them. Cultic activity in the Baal temple and the images in texts, as epitomized by the Baal Cycle, provided different avenues for expressing ancient Ugarit's deep fears and great hopes about the forces surrounding their world. The palace of Baal, whether in literature or ritual, served as the site where the difficulties of life in Ugaritic society could be checked at least temporarily, thanks to the presence and power, blessing and beauty of the divine king.

2–4 He served Might[iest] Baal,
Waited on the Prince, Lord of the Earth.
4–8 He stood, arranged and offered him food,
Sliced a breast before him,
With a salted knife, a cut of fatling.
8–11 He stood, served and offered him drink,
Put a cup in his hand,
A goblet in both his hands:
12–13 A large, imposing vessel,
A rhyton for mighty men;
13–15 A holy cup women may not see,
A goblet Athirat may not eye.
15–17 A thousand jars he drew of the wine,
A myriad he mixed in his mixture.
18–19 He stood, chanted and sang
Cymbals in the virtuoso's hands.
20–22 Sweet of voice the hero sang
About Baal on the summit of Sapan.
22–25 Baal gazed at his daughters,
Eyed Pidray, Daughter of Light,
Then Tallay, [Daughter] of Rain.

Converse of Heaven with Earth,
Of Deeps with Stars,
26–28 I understand the lightning which the Heavens do not know,
The word people do not know,
And earth's masses do not understand.
28–31 Come and I will reveal it
In the midst of my mountain, Divine Sapan,
On the holy mount of my heritage,
On the beautiful hill of (my) might.'"

32–34 There! Anat perceives the gods;
On her, feet shook,
Around, loins trembled,
Above, her face sweated.

34–35 The joints of her loins convulsed,
Weak were the ones of her back.
35–36 She raised her voice and declared:
36–38 "Why have Gapn and Ugar come?
What enemy rises against Baal,
What foe against the Cloud-Rider?
38–40 Surely I struck down Yamm, the Beloved of El,
Surely I finished off River, the Great God,
Surely I bound Tunnanu and destroyed (?) him.
41–42 I struck down the Twisty Serpent,
The Powerful One with Seven Heads.
43–44 I struck down Desi[re], Beloved of El,
I destroyed Rebel, Calf of El.
45–47 I struck down Fire, Dog of El,
I annihilated Flame, Daughter of El,
That I might fight for silver, inherit gold.

1.3 IV

[*This column continues directly from the previous one.*]

III 47–IV 2 Did he banish Baal from the summit of Sapan,
Making (him) flee his (place of) lordship like a bir[d]?
2–3 Did he drive him from his royal throne,
From the resting place, the throne of his dominion?
4 What enemy has risen against Baal,
What foe against the Cloudrider?"
5 The youths [sp]oke up, they answered:
5–6 "No enemy has risen against Baal,
No foe against the Cloudrider.
7–8 Message of Mightiest Baal,
Word of the Mightiest of Warriors:
8–9 'Offer in the earth war,
Place in the dust love;
9–10 Pour peace amid the earth,
Tranquility amid the fields.
11 You must [ha]sten! You must [hu]rry! You must rush!
11–12 To me let your feet [ru]n,
[T]o me let your legs race,
13–14 [For a message I have,] and I will tell you,
A word, [and I will recount to you],
14–16 [Word] of tree and whisper of [stone],
[The word] peop[le do not kno]w,
[And ea]rth's [masses do not under]stand.
16–18 [Converse of Heaven with Ea]rth,
Of Deeps [with Stars],
[I understand the lightning] which [the He]avens do not
k[now.]

18–20 [Come and I] will re[veal it]
[In the midst of] my [moun]tain, [Div]ine Sapa[n],
On the ho[ly] mou[nt of] my heritage.'"
21–22 And Adolescent [A]nat an[swered],
[The In-law] of the Peoples replied:
22–24 "I myself will offer [in the ea]r[th] war,
[Pu]t in the dust lo[v]e;
24–25 I will pour [peace] amid the earth,
Tran[quili]ty ami[d the fie]lds.
25–27 May Baal set his harness in [the Heavens],
May [the Clo]ud[rider] radiate his [ho]rns.
27–29 I mys[elf] will offer in the ea[r]th war,
Put [in] the dust love.
29–31 I will pour peace am[id] the earth,
Tranquility amid the fi[elds].
31–32 On a second subject I would speak:
32–33 Go, Go, Divine Servants!
You, you delay, but I, I depart.
34–35 UGR is very far, O Gods,
INBB is very far, O Deities—
35–36 Two lengths beneath Earth's springs,
Three *mṯ*-measures of the caves."
37–38 Then she headed out
For Baal on the summit of Sapan.
38–40 From a thousand acres, a myriad of hectares
The advance of his sister Baal eyed,
The approach of the {In-law}/
Daughter(?)} of his Father
40–42 He removed women from his presence;
He placed an ox before her,
A fatling right in front of her.
42–43 She drew water and washed
With Dew of Heaven, Oil of Earth,
43–44 Dew the Heave[ns pou]red on her,
Showers the Stars poured on her.
45–46 She beautified herself with murex,
[Who]se extract [from the sea] is a thousand fields.

[*There is a gap of about 15 lines. The extant text picks up with Baal's complaint about his need for a palace.*]

47–48 ['For Baal] has [no house like the gods'
[Or court] like [Athirat's] children's.
48–49 [The dwelling of El is the shelter of] his son,
The dw[elling of the Lady Athirat of the Sea,]
50–51 The dwelling of Pidr[ay, Daughter of Light],
[The shelter of] Tallay, Daughter of Sho[wers],

51–53 The dwelling of Arsay], Daughter of the Wide World,
[The dwelling of the] Noble [Brides].
53 And [Adolescent Anat] answers:
54–55 "Bull El, [my Father], will heed me,
He will heed me, or to him (?)[ ]"

1.3 V

[*This follows directly from the previous lines.*]

1–3 "[…I will] drag him to the ground like a lamb;
[I will ma]ke his gray hair [run] with blood,
The gray hair of his beard [with gore],
3–4 Unless he gives Baal a house like the gods',
[And a cou]rt like that of Athirat's children."
4–7 [She planted (her) fe]et, [and] the earth [shook];
S[o she hea]ded out
[For E]l at the springs of the River[s],
[Ami]d [the stream]s of the [Dee]ps.
7–8 She came to the moun[tain] of E[l],
And entered [the te]nt of the Ki[n]g, the Father of [Years].
8–9 She shouted angrily as [she en]tered the mountain,
She repeated it [to] the Lord of [the children of E]l.
10–12 Her voice Bull [E]l, her Father, he[ard];
H[e] an[sw]ered from the seven r[oo]ms,
[From the] eigh[t openings of the en]closures.

[*Lines 12b–16 are too damaged to translate.*]

17–18 "The Divine Lamp, Shapsh, [is r]ed;
The heavens are weak in the ha[nds of Divine M]ot."
19 And Adolescent Ana[t] answered:
19–21 "[In the construction] of your house, O El,
In the construction of your hou[se] do [not re]joice,
Do not rejoice in the he[ight of your pa]lace.
22–23 Or else I will seize it with my right hand,
…by my mighty, long arm.
23–25 I will sm[ash…] your head;
I will make your beard run [with blood],
The gray hair of your beard with gore."
25–27 El answered from the seven rooms,
From the eight bolted entrances:
27–29 "[I] know [you], daughter, that [you are fu]rious,
For there is not among goddesses sc[or]n like yours.
What do you desire, O Adolescent Anat?"
29 And Adolescent Ana[t] ans[we]red:

30–31 "Your decree, O El, is wise,
Your wisdom is eternal,
A fortunate life is your decree.
32–33 Our king is Mightiest Baal,
Our ruler, with none above him.
33–34 All of us will bring him a chalice,
All of us will bring him a cup.
35–36 In lament,
Indeed he cries to Bull El, his Father,
To El, the King who created/established him.
36–37 He cries to Athirat and her children,
The goddess and the band of her brood:
38–39 'For Baal has no house like the gods',
No court like [A]thirat's child[ren's].
39–41 The dwelling of El is the shelter of [his so]n,
[The dw]elling of Lady Athirat of the Sea,
41–42 The dwelling of [Pidr]ay, Daughter of Light,
[The shelter of] Tallay, [Daughter of] Showers,
42–44 The dwelling of [Arsay, Daughter of the Wide World],
The dwelling [of the Noble Brides].'"

1.8

1–2 "…a gift for Lady Athirat of the Sea,
A present for the Creatress of the Gods,
3–5 In order that she might give a house to Baal like the gods',
A court like Athirat's children's."
5–6 Aloud to his lads Baal declared:
6–9 See, O Gapn and Ugar,
Sons of the Lass(?), kinsmen of Day(?),
Sons of *ẓlmt*, the exalted princess(?).
9–12 [Too broken for translation]

1.8 13–17 + 1.3 VI 2–6

13–14 + 2–3 The downpour is the binding (upon) your (two) heads,
The lightning between your (two) eyes.
15–17 + 4–6 [Travel] a thousand *šʾi*[*r* on] the sea,
A myriad [ ] on the rivers.

1.3 VI 7–25

7–9 Cross over the mountain, cross over the summit,
Cross over the coasts of the heavenly height.
9–11 Proceed to the Fisher of Athirat,
Go to Qudsh Amrar.
12–14 Then you shall head
For great and wide Memphis,
14–16 For Kaphtor, the throne where he sits,
Memphis, the land of his heritage.
17–20 From across a thousand acres, a myriad hectares,
At the feet of Koth<ar> bow down and fall,
May you prostrate yourself and honor him.
21–23 And say to Kothar wa-Hasis,
Recite to the Skilled Craftsman:
24–26 'Decree of Migh[tiest Baal],
Wo[rd of the Mightiest of Warriors]:

The goddess [and the band of] her [brood]:
9–11 ['For Baal has no house like the gods'],
[No court like Athi]ra[t's children's].
12–14 The dw[el]ling of El is the shelter of his son,
The dwelling of Lady Athirat of the Sea,
14–16 The dwelling of the Noble Brides,
The dwelling of Pidray, Daughter of Light,
17–18 The shelter of Tallay, Daughter of Showers,
The dwelling of Arsay, Daughter of the Wide World.'
19–20 On a second subject I would speak with you:
20–22 Please, see to a gift for Lady Athirat of the Sea,
A present for the Creatress of the Gods.'"
23–24 The Skilled One ascended to the bellows,
Tongs in the hands of Hasis.

25–28 He cast silver, he poured gold,
He cast silver by the thousands,
Gold he cast by the myriads.
29 He cast a canopied resting-place:
30–32 A grand dais of two myriads (-weight),
A grand dais coated in silver,
Covered in liquid gold.
33–35 A grand throne, a chair of gold,
A grand footstool overlaid in electrum.
36–37 A grand couch of great appeal (?),
Upon whose handles was gold.
38–40 A grand table filled with creatures,
Animals of the earth's foundations.
41–43 A grand bowl (pounded) thin like those of Amurru,
Crafted like those of the country of Yaman,
On which were water buffalo by the myriads.

2 . . . the stone [ ]
3–4 She took her spindle [in her hand],
An exalted spindle in her right hand.
5–7 As for her robe, the covering of her skin,
She conveyed her garment into the sea,
Her double-robe into the rivers.
8–9 She set a jar on the fire,
A pot on top of the coals,
10–11 She would exalt Bull El the Beneficent,
Honor the Creator of Creatures.
12–14 When she lifted her eyes, she looked,
Athirat indeed saw Baal's advance,
14–16 The advance of Adolescent Anat,
The approach of the In-law [of the Peoples].
16–18 On her, feet [shook],
[Arou]nd, loins [trembled],
[Above,] her fa[ce] sweated.
19–20 [The joints of her loi]ns convulsed,

21 She raised her voice and declared:
21–24 "Why has Mightiest Baal come?
Why has Ado[les]cent Anat come?

24–26 Are they my murderers, or the [mur]derers of my children,
Or [the destroyers of the ban]d of my brood?"
26–28 [The gle]am of silver [A]thirat eyed,
Gleam of silver, g[lin]t (?) of gold.
28–29 Lady Ath[irat] of the Sea rejoiced,
Aloud to her attendant [she declared]:
30–31 "See the skilled work of the source [of the Deeps (?)],
O Fisher of Lady Athir[at of the Sea].
32–33 Take a net in hand…,
A great one in your hands….
34–36 Into the Beloved of El, [Sea],

5 [ ] "may he not escape
6 [ ] he will establish you

8 [ ].....
9 [ ] the god who is king."
10–11 Mightiest Baal an[swe]red (?),
The Cloud-Rider testified(?):
12–14 "He rose, stood and abased me,
He stood up and spat on me,
Amid the ass[em]bly (?) of the children of El.
14–16 I drank dis[grace(?)] at my table,
Dishonor from (my) cup I drank.
17–18 For two feasts Baal hates,
Three, the Cloud-Rider:
18–21 A feast of shame, a feast of strife,
And a feast of the whispering of servant-girls.
21–22 For in it shame indeed was seen,
For in it was the whispering of servant-girls."
23–24 Just then Mightiest Baal arrived,
Adolescent Anat arrived,
25–26 They brought gifts to Lady [A]thirat of the Sea,
Honored the Creatress of the Gods.

27 And Lady Athirat of the Sea answered:
28–30 "Why do you two bring gifts to Lady Athirat of the Sea,
Honor the Creatress of the Gods?
30–32 Have you brought gifts to Bull El the Beneficent,
Or honored the Creator of Creatures?"
32–33 And Adolescent Anat answered:
33–36 "We are bringing you (?) gifts, Lady Athirat of the Sea,
[We are hono]ring (you), Creatress of the Gods,
[ ] we will bring gifts to him."
37–39 Mightiest Baal […],
Lady Athirat of the Sea […],
Adolescent Anat […].

1.4 IV

[*About 12 lines are missing at the top of the column.*]

1 …Bull [El…Father].
1–2 [And Lady] Athir[at of the Sea answered]:
2–4 "[Hear, O Qudsh] wa-Amrar,
[O Fisher of Lady] Athirat of the Sea:
4–7 [Tie the horse,] harness the stallion;
[Set ropes of] silver,
Golden [bridles];
Prepare the ropes of [my] mare."
8 Qud<sh> wa-Amra[r] complied:
9–12 He tied the horse, harnessed the stallion;
He set ropes of silver,
Golden bridles;
He prepared the ropes of her mare.
13–15 Qudsh wa-Amrar clasped,
Set Athirat on the back of the horse,
On the beautiful back of the stallion,
16–17 Qudsh flared up as a flame,
Amrar, like a star in front.
18–19 Behind (came) Adolescent Anat,
But Baal departed for the summit of Sapan.
20–22 So she headed out
For El at the springs of the Rivers,
Amid the streams of the Deeps.

23–24 She came to El's mountain
And entered the tent of the King, the Father of Years.
25–26 At the feet of El she bowed down and fell,
Prostrated herself and honored him.
27–28 There—El indeed perceived her!
He loosened his brow and laughed.
29–30 His feet on the footstool he stamped,
And twirled his fingers.
30 He raised his voice and decl[ared]:
31–32 "Why has Lady Athir[at of the S]ea arrived?
Why has the Creatress of the G[ods] come?
33–34 Are you very hungry, having travelled,
Or are you very thirsty, having jour[neyed]?
35–38 Eat, indeed drink!
E[at] food from the tables,
Drink wine from goblets,
From a golden cup, the blood of trees!
38–39 Or does the 'hand' of El the King excite you,
The love of the Bull arouse you?"
40 And Lady Athirat of the Sea answered:
41–43 "Your decree, O El, is wise,
You are wise for eternity,
A fortunate life is your decree.
43–44 Our king is Mightie[st] Baal,
Our ruler, with none above him.
45–46 All of us will br[ing] him a cha[lice],
All of us [will b]ring him a cup.
47–48 [In lame]nt
Indeed he cries to Bull El, his Father,
To [E]l, the King who created/established him.
48–50 He cries to Athirat and her children,
The goddess and the band of her brood:
50–51 'For Baal has no house like the gods',
No court like Athirat's children's.
52–53 The dwelling of El is the shelter of his son,
The dwelling of Lady Athirat of the Sea,
54–55 The dwelling of the Noble Brides,
The dwelling of Pidray, Daughter of Light,
56–57 The shelter of Tallay, Daughter of Showers,
The dwelling of Ars<ay>, Daughter of the Wide World.'"
58 And Beneficent El the Benign replied:
59–60 "So am I a servant, Athirat's slave?
So am I a slave who handles tools?
61–62 Or, is Athirat a servant?
Does she make bricks?
62 Let a house be built for Baal like the gods',

1.4 V A court, like Athirat's children's."

2 And Lady Athirat of the Sea answered:
3–5 "You are great, O El, so very wise;
The gray hair of your beard so instructs you,
The soft ones (?) o[f] your chest.
6–7 So now may Baal make his rain abundant,
May he make the water greatly abundant in a downpour,
8–9 And may he give his voice in the clouds,
May he flash to the earth lightning.
10–11 Is it a house of cedars that he would complete,
Or a house of bricks that he would construct?
12 Indeed, let it be told to Mightiest Baal:
13–14 'Call a caravan into your house,
Wares inside your palace.
15–17 Let the mountains bring you abundant silver,
The hills, the choicest gold.
Let the finest ore be brought to you.
18–19 And build the house of silver and gold,
The house of purest lapis lazuli.'"
20–21 Adolescent Anat rejoiced;
She planted (her) foot, the earth shook.
22–24 So she headed out
For Baal on the heights of Sapan,
Across a thousand acres, a myriad hectares.
25–26 Adolescent Anat laughed,
She raised her voice and declared:
26–27 "Receive the news, O Baal,
Good news I bring you!
27–29 'Let a house be given you like your brothers',
A court, like your kin's.
29–31 Call a caravan into your house,
Wares inside your palace.
31–33 Let the mountains bring you abundant silver,
The hills, the choicest gold.
33–35 And build the house of silver and gold,
The house of purest lapis lazuli.'"
35–37 Mightiest Baal rejoiced;
He called a caravan into his house,
Wares inside his palace.
38–40 The mountains brought him abundant silver,
The hills, the choicest gold;
The best ore was brought to him.
41 He <s>ent for Kothar wa-Hasis.

42–43 And return to the recitation (about)
when the lads are sent.

44–46 Then Kothar wa-Hasis arrived;
An ox was set before him,
A fatling right before him.
46–48 A throne was set up and he was seated,
At the right hand of Mightiest Baal,
As [the gods] ate, dran[k].
49 [And] Mighti[est Baal] spoke up:
50–52 "[…]
Quickly, the house [build,]
Quickly erect the pal[ace].
53–55 Quickly shall you buil[d] the house,
Quickly shall you erect the pal[ace],
Amid the summit of Sapan.
56–57 A thousand fields let the house cover,
A myriad hectares, the palace."
58 And Kothar wa-Hasis replied:
59–60 "Hear, O Mightiest Baal,
Understand, O Cloud-Rider:
61–62 Shall I not install a window in the hou[se],
An aperture inside the palace?"
63 And Mightiest Baal answered:
64–65 "Don't install a window in [the house],
[An aper]ture inside the pala[ce]."

[*Perhaps up to three lines are missing at the bottom of the column.*]

1.4 VI

1 And Ko[thar wa-Has]is replied:
2 "You will reconsider [my word], O Baal."
3 Again Ko[thar] wa-Hasis spoke:
4–6 "Please listen, O Mi[ghti]est Baal:
Shall I not install a win[dow] in the house,
An aperture ami[d the pala]ce?"
7 And Migh[tiest] Baal answered:
8–9 "Do not install a wi[ndo]w in the house,
An aperture a[mid the pa]lace.
10–11 Lest [Pidr]ay, Daughter of Light,…
…[Tall]ay, Daughter of Showers…
12–13 [The Be]loved of El, Yamm…, [
…abased me,
And spat…"

14–15 And Kothar [wa-Hasis] replied:
15 "You will reconsider my word, O Baal."
16–17 [Quickly] his house was built,
[Quickly] his palace was erected.
18–19 He [we]nt to Lebanon for its trees,
To [Si]ryan for its choicest cedars.
20–21 [Le]banon for its trees,
Siryan for its choicest cedars.
22–23 A fire was set in the house,
A f[l]ame in the palace.
24–26 There! For a day and a second,
A fire burned in the house,
A flame in the pa[l]ace.
26–28 For a third and a fourth day,
[A f]ire burned in the house,
A fla[me] in the palace.
29–31 For a fifth and a si[x]th day,
A fir[e] burned [in] the house,
A flame a[mid the pal]ace.
31–33 Then on the seven[th] d[ay],
The fire went out in the house,
The f[la]me, in the palace.
34–35 The silver had turned to plates,
The gold had turned to bricks.
35–36 Mightiest Baal rejoiced:
36–38 "My house I have built of silver,
My palace of gold."
38–40 [Baa]l made arrangements for [his] house,
Hadd made [arrange]ments for his palace.
40–43 He slaughtered large stock [as well as] small:
He felled bulls [and] fatling rams,
Calves a year old,
Sheep by the flock with k[i]ds.
44–46 He invited his brothers into his house,
His ki[nf]olk inside his palace;
He invited the seventy, the children of Athirat.
47–48 He provided the gods with suckling(?) rams,
Provided the goddesses with ewes.
49–50 He provided the gods with bulls,
Provided the goddesses with cows.
51–52 He provided the gods with thrones,
Provided the goddesses with chairs.
53–54 He provided the gods with jars of wine,
Provided the goddesses with vessels.
55–58 As the gods ate, drank,
A suckling of breast was provided,
With a salted knife, a cut of [fatl]ing.

58–59 They drank [wi]ne from gob[lets],
[From] gold [c]ups, the blo[od of trees].

1.4 VII

1 …]lapis lazu[li]…
2 …Mightiest Baal
3–4 …the Beloved of El, Ya[mm]…
4 …on top of his head.
5 El/the god[s]…departed from the mountain…
6 When/Indeed the gods [X-ed] on/from Sapan.
7–8 He crossed to [the chief] city,
He turned to the [chie]f town.
9–10 Sixty-six (surrounding) cities he seized,
Seventy-seventy towns.
11–13 Eighty Baa…
Ninety Baal…
13–14 Baal [ent]ers (?) into the house.
14–15 And Mightiest Baal spoke:
15–16 "I will install, O Kothar, Son of Sea,
Kothar, Son of the Confluence:
17–20 Let an aperture be opened in the house,
A window inside the palace.
So let a break in the clouds be [op]ened,
According to the w[ord of] Kothar wa-Hasis."
21–22 Kothar wa-Hasis laughed,
He raised his voice and declared:
23–25 "I truly told you, O Mightiest Baal:
'You will reconsider my word, O Baal.'"
25–28 An aperture was opened in the house,
A window inside the palac[e].
Baal opened a break in the clouds,
29–30 Baa[l] gave forth his holy voice.
Baal repeated the is[sue of (?)] his [li(?)]ps,
31–35 His ho[ly (?)] voice covered (?) the earth,
[At his] voice…the mountains trembled.
The ancient [mountains?] leapt [up?],
The high places of the ear[th] tottered.
35–37 The enemies of Baal took to the woods,
The haters of Hadd to the mountainsides.
37–38 And Mightiest Baal spoke:
38–39 "O Enemies of Hadd, why do you tremble?
Why tremble, you who wield a weapon against the Warrior?"

40–41 Baal looked forward;
His hand indeed shook,
The cedar was in his right hand.
42 So Baal was enthroned in/returned to his house.
43–44 "Will it be a king or a non-king
Who establishes dominion in the earth (netherworld)?
45–47 A herald I will indeed send to Divine Mot,
An envoy to El's Beloved, the Hero,
47–49 That he may proclaim to Mot into his throat,
Inform the Beloved in his insides:
49–52 It is I alone who reign over the gods,
Indeed fatten gods and men,
Who satis[fy] the earth's multitudes."
52–53 Aloud to his l[a]ds Baal declared:
53–54 "See, [O Gapn] and Ugar,
54–56 So<ns> of the Lass(?), Kinsmen of Day(?),
Sons of ẓlmt, the exalted Princess(?).

[*Lines 57–60 are too broken, and about seven additional lines are missing at the end of the column.*]

1.4 VIII

1–4 "Then you shall head out
To Mount Trǵzz,
To Mount Thrmg,
The twin hills at Earth's edge.
5–6 Lift the mountain on your hands,
The hill on top of your palms.
7–9 And descend to the House of Servitude, the Netherworld;
Be counted among those who descend to the Netherworld.
10–12 Then you shall head
to his town, the Watery Place,
12–14 Low, the throne where he sits,
Phlegm, the land of his heritage.
14–17 But take care, divine servants:
Do not get too close to Divine Mot,
17–20 Lest he take you like a lamb in his mouth,
Like a kid, you be crushed in the chasm of his throat.
21–24 The Divine Lamp, Shapsh, is red;
The heavens are weak in the hands of the Beloved, Di[vi]ne Mot.
24–29 From across a thousand acres, a myriad of hectares,
At the feet of Mot bow down and fall,
You shall prostrate yourselves and honor him.
29–32 And say to Divine Mot,
Repeat to El's Beloved, the Hero:

32–35 'Message of Mightiest Baal,
[Wor]d of the Mightiest of Wa[rriors]:
35–37 'My house I have built [of silver],
My pa[lace, of gold…].'

[*Lines 38–47 are too broken to translate.*]

Following the four horizontal lines, another twenty or so lines are missing at the end of the column.]

[*The edge of the tablet has the following prose colophon:*]

[The scribe is Ilimalku, student of Attenu, the *t̲*ʿ]*y*-priest of Niqmaddu, king of Ugarit.

Other numbers: RS 2.[014] + RS 3.363. KTU 1.3 = CTA 3 = V AB (Virolleaud 1938: *editio princeps*) = ʻnt I (Gordon 1965)

Museum numbers: RS 3.363 = M8217 = A2749 (Aleppo Museum) = AO 16.638 (older Louvre number). RS 2.[014] = M3352 = A2737 (Aleppo Museum) = AO 16.639 (older Louvre number).

Dimensions: RS 3.363: 130 × 160 × 32mm. RS 2.[014]: 52 × 39 × 22mm (cf. Bordreuil and Pardee 1989:26, 32).

Find Spots: The larger fragment, RS 3.363, was found in 1931 (third campaign) at "point topographique" 339, in the northeast quadrant of the southern entry room of the House of the High Priest, (see the plan in Bordreuil and Pardee 1989: 25, fig. 7). The fragment RS 3.364 = CAT 1.8, which is now identified as the upper part of 1.3 VI (Pardee i.p.) was found at the same location and is also listed under "point topographique" 339. See the introductory material on 1.3 VI for detailed discussion of 1.8 (pp. 408–9). The small fragment, containing a few lines of columns III, IV, and V, was found the previous year, in a different location. Unfortunately, the inventory list for the second season has been lost, and the locations of the tablets found in this season can only be narrowed to the topographical points numbered 210–264. These points comprise finds that were made in several different places across the house, including the room directly to the west of the one in which the larger fragment was found, the room at the far west side of the house where the first season's tablets were discovered, a room in the northeastern corner of the house, and in the street outside the southern door ("Rue de la bibliotheque"). This fragment could have been found in any of these locations. In any case, it was discovered several meters away from the main body of the tablet.

When found, the main fragment was in good company. The area composing the southern entry room, the southern doorway and the street just outside the door was the location where CAT 1.1, 1.2 III,

probably 1.2 I, II, IV (see the discussion above, p. 10, n. 4), two fragments of 1.4, and parts of the Kirta and Aqhat Epics were found.

It appears that many of the tablets in the House of the High Priest were found in the rubble of the collapse, rather than on the floor (cf. Schaeffer's description of the finds of the third season 1932:22). This indicates that the tablets had been located on the second floor of the house (cf. Pardee 2002:8 n. 3). The fact that fragments of 1.3 (as well as fragments of 1.4, 1.6, and probably 1.16) were widely dispersed across the house suggests that the tablets had already been ransacked and broken in pillaging that occurred before the house collapsed.

The three fragments of 1.3 (including 1.8) preserve slightly over half of the text originally written on the tablet. RS 3.363 contains the lower parts of columns I–III on the obverse, and the upper sections of columns IV–VI on the reverse. The small fragment preserves part of the top lines of column III and the last few lines of column IV, while RS 3.364 contains at least parts of the first seventeen lines of column VI. Each column probably held ca. 65–70 lines of text, giving the tablet approximately 390 to 420 lines, of which at least part of 239 lines remain. As is characteristic of Ilimalku, the first column on the obverse is narrower than the other two columns. The middle column is the widest of the three, but the right-hand column has the advantage that the scribe may continue around the right edge of the tablet to finish a long line. On the reverse, the pattern continues, with column IV (on the right side) making use of the right edge, column V the widest on the side, and column VI the narrow one. One can see the same pattern on CAT 1.4 and 1.5, and to a lesser extent, 1.6.

In his *editio princeps* (1938), Virolleaud chose to divide his presentation of the tablet into six units that do not always correspond to the columns of text. He designated them with the letters A–F. Section A corresponded to column I, but B contained column II, plus the opening three lines of column III, preserved on the small fragment, RS 2.[014]. Section C was made up of column III 4–31, ending with the double line that marks a jump in the narrative. Section D picked up with III 32 and went to IV 46, while E included the end of column IV from

RS 2.[014] and all of column V. Finally, Section F corresponded to column VI. *CTA* retained these unit designations, but they have not been used elsewhere.

The script is small and precise, easily legible where the tablet is not damaged. It is typical of the script of the rest of the Baal Cycle tablets and was certainly inscribed by Ilimalku.

Textual Notes

Line 1. ’al.tǵl[ ]xʿl[Only the lower diagonal wedge of the /ǵ/ is preserved, but that assures the reading. Following it, the tips of two long verticals are barely visible. The context argues for /l/ over /ṣ/. In the succeeding break, there is room for a word divider and perhaps a letter before the lower line of a horizontal wedge appears. This could be /t/, as suggested by CAT, but it may also be the right wedge of /k/ or /r/, or perhaps, /n/ or /’a/. That wedge is followed by vague traces of perhaps three vertical wedges, a possible /l/, although the traces seem rather bunched together in comparison to other /l/’s.

Line 2. prdmn.ʿbd. ʾälʾï[The /n/ has four wedges. The top parts of /’al’i/ have been lost, but each is certain epigraphically as well as contextually.

Line 5. yšlḫmnh The /n/ here also has four wedges.

Line 6. lpnwh The form of the word with a /w/ is unusual and might involve an error (for /n/?). The /h/ has four horizontals.

Line 8. ndd Another four-wedged /n/.

Line 9. wyšqynh CTA’s reading of the last three letters as /nyh/ is a typo. The /h/ has four wedges.

Line 10. bdh The /h/ again has four wedges.

Line 11. krpn[[m]]m. Things are complex at the /n/. It is clear that the scribe wrote an /m/ first, then replaced it with an /n/. Cf. Pardee (1998b:87): krpn. The second /m/ encroaches on the right wedge of the /n/, suggesting that it was written after the scribe corrected the first /m/ with the /n/. Thus it is presumably part of the word.

ydh The /h/ has four wedges.

Line 12. rʾdn The /n/ appears from its upper line to have four wedges.

Line 17. rbt The form for the word, "ten thousand" or "myriads," elsewhere is *rbbt*. Accordingly, haplography may be suspected here.

Line 21. ᶜl. bᶜl.bṣrrt The /ᶜ/ is clear, even though the edges are abraded away. Pardee sees a word divider between /b/ and /ṣrrt/. There is clearly a dimple there, but we are reluctant to identify it as a word divider. It is possible though.

Line 25. [ ]r̊b We see no trace of the /b/ read by CAT at the beginning of the line. The /r/ is certain only due to context. The only part preserved is the right horizontal; there are no actual traces of wedges to the left along the break.

Line 26. [ ]t.ḫ̊mxlt We believe that what CAT reads as an /ᶜ/ before the first /t/ is actually just a break. The /h/ is read as an /ʾi/ in both CTA and CAT. However, what both identify as the lower left vertical of the /ʾi/ is actually breakage. The letter following /m/ is virtually gone, but there appear to be lines of two horizontals consistent with a /k/. The following /l/ is certain, although only the tops of the wedges are preserved.

Line 27. [ ] We see no traces that match the /t.w/ proposed by CAT. Most of what CAT appears to take as wedges is actually breakage. There may be the upper line of a horizontal partially preserved under the/hm/ of the previous line, but that is doubtful too.

Line 28. [ ]mkt Both wedges of the /m/ are partially preserved and are certain. The /k/ is also clear, with all three wedges visible. The upper part of the /t/ is broken, but the letter is certain.

[4] See *DUL* 898; Pope (in Smith 1998b:653); and Commentary below on p. 105–6.

[5] Often related to BH/Aramaic **prd*, "to separate," also Akkadian *parādu*, Arabic *farada*; see *DUL* 236; cf. PN *ybrdmy* in 1.24.29; see Garr 1986:50 and Sivan 1997:27 explaining the shift from **p* > **b* as a partial assimilation of *b* to the following unvoiced phoneme.

[6] For the syllabic evidence for this form, see Huehnergard 1987b:142; *UG* 172. Huehnergard prefers a vocalization of *li-*. Blau and Greenfield (1970:16) explain the form: "in 'Proto-Ugaritic' *’ilā* which no longer exists in Ugaritic, left a mark on its partial synonym *la* by influencing its ending: *la* + *’ilē* (< *’ilay*) = *lē*." Tropper (*UG* 758) proposes either *le-* or *lê-* (*< *lay*, to which he compares "zsem. **’ilay*"). Following Blau and Greenfield, the latter option is assumed here.

[7] See *UG* 198, which understands *lpnw-* as an uncontracted form.

[8] For the syllabic evidence for this form, see Huehnergard 1987b:112; *UG* 187, 755.

[9] Like Akkadian *uzuzzu*, the Ugaritic verb was originally formed from the *N*-stem of middle weak **ḏwḏ*, as noted independently by Pope 1947 and Rosenthal 1940:293 n. 1, and as endorsed recently in Huehnergard 2002:177.

[10] For a recent discussion of cognates, see Mankowski 2000:62–63. He argues that Akkadian *kāsu* is the source of Sumerian GU-ZI/KU-ZI and not the other way around. For comparative evidence, see also Fox 2003:75. He reconstructs PS **ka’s* or *kās*.

[11] Cf. *ba-di-ú* in EA 245:35, normalized *bâdi* by Rainey 1996:3.23 and Sivan 1997:43, 198. Rainey also compares Phoenician-Punic *bd* (*DNWSI* 1.434, which includes PNs, e.g., KAI 17; see also Israel 1989:53–54). Rainey derives the reconstruction of a collapsed triphthong of the preposition of *b-* plus **yad-*. This view coheres with Greek transliterations of the Phoenician form as **bod-* (see KAI II:24). See the discussions also in Sivan 1984:209; *UBC* 1.153, 322 n. 182; *UG* 161, 774. Within the West Semitic languages, this usage of *bd* may be an isogloss linking several so-called "Canaanite" languages. For the syllabic evidence for the third masc. sg., suffix on nouns, see Huehnergard 1987b:120; Sivan 1997:53.

[12] For the syllabic evidence, see Huehnergard 1987b:176.

[13] Cf. the gloss *ša-mì-ma* in EA 264:16 (Sivan 1997:77).

13–15	A holy cup women may not see, A goblet Athirat may not eye.	kāsa qudši lā[14]-taphîna-hu ’at̲t̲ātu karpana[15] lā-ta‘înu ’at̲iratu[16]
15–17	A thousand jars he drew of the wine, A myriad he mixed in his mixture.	’alpa kadda[17] yiqqaḥu bi-ḫamri[18] ribbata[19] yamsuku bi-miski-hu

Music for the Feast

18–19	He stood, chanted and sang Cymbals in the virtuoso’s hands.	qāma yabuddu wa-yašîru maṣillatâmi[20] bâdê na‘imi

[14] For the syllabic evidence, see Huehnergard 1987b:141.

[15] In addition to cognates cited in the lexica, cf. Akkadian *karpatu*, “pot,” in Akkadian texts from Ras Shamra (e.g., RS 20.425 in *Ugaritica V*, p. 192 and RS 20.20.04 in *Ugaritica V*, p. 193).

[16] Her name appears as ^{d}*aš-ra-tu*$_4$ in deity-lists from Ugarit (RS 20.024.19, Pardee 2002:14; and RS 92.2004.13, Pardee 2002:17). For the syllabic forms, see further Huehnergard 1987b:111; *UG* 183. It is possible that the Ugaritic form is to be vocalized accordingly as **’at̲rat-*. Note also that the name of this goddess is Ashertu in the Hittite-Hurrian story of “Elkunisha and Ashertu;” in this case, it would appear that the *a*-vowel has undergone syncope (*ANET* 519; Hoffner 1965; 1998:90–92). In the Amarna correspondence, personal names with her name as a divine element vary the spelling of her name even within the same letter (Abdi-Ašrati and [<Abdi>-Aš]eratu in EA 138; Abdi-Ašrati, Abdi-Aširti and Abdi-Aširta in EA 137; see also Abdi-Ašratu in EA 60:2 as opposed to [Abd]i-Aširti in EA 62:2; see Moran 1992:132 n. 1; *DDD* 100).

[17] For the syllabic evidence for this noun, see Huehnergard 1987b:136. For cognates in Indo-European languages, see *UT* 19.1195, *DUL* 429–30. The word is standard in Ugaritic lists of liquid measure (e.g., 4.279.1–5). For the possibility that the word is a loan, see Watson 2000a:570; cf. M. Cohen 1947:124, #226. For BH *kad* as a storage jar for water or flour, see Kelso 1948:19.

[18] For cognates, also with the **qatl* base, see Pentiuc 2001:55.

[19] Sivan 1997:63.

[20] Cf. the syllabic evidence for *maṣillu*, “cymbalist,” see Huehnergard 1987b:171.

[21] The root is common Semitic. For the noun *širu* in an Ugaritic polyglot, see Huehnergard 1987b:181.

[22] For syllabic evidence, see Huehnergard 1987b:131.

Commentary

Poetic Parallelism and Word/Syllable Counts

Pardee (1988b:1–67) has produced a comprehensive poetic analysis of this column (for overviews of various features, see esp. pp. 40–41, 43, 47, 55, 57, 62–67). The following comments, largely found in augmented form in his study, mark the most salient points about parallelism within cola.

		semantic parallelism	word/ syllable count
2–4	'abada 'al'i[yāna] ba'la sa'ida zabūla ba'la 'arṣi	a b c a' b' c'	3/9 4/10

Although the word count appears imbalanced, with the unusual feature of the second line showing an apparently longer unit than the first, the syllable count reflects overall symmetry in line-length. Most prominently binding the two lines together is the name of Baal in the first line and the use of the same noun as part of his title in the second line. The *b* and *l* of *zbl* in the second line echo the name of Baal, and perhaps

---

[23] *Gt*-stem of the root **'mr*, "to see," cognate with Amorite **'mr* and Akkadian *amāru*, "see," and Eth *'ammara*, "show, know"; see Sanmartín 1973:265–6; Barr 1974:4–7; Greenfield 1993:26–27 (with criticism of Barr); Zadok 1993:3. For the phonological change, see Sivan 1997:32, 130; *UG* 520. For Afro-Asiastic cognates, see M. Cohen 1947:78, #9.

[24] Pl. with masc. suffix, *bnth* = **binā̆ta-hu*. See the next note for the singular form.

[25] Sg. *bt* = **bittu* < **bintu*, so in syllabic spelling in PNs in Akkadian texts from Ugarit, etc.; see Gröndahl 1967:119; Sivan 1997:62, *UG* 249. Cf. Arabic *bint*.

such a resonance might suggest that a similar resonance obtains in the first line, in the *b* of *ʿbd* and *l* of *ʾal'i[yn]* preceding *bʿl*. Furthermore, the identical **qtl*-verb + object syntax binds the two lines (for the verbs, see Watson 1994b:246). The dominance of *a*-vowels in both lines is perhaps also noteworthy; most of it is generated morphologically.

4–8	qama yaṯʿuru wa-yašalḥimuna-hu	a b c d	3/12
	yabrudu ṯada lê-panawi-hu (?)	b' e d'	3/10
	bi-ḥarbi malūḥati qaṣṣa marīʾi	f e'	4/12

The syllable count suggests overall balance despite four words in the last line as opposed to three in each of the preceding two lines. For the semantic parallelism, the suffix *-h* in the first line has been assigned a separate unit ("d"), as it is picked up and augmented by the prepositional phrase at the end of the second line, itself paralleled not semantically but morphologically in the first two words of the third line. This latter morphological parallelism points up the chiasm between the prepositional phrases and direct objects evident in the second and third lines. The alliteration between two words in the last two lines is further notable: *ybrd* and *bḥrb*; this alliteration perhaps dictated in part the particular selection of verb. The alliteration, as well as the syntax of the last two lines suggests a basic bicolon to which the first line has been prefixed. Indeed, the syntax of the first line, consisting of **qtl* + **yqtl* + **yqtl* verbs, noticeably demarcates it from the second and third lines (a feature also in lines 8–9 and 18; see discussion below for the significance of this feature). However, the first line is tied to the following ones in other ways. It would appear that *qm* in the first line is echoed sonantly by *qṣ mr'i* in the third line. Similarly, the consonants of the third verb in the first line are perhaps to be seen as echoed by the passive participle in the third line: *yšlḥmn* and *mlḥt*. The variation in verbal syntax contrasts with the apparently significant sonant resonances.

8–11	nadada yaʿšuru wa-yašaqqiyuna-hu	a b c	3/13
	yatinu kāsa bâdi-hu	c' d e	3/8
	karpana-ma bi-kil'atê yadê-hu	d' e'	3/11

As with the preceding tricolon, the unusual syntax of the first line differs markedly from the second and third lines, which stand together syntactically. Read by themselves, these two lines may be seen as a simple bicolon with fundamental semantic, syntactical and morphological parallelism: a b c//b' c', with *bi-kil'atê yadê-hu* standing as a semantic

expansion of *bâdi-hu*, with basic syntactical, morphological and sonant parallelism. Yet some features bind the three lines. The final *-h* suffix at the very end of all three lines particularly stands out, and perhaps to a less conspicuous degree (because of the variation in position), the initial syllable **ya-* resonates in all three as well.

12–13	bika rabba ʿaẓūma (?)	a b	4/7
	ru'danna mutī šamîmi	a' b'	3/8

Watson (1994b:131, 472) includes the initial line here among examples of parallelism within single lines. It is difficult to make strong claims regarding this bicolon's parallelism, as the interpretation of the lines is highly debated. If correctly interpreted, the syntactical parallelism of direct objects for vessels followed by modifying phrases is evident in the two lines, as with the objects *ks//krpn* in the next bicolon. In both lines 12–13 and lines 13–15, a two-syllable word for a vessel would be parallel to a three-syllable term (and in the case of the three-syllable terms, *r* and *n* appear in both). Morphological parallelism of at least the initial term in the two lines follows suit. Finally, the single *m* in the first line might be seen as echoing three times in the second line; the observation might be increased under the rubric of bilabials, *b* and *m*.

13–15	kāsa qudši lā-taphîna-hu 'aṯṯātu	a b c	4/12
	karpana lā-taʿînu 'aṯiratu	a' b' c'	3/11

The basic morphological and syntactical parallelism is strong in this bicolon: direct objects plus asyndetic relative clauses both consisting of negative + verb followed by the subject. The objects in line-initial position also echo the same parallelism of terms in the preceding tricolon in lines 8–11. Their word-initial *ka-* likewise reinforces the parallelism of terms. The poet might have chosen another word for "cup" or "goblet" (e.g., *qbʿt*, as in *ks//qbʿt* in 1.19 IV 53–54), but perhaps for reasons of consonance selected *krpn* to go with *ks* (Watson 1994b:434). Semantic and sonant parallelism also marks the verbs: both verbs involve visual perception, not to mention the negative particle *l-* preceding both of them, *t-* prefix forms in both, *a-i* vowels (if correctly vocalized), and the *-n* at their end. Finally, the nouns at the end of the lines show sonant parallelism in three of their consonants and most of their vowels. Perhaps this sonant proximity reinforces the view that the goddess may be understood as the superlative example of the category of woman, the word to which Athirat is parallel in the first line. For a "female"

versus "male" contrast between this bicolon and the preceding one, see Watson 1994b:472.

15–17	'alpa kadda yiqqaḥu bi-ḫamri	a b c d	4/10
	ribbata yamsuku bi-miski-hu	a' c' d'	3/10

The lines are nicely balanced in length, as indicated by the syllable count. The syntax as well as morphology is markedly similar in the two lines. The objects are fronted prominently; and perhaps by the parallelism of amounts placed in both lines, it would seem that it is the amounts themselves that draw the audience's attention. Sonant parallelism is evident with the single *m* in the first line echoed by the same consonant appearing twice in the second; the other bilabials arguably reinforce this feature.

18–19	qāma yabuddu wa-yašîru	a b c	3/9
	maṣillatâmi bâdê naʿimi	d e	3/10

Watson (1994b:319) takes the two lines here with the following as a tricolon and then claims that with the second line of the next bicolon, the four lines together comprise a four-line stanza. Despite the lack of syntactical and semantic parallelism, some sonant parallelism is apparent. The sequence *b-d* stands out in the middle of both lines. Moreover, the triple occurrence of *m* in the second line echoes the single use in the first.

20–22	yašîru ǵāziru ṭābu qāli	a b c	4/10
	ʿal baʿli bi-ṣarirāti ṣapāni	d e f	4/11

The second line is perhaps a syllable longer relative to the first line. The sort of disparate syntax between the two lines (specifically with no verbal syntax in the second line) somewhat recalls the syntax in the preceding bicolon. Indeed, the verb *yšr* in this bicolon semantically marks this bicolon as an expansion of the topic in the preceding bicolon. Sonant parallelism here is more limited: the single use of *b* in the first line is echoed twice in the second line, complimented further by the bilabial *p* in the last word. On the assumption that the words involved are vocalized correctly, perhaps noteworthy in connecting the end of the first line with the beginning of the second is the resonance between *qāl̠i* and *ʿal*. By the same token, each line also has its own alliteration, with *r* twice in the first and *ṣ* twice in the second.

22–25	yittamiru ba'lu binâti-hu	a b c	3/10
	ya'înu pidraya bitta 'âri	a' c' d	3/10
	'appuna ṭallaya [bitta] ribbi (?)	e c' d'	4/10

The lines are balanced in the length and overall syntax. (The initial word of the third line is unusual, from the perspective of poetic syntax, but since it fits the length of line well, there is no need to view it as intrusive or mistaken. Beyond the strong morphological, syntactical and semantic parallelism, sonant parallelism is particularly evident in the bilabials and secondarily with the letters ' and *l*, echoing the main protagonist's name in this scene. Sonant emphasis placed on the names of divine protagonists is hardly confined to this tricolon. Fitzgerald (1974:61) notes Baal and Yamm in the alliterative pattern of 1.3 III 36–39, as well as the name of Baal in 1.19 I 42–46 and 1.101.1–2. A similar alliteration echoes the title of Athirat in 1.4 I: the paranomasia of her title *rbt* with *rbtm* in line 30 and *rbbt* in lines 28 and 43 further evokes the vastness of the goods made for her benefit throughout the rest of the column (for further discussion, see the Commentary at 1.4 I). Watson (1994b:436) suggests that the names of the women "are held over to the second and consecutive lines," thereby showing a "delayed identification" for these figures, a poetic feature he notes elsewhere as well (e.g., 1.2 I 34–35).

Introduction

The surviving portion of this column is clear on the whole, especially in lines 2b–22. These lines describe a feast prepared and served for Baal's benefit and form an identifiable unit. Lines 22f. may likewise belong to this scene, but the context of the lines is so unclear that it is impossible to be sure. The location of the scene here is not mentioned (at least not without some ambiguity; see the discussion of lines 21–22 below), but it may be safely inferred from CAT 1.3 IV. When Anat travels to Baal following his summons, she arrives at Mount Ṣapan, and Baal sends his women away, presumably because of the nature of his meeting with Anat (cf. Zamora 2000:581). These are probably the same women mentioned at the end of 1.3 I, and it is evident from this narrative link that Mount Ṣapan is the site of Baal's activity in both columns.[26] Given Baal's presence on Mount Ṣapan in 1.3 I, the

[26] For a discussion of Mount Sapan (with references), see Fauth 1990; Koch 1993a; *UBC* 1.122–23, 232–33 n. 26. Sapan appears in god-lists (RS 24.264.4, 14

purpose of the banquet there can be suggested with perhaps somewhat greater confidence. If 1.3 I follows directly on 1.2 IV, then a victory feast celebrating Baal's defeat of Yamm would be in order. There is no evidence opposing this continuity between tablets, but such a reconstruction cannot be proven (*UBC* 1.12–14). On the assumption that 1.3 I describes a victory feast (whether or not 1.2 IV and 1.3 I are directly continuous), it shows one outstanding feature compared to other such scenes in ancient Near Eastern literature: Baal celebrates his victory apparently without his divine peers. The feast does not appear to be, in Gray's words (1979b:315), "a banquet of the gods" or the divine council in general. It is true that Baal's divine subordinates are present: a servant provides him with food, drink and music; and at the very end of the column his "women" are noted. Yet it is striking that no other major divinities appear, at least in the extant text (there are ca. 25 lines missing lines above this passage, which could have included the arrival of guests, and there is room at the bottom of the tablet for the guests to depart). We may have a scene limited to members of his household (on Baal's household, see Smith 2001a:56).

Such an understanding of the scene would fit our general interpretation of the Cycle, in which Baal is not confirmed as king/coregent of El until the latter has given his permission for Baal to build his palace, and the pantheon come to the palace for a banquet that confirms their acceptance of Baal in his new role (1.4 VI 38–VII 42). It thus appears inappropriate for the full pantheon to be present here. See the Introduction above, p. 48.

Lichtenstein (1968:25; 1977:25–30) has studied the *topos* of the feast in numerous Mesopotamian, Ugaritic and Israelite texts and observes a narrative pattern with a sequence in which preparations are made, food is served, then drink is served. This three-fold pattern is apparent in 1.3 I as well. Here a fourth element, music, follows the serving of the drink. This element is found in other Ugaritic banquet scenes, notably 1.17 VI and 1.108.1–5. These four elements, plus a possible fifth (suggested in Smith 1990:319 n. 7; *UBC* 1.138 n. 29) are found in the following lines:

//20.024.5, 14; 24.643.27//92.2004.10) as ^{d}HUR.SAG.ḫ*a-zi* (Pardee 2002:14, 17). For Mount Hazzi (Sapan) in Anatolian ritual from Emar, see Emar 472.58', 473.9', 476.21' (where the dinger sign is used). For a possible reference to Sapan in *Maqlû*, see Abusch 1995:486–88, 494 n. 75.

A. preparation	lines 2b–4a
B. food	lines 4b–8a
C. drink	lines 8b–17
D. music	lines 18–22a
E. sexual relations (?)	lines 22b–28 (?)

Another narrative structure is visible in Sections B–D, each of which begins with a line consisting of three verbs (Watson 1975:484; Pardee 1988b:6, 9, 16–17). The first verb is a **qtl* form, while the second and third are **yqtl* verbs, linked by the conjunction *w*. This triple occurrence of the initial **qtl* is highly exceptional, perhaps unique, in Ugaritic literature (Smith 1990:318 n. 5; Watson 1994b:248) and indicates a close relationship. In addition, the synonymous meanings of the verbs (*qm*, "he arose," in lines 4 and 18, and *ndd*, "he stood," in line 8) argue for a connection between the elements. Accordingly, sections B–D as larger units may be read as poetically parallel. Moreover, these sections are bound further by the third person masculine suffixes in lines 5, 6, 9, 10–11, 14, 17 and 23 (Pardee 1988b:9). We may also note the sonant parallelism between the **yqtl* verbs in the three initial lines: *yṯʿr* in line 4; *yʿšr* in line 9; and *yšr* in line 18 (also line 22). Section A opens with a **qtl* verb (*ʾbd*, line 2b), but does not contain the rest of the pattern. However, there is little doubt that it is an essential part of the standard narrative design for a feast story.

The proposal that lines 22–27 might have to do with sexual relations and that a description of such activities might be a feature of some feast accounts is fairly tenuous (Smith 1990:319 n. 7; *UBC* 1.138 n. 29; see also the discussion below, pp. 115–21). Possible examples, neither clearly applicable (see our discussions below on these passages), include El's speech to Athirat upon her arrival to his abode in 1.4 IV 33–39, where he offers her first food and drink and then sexual relations,[27] and the possible allusion to sexual relations at feasts in 1.4 III 19–22 (but see the discussion below, pp. 476–78). Section E's verbs of vision connect this section with the preceding units: **ʿyn* in lines 15 and 23, and **ʾmr* in line 22 (cf. **phy* in line 14).

[27] Cf. El and Athirat's sexual relations in the West Semitic myth of Elkunirsha and Ashertu (*ANET* 519; Hoffner 1965; 1998: 90–92; Beckman 1997:149).

Lines 1–2

Very little of certainty can be determined about this section. Line 1 is seriously damaged, and the first word of line 2 is ambiguous. In line 1, *tgl* is thought to derive from a root that is either geminate or final weak. Assuming the latter, Aartun (1967–68:294) reconstructs *'al tgl[y r'a/'išthm]* on the basis of *tgly 'ilm r'išthm* in 1.2 I 23. Since the context is unknown, the reconstruction lies beyond verification (see *SPUMB* 68). The word *prdmn* in line 2 is likewise problematic. Many commentators take the vocable as a PN serving as the subject of the verbs in lines 2f. (e.g., *CML*^{2} 47). Pardee (1980:274) has noted that "inclusion of *prdmn* in this poetic line results in a line length of fourteen or fifteen syllables (depending on the vocalization of *prdmn*), longer than any line in this column…Moreover, the second line of the bicolon in ll. 2–3 has only ten syllables." Accordingly, *prdmn* probably belongs with the preceding words, now lost. It may be that the subject of the verbs in line 2 and following could be impersonal or unnamed ("he"), referring back to *prdmn* (*ANET* 135; *GA* 84) or *rdmn*, if *p-* were taken as a separate particle (meaning "so," perhaps with a temporal connotation of "then" or "at that moment"). *Prdmn* has no parallel while *rdmn* has been compared with Akkadian PNN *rādimu, radmanu*, ESA PNN *rdmn, rdmyn, rdmw*, Tham. PN *rdm* (so *SPUMB* 68). De Moor also notes a possible relationship to the Greek god Radamanthys, a deity of foreign origins thought to rule over the Elysian fields (Odyssey 4:561f.); see also Loretz 2002b. In a particularly original stroke, Dahood (1979:146 n. 21) took the vocable as two words meaning "mule of destiny."

Lines 2–4: Baal's Banquet: Preparation

These lines set the stage for the feast. A figure unnamed in the preserved text (*GA* 11), though perhaps *rdmn* of the ambiguous line 2, serves and regales Baal. This figure may not have been named at all, since he is a servant. His actions are reminiscent of cultic activities of priests who offer sacrifice and music to the gods. Such a ritualistic background may underlie the use of "the knife" (*ḫrb*), mentioned in line 7 (see below for further discussion). The context of the overall passage suggests that the servant here is also the singer in lines 18–22a.

Baal is the focus of the feast. The resonance of this name is carried further with his title, *zbl*, "prince," literally "exalted one" (from the root **zbl*, "to carry"; cf. the semantic analogous development of BH *nāśî'*, "prince," literally "lifted one" from the root **nś'*, "to raise").

The full title, *zbl bʿl ʾarṣ*, "Prince, Lord of the Earth," appears for the first time in the Baal Cycle. The second word is the same as Baal's name and may be regarded as a pun. Or, the title could be translated "Prince Baal of the Earth" (cf. Athirat's title, *rbt ʾaṯrt ym*, "Lady Athirat of the Sea"; *Astartu ša a-bi*, "Astarte of the sea" (?), e.g., Emar 373.92', 452.17', but other possibilities are discussed in Pentiuc 2001:20, 21–25).[28] The appearance of Baal's full title here may not be accidental, as the placement of epithets may signal a particular aspect of a deity in a given context. This specific epithet may signify that now that Baal has defeated Yamm, Baal has become lord of the earth.

Lines 4–8: Food

Lines 4b–8a describe the serving of food. The three verbs in 4b–5a constitute a progression either of three sequential finite verbs ("he rises, prepares and feeds him"; *UNP* 106; Wyatt 1998:70), a complex syntactical construction involving a main and subordinate clause ("after he arises, he prepares and feeds him"; so Blake 1951:80 n. 1), or possibly a participle plus two prefix indicative forms (Piquer Otero 2003:199–200; cf. *MLC* 179). In this third view, the initial verb does not mean "to rise," but "to be standing" at attention, a position suitable to a servant (cf. *bʿl qm ʿl ʾil* in 1.2 I 21; see *UBC* 1.295), and our translation above follows this interpretation of the semantics of *qm* here and in line 20 (as well as *ndd* in line 8). The interpretation of the initial form as a participle may be supported by *qmm* in 1.2 I 31 and by *ʾany* in Baal's lament before *lyṣḫ* in 1.3 V 35; both of these forms seem to be participles in initial position. Yet elsewhere according to Piquer Otero, initial **qatala* may convey subordinate action when preceding other finite verbs. If so, then the initial verb might be understood: "as he stands (at attention), he serves." However, the line may involve a sequence of three finite verbs: a servant stands at attention and then serves; a servant does not serve while standing (still). The second verb in this sequence, **ṯʿr*, refers to arrangement in 1.3 III 20, 36: "she arranged/set chairs/tables." A comparable usage appears both in 1.3 II 20–22 (Sivan 1997:125; see p. 161 below), and in 1.24.36–37: *ʾiḫḫ yṯʿr*

[28] To the list of attested variants on the motif of Astarte and the Sea (*UBC* 1.23–24), Houwinck ten Cate (1992:117–19) adds KBo 26.105, possibly a song belonging to the "Cycle of Kumarbi."

mšrrm, "her brother(s) prepared/arranged the measures" (for cognates, see *DUL* 893; cf. Hoch 1994:272–73 for a possible West Semitic loan of the verb's root into Egyptian).

The remainder of the tricolon here describes the preparation. The unnamed figure *ybrd*, "cuts" (?) the breast. The somewhat uncertain verb is perhaps explicated more fully in the third line with the verbal noun *qṣ*, which refers to a cutting or slicing (**qṣṣ*; cf. BH **qṣṣ*; Syriac *qeṣṣō*, Arabic *qaṣaṣa*, Akkadian *g/qaṣāṣu*, cited in *DUL* 715, 717; see also *UT* 19.2259). As long noted, *qṣ* is not a verb in this line, since it is followed by a noun in the genitive, not in the accusative case (for the correct syntactical analysis, see C. L. Miller 1999:356–57). The object named in the third line used to make the cut is **ḥrb*, a knife, likewise indicating the force of **brd* in this context. The noun is cognate with BH *ḥereb* and Aramaic *ḥarbā* (cf. **ḥarba*, a West Semitic loanword into Egyptian discussed by Hoch 1994:233–35). LBA repertoire of weaponry included both the shorter dagger and the longer sickle-sword (Paul and Dever 1973:233, 236). A variation on the former would seem to be the operative "kitchen tool" in this context (cf. the preference of J. P. Brown 1968:178–81 for the translation, "sickle," comparing Greek *harpē* and Latin *harpē*). The alliteration between *ybrd* and *bḥrb* is further notable, which perhaps helped to inspire the selection of this particular verb.

The knife (*ḥrb*) has long been regarded as "salted" (**mlḥt*). Salt was put on the knife for "its ritual, purifying, antiseptic and preservative properties," according to Ullendorff (1962:345–6). The word *mlḥt* designates salt in 1.175.6 in a list of medical items (with *ḥmṣ*) and in 4.344.22 and 4.720.1 in lists of quantities of items (*DUL* 549). The use of salting for meat may also be attested in 4.247.20, *'uz mr'at mlḥt*, "a fatted salted goose."[29] If correctly translated, this phrase shows the use of **mr'*, "fatling," in a close context with *mlḥt*, "salted." Accordingly, the context of *bḥrb mlḥt qṣ mr'i* in 1.3 I 7–8 is best understood as evoking a picture of meat salted and cut (and perhaps not so much that the knife itself is salted unless this were an ancient method of applying salt to meat). Salt was used as a condiment for food in Mesopotamia (see *CAD K*:493 under *kuddimmu*; Potts 1984:247, 265, 267; Lackenbacher 2002:132 n. 407, with further bibliography) and Israel (Job 6:6). That

[29] This phrase has been interpreted alternatively as a "good fatted goose" (see *UT* 19.119, 19.482; Sivan 1997:74), but in view of the other uses of *mlḥt* as salt, this approach seems less appealing.

salt was an important Levantine commodity may be deduced from an edict of Mursilis II found at Ugarit (RS 17.335 + 17.379 + 17.381 + 17.235, in *PRU* IV, 71–72; Lackenbacher 2002:137–38), in which the Hittite king adjudicates the secession of the kingdom of Siyannu from under the control of Ugarit and its movement into the political sphere of Carchemish. In addition to designating which towns belong to Ugarit and which to Siyannu, the king carefully divides a salt marsh between the two (Potts 1984:252). Potts (1984:230) also notes what was called "Amurru salt" (although it is unclear whether Amurru in this case is a general reference to the west or a specific designation for the region in Syria known as Amurru). In the Mesopotamian heartland, salt was a valued commodity. Salt was distributed in the form of lumps or bricks (Potts 1984:258–9). Royal banquets used salt in the food (*CAD K*:49), and workers' rations included allotments of barley, dried fish and salt (Potts 1984:265).

Alternative interpretations for *bḥrb mlḥt* have been proposed, such as a "good knife" (*UT* 19.482; cf. M. Cohen 1947:191, #482), or a "jaw-shaped knife" (see the discussion and citations of Wyatt 1998:70 n. 2 and Watson 2000b:141; for other possibilities, see Ullendorff 1962:345–46, esp. n. 4; and Dietrich, Loretz and Sanmartín 1974:40). In support of *mlḥt* as "jaw-shaped," Wyatt cites BH *lĕḥî*, "jaw." While this facial feature might seem odd as a characterization of a knife, it is quite possible that *ḥrb* by itself may suggest a curved shaped knife analogous (as noted by Wyatt) to Greek *harpē* (mentioned above).

Lines 8–17: Drink

These lines comprise the longest section in the description of the feast. The initial unit, a tricolon, follows and echoes the preceding unit, with phonological, morphological and semantic parallelism between lines 4b–5 and 8b–9: *qm* and *ndd*, *yṯ*ʿ*r* and *y*ʿ*šr*, and *yšlḥmnh* and *yšqynh* (see Avishur 1984:77–78). Further parallelism links lines 18–21 as well (cf. *qm* and *wyšr* in line 18). As noted at the outset of this discussion, the first line of this tricolon syntactically, morphologically and semantically resembles lines 4b–5 above and line 18 below. The second line may follow suit: the verb of the second line in line 6 is *ybrd*, a prefix form, which may suggest a similar morphological analysis for *ytn* (Smith 1990:318); cf. *yšr* in line 20. The verb *ytn* governs the direct objects in lines 10–15a. The larger clause *ytn ks bdh* forms a rather stereotypical expression in feasts (see Gen 40:13; cf. Iliad 18:545f.; Odyssey 3:51, 53;

so *SPUMB* 72). The verb **ʿšr* (Dietrich and Loretz 1991:313) applies to meal-service in CAT 1.16 I 39–41: *krtn dbḥ dbḥ mlk ʿšr ʿšrt*, "Kirta made a meal, the king served a feast" (cf. CAT 1.43.2: *ʿšr ʿšr*). In the prayer recommended in 1.119, addressees are to include the words (lines 32–33), *ḥtp bʿl nml'u ʿšrt bʿl [n']šr*, "A *ḥtp*-offering for Baal we will fulfill, a feast for Baal [we will of]fer" (for the possibly related *aširūma* in Akkadian texts from Ugarit as a designation of a profession, see *DUL* 189; Lackenbacher 2002:239 n. 814; cf. *CAD A/2*:440). Similarly, the verb **šqy* might evoke a ritual libation (cf. *šqym* in 1.115.11; del Olmo Lete 1995:46; Pardee 2002:67; cf. 1.86.24, 25, 4.246.8). This tricolon uses two standard terms for vessels, *ks//krpn* (see Kelso 1948:109–20 concerning BH *kôs*). These are two common terms for drinking vessels. For example, they appear in parallelism in 1.15 II 16–18.

In contrast, lines 12b–17 stress the superlative quality of Baal's drinking vessel, first in terms of its appearance, second in terms of the limits on who may behold it, and finally by way of its immense volume (for a full survey of views of lines 12–15, see Loretz 2002b). With a series of appositional clauses (enjambment; see Watson 1994b:138), the vessel is described initially in line 12 as large, *bk rb*. The word *bk* has been compared commonly with Greek *bikos* (Lipiński 1970:81; Zamora 2000:524). Apparently an Indo-European *Kulturwort*, *bk* may evoke the larger atmosphere of international trade and the accompanying cosmopolitan life enjoyed by the upper class at Ugarit (see the discussion of *kd* below).

In line 12, there has been considerable discussion as to whether the letters *r'idn* should be taken as one word or two, *r'i* and *dn*. If one were to view *r'i* as a form of the verb *r'y*, "to see," and connect it to the first bicolon, then the line could be translated as, "A large vessel great to behold."[30] The succeeding word *dn* often has been taken as the name of a receptacle for liquid, related to Akkadian *dannu*, "vat," and Arabic *dann* in this meaning in *DUL* 276; cf. also *CML*^{2} 145). But *CAD D*:98–99 points out that *dannu* appears quite late in Akkadian, only in the first millennium, and, in addition, that it was probably a late loan word into Aramaic and Arabic.

---

[30] Smith, *UNP* 106. Similar renderings include: Jirku (26): "mächtig zu sehen"; and Pardee 1997a:250: "mighty to look upon." For comparable expressions for positive appearance, Pardee 1988b:19 cites Josh 22:10 and 1 Sam 16:12. See also BH *rōʾi* in the inverse expression for unpleasing appearance in Nah 3:6.

Other commentators such as Watson (1989:50) take *r'dn* as a single word for a drinking vessel, possibly cognate with OB *urīdum* or *uriddu* (see also Zamora 2000:517, 524–25). Loretz (2002b:303, 312), following Korpel (1990:401), relates *r'idn* to the common Greek drinking vessel, the rhyton (Greek *ruton*). In this case, *r'idn* would be another Indo-European loanword. In favor of this, he notes the number of other words for drinking vessels in this passage apparently cognate with Greek terms (*bk /bikos, kd /kados*); for further Aegean influence at Ugarit, Loretz cites Buchholz 1999 (see also Buchholz 2000). Caquot and Sznycer (*TO* 1.155) take *r'idn* as a PN followed by a title, *mt šmm*, "man of heaven," and argue that this is the name of Baal's cupbearer. The name *r'idn* apparently occurs in CAT 1.41.36 as the recipient of a sacrifice (del Olmo Lete 1999:119–20). But the context in our passage does not favor this view.

The second line of the bicolon contains other interpretational problems. The issue centers on the meaning of *mt šmm*. Ginsberg (*ANET* 136) translates the line, "*A jar to dumbfound (šmm) a mortal (mt)*." Obermann (*UgM* 10 and n. 13) and Pope (in Smith 1998b:654) relate *mt* to Arabic *matta*, "extend, stretch" and suggest: "Which he stretches out heavenward." Gibson (*CML*^{2} 46) renders the whole phrase "a cask of mighty men" (see also *LC*^{2} 31). Watson (1994b:472) translates: "A vat for giants (lit. men of the sky)." This approach assumes taking *mt šmm* literally as "men of heaven" (see Zamora 2000:518). Though philologically feasible, this would be an unparalleled expression. At the same time, it would be appealing contextually, since as suggested by Lipiński (1970:82), it would suggest a contrast between men participating in the feast as opposed to women who are not to do so, as mentioned in the following bicolon. Pardee (1988b:2, 3) divides *dnmt* differently, as relative *d-* plus *nmt*, "furnishings" (Akkadian *numātu*, "furnishings" in *CAD N*:334–35); he translates "Belonging to the furnishings of heaven." Although the word *nmt* is otherwise unattested in Ugaritic and the syntax assumed by this translation might call for **dlnmt* (*d* + *l* + *nmt*), this proposal is attractive.

The goblet is also one which no women, not even Athirat, may see (see Gordon 1977:7). The reference to Athirat here has spawned a variety of interpretations. Perhaps perceiving a reference to the goddess odd in this context, some interpreters have sought a different interpretation of the word. Ginsberg (*ANET* 136 n. 1) and Gibson (*CML*^{2} 46), for example, render the name generically as "goddess," based on the appellative use of Ishtar in Akkadian. The proposal to take *'aṯrt*

as "wife" (so Margalit, cited and followed by Wyatt 1998:71 n. 6) is based on an etymologizing midrash of sorts, that this word refers to a wife as a female who walks behind her husband. Addressing the first alternative, Pardee (1988b:19) observes:

> Though some have taken *'aṯrt* in the *ʿnt* text as a common noun 'goddess' rather than as a proper noun, the force of the statement is stronger if it is understood to declare that not even the consort of El may look at this particular cup. This notion is, of course, contained in the phrase 'no goddess', but it is stronger if the goddess in question is 'Aṯirat herself.

In the prosodic analysis of this bicolon above, the sonant paralleism of *'aṯṯatu* and *'aṯiratu* is noted, perhaps leading to the choice of the goddess' name in this context. This sonant proximity reinforces the view that the goddess may be understood as the superlative example of the category of woman, the word to which Athirat is parallel in the first line (cf. the parallelism of "human" and "one of the princes" in Ps 82:7). It may also denote the exclusion of females (here goddesses) from religious ceremony (Lipiński 1970:82, citing Roman custom; *TO* 1:155 n. n; de Moor 1987:3 n. 13), and one may wonder if this expression reflects social associations of men and not women. In this connection, Zamora (2000:578) compares the notice in the sacrifice described in 1.115.8 that "a woman may eat of it" (*wtlḫm 'aṯṯ*; see Pardee 2002:66). The fact that this stipulation is even mentioned would suggest that it was a practice to exclude women from some sorts of sacrifices. In other settings, it would seem that women were evidently excluded as well. The marzeah, for example, was an ancient social organization of men known from Ebla, Ugarit and other sites (for surveys, see *UBC* 1.140–44; McLaughlin 2001). It is quite possible that women generally did not belong to the marzeah; indeed, one Ugaritic text mentions the "men of Shamumanu" as its members (CAT 3.9). That women may have been excluded from participation may lie also in the background of the obscure 1.4 III 10–22. No matter which view is preferred, lines 10–13a focus on the drinking cup.

Finally, lines 13b–17 stress the superhuman volume that Baal's drinking cup can hold, in accordance with his superhuman size (Greenfield 1985; Smith 1988). It can handle "a thousand" (*'alp*), even "ten thousand" (*rbt*, normally **rbbt*; see epigraphic notes above) jars' worth. The word *kd*, though formally singular, is presumably of a collective character in the context here (cf. *'alp šd* in 1.3 IV 38, 1.4 VIII 24–25; see *UG* 363). Zamora (2000:348–56, 517) understands *kd* as an amphora, a

type of vessel common in the Late Bronze Age Mediterranean world, including Ugarit. Kelso (1948:19) notes biblical examples where the context provides some indication of the vessel's size. Kelso describes the *kād* primarily as a large jar used for carrying water (Gen 24:14f.; Eccles 12:6); he also notes that it had an egg-shaped bottom which made it easier to carry. These comparisons suggest the image of a vessel normally used for larger measure of water and hardly a regular drinking vessel. Indeed, in Baal's feast the vessel's size is emphasized (cf. Deut 32:20; Ps 91:7; *CS* 267–69). At other feasts, it is the numbers of jugs of wine that express the superlative quality. The famous example of Ashurbanipal's inaugural feast at Calah (Nimrud) includes in its huge inventory of food and drink "10,000 jugs of beer, 10,000 skins of wine" (Grayson 1991:292). Baal's feast by comparison translates human superlative drinking in the form of number of vessels into a single divine vessel capable of handling a comparable quantity of wine.

The word *ḫmr* has been taken as either a container or type of wine. Dahood (1964; 1968:214), followed by Tromp (1969:86 n. 34) and van der Weiden (1970:87), argued that *ḫmr* is a jug here and in Deut 32:14 and Ps 75:9. Dietrich and Loretz (1972:28–29) had rejected the view of Dahood, primarily on the basis of the parallelism: in 1.3 I 15–17 the syntax indicates that the parallel sets of terms are *'alp kd//rbt* and *bḫmr//bmskh*. As noted below, there is no evidence for *msk* as a vessel. The biblical examples are arguably more ambiguous. Rejecting the counterarguments of Dietrich and Loretz, O'Connor (1980:198) accepts *ḫmr* here and in Deut 32:14 as "jug." Lloyd (1990:180–81) and Wyatt (1998:71 n. 9) likewise support this view for 1.3 I 15–17. Unfortunately there is no further etymological basis offered for this proposal.

There appears to be greater support for *ḫmr* as a type of *yn*. De Moor (*SPUMB* 75) notes the expression *ḫmr yn* in 1.23.6, which is parallel with *lḥm*; there is no container or vessel mentioned. De Moor asserts further that *ḫmr* is "the new wine which is still in the process of fermentation . . . available very soon after the pressing of grapes in September." Cross (1969:72) likewise connects the word to fermentation. Loretz (1993) follows suit in understanding *ḫmr* as new wine. Possible support of this view has been suggested based on the Emar texts (see Fleming 1992:143 nn. 238, 239; Westenholz 2000:62; Pentiuc 2001:55–56; *DUL* 395). According to Grabbe (1976:61), *ḫmr* in this context may be only a general synonym for *yn*, "wine" (cf. J. P. Brown 1969:147–48), as the term *yn* is absent from 1.3 I 15–17. Or, here it may be simply a fermented drink, not specifically wine (cf. Amorite *ḫi-*

im-ri, "a fermented drink" in Zadok 1993:324). This approach enjoys the merit of a clear etymology. In Lam 1:20, 2:11 the root refers to the churned innards of a person in lamentation, while in Ps 46:4 it is used for the churning of water (*BDB* 330; see below, pp. XXX). It is difficult to know how specific the sense of *ḫmr* is in the context of Baal's feast, but given the usages elsewhere in Ugaritic and Hebrew (see Zamora 2000:306–14, 512; see further below), it seems unlikely that *ḫmr* designates the vessel that contains wine.

As for *msk* in line 17, nominal and verbal cognates are well attested in biblical literature (Ps 75:9; 102:10; Prov 9:5; Isa 5:22; 19:14; cf. *mmsk* in Isa 65:11; Prov 23:20). Ps 75:9 is the most pertinent of these passages where *ḫmr* stands in parallelism with *msk* (Pope 1977b:619–20). The further sense that *msk* involves a spiced drink has been suggested (see *KB*[4] 605 which relates Ugaritic *msk* and Arabic *misk* to BH *msk* in Ps 75:9). For its use of both *msk* and *yyn*, Prov 9:5 may be compared: *lĕkû laḥămî bĕlaḥămî//ūštû bĕyayin māsāktî*, "Come, eat my food, And drink the wine that I have mixed" (NJPS). This usage would point to *ḫmr* in 1.3 I 16 as a wine of sorts, as suggested also by the expression *ḫmr yn* in 1.23.6 (see Zamora 2003:512). That the word may be a loan or *Kulturwort* may be suggested by the further Semitic and Indo-European cognates (if correctly) proposed by Pope, including Hebrew *mezeg*, Aramaic *misgā*, Greek *misgō* (or *mignumi*) and Latin *miscēo*. A container that is so large that a mixture of liquor can be made in it further conveys the superlative size not only of the vessel, but also of Baal's ability to consume it.

Finally, the vessel is also made the focal point in lines 10–17 by the interplay of identical consonants in the various words for the vessel. Pardee (1988b:53) noted the appearance of *k* in three of the vessel's names, *ks, krpn* and *bk*. But one may also note the recurrence of *r* and *n* in *krpn* and *ridn*.

The importance of drinking as the centerpiece of the feast is clear from the emphasis placed on the description of Baal's vessel (Smith 1990:319). Drinking appears to be the hallmark of the high life in the pantheon. According to Judg 9:13, wine is the drink that "cheers gods and men." It is the divine drink given as a gift to humanity (Ps 104:15; Eccles 3:13; cf. 2:24; see Ahlström 1978:22). Perhaps in keeping with wine's connotation expressed in Judg 9:13, the great emphasis given in this section to wine may imply the great joy of the celebration in proportion to the great victory won by Baal over Yamm in the preceding column, 1.2 IV.

Lines 18–22: Music

These lines contain the penultimate section of the feast proper. In the bicolon of lines 18–19, someone stands/rises (**qwm*, as in line 4), and then "chants" (**bdd*) and "sings" (**šyr*) (see Ginsberg 1946:44). A figure (probably not another one) called *nʿm* plays *mṣltm*, "cymbals." Or, more literally, the cymbals are in the figure's hands. This syntax in line 19 is somewhat unusual for Ugaritic poetry. The first line of the bicolon, line 18, has a series of verbs unparalleled outside of this column (see above), and the second line, line 19, follows with noun (of agency, namely the instrument accompanying the singing described in line 18) + preposition + object of preposition (who is the also subject of the verbs in the first line). Such syntax may seem particularly unusual, but the syntax of the second line is paralleled for the most part in 1.4 I 24: *bd ḫss mṣbṭm*, a nominal clause which may be rendered literally, "in the hands of Hasis are the tongs." The only syntactical difference in the second lines of these two passages involves the word order: the noun falls at the end in 1.4 I 24 instead of at the beginning as in 1.3 I 19. It is difficult to know how much significance is to be inferred from this difference. Does 1.4 I 24 front the prepositional phrase in order to highlight the craftsman-god, while 1.3 I 19 fronts the musical instrument, thereby emphasizing the activity and not the figure? Given that the figure goes unnamed in line 18, this interpretation appears plausible. Indeed, throughout this column the stress falls on the activities offered to the pleasure of Baal and not the figure involved in his service. In 1.4 I 24 the figure designated by the title in the second line, Hasis, is clearly the same person named in the first line, Kothar, since Kothar wa-Hasis is known to be the full name of the craftsman god. In 1.3 I 18 no such parallel name precedes the mention of *nʿm* in line 19, but on the basis of the parallel syntax it would appear that *nʿm* is the subject of the verbs in line 18.

Yet the meaning and significance of the word, *nʿm*, is not entirely clear here. Elsewhere it is an aesthetic term, describing the physical appearance of places: Baal's abode in 1.3 III 31 and 1.10 III 31; the land by the underworld in 1.5 VI 6, 1.6 II 19. It may also apply to persons: in 1.14 III 41, *dk nʿm ʿnt nʿmh*, said of Huray, "whose beauty is like the beauty of Anat" (cf. *nʿm* in 1.96.2); and to deities in PNs (see Benz 362, *WSS* 515). The obverse of 1.113 uses this word in the context of a number of musical instruments, as in our passage, though it does not do so with cymbals. BH *nʿm* has been understood as a term

for singer (2 Sam 23:1; Pss 81:3; 135:3; 147:1; Ben Sira 45:9).[31] RSV renders: "the sweet psalmist of Israel," but "Favorite" (*CMHE* 236) is also possible in this instance (cf. Levenson 1985:66; Barré 1992:627–28). The sense of *nʿm* as "singer" stands in the Psalm verses, yet the Ugaritic noun may be understood as denoting a physical attribute, either that the figure is handsome or is a figure with a good voice, parallel to "good (*ṭb*) of voice" in the next colon (suggested as a possibility by B. Zuckerman, personal communication; for the semantic range, see Huehnergard 1987b:60), based on an expression found in 1.23.29, *ġ[zr]m g ṭb*, "the l[ad]s with a good voice" (see *UNP* 209). Cassuto compared BH *yĕpeh qôl*, "beautiful of voice" in Ezek 33:32 (*GA* 112). Taking Ugaritic *nʿm* as "singer" would entail an etymological difficulty. Arabic attests to both **nʿm*, "to live in comfort, enjoy" (cf. *nuʿm*, "favor, good will, grace" in Wehr 980) and **ngm*, "sing, hum a tune" (Wehr 981; cf. *KB*[4] 705). Ugaritic, which has both consonants 'ayin and ghain, would be expected likewise to use **ngm* and not *nʿm* for "singer." It is possible (though irregular) that the two roots had already coalesced in Ugaritic, in which case perhaps the word's range included both senses (Cross 1998: 140; see pp. 243–44 below), perhaps with some word-play involved. The translation, "virtuoso," is an attempt to retain the etymological sense of Arabic *nʿm* and BH *nʿm* operative in the word-field pertaining to music suggested by Arabic *ngm*.

Cymbals are the player's instrument of choice (*mṣltm*; see also in 1.19 IV 26, 1.108.4; cf. BH *mĕṣiltayim* in Ezra 3:10 and *ṣelṣelîm* in 2 Sam 6:5; Sivan 1997:72, 79). Professional cymbal players are attested in the Akkadian documents from Ugarit as *lú ma-ṣi-lu* (Rainey 1973a:4). Caubet (1996:10, 25) notes that excavations at Ras Shamra (Ugarit) and Minet el-Bheida have yielded five pairs of bronze cymbals. According to Caubet, this type of cymbal seems to be original to the Levant, with Late Bronze Age examples known from Megiddo, Tell Abu-Hawam, Hazor, Shiqmona, Tell Mevorakh and at Pyla Kokkinokremos in Cyprus. Paul and Dever (1973:248) describe later Iron Age examples at Beth-Shemesh and Achzib: "They were shaped like plates with a central hollow boss and a metal thumb-loop; their average diameter was about 4.5 cm." (see also Eaton 1984:92). The example drawn in Caubet 1996:29, fig. 1

[31] See *GA* 111–12; Lewis 1989:52; *UBC* 1.65 n. 126. Note also Ps 81:3 where *nāʿîm* is predicated of the lyre (*kinnôr*). For a derivation of Greek *neuma* from Semitic **ngm*, see Kugel 1981:113 n. 36.

is larger, measuring ca. 9 cm. in diameter (Caubet 1996:27). Cymbals were also among the instruments that the Levites are said to have played in the Jerusalem temple.

The prepositional phrase in line 21 is ambiguous. It could denote either the singer's song about Baal (cf. Anat's song of Baal and his three women in 1.3 III 5–8a; cf. *ʿal* in Joel 1:8: "lament…over the husband of her youth"), or the singer's physical posture before Baal (so Watson 1994b:61; cf. **qwm ʿl*, "to stand before," in 1.2 I 21). If *ʿl* means "about," the song may concern Baal's exploits on Mount Sapan (his victory over Yamm; see *UBC* 1.3–14; for *ṣrrt*, see *UBC* 1.173 n. 108 and *UT* 19.2199, which notes a possible wordplay on *ṣrwr//ṣpwnh* in Hos 13:12). Gibson (*CML*^{2} 46) renders *ʿl* as "over," which conveys ambiguity as to the precise meaning (*UNP* 106). Pope (in Smith 1998b:654) thought that "perhaps the poet intended all these senses." In view of the similar scene of song in 1.3 III, the song seems to be "about Baal." Obermann (*UgM* 10–11) took lines 13–16f. as direct discourse, the content of the song. The location of the singing and hence the feast is Mount Sapan, a fact indicated contextually by 1.3 IV 38 (see p. 303). For music in the context of banquets (and sacrifices), see Koitabashi 1998:380–81. For further consideration of the figure of the singer, see the discussion at the end of this column (pp. 121–22).

Lines 22–29: Baal's "Daughters"

The syntax of the line that begins this section, with the prefix form *ytmr* as the first word, indicates that the narrative is continuing, rather than shifting to a new scene. If so, perhaps these lines could constitute the content of the song sung by the singer mentioned in the previous section (APO). Here Baal "takes sight" (*ytmr*) of his daughters. As Ullendorff (1978:21*) notes, this meaning of the root only occurs with the *t-* infix, which suggests perhaps reflexive or repeated (or, perhaps in this case, ongoing) action (Greenfield 1979). Then he literally "eyes" (**ʿyn*) Pidray and Tallay. It is to be noted that elsewhere Baal's three females, Pidray, Arsay and Tallay, are named in tandem (1.3 IV 48–52, V 3–4, 35–44, 1.4 I 4–18, IV 47–57, IV 62– V 1). Here Arsay is not mentioned. It is unclear whether "daughters" (*bnth*) is meant literally or more broadly as Baal's girls or females. In view of their title *klt* elsewhere (see line 26 for discussion), it has often been thought that they are Baal's own "brides" or "fiancées." Wiggins (2003:86–87) instead understands them to be Baal's unmarried daughters. If this is correct (and it may well be), who

is their husband-to-be? In 1.24.25–26, it is the moon-god Yarih who is presented as Pidray's potential spouse, but in the context of the Baal Cycle, no alternative figure is named. Wiggins's hypothesis makes sense of the idea that not only Baal but also his "females" lack for a house according to his lament (in the passages listed above); in other words, this father cannot provide a home for his family. Despite the advantages to Wiggins's theory, it remains possible that the Baal Cycle may offer an alternative mythology that casts Baal himself as their husband, prospective or otherwise. It is unclear that the more literal interpretation of *bnth* here is in fact the case (for more generalized usages, see *DUL* 245). Despite unanswered questions, Wiggins has drawn attention to an important lacuna in our knowledge; his reconstruction is plausible, and it makes sense of a number of details.

As the epithets of these two females in lines 24–25 (*bt ʾar* and *bt rb*) indicate, the term, "daughter" (*bt*), often expresses affiliation[32] with meteorological phenomena and thereby with Baal. The term "daughter" may also express a lower rank, compared for example to the term "sister" for a lover, who would have been a social equal (cf. Song of Songs 4:9 cited above). The text casts in narrative form this relationship in terms of both affiliation and subordination, namely that these are his "women." Taken in these terms, they are understood as his daughters or wives, in other words, of a lesser divine rank than himself. In sum, these females are affiliated with Baal (see below for their shared meteorological associations), either as his daughters or brides.

The nature of the visual attention that Baal lavishes upon these two females is left unstated. Ugaritic has a number of verbs involving seeing. In addition to **ʾmr* and **ʿyn* (see also 1.3 II 23), Ugaritic uses **phy* (spelled fully in *phy* in 3.1.15; see Coote 1976; and in *ynphy* in 1.163.5, so Sivan 1997:168; cf. *phy* in 7.75.1 and the royal PN *ʿmph* in 1.113.15, discussed in Arnaud 1999:160); **rʾy*, "to see" (1.3 I 12); and **ḥdy*, "to look about, survey" (1.3 II 24). The *t*-form of *ytmr* may suggest prolonged vision, perhaps "to gaze" or "to stare." The verb **ʿyn* is quite common. For example, Baal "eyes" Anat approaching in 1.3 IV 39. There the nuance seems to be that he catches sight of her for the first time. It is possible that such a nuance informs Baal's eyeing

[32] The construction **bn* + PN produced by way of analogy **bn* + common noun to denote belonging to a category named by the noun. For example, BH *ben ḥayil*, literally "son of strength," is a strong person.

Pidray here. If so, Gibson's translation "perceives" might be close to the mark (*CML*² 46).

Yet more may be involved. Some speculations may be most tentatively offered on the basis of the field of neuropsychology. About the nature of visual experience, the dream neuropsychologist J. Allan Hobson (1999:144) comments: "Every sensory experience, be it veridical or illusory, involves both action and belief, both movement and concept. In the case of vision, the crucial and fundamental role of eye movement is clear. Eye movement is likewise central to the orienting response. And as such, it interacts with orientation…". In this case, Baal's gaze is directed toward the two (or possibly three) women; the "action" and "movement," to use Hobson's terms, are evident. The further issue is the nature of the god's motivation. Or, in Hobson's words, what is the god's "belief" or "concept"? Unlike Anat's travel and arrival in 1.3 IV 38–40, the entrance of the three women in 1.3 I is not mentioned; during Baal's feast, they may have been in attendance. Their relationship with Baal may furnish a further clue to the meaning of Baal's visual attention lavished on them in this final section of 1.3 I. The description of Baal's love and his three women in 1.3 III 5–7 uses terms that suggest a sexual aspect to their relationship, and it may be that Baal's interaction at the end of 1.3 I involved more than visual recognition. Indeed, the approximately fourteen lines in the lacuna could accommodate a description of Baal's sexual relations with his females. As noted above, sexual relations were possibly an optional component of divine banquet stories, and perhaps this is the case here (see Pope 1977b:293). If Baal's gaze is only prelude to sexual relations, then the visual nuance involves more than catching sight of his women, but perhaps a gaze induced by and further inducing the god's sexual passion. Gazing or prolonged eye contact, also called "the 'copulatory' gaze" (H. E. Fisher 1992:21) is a "labile psychophysiological response" that may involve the dilation of the pupils, "a sign of extreme interest" (Fisher 1992:21–24, 29, 30, 129–30; 1998:32).[33] One might suggest that it is the dilation of the pupils, a sign of visual intensity signaling sexual intent that Baal's gaze involves. Is it the "reflexive" use of one's eyes in the action that dictates the use of infix *t*-stem form, as with other bodily actions (such

[33] For attraction and its other psychophysiological responses with some discussion of their chemical bases, see Fisher 1998:30–39; for arousal and its effects on the brain more generally, see LeDoux 1998:288–90.

as the *Gt*-stems of **rḥṣ* for washing, of **šql* for locomotion, **ḫṣb* and **mḫṣ* for battling, of **wpy* for beautifying oneself; Greenfield 1979), but not for other verbs of vision?

The "copulatory gaze" is evoked by the female protagonist's mention of the intensity of her lover's visual attention in Song of Songs 6:5: *hāsebbî ʿênayik minnegdî šehem hirhîbūnî*, "Turn your eyes away from me, For they overwhelm me!" (Ginsberg 1974:13). Her lover describes the emotional intensity of her eyes in 4:9 (Ginsberg 1974:10):

libbabtīnî ʾăḥōtî kallâ	"You have captured my heart, my own (literally, my sister), my bride,
libbabtînî bĕʾaḥad mēʿênayik	You have captured my heart with one [glance] of your eyes."

Visual interaction as a prelude to further sexual activity is apparently depicted on a copper pin-head from the second half of the third millennium from south-west Iran. In Leick's characterization (1994:pl. 3), the pin depicts a couple in a house: "the woman on the right touches the man's shoulder while they gaze into each other's eyes."

It is to be noted that Pidray may be mentioned in what might be understood as a sexual context. 1.132.1–3 opens: *btš ʿšrh trbd ʿrš pdry bšt mlk*, "on the nineteenth of the month you are to prepare the bed of Pidray with the king's bed-covers" (Pardee 2002:98; see also Moran 1992:199 n. 11; cf. EA 84:13; and texts 54 and 55 in Parpola 1987:50–52). Following several sections of sacrifices, the ritual ends with the order: "before nightfall, you will remove the bed" (*ṯn ll tnʿr ʿrš*; Pardee 2002:98–99). Some commentators interpret this text as a reference to "sacred marriage" involving Pidray and the king (Dijkstra 1994:121), although the context affords little insight into the precise nature of this ritual (Pardee 2002:96). The ritual of the installation of the *entu*-priestess at Emar (Emar 369.73) mentions "her place of repose" or "bedchamber" (*ur-ši-ša*; Fleming 1992:116; Pentiuc 2001:190–91). In this connection, Fleming observes that the *bit erši*, "bedroom," is a regular feature Mesopotamian palaces and temples, mostly in the first millennium, but also once at Ugarit (RS 17.28.5 in *PRU* IV, 109). From these contexts, it might be inferred that the end of 1.3 I might have described sexual relations between Baal and his women. However, such a possibility must remain a matter of speculation. One might further speculate that the end of 1.3 I envisioned a pairing of Baal and Pidray, possibly informed by the language of sacred marriage; and if so, Baal may be the model of the divine king with whom Pidray was thought

to enjoy sexual congress. This pairing may underlie a much later reference to the two of them in a late Aramaic text written in Demotic, Papyrus Amherst Egyptian 63 (Bowman 1944:227): "May Baal from Zephon bless you; Pidra[i]/<i> from Raphia—she should bless you" (Steiner 1997:313).

Baal's "women" (*'aṯt*),[34] are known by the collective epithet *klt knyt*, "honored brides" in 1.4 I 15 (and reconstructed in the parallel passages in 1.3 IV 52, V 44; see *GA* 113). Akkadian *kallātu* at Ras Shamra may denote fiancée and not bride, according to Lackenbacher (2002:233 n. 794).

The names Pidray and Tallay evidently reflect their meteorological nature (see Wiggins 2003 for a recent review). Like Baal's epithet, "Cloud-rider" (*rkb ʿrpt*), the name Tallay and her epithet contain expressions for precipitation. Tallay means "Dewy" (*ṭly* < **ṭll* + *-ay* feminine ending; see Layton 1990:244; also Pope 1978a:30 n. 8; *CMHE* 56 n. 45; cf. the theophoric element *ṭá-la-ya* listed in *PTU* 359). Her name may also be reflected in an Amorite PN ÌR-^{d}*ṭa-li-tum* (YOS 13, 6; Zadok 1993:331). Her title means "daughter of showers" (*bt rb* < **rbb*; cf. BH *rĕbîb*). The Ugaritic word-pair *ṭl//rbb* is attested elsewhere (1.3 II 39–40, IV 43–44, 1.19 I 44–46; Avishur 1984:57; for biblical references to dew and rain, see *DDD* 250). 1.101.5 appears to present the goddess Dewy as a feature of Baal's cosmic face: "Tallay is between his eyes" (*ṭly bn ʿnh*). The association of dew with the storm-god is attested in less symbolic modes elsewhere. In 1.3 II 39–40, "dew of heaven" stands in parallelism with "showers of the Cloudrider." The storm-god Adad is the recipient of the following request in Atrahasis: "in the morning let him (Adad) make a mist fall, and during the night let him furtively make dew fall" (*CAD N/1*:203; Lambert and Millard 1999:74, 75, II ii 16–18).

As for Pidray, an Akkadian letter from Ugarit provides a syllabic spelling of her name as ^{d}*pí-id-ra-i* (RS 17.116.3; Izre'el 1991; Lackenbacher 2002:120; cf. *PRU* IV, 132 and n. 2 reading *bi-it-ra-i*). Wyatt (1998:72 n. 11) proposes a connection with Greek Pandora. The etymology of Pidray's name is highly debated. Gray (1979b:315 n. 3), apparently followed by Pardee (1997a:250 n. 69; 2002:15, 282), connects Arabic *afzar*, "fleshy," despite the irregular correspondence of the second radical

[34] For the form, see Sivan 1997:65. Cf. Amarna Akkadian *aššatu* used for both woman and wife in the Byblian corpus (so Marcus 1973a:283); BH *ʾiššâ*.

(noted by MHP). Similarly, Wyatt (1998:71 n. 11) calls her "Fatty" citing BH *peder*, or "cloudy" (without cognates). Pope (in Smith 1998b:654) commented: "PDR may be related to Arabic *badr* which relates to perfection, youthful maturity, and to shining (of sun or moon)." Instead, one might compare Arabic *baḏar*, "scattering," hence "Flashy" (see Ginsberg 1945:10 n. 19b) or Arabic *badray*, "rain that is before…or in the first part of winter" (Lane 166; cf. Smith 1985:290). Under either of these two interpretations, Pidray's name is meteorological. Her title also has some natural connection: *bt 'ar* means either "daughter of light," "daughter of lightning" (cf. BH *'ôr* in Job 37:15; Ginsberg and Maisler 1934:249 n. 15; Ginsberg 1945:10 n. 19b; cf. Gray 1979b:315 n. 2), or perhaps least convincing, "daughter of honey-dew" (see *CML*[1] 85, 135; de Moor, *SPUMB* 82–83, and 1975:590–91; Gray 1979b:315 n. 2). It may be noted in circumstantial support of the first of these three alternatives that one deity list from Ugarit equates Pidray with Hebat, evidently a celestial goddess (*DDD* 392, 725). Wyatt (1998:72 n. 11) claims further an attestation of this goddess' name as a title of Ishtar.

Biblical texts offer interesting associations between light and dew. Isa 26:19 juxtaposes *'ôr* and *ṭal: kî ṭal 'ôrōt ṭallekā*, "for dew of lights is your dew." The context in this biblical verse involves the resuscitation of the dead; the meaning of the elements of dew and light in this context is unclear (*DDD* 250). The two meteorological terms in Pidray's name and title have been connected to Isa 26:19, which is characterized as "a hint of the ultimate transformation of the natural order" (Blenkinsopp 2000:370). Another passage possibly bearing mythological overtones for dew (Ps 110:3; cf. Isa 18:4) is also difficult to interpret (*DDD* 250). Both Ps 110:3 and Isa 26:19 may convey a picture of cosmic well-being. One might speculate that much like Baal's rains, the meteorological associations of the names and titles of Baal's females likewise communicate a sense of cosmic well-being.

The final intelligible clause of the column is *pdr yd*ʿ in line 25. The subject of the verb is problematic. This epithet appears also in CAT 1.49.4, 1.50.5 and 1.92.33 (*SPUMB* 82, 188; *TO* 1.156 n. n; *MLC* 609; Ribichini and Xella 1984:271; see also *PTU* 172). It is possibly a title of Baal (*TO* 1.78; *CML*[2] 47 n. 1). Or, it is the name of Baal's attendant here as in 1.92.33 (so Dijkstra 1994:121; see also Ribichini and Xella 1984). Or, there may be a haplography here, masking the name Pidray: *pdr*<*y*>*.yd*ʿ, "Pidray he [Baal] knows" (de Moor 1987:4 n. 19). If the former is correct, it would be interesting that Baal bears a title related to the name of one of his women. While the verb presents no

etymological difficulties, the question of whether the knowledge is sexual (a sense of the word found in biblical and Akkadian texts; see Akkadian *idû* in *CAD I/J*:28) or merely cognitive, remains unclear from the broken context. Yet, as discussed above, a sexual interpretation of the phrase is plausible, and it may be noted that Baal's love for Pidray, Tallay and Arsay is the topic of the song being sung in 1.3 III 4–8 (the various synonyms here in parallelism, *yd//'ahbt//dd*, seem to be concrete in nature, i.e., love-making, and not simply abstracts for love; for discussion, see pp. 219–21). However, given the broken nature of the end of this column, all interpretations remain hypothetical.

The Meaning of the Banquet

Many interpreters (*MLC* 114) believe that the feast described in CAT 1.3 I celebrates Baal's victory over Yamm, an interpretation that argues for narrative continuity with 1.2. Others view 1.3 as a separate text providing a variant tradition regarding Anat, not related to the rest of the narrative concerning Baal (Fisher and Knutson 1969:162; Rummel 1981). Fisher and Knutson, followed by Rummel, argue that 1.3 I recalls the description of Baal in 1.101.4: which also celebrates Baal at Mount Sapan. However, the language and imagery of the two passages differ strikingly. 1.3 I marks a banquet celebrating Baal's status as "prince, lord of the earth", and in this respect it foreshadows the great feast in 1.4 VII, which marks the full recognition of Baal's sovereignty by the pantheon.

De Moor (*SPUMB* 40–43, 77–78; see Dijkstra and de Moor 1975:188) has emphasized an important verbal correspondence between 1.3 I 9, 18–22 and CAT 1.17 VI 26–33. This passage reads (cf. *CML*[2] 109; Dijkstra and de Moor 1975:187–88; Loretz 1979:462–68; de Moor 1979:643; Marcus 1972:82; *MLC* 377–78):

'irš ḫym l'aqht ġzr	"Ask for life, O Hero Aqhat,
'irš ḫym w'atnk	Ask for life and I will grant (it) to you,[35]

[35] For the language of request (**'rš*) in prayer, see 1.108.20. To request and to give (**ytn*) appear in Ugaritic letters (see also 5.9.7–16). Note also *miriltu* in a letter to the king of Ugarit (Arnaud 1991:219). Similarly, *mēreštu* used with *nadānu* in *CAD* M/II:22 (including letters); of the examples cited the closest seems: "The wish will be granted to him" (*mēreštum nadnaššu*; *ZA* 43 92:41). See also the correspondence from Ebla: "whatever desire you express, I shall grant and you, (whatever) desire (I express), you shall grant" (Michalowski 1993:13–14).

blmt w'ašlḥk	Non-death and I will bestow (it) upon you.
'ašsprk ʿm bʿl šnt	I could make you count the years with Baal,
ʿm bn 'il tspr yrḫm	You could number the months with the children of El.[36]
kbʿl kḥwy	Like a baal (lord)/Baal, when he is made alive,[37]
yʿšr ḥwy	The one made alive is served:
yʿšr wyšqynh	One serves and gives him drink,
ybd wyšr ʿlh	He chants and sings over him,
nʿm[n.? d/wy]ʿnynn	The pleasant one, [and he?] answers him (or: The singer [who is?] his servant?).[38]
'ap 'ank 'aḥwy 'aqht [ġ]zr	So I, too, could make you live, O Hero Aqhat."

As de Moor has recognized, the correspondences between 1.3 I 9, 18–22 and 1.17 VI 30–32 are unmistakable:

1.17 VI 30: *yʿšr wyšqynh*	1.3 I 9: *yʿšr wyšqynh*
1.17 VI 31–32: *ybd wyšr ʿlh nʿm[n.? wy]ʿnynn*	1.3 I 18–22: *qm ybd wyšr mṣltm bd nʿm*

The primary issue is the question of the significance of the correspondence. For de Moor, 1.17 VI 30 is an allusion to Baal's revival in 1.6 III–IV, and 1.17 VI 31–32 alludes to 1.3 I 9, 18–22. Anat claims to have the ability to give people life. De Moor assumes that the analogy drawn by Anat is between Baal and herself.[39] De Moor observes that

---

[36] Either singular or plural is possible. If the former, the reference could be to Baal as suggested by the parallelism, as N. Wyatt (personal communication) notes; the plural is the standard cliché, however. Note the prayer in 1.108 that ends in line 27: *w nʿmt šnt 'il*, "for the goodly years of El" (see Pardee 2002:195); comparison with the formulas in 5.9.1–6 suggest that this means *ʿd ʿlm*, "forever."

[37] The verbal forms of **ḥwy* are taken as *D*-stem passive forms. De Moor and Spronk takes these forms as active transitive and assume that Baal is the subject, but the absence of an object has been taken against this view (see van der Toorn 1991b: 46). Van der Toorn's translation of the occurences of **ḥwy*, "he comes to life" has difficulties. As Marcus (1972) shows, **ḥwy* in these cases is a *D*-stem (see the Ugaritic *D*-stem infinitive syllabic form *ḫu-PI-ú* = /ḥuwwû/ in Huehnergard 1987b:123; see also Sivan 1997:41, 169, 170). The translation, "comes to life," would not appear to be within the usage of the *D*-stem of this verb. Like other commentators, van der Toorn deletes *ḥwy* (before *yʿšr*) due to dittography. To be on the conservative side, it has been retained here.

[38] The reconstruction *[dy]ʿnynn* is suggested by Spronk. For **ʿny* in this sense, see KAI 202:2.

[39] See also Spronk 1986:152–54; Baldacci 1999 and ip. In contrast, van der Toorn suggests that the analogy may be drawn between Baal and Aqhat: in exchange for his bow, Anat promises to give to Aqhat the return to life commonly associated with Baal (see van der Toorn 1991b:46). Clemens (1993:66 n. 19; Clemens' underlining)

these passages presuppose on the part of the cycle's audience knowledge of its religious significance. But what significance was involved here? De Moor argues that the spirits of dead heroes and kings were revivified as part of a New Year's Festival, a view seemingly supported by the allusions to summer fruit in the so-called "Rephaim texts" (1.20–1.22).[40] However, the New Year festival is a matter of major debate, well beyond the scope of this study; suffice it to say that at best it is extremely hypothetical,[41] and it may better to avoid this particular designation in favor of a more general label of the fall harvest festival. Clearly 1.41//1.87 do not emphasize the first of the month, corresponding to the so-called "New Year," but the fifteenth of the month and the seven days following it, i.e., the period closer to the Israelite feast of Sukkot. Evidently, the brief ritual in 1.41//1.87.1–2 is prelude to the more ritually celebrated middle of the first month. This qualification does not detract from de Moor's basic insights. Finally, de Moor (*SPUMB* 43) reckons that the events of 1.6 were followed very shortly by those of 1.3 (for these issues, see *UBC* 1.7–8). Parenthetically, it is to be noted that 1.132, the ritual for "Pidray's bed with the king's covers" (Pardee 2002:97), may occur in the same ritual time in the autumnal harvest as 1.41//1.87. According to Pardee (2002:96), days three to five of 1.132 correspond to days three to five in 1.41//1.87. A maximal interpretation would see components of both royal resurrection and sacred marriage in the early fall as the ritual material that informed the presentation of Baal's feast in 1.3 I.

De Moor's theory requires a number of presuppositions that are open to question. The first is the presupposition that given the parallels to 1.17 V, the language of 1.3 evidences language of resurrection as such. However, we must reckon with the possibility that the verbal correspondences noted by de Moor may be a matter of set phrases reused in different ways in different contexts. One element in Anat's speech crucial to de Moor's interpretation has gone relatively unchal-

likewise takes the analogy to be drawn between Baal and Aqhat, with "the *reception* of life through Anat's intervention (cf. 1.5.VI–6.IV), to which the image of Baal *giving* life is foreign in this context."

[40] De Moor 1987:238–39. See also de Moor, *SPUMB* 42; and Spronk 1986:151–61.

[41] For problems in the evidence, see Marcus 1973b; Grabbe 1976; *UBC* 1.62–63, 99, 109. Despite difficulties, de Moor's understanding of the agricultural year is quite sensitive. For the putative biblical and Mesopotamian evidence, see van der Toorn 1991a. Loretz 1999 reviews the biblical evidence; see also Loretz 1990:96–109.

lenged, and that is the meaning of *bʿl* in Anat's speech. It is almost universally taken as a reference to Baal, laboring under the force of the doubtful theory of dying and rising gods (see J. Z. Smith 1989; M. S. Smith 1998a, 2001a:104–131, esp. 120–29; for criticism with respect to the so-called Sumerian evidence, see Fritz 2003; cf. works that presume the validity of the category, such as Mettinger 2001 and some essays in Xella 2001). Instead, *bʿl* in Anat's speech may just as easily refer to "a lord," more specifically a dead king. In support of this, one may note that *bʿl* in CAT 1.161.20, 21 seems to refer to the deceased king(s) invoked in the royal funerary cult (see Pardee 2002:114 n. 128). Accordingly, this may be the *bʿl* in Anat's speech who is alive and served. Thus the musical elements shared by 1.3 I and 1.17 VI may draw in a literary way from the royal cult.

De Moor (1982:8–9) may be correct in seeing the influence of the autumn on this column. In *UBC* 1.97–99, it is suggested that each major part of the Baal Cycle draws on elements in the early fall when the rainy season begins anew and the royal cult celebrated the summer harvest of the fruit, including grapes (the fall royal festival is reflected in the ritual text 1.41//1.87 and in the ritual with mythic narrative in 1.23; cf. de Moor 1972:13–24; del Olmo Lete 1999:39).[42] If 1.3 I truly describes the feast celebrating the victory described in 1.2 IV (so *UBC* 1.11), then 1.3 I belongs to the end of the first part of the cycle, and like 1.2 IV, this column draws on ritual elements known from the early fall. Indeed, it may be this dimension behind the text that best explains the great emphasis laid on the amount of wine consumed by Baal in 1.3 I. The suggestion of abundant wine likewise occurs in

[42] Note also the possible late summer/early autumn backdrop of 1.24: the name of the moon-goddess, Nikkal (< nin.gal, pronounced Nikkal according to *DDD* 783) wa-'Ib, "Great Lady and One-of-the-Fruit" (< *inbu*, "fruit"; see *DDD* 783); the title, *mlk qz*, "king of summer" (or "summer fruit") in lines 2, 17 and 24; and perhaps the metaphor of the vineyard in line 22 (for 1.24, see Theuer 2000:135–266, with full discussion and relevant bibliography). Curiously, 1.24 escapes de Moor's list of fall texts (de Moor 1987: "It seems likely that this text was used in connection with an ordinary wedding ceremony."). For a later association of fruit with the new moon (mentioned in lines 5–6 and 41), see also "Fruit" as a title of the moon-god Sin in NA and SB texts (*CAD I/J*:146, sub *inbu*, 1d; cf. the name of the tablet series, "the Fruit, lord of the new moon" mentioned also in *CAD A/2*:260, sub *arḫu*, 2a). It is to be noted then that the group of texts in 1.20–1.24 revolves around the fall harvest. For some biblical evidence concerning cultic contexts for grapes and wine in the fall, see Walsh 2000:167–92; the feast of Sukkot is addressed briefly on pp. 137–42. While some Egyptian and Mesopotamian evidence is brought into the discussion (Walsh 2000:21–27), the Ugaritic data go untreated.

1.23.6 (cf. the very difficult lines in 1.23.72–76). Following figures such as Gaster, de Moor is therefore to be credited with noting the connections between the late summer/early autumn and a variety of Ugaritic texts, including some passages of the Baal Cycle. By the same token, we would read the Baal Cycle as a literary text evoking and incorporating such seasonal themes, not as a liturgical or drama for cult. 1.3 I presents the victory-feast of the divine king. As the divine patron of the Ugaritic dynasty, Baal may have been expected to support the human monarch in battle (see *UBC* 1.114–18; see further for Mari, Guichard 1999). The post-battle feast may follow suit. Finally, de Moor's basic insight need not necessarily point to 1.3 as the initial tablet of the cycle (as he as well as Fisher, Knutson and Rummel argue), only that some prior religious material about Baal has been introduced into the literary presentation about the god in this context. Evoking the imagery of the same time of year, namely the autumn, the presentation of the Baal Cycle does not suggest a linear sequence based on meteorological imagery. Instead, it shows an impressionistic or perhaps kaleidescopic incorporation of natural and religious material into a great religious epic. Stated differently, out of liturgical experience came a brilliant piece of religious literature.

Textual Notes

Line 1. xx[ ]š̰ [ ] There are traces of the very bottom of the first letter on the line. The lower left tips of three short horizontals in a row seem to be preserved. This suggests that the letter is either an /n/ or a /d/. To the right are possible traces of the lower lines of two more horizontals, but these remain uncertain. The /š/ seems fairly certain, with parts of all three wedges visible.

Line 6. tḫṭṣ[ ] The /ḫ/ is assured by context, but damage to the letter obscures the upper two wedges. The final letter of this word is assured by context to be a /b/, but the damage on the tablet has removed all discernable traces of it, although one can easily see its general shape.

Line 7. l'i̊m The /l/ is fairly certain. Only the left two wedges have survived, but they are both thin, indicating that a third, thick wedge followed. The /'i/ is also damaged, with no trace preserved of the lower vertical. Context argues for the /'i/ rather than /h/.

ḫpy̰ The /y/ at the end of the line is uncertain. If it is /y/, then the left half has been preserved, and the right half could have been in the margin, which is broken here. But if that is the case, there is very little room to place a lost /m/ into the margin, as normally restored here. CTA 15, n. 2, may be correct in suggesting that the scribe

accidentally wrote only the left half of the /y/, so that the /m/ was placed in the now damaged margin. For the reading *ḫpy[m]*, see Pardee 1980:275 and KTU.

Line 8. š[ ]š There are no traces remaining of the letter (/p/) between the two /š/'s.

Line 9. r'i[ ] There are no traces left of the letter following /r'i/.

Line 10. qṣm̊ The /m/ of /qṣm/ is assured by context, but only the lower left tip of the horizontal is preserved.

Line 11. ǵrmn[ ] There are no surviving traces of a word divider after /ǵrmn/.

Line 12 l̊bmth The /l/ is assured by context. Only the right side of the right wedge is preserved.

Line 13. tǵl̊ The only trace of the /l/ at the end of the line is the interior of a long vertical wedge. There is certainly no room for an additional /l/ as proposed by CAT.

Line 14. bmm[There are no traces of the /ʿ/ proposed by CAT after /bmm/, though there is sufficient room for it in the break at the end of the line.

Line 16. mdnt All three heads of the wedges of *n* are visible along the lower line (cf. Pardee's reading *md'at*). The final /t/ breaks across the right margin into column III.

Line 19. bʿmq̇x The /q/ is certain, although most of the right wedge is lost in the margin depression. In the area between the two vertical margin lines is the right side of a large vertical wedge. It is not part of the /q/, but is very clear. Is it perhaps a word divider?

Line 21. t̲lḫnt The final /t/ is placed in the margin and intrudes slightly into column III.

Line 25. tǵdd CAT suggests that there is a /d/ underneath the /ǵ/. There are traces that resemble the heads of verticals to the left of the

upper diagonal of the /ǵ/, and perhaps a hint that the horizontal of the /ǵ/ may have had multiple wedges (i.e., was first the horizontal part of a /d/. But none of these potential traces is certain, and they may all be simple damage to the surface.

Line 26. İbẖ The /l/ is certain. A crack along the bottom of the letter makes it superficially resemble a /d/. The /h/ is also damaged. Only two wedges are visible here.

Line 28. mhrm The right wedge of the /r/ is significantly reduced in length in order for the scribe to get the final /m/ on the line. That /m/ is written with the horizontal running across the margin, and the very thin vertical actually in column III.

Line 30. ṯḫṭṣb Only the right tip of the first /t/ is preserved, but context argues for the reading. Most of the right side of /ḫ/is lost.

Line 31. ḇḇt The first /b/ is virtually destroyed, but a bit of the lower line is visible, and the upper right corner of the right vertical is preserved. Parts of all four wedges of the second /b/ are preserved.

Line 32. ẘlm Only the right wedge of the /š/ is preserved, but the reading is certain.

Line 33. [ ]t.ʿnt.ybmt. We see no traces of the /l/ which certainly began the line.

ʾuṩbʿth The /ṣ/ here is in a unique form, in which the left half of the letter has two wedges, while the right has the regular one vertical. This is presumably a scribal mistake.

lʾimm. The final /m/ of the line has been placed in column III. A word divider follows it to mark it off from the beginning of column III 37.

Line 34. [ ]ṙḥṣ̌ The /r/ is certain by context. Only the right wedge, and a possible right tip of a middle wedge have survived. The /ṣ/ is badly damaged, with the left wedge preserved along the left line, and only the upper right corner of the right wedge.

Line 35. [ ]ṣbʿth The indentation taken by CAT as a fragment of the /ʾu/ at the beginning of the line appears to be simply part of the crack.

Line 36. [ ]ʿr[ ] We see no traces of the /t̲/ proposed by CAT at the beginning of the line or of the word divider proposed for the space after /ʿr/. The /ʿ/ and the /r/ are damaged, but easily identifiable.

Line 37. l̊t̲lḫṅ The /l/ is certain from context. Only the right wedge of the letter survives. Both /ḫ/ and the /n/ are damaged, but certain. Context strongly argues that a /t/ has been left off the form, cf. Line 21.

Line 38. [ ]ḫ̊ṣ̊pn We see no trace of the first letter on the line (/t/ in CAT). The /ḫ/ is probable, although the lower left wedge, which distinguishes it from /ṭ/ is not definitely preserved (perhaps vague traces of the latter are visible, but this remains uncertain). The /ṣ/ is also badly broken, with only part of the left wedge preserved. But the width of the letter assures that it is not an /l/. The center of the /p/ is poorly preserved, but the letter is certain.

Line 39. [ ]l̊[ ] The beginning of this line is also badly damaged. We see no evidence of CAT's reading /ṭ/ at the beginning of the line. The first traces that do appear are two very poorly preserved verticals, which could represent /ṣ/ or /l/. Context argues for /l/. We see no trace of a succeeding word divider.

š̊mm The /š/is also uncertain. One can make out the bottom tip of the middle vertical and the right side of the right wedge.

Line 40. [ ]k̊b̊[ ] The outline of the /k/, though abraded, is substantially preserved. Only the right lines of the /b/ are visible, and thus the letter remains uncertain.

ʿrpt The upper lines of the /ʿ/ still survive.

Line 41. [ ]b̊[ ] The upper right side of a vertical wedge, joined to the upper part of a horizontal is preserved. Context argues for a /b/.

nskh The /n/ is certain. Traces of all three wedges are preserved, including the point at which the left two wedges meet, along with the right tip of the letter. The latter has been the basis for the reading *t* (Virolleaud, Gaster, Gordon [CTA p. 16 n. 4] and Pardee).

For parallels between this column and CAT 1.7, see Dijkstra 1983:26–28.

[1] It is evident from the form of the verb that it is not plural (which would be **kl'a*; see *UG* 466); it could be either dual or singular. Assuming that the verb's subject is "gate(s)", which stands in construct to the following noun (see n. 3 below), the verb could be either dual or singular. Pardee (1997c:250) and Tropper (*UG* 464) favor a singular here. Since a set of gates belonging to an entry to Anat's house makes good sense, Piquer-Otero (2003:206) prefers the dual. It is possible that an unnamed feminine singular agent is the subject of the verb, which would then be third fem. sg. active (see *ANET* 136; Pardee 1980:275). In contrast, Gordon (*UL* 17) had taken the form as the substantive "both." In this view, the syntactical connection of the clause to its context is unexplained.

[2] For the possible syllabic evidence of the word, see Huehnergard 1987b:188. For cognates, including loans into Egyptian, see Hoch 1994:273–74.

[3] The form without *-m* indicates that this noun stands in construct to the following name of the goddess, as recognized in particular by Ginsberg (*ANET* 136), Gordon (*UL* 17), Jirku (1962:27), and Pardee (1980:275; 1997c:250), followed by Smith (*UNP* 107). Several translations have taken the verb in the active voice with Anat as its subject (e.g., *CML*[2] 47; Dietrich and Loretz 1997:1137; Wyatt 1998:72; for a defense of this view, see *SPUMB* 89).

[4] For vocalization, see the syllabic form discussed in Huehnergard 1987b:161.

[5] Cf. the Ugaritic noun *miḫīṣi*, apparently a type of tool or weapon (Huehnergard 1987b:146). For the word, see further Heltzer 1982:123; and in addition to the standard lexica, see M. Cohen 1947:190, #469.

[6] The syllabic evidence (Huehnergard 1987b:160–61) militates in favor of this vocalization (cf. BH *'āmōq*) as opposed to *'imqu* (cf. BH *'ēmeq*).

[7] The sg. form appears as *qryt* in 1.14 II 28, IV 9 (*DUL* 715; *UG* 195, 291). For

this base of the noun, see also BH *qiryat* (*KB* 3.1142–43), Arabic *qaryat* (Lane 2988). The noun appears in a different base as *qrtm* in line 20 below. The root of the noun is evidently **qry*, "to meet," (see *BDB* 899, 900). This verb is attested in line 4 (see the poetic analysis for the additional discussion of this verbal connection).

[8] See the discussion of *ḫuppu*, "shore" (?), Huehnergard 1987b:129.

[9] For the vowel of the prefix of the *D*-stem **yqtl* indicative, see *UG* 544–46. Tropper would reconstruct /a/ for the first person sg. form, but /u/ for the other forms. Despite the comparative evidence in favor of /u/, the first person sg. form may reflect the prefix vowel operative in the other forms.

[10] The form is vocalized as suggested in *UT* 9.36, which describes geminate verbs in the *D*-stem prefix indicative vocalized with a long vowel in the second syllable; cf. BH prefix indicative verbal forms in comparable thematic usage in Judg 6:9 and 20:45.

[11] For the syllabic forms, see Huehnergard 1987b:119. Like other biconsonantal nouns lacking a corresponding verbal root in Semitic languages, this one may be traced back to an early, Afro-Asiastic stratum; see M. Cohen 1947:154, #335.

[12] For cognates, see *DUL* 559; Leslau 23; see also M. Cohen 1947:189, #467.

[13] For the syllabic form in Ugaritic, see Huehnergard 198b:175.

[14] For this verb (**šql*) and its *Gt*-form, see Gaster 1936:234; Greenfield 1979; *UG* 525; cf. Dietrich and Loretz 2000b:190 and *DUL* 699, who take the form as the *Št*-stem of **qyl*. Pertinent to the latter etymology, the *C*-stem of **qyl* means, "to cause to fall" in 1.17 VI 43–44 when Anat threatens the life of the hero Aqhat: *bnth g'an 'ašqlk*, "on the path of rebellion I will bring you down." In a different context, 1.22 I 12–13//1.4 VI 40–42, the *C*-stem of **qyl*//**ṭbḫ* are used for slaying animals. The form *yšql* is also used for trimming vegetation in 1.23.10. These usages undermine a posited *Št*-stem of **qyl* as a verb of locomotion. If a *Št*-form were involved, the semantics would approximate better what *DUL* 699 cites as *ql* II (< **qll*, "to go quickly, run").

[15] For a recent discussion of cognates, see Mankowski 2000:51–52, especially for the issue of initial *h-* in West Semitic forms versus Akkadian *ekallu* < Sum É.GAL. As opposed to the well-known view that Akkadian *ekallu* (derived from Sumerian E.GAL) was the source for the West Semitic forms, the initial *h-* in the West Semitic forms does not comport with a borrowing from Akkadian into the West.

[16] For this form, see *DUL* 715, *UG* 189 (including *qa-ri-t/u*$_4$*/*] in an *Ugaritica V* polyglot, discussed also in Huehnergard 1987:175). For the base of this form, see also Ph *qrt* (*DNWSI* 1037), BH *qāret* in Prov 8:3, 9:3, 14, 11:11 (Ginsberg 1973:134 n. 19). Cf. above in line 7 for the same word with a different nominal base (*qrytm*). For another noun with this same base as *qrt*, see *ḥmt*, "wall" (for discussion, see Huehnergard 1987b:125).

[17] See Emar *kissû* (Fleming 1992:258–59) and BH *kissē'*. For discussion of the word with cognates, see p. 291 below.

[18] Cf. BH *hādôm*; Egyptian *hdm*/Demotic *htm*; see Hoch 1994:221–22; and possibly Hurrian *atmi* according to Watson 1996; *DUL* 335. See also Watson 2000a:569.

[19] With the *'i*-aleph evidently closing the syllable, the word might be vocalized *ma'da* (cf. syllabic **ma'du* (?), discussed in Huehnergard 1987b:144; Sivan 1997:64).

[20] For cognates, Akkadian *kabattu*, BH *kābēd*, Aramaic *kabdā*, Arabic *kabid* (*kabd-*, *kibd-*), see *DUL* 425–26 and Pentiuc 2001:93. See further the discussion below.

[21] In addition to the well-known cognates (e.g., BH *lēb, lēbāb*, Akkadian *libbu*, Arabic *lubb; DUL* 489), see Leslau 304–5. For possible cognates in Egyptian and other African languages, see *UT* 19.1348; M. Cohen 1947:18, #443. See further the discussion below, especially Excursus I.

[22] Given the plural with *-t* in line 36, this form is apparently dual (so Sivan 1997:80). If correct, the use of the dual form perhaps is driven by the parallel image in lines 19–20, where "valley" in line 19 is paralleled by "house" in line 29, and the dual, "two towns" (line 20) is paralleled by the dual "two tables" (line 30).

[23] So *UG* 512, 668.

[24] For the syllabic evidence, see Huehnergard 1987b:170.

[25] For the first /i/, cf. West Semitic *li-me-ma* ("peoples") in EA 195:13, and Moran 1992:273 n. 2). For the second /i/ (unless the plural is unexpectedly not a "broken plural," hence ***li'mīma*, also in accordance with the rule of the three alephs and owing to vowel harmony found in words with alephs), correcting *UBC* 1.196. As indicated by the discussion of the word in *UBC* 1.196 n. 149 (see further below), the word may be narrower in meaning, designating a "clan."

Commentary

Poetic Parallelism and Word/Syllable Counts

		semantic parallelism	word/ syllable count
2–3	kupru šab‘i binâti	a b	3/7
	rīḫi gadīma wa-’anhibīma	a’ c	3/10

Differences over interpretation of these lines make discussion of poetic parallelism somewhat precarious, except for sonant parallelism. The last word in each line contains the consonants *b* and *n*, preceded by a gutteral.

3–5	kula’tā ṯaǵarātu bahati ‘anati	a b c	4/13
	wa-taqriyu ǵalamīma bi-šiti *ǵāri*	d e f	4/13

Despite the highy divergent syntax of the two lines, some resonance between them is evident in *bahāti* and *bi-šiti* (*b* plus final cluster *-ti*) and *‘anati* and *ǵāri* (gutteral plus medial *a* vowel and final *-i* ending). The lines are also balanced in length.

5–7	wa-halluna ‘anatu timtaḫiṣu bi-‘amuqi	a b c d	4/15
	tiḫtaṣi[bu] bêna qiryatêmi	c’ d’	3/10

[26] Beyond well-known cognates (e.g., BH *mayim*), see Leslau 376. Like other biconsonantal nouns lacking a corresponding verbal root in Semitic languages, this one may be traced back to an early, Afro-Asiastic stratum; see M. Cohen 1947:191–92, #485. The *-h* in the Ugaritic form may reflect an expansive element (cf. medial *-h-* in plural forms of weak nouns, see Huehnergard 1987a:182; *UBC* 1.235 n. 29).

The syntax of the second line, namely main verb plus prepositional phrase closely follows, and is dependent on, the first line's syntax involving: *w-* + presentative particle + subject + main verb + prepositional phrase. Despite a longer prepositional phrase in the second line than in the first, the first line remains quite a bit longer in both the number of words and syllables. Some sonant parallelism may be detected: the verbs share a number of consonants (due to both the root letters and the infixed *-t* of their *Gt*-stem form) as well as vowels (the latter due to morphological parallelism of these verb forms); and the final word in the two lines both contain *m* and *q* in addition to the final case ending. A final note: the last word in this bicolon, *qrytm*, picks up the verb *tqry* in the preceding bicolon. Accordingly, Anat's fighting in the area of the two cities (*qrytm*) may be seen as developing the action of her meeting (*tqry*) her retinue at the gate. Given the disparity of line-length, one might suspect anacrusis in *whln*.[27]

7–8	timḫaṣu lu'ma ḫuppi ya[mmi]	a b c	4/9
	taṣammitu 'adama ṣi'ati ša[p]ši	a' b' c'	4/12

The syntactical parallelism is closely matched in this bicolon. As a result, the vowel endings of the four words in the two lines are the same (as is the initial consonant of each of the two lines). The semantic parallelism is likewise precise. On the whole, the letter *m* dominates both lines and thus further binds them. Another consonant, *p*, also appears in both lines. Taken cumulatively, the bilabials are particularly pronounced in this bicolon.

9–11	taḫta-ha ka-kaddurāti ra'[šu]	a b c	3/10
	'alê-ha ka-'irbiyīma kappu	a' b' c'	3/10
	ka-qaṣamī ǵarimānū kappū mahīri	b'' c''	4/13

The parallelism of this first tricolon in the column is marked first syntactically: prepositional phrase (referring to the goddess' body) + prepositional phrase of comparison + subject in the first two lines, extended in the third line by a longer comparative phrase + longer subject. The terms of comparison are likewise parallel in content in the second and third lines: *kp* is compared with some aspect of locusts.

---

[27] See the discussion of *'any* in the lacuna before 1.3 IV 47 (below on p. 287).

11–13	ʻatakat raʾšāti lê-bamati-ha	a b c	3/11
	šannisat kappāti bi-ḫabši-ha	a' b' c'	3/10

These two lines, matched closely in length, show significant syntactical and morphological parallelism, which issues in a notable degree of sonant parallelism. Otherwise, sonant morphology is not particularly heightened. Yet *k* and *t* in *ʻatakat* and *kappāti* and *š* and *t* in *raʾašāti* and *šannisat* produce striking instances of sonant chiasm.

13–15	birkama taġalli[lu] bi-dami ḏamiri	a b c	4/13
	ḫalqa-ma bi-mam[ʻî] mahīrīma	a' c'	3/10

Again morphological and syntactical parallelism is striking in this bicolon, perhaps accentuated by the fronting of the goddess' body parts in each line. The consonant *m* heightens the sonant parallelism of the lines, and in conjunction with the consonant *b* used three times, all in initial position, the lines show a particularly strong bilabial effect (cf. the bilabials in lines 7–8 above). Also notable within each line is the alliterative wordplay in the syntactically parallel prepositional phrases: *dami ḏamiri//mam[ʻî] mahīrīma*.

15–16	maṭṭî-ma tagarrišu šabîma	a b c	3/10
	bi-kisli qašti-ha madanati	a' c'	3/10

The lines here are the same length, and the parallelism closely follows suit. The single departure in the syntactical parallelism, created by the fronting of the prepositional phrases, focuses attention on the semantic parallelism.

17–18	wa-halluna ʻanatu lê-bêti-ha timġayuna	a b c d	4/15
	tištaqilu ʾilatu lê-hêkali-ha	d' b' c'	3/12

The parallelism on all levels is tightly maintained, and perhaps heightened by the chiasm between the subjects and the verbs (Watson 1994b:314). Apart from the sonant parallelism generated by morphology, the repetition of *l* in the two lines is notable. If *wa-halluna* were regarded as an instance of anacrusis, the two lines would yield parallelism of a b c//c' a' b' as well as closer counts of 3/11 and 3/12.

19–20	wa-lā-šabaʻat tamtaḫiṣi-ha bi-ʻamuqi	a b c	3/14
	taḫtaṣibi bêna qarîtêmi	b' c'	3/10

See lines 5–7 above for similar parallelism and line-length. The main difference involves the initial element in the first line that governs the two *Gt*-stem forms. The new element contributes no further parallelism of great significance (though note the main verbs' minor addition of final *-t* to the initial *t-* of the two *Gt*-stem verbs).

20–22	tiṯ‘aru kissi’āti lê-mahīri	a b c	3/11
	ṯa‘āru ṯulḫanāti lê-ṣaba’īma	a’ b’ c’	3/12
	hadāmīma lê-ǵazarīma	b’’ c’’	2/9

This tricolon shows the sequence of **yqtl* followed by infinitive absolute of the same root (Loewenstamm 1969a). More pronounced over the three lines is the parallelism of direct objects (all furniture) and of prepositional phrases (all terms for soldiers).

23–24	mu’da timtaḫṣuna wa-ta‘înu	a b c	3/10
	tiḫtaṣibu wa-taḥdiyu ‘anatu	b’ c’ d	3/11

Apart from the fronted adverbial accusative, the parallelism is tight (as is the line-length): *Gt*-stem **yqtl* verb (of battle) + *w-* + *G*-stem **yqtl* verb (of vision). A particularly strong sonant parallelism marks the end of the two lines: the final verb of the first line shares all the same consonants as the goddess' name at the end of the second line. Watson (1986a:159) observes that the root **ḥdy* may also mean "to rejoice," and so he proposes that it may form here a case of "Janus parallelism" with the following lines. However, Noegel (1995:91–92) has argued that Ugaritic maintains a clear distinction between **ḥdy*, "to see, gaze," and **ḫdw*, "to rejoice." For this reason, he rejects Watson's proposal for Janus parallelism here. In Watson's defense, it is to be noted that **ḫdw* is not clearly attested in Ugaritic. The citations by Gordon (*UT* 19.933) for this root, on whose work Noegel depends for this point, in fact do not exist in the texts, and neither *DUL* nor *CPU* has an entry for this root (apart for possibly related PNs). Despite the separate etymological origins of the two roots, as correctly noted by Noegel, it is not clear that Ugaritic maintained a clear distinction between them.

25–27	taǵaddidu kabidu-ha bi-ṣaḥqi	a b c	3/11
	yimla’u libbu-ha bi-šimḫati	a’ b’ c’	3/10
	kabidu ‘anati bi-tušiyati	b d c’’	3/11

The parallelism is very similar to what is contained in lines 20–22: two parallel verbs in the initial two lines, plus parallel subjects (in this case both body parts, both containing (*b*), followed by prepositional phrases (referring to the goddess' reaction, all with a sibilant) in all three lines. The words *kbd* and *lb* form a standard word-pair in Ugaritic, Akkadian and Hebrew (Avishur 1984:562–63). Watson (1994b:193) notes the gender-matched parallelism of *kbd* (feminine) with *lb* (masculine), as suggested by the gender of the verbs. Although the name of the goddess in the third line is marked as "d" in the sigla above, it is parallel to the pronominal suffixes on the body-parts in the first and second lines. The name of the goddess may be viewed then as a delayed referent of these pronominal suffixes. Noegel (2004:11–12) notes the presence of what he calls a "geminate cluster," consisting of *tǵdd* in this unit and *tǵll* and *mmʿ* in the following unit.

27–28	birkama taǵallilu bi-dami d̲amiri	a b c	4/13
	ḫalqa-ma bi-mamʿî mahīrīma	a' c'	3/10

See the same bicolon in lines 13–15 above.

29–30	ʿad tišbaʿu tamtaḫiṣi bi-bêti	a b c	4/11
	taḫtaṣibi bêna t̲ulḥanêma	b' c'	3/10

Relative to the similar bicolon in lines 19–20, the additional element of a preposition in the first line contributes nothing to the sonant parallelism and only slightly to inner-line alliteration (with *tišbaʿu*).

30–32	yumaḫḫu bi-bêti damu d̲amiri	a b c	4/11
	yuṣṣaqu šamnu šalāmi bi-ṣaʿi	a' c' b'	4/11

Despite the lack of semantic parallelism compared to most cola in this column, the line-length and syntactical and morphological parallelism—including the chiasm of subjects and prepositional phrases—match closely. The consonant *m* is further evidence of general sonant binding between the two lines, in contrast with the alliteration of word-initial *d* in only the first line and the alliteration of word-initial *š* in only the second line.

32–33	tirḥaṣu yadê-ha batu[la]tu ʿanatu	a b c	4/13
	ʾuṣbuʿāti-ha yabimtu liʾimīma	b' c'	3/12

Although the first line contains one more word than the second line (the initial word, a verb that governs the rest of the bicolon), the latter contains some longer words, which help to balance out the line length of the bicolon. The parallelism is close on all levels except for sonant parallelism, which is generated mostly by shared morphology. However, the sonant parallelism of *ʿ* and *t* in *ʿanatu* and *ʾuṣbuʿāti* and of *b* and *t* in *batu[la]tu* and *yabimtu* may be noted.

34–35	[ti]rḥaṣu yadê-ha bi-dami d̲amiri	a b c (x of y)	4/12
	[ʾu]ṣbuʿāti-ha bi-mamʿî mahīrīma	a' b' (x of y)	3/12

The same syntax of the same verb and direct objects of the prior bicolon carry over into this bicolon. This bicolon reintroduces prepositional phrases paralleled in the bicolon in lines 27–28 (see also the discussion of the poetic features in lines 13–15 above).

36–37	[t̲a]ʿāru kissiʾāti lê-kissiʾāti	a b c	3/12
	t̲ulḥanāti lê-t̲ulḥanā<ti>	b' c'	2/8 <9>
	hadāmīma tit̲ʿ(!)aru lê-hadāmīma	b" a' c"	3/12

The progression dictated by the terms of furniture provides overall balance. The inversion of order of verbal forms, infinitive absolute + **yqtl* indicative (see Loewenstamm 1969a), suggests a thematic reversal (APO), namely that the usage of these verbal forms relative to the same forms in lines 20–22, perhaps suggests the return of the furniture to its proper place. In the third line, the position of the verbal form in second position is unusual; if it were to be omitted (as a dittography?), it would provide better balance in line-length with the preceding line.

38–40	[ta]ḥsupuna maha wa-tirḥaṣu	a b c	3/10
	[t̲a]lla šamîma šamna ʾarṣi	b' [x of y] b" [x' of y']	4/9
	rabība [rā]kibi ʿurpati	b'" [= x" of y"]	3/9

The second and third lines develop the theme of the "water" introduced in the first line. As such, the latter two lines provide a list of standard forms of precipitation that the more general term "water" may assume. The Ugaritic word-pair *ṯl//rbb* is attested elsewhere (1.19 I 44–46; see Avishur 1984:57). The use of a "list" here constitutes a less common form of parallelism. The tricolon demarcates the first line from the rest by "front-loading" the two verbs there, rather than placing them

in parallelism as expected, and then by presenting the list of objects in the second and third lines.

40–41	ṭalla šamûma tissaku-ha	a b c	3/9
	[rabī]ba nasaku-ha kabkabūma	a' c' b'	3/11

The parallelism for continuing the description of precipitation, *ṭl//[rb]b*, uses a well-known syntax of direct object followed by asyndetic relative clause consisting of subject plus verb (with resumptive object suffix). As a result, the bicolon shows parallelism on all levels, with the added feature of chiasm of elements in the relative clauses. The verbs are parallel in that they belong to the same root, with the **yqtl* form paralleling the **qtl* form, as noted by Held (1962). Finally, some sonant quality (beyond what is generated morphologically) is evident in the bilabials.

Introduction

Following a long lacuna of about twenty-five lines and an unintelligible first line, the text opens with the end of a scene. Lines 2–3a refer to cosmetics. One of these terms, *'anhbm*, appears in Anat's application of make-up later in 1.3 III 1–2 (Pope 1977b:353). Perhaps the scene in part of the lacuna preceding II 2–3a and the scene in II 30b–III 2, in which Anat and her palace are cleansed from the gore of battle, were intentionally designed as a contrasting envelope to surround the violent battle scene of lines 3b–30a. Anat's conflict with her enemies is clearly the central element of this part of the story. Two battles are depicted here, in lines 3b–16 and 17–30.[28] Thus, if correctly understood, this section may be divided into four basic parts:

A	Anat's self-cleansing	?–II 3
B	Anat's bloody fighting	II 3b–16
B'	Anat's slaughter of captives	II 17–30a
A'	Anat's self-cleansing	II 30b–III 2

The two-part structure exemplified by the central battle scene (B and B') is a feature common to poetic narrative in the Baal Cycle. It is

[28] One may note that the two battle accounts have coalesced into a single one in 1.7.1–9.

found several times in speeches and in their narrative implementation (1.2 I; 1.3 VI–1.4 I and 1.4 VIII; cf. 1.5 I) and also in straight narrative passages similar to the one here. In 1.2 IV the battle between Baal and Yamm is also divided into two parallel parts. Two-part speeches are linked by a standard expression, *'ap mṯn rgmm 'argm*, "also on a second subject I would speak," a line found in 1.3 IV 31–32 and 1.4 I 20 (see also 1.17 VI 39; Smith 1985:290). The longest two-part section in the Baal Cycle is perhaps the parallel narratives detailing first Anat's quest for El's permission for Baal's palace (1.3 III–V) and then Athirat's more successful effort toward this goal (1.3 VI–1.4 V). The two parts also correspond to the two elements that are common in descriptions of *ḥerem* warfare, discussed below.

Lines ?–II 3

The first item in lines 2–3, *kpr*, has been identified as *lawsonia alba/inermis*, a fairly large shrub that can grow up to ten feet in height. It was (and is) common in the Levant and has been used as a hair dye (Pope 1977b:352). In English this dye is known as henna (see *ANET* 136; *Thespis* 236; *CML*[2] 47; Pardee 1997a:250). The root appears in Song of Songs 1:14 and 4:13 as a perfume (*Thespis* 236; Pope 1977b:352; Brenner 1982:153). Whether or not the West Semitic root is related to the word for the reddish metal, copper, is debatable (Lambert 1991:186 n. 13). In line 2 *kpr* may stand in construct with *šb' bnt*, "of seven girls," perhaps as a reference to a great amount (Kapelrud 1968; Pardee 1997a:250; cf. the temporal use of "seven times" in the Amarna correspondence meaning "over and over" (Moran 1992:xxx n. 85); and "seven roads" in Deut 28:7 meaning all sorts of directions. Or, *šb' bnt* could form an asyndetic relative clause meaning "(which) gratifies girls" (Pope 1977b:353). Or, *bnt* may refer to tamarisk (see Wyatt 1998:72 n. 15, citing Akkadian *bīnu* and Syriac *bīnā*, "tamarisk"). De Moor (1987:5) understands seven girls to be the ones putting the cosmetics on Anat.

Line 2 mentions a further term, *gdm*. It is often considered to be coriander, based on the parallel occurrence in 1.23.14 (there formerly thought to be a "kid," with its mother's milk as in Exod 23:19; 34:26; Deut 14:21; see Haran 1978, 1985; Keel 1980; Milgrom 1985; Ratner and Zuckerman 1985, 1986; and Smith 2006: 52–57). Pope (1977b:353) renders "smell of musk for *rḥ gdm*, which perhaps captures better the sensual appeal of the words. Similarly, de Moor (1968:214 n. 5) prefers saffron for *gdm* (though this word in Arabic is written with *ghain*).

The first word in line 3, *'anhbm* (1.3 III 1, IV 45), is "murex," or perhaps better the shell containing the purple snails producing the murex (de Moor 1968:213–14: *TO* 1.157 n. e; *DUL* 78–79). Akkadian *yānibu* (cf. *aynibu, nibu*) is not only a stone, but perhaps also a type of shell (Oppenheim 1963; *CAD I/J*:322; *AHw* 411). Schaeffer (1929: 290, 293, 296; 1938:38; *PRU* II, pl. XIV; see below the discussion of 1.3 III 1–2) reported that at Minet al-Beida, Ugarit's port, mounds of crushed murex shells accumulated prior to the sixteenth century (see McGovern and Michel 1984). The Phoenician purple dye industry was well known to later classical authors (Jensen 1963:105). The Ugaritic word has been compared with Arabic *nahaba*, "to plunder, take booty," in accordance with statements by classical authors who describe the murex as a carnivorous and gluttonous shell-fish (so de Moor 1968:215; cf. Renfroe 1992:80–81). While the purple was used principally to dye textiles, the Romans also used it for face paint and hair dye. The murex produces shades not only of purple, but also deep blue, red and black (Jensen 1963:109–14). Red ocher for human skin decoration seems to be very old; it has been detected at a number of Neanderthal sites (H. E. Fisher 1992:244–45). Its meaning would presumably vary within different cultures. Anat's cosmetics in II 2–3 appear to be a prelude to battle. Pughat likewise reddles herself with murex before avenging the death of her brother, Aqhat (CAT 1.19 IV 42). It is possible that Pughat's beautification may be in imitation of the murderer's boss, Anat herself.

Lines 3–16: Anat's Battle

In the battle section of lines 3b–16, Anat fights in a valley at the foot of her mountain. This section shares some thematic material with the next section; the overlapping material helps to show a frame around the battle proper (as discussed below in the treatment of lines 17–30, this overlap likewise frames the "battling" in that section). The battle proper is framed first by the action of Anat's movement with respect to her house/palace in lines 3b–5a and 17 (A and A') and highlighted by the use of *hln*, "and then," in lines 5b and 17 (B and B'). The battle proper stands at the center of the section (C). Taking into account the parallel bicola of lines 3b–5a and 17–18, the whole might be diagrammed accordingly:

A	Anat proceeds from her house	lines 3b–5a
B	*whln*	line 5b
C	battling enemies	lines 5b–16
B'	*whln*	line 17
A'	Anat proceeds to her house	lines 17–18

The battle itself in lines 5b–16 shows a basic balance: Anat's battling in lines 5b–8 and gleaning for captives in lines 13b–16 on either side of her attaching of body-parts to herself in lines 9–13a.

The description as a whole shows an integrated sequence of verbal clauses and repetition of nouns. Lines 3–5 open the narrative sequence with a transition from the prior action in lines 2–3 marked by the verb **kl'at*. Piquer Otero (2003:207; cf. *UG* 692) would view *kl'at ṯġrt bht ʿnt* as the logical protasis to the second line of the bicolon, *wtqry ġlmm bšt ġr*, with *wtqry* beginning the narrative sequence. It is also possible that *kl'at* initiates the sequence of **yqtl* verbs, beginning with *wtqry* (this reading conforms more closely to the bulk of **yqtl* verbs preceded by *w-* in Piquer Otero's analysis, as discussed above on pp. 24–5). In either reading, the bicolon of lines 3–5 initiates the narrative sequence. The two following bicola in lines 5–8 continue the narrative sequence with four **yqtl* verbs. The only significant departure involves *w-* + the presentative particle *hln* at the beginning of the sequence; this addition is to provide a dramatic foregrounding for Anat and her battling. What follows in lines 9–13 is a description of the results of the actions in lines 5–8, as indicated by the departures in syntax. The tricolon of lines 9–11, a series of nominal clauses, describes the results of Anat's battling. The bicola in lines 11–15 elaborate two resulting actions stemming from the situation described in lines 9–11. First, the bicolon of lines 11–13 with its switch to **qtl* verbs, describes what Anat does with the heads and hands introduced in lines 9–10 (see Greenstein 2006:92). Second and parallel, the bicolon of lines 13–15 with its switch in syntax to **yqtl* clauses fronted by adverbial accusative nouns, explains what Anat does finally with the warriors first introduced in line 11. The repetition of the nouns in particular suggests this reading of lines 11–15 as actions stemming from the situation presented in lines 9–11: *r'iš//kp* in lines 9–10 is followed by *r'išt//kpt* in lines 11–13, and *mhr* in line 11 is followed by *ḏmr//mhrm* in 13–15.[29] Lines 15–16 mark a shift in

[29] For the variation of *'aleph* in the spelling of *r'iš* and *r'ašt*, see Sivan 1997:63; *UG* 295, 299. Dahood (1965:37) compared the collective use of Ugaritic *r'iš* with the BH *rō'š* attested collectively in Num 24:18; Hab 3:13; Pss 68:22, 110:6; Job 22:12.

perspective. Anat turns from the dead to the living. The weapons are fronted before the verb in this bicolon, perhaps as a rhetorical means to highlight the goddess' victory over the living. The **yqtl* form of the verb *tgrš* would suggest narrative continuity from the **yqtl* verbs in lines 7–8, themselves following the verbs in lines 5–7.

The battle scene opens in line 3b with a bicolon locating the action in the environs of Anat's house. The "house" here may presuppose the image of a fortified palace located on top of the mountain at the base of which (*bšt ġr*) the battle takes place. The word *ġr* may compare possibly with ESA *ġr* and BH *ʿār* in Num 21:15, Deut 2:18, 29, etc. (see *KB* 2:876), and perhaps not, as commonly assumed, with BH *ṣûr* and Aramaic *ṭûrā*.[30] Anat's mountain is named in other passages as *ʾinbb* (1.1 II 14; 1.3 IV 34; 1.13.9, 32; 1.100.20; *CML*2 47 n. 3; *CMCOT* 86–87) and perhaps *ʾuġr* (1.3 IV 34, but see Wyatt 1998b:82 n. 58).

The theme of the divine dwelling on a mountain is well attested, both at Ugarit (especially, of course, Mt. Ṣapan) and in the Hebrew Bible (Exod 15:13, 17–18 and Ps 48:2–3). De Moor (1987:5 n. 25) suggests that the names Inbb and Uġr refer to Ugarit and its harbor "in mythological disguise." This is unlikely, however, since the name Inbb appears not just in mythological texts, but as a genuine, terrestrial location, clearly not Ugarit, in 1.100.20. In this way it is similar to Mount Sapan, which is also described as a mythic location and as the terrestrial mountain, Mt. Cassius, several miles north of Ugarit. Anat is also referred to occasionally as Anat of Ṣapan, suggesting either that she is sometimes viewed as living on the same mountain as Baal, or that her mountain is in the same mountain range covered by the term Ṣapan (CAT 1.46.17; 1.109.13–14, 17, 36; 1.130.26; Pardee 2002: 26–33). The iconography of the storm-god shows him standing on top of his mountain (for discussions, see *EHG* 54, 73 n. 86; Dikjstra 1991; for seals from Ugarit and Emar, see Beyer 2001:48–49, 301, 302, A3).

In line 4, *bht ʿnt* is a construct phrase (the absolute form elsewhere being *bhtm*). Therefore, Anat is not the subject (cf. *UG* 464, 622); instead, the verb is evidently passive (*ANET* 136; Pardee 1980:274–5). Anat's two gates or double-gates are said to be closed or bolted shut. The final *-t* of the **qatala* form would suggest a singular or dual subject (*UG* 463) and the form of the noun may be construed as dual (cf. singular *ṯġr*), as recognized by Piquer Otero (2003:206–7). In BH, the root **kl'*

[30] See *UBC* 1.173 n. 108. For a proposal to interpret *ṣrrk* in Ps 8:3 as the divine stronghold, and as cognate with *ġr/ʿr*, see Smith 1997:640–41.

means to "shut up, restrain, withhold" (see *BDB* 476; *DCH* 4:413). It also appears with the word, "house," as in the phrase *bêt (hak)kele'* in 1 Kgs 22:27//2 Chron 18:26, 2 Kgs 17:4, 25:27, Isa 42:7, but this expression refers to a prison (as in Akkadian *bīt kīli*; see *BDB* 476). The palace gate is a point of departure to battle or returning from it (cf. Ps 24:7–10; Ezek 44:2; cf. Ps 118:19–20) and a site for conflict itself (Judg 5:8, 11). The latter motif is an old one in Mesopotamian literature as well, as illustrated by the following speech pronounced by the divine warrior Nuska in a fragment of the Assyrian recension of Atrahasis (2:15–17//25–27; Lambert 1980:73):

> Who is responsible for battle
> [Who is responsible for hostilities]?
> Which is the god who has started [war],
> So that battle has come up to [my gate]/the gate of Enlil?

Like the palace of Anat, the house of Kirta has a gate (1.16 I 52, II 26). One may wonder if the goddess' gate in this literary context reflects an older or contemporary ritual notion of the goddess exiting her temple gate in order to begin ritual combat against her enemies? (For general considerations of this sort, see Kilmer in Barnett 1981:20.)

The foot of the mountain is the site where Anat meets the figures called *ǵlmm*, presumably her retinue, since her foes appear in lines 7–8 (see Pardee 1997a:250 n. 72). The term **ǵlmm* is used for Baal's retinue in 1.5 V 9. Perhaps comparable is Emar 370.90' (Fleming 1992:213) where the warrior-goddess Astarte is the recipient of ritual obeisance: "The men of battle wi[ll fall] at her feet" (LÚ.MEŠ *ta-ḫa-zi a-na* GÌR.MEŠ *ša i-[ma-qu-tu]*). Fleming (1992:213 n. 29) raises the question of whether the priests who accompany the ark into battle in Joshua 3 and 1 Samuel 4 represent a similar sort of ritual personnel. In these cases, the ritual personnel may reflect a mythological notion of the deity's retinue. The verb, *tqry*, "she meets," appears in a context of violence in 1.17 VI 43–44 when Anat threatens the life of the hero Aqhat: *hm l'aqryk bntb pš[...] bntb g'an 'ašqlk*, "if I meet you on the path of transgression ... on the path of rebellion I will bring you down" (Gray 1979b:317 n. 10; for **qry*, see *DUL* 714 and Hoch 1994:296–97, including West Semitic loans in Egyptian). Both here and in 1.3 II the word seems to signal an aspect of conflict on the goddess' part, anticipating the destruction to come. Yet in the immediate context the root refers to the goddess' retinue joining her.

The battle scene depicts Anat at her most savage. Her propensity toward violence and warfare is a consistent theme of the mythological texts. In 1.1 III 19–20, 1.3 III 14–17 and IV 8–10, she is commanded by Baal to desist from war. In 1.6 II Anat kills and dismembers Mot, the god of death and enemy of her beloved brother Baal. In 1.3 V 24–25 and 1.18 I 11–12 she threatens to beat El's head to a bloody pulp. In 1.18 IV she arranges for Aqhat's death. She describes her conflicts with a number of divine enemies in 1.3 III 38–46. A brief description of a similar battle is found in 1.83 (on these passages, see Pitard 1998). Her portrayal as a warrior goddess extended far beyond Ugarit and is attested in texts from Egypt to Mari. Anat's popularity in New Kingdom Egypt has left some traces. To what is noted in the discussions above, the following may be added: the PN Anat-em-nekhu, "Anat is a Protection"; an Egyptian stele depicting Anat carrying a spear; and a description from a papyrus, in which she is called, "Anat, the goddess, the victorious, a woman acting (as) a man [i.e., a warrior], clad as a male and girt as a female" (*ANET* 250, esp. nn. 18 and 21; see Stadelmann 1967:91–96). Beth Shean stratum V yielded an Egyptian stele dedicated to Anat (Rowe 1930:pl. 50, n. 2; 1940:33–34, pl. 65a, no. 1). In addition, the dedication at the outset of a Phoenician-Greek bilingual text from Lapethos in Cyprus (*KAI* 42:1) refers to *ʿnt mʿz ḥym*, which may be rendered either "Anat the stronghold of life" (so *DNWSI* 668), or "Anat, strength, life," which would be more proximate to the Greek text, *Athēna Sōteira Nikē*, literally, "Athena, Savior, Victory." For Anat in other sources, see *DDD* 36–43.

The etymology of the name Anat is ambiguous. Lambert (1988:132, following an older proposal in *RLA* 1:104–5, cf. *DDD* 36, 39–40) argued that the name is to be identified with Ḫanat, a goddess mentioned in the Mari archives as a goddess of the Amorite group, the Ḫanaeans. From the Mari evidence Lambert deduced that Anat was originally an Amorite deity.[31] This seems plausible. The same could be suggested concerning Baal (see *UBC* 1.112–13; for linguistic discussions of Ugaritic in this direction, see Greenfield 1969b and Israel 2003). It remains only to be said that even assuming the validity of Lambert's identification of

[31] Lambert (1985a:526 #14, 534) also notes a city in the Mari texts called ^{d}Ḫa-na-at^{ki}, located some 125 km south of Mari, and connects it with the Ḫanaean goddess. P. L. Day (*DDD* 43), however, notes a glitch in Lambert's theory, namely that the city of Ḫanat was not located in primarily Ḫanean territory. A city of Anat is also attested in the Emar tablets (Bassetti 1996).

Anat with Ḫanat, the issue of the etymology of her name remains to be explained; he does not address the question of the root and meaning behind Ḫanat (see *UBC* 1.195–96 n. 147; *DDD* 36).[32]

The battle account begins in line 5 with the word *hln*. It is a presentative particle not unlike BH *hinnê* (*UBC* 1.337). It gives an immediacy to Anat's action, the bloody battle which the first bicolon, lines 5b–7a, describes as taking place in a valley lying between two towns. The topographical description evokes the image of two armies engaged in battle on the open field. Several scholars have proposed specific locations for this battle. De Moor (*SPUMB* 94 n. 3) identifies the two cities as Ugarit and its port two miles away at the modern Minet al-Beida (*CML*[2] 47 n. 4; Gray 1979b:317 n. 11; cf. Pope 1977b:607). Pope (1977b:607) and Pardee (1980:275) suggest the possibility that *bn qrytm*, "between the two cities," refers to ʾUġr and ʾInbb, i.e., Anat's mountainous abode (for references see above; see also *CMCOT* 86–90). While this seems possible, one should note that there is no evidence that ʾInbb was understood to be a city rather than a mountain like Ṣapan (see above for the discussion of the mountain). The character of Uġr is even more ambiguous.

Anat's battle at her mountain abode appears to contain elements related to the wider literary representation of *Volkerkampf*, the motif of foreign enemies opposing the divine warrior at the divine mountain (e.g., Ps 48:5–8; cf. Joel 4:9–14; Zech 12:3–4; 14:2). Clifford (*CMCOT* 142–53)

[32] There are at least five other suggestions (see Deem 1978; Gray 1979b:321–22 n. 42; Walls 1992:114–5):

1. To "sing" as in a dirge (Kapelrud 1969:28), assuming the root **ʿny*, although the word does not have this meaning in Ugaritic.

2. Gray (1979b:321) compares Arabic *ʿanwat*, "violence," lacking for evidence in Ugaritic.

3. Albright (1957:373) suggests "sign" (followed by McCarter 1987:137–55) connecting her name with Akkadian *ittu*, "sign." The goddess is the sign of the presence of the god (for discussion, see Gray 1979b:321–22 n. 42). See also Dahood (1958:81): "sign, indicator of purpose, active will."

4. "Vorsorge, Vorsehung" (Pope 1965:238), related to **ʿnw/y*, "to answer" (Zadok 1993:320).

5. Deem (1978:30) relates the goddess' name to a putative BH root **ʿnh*, "to love, to make love," and with an agricultural term *mʿnh/mʿnt*, "a turn of the plow, a furrow." On the basis of Anat's sexual activities, Deem (1978:26) concludes: "It would appear, therefore, appropriate to seek an etymology of her name to reflect this aspect of love and fecundity." While it is true that sexual connotation may be found in some passages with the root **ʿnh*, it is unclear whether a separate root **ʿnh* denotes sexual love. Indeed, the passages cited in support of this view (Exod 21:10, 23:6, 18; Hos 2:16–17, 23–25) are difficult and have been interpreted in other ways.

has plausibly connected this biblical motif (Ps 2:1–2) with the human enemies of Anat here and Baal in 1.4 VII 35–36. However, only in Anat's battle do human enemies meet in battle at the deity's mountain. And only in Anat's battle—and not Baal's—are there motifs of divine scorn and laughter, characteristic of some of the biblical parallels (see Clifford 1975:302 n. 7, 305). Similarly, the depiction of the violence in the battle (*EHG* 61–64) is characteristic in Ugaritic literature only of the descriptions of Anat's behavior, not Baal's.

Psalm 2 deploys the *Volkerkampf* motif in service of Yahweh's defense of the king, a form of divine protection for the monarch also attributed to Anat in New Kingdom Egypt and perhaps implicitly underlying the use of this material at Ugarit. Ramses II calls himself "beloved of Anat" and "nursling of Anat." In an inscription Anat is said to declare to him: "I have borne you like Seth" (identified with Baal in the New Kingdom period). A chariot team of Ramses II was named "Anat is content, his sword Anat is victorious." One of his dogs was called "Anat protects." He also calls Anat and Astarte his shield (*ANET* 250).

The verbs of the next bicolon, **mḫṣ*//**ṣmt* (lines 7b–8), also appear in Anat's description of her battle with cosmic monsters in 1.3 III 43–44, though not in parallel (for **ṣmt* used of Anat, see also 1.18 IV 38; cf. BH **ṣmt* in *BDB* 856; *UT* 19.2176; *DUL* 786–87). The bicolon describes the vast size of the combatant army, encompassing the people from the west and the east. The terms used to indicate west and east form a merismus, suggesting not only the world-wide origins of Anat's enemies, but also the world-wide implications of the battle (cf. Pardee 1997a:250 n. 74). The sense, "west," has been deduced from the literal phrase, "shore of the sea."[33] This view appears apt in view of the parallel phrase indicating the east, *ṣ'at špš*, "rising of the sun" (= **ṣi'atu šapši*; see Sivan 1997:62, 64 for the forms). Anat engages all human enemies in battle (Dahood 1965:42; 1979:146; *TO* 1.158 n. j; Pardee 1980:275). At that point, it is important to note Pope's studies of Anat (1965, 1974, 1977b:606–11), which have transformed the understanding of this goddess' battle (see also Fensham 1965; Walls 1992). Those familiar with Pope's comparisons of Anat with other goddesses of love and death, notably Egyptian Hathor, Sumerian Inanna, Akkadian Ishtar and Indian Kali, will recognize the debt owed his work (Pope 1977b:608–10) in the

[33] For "shore" used in reference to Anat's bathing in an Egyptian context, see Hoch 1994:241–42.

following remarks. As in 1.3 II, universal destruction at the goddess' hands is the subject of the Egyptian myth sometimes labeled "The Deliverance of Humanity from Destruction" (*ANET* 10–11; Fensham 1965; Lichtheim 1997:36–37; Pope 1977b:607–8; Batto 1987). In the myth the sun god, Re, discovers that humankind is plotting against him, so he commissions the goddess Hathor to destroy it. Upon her return from her first battle she proclaims: "I have prevailed over mankind, and it is pleasant in my heart." The extent of the slaughter and the enjoyment felt by the goddess during the battle are both parallels to the account of Anat's battle here. The depiction of the divine warrior's pleasure in battle is perhaps modeled upon the similar portrayals of the warrior king's own delight in bloody victory over his enemies (see *ANET* 254 for a New Kingdom Egyptian example).

Anat's demeanor is also similar to Sumerian Inanna (and her Akkadian counterpart Ishtar, with whom she was identified). The Sumerian goddess manifests in the words of Frymer-Kensky (1992:65), "sheer force, rage, and might, with a physical power that exists in a somewhat uneasy relationship to the orderly world of the hierarchical pantheon." In Enheduanna's hymn to Inanna, we again find the theme of the goddess fighting a rebellious people (Hallo and van Dijk 1968:20–21, lines 43–46; see also *ANET* 579–82; Mann 1977:30–33):

> In the mountain where homage is withheld from you,
> vegetation is accursed.
> Its grand entrance you have reduced to ashes.
> Blood rises in its rivers for you;
> Its people have nought to drink.
> It leads its army before you of its own accord.
> It disbands its regiments before you of its own accord.

The epilogue to the Code of Hammurapi refers to the goddess in a similar manner in calling upon the goddess to curse those who do not keep the law (col. rev. 27: 92–28: 23; *ANET* 179–80):

> May Inanna, the lady of battle and conflict, who bears my weapons, my gracious protecting genius, the admirer of my reign, curse his rule with her great fury in her wrathful heart! May she turn his good into evil; may she shatter his weapons of the field of battle conflict; may she create confusion (and) revolt for him! May she strike down the warriors (and) water the earth with their blood! May she throw up a heap of his warrior's bodies on the plain; may she show his warriors no mercy! As for himself, may she deliver him into the hands of his enemies and may they carry him away in bonds to a land hostile to him!

In his comparative study of the warrior-goddesses, Pope (1977b:608–10) added the figure of the India goddess Kali. She refuses to desist from bloody battle such that the gods fear her violence would destroy the world, as she tramples on the slain and shakes the earth with her victory dance (Kinsley 1996:78). In one version, she is stopped only after her consort Shiva has thrown himself under her feet and she recognizes much to her belated dismay that she has trampled her lover to death (see Kinsley 1975:81–109, 1996:78–80, 83; Erndl 1993; Brown 1983:117). Like Anat, Kali is not only a bloody goddess; she is also uncontrolled by the social order (see Flood 1996:182–83).

Though neither Anat nor any other goddess of this type survives in the extant literature from ancient Israel (apart from PNs), something of the descriptions do. The bloody destruction of humanity is an Israelite theme, especially stressed in oracles directed against Edom in Isa 34:2–10 and 63:1–6 as well as Obadiah (the latter inspiring in part the words to the American Battle Hymn of the Republic). Though the divine fury is aimed above all against Edom, Yahweh is angry at the nations in Isa 34:2 and 63:3, and Obad 15 involves all the nations in Yahweh's holy war against Edom (cf. Jer 51:7). These biblical texts as well as other parallels mentioned in the discussion thus far are probed in further detail below.

The weapon of Anat's initial destruction is left undescribed in the two bicola in lines 5–8. Only later, when she rounds up her captives, are any weapons mentioned, namely a staff and a bow (lines 15–16). Yet Anat may have been imagined using additional means during the actual fury of the fight. An Egyptian stele depicts her seated on a throne, holding a shield and spear in her left hand and wielding a battle-axe in her right (Beyerlin 1978:194). On the lower part of a second stele, she holds a shield and lance in one hand and brandishes a club or axe in the other (*ANEP* #473; for a summary of LBA weaponry, see Paul and Dever 1973:233, 236). In the Leiden Magical Papyrus I 343 + I 345, Anat wields a shield (Massart 1954:52, 105, 107). According to Barnett (1978), LBA iconographic representations of Anat present her with a long dagger in her girdle.

The central and most vivid image of battle appears in the tricolon and bicolon in lines 9–13a, which describe Anat amidst severed hands and heads. Pardee (1997a:250 n. 75) succinctly explains: "This verse contains three distinct images of destruction: (1) severed heads rolling like balls at the goddess' feet, (2) severed hands flying through the air like locusts, then (3) being gathered together in heaps like grasshoppers

after a plague." This section of the battle receives the most attention in both length and placement. Ceresko proposed seeing a chiastic arrangement of hands and heads in lines 9–12: A *r'i[š]*, "head" (line 9); B *kp*, "hand" (line 10); B *kp*, "hand" (line 11); A *r'išt*, "heads" (line 12). This view of the poetics does not take into consideration the further reference to *kpt* in line 13. The more significant shift appears to be the switch from singular nouns in 9–11 to their plural forms in 12–13, which perhaps signals an intensification of the imagery. Severed heads and heaps of hands from battle are stock motifs. Like Anat, Inanna is praised for her smiting of human heads:

> That you smite the heads—be it known!
> That you devour cadavers like a dog—be it known![34]

A relief from Medinet Habu depicts a heap of hands severed from the enemies of Ramses III (*ANEP* #348; for similar imagery cf. Judg 8:6; *ANET* 254; Černy 1958:96*). In 2 Kgs 10:8, Jehu orders that heaps of heads from the slaughter of the Omride princes are to be laid out at the entrance of the city-gate. In both cases, the heaps serve as an object lesson to those who see them. In our passage the spectacle occurs in a literary context rather than in a visual relief (as at Medinet Habu) or in an ostensible historical narrative (as in 2 Kings 10), and its function is to dramatize the goddess' power.

The hands and heads are compared in lines 10–11 with insects, denoting their profusion. Cognates for *ʾirbym* are well known from Hebrew (*ʾarbeh*) and Akkadian (*erbu*). For *qṣm*, commentators compare Arabic *qaṣāmu*, "locust"; *qaṣamu*, "locust eggs" (Dozy 2.360; Pope 1974:293; Pardee 1980:275). The word *ǵrmn*, which follows *qṣm* in line 12, is somewhat more ambiguous. Working from the cognate terms BH *ʿărēmâ*, "heap," Syriac *ʿrmt*, "heap," Arabic *ʿaramatu*, "heap of grain,"[35] Pope (1966:236; 1974:293) took the word with the following phrase and

[34] Hallo and van Dijk 1968:30–31; lines 126–127; cf. Groneberg 1997:xiii–xiv, 61–62, 66–67, 71, 76–77, 123, 125 for descriptions of Ishtar in battle. In a late bilingual text from Babylon, the goddess brags: "in the battle I fly like a swallow, I heap up heads that are so many harvested rushes" (Hallo and van Dijk 1968:51; for the iconography of the winged goddess, see Wiggermann 1994:239). Closer to the world of Ugarit, a seal of Mukannishum of Mari depicts the goddess (Ishtar, though possibly Anat), holding a sickle sword and standing on corpses behind a male figure who also tramples on corpses while chopping up another victim with his sickle sword (Pope 1970:82; see also Gordon 1953:249, no. 32). Isa 34:2–3 describes the stench of the victims' corpses and their bloody viscera (cf. Isa 63:6).

[35] Apparently an Aramaic loan; see Pardee 1980:275.

translated "heaps of warrior hands." Pardee (1997a:251) follows suit: "heaps of fighters' hands are like (heaps of) grasshoppers." But he also assumes ellipsis here, that the word for "heap" belongs to the construct chain following, but is to be assumed as well before *qṣm*. In contrast, Gray (1979b:317), followed by Gibson (*CML*[2] 47), took *ǵrmn* as the end of a construct chain with *kqṣm* and rendered "like destructive/avenging grasshoppers," proposing that *ǵrmn* is related to Arabic *ǵarima*, "pay a debt," and here means, "destruction, vengeance, punishment." In support of this interpretation, it may be noted that the lack of plural mimation on *kqṣm* may suggest that it stands in construct with the following noun (although it may also indicate that the noun is used as a collective). Pardee (1980:275) argues that the point of the image is the number, not the destructive power of the locusts as such.[36] In either case, the mention of locusts evokes a sense of massive destruction (as in Joel 1:4), an image suitable to Anat's conflict here.

Lines 11b–13 provide further description of Anat in battle, as she takes the time to place severed heads around her back or torso and hands around her waist. The noun rendered "waist" in our translation (*ḥbš*) is ambiguous and can also mean "belt" (see the discussion in Loretz 2001a). The latter is in fact the word's primary meaning. However, the parallel with *bmt* "back/torso," suggests that here the meaning is also a part of the body, "waist."

The victims, whose heads and hands now litter the field of battle, are labelled *mhr* at the end of the tricolon. Attested in lines 11, 15, 21, 28 and 35, the related root in Hebrew and Arabic appears to have a basic sense of "skill, expertise" (e.g., BH *sôpēr māhîr*, "expert scribe" in Ps 45:2). It seems also to be a West Semitic loan into New Kingdom Egyptian texts, where it may refer to a scribe, military information-gatherer and soldier (Zorn 1991; see also Hoch 1994:147–49, 181). The military meaning occurs also in Sabean *tmhrthw*, "elite corps" (Biella 268). The military sense is evident in 1.3 II, as it is used in parallel in this passage with two common West Semitic terms for warriors: *ḏmr* (lines 14, 28, 31 and 34; for the root see Sivan 1997:21 and see pp. 157–58 below); and *ṣb'im* (line 22). It seems that *mhr* is a term for the elite troops within the army.

The bicolon of lines 13b–15a describes the profusion of blood in the battle. The verb *tǵll* in line 13 is usually rendered "wade" or the

[36] For a different image of locusts in divine warfare, see Jer 51:27.

like, based on Aramaic *ʿll*, "to enter" (*ANET* 136; *LC*^{2} 41; Kapelrud 1969:50; *SPUMB* 88; *TO* 1.159; *CML*^{2} 47: Pardee 1997a:250; note the GN *tġll* in a place-name in 1.19 III 50). However, Aramaic **ʿll* does not show this particular nuance of "wading" (i.e., entering water). Good (1982:56–58) insightfully suggests that Anat "gleans" for captives, by arguing that Ugaritic **ġll* is related instead to BH *ʿōlēl* (Judg 8:1–2; 20:44–46) and Arabic *ġalla*, "to give forth agricultural produce." It is the combination of etymological support and comparable literary contexts that makes Good's proposal persuasive. As Good observes, the notion that warfare involves "gleaning" (that is, "clean-up operations" or the like) is evident from the agricultural imagery used in military contexts, not only in Judg 8:1–2 and 20:44–46, but also Jer 49:9 and Obad 5. This idea of an action of "cleaning up" following the activity of combat also fits the context of the battle description here: first she fights, resulting in warrior heads and hands around her, then she clothes herself in heads and hands, and finally she "gleans" (**ġll*) the battlefield for captives.[37]

As support for his view of **ġll*, Good cites CAT 1.13.3–7 as another passage that describes Anat's battle with this sort of viticultural imagery (see *SPUMB* 95; Caquot 1978; see below, pp. 178–80):

3–4	*]ḫrm ṯn ym/m*	Devote to destruction for two days,
	šp[k dm (?) ṯlṯ] ymm	Po[ur blood (?) for three] days,
4–5	*lk/hrg ʾar[bʿ] ymm*	Go, kill for fo[ur] days.
5–6	*bṣr/kp šsk [dm?]*	Harvest hand(s), pour out [blood?],
6–7	*lḥbšk/ʿtk rʾiš[t]*	To your waist attach heads.

Like **ġll* in 1.3 II 13 and 27, **bṣr* in this passage draws from agricultural imagery, in this case from the wine vintage, in order to dramatize Anat's grisly harvest. These two West Semitic roots appear together in the military context of Judg 8:2. Harvest imagery is also used for Inanna's battle, in Enheduanna's hymn: "I heap up heads that are so many harvested rushes" (Hallo and van Dijk 1968:51).

Anat fights through warrior-blood knee deep, even neck deep. For the second noun, Rendsburg (1987:628) compares Arabic *ḥalq*, "neck" (following *UT* 19.867) as well as Mehri and Harsusi *ḥelqemōt* and Jibbali *ḥalqut*, meaning "Adam's apple" or "side of the throat." (Based on the South Semitic cognates, Rendsburg regards final *–m* "an integral part

[37] Psalm 137:9 may involve a pun on this root in its curse that "your sucklings" (*ʿôlālayik*) be dashed against the rock (Ogden 1982:93).

of the word" in Ugaritic, but he does not supply further grammatical analysis.) Pardee (1980:276) also suggests "neck-deep," and compares Rev 14:14–20. Like the passages cited by Good noted above, this NT passage evokes the image of the grape harvest to signify human destruction. In vv. 19–20 an angel puts the vintage in "the winepress of God's anger…where it was trodden until the blood that came out of the winepress was up to the horses' bridles as far as sixteen hundred furloughs." The physical dimensions convey the enormous amount of blood, while the horses' bridles give some indication as to the level to which the blood rises; it is neck-height. Perhaps the most proximate parallel appears in the phrase *ḥelqat ṣawwā'rāyw* in Gen 27:16. Usually taken to be the "smooth" part of Jacob's neck,[38] it seems to be a part of the neck, as the South Semitic cognates cited above suggest. The alternative interpretation that *ḥlqm* refers to Anat's clothing (*TO* 1.159 p) is unpersuasive, given the lack of any other usage of the term for apparel. Following battle in Ps 68:22–24, Yahweh allows the human warriors to bathe their feet in the blood of their enemies (cf. Gray 1977:24). Huge numbers of corpses and amounts of blood are a standard motif in Near Eastern royal descriptions of military victory, for example, Tiglath-Pileser III boasts: "I spread out the corpses of their warriors on mountain ledges like sheep (and) made their blood flow into the hollows and plains of the mountains" (Grayson 1991:24, V: lines 92–96; cf. VI: lines 5–7). Accordingly, the description of Anat's victory might be viewed as echoing the style of such royal inscriptions.

The warriors in lines 13–15 are called *ḏmr//mhrm*. A form of the first term is attested also in the singular in 1.108.22', 24', as part of a list of terms meaning "strength" and the like (cf. 1.17 I 27–34). This meaning, along with a close relationship to the synonym *ʿz*, "strength," is paralleled in the syndetic parataxis of Exod 15:2: *ʿōzzî wĕzimrat yāh*, "Yah is my might and strength." This pairing is repeated in Isa 12:2 and Ps 118:14 (see Barré 1992:624–25). Also cognate are Arabic *ḏamir*, "brave, gallant" (*UT* 19.377) and possibly ESA *mḏmr*, "brave man" (for the disputed ESA **ḏmr*, see Barré 1992:624–25; cf. Biella 96: "to ordain, pronounce judicial sentence, though in the contexts concerning protection"). The word also underlies the element in PNs, Zimri-Lim

[38] For pointing out this passage, Mark Smith is grateful to Dr. Alan Yuter. It may be noted further that the verse refers only to Jacob's arm, not the "smooth part" of his arm. Similarly, no "smooth part" need be assumed of the neck.

and King Zimri of Israel (cf. Num 25:14; see *WSS* 495 for further PNs with the element). Perhaps, as *mhr* emphasizes the skill of the warrior, so *ḏmr* emphasizes the warrior's strength.

The final colon of the first battle-scene (lines 15b–16) depicts Anat driving away the survivors. The words used for the captives, *šbm//mdnt* have been translated in a number of ways. A number of scholars have rendered them as "old men"//"townspeople" (*CML*^{2} 47) and "old men"//"weaklings" (Gray 1979b:318). Pope (in Smith 1998b:654)), in order to explain Anat's strong reaction, proposed translating them as "revilers"//"wretches" who "provoked the goddess' violence." Held (1965b:404 n. 122) argued that they are best understood as terms for enemies, specifically "captives" and "foes" (cf. Pardee 1997a:250: "captors" [!]//"opponents"). For the first word, *šbm*, Held compared *šby//ṣr* in Ps 78:61 and *šbyh//'wyb* in Deut 32:42 (the latter having other relations to our passage; see below for discussion). The second word, *mdnt*, is an *m-* preformative noun, with final *-t* denoting an abstract for concrete noun. The question is whether the word's root is **dyn* or **dnn* (biforms?); in either case, a form of the word is evidently attested as *mĕdānîm* in Prov 6:19, where it means "discord."[39] Mesopotamian texts likewise narrate the capture of captives following major conflicts. In Enheduanna's Hymn to Inanna (lines 46, 50; Hallo and van Dijk 1968:20–21), the army surrenders after the battle and is taken captive by Inanna: "It (the mountain) leads its army captives before you of its own accord…It drives its young adults before you as captives." Somewhat more distant thematically, Marduk rounds up Tiamat's army after he defeats her in the Enuma Elish (IV 105–128). The verb **grš* is used in a slightly different context in 1.2 IV 12, where it expresses the intention to drive Yamm from his throne. Here it is used in a context after the defeat of the enemy.

Anat drives the captives toward her palace with two weapons, one a staff (*mṭm*), the other a bow (literally a bow-string, *bksl qšth*). The former can refer to a common staff (1.19 III 49; 1.23.47), but it can also designate a weapon. In Hab 3:9, 14 the noun stands in parallelism with *qšt*, "bow," and in this context it may mean "shaft" or perhaps "arrow" (*CMHE* 23 n. 59; Pope 1979:706; *CML*^{2} 47 n. 8). In line 16, *bksl qšth* serves as a metonymy for bow and arrows. Renfroe (1992:124) compares Arabic *kisl*, "sinew on the bow with which cotton is carded" to the first

[39] Reference courtesy of Dr. Alan Yuter.

noun in the phrase (see also Held 1965b:401–2). Anat's use of bow and arrows comes up in her conversation with the young Aqhat. In 1.17 VI 39–40 Aqhat boasts to Anat: "Bows are [weapons for] warriors. Shall women now hunt [*with it*]?" Aqhat appears unaware that this weapon is in fact her regular one. Anat later (1.19 I 14–15) says: "So I struck him for his bow (*qšth*), for his arrows (*qṣ'th*) I did not let him live".

At the end of the battle scene in lines 17–18, Anat "then" (*whln*) takes her captives to her palace, ostensibly for a feast that continues to use the language of battle. The switch in scene from the battlefield to the house marks the end of this major battle section.

Lines 17–30: Anat's Slaughter of Her Captives

As noted above at the end of the discussion of the previous column, the battle in 1.3 II has appeared to many commentators as intrusive material hardly belonging to a narrative otherwise centered on Baal. Such a thematic disjunction led Ginsberg (*ANET* 136 n. 4) to ask: "What is all the carnage about?" In keeping with ritualistic presuppositions (see *UBC* 1.60–63), Gaster and Gray located this passage against the background of a particular rite. Gaster (*Thespis* 209f.) understood 1.3 II as an example of ritual combat for a New Year ceremony. Gray (1979b:323) also interpreted the passage as a ritual: "The fact . . . that . . . the passage is also the prelude to the activity of Baal and Anat in the fertility of the new season makes it feasible that it reflects blood-letting as a rite of imitative magic." In support of this interpretation, Gray cited the self-laceration of Baal's prophets on Mount Carmel in 1 Kgs 18:44f. Gray himself was aware of the most significant difference between the two passages: Baal's prophets shed their own blood, while Anat sheds the blood of her victims. Gray (1979b:323) further offers a historical conjecture that the passage represents "Ugarit's assertion of independence of Beirut under Egyptian hegemony." Kaiser (1959:71 n. 289) proposed that Anat's slaying the enemies of the east and west may constitute a ritual slaying of war prisoners: "Im Hintergrund dürfte wohl eine rituelle Tötung von Kriegsgefangenen bzw. die Verstümmelung von Gefallenen stehen." Kaiser then compares 1 Sam 31:8f. Gese (in Gese, Höhner and Rudolph 1970:66–67) believed that the slaughter is an offering that Anat makes to herself in order to strengthen herself with the blood. In terms of his ritual approach, Lloyd (1996:157–58) largely follows suit. Pardee (1997a:250 n. 78) comments: "Though an invitation is not mentioned, the preparations are appropriate for a

feast. Apparently, (unidentified) soldiers enter expecting a feast, only to be attacked." We now turn to the difficult and ambiguous second part of the battle scene, lines 17–30, after which we will discuss the larger West Semitic context of Anat's battle and its place in the Baal Cycle. To anticipate the discussion below, we will find that the context of *ḫrm*-warfare informs both the activity of battle in lines 3–16 and the slaughter of captives in lines 17–30. The approach suggested by Kaiser is particularly pertinent for understanding the latter section.

Lines 17–30 show a very close relationship to lines 3–16 with its reuse of a number of images, words and poetic structures from the latter, including the nearly identical bicola in lines 5–7//19–20 and lines 13–15//27–28. The parallel nature of the two sections may be illustrated further through an overview of the verbal syntax in the two parts. Lines 3–5 set the scene, with the closed gates mentioned in lines 3–4 as background information, and with the verb *wtqry* beginning the chain of events (APQ). The bicola in lines 5–7 and 17–18 foreground the action that follows by using the presentative particle *hln*. Furthermore, the locations named in each of these two bicola set the stage for the action: the scene in lines 5–16 takes place in the valley between two cities, while the action in lines 17–30 transpires in Anat's house. Lines 19–20 further mark the two sections as related, for these lines strongly echo lines 5–7, yet lines 19–20 also present a strong contrast to the latter. Lines 5–7 present Anat fighting in the valley, while lines 19–20 comment that the goddess was not satisfied with that combat. The bicolon in lines 19–20 uses a stative **qtl* form of *šbʿ* to provide circumstantial information (off the narrative line as such) that Anat's desire remains unfulfilled. Finally, lines 13–15//27–28 offer the same comment about the depth of the victims' blood through which Anat marches, but in the second battle there are no survivors to be gathered up.

Besides these parallel elements that connect the two scenes, the second scene has its own unique parts as well. Lines 19–20 begin to build toward a new action. As suggested by the **yqtl* form, *tṯʿr*, in line 20, the narrative line picks up again from line 18 by describing Anat arranging the furniture in the house, apparently for a feast. Within lines 20–22, the infinitive absolute *ṯʿr* indicates parallel action (see Lowenstamm 1969a; Gai 1982; *UBC* 1.50–51). The narrative sequence continues in lines 23–24 with the use of **yqtl* verbs. The verbs in line 23 are preceded by *m'id*, an adverb which indicates an intensification of Anat's fighting over what it had been in the first battle. This combat brings about the joy expressed in lines 25–27 (the initial **yqtl* indicating its

sequential nature). This is quite different from the account of the first battle, where no indications of Anat's emotional state are mentioned. The success of this battle is described with the same words as in the first battle (lines 27–28//13–15), while the final two lines, lines 29–30, indicate the resolution of Anat's dissatisfaction that had been described in lines 19–20. Thus the first battle results in Anat's victory, but does not assuage her anger. It is only the second event that brings her back into an emotional equilibrium.

Lines 17–18, rendering Anat's return to her house with her captives, make use of rather stereotypical phrases attested in a number of other texts that belong to various genres (see 1.100.67–68, 1.114.17–18; for another context with the same roots in parallelism, see 1.100.72). The scene continues (lines 19–20a) with the description of Anat's lack of satisfaction with the previous battle. The suffix on *tmtḫṣh* indicates that this word and its parallel term in line 20, *tḫtṣb*, are verbal nouns dependent on the preceding verb, *šbʿt*, and not independent verbs following sequentially on *šbʿt*. Given the verbs' lack of expressed objects, Pardee (1997a:250 n. 73) explains their *-t* infix as "plausibly a sort of middle: 'she smites for her own benefit'." However, this type of notion for a middle sense is far from certain. Several forms in the *Gt*-stem involve verbs that are related to the use of the body (see Greenfield 1979).

In lines 20–28 Anat's voracious appetite for human destruction enters a second phase. The motif of a goddess' bloodlust appears also in the Egyptian "Deliverance of Humanity from Destruction" (*ANET* 10–11; Lichtheim 1997:36–37). Dissatisfied with her slaughter of humanity, Hathor-Sekhmet continues her carnage, to the anxiety of Re. He devises a plan to stop her. He sends servants to prepare beer mixed with red ochre that looks like blood and has it poured out on the battlefield. The goddess, thinking it is blood, drinks it, gets drunk and falls asleep. By this ruse Re prevents the complete destruction of humanity. Anat in contrast is not restrained at all. The use of language describing her eventual satisfaction emphasizes that she is under no compulsion to reign in her emotions.

Lines 20b–22 describe Anat's preparations for her captive victims. Commentators generally have been hard put to explain Anat's arrangement of her furniture just before the resumption of her battle. As Gray (1979b:318 n. 21) observes, it seems "surprising to find tables and chairs prepared for the victims." Scholars have made a number of suggestions to explain these lines. Ginsberg (*ANET* 136), took **tʿr* in lines 20b–21 to be related to the rather dubious Hebrew verb, *šʿr*

II, defined in *BDB* 1045 as "to calculate, reckon" and translated the passage as "She pictures the chairs as heroes,/pretending tables are warriors,/And that footstools are troops." His idea is that this second battle is only in Anat's imagination. This proposal has met with little acceptance. Gray (1979b:319 n. 21) seems closer to the mark: Anat indulges her blood-lust on her seated human victims. The description of the arrangement of furniture indicates that it is a feast that is involved here (more on this below).

This merging of battle and feasting imagery is well attested in the Hebrew Bible. For example, Yahweh says in Deut 32:42:

> I will make my arrows drunk with blood,
> and my sword shall feed on flesh:
> the blood of wounded and captives,
> the skulls of enemy leaders.

Unlike Hathor, Yahweh is never said explicitly to consume the blood; rather that image is left metaphorically to the divine sword, as in Isa 34:6–7 (Pope 1977b:606–11). This passage uses the imagery of sacrifice, the terrestrial counterpart to the type of divine feast that Anat enjoys in 1.3 II 19–30:

> Yahweh has a sword;
> It is sated with blood,
> It is gorged with fat,
> With the blood of lambs and goats,
> With the fat of the kidneys of the rams.
> For Yahweh has a sacrifice in Bozrah,
> A great slaughter in the land of Edom.
> Wild oxen shall fall with them,
> And young steers along with the mighty bulls.
> Their land shall be soaked with blood,
> And their soil made rich with fat.

The terms used for animals appear elsewhere as terms for political and military leaders (P. D. Miller 1970a), and the overtones of such terminology are likely at work in this biblical passage (cf. Ezek 32:3–6; Isa 49:26; Rev 19:17–21). More broadly speaking, battle and sacrifice in this passage and elsewhere in Israelite literature (Jer 46:10; Zeph 1:7) share the feature of immense bloodshed (*TDOT* 3:239). In sum, in order to describe human destruction, Israelite literature drew on a constellation of traditional West Semitic motifs, including wine for blood and animal sacrifice for human destruction. This may help us to understand the meaning of Anat's arranging of the furniture, appar-

ently in preparation for her slaughter of the captives. We will examine this below, but suffice it to say at this point that the imagery of Anat's slaughter may vaguely imply the consumption of her human victims in 1.3 II 17–30a.

Lines 23–27a contain a bicolon (lines 23–24) and a tricolon (lines 25–27a). In the bicolon we find two standard verbs for fighting (*tmtḫṣn* and *tḫtṣb*), but here each is succeeded by a verb that commentators normally interpret as a verb concerned with seeing (**ʿyn*, "to eye"//**ḥdy*, "to survey," cognate with BH **ḥzy*). Tropper (2001a) has suggested a different interpretation, taking the first verb from **ʿny*, "to sing, raise a shout" and **ḥdy*, "to rejoice." This approach for the first verb requires the unusual correspondence of Ugaritic *ʿayin* with Arabic *ghain*, possible but hardly likely given the plausibility of the older alternative proposal that requires no such departures in phonological correspondence. Moreover, the primary sense of **ʿny* elsewhere does not seem "to sing" (much less "to shout"), but to respond or answer. Tropper's view is not to be ruled out entirely, but for these reasons, it seems problematic. In either case, the bicolon shows wordplay between *tʿn* and *ʿnt* ("Anat"). The sort of paranomasia in lines 23–24 with divine names is not uncommon in Ugaritic poetry (cf. the divine title *rbt* and its puns in 1.4 I; on *ym* in 1.2 IV 16–17, and less so in 24–27).

The bicolon of lines 23–24 has no parallel in the preceding section, and its content perhaps demarcates it from the sort of battle described in lines 3–16. More specifically, Anat's eyes seem to take in the new carnage, expressing a sort of satisfaction that the initial engagement in lines 5–16 did not provide her. Piquer Otero (APO; see 2003:202) makes the nice observation that the verbs of visual perception here might be expected to take objects; with no stated objects, the whole scene is evidently taken in by the goddess. Furthermore, the battle here is described for the first time as *m'id*. The word here is fronted to the bicolon, and it evidently serves to describe the character of the fighting in a way that was not true of the battle in lines 5–16. Accordingly, the fighting in lines 17–30 may be characterized as reaching a new level. Ugaritic *m'd* denotes "abundance" (*DUL* 512). The root **m'd* in biblical literature, especially in the Shema (Deut 6:5) may express "strength," which would suit the larger context of Anat's engagement here. It may denote the more specific sense of "the fullest capacity" of the activity that the word characterizes or modifies (see the discussion in Overland 2000:431). Viewed in this manner, the word here suggests a whole new level of martial intensity in lines 17–30 which was not operative in lines

5–16. Such intensity is attributed in CAT 2.10.11–14 to the power of Death, characterized as *ʿz mʾid*, "very strong" (cf. Song of Songs 8:6; see *UBC* 1.76).

As a result of this new level of martial intensity, Anat reacts with emotion. Lines 25–27a express Anat's sheer pleasure in the destruction. This tricolon, which shows an ABA structure emphasizing Anat's interior organs as the seats of emotion (*kbdh*, "her liver/innards" . . . *lbh*, "her heart," . . . *kbd*, "liver/innards"), marks the shift from her lack of satisfaction in lines 19–20a to the beginning of her satiety, expressed as complete in lines 29–30a (see Watson 1981:190). Her survey of the battle scene in lines 23–24 produces in Anat the joyful reaction.[40] Anat's innards (**kbd*) swell with laughter, and her heart (**lb*) is filled with joy.

Anat's victory produces a full-bodied pleasure. The goddess's laughter (cf. 1.17 VI 41) has apparent echoes in Israelite literature. Yahweh laughs at those kings who would oppose the chosen anointed on earth (Ps 2:4). Woman Wisdom "laughs" at those who reject her advice (Prov 1:26), a parallel noted by Clifford (1975:302 n. 7, 305). The slaughter is felt as a victory for Anat as for Inanna and Hathor (see Pope 1977b:609; Hallo and van Dijk 1968:32–33, lines 123–132). Anat is called "the victorious" in the Papyrus Chester Beatty (VII, verso i 8–9; cited in *ANET* 250 n. 18). "Victory" is also the hallmark of Athena in a late fourth century bilingual Greek-Phoenician inscription from Larnax tes Lapethou in Cyprus which identifies her with Anat (KAI 42; see Ginsberg 1945:8; *CMHE* 29 n. 91). The Greek version is dedicated to "Athena, Sustainer, Victory" (*Athēna sōteira nikē*), while the Phoenician to "Anat, Strength [of/, (?)] Life" (*lʿnt mʿz ḥym*). Anat's epithet *bʿlt drkt*, "Mistress of Dominion" (CAT 1.108.6–7) may be mentioned in this context.

Excursus I: Liver/Innards (kbd) *and Heart* (lb) *in West Semitic Expressions of Emotions*

To understand the physical expressions of Anat's pleasure, it is worthwhile to examine the use of body-parts in the expression of emotions. West Semitic texts locate the emotions in a number of internal organs of the body. Two such organs that figure in emotional communication

[40] See Renfroe 1992:30–31 for the semantic development underlying the root **ǵdd* in Arabic and Ugaritic; see also Watson 1996a:76–77 for the argument that the word here may connote swelling as well as joy.

in Ugaritic are *kbd* and *lb*, usually translated "liver" and "heart" respectively. A selective survey of Israelite, Ugaritic and Akkadian literatures will be helpful for understanding the use of this language, and some considerations from the field of psychobiology will aid in clarifying the reason for this sort of usage.

Lam 2:11 uses BH *kābed* in describing the personal distress caused by the neo-Babylonian destruction of Jerusalem:

> My eyes (*ʿênay*) are worn from tears,
> My guts (*mēʿay*)[41] are in ferment,[42]
> My liver/innards (*kĕbēdî*) are poured out on the ground,[43]
> Over the destruction of the daughter of my people (*ʿammî*),
> As babes and infants faint[44] in the city squares.

Apart from Lam 2:11, BH *kābēd* is rare at best in expressions of emotions, but it has been read by emendation in a number of Psalms. It has been claimed that the consonantally similar word *kābôd*, usually rendered "glory," should be reinterpreted as *kābēd* in some psalms that express human emotion. Ps 16:9 MT reads (and Vulgate assumes) *kĕbôdî*, "my majesty, glory," but LXX has *glossa mou*, "my tongue," and Targum *bĕśārî*, "my flesh." Scholars suggest emending to *kĕbēdî*, "my

[41] According to J. M. Sasson (1989:24), **mēʿîm*, "refers to the bowels, intestines, i.e. the internal organs below the abdomen." The Ugaritic cognate *mmʿ* denotes what comes out of the human body due to violence done to it, specifically used in CAT 1.18 I 12 of oozing brains and in 1.3 II 14, 35 of bodily viscera flowing with blood out of the corpses of slain soldiers. Accordingly, the word might be translated "guts." The word is used with the heart in Jer 4:19 and elsewhere, but not for emotions in the Psalms. Ps 22:15 uses this word in an emotional context, locating the heart in it; but this word is not said to be the internal part that experiences the emotion. Pss 40:9 and 71:6 are the only other Psalm verses which use this word; neither instance involves emotional expression as such. For further biblical evidence, see *BDB* 588–89; J. M. Sasson 1989:24. A relation of the word to Ethiopic **mʿ*, "to be angry" is viewed as "unlikely" by Leslau 325.

[42] On the reduplicated form of the verb, see Joüon-Muraoka, para. 51b. The meaning seems evident from the context here, cf. Job 16:16.

[43] Cf. RNAB's translation: "My gall is poured out on the ground." This rendering nicely preserves a general sense of *kābēd*. "Gall" in general English usage may refer to liver bile, although liver bile and gall bladder bile are differentiated medically. On this point, see Moore 1992:190. However, the BH word for "gall" is **mĕrôrâ* (e.g., Job 20:14; see *BDB* 601) and such a word used with the phrase **šph l'rṣ* (as in Job 16:13) would evoke a picture of bile pouring out of the body (see Pope 1980:124; for comparable Akkadian usage, see *CAD M/2*:299). The picture in Lam 2:11 seems more proximate to 2 Sam 20:10 which uses **mēʿîm* with **šph 'rṣh* to denote disembowelment.

[44] On the infinitive as a possible *G*-stem form, see *GKC* para. 51l; Joüon-Muraoka, para. 59b. For the expression, see Lauha 1983:105 (reference courtesy of T. N. D. Mettinger).

liver, innards" here and in other Psalm passages (Pss 7:6; 30:13; 57:9; 108:2).[45] The best case for emendation in these passages is based on three criteria: (1) a text-critical difficulty with the word; (2) the absence of honor as a theme, or the absence of parallelism with words such as "I" (as in Pss 30:13, 57:9 and 108:2), "my life" (*ḥayyāy*) (as in Ps 7:6) or "my self/soul" (*napšî*) (also in Ps 7:6); and (3) the presence of a parallel internal body part such as *lēb*, "heart." Ps 16:9 is the only case that meets all three criteria. In this case (but possibly others), the word may have been secondarily interpreted as *kābôd*, "majesty, glory." If, however, the emendations are not accepted, only Lam 2:11 uses *kābēd* to communicate emotion. This single instance stands in sharp contrast with BH *lēb*, "heart," which commonly conveys emotional distress (Ps 13:3) and joy (Pss 4:8; 13:6; 16:9; cf. 9:2). To advert to one particular expression of the heart, "a broken heart" in Hebrew does not refer to unrequited love as in English, but to more general grief and sorrow (Pss 34:19; 51:19; 147:3; Isa 61:1; cf. Jer 23:9). It conveys what in English would be called a "crushed spirit," and indeed this expression is found in contexts with the "brokenhearted" (e.g., Ps 34:19).[46] Given that BH *lēb* commonly expresses emotion while *kābēd* does not, the use of the latter in Lam 2:11 is all the more striking, and the reason for its selection is perhaps due to other considerations.[47]

In any case, both thought and emotions are attributed to the heart,[48] while the liver/innards appears only in expressions of emotion. In contrast, other organs symbolize psychological processes apart from emotions. Fat (*ḥēleb*, cf. Pss 17:10, 119:70; cf. Judg 3:22) serves as a metaphor for human unreceptivity.[49] Dahood (1966:97) comments: "fatness sometimes connotes arrogance; cf. Deut xxxii 15; Jer v 28, and especially Ps lxxiii 7–8." Kidneys (*kĕlāyôt*) are the organs that Yahweh examines for human malice or goodness (Pss 7:10, 11:2, 26:2, 73:21; cf. Jer 11:20; 17:10). According to Ps 16:7 the speaker's kidneys discipline

[46] See Collins 1971a:32–33, 1971b:189. In Ps 147:3 the expression corresponds to wounds on the outside of the body.

[47] Similarly, was the choice of *mēʿay* in Lam 2:11 instead of **libbî* dictated at least in part by assonance with *ʿênay* in the same verse? Cf. the end-rhyme between *kĕbēdî* and *ʿammî* in the following couplet.

or admonish him. NJPS renders "conscience" for the word in Ps 7:10.[50] For the most part, the kidneys do not involve emotional states in the Psalms. Ps 7:10, Jer 11:20, 17:10 and 20:12 associate the kidneys with the heart, but these contexts are concerned with divine inspection of human character.[51]

Liver, kidneys and fat were all known from sacrifices (e.g., Exod 29:13, 22; Lev 3:4; 6:4; 8:16, 25). Accordingly, it might be suspected that the use of these in literary contexts was based on the knowledge of internal anatomy, drawn from sacrifices and perhaps augmented by experience of physical injury and death,[52] and possibly from their use for divination in neighboring cultures.[53] The question remains: why does Israelite prayer mention these internal organs in communicating emotions?

Two strategies have been used to address this question. First, scholars have looked for answers specifically in the biblical literature. The studies of Johnson, Wolff and Lauha are classic examples of collecting and analyzing biblical cases.[54] Perhaps the most insightful instance of this line of investigation has been the research of Collins (1971a, 1971b). Collins closely studies many biblical passages and reconstructs the Israelite understanding of the physiology of tears as liquid that wells up from the abdominal viscera and makes its way up to the head. This

[51] Ps 73:21 is a possible exception in its pairing of heart and kidneys, but the image may be one of self-conviction, which would be appropriate given the context of the psalmist's self-questioning. Prov 23:16 associates the kidneys with emotional expression, namely rejoicing. The larger context of this verse includes the human heart (v. 15); perhaps the mention of the kidneys with emotion in this context is derived from the combination of the heart and kidneys elsewhere in the general sense of innards (see the following note).

[52] Kidneys along with the heart are said to be vulnerable to arrows (Job 16:13; Lam 3:13; cf. CAT 1.82.3). The word for "kidneys" in these instances might be understood metaphorically as innards or "vitals" in general (see Pope 1973:124; Hillers 1992:113). Job 19:27 locates **kĕlāyôt* in the *ḥêq*, normally translated "bosom." If correct, **kĕlāyôt* would refer not specifically to kidneys, but innards.

[53] The kidneys were one part of the body read for omens in Mesopotamia. While there is no Israelite evidence that animal kidneys were read for signs, the Akkadian cognate, *kalītu*, figures prominently in omen literature. See *CAD K*:74–76. For liver models in Mesopotamia and the Levant, see Stensman, *TDOT* 7:15; and the essays in Dietrich and Loretz 1990.

[54] Johnson 1964:74–81; Wolff 1974:40–58, 64. For a review of scholarly literature in this vein, see Lauha 1983:7–24. For his discussion of *lēb*, "heart," see in general Lauha 1983:46–50.

reconstruction might explain Lam 2:11's image of the *kābēd* poured out on the ground.

Despite the hypothetical nature of this reconstruction,[55] Collins offers additional points helpful for understanding the heart and innards in emotional expression. He comments: "It is not obvious that the Hebrew poets had clear and precise ideas on the *functional* anatomy of the human abdomen" (1971a:27; Collins's italics). Furthermore, biblical language for internal organs, sickness and emotions tends to overlap to a greater extent than in English. Again Collins (1971a:36) observes: "The principal difficulty . . . is precisely to sort out the references to physical sickness from those concerned with emotional suffering. We tend to sharply differentiate between the two, but . . . the ancients did not." It is quite possible to infer ancient ideas about internal anatomy, as Collins has done especially for tears. However, the reason for using heart and liver/innards for expressing emotions remains unclear, despite Collins' close study.

The second avenue for research has been to examine these terms in the literatures of Israel's neighbors. In the last century, it was Dhorme who developed this line of study.[56] Here Akkadian and Ugaritic sources have been helpful in showing the extent of the usage and their semantic range. In particular, they have helped shed light on the use of *kābēd*. More specifically, while the biblical evidence for *kābēd* in expressing emotion is limited to grief, Akkadian *kabattu* and Ugaritic *kbd* can convey both grief and joy.[57] The latter is precisely the usage attested for Anat in 1.3 II 25: *tġdd kbdh bṣḥq*, "her *kbd* swells with laughter." This physical reaction constitutes the polar opposite of the physical reaction to disaster. Despite the comparable examples provided by the Akkadian and Ugaritic corpora, they provide little explanation as to why internal organs are used in expressions of emotions.

To the inner-biblical and comparative evidence may be added further information drawn from cross-cultural, psychological and physiological research about the use of internal organs in communicating emotions. This research provides an interpretation that suits the presently known

data about the use of the imagery of heart and liver/innards in Israelite texts. The evidence of the usage of *kbd* in Ugaritic (outside its technical usage in sacrificial or divination texts) will also be helpful here. The starting point for this investigation is cross-cultural information supporting the hypothesis that specific emotions are associated with the heart and innards because they are physically experienced there. Social science research has recently produced findings that strongly support this idea. In the journal, *Cross-Cultural Research*, several scholars compared their findings on how anger, envy, fear and jealousy were reported to be felt by various parts of the human body among people from Germany, Mexico, Poland, Russia and the United States.[58] The results indicate that people across cultures have several similar notions about the relationship between certain emotions and particular parts of the body. This finding may be applied to aspects of the Israelite and Ugaritic association of various parts of the body with specific emotions. It seems likely that the peoples of the Near East associated emotions with the internal organs where those emotions were perceived to have been felt physically. Or, as Hupka *et al.*, put the point, "Metaphors in emotion words similarly may identify particular corporeal sites and body processes."[59]

This point applies to the heart and innards. Before proceeding to these two cases, one other instance may serve to show the heuristic value of the study by Hupka *et al.* Biblical idioms to express anger involve a group of expressions centered on the image of the burning breath, issuing from one's nose (or nostrils) and mouth. "Burning rage" (NJPS), in Ps 124:3, is literally "burning of their nose" (**ḥărôt 'appām*). Ps 106:40 applies the same image to God: "And the nose of Yahweh burned against his people" (*wayyiḥar-'ap yhwh bĕ'ammô*). Ps 18/2 Sam 22:9 describes Yahweh's furious anger in more detail:

> Smoke went up from his nose (*'ālâ 'āšān bĕ'appô*),
> And fire from his mouth consumes (*wĕ'ēš-mippîw tō'kēl*).

The question is: why does the expression of anger center on such a physical image? The study of Hupka *et al.*, answers this question. According to their survey, "anger was felt in the face, head, heart,

and the throat in all nations."[60] Thus the biblical texts correlate quite well to the findings of the study. Evidently the Israelites associated the emotion of anger with the physical locations where this emotion is felt.[61] This point seems to hold a key to emotional expressions felt in the heart and innards as well.

It is evident from both the Psalms and other biblical books that the heart is the locus of many emotional states. It is the organ expressing both joy (Pss 4:8; 13:6; 16:9; cf. 9:2) and grief (13:3). Hupka *et al.* 1996 indicates that this relationship is widely felt across cultures. The heart, in fact, appears to be the most significant organ in terms of its relationship to emotion. The study indicates that cultures connect a wide range of emotions to the heart, including anger, envy, fear and jealousy.[62] This is no doubt related to the fact that the heart physically changes during the experience of these emotions, increasing its pumping speed and capacity.

The word *kbd* is a different matter. Usually identified as the liver, this specific meaning is attested for BH *kābēd* in divination (Ezek 21:26), as well as sacrifices in priestly literature (e.g., Exod 29:13, 22; Lev 8:16, 25; 9:10, 19), and paralleled in Syro-Mespotamian texts and liver models (Landsberger and Tadmor 1964).[63] It is known in technical contexts of sacrificial cult and the "scholarly" polyglot published in *Ugaritica V* (see Huehnergard 1987b:135). The noun is evidently related to the common Semitic verb **kbd*, "to be heavy," perhaps due to the liver's large size.[64] The liver is the largest gland in the body, accounting for about 2% of body weight in human adults and about 5% in infants. It is also the largest abdominal organ (Moore 1992:190).

Outside of technical usages, Ugaritic literature uses the word *kbd* in two ways. The first is physiological, not for the liver specifically, but

[61] This physiological explanation for anger was touched upon by Johnson 1964:49.

[62] Hupka, Zaleski, Otto, Reidl and Tarabrina 1996:255. We prescind from the problem of why the heart is attested also for thought. West Semitic languages have no word for brain as such, and functions often accorded the brain in English are expressed with the heart. For example, self-conscious thought is expressed as "saying in the heart" (e.g., Pss 10:6, 11, 13; 14:1 [= 53:2]; 15:2). The heart is also the location of malice (Ps 5:10).

[63] It is to be noted that the priestly literature on sacrifices employs **qereb* to denote the internal viscera in general including the internal organs. For references, see *BDB* 899, sub *qereb* #3. For discussion, see Dhorme 1923:109–12; Milgrom 1991:159.

[64] So Gesenius citing Galen; see *BDB* 458'; and Leslau 273.

for abdominal innards. As in Hebrew, Ugaritic *kbd* stands in poetic parallelism with "heart" (*lb*) for emotional expression (as in our current text, 1.3 II 25–27). The issue for the attestation of the word outside of technical usage is whether it refers specifically to the liver as such. The sense, "innards," comports best with the usage in CAT 1.5 II 3–4:

[Ba]al will enter into his innards,	*y'rb [b']l bkbdh*
Into his mouth he will descend…	*bph yrd…*

"Liver" would hardly suit the context of entering the mouth of Mot and his digestive system. "Liver" also does not fit Danil's search for Aqhat's corpse in the predatory birds' *kbd*, specifically their digestive system (CAT 1.19 III 10, 18, 24, 33, 38). CAT 1.13.31 may likewise suggest a more general sense for *kbd: kbdh lyd' hrh*, which Watson translates: "her liver/womb had not known pregnancy."[65] Pregnancy is also indicated in relation to the *kbd* in 1.12 I 10. The liver is hardly involved; the womb, located in a woman's "innards" or "insides," is the correct sense.

A second, analogous usage in Ugaritic applies the term to places: *lkbd 'arṣ*, "in the midst of the earth," and *lkbd šdm*, "in the midst of the fields" (CAT 1.3 III 16–17, IV 10, 24–25). In these passages, it is evident that "liver" is not the sense of *kbd*; rather, the more general meaning of "insides" is the proper sense. Ugaritic *'irt* furnishes an analogy in semantic usage. It refers to breast or chest in 1.3 III 5 = 1.101.17 (apparently 1.4 V 5 and 1.5 V 25), and to the "midst" of Lebanon in 1.22 I 25 (cf. "inside me" or "within me" in 1.6 III 19 and 1.17 II 13). In one passage, 1.18 IV 17–19, *kbd* and *'irt* stand in parallelism, evidently both referring to insides in general, not to the specific body-parts (cf. *UNP* 64).[66]

In cases of expressing emotion, Ugaritic *kbd* and BH *kābēd* should be compared also with the Akkadian cognate *kabattu*, which is used in exactly the same way (*CAD K*:11–14; cf. Ezek 21:26). In fact, "liver" is the exceptional meaning of *kabattu*, while "insides" is the common meaning (*CAD K*:11–14; see also André-Salvini and Salvini 1999:272).

[65] Watson 1991:175. Scholars take the particle *l-* as a negative or an asseverative. The issue does not affect the question of *kbd*'s meaning here. For Hebrew *m'ym* used for pregnancy in a manner comparable to 1.13.31, see Tobit 4:2 in 4Q200, fr. 2, line 2. Both refer to bodily insides.

[66] For *'irt* in 1.3 III 5, see below on pp. 218–19.

Like the biblical and Ugaritic usages, the Akkadian word appears in contexts of emotion (both happy and unhappy) and thought, sometimes in parallel with *libbu*, "heart."[67]

Finally relevant to this interpretation of *kbd* is the observation made by medical doctors and psychobiologists that strong negative emotions are not distinctly felt in the liver (see Plutchik 1994:30). In contrast, the innards, including the digestive tract, feel strongly in negative situations. More specifically, strong negative emotions are felt in the lower abdominal region. In responding to a "flight or fight" situation, the body's sympathetic nervous system induces several bodily changes: dilation of pupils; inhibition of tear glands and salivation; opening of respiratory passages; increase in heartbeat and blood pressure; release of sugar into the blood for energy; and most importantly for situating innards in emotional expressions, inhibition of digestive secretion and stomach contractions, as well as movement of blood from the digestive system to muscles in arms and legs used for physical activity.[68] Stomach contractions and movement of blood from the digestive system to the muscles in the limbs prepares the body of a person to address a perceived threatening situation. In distressful situations stomach contractions and the movement of blood are felt as a physical experience of anxiety (cf. English "stomach tied up in knots" and "butterflies in the stomach"). The use of "innards" for distress (for example, in biblical literature) fits these symptoms of the sympathetic nervous system. Anat's joy in 1.3 II 25–27 reflects the opposite physical response, namely the restoration of blood to internal organs as her complete victory becomes clear. She is physiologically and emotionally restored and relieved, and she exults in the result. In short, the use of the nose and mouth to express anger, the innards for distress and joy and the heart for a range of emotions suggests that ancient West Semites identified emotions with some particular bodily parts where these emotions are physically felt.

There are two other aspects of emotion that have been studied by psychologists, which appear to be further useful in dealing with ancient texts. The first is the communicative function of emotions, an aspect that often has not been properly appreciated in biblical research. While

[67] The Amarna Akkadian word *kabattuma*, an adverb denoting "on the belly," likewise shows a more general meaning (*CAD K*:14). Cf. the meaning "belly" for Ethiopic *kabd*, according to Leslau 273.

[68] For a detailed list of symptoms, see Moore 1992:29–30. See Baron 1992:51, 388; Gleitman 1996:61 (references courtesy of J. Chapman). For a discussion of these physical reactions in the context of dream experience, see Hobson 1999:161.

many believe that they feel their emotions first and then communicate them, psychologists have observed that people communicate emotions as, or even before, they recognize them cognitively.[69] Accordingly, emotions are part of the larger process of human communication. A number of psychologists, including Richard S. Lazarus, Nico Fridja and Andrew Ortony, have emphasized the role that emotions play in helping people address and adapt to situations around them (see Plutchik 1994:4). Emotion "is said to be a form of readiness for adaptive action. In other words, emotions change an ongoing situation and help the individual prepare for appropriate action" (Plutchik 1994:4). Following this approach, the emotions expressed in West Semitic literature may be viewed as serving to address an ongoing situation and to help figures move toward action. This emotional communication is a religious and ritualized reaction to situations of disaster or relief.

The second psychological aspect to note is the function of emotions in maintaining psychological continuity. Two models predominate in the current discussion in the research. The more traditional view is espoused by the psychologist Plutchik (1994:262):

> Emotions may thus be conceptualized as homeostatic devices (patterns of inner and outer action) that are designed to maintain a relatively steady ("normal") state in the face of environmental emergencies. Emotions represent transitory adjustment reactions that function to return the organism to a stable, effective relationship with its immediate environment when that relationship is disrupted.

In contrast, a non-homeostatic model has been proposed. D. A. Oren, a clinical psychobiologist specializing in mood disorders, comments:

> We were taught in college biology two decades ago that the function of physiology is to preserve homeostasis. The Plutchik view follows this dictum well. But, it is increasingly clear that the homeostasis paradigm is wrong. The powerful evidence of a biological clock in animals that

[69] See Plutchik 1994:4–5. See further Kandel and Kupfermann 1995:595–612 (reference courtesy of J. Chapman); Gleitman 1996:345–50; LeDoux 1998. For decades the timing between physical-emotional response and the cognitive recognition or labeling of that response has been a major point of debate among psychologists. The idea of *simultaneous* development of emotional feeling and bodily reactions has been associated with the studies of Walter B. Cannon, while the view that emotional feeling *follows* physical reaction is associated with the names of William James and Conrad Lange. Although the view of Cannon presently dominates the discussion, research on some forms of depression (e.g., Seasonal Affective Disorder) supports the view of James and Lange; so D. A. Oren (personal communication), citing Young, Watel, Lahmeyer, and Eastman 1991:191–7. See further discussion in LeDoux 1998:45–48, 87–92, 292–93.

> regularly changes our physiological functions (e.g., our body temperature rises and falls by about a degree each day; or when a heart stops having occasional *irregular* rhythms it becomes susceptible to fatal heart attacks) gives increasing evidence that physiology is all about *inducing* change. The only truly homeostatic organism is a dead one. (And even that point is debatable.) Aaron Beck and others have proposed that emotions, and mood disturbances in particular, may not be designed to maintain homeostasis, rather they take the evolutionary view that depressive moods are meant as a form of energy conservation in a time of scarce resources or opportunities when such expenditures are likely to be unproductive and manic moods are energy expenditures at a time when such expenditures are more likely to be rewarding.[70]

Whether one accepts the homeostatic view or not, it is evident from both positions that "emotional expenditures" serve self-preservation. In short, emotions are not part of an interior world of feeling separate from external communication to others. Instead, negative emotions play a large role in communicating to others and preparing the self for action while positive emotions, such as Anat's in 1.3 II, express the fulfillment of action and the achievement of well-being. Hobson (1999:164) would go further in stressing the role of emotion in the very act of perception (and by implication not simply as a matter of reaction): "Emotion is a way not only of perceiving, but also of orienting to the world." For Anat, the cosmos is transformed for good by her furious, even savage battle that intoxicates her with satisfaction.

To return to the commentary on 1.3 II, the central section of the episode, lines 23–27a, is followed by two bicola, lines 27b–30a. The first (lines 27b–28) describes Anat's wading in captives' blood, using the identical language of lines 13b–15. Here again the passage suggests the completeness of Anat's victory. But while the first battle ends with her gathering up survivors, the second battle does not. The following bicolon (lines 29–30) describes the conclusion of the battle, depicting Anat as fighting until she is finally satisfied with her carnage. But now there is no hint of any survivors.

The general interpretation of this passage remains very difficult. There is ambiguity about the nature of the entire conflict depicted in this column, since no motivation for Anat's anger is given in the preserved text. And while the depiction of the first battle (lines 3–16) is

fairly straightforward, the account of the second battle (lines 17–30) is peculiar, with its combination of battle language similar to that in the first battle, alongside the setting of the battle's location within Anat's palace, where she precedes her slaughter by arranging chairs, tables and footstools for her captives. Nor does the passage appear to have any reflex in either the preceding or succeeding columns. It seems that our best chance for understanding is to look toward comparative evidence for possible clues.

There are a number of elements in this section that can be compared to the practice of *ḥerem*-warfare, known from ancient Israel (on *ḥerem*, see Lemaire 1999). The Hebrew term *ḥerem* is usually translated as "ritual destruction, ban" and describes a type of warfare in which all living things connected to the enemy in a battle are consecrated to the god by killing them, either in the battle itself or in mass executions afterwards. This concept is well known in the Hebrew Bible, especially in such stories as the captures of Jericho (Josh 6:21) and Ai (see Josh 8:18–29), as well as Saul's battle with the Amalekites (1 Sam 15:1–23). Josh 6:21 is noteworthy: "They devoted to destruction (*wayyăḥărîmû*) everything that was in the city, men and women, young and old, bulls, sheep and donkeys, with the edge of a sword." *Ḥerem*-warfare is not considered ordinary warfare, but a sacred and solemn form of military engagement (Deut 20:15–18, Joshua 6:17–19). No mercy is to be given to the enemy, and no survivors among people or animals are allowed (Deut 7:1–6, 22–26; Josh 10:28–39; and Deut 13:12–18, where the law allows *ḥerem* to be declared against an apostate Israelite town). In Deut 13:17 the *ḥerem* is called a "whole offering to Yahweh" (*kālîl lĕyahweh*). The concept is also used to describe the warfare of Yahweh against his enemies in such passages as Isa 34:1–7 and 63:1–6, with similar imagery in Jer 46:10 and Deut 32:40–42 (see below). In Isaiah 34, for example, Yahweh declares war against all the nations (vv 1–4) and slaughters them. The poem then turns to Yahweh's war with Edom, whose destruction is explicitly called *ḥerem* (v 5) and is described as a sacrifice (vv 6–7). A key element in understanding several biblical attestations of *ḥerem* is an underlying assumption that divine retribution and judgment are being exacted against those destroyed in the ban.

The custom of *ḥerem* is attested also in Iron Age Moab. The Mesha Stele (KAI 181) describes three battles that King Mesha undertook against Israelite towns in Transjordan. The descriptions of his conquests of Ataroth (lines 10–13) and of Nebo (lines 14–18a) are particularly helpful. Mesha thus describes his capture of Ataroth (line 11–12):

"I fought against the city and seized it, and I killed all the people. The city became a possession (*ḥyt l*) of Kemosh and of Moab."[71] Of the conquest of Nebo he says (lines 15–18): "I fought against it from the break of dawn until noon, and I seized it, and I killed everyone, seven thousand, men and resident aliens, women and female resident aliens, and servant women, for I had devoted them to destruction (*ḥḥrmth*) for Ashtar-Kemosh. I took from there the [ ]s of Yahweh and dragged them before Kemosh."[72] These descriptions of *ḥerem* match the kind of practice found in the Hebrew Bible, and certainly relate thematically to the description of Anat's battle in 1.3 II. Like the biblical texts, the Mesha Stele indicates that the slaughter of the people is a sacred action dedicated to the god. One key difference to note between the *ḥerem* tradition here and 1.3 II is that Anat does not appear to capture or kill noncombatants as we find in the Israelite and Moabite versions of the practice.

Moving beyond the Levant, we find examples of a female goddess undertaking a campaign against human forces in both Mesopotamian and Egyptian texts. As noted above, Inanna/Ishtar in Mesopotamia is well known for her martial exploits. A particularly interesting parallel is found in the hymn to Inanna attributed to Enḫeduanna (late third millennium BCE), lines 43–50 (Hallo and van Dijk 1968:20–21):

> In the mountain where homage is withheld from you
> vegetation is accursed.
> Its grand entrance you have reduced to ashes.

---

[71] Following the reading of Lemaire 1987:206–07; cf. also Parker 1997:45. On *ryt*, the more traditional reading, see Stern 1991:32. The latter reading cannot be completely dismissed. Stern relates this form to the BH root *rwh* in Isa 34:5, where it appears in a context specifically related to *ḥerem*, and in 34:7 and Jer 46:10. If this were the correct reading and etymology, the two latter cases would provide support for interpreting *ryt* here as "satisfaction." Lemaire's reading, which matches the traces on the stone (and, according to Lemaire, personal communication, also on the squeeze), makes fine grammatical sense of the text. Schade (2005) has argued for *ryt* from his examination of the stone and squeeze, but his attempt to find the *r* is unconvincing. As Lemaire has pointed out to us (personal communication), Schade's proposed *r* is much too low on the line. It is better to see the top line of his triangle as the lower horizontal of a *ḥ*. In addition, Schade's proposed *r* on the squeeze shows little relationship to the one he proposed on the stone—its head is much bigger and the proposed lower line is at a different angle from what he suggests on the stone.

[72] Iconographic representations of captives being brought before a god may be seen in Cornelius 1995:21–23, 24, 33–36, figs. 10–15; Amiet 1992:123, figure 292; Bounni and Lagarce 1998:61 n. 69, 62, figures 91:5, 92:1–2, 103–104.

Blood rises in its rivers for you, its people have nought to drink.
It leads its army captive before you of its own accord.
It disbands its regiments before you of its own accord.
It makes its able-bodied young men parade before you of their own accord.
A tempest has filled the dancing of its city.
It drives its young adults before you as captives.

Here we have several themes familiar from the texts thus far surveyed. The people punished by Inanna were rebellious, in this case, having failed to give proper homage to the goddess. The settlements have been destroyed, and so many have been killed that the rivers are polluted with blood to the point that no one can drink the water. The survivors surrender to the goddess and are taken captive. It might also be suggested that in 1.3 II Anat's opponents are presumed to be rebels against her power. But there are differences between this passage and both the Levantine *ḥerem* tradition and 1.3 II as well, particularly in the fact that there is little explicit indication that the captives are to be killed.

The Egyptian story of Hathor/Sekhmet's near-destruction of all humanity, apparently dating to the Middle Kingdom (Lichtheim 1976:197; see also *ANET* 10–11), also provides significant parallels to Anat's battle. In this story humanity plots against Re, the sun god, so he sends out Hathor to fight against the people. She slaughters them in the desert for a while, then returns to Re, and announces, "As you live for me, I have overpowered mankind, and it was balm to my heart" (line 14, Lichtheim 1976:199). Re appears to be satisfied with the punishment, but Hathor, now also known as Sekhmet, is ready to continue until she kills all of humanity. Re arranges for beer that has been colored blood-red with ochre to be poured on the fields where Hathor will fight. When she sees the beer, she believes that the rest of humanity has been destroyed. She drinks the presumed blood, gets drunk and returns home satisfied. Thus Re saves the remnant of humanity. As in the other accounts discussed above, this story uses the motif that the slaughter is brought about by the wickedness of humanity, here plotting against Re. But it also contains elements found in 1.3 II. Hathor here refers to her pleasure at slaughtering humans, a trait that Anat shares with her. We also find a two-stage battle in the Egyptian text, as we have in 1.3 II, although in the Hathor story the second battle is short-circuited by Re. However, it is clear that Hathor intends to wipe out all remaining survivors in the second battle, as Anat actually does in hers. Of course, neither the Mesopotamian nor the Egyptian texts

calls the battle *ḥerem*, but the overall similarities of the stories to the *ḥerem* accounts strongly indicate a close relationship.

The significant similarities between all this material and 1.3 II suggest that the conflict described here is also related to the concept of *ḥerem*. This is supported by another Ugaritic text, CAT 1.13, lines 3–13, which describes a very similar conflict between Anat and an enemy army. In this passage the cognate root *ḫ*rm* itself seems to be used in the context of divine warfare. The passage reads as follows (See Images 91–92):

3–4	*]ḫ̱rm.ṯn.ym/m.*	Devote to destruction (?) for two days,
	šp̱[k dm (?) ṯlṯ[]ymm.	Pour [blood (?) for three] days,
4–5	*lk./hrg.'ar[b'] ymm.*	Go, kill for fo[ur] days.
5–6	*bṣr/ḳp šsk.[dm?]*	Harvest hand(s), pour out [blood?],
6–7	*lḥbšk/'tk.r'iš[t]*	To your waist attach heads.
	[ṯb?]lmhrk	[Return?] to your soldiery,
8	*w'p.ldr['].nšrk.*	And fly at the arm of your raptors.
9	*wrbṣ.lģrk.'inbb.*	And repose at your mountain, Inbb,
10	*kt ģrk.'ank yd't*	The dais of your mountain (that) I know.
11	*[ ]n 'atn 'at*	To the dais (that) I give, come (?).
	mṯbk b'a (?)	To your throne, come (?).
12	*[š]mm rm lk*	To the high heavens, go,
12–13	*prz kt/[k]bkbm*	Then rule the dais [of the s]tars (?).

Textual Notes[73]

Line 3. While the /ḫ/ is not entirely certain, the reading seems the most probable. Only a single short low vertical is preserved, and could be part of a /ḫ/, /y/, /z/ or /s/.

It is theoretically possible to reconstruct *[']ḫ̱rm* or some other root besides **ḫ̱rm*, but none makes good sense. **ḫ̱rm* fits with the parallel command *lk hrg* in lines 4–5. The Ugaritic root occurs in syllabic form, *ḫ̱a-ri-mu*, in the Ugaritic column of *Ugaritica V*, text 137 ii 39', 40', 42'. Huehnergard (1987b:41, 89–90, 126) translates the first instance, which he normalizes as an adjective */ḫ̱arimu/*, by "foe," and the other two cases, "desecrated" (see also *UG* 261, 474), which he relates to a different root. He relates the first instance to BH causative verb *heḥĕrîm*, "to declare sacred, exterminate" and Arabic *ḫ̱aruma*, "to become sacred, be forbidden." De Moor compares the use of **ḫ̱rm* in line 3 with the biblical usage of Josh 8:24, 26 where Ai is put under the warfare ban.

---

[73] For standard translations, see *MLC* 487–94; de Moor 1987:137–41; *TO* 2.19–27.

Line 4. The *p* is epigraphically uncertain. There are clear traces of two long horizontals, but the letter could also be /h/. Stern's suggestion of /ḫ/ (1991:5–6, 79–80) must be ruled out. Wyatt's suggestion /q/ (1998:169, n. 4) relies upon there only being one horizontal. The expression **špk dm* appears elsewhere in contexts related to Anat (see 1.18 IV 23–24; cf. 1.7 II 7).

Line 5. Reading *bṣr* as "to harvest" (so Good) rather than "in anguish" (so de Moor). The cognate in Hebrew is regularly used for the harvesting of grapes (Lev 25:5; Deut 24:21; Judges 9:27 etc.)

Line 6. Reading *šsk* as a causative from **nsk*. If correct, then blood appears to be the most probable object to restore in the break. Different renderings may be found in Walls 1992:140 and Wyatt 1998:170.

Line 7. The *š* of *riš[t]* appears certain, although only the upper left part of the left diagonal of the letter is preserved. The restoration between *rišt* and *lmhrk* is based on the likelihood that another imperative verb should go here. Since *mhr* here has the second fem. sg. possessive suffix on it, the soldiers are probably not the enemy (as the term was used in 1.3 II 11, 15, 21 and 28), but Anat's own soldiers, and thus the verb is probably not a battle-based one.

Line 8. For Anat as a flyer, see CAT 1.108.8: *w'nt d'i d'it rhpt* (Tuttle 1976); and 1.18 IV. For discussions, see Fensham 1966; Pope 1971.

Line 10. For *kt*, see 1.4 I 30. The phrases for Anat's abode beginning in line 9 recall a series of terms for Baal's abode in CAT 1.3 III 29–31, IV 19–20. The first and second person forms in line 10 indicate direct discourse, either a prayer (so de Moor) or a speech of a deity to Anat, possibly Baal. Caquot takes the latter part of the text (from line 21) as a prayer to bless the king with a formula reminiscent of El's blessing of king Kirta in 1.15 II 25–27 (*TO* 2.20, 25–27).

Line 12. For *[š]mm rm*, perhaps compare *b'lt šmm rmm*, Anat's title in CAT 1.108.7. See also *šmm rmm*, perhaps the name of a Sidonian district in KAI 15; and a descendant of the Levantine sacred mountains, "Samemroumos, who is also called Hypsouranios" in PE 1.10.10

(Attridge and Oden 1981:42–43).[74] It is possible that *[šmm]rm* is to be reconstructed in 1.108.9.

If *ḫrm* in line 3 is interpreted correctly here, then we have at Ugarit an explicit designation of this kind of warfare with that term in a context with Anat as the combatant. There is little doubt about the similarity of the battle described here and the one depicted in 1.3 II. In both, we find a description of Anat participating in bloody warfare, references to severing hands and heads, placing the latter on her body, and a return to her mountain after the battle (cf. *SPUMB* 95; Good 1982:55–59; *EHG* 61–64; Walls 1992:140–41). Also noteworthy is the fact that while both accounts dwell heavily on the mythic level of the conflict, they also mention Anat's soldiers, who presumably take part in the battle, even though they are not mentioned in its description. This corresponds to the similar situation in biblical literature, where Yahweh's march to war is often related to Israelite battles. This human element in the battle further emphasizes the relationship between the earthly *ḥerem* and the mythic depictions. The stories of Inanna and (perhaps less likely) Hathor described above may also have assumed an earthly counterpart in their conflicts.

If this approach is correct, then we can make a few suggestions about the context of Anat's battle. First, we note that every other account of *ḥerem*, whether on the divine or human level, assumes that the enemy being slaughtered has done some action that deserves punishment. Thus we may propose that Anat, too, has good reason to go out against these enemies, even if the reasons are not stated in the preserved text. It seems unlikely that a conflict of the scale described here would simply be an example of Anat's violent and unpredictable nature, or that it simply occurs on a whim of the goddess (cf. Wyatt 1998:73, n. 17). Even Aqhat, whom she kills most unjustly, seriously insults Anat about her prowess with the bow, thereby inspiring her violence against him (1.17 VI 39–42). Secondly, we can suggest that the battle probably has a sacrificial connotation just under the surface, and that the references to the goddess' satiety (lines 19, 29) are related to the similar references in Isaiah 34:5–6; Jer 46:10 and the Mesha Stele, line 12.

What is still not clear about 1.3 II, however, is the peculiar account of Anat setting up the chairs, tables and footstools in lines 20–22. None of the other Levantine texts has a parallel to this element of the

story. But again we may get some clues from the Mesopotamian and Egyptian texts described above, along with a further examination of the biblical descriptions of Yahweh and *ḥerem*-warfare. These provide us with references to the devouring of the enemy as the climax and conclusion of the battle. We will shortly draw this theme into our discussion of Anat.

Enheduanna's Hymn to Inanna provides us with a startling description of the goddess in the latter part of the poem (lines 125–127, Hallo and van Dyke 1968:30–31):

> That you devastate the rebellious land, be it known!
> That you roar at the land, be it known!
> That you smite the heads, be it known!
> That you eat bodies like a dog, be it known!

The context of this description indicates clearly that the goddess' devouring of bodies takes place within the context of divine participation in battle. And in the story of Hathor's Destruction of Humanity, the story climaxes when Hathor, seeing what she believes to be the aftermath of the slaughter of all humanity, drinks what she thinks is blood until she gets drunk. Thus these texts show two goddesses, each with characteristics closely related to those of Anat, completing their battles against the wicked by either devouring their bodies or drinking their blood.

Turning to the biblical texts, we find elements of this notion of devouring the enemy preserved in accounts describing Yahweh as taking part in *ḥerem*-warfare. In such passages as Isa 34:5–6 and Jer 46:10, the language of *ḥerem* is mixed with language of eating and of sacrifice in a particularly interesting way. For example, Jer 46:10 reads, "That day belongs to the Lord Yahweh of Hosts, a day of retribution to be avenged upon his enemies. His sword shall devour and be sated, and it shall drink its fill of their blood. For a sacrifice belongs to the Lord Yahweh of Hosts in the land of the north, as far as the Euphrates." Here we find the connection between a battle in which God slaughters the enemy, the notion that the slaughter is a sacrifice and the idea that the slain are devoured. In this case, however, it is Yahweh's sword that does the devouring, rather than Yahweh himself. Isa 34:5–6 reads: "When my sword is satisfied in heaven, it will come down upon Edom and upon the people of my *ḥerem* for judgment. Yahweh has a sword—it is filled with blood, it is gorged with fat, with the blood of lambs and goats, with the fat of kidneys of rams. For Yahweh has a

sacrifice in Bozrah, a great slaughter in the land of Edom!" Here too we find the combination of war, sacrificial and eating imagery, again with the sword of Yahweh doing the devouring.

The close connection between the sacrificial imagery and the notion of eating the enemy and drinking its blood provides a clue about a central aspect of *ḥerem*. It is clear that in the special nature of *ḥerem*, where all things captured in battle are to be given to the god, including all living things, the killing of the enemy is seen as a sacrifice to the god. It is also clear that in Israel and elsewhere, sacrificial offerings were often envisioned as food for the deity (Anderson 1987:14–19; Oppenheim 1964:187–193; Quirke 1992:75; Pardee 2002:226). This is explicitly stated numerous times in Leviticus (3:11; 21:6, 8; 21:17; 22:25). The critical point here is the recognition that what from a human level is a sacrifice, from the divine perspective is a meal. Thus, when the army slaughters the enemy in a *ḥerem* situation, they are, on the human level, providing a sacrificial offering, which on the mythic/divine level the god is receiving as a meal, which he or she presumably devours, as any other offering is consumed.[75] This imagery of the slaughtered enemy as a sacrificial meal for the deity may explain the setting up of the tables and chairs in the story of 1.3 II. This element may preserve traces of a version of the story, similar to those about Inanna and Hathor, in which the victorious Anat sits at the table and devours her enemies. However, that story does not exist explicitly in the text as we have it, though it may have been assumed by the imagery. As the text stands, the poet simply has Anat set up the tables and then slaughter the captives. No clear reference to eating them appears, except in the form of the references to Anat's appetite for war being satisfied, an image related elsewhere to devouring the enemy.

If this view is correct, then what might have led to the difference in the story? There is no way to answer this question definitively. But again there are some potential clues from neighboring cultures. As mentioned above, the mythically oriented biblical texts, Isa 34:1–6 and Jer 46:10, both attribute the eating of the enemy to the sword of Yahweh. This attribution may be a substitution for the image of Yahweh

[75] One should note that, while the practice of human warfare cannibalism is attested in some societies (Harris 1987:204–34; Sahlins 1979:45–47; 1983:72–93; cf. Sanday 1986:125–50), there is no evidence of such a practice in the ancient Near East. *Ḥerem*-warfare cannibalism seems restricted to the divine realm. For further anthropological discussion of cannibalism in myths, see Sanday 1986:41–44, 152–54, 179–81.

himself devouring the human sacrifice. Whether or not this change may have been made because of discomfort aroused by the image of a cannibalistic deity cannot be determined, although it is arguable that within Israel and perhaps some other cultures in the ancient Near East there developed theologies of sacrifice that downplayed the notion of the offering as a meal for the gods. This evidently occurred in certain elite circles of Israel, climaxing in the famous statement of Yahweh in Ps 50:12–13: "If I were hungry, I wouldn't tell you, for the world and its fullness belong to me. Do I eat the flesh of bulls, or do I drink the blood of goats?" If there is some discomfort about the notion that Israel needs to feed its God, this discomfort is not strong enough to cause a consistent removal of the imagery of sacrifices as Yahweh's food. However, the explicit image of Yahweh eating people might have been removed under such conditions or fallen out of use, as the conceptualization of the divine received increasing deanthropomorphic formulations (*EHG* 100–2). In the context of such changes, the motif of the god eating the enemy in *ḥerem*-warfare remained part of the poetic palette, though attributed to Yahweh's sword.[76]

[76] One may also see a somewhat similar development in Mesopotamian thought about the nature of sacrifice. There too we find a long tradition of the notion that sacrificial offerings constitute food for the gods. This is visible in the ritual texts that describe the presentation of food to the gods each day (Oppenheim 1964:188–189). But at the same time, some people rejected this idea. There is no obvious statement in Mesopotamian texts like the one we have in Psalm 50, but there are clear indications in some important literary texts that there was an attempt to downplay the notion of sacrifice as meals for the gods. Tigay (1982:224–29) pointed out that when the Flood Story from the Old Babylonian Atrahasis Epic was adapted into the Standard Babylonian version of the Gilgamesh Epic (late second millennium BCE, or perhaps early first), the adaptor intentionally deleted every passage in the earlier text that mentions either the gods being hungry or their eating (see also Anderson 1987:16–19). He particularly pointed out the following sections: Atrahasis III.iii.30–31 reads, "The Anunna, the great gods, were sitting in hunger and thirst." This comes into Gilgamesh XI:113–144 as "The gods feared the Flood. They retreated and went up to the heaven of Anu." Atrahasis III:iv.15–23 reads: "The gods wept with her for the land, she was sated with grief, thirsty for beer. Where she sat, they sat weeping. Like sheep they filled the trough. Their lips were feverishly athirst, they suffered in starvation." But Gilgamesh XI:124–126 reads in parallel: "The gods of the Anunnaki were weeping with her. The gods humbly sat weeping. Their lips burned; they were taken with fever sores" (for Atrahasis, see also Lambert and Millard 1969:94–101). The Gilgamesh text changes the Atrahasis line, "They (the gods) gathered like flies around the sacrifice," to "The gods gathered like flies around the one who made the sacrifice." It also leaves out Atrahasis III.v.36: "[After t]hey had eaten the offering." Not all of the elements of the story related to eating are removed from the Gilgamesh version—it doesn't entirely remove the story of Atrahasis/Utnapishtim offering the sacrifice and the gods smelling the sweet savor—but the most explicit elements are gone. One might also notice how the

This same sort of omission, in depicting a deity explicitly devouring enemies, may underlie the description of the goddess in 1.3 II. Although such portrayals of deities were clearly used earlier in Mesopotamia and Egypt, it may be that by the Late Bronze Age, such images were decidedly less in vogue, at least in some quarters. So perhaps here in 1.3 II Anat (like Yahweh in the passages above) becomes the one who slays the captives, rather than the one who accepts and devours the captives as an offering. At the same time, certain elements of the classic notion of the sacrifice as a meal are preserved in the reference to the preparation of the tables and chairs for a feast and the noting of her satisfaction at the end. As an alternative, the poet simply chose to mute the more explicit elements in a subtle, evocative picture of Anat's cannibalistic feast. The fighting is described as a feast with chairs, tables and footstools arranged for the "guests of honor," namely the soldiers who are her captives whom she drives back to her palace in lines 15b-16. In this alternative view, these "guests" would also be the main course (see *EHG* 78 n. 131; Smith 1995), although there is no explicit depiction of the devouring.[77]

The motifs involved in this depiction of warfare are distinct from the portrayal of the storm god in battle. Following in part Jeremias (1965), Cross describes the march of the divine warrior as a "*Gattung*" (*CMHE* 147 n. 1) or "an archaic mythic pattern" (*CMHE* 162–63) showing four elements: (1) the march of the divine warrior; (2) the convulsing of nature as the divine warrior manifests his power; (3) the return of the warrior to his holy mountain to assume divine kingship; and (4) the utterance of the warrior's "voice" (i.e., thunder) from his palace, providing rains which fertilize the earth (for a more recent survey, see Dion 1991). If this conglomerate of elements may be said to constitute

story of humanity's creation in Atrahasis is reworked in the later Enuma Elish. In the older work, the lower gods are forced to grow the food that feeds the upper gods. They go on strike until Ea comes up with the idea of creating humans to grow the food. In the Enuma Elish, the creation of humanity is part of the original creation of the world. There is no clear context to indicate exactly which burdens the humans will take from the gods. But it is clear that for the Enuma Elish, growing food to feed the gods plays no real role.

[77] Lloyd (1996:157) has made a similar proposal that this passage is informed by "ritual sacrifice of prisoners-of-war before cultic statues." He argues that Anat is destroying them, which hardly explains the need for tables and chairs in 1.3 II. For this reason one may maintain for this context a specific sort of destruction in the form of a divine meal, in other words warfare cannibalism.

a "*Gattung*," or "pattern," then some cases of *ḫrm/ḥerem*-warfare predicated of deities may also be defined as a pattern possessing three chief identifying characteristics: (1) the divine pursuit of warfare proper; (2) the deity's return of the captives to the divine palace; and (3) the divine destruction of the captive-warriors. As noted above, optional elements of the pattern would include divine laughter, viticultural imagery and mention of the victims' body-parts.

We now turn to the question of how 1.3 II fits into the context of the rest of 1.3. It is not immediately obvious how this story belongs between the feast of Baal in 1.3 I and the sending of Baal's messengers in 1.3 III. Two possibilities seem plausible. First, Anat fights enemies on the terrestrial level while Baal wars against Yamm on the cosmic level. As allies and siblings, they join ranks in fighting hostile forces. Here Baal's words to Anat in 1.10 II 24–25 illustrate their joint action: *nṭ'n b'arṣ 'iby/ wb'pr qm 'aḫk*, "we will thrust my enemies into the earth, /And in the dust the enemies of your brother." The same verbs of fighting appear in contexts related to these two deities, specifically **mḥṣ* in 1.3 III 47, **ṣmt* in 1.3 III 44 and 1.18 IV 38 (of Anat); 1.12 II 34 (*UT* 19.2176; *DUL* 786–87) and **grš* in 1.2 IV 11–13 (of Baal; cf. 1.1 IV 24). The grouping of the god and goddess in a martial manner may be reflected in the expression, *mhr b'l wmhr 'nt*, in 1.22 I 8–9.[78]

The second possibility is that the portrayal of Anat at war appears in this context because this activity was considered typical of her. In the Ugaritic mythological texts, when messenger-deities arrive to deliver their master's words or when a deity travels to see another divinity, the narratives often present the divine recipients of the communication in an activity considered characteristic of them. Thus when Yamm's messengers arrive at the divine council in 1.2 I, it is in its characteristic mode of feasting. When Baal and Anat reach Athirat in 1.4 III, she is presented working at her domestic chores. When Athirat visits El in 1.4 IV, he is seated on his throne (Pope 1971). Here, then, Anat is portrayed

[78] The unnamed war goddess of Ashqelon was called *phane bal* on Greek coins; perhaps the goddess in question was Anat (see *CMHE* 28, 31; cf. Ginsberg 1945:10). If correct, *phane bal* would reflect her close identification with Baal. Iconographic evidence may likewise reflect this alliance of divine siblings. The theme of the battling god with the winged goddess is well-known from seals attested from Syrian sites (Tessier 1984:79–80, 241–7; Amiet 1982:30–33), including Emar (Singer 1993:185, seal 2); the figures of Baal and Anat seem to be one Syrian literary version of this theme, as Anat's fighting here as in 1.6 II may be to aid her brother. Schaeffer-Forrer (1979:42) identifies the winged goddess depicted on cylinder seals with Anat.

in her role as punisher of the rebellious on earth, in preparation for the account of the messengers' arrival. There is no reason to view 1.3 II (or 1.3 more generally) as intrusive (cf. Batto 1987).[79] Even if modern interpreters cannot fully determine the reasons why an episode appears in its context, it is better to assume that the storytellers had their reasons for doing so that were clear to them and had a narrative logic that we may be unable to recover today.

Lines 30–1.3 III 2: Anat's Cleansing

The final section of 1.3 II involves Anat's cleansing herself and her house following the slaughter. The section opens with a **yqtl* form in the initial position, denoting continuity of the narrative line, but the switch of subject and the use of the passive voice indicates a shift in perspective and topic. The verbal action is narrated (with one exception) in a series **yqtl* forms in the cola through line 38. There the narrative stops for a moment to focus on the precipitation that Anat uses to wash herself. The description is elaborated by a series of extended direct objects in lines 39–40, themselves followed by parallel asyndetic relative clauses in lines 40–41. The only departure from the string of **yqtl* forms in lines 30–38 is the infinitive absolute *ṯ'r* in line 36 preceding the parallel verb *tṯ'r* in line 37. This unusual sequence, involving an infinitive absolute preceding the parallel **yqtl* form (instead of the other way around, as would be expected, as in lines 20–22 above), is a stylistic reversal of the same verbs in lines 20–22 (APO). The first two lines of column III,[80] which directly succeed line 41, resume the **yqtl* sequence (*ttpp*), indicating a return to the narrative. Following the legible part of line 2, the text essentially breaks off (there are a few signs on line 3), beginning a gap of about twenty lines.

1.3 II 30b–41 plus 1.3 III 1–2 depicts Anat's cleaning in three parts: (1) Anat's initial washing due to her preceding battle (lines 30b–35);

[79] Without discussing Batto's otherwise valuable proposals in their entirety, it is untrue that the Baal Cycle here involves "a newly created humanity." Batto assumes this view on the basis of his helpful comparison with "The Deliverance of Humanity from Destruction" (*ANET* 10–11). While an older mythic tradition about Anat thematically akin to this Egyptian text may have existed prior to, and/or independent of, the Baal Cycle, such a tradition certainly has been placed in 1.3 II–III largely in the service of the Baal Cycle's presentation of Baal.

[80] Lines 1–3 are part of the smaller separate fragment of CAT 1.3, RS 2.[014], while the following lines of column III belong to the main piece of this tablet.

(2) Anat's restoration of the furniture to its proper place (lines 36–37); and (3) Anat's further washing and application of cosmetics (lines 38–1.3 III 1–2). The two outside descriptions of cleansing frame the inside narration about the furniture's return (ABA'). It is suggested above at the outset of the commentary to column II that this section balances with Anat's application of cosmetics before the battle, when this column becomes legible (lines 2–3b). Lines 31b–41 are also tied in two ways to the preceding section, lines 19–30a. In this prior scene Anat is engrossed in the blood of warriors, while in this scene she washes herself of the warrior-blood. In the preceding scene Anat arranges furniture for her victims and then destroys them, whereas in this scene she returns the same items of furniture to their place.

The initial action in the first section involves wiping away blood from her palace, followed in the same bicolon by the pouring of oil in a bowl (lines 30b–32a). It is also possible to render the verbs as active voice impersonal verbs in the singular[81] ("one wipes.., one pours"; see Dietrich and Loretz 1981:93). The other issue in this bicolon is the precise nature of *šmn šlm*, usually rendered "oil of peace" or the like. It is possible that this is oil which is provided as a "peace-offering" (see *CML*^{2} 48; Sanmartín 1976:462; *MLC* 629; del Olmo Lete 1978:41; see *SPUMB* 96, 104). However, Levine (1974:13) rejects a specifically sacrificial nuance here. He comments: "it is more likely that the use of oil was for the purpose of anointing the goddess, as a form of purification or as a means of investing her in a cultic office" (for the latter, see the case of Emar 369.3–4, 20–21; see Fleming 1992:10, 20, 49, 51, 77). While there is no sign of cultic office apparent in this context, the notion that anointing with oil is used for purification seems likely. In CAT 2.72.29–32, we find such a use of oil: "He also took oil in his horn[82] and poured it on the head of the daughter of the king of Amurru. Whatever sin she has committed against me, you should know it has been atoned" (Pardee (1977:4). In this case the symbolic act of pouring oil signals a transition from sin to purification (see the fine discussion of Pardee 1977:14–17). A transition of state or status is found also in the anointing in RS 8.303 (8.208; *PRU* III, 110–11). In this text, a servant is released by her owner, Kilbi-ewri, who "poured oil on her head and rendered her pure" (Lackenbacher 2002:329–30,

[81] The plural is unlikely, as *t-* marks the third person plural (Dobrusin 1981).
[82] For the motif, cf. 1.10 II 21–23; and 5.23.1–2 (?).

332–33). Oil in anointing rituals is known from Ebla (Viganò 2000), in the Amarna letters EA 34.47–53 and 51.5–9 at Mari A.1968 (so Malamat 1998:18 n. 19, 152) and at Emar (see Fleming 1992:174–79). In 1.3 II, the context suits a notion of purification. By way of connotation, this phrase may further signal the cessation of hostilities between Anat and her enemies. Dietrich and Loretz (1981:83) follow Janowski (1980:238) in rendering *šmn šlm* by "wohltuendes Öl." An "oil of well-being of Baal" is part of the ritual in 1.119.24–25. Later in 1.3 III, when Baal sends his message to Anat, the phrase represents "an offering of oil meant to induce well-being from Baal" (Pardee 1997b:284 n. 19). As observed by Pardee (1977:14–17), anointing marks a transition as well as an elevation in rank in several instances (for further cases, see Fleming 1992:178–79). In sum, here in 1.3 II, the phrase signals Anat's purificatory transition from battle, and it may anticipate the message to come from Baal.

In the second bicolon (lines 32b–33), Anat washes her hands. Here Anat is called *btlt*, not "virgin," as the word is often translated, but a young female married or unmarried who has not yet borne children (for evidence and earlier discussions, see *UBC* 1.8–9 n. 20). A parallel situation apparently obtains in the Egyptian lexicon. According to Teeter (1999:410),[83] Egyptian contains no term for "virgin," and following J. Johnson, Teeter argues that the Egyptian terms often understood in this manner (*ʿḏdt, rnnt, ḥnwt*) actually denote a young female. Teeter (1999:411) suggests: "Just as there is little evidence for a moral value attached upon virginity, there is little evidence that premarital (as opposed to extramarital) sex was considered to be impure." In this connection, one might also note the characterization in the Middle Kingdom work known as "Three Tales of Wonder" (Lichtheim 1973:216). In the narrative, an old tale is recounted about how King Snefru decided one day to go boating, and he wished to include in his boating-party "twenty women with the shapeliest bodies, breasts, and braids, who have not yet given birth." The description perhaps captures an ancient male standard for sex appeal in females, not so much that they are virgins, but young shapely women. In Anat's case, her stage of life exemplifies the young woman prior to motherhood (P. L. Day 1991; Walls 1992).

In line 33, the goddess is also called *ybmt l'imm*, "the In-law of the Peoples." The first is a legal term for in-law familial relations (*ybmt*;

see the discussion in *UBC* 1.196 n. 148; see also J. M. Sasson 1979:29; Pardee 1997a:243 n. 12). The second word refers to peoples or clans (*UBC* 1.196 n. 149; for the term at Emar, see Fleming 1992:74 and Pentiuc 2001:110–11; and at Mari, see Malamat 1998:165–67). Alternative interpretations of the phrase go back at least to Løkkegaard (1953:226). More recently Wyatt (1992:418) reads *ybmt l'imm* as a variant of *ymmt l'imm* (attested once, though usually regarded as an error; see p. 197) and compares Arabic *yamamat*, "pigeon, dove." This approach requires interpreting the single occurrence of *ymmt l'imm* as the key to the multiple occurrences of *ybmt l'imm* (1.3 II 33, IV 22 [partially reconstructed], 1.4 II 15–16 [partially reconstructed], 1.10 III 3 [partially reconstructed], 1.17 VI 19, 25), an approach which is possible, but problematic. Wyatt (1992:419) and Pardee (1997a:243 n. 12) read *l'imm* as the name of the Amorite deity Li'mu. But to do this, they must regard the second *m-* on Ugaritic in each instance as enclitic—possible, but not compelling. Critics rightly point to the fact that the precise significance of this epithet, "the In-Law of the peoples," is unknown. The title may express Anat's relations to the world and humanity, but it is difficult to determine a more precise sense. The word as a term of expressing Anat's familial relation to humanity need not be regarded as being "nonsensical" (Pardee's characterization), or showing "implausibility" (Wyatt), even if it could stand further elucidation. An alternative, "sister-in-law to the terrible ones" (i.e., the gods) has been proposed by Fox (1998), who otherwise musters no other cases of Ugaritic **'imm* without prefix *l-* in this meaning, much less any other application of this meaning to the word to deities.

The third bicolon (lines 34–35) augments the description of Anat's washing. In other words, lines 32–33 inform that Anat washes her hands, while lines 34–35 explains either what Anat washes from herself or in what she washes herself (see below). In Watson's terms, the first bicolon delays the identification of the persons' blood until the second bicolon (Watson 1994b:436). Accordingly, lines 34–35 do not represent a new narrative action, but a specification of the action first identified in lines 32–33. Many commentators take this bicolon to mean that Anat cleans the blood from herself (*ANET* 136; *GA* 89; *Thespis* 237; Moroder 1974: 252; *CML*[2] 48 and n. 3; Pope 1977b:606; Wyatt 1998:75). This view would accord with common suppositions about cleaning and blood, that blood is something to be cleaned from oneself and not a liquid to use to wash oneself. Yet, when it comes to blood, Anat is extraordinary. According to Driver (*CML*[1] 85), Aartun (*PU* 2:22) and Pardee

(1980:276), the line does not mean that the goddess "washes from her hands warrior-blood," which would more likely be expressed by **bydh dm dmr* (followed by Smith, *UNP* 108). Instead, the syntax *ydh bdm dmr* would appear to indicate that she washes "her hands in warrior-blood" (see also Smith, *UNP* 108; cf. de Moor 1968:212).[84] Pardee comments: "bathing in victims' blood was part of the process of restoring peace after wiping out enemies." However, the reasoning of Driver, Aartun and Pardee is unnecessary, as shown by the syntax in 1.16 VI 10. The passage describes the healing of Kirta by Shataqat: *trḫṣ nn bdʿt*. 1.16 VI 10 means: "She washes him of sweat." (It hardly likely that Shataqat washed Kirta "in" sweat.) As this line shows the identical syntax of 1.3 II 34–35, it appears reasonable to translate the latter lines similarly: "She washes her hands of the warrior blood, her fingers of the gore of the soldiers." At the same time, the parallel does not definitively disqualify the view of Driver, Aartun and Pardee. In any case, the prepositional phrases here (*bdm dmr//bmmʿ mhrm*) echo lines 27–28 as well as the earlier lines 13–15, suggesting a sense of overall continuity with these parts of 1.3 II.

Lines 36–37 similarly echo lines 20–22 (as noted above). They describe the restoration of the furniture, perhaps another indicator of the return to routine life following the violence. In line 37, the major crux is *tṯʾar*. The other occurrences in lines 20–21 (and presumed for line 36) derive from the similar sounding root **ṯʿr*, "to arrange," a root that applies to food (1.3 I 4), furniture (1.3 II 20, 21) and apparently hinges (1.24.35), although a clear etymology is lacking.[85] Since the ordinary meaning of **ṯʾr* seems to involve blood-relations or revenge (see *UBC* 1.250–51), an unlikely verb in association with furniture, it would seem that a scribal error is involved here and that the word should be emended to *ṯʿr*.

Lines 38–1.3 III 2 return to the theme of Anat's ablutions. The first phrase, *[t]ḫspn mh*, presumably in preparation for washing, is somewhat unclear. The verb is a word that seems to apply broadly to liquids, since it used also with reference to wine (1.91.29, 36) and dew (1.19 II

[84] Moroder, Gibson and Pardee compare Ps 58:11: "The righteous will rejoice when he sees the vengeance; he will bathe his feet in the blood of the wicked." Other biblical passages which may reflect such an idea include Ps 68:24; cf. 1 Kgs 21:19, 22:38 and 2 Kgs 9:36. The combination of applying both blood and oil to persons may be found in the cultic contexts of Exod 29:21 and Lev 8:30.

[85] See *TO* 1.153–4 n. f for suggestions, all somewhat problematic; cf. Pentiuc 2001:117 for a proposed connection with Emar *maš'irtu*, a kind of vessel.

2, 6, IV 37), as noted by Zamora (2000:459). A tentative translation, "she draws water," fits contextually and can be defended on the basis of BH **ḥsp* and Arabic *saḥafa* (*DUL* 373; see Zamora 2000:460–62). The liquids characterized in the next two cola involve two forms of natural precipitation. First, dew (*ṭl*) of heaven is further characterized metaphorically as oil (*šmn*) of the earth. Watson (1994b:104) regards this line as a case of parallelism within the verse line, and in this case the second and parallel term *šmn ʾarṣ* functions to further define or describe the initial term *ṭl šmm*. Perhaps the sense is that the dew functions as purifying oil for the earth. Second, showers (*rbb*) of Baal the Cloud-rider also provide Anat's water. The Ugaritic word-pair *ṭl//rbb* is attested elsewhere of precipitation generated by Baal (1.19 I 44–46; Avishur 1984:57): *bl ṭl bl rbb/bl šrʿ thmtm/bl ṭbn ql bʿl*, "No dew, no downpour, No swirling of the deeps, No welcome voice of Baal" (Parker, *UNP* 69).

The second bicolon in lines 40–41 further describes the two forms of precipitation, "the dew (*ṭl*) which the Heavens pour on her" and "the showers (*rbb*) which the Stars pour on her." Craigie (1977:34–35; cf. 1978:379–80) argued that the stars are part of Anat's retinue and, in this case, her servants providing rain for her ablutions. It is true that Anat is called *bʿlt šmm rmm*, "mistress of the high heavens," in CAT 1.108.7 and that CAT 1.13, a text devoted to a description of Anat, refers, even if somewhat unclearly, to the stars (line 13): *[k]bk(!)bm ṯm tpl klbnt*, "the stars fall there like…" (see *TO* 1.162). Yet these passages may reflect no more than Anat's well-known capacity for flight (Pope 1971). Hanson (1972:46–47 n. 2) offered a different explanation for the precipitation in our passage. He noted biblical parallels, such as Isaiah 34–35, 63, Ezekiel 39, and Zechariah 9, which present the divine warfare discussed above. Hanson suggests that the structures of 1.3 II and Zechariah 9 conform to what he calls a "ritual pattern":[86]

> In Zechariah 9, as in the ʿAnat text, a battle has been fought which is crucial in the struggle against the forces. But the actual restoration of fertility is tied up with the sacrifice and banquet which follow, where the

[86] This expression, found quite commonly in Hanson's work, suggests that elements of a ritual constitute a pattern in literary texts such as the Baal Cycle or Zechariah 9. The question is the evidence for the actual ritual lying behind this pattern, an issue that Hanson does not address. In support of Hanson's use of this term, it is precisely *ḥrm*-warfare and destruction of enemies discussed above that is the ritual informing this pattern (or more precisely, group of shared elements).

> treading and blood-shedding have the effect of unlocking the forces of fertility of the earth. We thus recognize in the sacrifice and banquet an example of what has been described as a *rite de passage*… As the second column of the 'Anat ends with the goddess bathing in the dew of heaven, the fat of the earth, the rain of Baal, Zechariah concludes with a similar celebration of the restored fertility…

While one may note a parallel between the divine warfare in 1.3 II and that in Zechariah 9, it is unclear that a parallel exists between Anat's washing and the conclusion of Zechariah 9, as Hanson suggests. The precipitation in II 38–41 does not appear to be related to cosmic fertility here. The dew and showers are not particularly special in the cosmic scheme of reality. The sort of cosmic fertility that Hanson invokes does appear in the Baal Cycle, but it is the content of the secret that Baal will unveil to Anat later in 1.3 IV, namely the thunder and lightning and the resultant cosmic fertility unleashed by the construction of his palace and specifically his window in 1.4 V–VII. In contrast, the precipitation used by Anat here in 1.3 II 38–41 is more mundane, accessible even to mortals.

The dew is associated with the heavens also in Gen 27:28, 39. The source of this precipitation is known also to the human Pughat who "gathers dew (*ṭl*) from the barley," and "kn[ows] the way of the stars" (1.19 II 2–3, 38–39). The notion that the stars provide precipitation (*TO* 1.161 n. e) is known from an Akkadian text from Ugarit (*Ug VI*, pp. 393–408), col. III, line 41' which reads *ki-ma na-áš-š[i šá MUL.MEŠ]*, "like the dew [of the stars]" (Watson 1977:274). Weinfeld (1983:133 n. 56) also compares Isa 26:19: "For your dew is like the dew of light" (cf. Job 37:15, discussed above on p. 120, in connection with Pidray's epithet, *bt 'ar*). The more generic biblical expression, "dew of heaven" (Gen 27:39; Deut 33:13), likely reflects this notion as well (*GA* 121). Classical and Arabic sources preserve the idea that rain is an astral effluvium (see *Thespis* 237; cf. Judg 5:20–21). The purpose of Anat's washing may not involve anything so heightened as cosmic fertility. More likely her ablutions simply involve cleansing the gory viscera of battle. Precipitation from various cosmic sources lies at Anat's disposal: dew and rain come from above. Oil of the earth may be a phrase characterizing the dew of heaven, since dew and showers are twice parallel (lines 39–40 and 40–41), and in the first parallel, oil of earth simply follows dew of heaven. Yet, if oil of earth were to connote a further source of precipitation, one might think that it refers to precipitation produced by the earth, in other words, water from a spring

(cf. Gen 49:25, "blessings of the Deep lying below"; see the suggestion along these lines in Bordreuil 1990 and Smith 1995). However, such a proposal is not necessary.

The goddess' contact with death and blood apparently involves two of the more "polluting" phenomena that would require ritual purification. Scholars have compared purification ideas from other cultures with Anat's washing in this context. Some have related this sort of cleansing to the removal of defilement following contact with corpses in Israelite cult. Cassuto (*GA* 140) compared Numbers 19 that prescribes washing following contact with a corpse. Cassuto also noted Num 31:19, which involves purification for those who have had contact with corpses and return from battle.

As a heuristic contrast, we may note Kali's contact with blood and death. Kinsley's discussion of Kali is perhaps illustrative of these ritual sensibilities (1996:83–84):

> Kali . . . is almost always associated with blood and death, and it is difficult to imagine two more polluting realities in the context of a purity minded culture of Hinduism. As such, Kali is a very dangerous being. She vividly and dramatically thrusts upon the observer things that he or she would rather not think about. Within the civilized order of Hinduism, the order of dharma, of course, blood and death are acknowledged. It is impossible not to acknowledge their existence in human life. They are acknowledged, however, within the context of a highly ritualized, patterned, and complex social structure that takes great pains to handle them in "safe" ways, usually through rituals of purification. For those inevitable bloody and deathly events in the human life cycle, there are rituals (called *saṃskāras*, "refinements") that allow individuals to pass in an orderly way through times when contact with blood and death is unavoidable . . . . Kālī, at least in part, may indicate one way in which Hindu tradition has sought to come to terms with the built in shortcomings of its own refined view of the world . . . Kālī puts the order of dharma in perspective, or perhaps puts it in its place by reminding the Hindu that certain aspects of reality are untameable, unpurifiable, unpredictable, and always threatening to society's feeble attempts to order what is essentially disorderly: life itself.

This description of Kali provides a helpful contrast to Anat. Both goddesses of death and bloody conflict, Kali and Anat are young females unbound by the patriarchal order of divine society. In Kali's case, this unboundedness carries over to her unpurified state. As in Hindu society, purification is a regular feature of West Semitic cultures. Compared to Kali's apparently permanent condition of defilement, Anat's washing in this context may reflect two sides of blood and purification

marked by the separation of the two sets of ablutions; lines 32–35, on the one hand, and lines 38–41 on the other hand, are demarcated by the goddess' return of the furniture in lines 36–37. Lines 30–35 may represent an initial stage of cleaning (from blood), while lines 38–41 constitute a more conventional sort of cleaning, the sort that is customary for human participants in rituals (see the bathing and anointing of Ashurbanipal's guests at his dedicatory feast at Calah, in Grayson 1991:293), but occasionally for deities as well (for an example of the latter, see Emar 369.84: "I will draw water for the bathing of Ashtart, my mistress"; see Fleming 1992:211). The first set of "ablutions" are Anat's washing from blood, perhaps a sign of her separation from death, while the second represents her engaging in the more common purificatory ablution. If Kali, especially in her defiled state, evidences the unpredictability of life as Kinsley would have it, the presentation of Anat and her double washing perhaps accents the intersection between the general beneficial cosmic order of divinities and the violent dimensions of life in the cosmos that divinities sometimes share with, and on occasion visit upon, humanity.

From a literary viewpoint, Anat's attention to her physical care ends in the next column (III 1–2), which is treated below after presenting the text and translation of that column.

Textual Notes

Line 4.]ẏ[There appears to be the lower part of a vertical wedge preserved just above the left wedge of the š in mšr of line 5. Its location is consistent with the proposed reconstruction of /bydh/, since the wedge can be read as the lower wedge of the left side of a /y/, and there is room for the proposed /dh/ before the /m/ of /mšt/. The reconstruction below, [*y/tʾiḫd.knrh.bydh*], is offered tentatively; it is based on the apparent parallel in CAT 1.101.16.

mšt The broken sign to the left of /št/ consists of the bottom part of a single vertical wedge. An /m/ seems by far the most likely reading. The form, *mšt*, thus parallels the form of *mšr* in the following line; Pardee (1988a:150) notes this reading. See also Pardee 1997a:251 n. 83.

Line 5. ṁšr The /m/ is certain. The entire horizontal survives, and the left side of the vertical is preserved along the break. *mšr* often has been emended to *tšr*, based on the parallel passage from CAT 1.101.17. Yet Pardee (1997a:251 n. 83; cf. the substantial discussion in Pardee 1980:276–77) defends the text as it stands. The emendation is to be resisted in view of other differences between this text and CAT 1.101.

Line 7. ’ahbṯ[ ] The upper line of the /t/ of /’ahbt/ is preserved. We see no traces left of the following word divider read by CAT.

ṯly The /ṯ/ is poorly preserved, but the lower parts of the two right wedges are visible.

Line 8. ỷʿbdr The /y/ is certain by context, although only the upper right wedge is preserved, with slight traces of the indentations of the two wedges below it.

Line 9. ʿṛbn The left side of the /r/ is damaged, so only the three right wedges of the letter are preserved, thus making it look like a /k/. But there is plenty of room for the two left wedges in the break.

ḫbr The /h/ is damaged, but the lower line of the bottom horizontal and the right point of the upper one are preserved.

Line 10. kbd.hyt There is a small word divider between the two words, not noted in previous editions.

Line 11. wrgm CAT reads a word divider after w. We see no trace of it.

Line 12. lymmt /ymmt/ is certainly the correct reading, although this first /m/ is likely a scribal error for /b/, since the epithet *ybmt l’imm* is well attested, while this is the only occurrence of *ymmt l’imm*. So also Pardee 1997a:251 n. 85. For a defense of the reading, see Wyatt 1992:418. If the reading is an error, it suggests an aural misunderstanding by the scribe involving bilabial consonants (see Sivan 1997:28).

Line 15. ṁlḥmt The upper line of the first /m/ is visible, as is the lower tip of the vertical. The three tips and part of the right side of the right wedge of the /l/ are preserved.

Line 19. tlsmn The /n/ has four wedges, rather than the usual three.

Line 21. w. There is a clear word divider between /w/ and /'argmk/, as noted by CAT (and Virolleaud's original drawing).

Line 27. rgmltdʿ There is no word divider after /rgm/ as CAT proposed.

wltbn There is a break after the /w/, but there are no clear traces of a word divider here, as proposed by CAT.

Two horizontal lines are inscribed across the column following line 31.

Line 32. ʿnt The /n/ has four wedges.

Line 35. tšʾu The /š/ is damaged, but parts of all three wedges survive.

Line 36. gpṅ.ẇ Only two wedges of the /n/ are preserved, but context assures the reading. The interior of the /w/ is also largely gone, but the reading is certain.

Line 37. This line begins well to the right of the margin, since line 33 of column 2 has come over the margin line. The scribe placed a word divider between the end of 1.3 II 33 and the beginning of 1.3 III 37.

ypʿ[The only surviving part of the /ʿ/ is the deep interior of the wedge. None of the edges survive. No clear remnant of a word divider after this word is preserved, but there likely was one.

Line 40. 'ištmxḫ The last two letters are uncertain. Following the /m/, we find the upper left edge of a vertical wedge and possibly the upper right tip of another vertical on the right side. CAT's reading of the first wedge as a word divider seems unlikely. The possible readings include /l/, /b/, /d/, /s/. The area of the letter is wide, suggesting either /l/ or /d/.

The final letter on the line is also uncertain epigraphically. All that is preserved are two horizontal wedges, one above the other. The lower part of the letter is destroyed. The upper wedge is long enough to suggest either /h/ or /ʾi/ here, with context arguing for /h/. The translation below assumes reading *'ištmd̲h*. See Pardee 1984:252–54 and the Commentary below.

Line 42. .d. This letter has four verticals, rather than the usual three.

rʾašm The /š/ is badly damaged, but fragments of the left and right wedges are visible.

Line 43. ʾilm The *ʾi* is made with four horizontals instead of the usual three.

ʾår[The two surviving letters of this word are damaged. The lower line of the /ʾa/ shows evidence of two wedges, although breakage has destroyed the entire interior of the letter. The /r/ is in better shape, with all five wedges preserved. There appear to be no traces of the next letter (š) as read by CAT.

Line 44. ʿgl.ʾil Both *l*'s are made with four vertical wedges instead of the usual three.

Line 45. klbt The /l/ of /klbt/ has four wedges. This is not a word divider plus regular /l/, as proposed in CAT (cf. Pardee 1984:254, who already noted this). See earlier discussions about the supposed word divider, in Watson 1978:397–98; del Olmo Lete 1978:51 n. 20).

Line 46. klt The /l/ has four wedges.

kṡp The upper wedges of the /s/ are preserved, and the indentation of the lower wedge can also be seen. Unfortunately, our photograph does not show the right section of this line well. Cf. the discussion in CTA p. 17, n. 4 and Pardee 1980:277.

Line 47. ḫrṣ The /ḫ/ has four wedges.

bʿl The /l/ is poorly preserved, with only two wedges clear. But the reading is certain.

(The last two words of line 47 will be discussed with column IV).

The relative pronoun *d-*, like biconsonantal nouns lacking a corresponding verbal root in Semitic language (e.g., *dm* and *ʾab*), might be traced back to an early stratum of the Afro-Asiastic family; see M. Cohen 1947:158, #347. For the comparable case of monoconsonantal *p-*, "mouth," see the cognates proposed by Cohen 1947:171, #380.

[6] For the syllabic forms, see Huehnergard 1987b:120–21; *UG* 171, 194. Tropper reconstructs **hôwatu* < **hawayatu*. Cf. Akkadian *awatu*.

[7] See *UBC* 1.203 n. 158. A *D*-stem imperative is also plausible.

[8] For the syllabic evidence for this word, see *UG* 167.

[9] The context here suggests an ever-widening range of objects: tree and stone, heaven and earth, the Deeps and the stars. None of the appearances of *šmm/'arṣ* elsewhere in the Ugaritic texts suggest a meaning of "Underworld" as the opposite for "Heaven" (1.16 III 2; 1.3 II 39; 1.23.62; 1.47.12; 1.118.11; 1.148.5, 24). In the Hebrew Bible, the overwhelming meaning of *'ereṣ* when joined to *šĕmāyim* is "earth," not "Underworld" (Gen 1:1; 2:1; 2:4; 14:19, 22; Isa 1:2; 49:13; 51:13, 16; 55:9; 69:35; 89:12; 115:15, etc.)

But *'arṣ* can also mean the netherworld in Ugarit and elsewhere. See *DUL* 107; *UBC* 1.145, 176 n. 118. A similar meaning occurs for Akkadian *erṣitu*, "earth". See *CAD E*:310–11; Wassermann 2003:84. The biblical passages with *'ereṣ* in this sense sometimes show some contextual indicator, such as *šaḥat* in Jon 2:7, or the image of the underworld swallowing up (**blʿ*) the enemy in death in Exod 15:12 (see *CMHE* 129 n. 62). For discussion of the biblical evidence, see Tromp 1969:23–46; some of the examples marshalled are debatable.

[17] The root here is **nṭṭ* (cf. Arabic and Eth *nṭṭ*; *DUL* 653). The root is also compared to BH **nwṭ* (*BDB* 630), attested only in Ps 99:1 (*CML*[2] 152). Geminate/middle weak root biforms are attested in **mṭṭ* (11QPS[a] 28:2)//**mwṭ* (see *BDB* 556), also in the meaning, "to totter, shake." Cf. **nwb* and **nbb*, discussed below on p. 417.

[21] The noun *'ib* corresponds to syllabic Ugaritic *e-bu* and Amarna *i-bi* (EA 252.28, so Sivan 1997:158), like the base of BH *gēr* from **gwr* (so Huehnergard 1987b:57). Tropper (*UG* 188) prefers to see here a **qatl* form (cf. abstract BH *'ēbâ*, "emnity" versus **qātil* form underlying the concrete BH *'ôyēb*).

[22] The fem. sg. abstract (< **srr*) used for concrete (*DUL* 792). NJPS (p. 1356, n. d) cites the same usage for this root in Nahum 1:9: *lō'-tāqûm pa'amayim ṣārâ*, "No adversary opposes Him twice!"

[23] For the assevertive *l-* (which might be vocalized *lu*), see Huehnergard 1983; *UG* 810.

[24] For *mḫšt* from **mḫṣ*, see Held 1959 and Sivan 1997:23, 28. See below.

[25] For **šlṭ*, "to be powerful," cf. BH *šallûṭ*, Aramaic *šallīṭā*; Arabic *sulṭan*, the loanword into English "sultan"). The consonantal spelling with *-y-* might mark a long *i*-vowel or more likely a secondary expansion of the vocalic base of the noun as rendered in the vocalization above (see Blau and Loewenstamm 1970:28; Sivan 1997:15, *UG* 53, 602, with discussion of other possibilities). Caquot and Sznycer take the *-y-* as a diminutive (so *TO* 1.168 n. l), which, however, in Aramaic forms precedes the third radical.

[26] For the syllabic forms *'išit/u$_4$]* and *iš-tu$_4$*, see Huehnergard 1987b:110; *UG* 182, 249. Tropper hypothesizes that the original form of the former was **'išatu* > *'išitu* perhaps through vowel harmony. Van Soldt (1991:732), followed by Fox (2003:73), reads the Ugaritic syllabic forms as *'ištu*.

[27] The initial consonant bears an irregular correspondence with proposed cognates Akkadian *šibūbu*, "spark, sparkle, scintillation," BH *šābîb*, and Aramaic *šbībā*, "flame" (*CAD Š/2*:399; *HALOT* 4:1392; see further M. Cohen 1947:133, #259); see *WUS* 2710 and others cited in *HALOT* 4:1392. For *dbb* instead derived from BH *zĕbûb*, Arb. *ḏubab*, see *UT* 19.719, *DUL* 285; *HALOT* 4:1392. Context argues in favor of the former suggestion (see the discussion in Commentary on p. 263), while rules of consonantal correspondence among the Semitic languages militate in favor of the latter. However, for the question of Ugaritic *ḏ* possibly corresponding to Hebrew (etc.) shin, see Greenfield 1969:95; for another possible example in Ugaritic *ḏḏ* = Akkadian *šadû*, "mountain," see *UBC* 1.187 and the discussion on p. 325 n. 1.

Poetic Parallelism and Word/Syllable Counts

Lines 9–31 are closely paralleled in 1.1 II. For vocalization, parallelism, grammatical notes, and discussion of lines 9–31, see *UBC* 1.195–209.

		semantic parallelism	word/ syllable count
1–2	tatāpipu 'anhib[īma] [dā-'alpu šadû]/ẓi'u-hu bi-yammi	a b c d e	2/8 4/11

In view of the extraordinary difference in line-length, one might consider seeing a tricolon here, as in the following arrangement:

tatāpipu 'anhib[īma]	a b	2/8
[dā-'alpu šadû]/	c d	2/5
ẓi'u-hu bi-yammi	e f	2/6

In this arrangement, the word and syllable counts show a balance of lines. However, the syntax does not militate in favor of this alternative. For this reason, the first alternative remains preferable. In this reading, the lines are bound by bilabial sonant parallelism despite the lack of other forms of parallelism. Because of the bilabials, each preceded by *h*, the ends of the lines somewhat echo one another. In addition, the initial *'a* in a word with a bilablial in the two lines adds to the sonant parallelism. The lines also begin with a dental consonant plus two *a*-vowels.

4	[t/yu'ḫadu kinnāra-ha/u bi-] y[adê-ha/u]	a b c	3/11
4–5	mašîtu ri'mta/lê-'irti-ha	a' b' c'	3/9

[28] For the syllabic evidence for this form, see Huehnergard 1987b:139.
[29] For the syllabic evidence for this form, see Huehnergard 1987b:130; *UG* 172.

It would be possible to vocalize *r'imt* as **ri'mata*, in which case the lines would have almost the same number of syllables. Syntactical, morphological and semantic parallelisms are especially notable. By way of variation, the lines contain their own internal aliteration. The first line, of course, is largely a restoration. But if correct, it shows alliteration (*d*…*d*, *h*…*h*), and, if the subject of this passage is male, rather than female, there might be additional alliteration between the verb *yu'ḫadu* and *yadê-hu*. But this must remain speculative, since the reconstruction is not certain. The second line, however, has two words that share three letters (*r'imt*… *'irth*).

5–6	mašîra lê-dādi 'al'iyāni/ba'li	a b c	4/12
6	yadi pidrayi bitti 'āri	b' c'	4/9

Apart from the overarching semantic, syntactical and morphological parallelism, the classes of words, specifically DN plus epithet, form a chiastic structure within this bicolon. Sonant parallelism is evident with the two words for love, which rhyme due in part to the syntax (genitive case). Also partly because of the syntax, the vowel *i* rings through both lines: out of twenty-one vowels, twelve are *i*-vowels. Finally, the second line exhibits internal alliteration: *yadi pidrayi*. Observing this feature may suggest the further significance of dentals in the second line, and to a lesser extent, in the first line as well, adding in a small way to the overall sonant parallelism in this bicolon.

7	'ahbati ṭallayi bitti ribbi	a b c	4/10
7–8	dādi 'arṣayi/bitti ya'ibadari (?)	a' b' c'	4/12 (?)

This bicolon is syntactically dependent on the verb of the preceding bicolon, and its parallelism follows that of the preceding bicolon very closely. The semantic, morphological and syntactical parallelism is particularly strong here. The classes of nouns further strengthen the parallelism; each line contains word for love + DN + epithet. Even within this precise sort of parallelism, there is some variation: the first line has a longer word for love and a shorter divine title, while the second line has a shorter word for love and a longer divine epithet.

8–9	kama ǵalamêma/wa-'urubā-na	a b c	3/11

9–10	lê-paʿnê ʿanati huburā/wa-qîlā	d e f f’	4/12
10	tištaḫwiyā kabbidā hiyata	f’’ f’’’ e’	3/10

As reflected in the semantic parallelism (spelled out in the column of letters), this tricolon actually consists of a bicolon preceded by a single line (e.g., 1.1 III 2–3, 24–25, 1.2 III 5–6, 1.3 VI 18–20, 1.4 IV 25–26, VIII 26–29; cf. 1.2 I 14–15, 30–31). The bicolon is attested with a different preliminary line in 1.3 VI 17–20 and in 1.4 VIII 24–29. In a sense, the first line is not only prefixed, but is also a prelude to the action described in the next two lines. Despite the apparent disjunction between the first and other two lines, sonant parallelism between *ʿurubā-na* and both *paʿnê* and *huburā* helps to connect the first line to the second. Indeed, final *a*-vowels, driven largely but not entirely by verbal morphology, punctuate all three lines.

11	wa-rugumā lê-batulati ʿanati	a b	3/12
12	ṯanniyā lê-yabimti li’imīma	a’ b’	3/11

Closely balanced in length and parallelism (as well as classes of terms), the two lines show some minor sonant notes involving the letters *l*, *m* and *t*. Adding vowels into consideration would suggest shared syllable clusters such as final *-ati* (twice in the first line, and perhaps once in the second if *ybmt* were to be vocalized as **yabimati*) and *ma* (once in the first line, twice in the second).

13	taḫmu ’al’iyāni baʿli	a b	3/8
13–14	hawatu/’al’iyi qarrādīma	a’ b’	3/10

The lines are well balanced, though the second line is slightly longer. As with the preceding lines, this bicolon shows strong parallelism in part because of the divine names and epithets, especially *’al’iyāni* and *’al’iyi*.

14–15	qiriyi(y) bi-’arṣi/malḥamata	a b c	3/10
15	šiti bi-ʿapari-ma dûdayama	a’ b’ c’	3/11

The parallelism is semantically contrastive, with “war” and “love” as an antithetical pair. The syntactical and morphological parallelism

is close. Added parallelism is afforded by the bilabials in the last two words of each of the lines. The sonant quality of *qiṯġyi(y) bi-'aṯṣi* is echoed in *bi-'apari*.

16	siki šalāma lê-kabidi 'arṣi	a b c d	4/11
17	'arabbvdada lê-kabidi šadîma	b' c d'	3/12

The semantic parallelism is notable overall, but is especially conspicuous with the repetition of the same phrase, *lkbd*. The term at the head of the second line adds sonant effect of *b-d* to this repetition, and the final term of the second line adds a further, final *d*. Hence the combination of *b-d* in the first line echoes through the second. Further sonant parallelism involves *šalāma* and *šadîma*.

18	ḫāšu-ki 'āṣu-ki 'abāṣu-ki	a a' a''	3/10
19	'imma-ya pa'nā-ki talsumāni	b c d	3/10
19–20	'imma-ya/tiwtaḫā 'išdā-ki	b d' c'	3/9

The initial line may be regarded as a monocolon, with little apparent relationship with the bicolon that follows. However, the semantics of the opening line and the bicolon clearly indicate that the first line leads into the bicolon. Further, the emphatic punctuation of final *-ki* syllables in the first line likewise continues through the bicolon. Finally, all three lines match rather closely in length. By the same token, the parallelism of the final lines is considerably stronger, matching closely in semantics, morphology and syntax. Both express the wish that Anat hurry to Baal, by means of synedoche mentioning those parts of the goddess' body that provide her locomotion. A final note on the initial line: its alliteration apart from the suffixes is evident, with its gutterals and sibilants (cf. the initial line in Nah 2:11).

20–21	dam rigmu/'êṯa lê-ya wa-'argumu-ki	a b c d e	5/12
22	hawatu wa-'aṯanniyu-ki	b' e'	2/9

At first glance, this bicolon appears to be severely unbalanced, until one notes the syllable count: each term of the second line is longer in length than its counterpart in the first line, hence compensating by way of length for the absence of other elements. The syntax of the two lines also matches closely: noun + *w-* + **yaqtulu*-verb + second sg.

suffix. The end-rhyme of the two lines is produced by morphology. Internal sonant parallelism may be noted in the two opening letters (*ʾṯ*) of the otherwise non-parallel *ʾêṯa* and *ʾaṯanniyu*. Within the first line, the letter *m-* appears three times, while, to a lesser extent, *wa-* echoes in the second line. The *-ki* suffixes also provide continuity with the preceding tricolon.

22–23	rigmu/ʿiṣṣi wa-laḫšatu ʾabni	a b a' b'	4/10
24	ta'anatu šamîma ʿimma ʾarṣi	a'' c d e	4/11
25	tahāmāti ʿimmana kabkabīma	c' d' e'	3/11

The word-pairs in this unit nicely mark out the structure of this tricolon: within the first line, the nouns *ʿṣ* and *ʾabn* form a pair (Avishur 1984:593–94), as do *šmm* and *ʾarṣ*, and *thmt* and *kbkbm* in the second and third lines (for a less convincing, but interesting interpretation of the parallel words here, see Avishur 1984:353–54; 566–67; 593–94). The second and third lines are clearly more proximate in their syntactical parallelism (in chiastic arrangement), and accordingly, the first line may be viewed as leading into the other two. (This structure resembles that in other tricola such as 1.3 II 38–40, though here verbs predominate in the initial line; see also below, in this column, lines 28–31.)

26	ʾabînu baraqa dā-lā-tidaʿū šamûma	a b c d	4/14
27	rigma lā-tidaʿū našūma	b' c d'	3/9
27–28	wa-lā-tabînū/hamulātu ʾarṣi	c' d'	3/11

It is possible that *hmlt* should be vocalized as **hamultu*, in which case the length of the second and third lines would be more closely balanced, in accordance with their overall parallel syntax and semantics. All three lines share semantic parallelism in referring to an element of the cosmos that lacks understanding of Baal's secret knowledge, first the heavens, then two terms for humanity. The term "heavens" is cosmic in sense, while the terms for humanity are terrestrial in perspective. All three of them share minimal sonant parallelism in containing the consonant *m*, and the negative verbs of the first two lines are identical (*lā-tidaʿū*), while that of the third line (*lā-tabînū*) is synonymous and repeats the verb that begins the first line. Thus while the second line is closer syntactically and semantically to the third line, both lines also provide strong connections to the first. Finally, it should be noted that

within the larger cascading effect of words repeated down through this message (in particular, *rgm* in both nominal and verbal forms as well as *hwt* and *'arṣ*), *šmm* in line 26 picks up the same word in the preceding tricolon in line 24. Similarly, on the sonant level, *'abînu* in line 26 picks up the similar form of *'abni* from the preceding tricolon in line 23 and issues in word-play.

28–29	'ati-ma wa-'anāku/'ibġayu-hu	a b c	3/11
29	bi-tôka ġāri-ya 'ili ṣapāni	d e (x, y)	4/11
30	bi-qidši bi-ġāri naḫlati-ya	d' e' (x of y)	3/10
31	bi-nu'mi bi-gab'i tal'iyati	d'' e'' (x of y)	3/10

The syllable counts show the overall balance of the four lines, which constitute a complex unit. The first line provides the verbal structure that governs the other three lines, which are clearly more parallel in syntax and semantics. The last two lines are particularly close in both aspects, perhaps suggesting a more basic bicolonic unit, but the second line shows roughly the same syntax, especially with its beginning *b-* + object of preposition + further noun phrase. Moreover, the second and third lines share the noun *ġr*. There are differences, however. The second line shows the final noun phrase in apposition (hence the comma in "x, y" above), while the third and fourth lines contain a double prepositional phrase, the final one in each consisting of a construct phrase (hence "of" in "x of y" above). The last two lines each use the preposition *b-* twice, where the second line has only one phrase headed by *b-*. Finally, a nice final touch is apparent in the sonant chiasm in the final two syllables of the words at the conclusion of the last two lines: *naḫlati-ya* and *tal'iyati*.

32	halum 'anatu taphî 'ilīma	a b c d	4/10
32–33	bi-ha pa'nāmi/taṭṭiṭā	d e f	3/8
33	ba'dana kisalū taṯburū	d' e' f'	3/9
34	'alêna panū-ha tadi'ū	d'' e'' f''	3/9

The parallelism of the last three lines is particularly balanced in length and order: fronted prepositional phrases plus nominative subject (all parts of the body) plus verbs (all denoting bodily reaction). The morphology generates a considerable level of sonant parallelism. This effect is increased by the word-choice of *p'nm*, *b'dn*, and *pn*, a fine set

of sonant terms. The initial words in the second, third and fourth lines cascade down, with *b-* in the second and third lines, and then ʿ and *-na* in the third and fourth. Two verbs contain dentals that echo the morphological parallelism of prefix *ta-* in all three verbs.

34–35	taǵǧuṣū pinnātu/kisalī-ha	a b c	3/10
35	ʾanašū dūtu ẓāri-ha	b' c'	3/8

The verb in the first line governs both lines of the bicolon, and the second line in turn expands the subject phrase by adding the explicit marker of the construct state (see below lines 41–42 for the same phenomenon), in this case the plural form, *dt*. With *-tu* in both *pinnātu* and *dūtu*, this particle adds to the sonant parallelism otherwise generated by morphological parallelism (as in line-ending, *-i-ha* and perhaps, more distantly, the final sibilant plus *-u* in the first word in each of the lines).

35–36	tiššaʾu/gā-ha wa-taṣûḫu	a b c	3/9

This monocolon is a common speech-opening formula. Although the unit is extracolonic, its line-length does not break the flow of the preceding and following units. The verbs of this monocolon are continuous in their morphology with the preceding verbs, and the direct object refers to a part of Anat's body just as the subjects do in the preceding unit.

36	ʾêka maǵiyā gapnu wa-ʾugaru	a b c	4/11
37	mannu ʾibu yapiʿu lê-baʿli	d e f g	4/10
37–38	ṣarratu/lê-rākibi ʿurpati	e' g' (x + y)	3/10

The similar text in 1.4 II 21–24 suggests that the initial line is formulaic and can be attached to different succeeding lines. This construction, a formulaic line prefixed to a bicolon or tricolon, is a common characteristic of oral poetry. While all three lines are similar in length, the last two lines show syntactical parallelism, with the verb in the second line governing both of them. The elements in the last line are longer than their counterparts in the second line, thereby balancing the verb in the latter; this is particularly true of the two-word epithet in the third line parallel to the name of Baal in the second. Despite the semantic and syntactical disjunction between the first line and the other two, these latter two lines do show some slight sonant echoes of the initial

line, with the syllable *ma-* in the first and second lines and the *u*-vowel + *p*-consonant in the first and third lines. Furthermore, bilabials are notable in all three lines.

38–39	la-maḫaštu mêdada/'ili yamma	a b c d	4/11
39	la-kallitu nahara 'ila rabba-mi	a' d' c' b'	4/12
40	la-'ištabimu tunnana 'ištamvdu-hu	a'' d'' a'''	3/13 (?)

The lack in understanding the last word precludes a precise syllable count, but even if the estimate is off by a syllable, the length of the lines remains reasonably close. All three lines show the line-initial syntax of asseverative *l-* + prefix verb form + direct object. The first two lines are further parallel with respect to their elaboration of the nature of the object where the third line instead adds a further verb, whose prefix *Gt*-stem form provides some inner line assonance (cf. lines 45–47 below). The first two lines further share the element *'il*, though they apparently use the word in different ways (see the Commentary below). Moreover, *ym* and *nhr* form a standard word-pair (Avishur 1984:369–70). The third term *tnn* is not commonly used as a parallel word with the other two names (see the discussion in the Commentary concerning this issue). Accordingly, the third line elaborates the first two lines, both by way of verbal syntax and the content of the noun. Overall resonance through the tricolon is achieved by dentals, bilabials and the consonant *l*.

41	maḫaštu baṯna ʻaqalatāna	a b c	3/10
42	šalliyaṭa dā- šabʻati ra'ašīma	b' c'	3/12

With the verb governing the nouns in both lines, the second line offers longer expressions of the object: the initial word in the second line is a syllable longer than its counterpart in the first; the second line adds the explicit marker of the construct (see lines 34–35 for the same phenomenon); and contains a two-word description compared to its one-word counterpart in the first line. The single instance of *š* in the first line is echoed strongly throughout the second line. Of lesser strength, the combination of the consonants *l* and *t* connects the last word of the first line with the first word of the second line.

43	maḫaštu mêdada 'ili-ma 'ar[š]a	a b c d	4/11

44	ṣammitu ‘igla ’ili ‘ataka	a’ b’ c d’	4/10

The line-length, syntax and overall semantics (especially with the appearance of *’il* in both lines) are particularly close in this unit. The consonants *m* and *t* appear in the initial part of each line, while *l* and gutteral letters appear in the final words of each line.

45	maḫaštu kalbata ’ili-ma ’išita	a b c d	4/12
46	kallitu bitta ’ili ḏabība	a’ b’ c d	4/10
46–47	’imtaḫiṣu kaspa/’ittariṯu ḫuraṣa	e f e’ f’	4/13

This unit resembles lines 38–40 above, with a verb plus a direct object in the first two lines and two verbs with their objects in the third line (also *Gt*-stem prefix verbs as in line 40). The verbs in the third line also belong to a different word-field from that of the verbs in the first two lines. In a sense, the third line provides additional closure to the action rendered in the preceding two lines. It also shows inner-line parallelism.[30]

Introduction

1.3 III may be divided into four parts. The first section consists of lines 1–2 of the column, preserved on the smaller fragment of CAT 1.3. In these lines Anat applies cosmetics to her face in the continuation of the account of the cleansing of her palace and herself after the battles described in column II. Following this, there is a lacuna of about twenty lines before the main fragment of the tablet picks up the story. After the lacuna, we find ourselves in the middle of a speech by Baal as he gives instructions to his messengers, Gapn and Ugar, concerning a message to Anat that they are to deliver. This section as preserved opens in the middle of a description in lines 4–8 of someone performing a song about Baal and his women. It is unclear whether the performer is Anat or someone else (see Commentary below). Immediately after this description, Baal turns directly to the message he wishes to send to Anat

[30] For the two nouns in intercolonic parallelism, see also 1.4 I 25–26; discussed in Watson 1994b:129; see also Nahum 2:10. On the parallelism of these words in Hebrew, Akkadian and Sumerian, see *RSP* I:234–35, and de Moor and van der Lugt 1974:16.

(lines 8–31). The final section of the column, lines 32–47, begins the account of the messengers' arrival at Anat's palace that continues into column IV. The part of the story here in column III deals particularly with her fearful reaction to seeing them approach.

Baal's message to Anat represents the beginning of the story about the building of Baal's palace that will extend from here to 1.4 VII. Most of the narrative of this episode focuses on the process by which Baal gains El's permission to construct the palace (1.3 III–1.4 V). The long and detailed account of the negotiations, with Baal sending first Anat, then Athirat to El as intermediaries, seems puzzling to the modern reader. But it is clear that this element of the narrative was considered a key component in the story that could not be trimmed down. As indicated in the Introduction (pp. 35–41) we have concluded that a major reason behind this circumstance has to do with the importance of royal protocol and family etiquette (which often overlap), particularly with regard to events revolving around the succession to the royal or family leadership. The appointment of a royal successor while the older king is still alive raises a number of issues about authority. In this episode, the poem explores both proper and improper etiquette with regard to significant symbols of royal power that the young successor might wish to take on. We will argue below that Baal's behavior in sending intermediaries to ask El for permission to build the palace is presented in the poem as the appropriate way to handle the issue. Anat's unsuccessful appeal provides a negative example of how inappropriate behavior fails to produce the desired results. Athirat's intercession, on the other hand, is presented as a model of the protocol involved in making such requests and is successful in its conclusion.

Scholars have often criticized Baal's failure to come before El himself and have viewed it as another example of how the Cycle presents Baal as a weak character. We believe on the contrary that a case can be made that Baal's behavior here is not being portrayed negatively in any way, but rather is illustrative of the appropriate protocols in a royal court. Although we have no preserved texts that specifically discuss court etiquette in the ancient Near East, the importance attached here to the negotiations, along with narrative examples from elsewhere in the Ugaritic corpus and the Hebrew Bible, suggest that important issues such as this one were regularly handled through intermediaries. Perhaps the best examples of this are found in 1 Kings 1–2. In 1 Kgs 1 David has become old, and it is clear that a successor needs to be appointed. Adonijah, the eldest son and obvious heir, presumptuously proclaims himself king without consulting David (a negative example

of flaunting the protocol). The other contender for the succession is Solomon, but the latter does not go before the king to seek his support. Rather his mother, David's favorite wife Bathsheba, intercedes on her son's behalf, along with the prophet Nathan. Solomon is brought in only after the negotiations are completed. A similar protocol is described in 1 Kgs 2:13–25, when Adonijah enlists Bathsheba to negotiate with Solomon, now king, about marrying Abishag, David's former concubine. In this case, the answer is a violent, "No," but the protocol of indirect negotiations seems to be well illustrated. Part of the function of such intermediation presumably has to do with the potential embarrassment on both sides should the king's answer be negative while the two face each other. By sending negotiators, rather than dealing face to face, shame and dishonor can be kept at a minimum.

Royal/family protocol and etiquette thus makes a plausible framework upon which an interpretation of the central episode of the Baal Cycle can be made. Proposals along this line will occur throughout the commentary.

Lines 1–3: Anat's Cleansing (Conclusion)

The small fragment of 1.3 (RS 2.[014]), preserves sections of the first three lines of column III on its obverse, and parts of the last eight lines of column IV on the reverse. Only the first two lines of column III can be reconstructed, however, from the parallels in 1.3 IV 45–46 and 1.19 IV 42–43. The verb *ttpp* is a **Gt*-stem **yqtl* indicative of **wpy*. This form indicates continuity with the preceding narrative. Anat beautifies herself with the purple of the murex mentioned earlier in column II 3. De Moor renders the relative clauses in lines 1b–2a: "whose thousand fields of habitat are in the sea" (1968:213) or "whose habitat covers (literally, is) a thousand acres in the sea" (1968:213 n. 3; cf. Aartun 1967–68:298). He takes the description to refer the great amount of murex shells from the sea required to produce the purple dye. As noted in the discussion on the beginning of the preceding column, excavations at the port of Ugarit, Minet al-Beida, yielded the remains of thousands of crushed murex shells. The Greeks also emphasized the connection between the purple dye and the sea. One of the common Greek terms for the dye, *halourges*, means "wrought in or by the sea" (Liddell and Scott 73). Following de Moor's general understanding of the relative clause, but taking **ẓ'u-* from **yḍ'* (for a phonological explanation, see Garr 1986:48; Sivan 1997:23), the clause may be rendered "whose extract (literally, 'going out') in (or from) the sea is (i.e., requires the

yield of) a thousand fields" (see *Thespis* 310; for resumptive suffixes in relative clauses, cf. 1.14 III 41: *dk nʿm ʿnt nʿmh*, "whose beauty is like the beauty of Anat"). That such murex may be used to rouge a female, is mentioned more explicitly in 1.19 IV 42–43: *t'adm*[31] *t'id(!)m bǵlp y[m]*, "She reddled herself red with the shell (?) of the se[a]."

Lines 4–31: Baal Instructs His Messengers

The end of line 2 is lost, and only a few letters survive on the third line. The lacuna of about twenty lines that follows certainly contained the conclusion of this scene and began the subsequent account of Baal's instructions to his messengers that appears to be in progress as the main fragment of 1.3 begins. Lines 4–8 describe the performance of a song about the love of Baal and his three women, Pidray, Tallay and Arsay. The preserved text begins in the middle of this passage. No verbs are found in the lines as they stand, so that there is no indication preserved about who is singing and how this song fits into the context of Baal's instructions to his messengers. CAT 1.101.17–19 provides a general parallel to this passage, but it also contains a number of differences. In 1.101, there is no doubt that Anat is the one who plays the lyre and sings the song:

t'iḫd.knrh.byd[h.]	She takes her lyre in [her] hand.
[tšt.]r'imt.l'irth.	[She puts] the lyre to her breast.
tšr.dd'al['iyn] bʿl.	She sings the love of Mightiest Baal.

The first line has no certain parallel preserved in 1.3 III 4–6, but it seems likely that a version of it stood directly before line 4. The presence of a vertical wedge in the spot where we would expect to find the *y* of *bydh* supports this suggestion. In the second and third lines our text uses the same roots (*št* and *šr*) as the lines in 1.101, but they both appear to have *m*-preformatives, apparently verbal nouns, instead of indicative verbs:

mšt.r'imt.l'irth.	The setting of the lyre to her/his breast,
mšr.dd'al'iyn bʿl.	A song about the love of Mightiest Baal.

[31] For the root, with syllabic evidence, see Huehnergard 1987b:104.

Since neither CTA nor KTU/CAT read anything before *št* in line 4,[32] many scholars have simply used the parallel in 1.101 to read [*t*]*št* in III 4, and have also emended *mšr* to *tšr*. However, with the clear indication that line 4 has *mšt*, such readings now must be rejected. At the same time, it remains quite plausible to identify the singer with Anat. The passage could be a description of what Baal expects Anat to be doing when the messengers arrive. At the same time, it is also possible to propose that the singer is a male here, who, according to Baal, will be entertaining Anat when the messengers arrive.

Two words for musical instruments appear in parallel here, *knr* and *rʾimt*. The first term occurs also in 1.19 I 8 and 1.108.4. It is cognate with Akkadian *kinnāru* (attested also at Emar, discussed in Pentiuc 2001:98) and BH *kinnôr*. The importance of this instrument in ritual at Ugarit can be seen in the fact that it appears in a deified form in three god lists (1.47.32, 1.118.31, and in a syllabic form, RS 20.024:31) and one list of sacrifices (1.148.9; see Pardee 2002:11–19; 44–49, and 2000:310–11). There can be little doubt that the *knr* listed in these texts is a deified harp and not simply a god with a similar name, since the syllabic version of the deity list provides the word with the *giš*, "wood" determinative ($^{d.giš}$*ki-na-ru*) typical of the musical instrument. In addition, the *knr* is preceded in the lists by a deified censer (*ʾuṯḫt*), another important utensil in ritual activities (for deification of musical instruments in Mesopotamia, see Selz 1997). The lyre is known archaeologically as early as the mid-third millennium from the Royal Tombs of Ur, where the remains of eight lyres were found (see Zettler and Horne 1998:30–31, figs. 27 and 28; p. 37, fig 34; pp. 53–59; cf. also pp. 77–78, #17, a cylinder seal depicting a female musician playing a lyre, and p. 79, #19, another seal on which a woman plays a bull lyre). It also appears on depictions from Late Bronze Age contexts, including an ivory plaque from Megiddo that shows a lyre player in a line of figures standing before the king sitting on a cherub throne (*ANEP*, title page, #332; Bunimovitz 1995:327, pl. 2; cf. also the depiction from Kamid el Loz, Lawergren 1996:1017, fig. 3g and Caubet 1996:13). An early eighth century pithos from Kuntillet ʿAjrud depicts a figure playing on a lyre to the right of a couple (Avigad 1978:148, fig. 10, 149), whom some scholars have interpreted as Yahweh and his consort. In general, lyres from the ancient Levant had a "rectangular soundbox, the unequal

[32] Herdner (CTA: 16, n. 6) already indicated that traces on the tablet made the restoration of a /t/ dubious.

arms and the oblique yoke. With a few exceptions it is held in a slanting position, the upper end away from the player, with the shorter support downwards" (Avigad 1978:150). In his more comprehensive survey of ancient lyres, Lawergren (1998) distinguished between thin and thick types and noted the presence of the former at Ugarit (see especially 1998:1015, fig. 2). He also argues that *knr* is a West Semitic term (by implication then a loanword into Akkadian) and that it specifically designates the thin type of lyre (which he notes at Ebla, Mari, Alalakh, Hattusas, Ugarit, Emar, Egypt and Israel, 1998:59). The distribution of both the word and the thin type of lyre across the Levant (as opposed to the thick type, giant lyres or harps) suggests that *knr* indeed refers to this particular type of lyre. The importance of the lyre in temple ritual is underlined by an inscription of Hammurapi that mentions the dedication of a lyre and a bronze kettledrum in the Emeslam Temple at Kutha, "for holy songs, which please the heart" (Frayne 1990:345–46, lines 31–34).

The word *r'imt* in line 5 is more difficult to define securely. There are two plausible cognates in Hebrew, each of which has been used by scholars to understand *r'imt*. The first is *rĕ'ēm*, "wild bull," and the second is *rā'môt*, "corals." Since the meaning "bull" does not obviously fit in the context, several scholars have taken the other cognate as more likely and translate *r'imt* accordingly, assuming that it refers to a type of pectoral ornamentation that the goddess places on her clothing (Gordon 1977:78; *CML*[2] 48; Løkkegard 1982:133). But others have argued that there should be a closer parallelism between *knr* and *r'imt*. Greenfield (cited in Pope 1977b:294) argued that *r'imt* was a form of lyre and compared it to the Mesopotamian harps decorated with bull heads (see Lawergren 1996:1012–14; Wiggermann 1996:217; see also examples in Dumbrell 1998:plates 22–28, 31–36). Watson (1996a:78) compares **ra'*, "to sing" in Burunge, perhaps suggesting Ugaritic *r'imt* as a musical instrument that accompanies singing. Lawergen's study suggests that bull-lyres are primarily a Mesopotamian and not Levantine type (see 1998:60 n. 5), but in the absence of further specific information, this point of realia does not preclude the use of a name for a lyre that no longer corresponds to its original form. In any case, the unusual word selection might be attributed to the alliteration that it forms with the following word, *l'irth*.[33] This latter term perhaps hints at a Mesopotamian

[33] For possible syllabic evidence, see Huehnergard 1987b:109. For cognates Akkadian *irtu*, *iratu* (*AHw* 386; *CAD I/J*:183–84), see *DUL* 110. For further proposed cognates, see *UT* 19.326; M. Cohen 1947:178, #411.

genre of love-poetry known as *irtum*-songs. For example, a summary of texts of love poetry in BM 47507 reads: "Four *irtum*-songs of the series: 'Where is my beloved, the precious one?'" (see Nissinen 2001:120; cf. *CAD I/J*:188a, #4).

The two bicola in lines 4–8 describe the topic of the love-song being performed, without providing any details beyond the parties involved, namely Baal and his three "daughters." Three different terms for love appear in lines 4–8: *dd, yd* and *'ahbt*. Usually these terms are understood as objective genitives (*TO* 1.162–3 n. c; *CML*^{2} 48), namely Baal's love for his three daughters. It is possible that the performer is singing of her/his love for Baal and his daughters (*CML*^{2} 48) or of their love for her/him (*TO* 1.162–3 n. c), but given the focus on Baal, it is his love that is most likely the topic (note the interesting remarks made by Clemens 2001a:112). In 1.24.22–23 the West Semitic lunar god, Yarhu, says of his intended bride, the Mesopotamian lunar goddess, Nikkal (< Ningal), that he will make her bloom and produce fruit,[34] natural indicators of fertility:

> I will make her field (into) vineyard[s],
> The field of her love (*dd*) (into) orchards.

Isa 5:1–7 presents Yahweh singing "a song of my love" (*šîrat dôdî*) to his vineyard, Israel. Akkadian *dādu*, cognate with both Ugaritic *dd* and BH *dôd* (cf. Song of Songs 5:1; Pope 1977b:223, 324, 507–8), designates both the object of love and the activity of making love, i.e., sexual

[34] Cf. the name of the hemerological series, *inbu bel arḫi*, "the Fruit, lord of the new moon" (*CAD A/2*:260a, #1d). Part of this association between the new moon and fruit is evidently based on analogy of the two as self-renewing on a cyclical basis. According to C. Rochberg (personal communication), this notion is reflected in a bilingual hymn to Sin (cited in Tallqvist 1938:445), which calls the deity *enbu ša ina ramanišu ibbanu*, "fruit, which is brought forth of its own self." This same point apparently underlies 1.18 IV 9: *'ik 'al yḥdṯ yrḥ*, "How will Yarikh not be renewed?" (*UNP* 65). It would seem that the shared round shape of the two also played a role in the association, although we are not aware of any texts that explicitly make this connection. In his work on the moon entitled *On the Decisive Days*, Galen wrote that "the moon makes fruits swell," apparently based on an ancient notion of "natural sympathy" between different parts of nature, in this case not only the moon and fruit, but also the onsets of female menstrual periods and the periods of epileptics (for citation and discussion, see Stol 1993:123). For the associations of fruit and the moon in Mesopotamian texts, see further *CAD A/2*:260; Parpola 2000:175–76. Note also passages discussed in Livingstone 1986:23 (K 2164 obv. 13), 28, 29 (K 2670) and 30, 31 + 45 (K 170); these come courtesy of Professor Rochberg. The first of these texts departs from natural associations in favor of mathematical equations and verbal associations.

relations.[35] Akkadian *dādu*, "love-making," also appears in the incipits of songs (KAR 158 r. ii 11, 29; *CAD D*:20).

Ugaritic *yd* in this context is somewhat ambiguous. As with *r'imt* above, it is possible to derive *yd* from two distinct roots, *yd*, the standard word for "hand," or *ydd*, a root that means, "to love." Both are well attested in Ugaritic, Hebrew, Aramaic and Arabic. In this passage, it seems most plausible to relate *yd* to *ydd* and render it "love, passion." However, the Ugaritic term for "hand," *yd*, also appears to have connotations related to love and passion. There are a number of passages in which *yd*, "hand," seems to be a euphemism for penis, as 1.23.33–35 illustrates:

t'irkm yd 'il kym	El's "hand" lengthens like the sea,
wyd 'il kmdb	Indeed, El's "hand", like the flood.
'ark yd 'il kym	El's "hand" is long like the sea,
wyd 'il kmdb	Indeed, El's "hand," like the flood.

The repetition of the term in the passage is certainly for emphasis. Pope (1979:706) argued that this usage was intentionally ambiguous, playing with both meanings of the word here, and the same perhaps applies in 1.3 III 5–7. Where love is involved, the Ugaritic texts tend to present concrete actions as opposed to general abstractions. This is clear also in 1.4 IV 38–39 which uses both *yd* and *'ahbt* in a sexual manner. After Athirat's journey to El, he offers her food and drink and then more:

> Or, does the hand/love (*yd*) of El the King excite you,
> The affection (*'ahbt*) of the Bull arouse you?

The ambiguity of the word in this passage suggests that the two originally separate roots perhaps have coalesced into one in Ugaritic, so that the term *yd* comes to have a meaning that combines the definitions of the two older roots. The coalescence of roots, while rare, is attested in other Semitic languages as well. See the discussion of another example in 1.3 III 37 (**ỵṗ*ʿ) below.[36] The topic of love in 1.3 III 4–8 probably

[35] In view of the similar context in Song of Songs 1:4, A. Yuter (personal communication) asks if *mêšārîm* in this verse might refer to love-songs.

[36] De Moor and van der Lugt (1974:14) have suggested that the two uses of *yd* remain slightly distinctive semantically, that *yd* in 1.23.33–35 indeed refers to penis, but in 1.4 IV 38 it means affection. The semantic distinction is suggested, to them, by the difference in grammatical gender: the former governs a feminine verbal form (*t'irkm*), while the latter takes a masculine verbal form (*ỵḫssk*). However counterintuitve

then involves Baal's love-making activity with his women, perhaps comparable to the well-known episodes of this god's love-making in 1.5 V 17–22; and probably 1.11.1–4 and 1.10 II–III.

Unlike the passage at the end of 1.3 I, where only Pidray and Tallay are mentioned, lines 6–8 list all three of Baal's women, including *'arṣy bt ỿʿbdr* (see above pp. 115–20 for the other two females). Her name may mean either "the earthy one" or "the netherworldly one"; both senses are known for Ugaritic *'arṣ* (the final *-y* on the name is an older WS marker for the feminine. Her title, *bt ỿʿbdr*, might mean "Daughter of the Wide World," cognate with *ỿʿb*, "wide" (cf. Arabic *waʿib* in Lane 2954) and *dwr*, "house, world" and comparable to Akkadian *erṣitu rapaštu*, "wide world," an expression for the underworld (Tallqvist 1934:14–15; *CAD* E:310; favoring the comparison, MHP; see *UBC* 1.72 n. 143). This netherworldly interpretation of the name and title fits her equation with Allatum (in RS 20.024: 22),[37] who was associated and often identified with Ereshkigal, the primary Mesopotamian goddess of the underworld (*CMHE* 56; *TO* 1.79; Astour 1980:232; Sharlach 2002:99–100). Such an interpretation of Arsay and her epithet would accord with Baal's chthonic experience in 1.5–1.6 (just as Pidray and Tallay's titles correspond to Baal's character as a storm god). Noting the little evidence about her in the Ugaritic texts, Astour (1980:232) concludes: "it is difficult to visualize more clearly her status in the circle of chthonic deities." Another proposal for Arsay's title involves relating **dr* to Arabic **drr*, "copious flow" (Lane 862–64), hence understanding it as a reference to another meteorological phenomenon rather than the netherworld (*UgM* 32; *SPUMB* 84 n. 6; *CML*^{2} 48 n. 8; *MLC* 560). Pardee (1997a:251 n. 84) notes the advantage that the second proposal holds, given the meteorological names and titles of Baal's other two women.

It remains unclear as to how these lines fit in with the context of the succeeding section. While some scholars have viewed the performance of the song as the end of a scene, with an abrupt shift in line 8b to the account of Baal's instructions to his messengers (e.g., Wyatt

---

it may seem to see a word for penis as grammatically feminine, it is perhaps to be remembered in this context that "breasts" in Biblical Hebrew are masculine in gender. It is possible then some nuance might be maintained, but the two meanings are not far from association.

[37] See *Ugaritica V*, pp. 44–45 and especially Pardee 2002:14, where the text is shown with its Ugaritic parallels, 1.47; 1.118 and 1.148.

1998:76–77, most commentators (e.g., *MLC* 183, *CML*[2] 48–49; de Moor 1987:8; Pardee 1997a:251 n. 82) have regarded this section as part of Baal's speech, perhaps describing what the messengers are to expect when they arrive at Anat's palace. This interpretation helps to explain the total lack of a narrative introduction to lines 8b–31, where there can be no doubt that Baal is speaking.[38] But there are uncertainties here too. If these lines are Baal's description of what the messengers will find upon arrival at Anat's palace, it is surprising that the scene of their arrival appears to make no mention of the singing at all. In most cases in Ugaritic poetry, a prediction of what will occur is fulfilled in the description of the event. But there is no hint of this in the account of the messengers' arrival in lines 32ff. On the other hand, line 32 is preceded by a double line cut across the column, which clearly was intended to indicate an abridgement of the account of the messengers' journey to Anat, and the scribe may have assumed that the material presented through line 8a would be repeated by the storyteller. There is a further observation that may be raised about the nature of lines 4–8. It is evident from other scenes in which characters instruct their messengers that they customarily contain the element of introductory or prefatory remarks, which also does appear certainly in 1.3 VI and 1.4 VII 53f., and perhaps in 1.14 V (see the discussion of this subject in the Commentrary on 1.4 VII and VIII, pp. 696, 710). The usage of prefactory remarks heading instructions to messengers appears to be a reasonable argument for recognizing 1.3 III 4–8 as part of the speech for sending the messengers, since no other example starts a commissioning with the command to do obeisance. Despite these considerations, with the ambiguity about the identity of the singer or even the location where the song is sung, there is simply not enough surviving evidence to be certain about the interpretation of this passage.

With line 8b it becomes certain that we are in the middle of a speech by Baal to his messengers, identified in line 36 as the minor deities Gapn and Ugar. These two gods appear to have played no role in the ritual life of Ugarit and are not attested in any of the offering texts discovered

[38] Wyatt 1998:76–77 suggested that the singing is taking place in Baal's palace while he gives the instructions to the messengers. He also takes *mšr* as a masc. sg. participle and identifies the singer as a male. This interpretation does not address the lack of any introduction to the speech of Baal, if it is beginning in line 8b.

in the city.[39] They may thus be entirely literary characters. The assumed but unspecified setting for this scene is Mount Sapan, last mentioned in column I and mentioned later in IV 38. Since Baal is participating in a feast in column I and appears to be doing the same in column IV, it seems likely that the scene here in III also takes place at the same feast, which simply continues throughout the narrative of 1.3.

In the tricolon of lines 8b–10, the two gods are told to go to Anat "like youths (attendants)" (*km ǵlmm*) and to follow the divine etiquette of inferiors bowing down before their superiors (Smith 1984b). The phrase *km ǵlmm* precedes *wʿrbn*, the initial imperative (with nunation) of a series of imperatives that continue over the next four lines. Blau (1977:90) usefully describes this structure (non-verbal element + *w* + verbal clause) elsewhere as a sentence adverbial construction modifying the whole verbal clause. According to Piquer Otero (2003:219), the phrase *km ǵlmm* is a nominal apodosis to the verbal protasis constituted by *wʿrbn*. The bicolon in lines 9b–10 is formulaic, with variations paralleled in 1.3 VI 18–20, 1.2 I 14–15, 30–31, 1.4 IV 25–26, VIII 26–29). The first line of the bicolon (lines 9b–10) begins with a prepositional phrase like its predecessor, in lines 8b–9a. Such a structure in Piquer Otero's analysis would customarily signal a shift in the line of verbal syntax.

The following bicolon in lines 11–12 continues the series of commands, with two imperatives concerning the recitation of Baal's message. The description given in lines 8–12 of the messenger bowing down before an official before announcing the message appears to reflect the standard practice of the royal court. Lines 13–14 provide the messengers' introductory formula for proclaiming their message. There are several parallels to this bicolon, e.g. 1.5 I 12; II 10, 17; 1.6 IV 10; 1.14 VI 40. On epistolary style and terms, see the earlier discussion in *UBC* 1.169–70, 282, 289, 304–5; for further discussion and clarifications, see Pardee 2003; and for etymologies proposed for *ṯḥm* in line 13, see Watson 1999; cf. *DUL* 865.

Much of the message here in lines 14–31 is paralleled in 1.1 II 19–23 and 1.1 III 10–16, and it is repeated in full in 1.3 IV 8–31. Readers may find treatment of the parts of this speech found in 1.1 in the commentary to those sections (*UBC* 1.173–81, 195–209; see also *SPUMB* 106–8). The comments here focus on specific differences

[39] See Pardee 2000:962–96 for a comprehensive list of deities mentioned in the ritual texts.

found in 1.3 III 14–31, as well as the general significance of the speech in this context. One point insufficiently stressed in the discussion in *UBC 1* regards the use of the word *rgm*, itself a common epistolary term used in requesting from addressees word about their well-being (e.g., 2.12.14, 2.14.17, 2.16.20, 2.24.12; cf. 2.13.16). In one letter, RS 92.2010.18–19 (Bordreuil and Pardee in *Études Ougaritiques*, 376; Tropper 2002a:113–14), the king's communication is characterized as *rgmk n*ʿ*m*, "your goodly word." In his message to Anat, Baal refers to his word as *rgm*, and the quality of *n*ʿ*m* applies to his mountain, found in the message's conclusion.

Examining the different accounts of the message and its implementation, one can see that it consists of three basic blocks of material: (A) the message to desist from war, a section only given to Anat in both 1.1 II 19–21 and 1.3 III 14–17, IV 8–10 (and repeated by the goddess in IV 22–25 and 27–31); (B) an order to hurry to the sender of the message, first given to Anat by El in 1.1 II 1–3a, 21–23, then to Kothar by El in 1.1 III 10–12a, and then to Anat by Baal here in lines 18–20 and in IV 11–12; and (C) a reference to a further secret message that will be given to the recipient when he or she arrives at the abode of the sender (to Kothar in 1.1 III 12b–16a, and to Anat here in lines 20–31 and IV 13–20). The following synoptic chart indicates the correspondences more precisely:

A: Command to refrain from war	B: Command to hurry	C: The cosmic message
1.	1.1 II 1–3a	
2. 1.1 II 19–21	1.1 II 21–23	
3.	1.1 III 10–12a	1.1 III 12b–16a
4. 1.3 III 14–17	1.3 III 18–20	1.3 III 20–31
5. 1.3 IV 8–10	1.3 IV 11–12	1.3 IV 13–20
6. 1.3 IV 22–25, 27–31		

The verbal syntax clearly demarcates part (A) of the message, with its series of imperatives, from part (B) with its initial line (here line 18) consisting of three infinitives used as imperatives (see *UG* 492 and *UBC* 1.159 n. 76), each with an attached pronominal suffix: *ḫšk ʿṣk ʿbṣk*. An alternative interpretation of line 18, found in *MLC* 184 and Wyatt 1998:78 understands the line as the imperative of **ḫšk* followed by two nouns, *ʿṣ* and *ʿbṣ* with 2nd fem. sg. suffixes, thus meaning, "Grasp your spear (and) your mace," but this view founders on the fact that there is not a single additional appearance of any of the proposed words in Ugaritic. The three infinitives form a verbal exclamation point as

they precede the summons to come to the sender of the message. Exhortations for messengers to hurry are common in the Amarna correspondence (EA 28, 32, 37, etc.), but here the urgency is perhaps all the greater, since the message from Baal bears cosmic importance. Lines 19–20a invert the focus of the persons involved in the discourse: while line 18 emphasizes "you" three times in a row, the two lines of this bicolon begin with the prepositonal phrase *ʿmy*, "to me," stressing the direction of the requested action back toward the speaker, Baal. This bicolon places emphasis on the parts of the body that are used in running. The lines show a fine chiastic structure, with the subject *pʿnk* preceding the verb *tlsmn* in the first line, while the subject *ʾišdk* follows the verb *twṯḥ* in the parallel line.

The transition to Part C occurs in line 20b, where the heart of the message proper begins. The first line of the bicolon in lines 20b–22a opens with the relative *d-* + the adverbial *-m* (*TO* 1.165 n. i'; cf. *UG* 809), a particle that binds the preceding with the succeeding clause by indicating a general dependence of the upcoming clause upon the previous one. The center of Baal's message here is in fact the promise of another message ("a message I have"//"a word"). The first line uses a nominal clause (*rgm ʾiṯ ly*), paralleled in the second line simply with *hwt*, a synonym for *rgm*.[40] Each of these two clauses is followed by *w-* + **yqtl* verb (evidently indicative, though possibly modal, "I would relate" or the like), with a 2nd fem. sg. object suffix, *-k*. The fronting of these words for communication, *rgm//hwt*, is hardly surprising given the emphasis placed on the message. Such clauses appear in similar contexts in BH, e.g., *dābār lî ʾelayik* in 1 Kgs 2:14, where the expression introduces Adonijah's speech to Bathsheba, and in 2 Kgs 9:5 (with a 2nd masc. sg. suffix), where it begins the speech of Elisha's servant to Jehu. These two parallels suggest that the expression customarily serves as the announcement of a message. Another biblical example of this syntax confirms this view. In Judg 3:19–20, the expression appears twice in introducing Ehud's speech to Eglon. This passage is pertinent to Baal's speech for another reason. Baal's message is couched in the language of secrecy. It is a divine message that only a few can know. In Judg 3:19–20, *dābār* is twice fronted, first with *sēter*, "secret" (*dĕbar-sēter lî ʾēlêkā*), and then by *ʾĕlōhîm*, "divine" (or "of God") (*dĕbar-ʾĕlōhîm lî ʾēlêkā*).

[40] Evidence for the meaning of the root, **rgm*, "to speak," is provided by an Ugaritic polyglot; see Huehnergard 1987b:177. For the root in the Baal Cycle (including the parallel passages to 1.3 III 20–28), see *UBC* 1.49, 169–70, 175, 180.

Thus we find Ehud claiming a type of divine message that he describes with imagery quite similar to what appears in our text.

In Ugaritic letters requesting *rgm* from the addressee, the word is likewise placed toward the front, for example: *w mnm rgm d tšmʿ ṯmt w št b spr ʿmy*, "and whatever word you hear there, put in a letter to me" (CAT 2.10.15–19; cf. 2.14 17–19; for Akkadian examples, see EA 145:22–29 and the remarks of Moran 1992:232 n. 6). The emphasis extends more broadly in Baal's message to Anat, for it is precisely at this point in lines 21–22 that the audience finally reaches the core of the message, the "word" (*rgm//hwt*) within the more general "word" (*ṯḫm//hwt* in lines 13–14 above). This deeper *rgm* is a cosmic mystery to be explained only when the summoned one stands before the sender of the message. This may be analogous to references to secret messages between two allied parties, found in some political contexts. Here one might compare "this secret message," *ṭe$_4$-ma-am ša-a-tu na-aṣ-ram-am*, in a treaty between Zimri-Lim of Mari and Ibal-pi-el II of Eshnunna, A.361, col. III, line 9' (Charpin 1991:143). Mari texts also use the term *naṣrum* for the transmission of a "secret" message (*ARM* XXVI/2: 217, 357, 358, discussed in Lafont 1997:319, 324; cf. *[ṭup-pa]-at ni-ṣi-ir-tim*, "secret tablets" in M.7338.3 in Joannès, *ARM* XXVI/2 = *AEM* I/2, p. 329). In the context of Baal's message to Anat, the two deities are analogous to allies sharing secret information about Baal's power. Accordingly, *rgm//hwt* at this point bear a certain diplomatic freight (on the secret nature of the message, see also below).

Lines 22b–25 continue the presentation of Baal's *rgm* in a series of nominal clauses, all standing in apposition to the bicolon of lines 20–22a. See the discussion in *UBC* 1:175–79. Here we propose noting a possible, additional nuance for the interpretation of the lines. The three pairs of nouns in these cola—tree and stone, heaven and earth, deeps and stars—each present pairs of opposites. The trees reach upward to the sky, while stones are earthbound and found on the ground; heaven and earth are a very characteristic pair, most commonly and naturally describing the sky, which is the celestial abode of the gods, and the earth, where humans live.[41] There are few, if any, usages of this particular pair of words that can be interpreted convincingly as

[41] The term *ʾarṣ* in the phrase *šmm wʾarṣ* may actually be a general term for what we call earth and the Underworld, i.e., all the landbound areas in which humans, in one way or another, exist.

referring to heaven and the netherworld. The deeps (*thmt*) and the stars represent the regions of the universe that are the most remote from each other. The deeps are the primordial waters below the earth (and the netherworld), while the stars, for example in Gen 1:16–17, were believed to be actually placed on the solid dome that represents the upper limit of heaven. Thus, in the three lines here we may have a series of opposite locations that become increasingly remote from one another until the third set, which stand as far from each other as is possible. These would show the universality of the significance of Baal's message. We may also note that *rgm* in lines 22–25 is qualified by a series of discourse terms, as noted by Watson (1983b:263). The terms evoke language that traverses the universe, and depending on the interpretation of *t'ant*, either the more neutral "converse" (*CMCOT* 68–69; cf. Ps 19:2–5) or the more negative sounding "lamentation" or "groaning" (*CML*^{2} 159; Watson 1983b:263; cf. Rom 8:22), the passage may convey an additional urgent communication within nature waiting to be understood by humanity. Two significant examples of this type of communication between heaven and earth are found in the Gilgamesh Epic IV:101 and VII:166 (George 2003:592–3; 642–3): (1) "The heavens cried aloud, while the earth was rumbling;" and (2) "The heavens thundered, and the earth gave echo." In both cases the events described here open an account of an ominous dream.

Line 26 begins with an ambiguous word, *ʾabn*. It may be taken as a noun (as it is in line 23), here the construct plural, "stones." If this is correct, the series of nominal clauses begun in line 22b continues on through this and the following line. The word may also be interpreted as a 1st singular **yqtl* of the verb **byn*, "I understand" (*TO* 1.165–66 n. k; Wyatt 1998:78; see also de Moor and van der Lugt 1974:11). If one takes it as a noun, the resulting phrase, *ʾabn brq*, "stones of lightning" (so *EUT* 99; *MLC* 184), is fairly ambiguous, but possible, and a nominal phrase here makes reasonable sense of the syntax in the context. Based on the occurrence of *ʾabnê ʾēš* in Ezek 28:14, Pope (*EUT* 99–101; cf. Fensham 1959) translated the first two words as "stones of lightning" and interpreted the phrase as an allusion to Baal's house. However, the putative connection with Ezek 28:14 has been strongly criticized by Wallace (1985:82).

The interpretation of *ʾabn* as a verb seems more plausible. The tricolon in lines 26–28 focuses on knowledge and understanding, clearly emphasizing Baal's superiority, not just to mere mortals, but to the heavens themselves. By taking *ʾabn* as a verb, one finds a clear chiastic

structure to the verbs in the tricolon: *ʾabn: tdʿ: tdʿ: tbn*. The other three verbs are preceded by the negative partical *l*, thus emphasizing the contrast between Baal and the rest of the referents. This emphasis on Baal's knowledge is an element of this message that is not paralleled in the earlier message of El in 1.1 III 10–16 (Smith 1984a). There the tricolon also found in lines 22b–25 is followed directly by the lines found in 27–28. The reference to Baal understanding "the lightning which the Heavens do not know" is only found here in Baal's message (1.3 III 26 and IV 17–18; *pace* Xella 1997:440—this line cannot be reconstructed in 1.1 III 12a–16). It therefore may be assumed to have a significant point to make about Baal and his character. As the god of storm, Baal's connection to lightning and thunder is very clear. It is also clear that the real message that Baal will give to Anat when she arrives at Mt. Ṣapan, one that is echoed in 1.1 II and III, is that the god must have a palace as a foundation for his kingship. Baal's full manifestation of his power will only come when his house is built (see 1.4 VII 29), where, upon completion of the palace, Baal utters his "voice" (*ql*), that is, his thunder. Line 26 here emphasizes Baal's unique mastery of the lightning (cf. Pardee 1997a:251 n. 86) . It may be that he has not yet made the lightning manifest in the heavens, since Anat, in her response to Baal's message (1.3 IV 25–27), suggests that its appearance is something that will occur in the future, rather than in the present: "May Baal set his bolts [in the heavens,] may [the Clo]ud-[rider] radiate his [ho]rns." The lightning will thus be the sign of Baal's kingship (similar in some ways to Marduk's bow hung up after battle in Enuma Elish VI:82–90; or Nintu's fly-necklace in Atrahasis II.v.46–vi.4; cf. Gilgamesh XI:163–165; and the bow in Gen 9:12–17; so Batto 1987:191, 194–95).

In lines 26–28a, the addition of this line affects the way the following two lines are understood. When the latter lines appear without line 26 (in 1.1 III 15; 1.3 IV 15–16) the opening word of the first line, *rgm* retains its standard meaning, "word." However, when this line is added, *rgm* becomes the second part of the word pair *brq//rgm*, where it apparently means "thunder" (see *SPUMB* 107; *TO* 1.166 n. l; Pardee 1980:277; see also Smith 1984a). The semantics create a new understanding of these phenomena, which Wiggins (2000:581) has noted:

> The semantic field of *byn* encompasses cognitive abilities rather than physical ones, although "understanding" may indeed lead to effective action. What Baal lays claims to in this statement is likely the cognitive ability needed to act effectively in regard to lightning. In an era before

> the agricultural benefits of lightning were understood, the effective use of lightning was primarily that of a weapon. The functions of weather control and warrior are closely associated in the minds of the Ugaritians.

The claim concerning Baal's understanding then is a claim about the impending revelation of his meteorological power through the building of his palace. Thus the addition of this line into the formulaic message that has been used elsewhere focuses the otherwise generic statements of the message specifically upon Baal in his uniqueness, setting up the subject matter of the rest of this tablet, and the succeeding one.

Some ambiguity also affects the interpretation of the final unit, the double bicolon of lines 28b–31. The initial word of line 28b, *ʾatm*, may be interpreted either as an imperative, commanding Anat to "come" to Baal's mountain;[42] or, it may be understood as a noun, for which there are two possible meanings. It may mean "sign" (cf. BH *ʾôt*), in which case it would represent a further characterization of Baal's word. Or, it could be related to the Akkadian noun, *atmû*, "word, speech." The latter appears in parallel with *rigmu* in the Babylonian Theodicy XXVII, line 292 (Lambert 1996:88–89; *CAD A/2*:497–98; discussed by Watson 1994b:283, but not in reference to Ugaritic *ʾatm*). This alternative, however, seems unlikely, since in the parallel passage in 1.1 III 16 the word appears without the *m*, as *ʾat*. This strongly intimates that the *m* is enclitic and not part of the root. In any case, our passage would be the only attestation of this word in Ugaritic. Taking the word as "sign" may fit plausibly into the context of the passage. But, as in the case of *ʾabn* in line 26, the interpretation of *ʾatm* as a verb appears more likely. Interpreted in this manner, the following verbal clause, *wʾank ʾibġyh*, fronted by the first person independent personal pronoun (see *UBC* 1.180 n. 125), may be taken as a purpose clause in the **yaqtula* volitive form, "so that I may reveal it" (as discussed in the Introduction, p. 30), or as a statement of future intention with a **yqtl* indicative, "and I myself will reveal it" (cf. *ANET* 136; the verb being cognate with Arabic *faġā*, "to reveal' [talking of a secret], according to Caquot 1974:203; see the discussion in *UBC* 1.181).

The surprisingly poignant and poetic nature of this passage has led a number of scholars to focus carefully on these lines. Some have

---

[42] This is the most widely-held view (Ginsberg, *ANET* 129; *CML*[2] 49; *TO* 1.166; *MLC* 184; de Moor 1987:10; Dietrich and Loretz 1997:1141; Pardee 1997a:251; Smith, *UNP* 110; Wyatt 1998:78).

proposed a number of deeper meanings which, while at times a bit more speculative, are worth considering. O'Bryhim (1996:134–6), a classical scholar, pointed out a number of passages in the Hebrew Bible and in classical Greek literature that indicate the use of trees and stones in mantic practices during the first millennium BCE. He proposed that these passages might be related to the reference here to "the word of tree and whisper of stone." O'Bryhim noted the significance of sacred trees near or in Israelite sanctuaries, including the oak of Moreh (Gen 12:6–7), the oaks of Mamre (Gen 13:18 and 18:1), and the Diviner's Oak (Jud 9:37). He also pointed out the appearance in the biblical text of *maṣṣēbôt*, standing stones that were erected within the sanctuary complex, such as the pillar of Bethel (Gen 28:18, 35:14) and the witness stone (Josh 24:26–27, cf. Micah 5:12–14). It seems likely that communication with the divine was undertaken in the context of these elements of the sanctuary. O'Bryhim then used these phenomena as a means to interpret a passage in Hesiod (line 35), in which the poet, having described how he was given inspiration by the muses even though he was a mere rustic shepherd, at first responded to this gift by saying, "What business have I with these things that happen around oak and rock?" He argued that the reference here is to the communications with the gods that occur through mantic ritual before oak trees and rocks. This seems plausible, as does his idea that the reference to "tree" and "rock" in 1.3 III 22b–23 is also related to similar usage at Ugarit.

In fact, this suggestion leads one to note that all of the items mentioned in lines 22–26 (with the possible exception of the *thmt*) played a significant role in the omen literature of the Near East. The science of finding and interpreting omens was highly developed in Mesopotamia, as well as among the Hittites and in the Levant. To date only a few fragments of omen literature have been found at Ugarit, but they show a strong native strain of the "science," since the texts reveal virtually no dependence on Mesopotamian or Anatolian omen literature.[43] The Mesopotamian omen material is the most extensively preserved. The importance of omens and signs located both in heaven and on earth (the subjects of line 24) is emphasized in a remarkable Babylonian

[43] See Pardee 2002:134–148, for both discussion of the language of the Ugaritic omen texts and for translations. The four preserved omen texts cover malformed fetuses, both animal and human (CAT 1.103+1.145 and 1.140), lunar omens (1.163) and dream interpretation (1.86). See also the more detailed discussions of these texts in Pardee 2000a: 532–64 (1.103+1.145), 763–65 (1.140), 859–71 (1.163), and 457–68 (1.86).

diviner's manual (Oppenheim 1974:204, lines 38f., cited in Binsbergen and Wiggerman 1999:33) which explains to the reader, "The signs on earth, just as those in the sky, give us signals. Sky and earth both produce portents, (and) though appearing separately, they are not, (because) sky and earth are interrelated." Related to the omens in the heavens and the earth are, of course, numerous omens specifically referring to lightning (mentioned in our line 26; for several Mesopotamian examples, see CAD B: *birqu*, 258–59), and those describing unusual situations related to the stars (mentioned on our line 25; cf. *CAD K*: 46–48). What this suggests is that the poet is making use of these elements, all of which may be looked to for signs from the gods, to give the passage a portentous and anticipatory feel.

A related aspect, the emphasis on "word" in this passage, resonates strongly with the usage of such terms in the context of the divine delivery of an oracle, i.e., the pronouncement of a prophetic message from a god to a human recipient, i.e., the word of god. (In the Hebrew Bible, the phrase *dĕbar Yahweh*, "the word of Yahweh," is the most common designation of an oracle (e.g., Jer 1:4, 11; 2:1, 4 *passim*).) In Baal's message, of course, the actual oracle is not given, but is anticipated. However, the repeated promise to reveal the secret word in lines 20b–22 and 28b–29a certainly evokes an oracular context. To date, no clear description of a message from a god to a human has been found at Ugarit,[44] but the ubiquity of the practice of transmitting divine messages through priests and prophets in the Near East makes it highly likely that religious specialists delivered such messages to the king and other officials at Ugarit as well.[45] Thus the message Baal sends

[44] The closest thing we have to a prophetic message at Ugarit is the account of the inquiry made by the enigmatic *'adn 'ilm rbm*, "lord of the many gods" to a certain *dtn*, perhaps the deified founder of the clan to which the king of Ugarit belonged, concerning the sickness of a child (CAT 1.100). *Dtn* answers the enquiry with instructions on how to care for the child. Several elements of this text remain obscure (see Pardee's rendering and discussion 2002:170–72).

[45] From the Levant, see the oracle delivered to the king of Byblos in the story of Wen-Amun (Lichtheim 1976: 225), the message of Baal-Shamayn to Zakkur, king of Hamath and Luash (KAI 202:13–15), and the Balaam vision from Deir Alla, Jordan (Hackett 1980:25–30). There are numerous messages from the gods in the Mari letters. See, for example, Durand 1988: 413–15, letter 192, in which messages from three gods are sent to Zimri-Lim; and pp. 417–19, letter 194, in which a message from Shamash to Zimri-Lim is given. See the discussion of prophetic texts at Mari on pp. 377–412. More directly pertinent, in his discussion of M.15297, Durand (1988:332) characterizes the *rigmu* of the storm-god Addu as "un moment de la fixation du term de validité d'oracle." He comments in a vein quite fitting to our context here: "Certaines fois, l'arrivé de la pluie semble être, par contre, un presage bénéfique".

to Anat draws in a number of broad connotations related to the kinds of communications that the audience would recognize as belonging to the sphere of omens and prophetic utterance, all of which broaden the power of the language employed in the passage.

Some hint of the mantic/incantational subtext of Baal's speech to Anat may be found in a badly damaged and very difficult tablet, RS 92.2016 (Caquot and Dalix 2001:393–405). Labeled "un texte mythico-magique" by the editors André Caquot and Anne-Sophie Dalix, it appears to contain an incantation (lines 2–21), followed by a mythic description of a meeting between Horon[46] and a female deity called "the Queen of the Incantation" (lines 23–38), along with a final presentation of a drink offering to the goddess (line 39). The descriptions in line 7 ("the heat in your flesh") and line 14 ("my [dri]nk is sweat")[47] suggest that the incantation was intended to remove a fever. However, line 22, a rubric marked off from the rest of the text by horizontal lines, refers to childbirth, and Caquot and Dalix (401) note that the term *ḫlm* in line 35" appears elsewhere in the context of the Kotharatu, goddesses related to birth. It is possible then that the ritual described here has to do with childbirth. Despite the difficulty in discerning its context, this text, particularly the incantational part, uses a surprising number of terms found also in Baal's speech. For example, the star or stars (*kbkb*) belonging to several different deities seem to be invoked in lines 8'–12':

]star of stars, may there be no star
]star(s) of heavens (*šmm*) and deep (*thm*)
]star(s) of Baal and Pidray, star(s) of
Koth]ar wa Hasis, star(s) of Ydd and Sd
] star(s) of Qudšu.

As seen in this passage, *šmm wthm*, both important elements of Baal's speech, occur here (*thm* appears also in line 6'). In addition, lines 31 and 32 mention *ʾabn*, "stone," while line 31 also uses the word, *hwt*, so important in Baal's speech. Of interest too, though it is not a strict verbal parallel, is the incantational phrase (in line 16', 20' and probably 21'), *prṯṯ bʿl*, which probably means, "secret of Baal" (Caquot and

[46] This god plays an important role in the Ugaritic incantations RIH 78/20 (CAT 1.170) and CAT 1.100 as well.

[47] The latter rendering is not certain. The word translated "sweat" is *dʿt*, which can also mean "knowledge," in this context either supernatural and incantational knowledge. Both readings of the line fit into an incantational interpretation of the larger context.

Dalix 2001: 400). In this context the secret probably has to do with the healing of sickness (or safe delivery of a child), which is clearly not the specific concern of the Baal Cycle, but its use of the theme of Baal's secret knowledge is certainly related to the similar theme that is the focus of 1.3 III 26–31.

The imagery focused on nature here and in other West Semitic texts might reflect a mythology of natural elements, which in the Baal Cycle have been integrated into a larger narrative centered around anthropomorphic divinities (cf. Shepherd 1995:28). Other texts provide some hint of the sensibility about natural elements that may lie in the background of Baal's speech to Anat. In Ugaritic ritual literature, one snake-bite incantation (1.100.1) invokes "the daughter of the spring, the daughter of stone,//The daughter of the heavens and the abyss" in terms reminiscent of the cosmic locales evoked by Baal in his speech to Anat (see Pardee 2002:186–87). More relevant for the context of Baal's speech is a Sumerian cosmological account (sometimes referred to as the "Barton Cylinder"). In this text, the raging of the storm is represented as the speech of heaven and earth to one another (Alster and Westenholz 1994; Clifford 1994:25): "Heaven (An) spoke with Earth (Ki), Earth (Ki) spoke with Heaven (An)." This image is presented in the context of the beginning of a creation account. In Baal's message, the speech of nature may evoke old cosmological elements that now sing of the world's impending renewal, thanks to the anticipated palace of the storm-god and the full manifestation of his natural power in the storm. In this connection, it is worth noting a more recent proposal suggesting that "tree" and "stone" are allusions to the building-materials which will be used to build Baal's house (Good 1999), although neither word appears in the building narrative later in 1.4 V–VII. If this proposal is correct, echoes of both divination and old cosmological elements may be at work here.

According to van Binsbergen and Wiggermann (1999), divination of cosmic elements and astrology predate the dominance of anthropomorphic deities. In their view, in the attested texts, these older features of the ancient Syro-Mesopotamian religious landscape were situated and partially submerged within the wider praxis of the anthropomorphic divine cosmos.[48] Or, in the terms posed by Horowitz and Hurowitz (1992:115), psephomancy in Mesopotamia "was assimilated to prevailing

[48] The argument is involved, and for readers interested in this view, an examination of the article is recommended.

religious practices, 'Shamashizing' it, while in Israelite religion it was 'Yahwehized'." Correspondingly, at Ugarit, the practice was assimilated into the religious literature and "Baalized" (to use the turn of phrase of Horowitz and Hurowitz). It might be argued that Baal's speech draws on this ancient divinatory worldview in service to his message of cosmological wonder.

Some of the notions related to this passage that we have discussed above enjoyed a long, later life in West Semitic thought and literature. *UBC* 1.176–79 discusses other Ugaritic, biblical and post-biblical texts that seem to refer to the secret language of nature. The theme of the god revealing a cosmic secret is also found in later traditions. For example, the so-called "Hymn to the Creator" from the Qumran cave 11 Psalms scroll (11Q5 = 11QPs^{a}, col. 26) appears to provide a version of this theme. According to lines 11–12 of this text, God "separated light from darkness, the dawn he established with the knowledge (*bd't*) of his heart. Then all his angels saw and sang, for he showed them what they had not known (*lw' yd'w*)."[49] The theme of the divine knowledge hidden from the angels until creation appears to be a development of the type of theme of the cosmic secret found in our text.[50]

The last three poetic lines of Baal's message (lines 29–31) contain expressions for Mt. Sapan reflecting its sanctity (*qdš*), its status as Baal's patrimony (*ġr nḥlty*), its aesthetic aspect (*n'm*), and its character as the place reflecting Baal's victory in the cosmos (*gb' tl'iyt*). The description of a god's place of residence as holy (*qdš*) is common. Presumably the god's presence is what makes the location holy. In this connection, we may note *bn qdš*, a designation of the gods in 1.2 I 21 (on the question of whether it means, "the holy ones," or "the sons of Qudšu," i.e., a title for Athirat, see *UBC* 1.294–95). Yahweh's mountain is accordingly called *har haqqōdeš*, "the mountain of holiness" (Jer 31:23), *gĕbûl qodšô*, "his holy territory" (Ps 78:54), *nĕwēh qodšekā*, "your holy dwelling" (Exod 15:13; cf. Jer 31:24) and *miqqĕdaš*, "sanctuary" (Exod 15:17). Exod 15:17 also captures the patrimonial character of the divine mountain, describing Yahweh's mountain as *har naḥălātĕkā*, "the mount of your inheritance."

---

[49] This theme of the angels at the beginning of creation is attested also in Jubilees 2:2–11 and other Second Temple literature (as recognized by Skehan 1975, followed by VanderKam 1994:14, 16, 2000:505–10, and Weinfeld 1995). Its antecedent appears in Job 38:7, as noted by VanderKam (2000:506, 509–10). This biblical passage in turn reflects an older astral divine family headed by El (Smith 2001a:61–66).

[50] For the homology between temple-building and creation, see the discussion in *UBC* 1.75–87 (with some criticisms in its application to the Baal Cycle).

The root *nḥl* here is legal in character, derived from the realm of family inheritance in West Semitic (Amorite) cultures, attested at Ugarit (*nḥl/nḥlt* in *DUL* 627–28; see also Pardee, *ABD* VI:713; Schloen 1995: 68), Emar (Arnaud 1995; Pentiuc 2001:177), and Mari (*niḫlatum*; see *CAD* N/2:219; *AHw* 712 which identifies the word as a Canaanite loan). Greenfield (1993:36) compared Baal's *nḥlt* to a passage in a Mari letter (A.1121+A.2731.4, 31–33) in which the storm-god Addu of Kallassu demands the town of Alahtum as a *niḫlatum* (Durand 2002:137–38; Fleming 2000b:114, 138; Malamat 1998:109). Both the Baal Cycle and the Mari letter apply *nḥlt* to the divine property analogically: just as the family has a legal right with respect to the family land, so too the deity has a legal claim to his/her sanctuary. From the more mundane aspect, this reflects, as the Mari letter shows, the practice of the deity's priests making the legal claim explicitly for the god and implicitly for themselves.

A poetic reference to the beauty of the divine mountain (*bnʿm*, line 31) is less commonly attested, but Cassuto (*GA* 129) and Greenfield (1990:164) compare *nʿm* in Ps 27:4: "One request I have of Yahweh, it I seek, for me to dwell in the house of Yahweh all the days of my life, to gaze on the pleasant place (*nʿm*) of Yahweh and to make inquiry in his temple." To capture the aesthetic quality of the divine mountain, BH also uses the word, **ypy*, "beautiful," *yĕpēh nôp*, "beautiful of height" (Ps 48:3); and *miklal-yōpî*, "utterly beautiful" (Ps 50:2).

The last three lines, 29–31, contain terms applied to Baal's enthronement in 1.101.1–4 (see Irwin 1983):

bʿl yṯb kṯbt ǵr	Baal sits (enthroned), like the sitting of a mountain,
hd r[ʿy] k mdb	Hadd the she[pherd], like the flood,
btk ǵrh ʾil ṣpn	In the midst of his mount, Divine Sapan,
b[m] ǵr tlʾiyt	On the mount of victory.

In both passages the mountain appears to take on its patron's divinity, becoming "the Divine Ṣapan" (see Lambert 1990; Smith 2001a:93–97). This is not simply poetic license. Mt. Ṣapan appears in the god and offering lists from Ugarit (e.g., CAT 1.118.14; 1.148.6, where a ram (*šʾ*) is listed as the offering; 1.41.34, 42; 1.46.4, 7, where the offering is an ewe (*dqt*); 1.105.24, where it is a bird (*ṣʿṣr*); and the Akkadian text RS 20.024.14, where the name is written ^{d}*ḪUR.SAG.ḫa-zi* [Mt. Ḫazzi = Mt. Ṣapan]; see Pardee 2002:12–16, 26–29). The notion that Mt. Ṣapan was divine was not restricted to Ugarit. Mount Hazzi appears also in an Anatolian ritual from Emar with the dingir sign, Emar 476.21'; cf. ^{d}*Kur gal*, another divinized mountain, in Emar 378.3). In

Papyrus Sallier, the mountain appears in a list of Egyptian and Syrian deities (Hoch 1994:384). Baal's intimate connection with Ṣapan is clear from the use of the title *bʿl ṣpn* in several texts (e.g., the god lists, cf. the entry in the god-lists in Pardee 2002:14). The connection also appears in names, e.g., BH place-name *baʿal ṣĕpôn*; Punic personal name *ṣpnbʿl*; and Akkadian *baʿal-ṣapuna/baʿli-ṣapuna* (see Koch 1993a; Hoch 1994:323, 384; Fauth 1990; for Latin Mons Casius and Zeus Casius, see Turcan 1996:171–72). The elaborate description of the mountain in the last lines of the message intimates the importance of the mountain for the upcoming events of the narrative. It will be on this mountain that the palace for Baal will be built, and thus from this mountain that the fructifying rains will issue forth to the world.

Patrimony and beauty are linked to power on Baal's mountain, the site of *tlʾiyt*, "victory" (cf. 1.19 II 35). It is both the location where the actual conflict occurs and the place where the victory is celebrated. The word *tlʾiyt* echoes Baal's own epithets mentioned at the outset of his message, namely *ʾalʾiyn bʿl* and *ʾalʾiy qrdm* (for these titles see *UBC* 1.153). Akkadian texts from Ugarit use *qarrādu* as a royal title (e.g., RS 17.68.4 in *PRU* IV, 164; PN Baʿal-qarrad, a priest at Emar, discussed by Singer 1995:58). The military emphasis on Baal's character and that of his cosmic home in the Baal Cycle may have found particular favor in the royal-priestly circles that patronized the production of this text. While fertility is an important dimension of Baal's character, it is given less consideration in the Baal Cycle than elsewhere (e.g., 1.16 III). The issue of Baal's status among the gods and thus his (and Anat's) conflicts with other deities overshadow the theme of fertility. While non-elites might focus on fertility, it seems likely that political issues within Ugarit played a significant role in the way the poem is presented here. The position of Baal in the pantheon and the central role played by the temple that becomes the focus of this story certainly reflect the royal/priestly views of the author and sponsors of this literary work. Baal as grantor of fertility and well-being becomes the type for the king and his function within the state (a similar view appears in Israel, illustrated by Psalm 72, esp. verses 6–9 and 16). The central importance of the temple/palace of Baal in Ugarit (presumably identified with the palace on Mt. Ṣapan) for the wellbeing of the citizenry is re-enforced by the focus on the temple as the beginning point of Baal's blessing to the world (for further discussion of this interpretation, see above Introduction, pp. 58–67).

This speech is perhaps the most beautiful poem in all Ugaritic literature. While certain elements of it were apparently drawn from a formula for divine messages, the particular version here, with its additions of the reference to lightning in line 26 and its description of Mt. Ṣapan in lines 29–31, may be placed in the ranks of the finer literary works of Mesopotamia and Israel.

Baal's message is followed by a pair of horizontal lines demarcating it from the following scene, which shifts, rather abruptly, to Anat spying the messengers as they approach her palace (Horwitz 1979:392). Such lines, while relatively rare, were used for a variety of purposes on tablets written by Ilimalku. For example, the scribe used them at times to mark the text off from the colophon at the end of the tablet (see 1.6 VI, after line 53; and RS 92.2016, after line 39). Double lines were also used often, but not consistently, to mark the end of a column (1.4 I; 1.6 II; 1.12 I and II; 1.14 II [here apparently a single line]; 1.15 I and II). But in two, possibly three cases, including the one under discussion (along with 1.4 V, after line 41 and probably 1.4 VIII, after line 47—see below), the lines have a different function. The occurrence that illuminates most clearly their particular role within the text is the set of lines in 1.4 V. In the preceding lines (lines 35–41), Baal prepares to build his palace, and in line 41 he sends for Kothar-wa-Hasis. At this point on the tablet Ilimalku drew two horizontal lines across the column, below which he placed the following instruction: "And return to the recitation about when the lads are sent." This note is followed by another horizontal line before the story resumes with Kothar's arrival at Baal's mountain. It is clear that the two lines mark a point at which the person reciting the story is expected to fill in the account of the messengers journeying to the palace of Kothar, summoning him to Baal and his journey there. Ilimalku has made this explicit in 1.4 V with his instructions. But it is clearly a similar situation in 1.3 III as well. The double lines following 31 also indicate a missing section of the story, which was expected to be filled in by the storyteller during his recital. Here less of the story has been left out, but it seems likely that the storyteller is supposed to describe the journey of the messengers, using the common formulas for such accounts. Some hint of what the missing section contained may be found in 1.2 I 19–20 and 1.5 I 9–11, which contain standarized accounts of the messengers hastening on their journey. Dijkstra (1986:152) suggested that the entirety of the battle described in column II would have been repeated here in order

to set the scene for the messengers' arrival. While this is possible, there is no certainty about this.

Lines 32–47: Anat's Reaction to the Messengers' Arrival

Following the double lines, the narrative resumes with Anat noticing the approach of Baal's messengers. Whether this is understood as picking up the previous scene with Anat, in which she is washing and beautifying herself and perhaps singing the song described in III 4–8, or whether there is no real connection, cannot be determined with certainty. But the syntax of line 32 may signal such a resumption. The use of a presentative particle + subject + **yqtl* verb is hardly the sort used to begin a new section (which may consist, for example, of a temporal particle + **yqtl* indicative, with the subject following). The syntax here focuses on the goddess *in medias res*. The cases of the similar syntax in 1.3 II 5b–7 and 17–18 are instructive here. In these lines, Anat is described with *whln* + subject + **yqtl* verb as in III 32. In both cases, *whln* assumes the background information and narrative introduction provided in 1.3 II 3–5a. The same may apply in III 32: *hlm ʿnt tph ʾilm* may resume the narrative line from 1.3 III 1–2 (and perhaps 1.3 III 4–8, if these lines are narrative and not direct discourse, an issue discussed above).

In 1.3 III 32–35, Anat responds to the sight of Baal's messengers with a series of physical reactions that convey her great fear. The goddess is concerned that this unexpected visit presages bad news. The poet uses identical language in 1.4 II 12–20 in describing Athirat's reaction to Baal and Anat when she sees them coming. Both Anat and Athirat break into a physical frenzy, first in their feet, then their loins, face, joints and back; in other words, each goddess appears more than simply afraid or fearful (note the lack of terms for fear such as **yr'//ṯtʿ* as in 1.5 II 6–7 and 1.6 VI 30–31). Perhaps a more precise understanding of the bodily reaction may be inferred from the language shared between line 34 and 1.2 IV 25 where the defeated Yamm (*tngṯsn pnth*, "His joints convulsed") is said to suffer in the same manner as Anat (*tgṯs pnt kslh*, "The joints of her loins convulsed"). From this comparison, it might be suggested that the goddess' body expresses a sense of potential defeat. In short, the goddess is panic-stricken (for the physiology of panic, see Nesse 1988, 1990:270–71; LeDoux 1998:227–30, 259–60). Interestingly, panic serves functions of communication: "facial and vocal expressions of fear solicit aid and warn kin of danger" (Nesse 1990:271); and family, in this case Baal, is precisely Anat's concern. The same is true for

Athirat in 1.4 II; she expresses concern for her children (lines 24–26). In both passages, the description of the goddesses' physical reaction is followed by a verbal outburst. This type of description (physical reaction to a visitor, followed by verbal reaction) appears to be a set literary convention. We can also see it in passages such as 1.4 IV 27–39, in the story of Athirat's arrival before El. Here, in a cordial context, we still find the description of El's reaction to her arrival. Here it is one of happiness and anticipation, rather than fear. Like 1.3 III 32, this passage also begins with *hlm* followed by a form of the verb **ph(y)*, and it continues with several formulae present in 1.3 III 32–36//1.4 II 12–26. The narrative then continues with a speech by El. It is worth remembering that this order corresponds to current physiological theories that argue that the body often reacts to an unexpected situation prior to the conscious identification of an emotional reaction by the individual (LeDoux 1998; see Excursus I above on pp. 164–74). One may note that in the lines preceding Athirat's noticing the arrival of Baal and Anat, she is described as taking part in her characteristic activities of doing the domestic chores (lines 3–11). With the strength of the parallels in the succeeding lines, we may suggest that Anat too may be assumed to have been performing her characteristic activities prior to the point where she sees the messengers approaching. It would seem that those activities would likely be washing and beautifying herself (1.3 II 38–1.3 III 2), and perhaps singing (1.3 III 4–8).

Descriptions of this kind of physical collapse are not confined in Ugaritic literature to Anat and Athirat. Such descriptions represent a standard convention in West Semitic literature (cf. Ginsberg 1946:46; Held 1965b; and Hillers 1965). The phrases in 1.3 III 32–35 and 1.4 II 16–20 are used again in 1.19 II 44–47 (in a slightly different order) to describe Danil's reaction to the news of Aqhat's death (Parker 1989b:124). The response of the divine council to the arrival of Yamm's messengers in 1.2 I 21–24 is also described in physical terms, as they lower their heads to their knees (for a more precise analysis of the divine council's reaction as deference or submission, see *UBC* 1.297–300). Biblical parallels presented by Hillers (1965) as well as Held (1965b) are discussed below.

The first line of the passage, *hlm ʿnt tph ʾilm*, is a formula (see also in 1.2 I 21b–22a). Each of the three following lines consists of three words in identical syntactical order, namely a prepositional phrase, noun, and a verb denoting the effect on the body-part. The syntax of the first line, *bh pʿnm tṭṭ*, is clear, but that of the second and third is more ambiguous.

In the first line the singular suffix on the preposition *b*, followed by the dual noun *p'nm* shows that the suffix does not govern this noun as an anticipatory pronoun. Thus we read literally, "Upon her, the two feet shake." (For another example of initial adverbial *'l*, see 1.19 IV 46: *w'l tlbš npṣ ʾaṯt*, "and on top she put on a woman's garment.") Because of the identical positioning of the elements of the second and third lines, it seems likely that they contain the same syntax, and thus the nouns here are not objects of the preceding prepositions. However, it is theoretically possible that the two lines differ syntactically from the first line and join the nouns with the preceding prepositions. Such is attested in the bicolon in 1.16 VI 48–50: *lpnk ltšlḥm ytm/b'd kslk 'almnt*, "You don't feed the orphan who faces you, /Nor the widow who stands at your back" (Greenstein, *UNP* 41). However, the poetic parallelism would tend to support the former interpretation. In this case the nouns are best understood as the subject of the verbs, taken as **yaqtul* indicatives (at least the first two verbs, *ttṭ* and *tṯbr* would be **yaqtul* since the putative subjects are dual or plural, while the third verb *td'* could be either **yaqtul* or **yaqtulu* given the singular form of its subject). Alternatively, the nouns might be interpreted as adverbial accusatives, with Anat understood as the subject of the verbs, which would then be **yaqtulu* indicative forms.

The reactions described in this tricolon all have parallels in other Near Eastern literature. The first line in the description of Anat's reaction is perhaps comparable to Belshazzar's knees knocking together upon seeing the disembodied handwriting on the palace wall (Dan 5:6; cf. *ANET* 132 n. 18; Held 1965b; Waldman 1969:251–52). The second line reads, "Around, (her) loins tremble" (cf. *b'dh* in 1.100.71–72), translated perhaps more prosaically, "her back muscles snap" (so Pardee 1997a:252). The Enuma Elish (4:87–90; cf. Watson 1978:401) describes Tiamat's reaction to Marduk's challenge to single combat in very physical terms: "Her lower limbs (*išdāša*) trembled everywhere, to their roots." In biblical literature, this reaction is attested in Ezek 21:11, "As for you, son of man, moan with breaking of loins (*bĕšibrôn motnayim*), and with bitterness shall you moan before their eyes" (as noted by Ginsberg in *ANET* 132 n. 18). BH *motnayim* is comparable to Ugaritic *ksl*. In Isa 21:2–3 the prophetic figure expresses fear at the divine message, the "hard vision" (*ḥāzût qāšâ*) which he is receiving. So he responds: "This is why my loins (*motnay*) are wracked with shuddering; I am seized with pains like the pains of a woman in labor; I am too distressed to hear, too afraid to see." Just as the speaker of this verse has a negative physical

reaction to the divine message, so too the bodies of Anat and Athirat (in 1.4 II 12–20) are wracked with fear at the sight of the messengers because of the disastrous message which they may bear (cf. Job 41:17). Nahum 2:11 includes a melting heart (*lēb nāmēs*), buckling knees (*ûpîq birkayim*) and trembling loins (*weḥalḥālâ bĕkol-motnayim*) as responses to panic at the news of destruction.

In the third line, Anat's face is the subject: "Above, her face sweats." Biblical descriptions of panic at bad news rarely include mention of the face, but it is found in Nahum 2:11, just cited above: *ûpnê kullām qibbĕṣû pā'rûr*, "all faces grow pale(?)" and similarly in Joel 2:6: *kol-pānîm qibbĕṣû pā'rûr*, "Every face grows pale(?)". In these two prophetic passages, as well as in other biblical texts (e.g., Ps 48:6–7), the response of panic involves "trembling" (**ḥw/yl*).

The next bicolon (lines 34–35) continues the description of Anat's physical reaction, now with a **yqtl* indicative verb in initial position, the customary means of signaling the continuation of the narrative (APO). In these lines, the focus is on her bones: as Pardee (1997a:252) renders: "her vertebrae rattle, her spine goes weak" (for the ellipsis of the antecedent of *dt*, see Sivan 1997:215). In this rendering, as in the translation offered in this commentary above, *'anš* is understood as a verb parallel to *tġṣ*. Given the rarity of these two roots in parallelism, and given the common pattern of a verb appearing only in the A line of a biclon, it is possible that *'anš* is the nominal (or nominalized passive participle?) antecedent of *dt* ("the weak [or weakened] ones of her back"?). In either case, this reaction, like the other ones, has parallels. As noted above, it is mentioned in Yamm's battle with Baal in 1.2 IV 17–18//25–26 (see *UBC* 1.349–51). In Job 4:12–15 Eliphaz describes the fear engendered by the appearance to him of a mysterious supernatural being. In the passage he states, "and all my bones were filled with dread" (*wĕrōb 'aṣmôtay hipḥîd*). Like the prophetic figures mentioned above, Daniel physically suffers upon receiving the divine message (Dan 10:8, 16–17). These verses convey the notion of a loss of physical strength because of the experience of revelation.

Anat's physical reaction is matched in lines 35–38 by her verbal reaction, which voices her particular concern. The narrative introduction to Anat's speech with *tš'u* (an indicative **yqtl* verb) in the initial position, marks narrative continuity with the preceding actions; it is also a common formula (note that it occurs also in the identical context in 1.4 II 21 and 1.19 II 47b–48a, but it is used *passim*; for parallels and discussion, see Polak 2006:290–95). The following *wtṣḥ*,

is another **yqtl* indicative. In his study of *tš'u gh wtṣḥ* and its parallels in Akkadian, Biblical Hebrew and Aramaic, Polak (2006:296) regards the initial clause of this speech-opening formula as inceptive and the second verb as constituting the main action. The first line of Anat's speech (line 36), *'ik mġy gpn w'ugr*, is also a common formula for the beginning of speeches in the context of a visitor's unexpected arrival (see 1.4 II 21b–24a and 1.4 IV 31). It is a natural response to the situation, posing the question of the reason for the visit. The verb **mġy*, "to arrive," is very common in Ugaritic (1.4 II 22, III 23, V 44; 1.15 II 11; 1.20 II 6, 1.100.67; 2.31.45; 2.34.11; 2.61.4; 2.76.3; 2.80.10). Held (1962:289 n. 1) believed that this root was a variant of Ugaritic **mẓ'*, cognate with BH **mṣ'*, Aramaic *mṭ'/mṭy*, Arabic *maḍa*, "to pass," and ESA *mẓ'*, "to go, proceed, reach" (Beeston 1982:89–90; Biella 273; note also ESA *mṭw*, advance" cited in and compared by Biella 272–73 to Arabic *maṭa*, "hurry" and Aramaic *mṭā*, "reach"; see also Leslau 375). Blau (1972:67–72) disputed the equivalence, but Greenfield (1994:88 n. 10) faulted Blau for overlooking the various correspondences which Ugaritic *ġ* shows with PS **ṯ* (see further Garr 1986:48 nn. 25, 27). Despite Greenfield's well-placed misgivings, Blau's arguments cannot be entirely dismissed (cf. the discussion of Ugaritic *ġr* above).

One could translate the line, "How have Gapan and Ugar arrived?" (i.e., have they arrived in good health?). However, it is clear that that is not the thrust of the question in this context. Rather, the particle *'ik* bears the force of asking why they have come (Ginsberg 1944:26 n. 7, 1946:35; *pace* Sivan 1997:182). The same is true for the parallel passages, 1.4 II 21b–24a and IV 31–32. A similar occurrence is found in the Hittite translation of the West Semitic myth of Elkunirsa and Ashertu, when Elkunirsa (that is, El) poses a similar question to Baal upon his arrival: "[Why] have you come?" In his response Baal tells El: "I have not come to you [as] a messenger" (Beckman 1997:149).

The second and third lines of the tricolon, closely parallel syntactically and semantically, reveal the reason for Anat's fear and concern. Has Baal again been attacked? It is unclear whether *mn* means "who" or "what" in this context. Sivan (1997:59) discusses usages of *mn* in both meanings. If we interpret it as the former, the question means, "who is the enemy who has appeared against Baal?" For this syntax Sivan compares the prosaic *mn bnš d l'ikt*, "who is the person whom you have sent?" But Sivan (1997:59, 60) also cites *mn yrḫ*, "what month" (1.16 II 19–20) and *mnm rgm*, "whatever word" (2.11.16; 2.12.12–13; 2.68.14–16), and so the phrase *mnm 'ib* may mean "what enemy." Either

interpretation seems plausible here. A parallel biblical usage may appear in Deut 33:11: *ûmaśn'āyw min-yĕqûmûn*. Grasping the difficulty of MT *min*, normally a preposition meaning "from," even NJPS—as faithful as it is usually to the MT—renders: "Let his enemies rise no more." NAB translates the whole bicolon: "Break the backs of his adversaries//and of his foes, that they may not rise." Although both translations are true to the syntax of the lines, neither faces the difficulty of the word *mn* here. It would appear, given both the use of *mn* and the larger context relating to enemies, that a final interrogative is involved ("…of his foes—which ones could arise?") or perhaps a final relative clause ("…of his foes who would arise?"). That this biblical line involves an interrogative use of *mn* is suggested not only by the Ugaritic usage in 1.3 III 36//1.3 IV 4, but also from the interrogative usage in Gen 49:9//Num 24:9 (cf. Ps 61:8), which involve a question similar to the one posed by Anat: *mî yĕqîmennû*. This question is usually understood as a reference to the image of the lion in the line: "who dare rouse him (the lion)?" While this translation (found, for example, in NJPS) is idiomatic English, it may disguise the more precise sense of the verb. Given the use of **qwm* for enemies in both BH and Ugaritic (e.g., 1.10 II 25) as well as the usage attested in Deut 33:11, it might be considered whether the verb in Gen 49:9//Num 24:9 is an energic indicative meaning, "who rises up (as enemy)?" If this was the original sense, it is not difficult to understand how it was lost in later interpretation, since the energic indicative became rare later in Hebrew and the ending on the verb became secondarily understood as a suffix.

Either of two roots could underlie **yp‘* in Ugaritic and in Hebrew, as both languages show the shift of the initial /w/ > /y/. PS **yp‘* apparently underlies Ugaritic **yp‘*, "to arise," in 1.19 II 16: *ynp‘ bp'alt bṣql*, "may (this) stalk arise in the parched land." In ESA, the root **yf ‘* is used in this manner: "any enemy who continues to rise against them (*yfʿhmw*)" (so Biella 233). The second possible root, PS **wp‘*, apparently underlies the PN *yp‘b‘l* (*PTU* 117, 144), given the PN Ba‘alwapi‘ in Emar documents (see Arnaud 1991:166; for WS and Arabian PNs with this root, see *WSS* 505.) *HALOT* (424) compares Akkadian *(w)apû*, "to be visible" and *šūpû*, "to make visible" and BH *hôpîʿâ* (e.g., Deut 33:2; Pss 50:2, 80:2). Appealing to the two psalm verses, P. D. Miller (*DW* 77–78) renders Anat's question: "what enemy has *shone forth* against Baal?" Both Proto-Semitic roots appear to be used in contexts of divine conflict, and as a result of their contextual compatibility, in Ugaritic usage, as well as in Hebrew, the two roots may have coalesced

in form. As a result, the originally different meanings of the two roots may have been seen by ancient users of the language as the semantics of a now single root.[51]

The initial pair of lines in Anat's speech, lines 37–38a, also occurs at the very end of the same speech in 1.3 IV 4. They therefore serve as a frame for the entire speech (III 34–IV 4). Inside this frame, Anat refers to a number of cosmic enemies of Baal whom she claims to have defeated. The list is somewhat startling, since it includes a number of deities whose defeat is attributed to Baal elsewhere in the cycle (Yamm//Nahar in 1.2 IV, *bṯn//šlyṭ* in 1.5 I 1–3). This apparent contradiction has led to considerable discussion. Some scholars have proposed that these lines refer to a battle that Anat fought with cosmic enemies who were defeated prior to the creation of the world (as is the case in Israelite tradition in Psalm 74:12–17 and other biblical texts including Job 7:12; 26:7–12; 38:4–11; Prov 8:29, as well as in the Mesopotamian creation epic; see below). Such a tradition would be quite significant, since there is no other creation story from the Near East in which a female deity defeats the primeval forces of chaos. But this interpretation seems unlikely, in view of the fact the Ugaritic texts appear to attribute the creation of the world (the standard outcome of the cosmic battle) to El (cf. El's epithets, *bny bnwt*, "creator of creatures," *ʾab bn ʾil*, "father of the sons of El," and *ʾab ʾadm*, "father of humanity"), and never to Anat (or Baal). In the same way that the story of Baal's combat with Yamm appears unrelated to creation mythology in 1.2, it seems likely that the battles described here were not connected to the creation, but rather to another episode concerned with Baal's acquisition of status

[51] There are some other examples of the process of coalescing roots. West Semitic *ʾiṯ*, a sacrificial term in Ugaritic, and *ʾiš*, "fire" (cognate with Ugaritic *ʾišt*) coalesced in BH *ʾiššeh* as an offering made by fire (*BDB* 77–78). It seems unlikely the biblical authors recognized BH *ʾēš* and *ʾiššeh* as two entirely different words. One Hebrew root may serve as a further illustration, namely the verb *taʿăzôb* in Ps 16:10, often derived from the old or original root **ʿḏb* > BH **ʿzb*, "to put, place," as suggested by the parallelism with **ntn*, "to give" (Dahood 1966:90–91). The meaning "abandon, leave" from the PS root **ʿzb* which merged with the root **ʿḏb* (both became **ʿzb* in Hebrew) does not suit the context, and it may be argued that the original root therefore was **ʿḏb* > BH **ʿzb*, "put, place." For the author of this psalm, however, this distinction did not exist; rather, the author associated within this one Hebrew word the range of meanings and connotations of the two original roots, **ʿḏb* and **ʿzb*. Another case may be *ʿôlām* in Eccles 3:11, but the word is highly debated, and a discussion of it lies beyond the scope of this digression (see Smith 2001b:217, 236 n. 163). The delineation of other examples of words in West Semitic languages with coalesced consonants remains a desideratum in lexicographical research.

within the council of the gods.[52] In fact, these deities, like Yamm in 1.2 and Mot in 1.5–6, are portrayed here specifically as enemies of Baal, not particularly as foes of Anat or of the cosmic order as such. However, one should also keep in mind that this passage could represent a separate, parallel tradition about Baal's conflict with Yamm, in which Anat played a key role, but which was unused in the Cycle except for this reference. In this case we would assume that the poet made no effort to harmonize the two distinct traditions (cf. Cross 1973:149).

A general issue still unresolved about these lines is whether these cola are declarative sentences or questions. Many commentators regard them as questions (e.g., Ginsberg, *ANET* 137; Caquot, *TO* 1.167), perhaps in keeping with the question which frames the speech, but this view is not necessary, and these cola may just as easily be regarded as declarative statements (Pardee 1984; 1997a:252). There appears to be no clear way to resolve this issue, and in the translation they have been rendered as statements, although the alternative remains plausible.

The verb that clearly dominates this section and serves as a *Leitwort* for this part of Anat's speech is **mḫṣ*, in the *G*-stem form, "to strike down, smite, crush, and in the *Gt*-stem, "to fight" (the form *mḫšt* almost certainly derives from this root, the *ṣ* dissimilating to *š* when followed directly by the *t*; see Held 1959; Sivan 1997:23, 28; Hutton 2006:78–80). The passage from line 38b to 47a may be subdivided into a tricolon, two bicola and a second tricolon, each unit beginning with the verb *mḫšt* (cf. Pardee 1984:252–55, and 1997a:252, who divides the lines differently in each case). There can be no doubt that this verb is 1st common sg., as it stands in parallelism with four certain first person forms in lines 40 and 46b–47a (Ginsberg 1941:13). Four of the five other verbs used in these lines are closely related semantically to **mḫṣ*, though only two of them are without serious ambiguity (*klt*, "I finished off," and *ṣmt*, "I destroyed"; for the latter, see 1.3 II 8). The twice-used *klt* (<**kly*) is applied also to Baal's destruction of Yamm at the end of 1.2 IV 27, and a form of the root *ṣmt* is found in 1.3 II 8, in parallel with a form of *mḫṣ*, as we find here. The other two are less certain in meaning: *'ištbm*, often thought to derive from *šbm*, "to muzzle" (?)

[52] Pardee (1997a:252 n. 91) suggests that this battle might have been a sequel to Baal's conflict with Yamm in 1.2, or perhaps related to the broken reference to someone being driven from his throne in 1.1 IV 24–27. Gibson (1984:211) suggested that the episode constitutes the first encounter between Yamm and Baal and perhaps belonged in the lost first column of 1.1.

(Dietrich and Loretz 1982; see further below); and *ʾištm[ ]hʾ* which suffers from key epigraphical uncertainties, with correspondingly ambiguous etymological origins. The most likely restoration of the latter is *ʾištmdh*, "I destroyed him," or, as plausibly suggested by Hutton (2006:80–81), "I harnessed him" (see below). The fifth verb, *ʾitrṯ*, in line 46b–47a, moves this part of Anat's speech into a different subject (see below).

The pair of **qtl* forms, *mḫšt* and *klt*, appear in parallel twice, in the two tricola, lines 38b–40 and 45–47, thus framing the small section of the speech in lines 38–47. Each pair is accompanied additionally by a third colon that contains two first person singular *Gt*-stem **yqtl* verbs. The third line of the final tricolon begins appropriately with *ʾimtḫṣ*, a form of the dominant root for conflict in the passage.
